

K-12 Collective Bargaining Agreement Data for Certificated Instructional Staff Data as of December 2023

In 2019, the Washington State Legislature passed Engrossed House Bill 1109, Sec. 501(w), which stipulates:

“Districts shall report to the office [of the superintendent of public instruction] the results of each collective bargaining agreement for certificated staff within their district using a uniform template as required by the superintendent, within thirty days of finalizing contracts. The data must include but is not limited to: Minimum and maximum base salaries, supplemental salary information, and average percent increase for all certificated instructional staff. Within existing resources by December 1st of each year, the office shall produce a report for the legislative evaluation and accountability program committee summarizing the district level collective bargaining agreement data.”

The data collected by the Office of Superintendent of Public Instruction has been organized by legislative district by the LEAP office. This document reflects updates for district submittals for calendar year 2023; the report year is highlighted in blue. Please note that not all districts negotiate bargaining agreements each year.
