

2012 Supplemental Operating Budget

Summary of Proposed Striking Amendment to PSHB 2127

February 21, 2012

Representative Alexander, Ranking Minority Member
House Ways and Means Committee

Background

When the Legislature adopted the 2011-13 biennial operating budget in May 2011, it left \$743 million in projected reserves (Near General Fund-State and Budget Stabilization Account projected ending fund balances). Over the next seven months, projected revenues for the remainder of 2009-11 and for 2011-13 declined by over \$2.2 billion.

After the November revenue forecast, the \$743 million in ending reserves for 2011-13 projected in May 2011 became a negative \$1.4 billion.

In December 2011, the Legislature took action which reduced the budget problem by \$480 million. Major elements included:

- Increased revenue of \$51 million (Substitute House Bill 2169).
- Net savings of \$322 million (\$96 million from maintenance level).
- Fund Transfers of \$107 million (\$83 million from fiscal year 2011 General Fund-State reversions).

The Legislature entered the 2012 session with a Near General Fund-State (NGF-S) budget problem statement of \$968 million (including the Budget Stabilization Account) plus the desired amount of ending reserves. The striking amendment to Proposed Substitute House Bill (PSHB) 2127 leaves ending reserves for 2011-13 of \$625 million, meaning the remaining budget challenge defined under this proposal is \$1.593 billion.

Summary of Proposed Striking Amendment to PSHB 2127

The February 2012 revenue forecast increased by \$86 million. On the expenditure side of the balance sheet, February 2012 maintenance level savings of \$335 million recognized in this striking amendment further reduced the budget problem. Taking these two items into account, this reduced the budget problem to \$1.17 billion (assuming ending reserves of approximately \$625 million).

Resources

The striking amendment to PSHB 2127 assumes or includes approximately \$193.5 million in additional resources from the following:

- Liquor profits will be shared in a manner consistent with the language of Initiative 1183 resulting in a \$10 million increase above the levels previously received by local governments and an additional \$41.8 million is directed to the state general fund.
- \$18.1 million from assumed legislation to limit the mortgage Business & Occupation tax deduction (affecting banks doing business in 10 or more states).
- \$14 million from assumed legislation related to the renewable energy equipment sales tax exemption.

- \$66.5 million in net transfers (primarily \$24.6 million from Real Estate Excise Tax deposits to the Public Works Assistance Account for fiscal year 2013 only, \$10 million from the Local Toxics Account, \$10 million from the MultiModal Transportation Account, \$5.6 million from the State Toxics Account, \$11.8 million related to document recording fees, and \$5 million from the Public Services Revolving Account).
- \$22.2 million from sales tax mitigation.
- \$25.9 million is assumed from the sale of state facilities (including \$15.2 million from Tacoma Rhodes Center and \$7.5 million from the liquor distribution center).

Changes to Spending

In addition to the maintenance savings and assumed reversions referenced above, the striking amendment to PSHB 2127 includes \$817 million in net NGF-S policy savings. Here are the net savings by functional area (NGF-S unless noted otherwise):

- Net reductions in K-12 of \$50.7 million include changes to numerous education reform programs (net \$14.3 million savings including an \$8.3 million reduction in the National Board for Professional Teaching Standards bonus program) and the Office of Superintendent of Public Instruction statewide programs (net \$7.2 million savings including eliminating funding for Navigation 101). In addition, \$14.4 million is saved through freezing salary step increases, \$5.1 million is saved through adjustments to Alternative Learning Education (HB 2209), and \$8.4 million is saved in Running Start.
- In higher education, funding for institutions is reduced by about \$15 million. Increased institutional funding is provided for engineering degree production (\$7.6 million) resulting in a net reduction to institutional funding of about \$7 million. In addition, funding for the State Need Grant is reduced by \$75 million, and state funding is eliminated for remedial education for recent high school graduates attending community and technical colleges (\$14.5 million in savings).
- \$415.5 million in net reductions in health care and human service programs including:
 - Children and Family Services net reductions of \$20.5 million, which includes an \$8 million savings from increasing caseload ratios, a \$7.3 million reduction in contracted services, and \$4.3 million savings in selected services. \$0.6 million is added for family assessment response.
 - Mental Health net reductions of \$11.1 million, primarily from Regional Support networks (RSN) non-Medicaid funding savings (\$4.6 million), and closing decertified wards at Western State Hospital and serving those clients in other settings (\$3.8 million net savings). \$1.7 million is saved by consolidating RSNs (HB 2139).
 - Developmental Disabilities includes a reduction of approximately \$6 million from state-only services (recouping under-spent funds for state-only employment) and approximately \$3.4 million in savings from establishing efficiencies (Instruction and Support programs and combining Medicaid waivers). An increase of

approximately \$4 million is added for new Medicaid waiver placements, Medicaid employment services, and new placements in the proposed Community First Choice Program.

- Long-Term Care net reductions include \$10.8 million in savings through additional federal funding achieved by refinancing Medicaid Personal Care into the Community First Choice Option program, \$2 million in savings assumed from reducing Medicaid caseloads by investing in the Family Caregiver Support program, and approximately \$2 million in savings in provider rate reductions (Boarding Homes).
- Funding for Initiative 1163 is included in both Developmentally Disabled and Long-Term Care (\$14.4 million increase).
- Economic Services Administration (ESA) net reductions of \$218.6 million are primarily from Temporary Assistance to Needy Families (TANF) and Working Connections Child Care under-expenditures (\$81.4 million savings), savings from decreasing WorkFirst grants by 5 percent (\$14.8 million), savings from reducing TANF/WorkFirst time limits from 60 months to 48 months (net \$11.5 million), reductions to the State Family Assistance program (\$5 million savings), and additional requirements for emergent needs (\$4.9 million savings). Also, the state food assistance program is eliminated (\$13.8 million savings; \$1.5 million was added for food banks in the Department of Agriculture). Savings are also taken from already accrued ESA staffing under-expenditures (\$8.1 million).
- Alcohol and Substance Abuse net reduction of \$13.9 million, including \$12.2 million from eliminating Medical Care Services (formerly Disability Lifeline Medical and ADATSA treatment).
- Health Care Authority net reductions of \$119.7 million, primarily due to savings of \$41 million from eliminating Medical Care Services (which covers clients under the former Disability Lifeline Medical program and under the Alcoholism and Drug Addiction Treatment Program), \$49 million from eliminating the Basic Health Plan, and \$13.1 million from eliminating Indigent Assistance Disproportionate Share Hospital grants. \$2.5 million is added to implement phase two of the ProviderOne project.
- Department of Health net reduction of \$9 million including \$4.7 million in reductions to the HIV-AIDS program.
- \$31.2 million reductions in natural resources, primarily from:
 - Fund shifts to pay for programs currently funded by NGF-S such as land management costs (\$2.1 million savings) in the Department of Natural Resources and aquatic lands management (\$8.0 million savings) in the Department of Fish and Wildlife.
 - Program and administrative reductions in the Department of Ecology (\$10 million).

- Elimination of NGF-S support for the Puget Sound Partnership (\$3 million).
- Funding is reduced in total funds in the State Parks and Recreation Commission to reflect savings from agency restructuring and less than expected revenue related to the Discover Pass.
- \$211 million in other areas, including:
 - Net reductions in the Department of Corrections that include reductions in chemical dependency treatment (\$5.1 million savings), reduced hospital rates (\$4.7 million savings), and an increase of \$3.7 million for prison safety and radios.
 - Net reductions of \$66.2 million in the Department of Commerce, primarily from eliminating the Housing Essential Needs Program (\$48.6 million), reductions in business development activities (\$4 million), and using increased traffic fines to replace NGF-S in crime victims services.
 - Net reductions of \$12.6 million for judicial agencies, primarily eliminating the truancy program (saving \$8.7 million), and reduced funding for trial court indigent defense (saving \$3.6 million).
 - Reductions are also assumed statewide, including higher education institutions, in goods and services (\$8.2 million), equipment (7.6 million), personal services contracts (\$5.3 million), and travel (\$3.3 million).
 - A reduction of \$70.8 million from temporary layoffs. Except for public safety and other exceptions, state employees, including higher education institutions, are subject to 24 days of temporary layoffs.
 - The rate that state agencies pay the Public Employees Benefits Board (PEBB) for state employee health benefits is reduced saving \$33.1 million. This is projected to leave the PEBB reserves fully funded at the end of the 2011-13 biennium.
 - \$138 million in net anticipated reversions. The operating budget enacted in 2011 assumed reversions of approximately \$22 million from fiscal year 2012. The striking amendment assumes anticipated reversions of \$80 million per year would remain in the General Fund-State.

Included in this summary is a balance sheet and supporting documents, a budget groupings report that summarizes changes by general topic area, and a detailed supplemental items report that lists and describes each individual policy level change. A separate document, the Agency Detail Report, lists funding levels for each agency and describes how the striking amendment to PSHB 2127 would impact those funding levels.

Finally, the budgets for some agencies were reduced by legislative actions in December 2011. The changes mentioned in this summary are in addition to those changes.

The BRS reductions will be achieved through the current fee structure in place. Additionally, case management fees paid to child placing agencies are reduced by 10 percent effective May 2011. (General Fund-State, General Fund-Federal)
- 112. **CLOSE DECERTIFIED WARDS** - Two decertified, state-only funded wards at Western State Hospital that currently serve individuals who suffer from traumatic brain injury (TBI) and dementia will be closed. The first ward will be closed on July 1, 2012, and the second on October 1 2012. Patients will be placed in long-term care settings within the community. Long-term care providers will be paid enhanced rates consistent with the existing Expanded Care Services program.

- 116. **FUNDING FOR INITIATIVE 1163** - Initiative 1163 was approved by voters in 2011. - 117. **INSTRUCTION AND SUPPORT** - Instruction and Support (IS) are provided to about 4,000 individuals with developmental disabilities who receive Medicaid waiver care through either the CORE or Community Protection waivers. Clients on these waivers receive out-of-home services delivered by Developmental Disabilities Community Residential (DDCR) providers. Beginning July 2012, 90 percent of clients living in DDCR will receive a 2 percent reduction in hours assessed for IS services. The reduction will be determined using economies of scale and efficiencies based on the like needs of other individuals in the same household. In order to contract with the state, DDCR providers are required to meet the individual's need for habilitation and personal care assistance. For this reason, clients in DDCR are automatically assessed as having their personal care needs met but are provided an enhanced assessment for IS services which include teaching and training of tasks and self-care, maintaining one's own household, and accessing the community. IS services vary from a few hours per month to 24-hours-per-day of one-to-one support. (General Fund-State, General Fund-Federal)

Although federal regulations are not yet final, it is assumed that the General-Fund State Maintenance of Effort (MOE) requirements for CFCO apply specifically to expenditures related to MPC. With the implementation of CFCO, caseloads are projected to increase for clients with developmental disabilities above previously MPC forecasted levels. A net savings is achieved due to the additional 6 percent federal matching funds realized on forecasted caseload growth in Long Term Care. The result is a net savings of \$8.45 million General Fund-State during the 2011-13 biennium and a projected net savings of \$21.6 million GF-S during the 2013-15 biennium. (General Fund-State, General Fund-Federal)

121. **EXPAND FAMILY CAREGIVER SUPPORT** - Investments are made in the Family Caregiver Support Program (FCSP). The FCSP is a service available to unpaid caregivers of adults who need care. 122. **FUNDING FOR INITIATIVE 1163** - Initiative 1163 was approved by voters in 2011. With the implementation of CFCO, caseloads are projected to increase for clients with developmental disabilities above previous MPC forecasted levels. A net savings is achieved due to the additional 6 percent federal matching funds realized on forecasted caseload growth in Long-Term Care. The result is a net savings of \$8.45 million GF-S during the 2011-13 biennium and a projected net savings of \$21.6 million GF-S during the 2013-15 biennium.
