2 **Sec. 201.** 2003 c 360 s 201 (uncodified) is amended to read as
3 follows:

4 **FOR THE WASHINGTON TRAFFIC SAFETY COMMISSION**

5	Highway Safety Account--State Appropriation	\$2,017,000
6	Highway Safety Account--Federal Appropriation	(\$15,744,000)
7		<u>\$15,742,000</u>
8	School Zone Safety Account--State Appropriation	\$3,059,000
9	TOTAL APPROPRIATION	(\$20,820,000)
10		<u>\$20,818,000</u>

11 The appropriations in this section are subject to the following
12 conditions and limitations:

13 (1) The commission may oversee up to four pilot projects
14 implementing the use of traffic safety cameras to detect failure to
15 stop at railroad crossings, stoplights, and school zones.

16 (a) In order to ensure adequate time in the 2003-05 biennium to
17 evaluate the effectiveness of the pilot program, any projects
18 authorized by the commission must be authorized by December 31, 2003.

19 (b) If a county or city has established an authorized automated
20 traffic safety camera program under this section, the compensation paid
21 to the manufacturer or vendor of the equipment used must be based only
22 upon the value of the equipment and services provided or rendered in
23 support of the system, and may not be based upon a portion of the fine
24 or civil penalty imposed or the revenue generated by the equipment.

25 (c) The traffic safety commission shall use the following
26 guidelines to administer the program:

27 (i) Traffic safety cameras may take pictures of the vehicle and
28 vehicle license plate only, and only while an infraction is occurring;

29 (ii) The law enforcement agency of the city or county government
30 shall plainly mark the locations where the automated traffic
31 enforcement system is used by placing signs on street locations that
32 clearly indicate to a driver that he or she is entering a zone where
33 traffic laws are enforced by an automated traffic enforcement system;

34 (iii) Cities and counties using traffic safety cameras must provide
35 periodic notice by mail to its citizens indicating the zones in which
36 the traffic safety cameras will be used;

37 (iv) Notices of infractions must be mailed to the registered owner
38 of a vehicle within fourteen days of the infraction occurring;

1 (v) The owner of the vehicle is not responsible for the violation
2 if the owner of the vehicle, within fourteen days of receiving
3 notification of the violation, mails to the issuing law enforcement
4 agency, a declaration under penalty of perjury, stating that the
5 vehicle involved was, at the time, stolen or in the care, custody, or
6 control of some person other than the registered owner, or any other
7 extenuating circumstances;

8 (vi) Infractions detected through the use of traffic safety cameras
9 are not part of the registered owner's driving record under RCW
10 46.52.101 and 46.52.120;

11 (vii) If a notice of infraction is sent to the registered owner and
12 the registered owner is a rental car business, the infraction will be
13 dismissed against the business if it mails to the issuing agency,
14 within fourteen days of receiving the notice, a declaration under
15 penalty of perjury of the name and known mailing address of the
16 individual driving or renting the vehicle when the infraction occurred.
17 If the business is unable to determine who was driving or renting the
18 vehicle at the time the infraction occurred, the business must sign a
19 declaration under penalty of perjury to this effect. The declaration
20 must be mailed to the issuing agency within fourteen days of receiving
21 the notice of traffic infraction. Timely mailing of this declaration
22 to the issuing agency relieves a rental car business of any liability
23 under this section for the notice of infraction. A declaration form
24 suitable for this purpose must be included with each automated traffic
25 infraction notice issued, along with instructions for its completion
26 and use;

27 (viii) For purposes of the 2003-05 biennium pilot projects,
28 infractions generated by the use of traffic safety cameras are exempt
29 from the provisions of RCW 3.46.120, 3.50.100, and 35.20.220, and must
30 be processed in the same manner as parking violations; and

31 (ix) By June 30, 2005, the traffic safety commission shall provide
32 a report to the legislature regarding the use, public acceptance,
33 outcomes, and other relevant issues regarding traffic safety cameras
34 demonstrated by the pilot projects.

35 (2) \$210,000 of the highway safety account--state appropriation is
36 provided solely for continuing the five existing DUI/traffic safety
37 task forces that receive federal project funding that expires during

1 the 2003-05 biennium. However, the appropriation in this subsection
2 may only be expended for a task force when the federal funding for that
3 task force has expired.

4 (3)(a) \$1,555,000 of the school zone safety account--state
5 appropriation is provided solely as matching funds for the following
6 school safety enhancement projects, as proposed by local agencies,

27 **Sec. 225.** 2003 c 360 s 225 (uncodified) is amended to read as
28 follows:

29 **FOR THE DEPARTMENT OF TRANSPORTATION--MARINE--PROGRAM X**

30 Puget Sound Ferry Operations Account--State

31	Appropriation	((\$309,580,000))
32		<u>\$311,744,000</u>
33	Multimodal Transportation Account--State Appropriation . . .	\$5,120,000
34	TOTAL APPROPRIATION	((\$314,700,000))
35		<u>\$316,864,000</u>

36 The appropriations in this section are subject to the following
37 conditions and limitations:

1 (1) The appropriation is based on the budgeted expenditure of
2 (~~(\$34,701,000)~~) \$35,348,000 for vessel operating fuel in the 2003-2005
3 biennium. If the actual cost of fuel is less than this budgeted
4 amount, the excess amount may not be expended. If the actual cost
5 exceeds this amount, the department shall request a supplemental
6 appropriation.

7 (2) The appropriation provides for the compensation of ferry
8 employees. The expenditures for compensation paid to ferry employees
9 during the 2003-2005 biennium may not exceed \$207,757,000 plus a dollar
10 amount, as prescribed by the office of financial management, that is
11 equal to any insurance benefit increase granted general government
12 employees in excess of (~~(\$495.30)~~) \$504.89 a month annualized per
13 eligible marine employee multiplied by the number of eligible marine
14 employees for fiscal year 2004 and (~~(\$567.67)~~) \$583.79 a month
15 annualized per eligible marine employee multiplied by the number of
16 eligible marine employees for fiscal year 2005, a dollar amount as
17 prescribed by the office of financial management for costs associated
18 with pension amortization charges, and a dollar amount prescribed by
19 the office of financial management for salary increases during the
20 2003-2005 biennium. For the purposes of this section, the expenditures
21 for compensation paid to ferry employees shall be limited to salaries
22 and wages and employee benefits as defined in the office of financial
23 management's policies, regulations, and procedures named under objects
24 of expenditure "A" and "B" (7.2.6.2).

25 The prescribed salary increase or decrease dollar amount that shall
26 be allocated from the governor's compensation appropriations is in
27 addition to the appropriation contained in this section and may be used
28 to increase or decrease compensation costs, effective July 1, 2003, and
29 thereafter, as established in the 2003-2005 general fund operating
30 budget.

31 (3) \$4,234,000 of the multimodal transportation account--state
32 appropriation and \$800,000 of the Puget Sound ferry operations
33 account--state appropriation are provided solely for operating costs
34 associated with the Vashon to Seattle passenger-only ferry. The
35 Washington state ferries will develop a plan to increase passenger-only
36 farebox recovery to at least forty percent by July 1, 2003, with an
37 additional goal of eighty percent, through increased fares, lower
38 operation costs, and other cost-saving measures as appropriate. In

1 order to implement the plan, ferry system management is authorized to
2 negotiate changes in work hours (requirements for split shift work),
3 but only with respect to operating passenger-only ferry service, to be
4 included in a collective bargaining agreement in effect during the
5 2003-05 biennium that differs from provisions regarding work hours in
6 the prior collective bargaining agreement. The department must report
7 to the transportation committees of the legislature by December 1,
8 2003.

9 (4) \$866,000 of the multimodal transportation account--state
10 appropriation and \$200,000 of the Puget Sound ferry operations
11 account--state appropriation are provided solely for operating costs
12 associated with the Bremerton to Seattle passenger-only ferry service
13 for thirteen weeks.

14 (5) The department shall study the potential for private or public
15 partners, including but not limited to King county, to provide
16 passenger-only ferry service from Vashon to Seattle. The department
17 shall report to the legislative transportation committees by December
18 31, 2003.

19 (6) The Washington state ferries shall continue to provide service
20 to Sidney, British Columbia.

21 (7) When augmenting the existing ferry fleet, the department of
22 transportation ferry capital program shall explore cost-effective
23 options to include the leasing of ferries from private-sector
24 organizations.

25 (8) The Washington state ferries shall work with the department of
26 general administration, office of state procurement to improve the
27 existing fuel procurement process and solicit, identify, and evaluate,
28 purchasing alternatives to reduce the overall cost of fuel and mitigate
29 the impact of market fluctuations and pressure on both short- and long-
30 term fuel costs. Consideration shall include, but not be limited to,
31 long-term fuel contracts, partnering with other public entities, and
32 possibilities for fuel storage in evaluating strategies and options.
33 The department shall report back to the transportation committees of
34 the legislature by December 1, 2003, on the options, strategies, and
35 recommendations for managing fuel purchases and costs.

36 (9) The department must provide a separate accounting of passenger-
37 only ferry service costs and auto ferry service costs, and must provide

1 periodic reporting to the legislature on the financial status of both
2 passenger-only and auto ferry service in Washington state.

3 (10) The Washington state ferries must work with the department's
4 information technology division to implement a new revenue collection
5 system, including the integration of the regional fare coordination
6 system (smart card). Each December, annual updates are to be provided
7 to the transportation committees of the legislature concerning the
8 status of implementing and completing this project, with updates
9 concluding the first December after full project implementation.

10 (11) The Washington state ferries shall evaluate the benefits and
11 costs of selling the depreciation rights to ferries purchased by the
12 state in the future through sale and lease-back agreements, as
13 permitted under RCW 47.60.010. The department is authorized to issue
14 a request for proposal to solicit proposals from potential buyers. The
15 department must report to the transportation committees of the
16 legislature by December 1, 2004, on the options, strategies, and
17 recommendations for sale/lease-back agreements on existing ferry boats
18 as well as future ferry boat purchases.

19 (12) The Washington state ferries will develop a standard cost
20 allocation methodology and accounting process to adequately identify,
21 capture, and report revenues and expenses associated with their
22 increasing number of profit center business activities. The intent of
23 the legislature is to ensure that costs incurred for any of the ferry
24 system's break-even or profit-center activities are properly associated
25 with the revenues generated by that activity. A standard methodology
26 for identifying and allocating indirect costs is to be developed. In
27 addition, recommendations for identifying and allocating capital costs
28 are to be established, where applicable. The Washington state ferries
29 will submit a report to the house of representatives transportation
30 committee and to the senate highways and transportation committee by
31 December 1, 2004, outlining the cost allocation methodologies and
32 accounting processes to be used to capture information and report
33 business unit revenue and expenses.

34 (13) The department shall analyze the total cost of purchasing
35 traditional fossil-based fuels for ferry operations versus the cost of
36 replacing traditional fuels with bio-fuels. In calculating the total
37 cost of both types of fuel the department must include, but is not
38 limited to, the costs associated with environmental protection

1 requirements associated with truck-based on-ship loading, assuming the
2 use of 100 per cent bio-fuel, regulated by the federal government as
3 vegetable oil.

4 (14) \$238,000 of the Puget Sound ferry operations account--state
5 appropriation is provided solely for the implementation of Second
6 Substitute House Bill No. 3112. If Second Substitute House Bill No.
7 3112 is not enacted by June 30, 2004, the amount provided in this
8 subsection shall lapse.

5 projects when funds become available either because grant awards have
6 been rescinded for lack of sufficient project activity or because
7 completed projects returned excess grant funds upon project closeout.

MISCELLANEOUS

NEW SECTION. Sec. 501. A new section is added to 2003 c 360 (uncodified) to read as follows:

AGENCY EXPENDITURES FOR MOTOR VEHICLES. The use of hybrid motor vehicles reduces air contaminants, greenhouse gas emissions and reliance on imported sources of petroleum. To foster the use of hybrid motor vehicles, beginning July 1, 2004, before the purchase or lease of a motor vehicle, state agencies should first consider the feasibility of hybrid motor vehicles. State agencies should strive to purchase or lease a hybrid motor vehicle when the use of such a vehicle is consistent with and can accomplish the agency's mission and when the purchase is financially reasonable. The financial assessment should include savings accruing from reduced fuel purchases over the life of the vehicle. Agencies shall report on their purchases of hybrid vehicles in their biennial sustainability plans as required under executive order 02-03.

NEW SECTION. Sec. 502. A new section is added to 2003 c 360 (uncodified) to read as follows:

Washington state ferries are more than a symbol of the state's natural beauty and economic vitality. They also are a critical component of our state's transportation system, serving as an extension of our land-based highways and transit systems, connecting Washington's people, jobs, and communities.

The investments made in the 2003 transportation funding package provide the foundation for a marine transportation system that coordinates Washington's cross-Sound marine transportation and our land-based transportation alternatives to create a fully integrated marine/land multimodal transportation system. Achieving this will require the development of a long-range vision and supporting strategy that will provide the policy guidance to define and maximize efficient delivery of quality marine transportation service to the traveling public.

(1) To accomplish this, the Washington state department of transportation shall develop a vision statement and 10-year strategy for the future development of Washington's multimodal water-based transportation system.

1 (a) This strategy shall recommend the most appropriate means of
2 moving foot passengers across central Puget Sound, using Washington
3 state ferries, alternative operators, or a combination of both, in the
4 immediate future and over the longer term:

5 (i) Giving priority to those routes where passenger service likely
6 will be provided at least for the near term on passenger-only vessels,
7 such as Vashon-Seattle, Kingston-Seattle, Southworth-Seattle, and
8 Clinton-Seattle. Consideration shall be given to existing public-
9 private partnership opportunities;

10 (ii) Considering how service patterns will best fit in the near and
11 long term with development goals and opportunities of Colman Dock as a
12 major hub for integrating water transportation with other
13 transportation modes in downtown Seattle;

14 (iii) Evaluating how operating economies and reasonable fare box
15 recoveries can be established by scheduling A.M. and P.M. services to
16 match commuter demand and to fit within existing collective bargaining
17 agreements as interpreted and applied to facilitate "split shift"
18 transit-like operations; and

19 (iv) Providing a vessel plan that most efficiently uses existing
20 state ferry assets and provides for their likely repair and
21 rehabilitation needs, while preserving flexibility to structure
22 services around vessel availability that could rely on purchase or
23 lease of additional vessels, as may suitably be required.

24 The strategy shall also consider the availability of partnering in
25 operations, vessel deployment, or funding arrangements with other
26 public transportation entities and with the private sector. The study
27 shall also recommend the most effective use of federal funding
28 opportunities for the overall support of integrated water
29 transportation services on the central Puget Sound.

30 (b) Other components of the strategy shall include but not be
31 limited to:

32 (i) A long-term plan for the ferry system's existing terminals,
33 considering the revenue generation opportunities and potential for
34 partnering with the private sector where appropriate. This should
35 include a plan for generating other revenues as identified in the 2003
36 5-5-5 plan; and

37 (ii) A more equitable fare structure for the San Juan Islands,
38 particularly for island residents.

1 (2) The department shall consult with key public and private sector
2 stakeholders including business, labor, environmental community
3 representatives, local governments, and transit agencies as part of the
4 development of the vision statement and supporting strategy.

5 The long-range strategy should also recommend a short-range
6 implementation plan for the 2005-07 biennium. The department shall
7 provide its recommendations to the transportation committees of the
8 legislature by December 15, 2004.

9 **PROVISIONS NECESSARY TO IMPLEMENT APPROPRIATIONS**

10 NEW SECTION. **Sec. 601.** If any provision of this act or its
11 application to any person or circumstance is held invalid, the
12 remainder of the act or the application of the provision to other
13 persons or circumstances is not affected.

14 NEW SECTION. **Sec. 602.** The following bills, as identified by bill
15 number, in the form passed by the legislature are necessary to
16 implement portions of this act: House Bill numbers 1702, 1796, 1960,
17 2531, 3164, and 3205.

18 NEW SECTION. **Sec. 603.** This act is necessary for the immediate
19 preservation of the public peace, health, or safety, or support of the
20 state government and its existing public institutions, and takes effect
21 immediately.
