1 PART II  
2 HUMAN SERVICES

3 Sec. 201. 2005 c 518 s 201 (uncodified) is amended to read as  
4 follows:

5 FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES. (1)

6 Appropriations made in this act to the department of social and health  
7 services shall initially be allotted as required by this act.  
8 Subsequent allotment modifications shall not include transfers of  
9 moneys between sections of this act except as expressly provided in  
10 this act, nor shall allotment modifications permit moneys that are  
11 provided solely for a specified purpose to be used for other than that  
12 purpose.

13 (2) The department of social and health services shall not initiate  
14 any services that require expenditure of state general fund moneys  
15 unless expressly authorized in this act or other law. The department  
16 may seek, receive, and spend, under RCW 43.79.260 through 43.79.282,  
17 federal moneys not anticipated in this act as long as the federal  
18 funding does not require expenditure of state moneys for the program in  
19 excess of amounts anticipated in this act. If the department receives  
20 unanticipated unrestricted federal moneys, those moneys shall be spent  
21 for services authorized in this act or in any other legislation  
22 providing appropriation authority, and an equal amount of appropriated  
23 state general fund moneys shall lapse. Upon the lapsing of any moneys  
24 under this subsection, the office of financial management shall notify  
25 the legislative fiscal committees. As used in this subsection,  
26 "unrestricted federal moneys" includes block grants and other funds  
27 that federal law does not require to be spent on specifically defined  
28 projects or matched on a formula basis by state funds.

29 (3)(a) The appropriations to the department of social and health  
30 services in this act shall be expended for the programs and in the  
31 amounts specified in this act. However, after May 1, 2006, unless  
32 specifically prohibited by this act, the department may transfer  
33 general fund--state appropriations for fiscal year 2006 among programs  
34 after approval by the director of financial management. However, the

1 department shall not transfer state moneys that are provided solely for  
2 a specified purpose except as expressly provided in (b) of this  
3 subsection.

4 (b) To the extent that transfers under (a) of this subsection are  
5 insufficient to fund actual expenditures in excess of fiscal year 2006  
6 caseload forecasts and utilization assumptions in the medical  
7 assistance, long-term care, foster care, adoption support, and child  
8 support programs, the department may transfer state moneys that are  
9 provided solely for a specified purpose, other than family support  
10 appropriations for the developmental disabilities program in section  
11 205(1)(e) of this act, after approval by the director of financial  
12 management.

13 (c) The director of financial management shall notify the  
14 appropriate fiscal committees of the senate and house of  
15 representatives in writing seven days prior to approving any allotment  
16 modifications or transfers under this subsection. The written  
17 notification shall include a narrative explanation and justification of  
18 the changes, along with expenditures and allotments by budget unit and  
19 appropriation, both before and after any allotment modifications or  
20 transfers.

21 (4) The department is authorized to expend up to \$13,500,000 of its  
22 general fund--state appropriation for fiscal year 2007 for any  
23 reductions in federal funding in fiscal year 2006 for targeted case  
24 management services for children who are in the care of the state. The  
25 director of financial management shall notify the appropriate fiscal  
26 committees of the senate and house of representatives in writing seven  
27 days prior to approving any allotment modifications under this  
28 subsection.

29 (5) The department is authorized to develop an integrated health  
30 care program designed to slow the progression of illness and disability  
31 and better manage Medicaid expenditures for the aged and disabled  
32 population. Under this Washington medicaid integration partnership  
33 (WMIP) the department may combine and transfer such Medicaid funds  
34 appropriated under sections 204, 206, 208, and 209 of this act as may  
35 be necessary to finance a unified health care plan for the WMIP program  
36 enrollment. The WMIP pilot projects shall not exceed a daily  
37 enrollment of 6,000 persons during the 2005-2007 biennium. The amount  
38 of funding assigned to the pilot projects from each program may not

1 exceed the average per capita cost assumed in this act for individuals  
2 covered by that program, actuarially adjusted for the health condition  
3 of persons enrolled in the pilot, times the number of clients enrolled  
4 in the pilot. In implementing the WMIP pilot projects, the department  
5 may: (a) Withhold from calculations of "available resources" as set  
6 forth in RCW 71.24.025 a sum equal to the capitated rate for  
7 individuals enrolled in the pilots; and (b) employ capitation financing  
8 and risk-sharing arrangements in collaboration with health care service  
9 contractors licensed by the office of the insurance commissioner and  
10 qualified to participate in both the medicaid and medicare programs.  
11 The department shall conduct an evaluation of the WMIP, measuring  
12 changes in participant health outcomes, changes in patterns of service  
13 utilization, participant satisfaction, participant access to services,  
14 and the state fiscal impact.

15 ~~((4))~~ (6) In accordance with RCW 74.39A.300, the appropriations  
16 to the department of social and health services in this act are  
17 sufficient to implement the compensation and fringe benefits of the  
18 collective bargaining agreement reached between the governor and the  
19 exclusive bargaining representative of individual providers of home  
20 care services.

21 (7) No state or federal funds appropriated in sections 202 through  
22 212 of this act for medicaid programs shall be expended except for  
23 clients meeting the verified social security number requirements set  
24 forth in 42 C.F.R. Sec. 435(J) as of February 23, 2006.

25 **Sec. 202.** 2005 c 518 s 202 (uncodified) is amended to read as

15       The appropriations in this section are subject to the following  
16 conditions and limitations:

17       (1) Based on quarterly expenditure reports and caseload forecasts,  
18 if the department estimates that expenditures for the medical  
19 assistance program will exceed the appropriations, the department shall  
20 take steps including but not limited to reduction of rates or  
21 elimination of optional services to reduce expenditures so that total  
22 program costs do not exceed the annual appropriation authority.

23       (2) The department shall continue to extend medicaid eligibility to  
24 children through age 18 residing in households with incomes below 200

29 in RCW 48.104.030.

30       (4) Sufficient amounts are appropriated in this section for the

32       (5) Sufficient amounts are appropriated in this section for the  
33 department to provide an adult dental benefit that is equivalent to the  
34 benefit provided in the 2003-05 biennium.

35       (6) In accordance with RCW 74.46.625, \$6,000,000 of the general  
36 fund--federal appropriation is provided solely for supplemental  
37 payments to nursing homes operated by public hospital districts. The  
38 public hospital district shall be responsible for providing the

1 required nonfederal match for the supplemental payment, and the  
2 payments shall not exceed the maximum allowable under federal rules.  
3 It is the legislature's intent that the payments shall be supplemental  
4 to and shall not in any way offset or reduce the payments calculated  
5 and provided in accordance with part E of chapter 74.46 RCW. It is the  
6 legislature's further intent that costs otherwise allowable for rate-  
7 setting and settlement against payments under chapter 74.46 RCW shall  
8 not be disallowed solely because such costs have been paid by revenues  
9 retained by the nursing home from these supplemental payments.

10 (7) (~~(\$1,660,000)~~) \$2,221,000 of the health services account  
11 appropriation, (~~(\$4,361,000)~~) \$5,402,000 of the general fund--federal  
12 appropriation, (~~(\$1,350,000)~~) \$1,590,000 of the general fund--state  
13 appropriation for fiscal year 2006, and (~~(\$1,351,000)~~) \$1,591,000 of  
14 the general fund--state appropriation for fiscal year 2007 are provided  
15 solely for grants to rural hospitals. The department shall distribute  
16 the funds under a formula that provides a relatively larger share of  
17 the available funding to hospitals that (a) serve a disproportionate  
18 share of low-income and medically indigent patients and (b) have  
19 relatively smaller net financial margins, to the extent allowed by the  
20 federal medicaid program.

21 (8) (~~(\$22,081,000)~~) \$21,092,000 of the health services account  
22 appropriation and (~~(\$20,714,000)~~) \$19,725,000 of the general fund--  
23 federal appropriation are provided solely for grants to nonrural  
24 hospitals. The department shall distribute the funds under a formula  
25 that provides a relatively larger share of the available funding to  
26 hospitals that (a) serve a disproportionate share of low-income and  
27 medically indigent patients and (b) have relatively smaller net  
28 financial margins, to the extent allowed by the federal medicaid  
29 program.

30 (9) In response to the federal directive to eliminate  
31 intergovernmental transfer transactions effective June 30, 2005, the  
32 department is directed to implement the inpatient hospital certified  
33 public expenditures program for the 2005-07 biennium. The program

2 portion of the maximum disproportionate share hospital payment  
3 allowable under federal regulations. Medicaid fee-for-service claim  
4 amounts shall be established by applying the department's ratio of  
5 costs to charges payment methodology. The department shall provide  
6 participating hospitals with the information and instructions needed by  
7 the hospital to certify the public expenditures required to qualify for  
8 the federal portions of both the medicaid inpatient fee-for-service  
9 payments and the disproportionate share hospital payments. In the  
10 event that any part of the program including, but not limited to,  
11 allowable certified public expenditures, is disallowed by the federal  
12 government, the department shall not seek recoupment of payments from  
13 the hospitals, provided the hospitals have complied with the directions  
14 of the department for participation in the program. The legislature  
15 intends that hospitals in the program receive no less in combined state  
16 and federal payments than they would have received under the  
17 methodology that was in place during fiscal year 2005. The department  
18 shall therefore make additional grant payments, not to exceed the  
19 amounts (~~(provided)~~) specified in this subsection, to hospitals whose  
20 total payments under the program would otherwise be less than the total  
21 state and federal payments they would have received under the  
22 methodology in effect during fiscal year 2005. (~~(\$37,034,000 of the~~

30 exceed \$53,159,000 from general fund--state appropriations in fiscal  
31 year 2006, of which \$5,600,000 is appropriated in section 204(1) of  
32 this 2006 act and the balance in this section; \$46,548,000 from general  
33 fund--state appropriations in fiscal year 2007, of which \$5,600,000 is  
34 appropriated in section 204(1) of this 2006 act and the balance in this  
35 section; and \$11,328,000 from the general fund--federal appropriations  
36 in this section.~~

37 (10) (~~(\$4,372,000)~~) \$4,077,000 of the general fund--state  
38 appropriation for fiscal year 2006, (~~(\$4,014,000)~~) \$4,847,000 of the

3 are provided solely for development and implementation of a replacement  
4 system for the existing medicaid management information system.

5 (11) (~~(\$150,000)~~) \$188,000 of the general fund--state appropriation  
6 for fiscal year 2006, (~~(\$75,000)~~) \$37,000 of the general fund--state

8 federal appropriation are provided solely for the department to  
9 contract for an independent analysis of the medical assistance  
10 administration's current system for establishing hospital inpatient  
11 payment rates, and for recommendations on a new or updated system. The  
12 department shall submit an interim report of study findings by December  
13 1, 2005, and a final report by November 15, 2006. The interim report  
14 shall include a comparison of the strengths and weaknesses of the  
15 current rate-setting system relative to those used by other state,  
16 federal, and private payers. The final report shall include  
17 recommendations on the design and implementation of a new or updated  
18 system that will promote equity among hospitals, access to quality care  
19 and improved health outcomes for patients, and cost-control and  
20 efficiency for taxpayers. The study should make use of complete and  
21 current cost data from a wide variety of hospitals, recognize unique  
22 aspects of hospital service delivery structures and medicaid payment  
23 systems in Washington, recognize impacts on productivity and quality of  
24 care that may result from hospital compensation, recruitment, and

31 The inpatient increases shall be provided only on the portion of a  
32 hospital's rate that excludes medical education and outlier costs, and  
33 shall be allocated so that hospitals with lower costs of care  
34 (excluding medical education and outlier costs) receive larger  
35 percentage increases than those with higher costs of care. The  
36 inpatient increases shall be allocated in three percentage increments,  
37 with the lowest-cost hospitals receiving the largest percentage rate  
38 increase, highest-cost hospitals receiving the smallest percentage

1 increase, and medium-cost hospitals receiving the average of the  
2 highest and the lowest percentage rate increase. Increases shall not  
3 be provided to those hospitals that are certified as critical access.  
4 Sufficient funds are appropriated in this section for Healthy Options  
5 contractors to increase hospital payment rates commensurate with the  
6 increases in fee-for-service payment rates.

7 (13) When a person is ineligible for medicaid solely by reason of  
8 residence in an institution for mental diseases, the department shall  
9 provide the person with the same benefits as he or she would receive if  
10 eligible for medicaid, using state-only funds to the extent necessary.

11 (14) The medical assistance administration is authorized to use  
12 funds appropriated in this section to purchase goods and supplies  
13 through direct contracting with vendors when the administration  
14 determines it is cost-effective to do so.

15 (15) The legislature affirms that it is in the state's interest for  
16 Harborview medical center to remain an economically viable component of  
17 the state's health care system.

18 (16) By October 1, 2005, the department shall recommend to the  
19 governor and legislature at least two pilot project designs which seem

21 the state within the projects' first eighteen months of operation.

22 (17) Within funds appropriated in this section, the department  
23 shall participate in the health technology assessment program required  
24 in section 213(6) of this act.

25 (18) The department is also required to participate in the joint

27 (19) The department shall, within available resources, continue  
28 operation of the medical care services care management pilot project  
29 for clients receiving general assistance benefits in King and Pierce  
30 counties. The project may use a full or partial capitation model that  
31 includes a mechanism for shared savings. The department shall provide  
32 a report to the appropriate committees of the legislature by January 1,  
33 2006, on costs, savings, and any outcomes or quality measures  
34 associated with the pilot programs during the first year of operation.

35 (20) By October 1, 2005, the department shall report to the  
36 appropriate committees of the legislature on the potential fiscal and

6 committees of the legislature on options for providing financial  
7 incentives for private practice physicians to serve uninsured,  
8 medicare, and medicaid patients. The report shall include an  
9 assessment of the relative costs and effectiveness of strategies  
10 including, but not limited to, tax credits and payment rate increases.  
11 The report shall further suggest alternative mechanisms and thresholds  
12 for varying tax credits and payment enhancements according to the  
13 extent to which a provider serves uninsured, medicare, and medicaid  
14 patients.

15 (22) The department is directed to pursue all available  
16 administrative remedies to dispute and reverse recent large retroactive  
17 charges by the federal medicare program for payment of medicare part B  
18 premiums on behalf of medicaid recipients, to the extent that such  
19 premiums are for periods when medicare coverage was in fact never  
20 provided the beneficiaries, and their care was instead fully covered by  
21 the state medicaid program. The department shall report to the fiscal  
22 committees of the legislature by December 1, 2006, on the actions it  
23 has taken to dispute and reverse these charges.

24 (23) \$132,000 of the general fund--state appropriation for fiscal

36 instructional staff units and one-quarter of a certificated  
37 administrative staff unit;

1 (ii) For all other small high schools under this subsection, nine  
2 certificated instructional staff units and one-half of a certificated  
3 administrative staff unit for the first sixty average annual full time  
4 equivalent students, and additional staff units based on a ratio of  
5 0.8732 certificated instructional staff units and 0.1268 certificated  
6 administrative staff units per each additional forty-three and one-half  
7 average annual full time equivalent students.

8 Units calculated under (f)(ii) of this subsection shall be reduced  
9 by certificated staff units at the rate of forty-six certificated  
10 instructional staff units and four certificated administrative staff  
11 units per thousand vocational full-time equivalent students;

12 (g) For each nonhigh school district having an enrollment of more  
13 than seventy annual average full-time equivalent students and less than  
14 one hundred eighty students, operating a grades K-8 program or a grades  
15 1-8 program, an additional one-half of a certificated instructional  
16 staff unit; and

17 (h) For each nonhigh school district having an enrollment of more  
18 than fifty annual average full-time equivalent students and less than  
19 one hundred eighty students, operating a grades K-6 program or a grades  
20 1-6 program, an additional one-half of a certificated instructional  
21 staff unit.

22 (3) Allocations for classified salaries for the 2005-06 and 2006-07  
23 school years shall be calculated using formula-generated classified  
24 staff units determined as follows:

25 (a) For enrollments generating certificated staff unit allocations  
26 under subsection (2)(d) through (h) of this section, one classified  
27 staff unit for each three certificated staff units allocated under such  
28 subsections;

29 (b) For all other enrollment in grades K-12, including vocational  
30 full-time equivalent enrollments, one classified staff unit for each  
31 sixty average annual full-time equivalent students; and

32 (c) For each nonhigh school district with an enrollment of more  
33 than fifty annual average full-time equivalent students and less than  
34 one hundred eighty students, an additional one-half of a classified  
35 staff unit.

36 (4) Fringe benefit allocations shall be calculated at a rate of  
37 (~~10.90~~) 11.21 percent in the 2005-06 school year and (~~11.90~~) 11.73  
38 percent in the 2006-07 school year for certificated salary allocations

1 provided under subsection (2) of this section, and a rate of (~~14.57~~)  
2 14.07 percent in the 2005-06 school year and (~~15.82~~) 15.08 percent in  
3 the 2006-07 school year for classified salary allocations provided  
4 under subsection (3) of this section.

5 (5) Insurance benefit allocations shall be calculated at the  
6 maintenance rate specified in section 504(2) of this act, based on the  
7 number of benefit units determined as follows:

8 (a) The number of certificated staff units determined in subsection  
9 (2) of this section; and

10 (b) The number of classified staff units determined in subsection  
11 (3) of this section multiplied by 1.152. This factor is intended to  
12 adjust allocations so that, for the purposes of distributing insurance  
13 benefits, full-time equivalent classified employees may be calculated  
14 on the basis of 1440 hours of work per year, with no individual  
15 employee counted as more than one full-time equivalent.

16 (6)(a) For nonemployee-related costs associated with each  
17 certificated staff unit allocated under subsection (2)(a), (b), and (d)  
18 through (h) of this section, there shall be provided a maximum of  
19 \$9,112 per certificated staff unit in the 2005-06 school year and a  
20 maximum of (~~\$9,285~~) \$9,476 per certificated staff unit in the 2006-07  
21 school year.

22 (b) For nonemployee-related costs associated with each vocational  
23 certificated staff unit allocated under subsection (2)(c)(i)(A) of this  
24 section, there shall be provided a maximum of \$22,377 per certificated  
25 staff unit in the 2005-06 school year and a maximum of (~~\$22,802~~)  
26 \$23,272 per certificated staff unit in the 2006-07 school year.

27 (c) For nonemployee-related costs associated with each vocational  
28 certificated staff unit allocated under subsection (2)(c)(i)(B) of this  
29 section, there shall be provided a maximum of \$17,362 per certificated  
30 staff unit in the 2005-06 school year and a maximum of (~~\$17,692~~)  
31 \$18,056 per certificated staff unit in the 2006-07 school year.

32 (7) Allocations for substitute costs for classroom teachers shall  
33 be distributed at a maintenance rate of \$531.09 for the 2005-06 and  
34 2006-07 school years per allocated classroom teachers exclusive of  
35 salary increase amounts provided in section 504 of this act. Solely  
36 for the purposes of this subsection, allocated classroom teachers shall  
37 be equal to the number of certificated instructional staff units  
38 allocated under subsection (2) of this section, multiplied by the ratio

1 between the number of actual basic education certificated teachers and  
2 the number of actual basic education certificated instructional staff  
3 reported statewide for the prior school year.

4 (8) Any school district board of directors may petition the  
5 superintendent of public instruction by submission of a resolution  
6 adopted in a public meeting to reduce or delay any portion of its basic  
7 education allocation for any school year. The superintendent of public  
8 instruction shall approve such reduction or delay if it does not impair  
9 the district's financial condition. Any delay shall not be for more  
10 than two school years. Any reduction or delay shall have no impact on  
11 levy authority pursuant to RCW 84.52.0531 and local effort assistance  
12 pursuant to chapter 28A.500 RCW.

13 (9) The superintendent may distribute a maximum of (~~(\$7,621,000)~~)  
14 \$8,496,800 outside the basic education formula during fiscal years 2006  
15 and 2007 as follows:

16 (a) For fire protection for school districts located in a fire  
17 protection district as now or hereafter established pursuant to chapter  
18 52.04 RCW, a maximum of \$513,000 may be expended in fiscal year 2006  
19 and a maximum of (~~(\$523,000)~~) \$534,000 may be expended in fiscal year  
20 2007;

21 (b) For summer vocational programs at skills centers, a maximum of  
22 \$2,035,000 may be expended for the 2006 fiscal year and a maximum of  
23 \$2,035,000 for the 2007 fiscal year;

24 (c) A maximum of (~~(\$365,000)~~) \$369,000 may be expended for school  
25 district emergencies;

26 (d) A maximum of \$485,000 each fiscal year may be expended for  
27 programs providing skills training for secondary students who are  
28 enrolled in extended day school-to-work programs, as approved by the  
29 superintendent of public instruction. The funds shall be allocated at  
30 a rate not to exceed \$500 per full-time equivalent student enrolled in  
31 those programs; and

32 (e) \$394,000 of the general fund--state appropriation for fiscal  
33 year 2006 and (~~(\$787,000)~~) \$1,647,200 of the general fund--state  
34 appropriation for fiscal year 2007 are provided solely for incentive  
35 grants to encourage school districts to increase enrollment in  
36 vocational skills centers. Up to \$500 for each full-time equivalent  
37 student may be proportionally distributed to a school district or  
38 school districts increasing skills centers enrollment above the levels

1 in the 2004-05 school year. The office of the superintendent of public  
2 instruction shall develop criteria for awarding incentive grants  
3 pursuant to this subsection. (~~The total amount allocated pursuant to~~  
4 ~~this subsection shall be limited to \$1,181,000 for the 2005-07~~  
5 ~~biennium.~~) Funds provided in this subsection shall first be expended  
6 to provide incentive grants to school districts that increase skills  
7 center enrollment during the school year. If funds are available after  
8 making these allocations, funds may be distributed for: (i) Increasing  
9 enrollment including allowing up to an additional .2 full time  
10 equivalent student enrollment at skills centers; and (ii) capacity of  
11 summer vocational programs at the skills centers.

12 (10) For purposes of RCW 84.52.0531, the increase per full-time  
13 equivalent student is 5.2 percent from the 2004-05 school year to the  
14 2005-06 school year and (~~3.4~~) 5.2 percent from the 2005-06 school  
15 year to the 2006-07 school year.

16 (11) If two or more school districts consolidate and each district  
17 was receiving additional basic education formula staff units pursuant  
18 to subsection (2)(b) through (h) of this section, the following shall  
19 apply:

20 (a) For three school years following consolidation, the number of  
21 basic education formula staff units shall not be less than the number  
22 of basic education formula staff units received by the districts in the  
23 school year prior to the consolidation; and

24 (b) For the fourth through eighth school years following  
25 consolidation, the difference between the basic education formula staff  
26 units received by the districts for the school year prior to  
27 consolidation and the basic education formula staff units after  
28 consolidation pursuant to subsection (2)(a) through (h) of this section  
29 shall be reduced in increments of twenty percent per year.

30 **Sec. 503.** 2005 c 518 s 503 (uncodified) is amended to read as  
31 follows:

32 **FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--BASIC EDUCATION**

34 salaries used in the general fund allocations for certificated  
35 instructional, certificated administrative, and classified staff units  
36 under section 502 of this act:

1 (a) Salary allocations for certificated instructional staff units  
 2 shall be determined for each district by multiplying the district's  
 3 certificated instructional total base salary shown on LEAP Document 12E  
 4 by the district's average staff mix factor for certificated  
 5 instructional staff in that school year, computed using LEAP Document  
 6 1Sb; and

7 (b) Salary allocations for certificated administrative staff units  
 8 and classified staff units for each district shall be based on the  
 9 district's certificated administrative and classified salary allocation  
 10 amounts shown on LEAP Document 12E.

11 (2) For the purposes of this section:

12 (a) "LEAP Document 1Sb" means the computerized tabulation  
 13 establishing staff mix factors for certificated instructional staff  
 14 according to education and years of experience, as developed by the  
 15 legislative evaluation and accountability program committee on (~~March~~  
 16 ~~18, 2005, at 10:00~~) February 19, 2006, at 21:30 hours; and

17 (b) "LEAP Document 12E" means the computerized tabulation of 2005-  
 18 06 and 2006-07 school year salary allocations for certificated  
 19 administrative staff and classified staff and derived and total base  
 20 salaries for certificated instructional staff as developed by the  
 21 legislative evaluation and accountability program committee on (~~April~~  
 22 ~~6, 2005, at 10:00~~) February 19, 2006, at 21:30 hours.

23 (3) Incremental fringe benefit factors shall be applied to salary  
 24 adjustments at a rate of (~~10.26~~) 10.57 percent for school year 2005-  
 25 06 and (~~11.26~~) 11.09 percent for school year 2006-07 for certificated  
 26 staff and for classified staff (~~11.07~~) 10.57 percent for school year  
 27 2005-06 and (~~12.32~~) 11.58 percent for the 2006-07 school year.

28 (4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary  
 29 allocation schedules for certificated instructional staff are

32 (b) As used in this subsection, the column headings "BA+(N)" refer  
 33 to the number of credits earned since receiving the baccalaureate  
 34 degree.

1 (c) For credits earned after the baccalaureate degree but before  
2 the masters degree, any credits in excess of forty-five credits may be  
3 counted after the masters degree. Thus, as used in this subsection,  
4 the column headings "MA+(N)" refer to the total of:

5 (i) Credits earned since receiving the masters degree; and

6 (ii) Any credits in excess of forty-five credits that were earned  
7 after the baccalaureate degree but before the masters degree.

8 (5) For the purposes of this section:

9 (a) "BA" means a baccalaureate degree.

10 (b) "MA" means a masters degree.

11 (c) "PHD" means a doctorate degree.

12 (d) "Years of service" shall be calculated under the same rules  
13 adopted by the superintendent of public instruction.

14 (e) "Credits" means college quarter hour credits and equivalent in-  
15 service credits computed in accordance with RCW 28A.415.020 and  
16 28A.415.023.

17 (6) No more than ninety college quarter-hour credits received by  
18 any employee after the baccalaureate degree may be used to determine  
19 compensation allocations under the state salary allocation schedule and  
20 LEAP documents referenced in this act, or any replacement schedules and  
21 documents, unless:

22 (a) The employee has a masters degree; or

23 (b) The credits were used in generating state salary allocations  
24 before January 1, 1992.

25 (7) The certificated instructional staff base salary specified for  
26 each district in LEAP Document 12E and the salary schedules in  
27 subsection (4)(a) of this section include two learning improvement days  
28 for the 2005-06 school year and two learning improvement days for 2006-  
29 07 school year. A school district is eligible for the learning  
30 improvement day funds only if the learning improvement days have been  
31 added to the 180- day contract year. If fewer days are added, the  
32 additional learning improvement allocation shall be adjusted  
33 accordingly. The additional days shall be limited to specific  
34 activities identified in the state required school improvement plan  
35 related to improving student learning that are consistent with  
36 education reform implementation, and shall not be considered part of  
37 basic education. The principal in each school shall assure that the  
38 days are used to provide the necessary school- wide, all staff

1 professional development that is tied directly to the school  
2 improvement plan. The school principal and the district superintendent  
3 shall maintain documentation as to their approval of these activities.  
4 The length of a learning improvement day shall not be less than the  
5 length of a full day under the base contract. The superintendent of  
6 public instruction shall ensure that school districts adhere to the  
7 intent and purposes of this subsection.

8 (8) The salary allocation schedules established in this section are  
9 for allocation purposes only except as provided in RCW 28A.400.200(2)  
10 and subsection (7) of this section.

11 **Sec. 505.** 2005 c 518 s 505 (uncodified) is amended to read as  
12 follows:

19			<u>\$500,148,000</u>

20 The appropriations in this section are subject to the following  
21 conditions and limitations:

22 (1) Each general fund fiscal year appropriation includes such funds  
23 as are necessary to complete the school year ending in the fiscal year  
24 and for prior fiscal year adjustments.

25 (2) A maximum of \$796,000 of this fiscal year 2006 appropriation  
26 and a maximum of ((~~\$812,000~~)) \$828,000 of the fiscal year 2007  
27 appropriation may be expended for regional transportation coordinators  
28 and related activities. The transportation coordinators shall ensure  
29 that data submitted by school districts for state transportation  
30 funding shall, to the greatest extent practical, reflect the actual  
31 transportation activity of each district.

32 (3) \$5,000 of the fiscal year 2006 appropriation and \$5,000 of the  
33 fiscal year 2007 appropriation are provided solely for the  
34 transportation of students enrolled in "choice" programs.  
35 Transportation shall be limited to low-income students who are  
36 transferring to "choice" programs solely for educational reasons.

1 (4) Allocations for transportation of students shall be based on  
2 reimbursement rates of (~~(\$41.51)~~) \$42.52 per weighted mile in the 2005-  
3 06 school year and (~~(\$42.01)~~) \$42.11 per weighted mile in the 2006-07  
4 school year exclusive of salary and benefit adjustments provided in  
5 section 504 of this act. Included in the 2005-06 school year rate is  
6 a one-time increase of \$1.12 to offset extraordinary increases in the  
7 price of diesel fuel. Allocations for transportation of students  
8 transported more than one radius mile shall be based on weighted miles  
9 as determined by superintendent of public instruction multiplied by the  
10 per mile reimbursement rates for the school year pursuant to the  
11 formulas adopted by the superintendent of public instruction.  
12 Allocations for transportation of students living within one radius  
13 mile shall be based on the number of enrolled students in grades  
14 kindergarten through five living within one radius mile of their  
15 assigned school multiplied by the per mile reimbursement rate for the  
16 school year multiplied by 1.29.

17 (5) For busses purchased between July 1, 2005, and June 30, 2007,  
18 the office of superintendent of public instruction shall provide  
19 reimbursement funding to a school district only after the  
20 superintendent of public instruction determines that the school bus was  
21 purchased from the list established pursuant to RCW 28A.160.195(2) or  
22 a comparable competitive bid process based on the lowest price quote  
23 based on similar bus categories to those used to establish the list  
24 pursuant to RCW 28A.160.195. The competitive specifications shall meet  
25 federal motor vehicle safety standards, minimum state specifications as  
26 established by rule by the superintendent, and supported options as  
27 determined by the superintendent in consultation with the regional  
28 transportation coordinators of the educational service districts.

29 (6) Beginning with the 2005-06 school year, the superintendent of  
30 public instruction shall base depreciation payments for school district  
31 buses on the five-year average of lowest bids in the appropriate  
32 category of bus. In the final year on the depreciation schedule, the  
33 depreciation payment shall be based on the current state price. The  
34 superintendent may include a weighting or other adjustment factor in  
35 the averaging formula to ease the transition from the current-price  
36 depreciation system to the average depreciation system. Prior to  
37 making any depreciation payment in the 2005-06 school year, the  
38 superintendent shall notify the office of financial management and the

1 fiscal committees of the legislature of the specific depreciation  
2 formula to be used. The replacement cost shall be based on the lowest  
3 bid in the appropriate bus category for that school year. A maximum of  
4 \$50,000 of the fiscal year 2006 appropriation may be expended for  
5 software programming costs associated with the implementation of this  
6 subsection.

7 **Sec. 506.** 2005 c 518 s 506 (uncodified) is amended to read as

20 year 2006 and \$3,000,000 of the general fund--state appropriation for  
21 fiscal year 2007 are provided for state matching money for federal

23 (2) \$100,000 of the general fund--state appropriation for fiscal  
24 year 2006 and \$100,000 of the 2007 fiscal year appropriation are  
25 provided for summer food programs for children in low-income areas.

26 (3) \$47,000 of the general fund--state appropriation for fiscal  
27 year 2006 and \$59,000 of the general fund--state appropriation for  
28 fiscal year 2007 are provided solely to reimburse school districts for  
29 school breakfasts served to students enrolled in the free or reduced  
30 price meal program pursuant to House Bill No. 1771 (requiring school  
31 breakfast programs in certain schools). If House Bill No. 1771 is not  
32 enacted by June 30, 2005, the amounts provided in this subsection shall  
33 lapse.

34 **Sec. 507.** 2005 c 518 s 507 (uncodified) is amended to read as  
35 follows:

1 **FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION**

9	TOTAL APPROPRIATION . . . . .	(( <del>\$1,367,457,000</del> ))
10		<u>\$1,382,842,000</u>

11 The appropriations in this section are subject to the following  
12 conditions and limitations:

13 (1) Funding for special education programs is provided on an excess  
14 cost basis, pursuant to RCW 28A.150.390. School districts shall ensure  
15 that special education students as a class receive their full share of  
16 the general apportionment allocation accruing through sections 502 and  
17 504 of this act. To the extent a school district cannot provide an  
18 appropriate education for special education students under chapter  
19 28A.155 RCW through the general apportionment allocation, it shall  
20 provide services through the special education excess cost allocation  
21 funded in this section.

22 (2)(a) The superintendent of public instruction shall use the  
23 excess cost methodology developed and implemented for the 2001-02  
24 school year using the S-275 personnel reporting system and all related  
25 accounting requirements to ensure that:

- 26 (i) Special education students are basic education students first;
- 27 (ii) As a class, special education students are entitled to the  
28 full basic education allocation; and
- 29 (iii) Special education students are basic education students for  
30 the entire school day.

31 (b) The S-275 and accounting changes in effect since the 2001-02  
32 school year shall supercede any prior excess cost methodologies and  
33 shall be required of all school districts.

34 (3) Each fiscal year appropriation includes such funds as are  
35 necessary to complete the school year ending in the fiscal year and for  
36 prior fiscal year adjustments.

37 (4) The superintendent of public instruction shall distribute state  
38 and federal funds to school districts based on two categories: The

1 optional birth through age two program for special education eligible  
2 developmentally delayed infants and toddlers, and the mandatory special  
3 education program for special education eligible students ages three to  
4 twenty-one. A "special education eligible student" means a student  
5 receiving specially designed instruction in accordance with a properly  
6 formulated individualized education program.

7 (5)(a) For the 2005-06 and 2006-07 school years, the superintendent  
8 shall make allocations to each district based on the sum of:

9 (i) A district's annual average headcount enrollment of  
10 developmentally delayed infants and toddlers ages birth through two,  
11 multiplied by the district's average basic education allocation per  
12 full-time equivalent student, multiplied by 1.15; and

13 (ii) A district's annual average full-time equivalent basic  
14 education enrollment multiplied by the funded enrollment percent  
15 determined pursuant to subsection (6)(b) of this section, multiplied by  
16 the district's average basic education allocation per full-time  
17 equivalent student multiplied by 0.9309.

18 (b) For purposes of this subsection, "average basic education  
19 allocation per full-time equivalent student" for a district shall be  
20 based on the staffing ratios required by RCW 28A.150.260 and shall not  
21 include enhancements, secondary vocational education, or small schools.

22 (6) The definitions in this subsection apply throughout this  
23 section.

24 (a) "Annual average full-time equivalent basic education  
25 enrollment" means the resident enrollment including students enrolled  
26 through choice (RCW 28A.225.225) and students from nonhigh districts  
27 (RCW 28A.225.210) and excluding students residing in another district  
28 enrolled as part of an interdistrict cooperative program (RCW  
29 28A.225.250).

30 (b) "Enrollment percent" means the district's resident special  
31 education annual average enrollment, excluding the birth through age  
32 two enrollment, as a percent of the district's annual average full-time  
33 equivalent basic education enrollment.

34 Each district's general fund--state funded special education  
35 enrollment shall be the lesser of the district's actual enrollment  
36 percent or 12.7 percent.

37 (7) At the request of any interdistrict cooperative of at least 15  
38 districts in which all excess cost services for special education

1 students of the districts are provided by the cooperative, the maximum  
2 enrollment percent shall be calculated in accordance with subsection  
3 (6)(b) of this section, and shall be calculated in the aggregate rather  
4 than individual district units. For purposes of this subsection, the  
5 average basic education allocation per full-time equivalent student  
6 shall be calculated in the aggregate rather than individual district  
7 units.

8 (8) To the extent necessary, \$18,940,000 of the general fund--state  
9 appropriation and (~~(\$28,698,000)~~) \$29,081,000 of the general fund--  
10 federal appropriation are provided for safety net awards for districts  
11 with demonstrated needs for special education funding beyond the  
12 amounts provided in subsection (5) of this section. If safety net  
13 awards exceed the amount appropriated in this subsection (8), the  
14 superintendent shall expend all available federal discretionary funds  
15 necessary to meet this need. Safety net funds shall be awarded by the  
16 state safety net oversight committee subject to the following  
17 conditions and limitations:

18 (a) The committee shall consider unmet needs for districts that can  
19 convincingly demonstrate that all legitimate expenditures for special  
20 education exceed all available revenues from state funding formulas.  
21 In the determination of need, the committee shall also consider  
22 additional available revenues from federal sources. Differences in  
23 program costs attributable to district philosophy, service delivery  
24 choice, or accounting practices are not a legitimate basis for safety  
25 net awards.

26 (b) The committee shall then consider the extraordinary high cost  
27 needs of one or more individual special education students.  
28 Differences in costs attributable to district philosophy, service  
29 delivery choice, or accounting practices are not a legitimate basis for  
30 safety net awards.

31 (c) The maximum allowable indirect cost for calculating safety net  
32 eligibility may not exceed the federal restricted indirect cost rate  
33 for the district plus one percent.

34 (d) Safety net awards shall be adjusted based on the percent of  
35 potential medicaid eligible students billed as calculated by the  
36 superintendent in accordance with chapter 318, Laws of 1999.

37 (e) Safety net awards must be adjusted for any audit findings or  
38 exceptions related to special education funding.

1 (9) The superintendent of public instruction may adopt such rules  
2 and procedures as are necessary to administer the special education  
3 funding and safety net award process. Prior to revising any standards,  
4 procedures, or rules, the superintendent shall consult with the office  
5 of financial management and the fiscal committees of the legislature.

6 (10) The safety net oversight committee appointed by the  
7 superintendent of public instruction shall consist of:

8 (a) One staff from the office of superintendent of public  
9 instruction;

10 (b) Staff of the office of the state auditor who shall be nonvoting  
11 members of the committee; and

12 (c) One or more representatives from school districts or  
13 educational service districts knowledgeable of special education  
14 programs and funding.

15 (11) A maximum of \$678,000 may be expended from the general fund--  
16 state appropriations to fund 5.43 full-time equivalent teachers and 2.1  
17 full-time equivalent aides at children's orthopedic hospital and  
18 medical center. This amount is in lieu of money provided through the  
19 home and hospital allocation and the special education program.

20 (12) A maximum of \$1,000,000 of the general fund--federal  
21 appropriation is provided for projects to provide special education  
22 students with appropriate job and independent living skills, including  
23 work experience where possible, to facilitate their successful  
24 transition out of the public school system. The funds provided by this  
25 subsection shall be from federal discretionary grants.

26 (13) A maximum of \$100,000 of the general fund--federal  
27 appropriation shall be expended to create a special education ombudsman  
28 program within the office of superintendent of public instruction. The  
29 purpose of the program is to provide support to parents, guardians,  
30 educators, and students with disabilities. The program will provide  
31 information to help families and educators understand state laws,  
32 rules, and regulations, and access training and support, technical  
33 information services, and mediation services. The ombudsman program  
34 will provide data, information, and appropriate recommendations to the  
35 office of superintendent of public instruction, school districts,  
36 educational service districts, state need projects, and the parent and  
37 teacher information center.

1 (14) The superintendent shall maintain the percentage of federal  
2 flow-through to school districts at 85 percent. In addition to other  
3 purposes, school districts may use increased federal funds for high-  
4 cost students, for purchasing regional special education services from  
5 educational service districts, and for staff development activities  
6 particularly relating to inclusion issues.

7 (15) A maximum of \$1,200,000 of the general fund--federal  
8 appropriation may be expended by the superintendent for projects  
9 related to use of inclusion strategies by school districts for  
10 provision of special education services.

11 (16) \$1,400,000 of the general fund--federal appropriation shall be  
12 expended for one-time grants to school districts for the start-up costs  
13 of implementing web-based programs that assist schools in meeting state  
14 and federal requirements regarding individualized education plans.

15 (17) The superintendent, consistent with the new federal IDEA  
16 reauthorization, shall continue to educate school districts on how to  
17 implement a birth-to-three program and review the cost effectiveness  
18 and learning benefits of early intervention.

19 (18) A school district may carry over from one year to the next  
20 year up to 10 percent of the general fund--state funds allocated under  
21 this program; however, carry over funds shall be expended in the  
22 special education program.

23 (19) \$1,874,000 of the general fund--state appropriation for fiscal

24	TOTAL APPROPRIATION . . . . .	\$30,257,000

25 The appropriations in this section are subject to the following  
26 conditions and limitations:

27 (1) The amounts appropriated in this section are provided solely  
28 for remediation for students who have not met standard in one or more  
29 content areas of the WASL in the spring of their tenth grade year and  
30 on each retake thereafter. The funds may be used for extended learning  
31 activities, including summer school, before and after school, Saturday  
32 classes, skill seminars, assessment preparation, and in-school or out-  
33 of-school tutoring. Extended learning activities may occur on the  
34 school campus, via the internet, or at other locations and times that  
35 meet student needs. Funds allocated under this section shall not be  
36 considered basic education funding. Amounts allocated under this

1 section shall fund new extended learning opportunities, and shall not  
2 supplant funding for existing programs and services.

3 (2) School district allocations for promoting academic success  
4 programs shall be calculated as follows:

5 (a) A portion of the district's student units shall be the number  
6 of content area assessments (reading, writing, and mathematics) on

8 meeting standard on the Washington assessment of student learning for  
9 the current class of eleventh grade students.

10 (b) The other portion of the district's student units shall be the  
11 number of content area assessments (reading, writing, and mathematics)  
12 on which students were less than one standard error of measurement from  
13 meeting standard but did not meet standard on the Washington assessment

15 Districts with at least one but less than 20 student units combining  
16 the student units generated from this subsection and (a) of this  
17 subsection shall be counted as having 20 student units for the purposes  
18 of the allocations in (c) and (d)(A) of this subsection.

19 (c) Allocations for certificated instructional staff salaries and  
20 benefits shall be determined using formula-generated staff units  
21 calculated pursuant to this subsection. Ninety-four hours of  
22 certificated instructional staff units are allocated per 13.0 student  
23 units as calculated under (a) of this subsection and thirty-four hours  
24 of certificated instructional staff units are allocated per 13.0  
25 student units as calculated under (b) of this subsection. Allocations  
26 for salaries and benefits for the staff units calculated under this  
27 subsection shall be calculated in the same manner as provided under  
28 section 503 of this act. Salary and benefit increase funding for staff  
29 units generated under this section is included in section 504 of this  
30 act.

31 (d) The legislature recognizes that some students in the class of  
32 2007 may wish to retake the WASL even though it is not a graduation  
33 requirement. Accordingly, funding in this section provides  
34 certificated instructional staff units as described in (c) of this  
35 subsection for all students in the class of 2007 who register to retake  
36 the WASL and want remedial assistance.

38 planning for teachers is an important component of high quality

1 extended learning activities. Accordingly, a one-time funding amount  
2 equal to 20 hours of certificated instructional staff units per 13.0  
3 student units, as calculated in (a) and (b) of this subsection, is  
4 provided in this section to insure that extended learning activities  
5 are of high quality and aligned to the state's essential academic

8 unit, as calculated in (a) of this subsection:

20 superintendent of public instruction on the use of these funds,  
21 including the types of assistance selected by students, the number of  
22 students receiving each type of assistance, and the impact on WASL test  
23 scores.

24 (4) \$1,500,000 of the general fund--state appropriation for fiscal  
25 year 2007 is provided for competitive innovation grants awarded to  
26 schools and school districts for implementing high school remediation  
27 programs that are unique in program delivery, program accessibility,  
28 program content, or a combination of these factors and that serve  
29 students who have not achieved success on the tenth grade WASL.

30 (5) School districts may carry over from one year to the next up to  
31 20 percent of funds allocated under this program; however, carryover  
32 funds shall be expended for promoting academic success programs, and

22 The appropriations in this section are subject to the following  
23 conditions and limitations:

24 (1) The technical colleges may increase tuition and fees in excess  
25 of the fiscal growth factor to conform with the percentage increase in  
26 community college operating fees.

27 (2) \$539,000 of the general fund--state appropriation for fiscal  
28 year 2006 and \$540,000 of the general fund--state appropriation for  
29 fiscal year 2007 are provided solely for the displaced homemakers  
30 program.

31 (3) Access to baccalaureate and graduate degree programs continues  
32 to be limited for residents of North Snohomish, Island, and Skagit  
33 counties. The higher education consortium created to serve the region  
34 has not been able to successfully address the region's access needs.  
35 The university center model of service delivery, centered on a  
36 community college campus with a single point of accountability, has

1 proven more effective in developing degree programs and attracting  
2 students.

3 Therefore, the management and leadership responsibility for  
4 consortium operations are assigned to Everett community college.  
5 Everett community college shall collaborate with community and business  
6 leaders, other local community colleges, the public four-year  
7 institutions of higher education, and the higher education coordinating  
8 board to develop an educational plan for the North Snohomish, Island,  
9 and Skagit county region based on the university center model.

10 (4) \$50,000 of the general fund--state appropriation for fiscal

30 sections 949 through 980 of this act are estimated to increase the  
31 total per student funding during the 2005-2007 biennium. This increase  
32 in total per student funding is in addition to the tuition revenues  
33 that will be generated and retained by the community and technical  
34 colleges as a result of the tuition increases that are authorized in  
35 section 601 of this act. Given these increases in core funding, the

7 shall be established by the state board and the office of financial  
8 management and shall be determined based on the per student funding  
9 level assumed in this act.

10 The state board for community and technical colleges shall provide

33 fiscal year 2006, \$2,400,000 of the general fund--state appropriation

3 general salary increase shall be reduced by the same amount. Beginning  
4 in fiscal year 2007, the state board shall determine the method of  
5 allocating to the community and technical colleges the appropriations  
6 granted for academic employee increments, provided that the amount of  
7 the appropriation attributable to the proportionate share of the part-  
8 time faculty salary base shall only be accessible for part-time  
9 faculty.

6 Everett community college shall collaborate with community and business  
7 leaders, other local community colleges, the public four-year
