101. **NURSING HOME ASSESSMENT** - The nursing home assessment fee is increased from the current 4.08 percent to 5.82 percent on total revenues. This results in an increase of the assessment fee from \$14 per patient day to \$21 per patient day. Federal revenue which is leveraged with the assessment fee is used to increase the statewide average nursing home payment by about \$7.24 per day. Of that, \$1.58 is used to increase the low-wage worker add-on to \$3.15 per day. The remainder is provided in a new direct care rate add-on established for FY 2015 in the operating budget. The rate add-on is calculated at no more than 6 percent of the direct care rates established in 74.46 and is applied evenly to all facilities. This one-time direct care add-on is subject to settlement. (Skilled Nursing Facility Net Trust Account--State, General Fund--Federal)

As a result, DSHS will receive less Medicaid revenue to support its administrative costs. Federal funds are provided to cover DSHS administrative costs that will shift from Medicaid to the Supplemental Nutrition Assistance Program, the Temporary Assistance for Needy Families program, and the Refugee Cash Assistance program. OFM has contracted for an eligibility study to identify options to streamline eligibility processes and potential revenue sources to address lost revenue for FY 2015 and beyond. The BCCT program was a Medicaid program that covered treatment for approximately 1,250 women diagnosed with breast or cervical cancer with incomes under 300 percent of the federal poverty level (FPL). It was eliminated on January 1, 2014, when the state expanded the Medicaid program to include adults with incomes below 133 percent of the FPL. Clients with incomes below 133 percent of the FPL could enroll in Medicaid coverage under the Medicaid expansion. Clients with incomes over 133 percent of the FPL that were already enrolled in the program as of January 1, 2014, were allowed retain state-only coverage throughout the course of their treatments. Savings will be achieved because the cost of restoring Medicaid coverage for clients with incomes above 133 percent of the FPL is less than the cost of maintaining state-only coverage for clients that were already enrolled as of January 1, 2014. The Health Care Authority will collect hospital assessments and provide supplemental payments to hospitals and increased payments to managed care plans for hospital services starting on July 1, 2013, instead of October 1, 2013. (General Fund-State, General Fund-Federal)
128. **FACILITY FEES** - Savings are achieved because the Health Care Authority is directed not to pay hospital owned physician practices or clinics a higher payment rate than the maximum resource based relative value scale fee rate received by non-hospital owned physician practices or clinics for the same procedure beginning July 1, 2014. (General Fund-State, General Fund-Federal)
