17 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

18 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted and,
19 subject to the provisions set forth in this act, the several dollar

1 amounts hereinafter specified, or so much thereof as shall be
2 sufficient to accomplish the purposes designated, are hereby
3 appropriated and authorized to be incurred for capital projects during
4 the period beginning with the effective date of this act and ending
5 June 30, 2013, out of the several funds specified in this act.

6 (2) The definitions in this subsection apply throughout this act
7 unless the context clearly requires otherwise.

8 (a) "Fiscal year 2012" or "FY 2012" means the period beginning July
9 1, 2011, and ending June 30, 2012.

10 (b) "Fiscal year 2013" or "FY 2013" means the period beginning July
11 1, 2012, and ending June 30, 2013.

12 (c) "Lapse" or "revert" means the amount shall return to an
13 unappropriated status.

14 (d) "Provided solely" means the specified amount may be spent only
15 for the specified purpose.

16 (3) Amounts appropriated for fiscal year 2012 may be expended from
17 July 1, 2011, through June 30, 2013. Amounts appropriated for fiscal
18 year 2013 may only be expended from July 1, 2012, through June 30,
19 2013.

20 (4) Unless otherwise specifically authorized in this act, any
21 portion of an amount provided solely for a specified purpose that is
22 not expended subject to the specified conditions and limitations to
23 fulfill the specified purpose shall lapse.

24 (5) The amounts shown under the headings "Prior Biennia," "Future
25 Biennia," and "Total" in this act are for informational purposes only
26 and do not constitute legislative approval of these amounts. "Prior
27 biennia" typically refers to the immediate prior biennium for
28 reappropriations, but may refer to multiple biennia in the case of
29 specific projects. A "future biennia" amount is an estimate of what
30 may be appropriated for the project or program in the 2011-2013
31 biennium and the following three biennia; an amount of zero does not
32 necessarily constitute legislative intent to not provide funding for
33 the project or program in the future.

34 (6) "Reappropriations" in this act are appropriations and, unless
35 the context clearly provides otherwise, are subject to the relevant
36 conditions and limitations applicable to appropriations.
37 Reappropriations shall be limited to the unexpended balances remaining

1 on June 30, 2011, from the 2009-2011 biennial appropriations for each
2 project.

30 Kittitas Groundwater Study (30000029)

1 The reappropriation in this section is subject to the following
2 conditions and limitations:

3 (1) Funds may be provided to develop and implement water banking
4 and transfer methods and agreements that are fully protective of senior
5 water rights and that protect domestic groundwater users and improve
6 the profitability of farming operations. The legislature finds such
7 activities to be in the public interest because they can help sustain
8 the viability of the agricultural economy and enhance the certainty of
9 water supplies for domestic groundwater users.

10 (2) Funds may be provided to lease or purchase water rights to
11 create a reserve water supply for domestic groundwater users that have
12 a groundwater right with a priority date later than May 10, 1905, as
13 well as for all out-of-priority groundwater users. In securing water
14 for such domestic groundwater users, strong preference shall be given
15 to the use of water banking and transfer methods that provide
16 alternatives to permanent purchase and dry-up of agricultural water
17 rights in the basin, including dry-year options, water banking, long-
18 term water supply lease agreements, long-term agricultural land
19 fallowing agreements, and reduced consumptive use through efficiency or
20 alternative cropping arrangements while maintaining historic return
21 flows.

22 (3) A portion of the reappropriation may be used for administrative
23 costs, not to exceed four percent, and other costs associated with
24 leasing or acquiring and transferring the water rights. All costs
25 shall be fully recovered from participating domestic water users for
26 their prorated portion of the cost, including but not limited to the
27 costs of securing a water right or rights for this purpose, costs
28 associated with the development and implementation of alternative
29 agricultural water transfer methods, associated annual operational
30 costs, and federal water service contract costs owed to the United
31 States bureau of reclamation. Funds recovered in this manner shall be

24 Trust Land Transfer (30000200)

25 The appropriation in this section is subject to the following
26 conditions and limitations:

27 (1) The total appropriation is provided solely to the department to
28 transfer from trust status, or enter into fifty year leases for,
29 certain trust lands of statewide significance deemed appropriate for
30 state park, fish and wildlife habitat, natural area preserve, natural
31 resources conservation area, open space, or recreation purposes. The
32 approved list of properties for lease or transfer is identified in the
33 LEAP capital document No. 2011-4A, developed March 22, 2011.

34 (2) Property transferred under this section must be appraised and
35 transferred at fair market value. No later than September 30, 2011,

1 the department must deposit in the common school construction account
2 the portion of the appropriation in this section that represents the
3 estimated value of the timber on the transferred properties. This
4 transfer must be made in the same manner as timber revenues from other
5 common school trust lands. No deduction may be made for the resource
6 management cost account under RCW 79.64.040. The portion of the
7 appropriation in this section that represents the value of the land
8 transferred must be deposited in the natural resources real property
9 replacement account.

10 (3) Property subject to lease agreements under this section must be
11 appraised at fair market value. Lease terms must be fifty years with
12 options to renew for an additional fifty years. Lease payments must be
13 lump sum payments for the entire term of the lease at the beginning of
14 the lease. The department shall calculate such lump sum payments using
15 professional appraisal standards. These lease payments may not exceed
16 the fee simple purchase price based on current fair market value and
17 must be deposited by the department to the common school construction
18 account in the same manner as lease revenues from other common school
19 trust lands. No deduction may be made for the resource management cost
20 account under RCW 79.64.040. No later than September 30, 2011, the
21 department must transfer to the common school construction account the
22 portion of the appropriation in this section that is attributable to
23 receipts from lease payments.

24 (4) All reasonable costs incurred by the department to implement
25 this section are authorized to be paid out of the appropriations.
26 Authorized costs include the actual cost of appraisals, staff time,
27 environmental reviews, surveys, and other similar costs and shall not
28 exceed one and nine-tenths percent of the appropriation.

29 (5) Intergrant exchanges between common school and other trust
30 lands of equal value may occur if the exchange is in the interest of
31 each trust, as determined by the board of natural resources.

32 (6) Prior to or concurrent with conveyance of these properties, the
33 department, with full cooperation of the receiving agencies, shall
34 execute and record a real property instrument that dedicates the
35 transferred properties to the purposes identified in subsection (1) of
36 this section. Transfer and lease agreements for properties identified
37 in subsection (1) of this section must include terms that restrict the
38 use of the property to the intended purpose. Transfer and lease

1 agreements may include provisions for receiving agencies to request
2 alternative uses of the property, provided the alternative uses are
3 compatible with the original intended public purpose and the department
4 and legislature approves such uses.

5 (7) The department and receiving agencies shall work in good faith
6 to carry out the intent of this section. However, the department or
7 receiving agencies may remove a property from the transfer list based
8 on new, substantive information, if it is determined that transfer of
9 the property is not in the statewide interest of either the common
10 school trust or the receiving agency.

11 (8) \$71,000,000 of the appropriation must be deposited in the
12 common school construction account by September 30, 2011. The
13 department shall execute trust land transfers so that after the
14 deduction of reasonable costs as provided in subsection (4) of this
15 section on an aggregate basis eighty percent of the total value of
16 transferred property is timber value or lease payments and is deposited
17 in the common school construction account. To achieve the eighty
18 percent requirement, the department may choose to lease properties
19 originally intended as transfers or transfer properties originally
20 intended as leases.

21 (9) By June 30, 2013, the state treasurer shall transfer to the
22 common school construction account any unexpended balance of the
23 appropriation in this section.

24 (10) \$500,000 of the appropriation is provided solely for the
25 department to process the fee transfer of properties leased to the
26 department of fish and wildlife through the trust land transfer program
27 during the current or previous biennium.

34 **NEW SECTION. Sec. 3180. FOR THE DEPARTMENT OF NATURAL RESOURCES**
35 **Replacing State Forest Lands with Productive Forests (91000029)**

1 The appropriation in this section is subject to the following
2 conditions and limitations:

3 (1) The total appropriation is provided solely to the department to
4 transfer from state forest land status to natural resources
5 conservation area status certain state forest lands in counties with a
6 population of 25,000 or less which are subject to timber harvest
7 deferrals greater than thirty years due to the presence of wildlife
8 species listed as endangered or threatened under the federal endangered
9 species act. The approved list of properties for transfer is
10 identified in the LEAP capital document No. 2011-5A, developed March
11 24, 2011.

12 (2) Property transferred under this section must be appraised and
13 transferred at fair market value, without consideration of management
14 or regulatory encumbrances associated with wildlife species listed
15 under the federal endangered species act. The value of the timber and
16 other valuable materials transferred must be distributed as provided in
17 RCW 79.64.110, in the same manner as valuable material revenues from
18 other state forest lands in the applicable counties. The value of the
19 land transferred must be deposited in the park land trust revolving
20 account and be solely used to buy replacement state forest land within
21 the same county as the property transferred, consistent with RCW
22 79.22.060.

23 (3) Prior to or concurrent with conveyance of these properties, the
24 department shall execute and record a real property instrument that
25 dedicates the transferred properties to the purposes identified in
26 subsection (1) of this section. Transfer agreements for properties
27 identified in subsection (1) of this section must include terms that
28 restrict the use of the property to the intended purpose.

29 (4) The department and applicable counties shall work in good faith
30 to carry out the intent of this section. However, the department or
31 applicable counties may remove a property from the transfer list based
32 on new, substantive information, if it is determined that transfer of
33 the property is not in the statewide interest of either the state
34 forest trust or the natural resources conservation area program.

32 energy savings and utility or other incentives to state grant, the
33 higher the project ranking;

34 (c) Energy savings: The higher the simple payback for energy
35 savings, not to exceed the useful life of the energy conservation
36 measure, the higher the project ranking; and

19 do not proceed with a project that meets the school district's
20 predetermined cost-effectiveness criteria.

21 (6) Applicants must submit documentation that demonstrates energy
22 and operational cost savings resulting from the installation of the
23 energy equipment and improvements. The energy savings analysis shall
24 be performed by a licensed engineer, and the documentation must
25 include, but is not limited to, the following:

- 26 (i) A description of the energy equipment and improvements; and
- 27 (ii) A description of the energy and operational cost savings.

28 (7) Each school district is limited to one grant award and no more
29 than \$1,000,000.

4 follows:

5 FOR THE DEPARTMENT OF ((COMMUNITY, TRADE, AND ECONOMIC DEVELOPMENT))
6 COMMERCE

7 Temporary Public Works Grant Program (92000021)

8 The appropriation in this section is subject to the following
9 conditions and limitations: The appropriation is provided solely for
10 grants for the specified public works projects and competitive public
11 works grant programs specified below. The public works board (board)
12 shall administer the following competitive public works grant programs
13 within the amounts specified, provided that up to ten percent of the
14 amounts provided for competitive grant programs may be transferred to
15 other competitive grant categories if acceptable applications for any
16 category do not total the amount available.

17 (1) \$9,531,000 is provided solely for a competitive public works
18 grant program for local governments serving communities in rural
19 counties as defined in RCW 43.160.020. The board shall prioritize
20 applications for funding for this small community jobs program based on
21 the following criteria:

22 (a) The unemployment rate of the community;

23 (b) The ability of the applicant to complete the project promptly;

24 and

25 (c) The value the project presents to the community in lasting
26 improvements to public safety, environmental quality, recreation and
27 community life, or economic development.

28 (2) \$9,531,000 is provided solely for a competitive public works
29 grant program for local governments serving high density urban
30 communities. The board shall prioritize applications for funding from
31 this urban vitality program based on the following criteria:

32 (a) The proposed project's ability to decrease the per capita
33 vehicle miles driven in the community by increasing access to mass
34 transit, supporting residential density in proximity to employment
35 opportunities, and improving the safety and appeal of walking and
36 biking in a community;

1 (b) The ability of the applicant to complete the project promptly;
2 and

3 (c) The local support for the project as indicated by the level of
4 local matching funds devoted to the project. Local matching funds do
5 not include funds from other state sources.

6 (3) The state taxable building construction account--state
7 appropriation is provided solely for emergency loans under RCW
8 43.155.065.

9 (4) (~~(\$23,535,000)~~) \$21,528,000 is provided solely for the
10 following list of projects. The appropriation for Airway Heights
11 wastewater treatment plant is contingent upon a capacity agreement with
12 the Kalispel Tribe that precludes the need to build multiple wastewater
13 treatment facilities on the West Plains. If any project on the
14 following list is unable to show reasonable progress towards
15 accomplishing the intended project by December 31, 2010, the board may
16 transfer the amount allocated for the project to the competitive grant
17 categories in subsections (1) and (2) of this section.

9 **Sec. 6018.** 2010 1st. sp.s. c 36 s 1016 (uncodified) is amended to
10 read as follows:

11 **FOR THE DEPARTMENT OF COMMERCE**

12 Jobs Act for K-12 Public Schools and Higher Education Institutions
13 (91000085)

14 The appropriation in this section is subject to the following
15 conditions and limitations:

16 (1) The appropriation is provided solely for grants to public
17 school districts and public higher education institutions for
18 operational cost savings improvements to public school district and
19 higher education facilities and related projects that result in energy
20 and operational cost savings. Related projects are those projects that
21 must be completed in order for the energy efficiency improvements to be
22 effective. Grants may also be used for loan interest payments over the
23 term of a loan.

24 (2) The department of commerce, in consultation with the department
25 of general administration, the office of the superintendent of public
26 instruction, and the Washington State University energy program shall
27 establish a competitive process to solicit and evaluate applications
28 from public school districts and public higher education institutions.
29 Final grant awards shall be determined by the department of commerce.

30 (3) The definitions in this section apply throughout this section.

31 (a) "Cost-effectiveness" means that the present value to public
32 school districts and public higher education institutions of the energy
33 reasonably expected to be saved or produced by a facility, activity,
34 measure, or piece of equipment over its useful life, including any
35 compensation received from a utility or the Bonneville power

1 administration, is greater than the net present value of the costs of
2 implementing, maintaining, and operating such facility, activity,
3 measure, or piece of equipment over its useful life, when discounted at
4 the cost of public borrowing.

5 (b) "Energy equipment" means energy management systems and any
6 equipment, materials, or supplies that are expected, upon installation,
7 to reduce the energy use or energy cost of an existing building or
8 facility, and the services associated with the equipment, materials, or
9 supplies, including but not limited to design, engineering, financing,
10 installation, project management, guarantees, operations, and
11 maintenance. Reduction in energy use or energy cost may also include
12 reductions in the use or cost of water, wastewater, or solid waste.

13 (c) "Energy cost savings" means savings realized in expenses for
14 energy use and expenses associated with water, wastewater, or solid
15 waste systems.

16 (d) "Energy savings performance contracting" means the process
17 authorized by chapter 39.35C RCW by which a company contracts with a
18 public agency to conduct energy audits and guarantee energy savings
19 from energy efficiency.

20 (e) "Operational cost savings" means savings realized from parts,
21 service fees, capital renewal costs, and other measurable annual
22 expenses to maintain and repair systems. This definition does not mean
23 labor savings related to existing facility staff.

24 (f) "Public facilities" means buildings, building components, and
25 major equipment or systems owned by public school districts and public
26 higher education institutions.

27 (g) "Innovative measures" means advanced or emerging technologies,
28 systems or approaches that may not yet be in common practice but
29 improve energy efficiency, accelerate deployment, or reduce energy
30 usage, and become widely commercially available in the future if proven
31 successful in demonstration programs without compromising the
32 guaranteed performance or measurable energy and operational cost
33 savings anticipated. Examples of innovative measures include, but are
34 not limited to, advanced energy and systems operations monitoring,
35 diagnostics and controls systems for buildings; novel heating, cooling,
36 ventilation and water heating systems; advanced windows and insulation
37 technologies, highly efficient lighting technologies, designs, and

1 controls; and integration of renewable energy sources into buildings,
2 and energy savings verification technologies and solutions.

3 (4) Grants must be awarded in competitive rounds, based on demand
4 and capacity, with at least five percent of each grant round awarded to
5 small public school districts with fewer than 1,000 full-time
6 equivalent students, based on demand and capacity.

7 (5) Within each competitive round, projects must be weighted and
8 prioritized based on the following criteria and in the following order:

9 (a) Leverage ratio: In each round, the higher the leverage ratio
10 of nonstate funding sources to state jobs act grant, the higher the
11 project ranking.

12 (b) Energy savings: In each round, the higher the energy savings,
13 the higher the project ranking. Applicants must submit documentation
14 that demonstrates energy and operational cost savings resulting from
15 the installation of the energy equipment and improvements. The energy
16 savings analysis shall be performed by a licensed engineer, and the
17 documentation must include but is not limited to the following:

18 (i) A description of the energy equipment and improvements;

19 (ii) A description of the energy and operational cost savings; and

20 (iii) A description of the extent to which the project employs
21 collaborative and innovative measures and encourages demonstration of
22 new and emerging technologies with high energy-savings or energy cost-
23 reductions.

24 (c) Expediency of expenditure: Project readiness to spend funds
25 must be prioritized so that the legislative intent to expend funds
26 quickly is met.

27 (6) Projects that do not use energy savings performance contracting
28 must: (a) Verify energy and operational cost savings for ten years or
29 until the energy and operational costs savings pay for the project,
30 whichever is shorter; (b) follow the department of general
31 administration's energy savings performance contracting project
32 guidelines; and (c) employ a licensed engineer for the energy audit and
33 construction. The department of commerce may require third-party
34 verification of savings if a project is not implemented by an energy
35 savings performance contractor selected by the department of general
36 administration through the request of qualifications process. Third-
37 party verification must be conducted either by an energy savings
38 performance contractor selected by the department of general

1 administration through a request for qualifications, a licensed
2 engineer that is a certified energy manager, a project resource
3 conservation manager, or educational service district resource
4 conservation manager.

5 (7) To intensify competition, the department of commerce may only
6 award funds to the top eighty-five percent of projects applying in a
7 round until the department of commerce determines a final round is
8 appropriate. Projects that do not receive a grant award in one round
9 may reapply in subsequent rounds.

10 (8) To match federal grants and programs that require state
11 matching funds and produce significantly higher efficiencies in
12 operations and utilities, the level of innovation criteria may be
13 increased for the purposes of weighted scoring to capture those federal
14 dollars for selected projects that require a higher level of innovation
15 and regional collaboration.

16 (9) Grant amounts awarded to each project must allow for the
17 maximum number of projects funded with the greatest energy and cost
18 benefit.

19 (10)(a) The department of commerce must use bond proceeds to pay
20 one-half of the preliminary audit, up to five cents per square foot, if
21 the project does not meet the school district's and higher education
22 institution's predetermined cost-effectiveness criteria. Public school
23 districts and public higher education institutions must pay the other
24 one-half of the cost of the preliminary audit if the project does not
25 meet their predetermined cost-effectiveness criteria.

26 (b) The energy savings performance contractor shall not charge for
27 an investment grade audit if the project does not meet the school
28 district's and higher education institution's predetermined cost-
29 effectiveness criteria. Public school districts and public higher
30 education institutions must pay the full price of an investment grade
31 audit if they do not proceed with a project that meets the school
32 district's and higher education institution's predetermined cost-
33 effectiveness criteria.

34 (11) The department of commerce may charge projects administrative
35 fees and may pay the department of general administration, the
36 Washington State University energy program, and the office of the
37 superintendent of public instruction administration fees in an amount
38 determined through a memorandum of understanding.

1 (12) The department of commerce and the department of general
2 administration must submit a joint report to the appropriate committees
3 of the legislature and the office of financial management on the timing
4 and use of the grant funds, program administrative function, compliance
5 with apprenticeship utilization requirements in RCW 39.04.320,
6 compliance with prevailing wage requirements, and administration fees
7 by the end of each fiscal year, until the funds are fully expended and
8 all savings verification requirements are fulfilled.

1 **PART 7**

2 **MISCELLANEOUS PROVISIONS**

3 NEW SECTION. **Sec. 7001.** (1) Allotments for appropriations in this
4 act shall be provided in accordance with the capital project review
5 requirements adopted by the office of financial management and in
6 compliance with RCW 43.88.110. Projects that will be employing
7 alternative public works construction procedures under chapter 39.10
8 RCW are subject to the allotment procedures defined in this section and
9 RCW 43.88.110.

10 (2) Each project is defined as proposed in the legislative budget
11 notes or in the governor's budget document.

12 NEW SECTION. **Sec. 7002.** To ensure that major construction
13 projects are carried out in accordance with legislative and executive
14 intent, appropriations in this act in excess of \$5,000,000 shall not be
15 expended or encumbered until the office of financial management has
16 reviewed and approved the agency's predesign. The predesign document
17 shall include but not be limited to program, site, and cost analysis in
18 accordance with the predesign manual adopted by the office of financial
19 management. To improve monitoring of major construction projects,
20 progress reports shall be submitted by the agency administering the
21 project to the office of financial management and to the fiscal
22 committees of the house of representatives and senate. Reports will be
23 submitted on July 1st and December 31st each year in a format to be
24 developed by the office of financial management.

25 NEW SECTION. **Sec. 7003.** (1) To ensure minor works appropriations
26 are carried out in accordance with legislative intent, funds
27 appropriated in this act shall not be allotted until project lists are
28 on file at the office of financial management, the house of
29 representatives capital budget committee, and the senate ways and means
30 committee. All projects must meet the criteria included in subsection
31 (2)(a) of this section. Revisions to the lists must be filed with the
32 office of financial management, the house of representatives capital
33 budget committee, and the senate ways and means committee and include

1 an explanation of variances from the prior lists before funds may be
2 expended on the revisions.

3 (2)(a) Minor works projects are single line appropriations that
4 include multiple projects of a similar nature and that are valued
5 between \$25,000 and \$1,000,000 each, with the exception of higher
6 education minor works projects that may be valued up to \$2,000,000.
7 These projects can generally be completed within two years of the
8 appropriation with the funding provided. Agencies are prohibited from
9 including projects on their minor works lists that are a phase of a
10 larger project, and that if combined over a continuous period of time,
11 would exceed \$1,000,000, or \$2,000,000 for higher education minor works
12 projects. Improvements for accessibility in compliance with the
13 Americans with disabilities act may be included in any of the above
14 minor works categories.

15 (b) Minor works appropriations shall not be used for, among other
16 things: Studies, except for technical or engineering reviews or
17 designs that lead directly to and support a project on the same minor
18 works list; planning; design outside the scope of work on a minor works
19 list; moveable, temporary, and traditionally funded operating equipment
20 not in compliance with the equipment criteria established by the office
21 of financial management; software not dedicated to control of a
22 specialized system; moving expenses; land or facility acquisition; or
23 to supplement funding for projects with funding shortfalls unless
24 expressly authorized elsewhere in this act. The office of financial
25 management may make an exception to the limitations described in this
26 subsection (2)(b) for exigent circumstances after notifying the
27 legislative fiscal committees and waiting ten days for comments by the
28 legislature regarding the proposed exception.

29 (c) Minor works preservation projects may include program
30 improvements of no more than twenty-five percent of the individual
31 minor works preservation project cost.

32 (3) It is generally not the intent of the legislature to make
33 future appropriations for capital expenditures or for maintenance and
34 operating expenses for an acquisition project or a significant
35 expansion project that is initiated through the minor works process and
36 therefore does not receive a policy and fiscal analysis by the
37 legislature. Minor works projects are intended to be one-time
38 expenditures that do not require future state resources to complete.

1 NEW SECTION. **Sec. 7004.** (1) The office of financial management
2 may authorize a transfer of appropriation authority provided for a
3 capital project that is in excess of the amount required for the
4 completion of such project to another capital project for which the
5 appropriation is insufficient. No such transfer may be used to expand
6 the capacity of any facility beyond that intended in making the
7 appropriation. Such transfers may be effected only between capital
8 appropriations to a specific department, commission, agency, or
9 institution of higher education and only between capital projects that
10 are funded from the same fund or account. No transfers may occur
11 between projects to local government agencies except where the grants
12 are provided within a single omnibus appropriation and where such
13 transfers are specifically authorized by the implementing statutes that
14 govern the grants.

15 (2) The office of financial management may find that an amount is
16 in excess of the amount required for the completion of a project only
17 if: (a) The project as defined in the notes to the budget document is
18 substantially complete and there are funds remaining; or (b) bids have
19 been let on a project and it appears to a substantial certainty that
20 the project as defined in the notes to the budget document can be
21 completed within the biennium for less than the amount appropriated in
22 this act.

23 (3) For the purposes of this section, the intent is that each
24 project be defined as proposed to the legislature in the governor's
25 budget document, unless it clearly appears from the legislative history
26 that the legislature intended to define the scope of a project in a
27 different way.

28 (4) The office of financial management shall report any transfer
29 effected under this section to the house of representatives capital
30 budget committee, the senate ways and means committee, and the
31 legislative evaluation and accountability program committee, at least
32 thirty days before the date the transfer is effected. The office of
33 financial management shall report all emergency or smaller transfers
34 within thirty days from the date of transfer. The governor's capital
35 budget request following any transfer shall reflect that transfer in
36 the affected agency.

1 **Sec. 7005.** RCW 39.35B.050 and 2007 c 506 s 3 are each amended to
2 read as follows:

3 The office of financial management shall:

4 (1) Design and implement a cost-effective life-cycle cost model by
5 October 1, 2008, based on the work completed by the joint legislative
6 audit and review committee in January 2007 and in consultation with
7 legislative fiscal committees;

8 (2) Deploy the life-cycle cost model for use by state agencies once
9 completed and tested;

10 (3) Update the life-cycle cost model periodically in consultation
11 with legislative fiscal committees;

12 (4) Establish clear policies, standards, and procedures regarding
13 the use of life-cycle cost analysis by state agencies including:

14 (a) When state agencies must use the life-cycle cost analysis,
15 including the types of proposed capital projects and leased facilities
16 to which it must be applied;

17 (b) Procedures state agencies must use to document the results of
18 required life-cycle cost analyses;

19 (c) Standards regarding the discount rate and other key model
20 assumptions; (~~and~~)

21 (d) A process to document and justify any deviation from the
22 standard assumptions;

23 (e) Establish a requirement that agencies conduct the analysis
24 comparing a thirty-year and fifty-year building life when using the
25 life-cycle cost model; and

26 (f) Establish a requirement that agencies include renovation,
27 system replacement, and remodel costs in maintenance costs for use in
28 the life-cycle cost model.

29 NEW SECTION. **Sec. 7006.** (1) It is expected that projects be ready
30 to proceed in a timely manner depending on the type or phase of the
31 project or program that is the subject of the appropriation in this
32 act. Except for major projects that customarily may take more than two
33 biennia to complete from predesign to the end of construction, or large
34 infrastructure grant or loan programs supporting projects that often
35 take more than two biennia to complete, the legislature generally does
36 not intend to reappropriate funds more than once, particularly for
37 smaller grant programs, local/community projects, and minor works.

1 (2) Agencies shall expedite the expenditure of reappropriations and
2 appropriations in this act in order to: (a) Rehabilitate
3 infrastructure resources; (b) accelerate environmental rehabilitation
4 and restoration projects for the improvement of the state's natural
5 environment; (c) reduce additional costs associated with acquisition
6 and construction inflationary pressures; and (d) provide additional
7 employment opportunities associated with capital expenditures.

8 (3) To the extent feasible, agencies are directed to accelerate
9 expenditure rates at their current level of permanent employees and
10 shall use contracted design and construction services wherever
11 necessary to meet the goals of this section.

12 NEW SECTION. **Sec. 7007.** State agencies, including institutions of
13 higher education, shall allot and report full-time equivalent staff for
14 capital projects in a manner comparable to staff reporting for
15 operating expenditures.

16 NEW SECTION. **Sec. 7008.** The department of general administration
17 shall not charge the facility depreciation component of lease charges
18 for nonprofit tenants in the building adjoining Capitol Way and 11th
19 avenue during the 2011-2013 biennium.

20 NEW SECTION. **Sec. 7009.** It is the intent of the legislature to
21 meet the narrow banding requirements set forth by the federal
22 communication commission. The department of general administration and
23 the Washington state patrol must report the results of the
24 preengineering study with cost estimates and schedule requirements as
25 required in section 106, chapter ..., Laws of 2011 (PSHB 1175), to the
26 house of representatives capital budget committee and the senate ways
27 and means committee by December 31, 2011, for possible inclusion in the
28 2012 supplemental capital budget.

29 NEW SECTION. **Sec. 7010.** Executive Order No. 05-05, archaeological
30 and cultural resources, was issued effective November 10, 2005.

32 requirements set forth in this executive order.

2 committee.

5 requests to the legislature for acquisition of properties and
6 facilities through financial contracts. The agreements may include
7 charges for services rendered.

8 Those noninstructional facilities of higher education institutions
9 authorized in this section to enter into financial contracts are not

21 Maple Lane school.

22 **NEW SECTION. Sec. 7013. PUGET SOUND PROTECTION AND RESTORATION**

23 Consistent with RCW 90.71.340, when expending appropriations under
24 this act that contribute to Puget Sound protection and recovery,
25 agencies shall consult with the Puget Sound partnership to ensure that
26 projects and expenditures are either in, or consistent with the 2020
27 action agenda. These consultations shall include the exchange of
28 information on specific actions, projects, associated funding,
29 performance measures, and other information necessary to track project
30 implementation and ensure alignment with the action agenda. In
31 situations where the Puget Sound partnership finds that a project is
32 not in, or is not consistent with the action agenda Puget Sound
33 partnership shall document this finding and report back to the governor
34 and legislative fiscal committees.

35 **NEW SECTION. Sec. 7014. FOR THE ARTS COMMISSION--ART WORK**
36 **ALLOWANCE POOLING**

1 (1) One-half of one percent of moneys appropriated in this act for
2 original construction of school plant facilities may be expended for
3 the purposes of RCW 28A.335.210. The Washington state arts commission

28 the governor may assign responsibility for predesign, design,
29 construction, and other related activities to any appropriate agency.

30 NEW SECTION. **Sec. 7016.** If any federal moneys appropriated by
31 this act for capital projects are not received by the state, the
32 department or agency to which the moneys were appropriated may replace

34 No replacement may occur under this section without the prior approval
35 of the director of financial management in consultation with the senate

1 ways and means committee and the house of representatives capital
2 budget committee.

3 NEW SECTION. **Sec. 7017.** (1) Unless otherwise stated, for all

7 that the state share of project expenditures never exceeds the intended
8 state share of total project costs.

9 (2) Provision of the full amount of required matching funds is not
10 required to permit the expenditure of capital budget appropriations for
11 phased projects if a proportional amount of the required matching funds
12 is provided for each distinct, identifiable phase of the project.

13 NEW SECTION. **Sec. 7018. NONTAXABLE AND TAXABLE BOND PROCEEDS**

14 Portions of the appropriation authority granted by this act from

23 comply with the federal internal revenue service rules and regulations
24 shall be deposited into the state building construction account. The
25 state treasurer shall submit written notification to the director of
26 financial management if it is determined that a shift of appropriation
27 authority between the state building construction account, or any other

29 construction account is necessary, or that a shift of appropriation
30 authority from the state taxable building construction account to the
31 state building construction account may be made.

1 completed predesign to undergo a budget evaluation study. The budget
2 evaluation study team approach using value engineering techniques must
3 be utilized by the office of financial management in conducting the
4 studies. The office of financial management shall select the budget
5 evaluation team members, contract for the study, and report the results
6 to the legislature and agencies in a timely manner following the study.

22 the principal of and interest on such bonds. The amounts so certified
