**2014 Regular Session**

**By** Senate Ways & Means (originally sponsored by Senators Honeyford and Keiser; by request of Governor Inslee)

READ FIRST TIME 02/27/14.

1        AN ACT Relating to the capital budget; making appropriations and  
2 authorizing expenditures for capital improvements; amending RCW  
3 43.160.080; amending 2013 2nd sp.s. c 19 ss 1073, 1074, 1077, 1078,  
4 1038, 1070, 1064, 1065, 1066, 1067, 1084, 1089, 1102, 1109, 2009, 2037,  
5 3002, 3067, 3066, 3081, 3239, 3240, 5019, 5024, 5042, 5054, 5062, 5072,  
6 5078, 5086, 5131, 5117, and 7014 (uncodified); amending 2013 3rd sp.s.  
7 c 1 s 3 (uncodified); reenacting and amending RCW 70.105D.070 and  
8 70.105D.170; adding new sections to 2013 2nd sp.s. c 19 (uncodified);  
9 creating new sections; repealing 2013 2nd sp.s. c 19 ss 7004 and 7013  
10 (uncodified); making appropriations; and declaring an emergency.

11 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

12        NEW SECTION. **Sec. 1.** A supplemental capital budget is hereby  
13 adopted and, subject to the provisions set forth in this act, the  
14 several dollar amounts hereinafter specified, or so much thereof as  
15 shall be sufficient to accomplish the purposes designated, are hereby  
16 appropriated and authorized to be incurred for capital projects during  
17 the period beginning with the effective date of this act and ending  
18 June 30, 2015, out of the several funds specified in this act.

1 PART 1

2 GENERAL GOVERNMENT

3 NEW SECTION. Sec. 1001. A new section is added to 2013 2nd sp.s.  
4 c 19 (uncodified) to read as follows:

5 FOR THE OFFICE OF THE SECRETARY OF STATE

6 Archives Facilities Maintenance Environmental Control (30000028)

7 Appropriation:

8	State Building Construction Account--State . . . . .	\$46,000
9	Prior Biennia (Expenditures) . . . . .	\$0
10	Future Biennia (Projected Costs) . . . . .	\$0
11	TOTAL . . . . .	\$46,000

12 NEW SECTION. Sec. 1002. A new section is added to 2013 2nd sp.s.  
13 c 19 (uncodified) to read as follows:

14 FOR THE OFFICE OF THE SECRETARY OF STATE

15 Library - Archives Building (30000029)

16 The appropriation in this section is subject to the following  
17 conditions and limitations:

18 The appropriation is for a predesign for a new facility for record  
19 retention, archives, and state library space. The legislature finds  
20 that the volume of state records retained in paper format continues to  
21 grow, increasing the records storage costs for the state. These paper  
22 records may duplicate electronic storage of identical documents. As  
23 part of the predesign, the secretary of state must convene a work group  
24 to study methods for retaining and retrieving records in electronic  
25 formats, with the goal of reducing the total volume of stored paper  
26 records by at least ten percent by the end of 2016, and an additional  
27 ten percent by the end of 2018. The following state agencies must  
28 participate in the work group, which must report back to the  
29 appropriate committees of the legislature no later than December 31,  
30 2014:

- 31 (1) Office of the secretary of state;
- 32 (2) Office of the attorney general;
- 33 (3) Office of the state auditor;
- 34 (4) Office of financial management;
- 35 (5) Department of corrections;
- 36 (6) Department of social and health services;

- 1 (7) Department of health;
- 2 (8) Employment security department;
- 3 (9) Department of licensing; and
- 4 (10) Department of transportation.

5 Appropriation:

6	Public Records Efficiency, Preservation &	
7	Access Account--State . . . . .	\$250,000
8	Prior Biennia (Expenditures) . . . . .	.\$0
9	Future Biennia (Projected Costs) . . . . .	.\$0
10	TOTAL . . . . .	\$250,000

11 NEW SECTION. **Sec. 1003.** A new section is added to 2013 2nd sp.s.  
 12 c 19 (uncodified) to read as follows:

13 **FOR THE OFFICE OF THE SECRETARY OF STATE**

14 TVW - Digital Equipment (92000001)

15 Appropriation:

16	State Building Construction Account--State . . . . .	\$2,840,000
17	Prior Biennia (Expenditures) . . . . .	.\$0
18	Future Biennia (Projected Costs) . . . . .	.\$0
19	TOTAL . . . . .	\$2,840,000

20 **Sec. 1004.** 2013 2nd sp.s. c 19 s 1073 (uncodified) is amended to  
 21 read as follows:

22 **FOR THE DEPARTMENT OF COMMERCE**

23 Drinking Water State Revolving Fund Loan Program (30000189)

24 The appropriations in this section are subject to the following  
 25 conditions and limitations:

26 ~~((1) \$4,400,000 for fiscal year 2014 and \$4,400,000 for fiscal~~  
 27 ~~year 2015 is provided solely as state match for federal safe drinking~~  
 28 ~~water funds.~~

29 ~~(2))~~) For projects involving repair, replacement, or improvement of  
 30 a clean water infrastructure facility or other public works facility  
 31 for which an investment grade efficiency audit is obtainable, the  
 32 public works board must require as a contract condition that the  
 33 project sponsor undertake an investment grade efficiency audit. The  
 34 project sponsor may finance the costs of the audit as part of its  
 35 drinking water state revolving fund program loan.

11 **Sec. 1005.** 2013 2nd sp.s. c 19 s 1074 (uncodified) is amended to  
12 read as follows:

13 **FOR THE DEPARTMENT OF COMMERCE**

14 Clean Energy and Energy Freedom Program (91000582)

15 The appropriations in this section are subject to the following  
16 conditions and limitations:

17 (1) All expenditures from the state taxable building construction  
18 account--state appropriation in this section must be used for projects  
19 that provide a benefit to the public through development,  
20 demonstration, and deployment of clean energy technologies that save  
21 energy and reduce energy costs, reduce harmful air emissions or  
22 otherwise increase energy independence for the state. All expenditures  
23 must be used for projects that develop and acquire assets that have a  
24 useful life of at least thirteen years. These requirements must be  
25 specified in funding agreements issued by the department.

26 (2) For any project funded from the state taxable building  
27 construction account--state appropriation in this section, state funds  
28 must not exceed fifty percent of the estimated cost of a project, and  
29 funding preference must be provided to projects that offer a higher  
30 percentage of nonstate match funds.

31 (3)(a) \$15,000,000 of the state taxable building construction  
32 account--state appropriation in this section is provided solely to  
33 create a revolving loan fund to support the widespread use of proven  
34 building energy efficiency and renewable energy technologies now  
35 inhibited by lack of access to capital.

1 (b) To create the loan fund, the department shall provide grant  
2 funds to a competitively selected nonprofit lender that will provide  
3 matching private capital and will administer the loan fund. The  
4 department must select the loan fund administrator through a  
5 competitive process, with scoring conducted by a group of qualified  
6 experts, applying criteria specified by the department.

7 (c) The department must establish guidelines for the lender related  
8 to applicant eligibility, the screening process, and evaluation and  
9 selection criteria. The criteria must include requiring evidence of  
10 support for the proposed project from the impacted community and  
11 consistency with economic growth strategies and plans of the affected  
12 local governments. Applications for loans from the revolving fund must  
13 disclose all sources of public funding to be provided for a project.  
14 The nonprofit lender must use the revolving loan fund to make  
15 affordable loans for projects including, but not limited to:  
16 Residential and commercial energy retrofits, residential and community-  
17 scale solar installations, anaerobic digesters to treat dairy and  
18 organic waste, and combined heat and power projects using woody biomass  
19 as a fuel source.

20 (d) The department must conduct due diligence activities associated  
21 with the use of public funds, including oversight of the project  
22 selection process and project monitoring.

23 (e) Projects seeking financing of solar installations under this  
24 section must agree in contract to not participate in the cost-recovery  
25 program under RCW 82.16.120.

26 (4) \$15,000,000 of the state taxable building construction  
27 account--state appropriation in this section is provided solely for  
28 grants to advance renewable energy technologies by public and private  
29 electrical utilities that serve retail customers in the state. The  
30 department shall work with utilities to offer matching grants for  
31 projects that demonstrate new smart grid technologies. The department  
32 shall develop a grant application process to competitively select  
33 projects for grant awards, to include scoring conducted by a group of  
34 qualified experts with application of criteria specified by the  
35 department. Applications for grants must disclose all sources of  
36 public funding to be provided for a project. The grant funds must be  
37 used to fund projects that demonstrate how to: Integrate intermittent  
38 renewables through energy storage and information technology, dispatch

1 energy storage resources from utility control rooms, use the thermal  
2 properties and electric load of commercial buildings and district  
3 energy systems to store energy, or otherwise improve the reliability  
4 and reduce the costs of intermittent or distributed renewable energy.

5 (5) \$6,000,000 of the state taxable building construction account--  
6 state appropriation in this section is provided solely for grants to  
7 match federal funds used to develop and demonstrate clean energy  
8 technologies. The department shall work with the University of  
9 Washington, Washington State University, and the Pacific Northwest  
10 National Laboratory to offer matching funds for projects including, but  
11 not limited to: Advancing energy storage and solar technologies, and  
12 federal manufacturing innovation centers related to use of light-weight  
13 carbon fiber components to advance energy efficiency in the  
14 aeronautical, automotive, and marine sectors.

15 (6) The department must report on number and results of projects  
16 funded through the clean energy fund, including the number of job hours  
17 created and the number of jobs maintained and created, to the governor  
18 and the legislature, by November 1, 2014.

19 (7) The energy recovery act account--federal appropriation in this  
20 section is provided solely for loans, loan guarantees, and grants that  
21 encourage the establishment of innovative and sustainable industries  
22 for renewable energy and energy efficiency technology, consistent with  
23 provisions of RCW 43.325.040 (energy freedom account).

24 Appropriation:

25	State Taxable Building Construction Account--State . . .	\$36,000,000
26	Energy Recovery Act Account--( <del>Federal</del> ) <u>State</u> . . . . .	\$4,000,000
27	Subtotal Appropriation . . . . .	\$40,000,000
28	Prior Biennia (Expenditures) . . . . .	\$0
29	Future Biennia (Projected Costs) . . . . .	\$0
30	TOTAL . . . . .	\$40,000,000

31 **Sec. 1006.** 2013 2nd sp.s. c 19 s 1077 (uncodified) is amended to  
32 read as follows:

33 **FOR THE DEPARTMENT OF COMMERCE**

34 Projects for Jobs and Economic Development (92000151)

35 The appropriations in this section are subject to the following  
36 conditions and limitations:

1 (1) Except as directed otherwise prior to the effective date of  
2 this section, the department shall not expend the appropriations in  
3 this section unless and until the nonstate share of project costs have  
4 been either expended, or firmly committed, or both, in an amount  
5 sufficient to complete the project or a distinct phase of the project  
6 that is useable to the public for the purpose intended by the  
7 legislature. This requirement does not apply to projects where a share  
8 of the appropriations are released for design costs only.

9 (2) Prior to receiving funds, project recipients must demonstrate  
10 that the project site is under control for a minimum of ten years,  
11 either through ownership or a long-term lease. This requirement does  
12 not apply to appropriations for preconstruction activities or  
13 appropriations whose sole purpose is to purchase real property that  
14 does not include a construction or renovation component.

15 (3) Projects funded in this section may be required to comply with  
16 Washington's high performance building standards as required by chapter  
17 39.35D RCW.

18 (4) Project funds are available on a reimbursement basis only, and  
19 shall not be advanced under any circumstances.

20 (5) Projects funded in this section must be held by the recipient  
21 for a minimum of ten years and used for the same purpose or purposes  
22 intended by the legislature as required in RCW 43.63A.125(6).

23 (6) Projects funded in this section, including those that are owned  
24 and operated by nonprofit organizations, are generally required to pay  
25 state prevailing wages.

26 (7) The appropriations are provided solely for the following list  
27 of projects:

1 (7) \$1,500,000 of the appropriation in this section from the state  
2 building construction account--state is provided solely for design  
3 development to align ongoing planning for the replacement of the  
4 Seattle multimodal terminal at Colman dock with the creation of a  
5 public park. The scope of work must provide a design plan that  
6 includes an elevated park and corresponding amenities above the  
7 terminal. Design development shall be delivered through the city of  
8 Seattle. The scope of this project does not preclude any current plans  
9 for Colman dock to replace or seismically upgrade the facility, nor  
10 does it reduce the amount of general and commercial traffic, high  
11 occupancy vehicles, transit, bicyclist and pedestrian movement.

12 (8) \$500,000 of the appropriation from the environmental legacy  
13 stewardship account--state is provided solely for an investigation of  
14 possible contaminated soils around the Colman dock.

7       **FOR THE DEPARTMENT OF COMMERCE**

8       Clean Energy Partnership (30000175)

9       The reappropriation in this section is subject to the following  
10 conditions and limitations:

11       (1) The reappropriation is provided solely for implementation of  
12 the recommendations of the clean energy leadership council by providing  
13 state matching funds for projects that:

- 14       (a) Integrate energy efficiency and renewable energy in buildings;
- 15       (b) Integrate renewable energy into the regional electrical grid;
- 16       (c) Advance bioenergy in the state.

17       (2) State funding must not exceed fifty percent of the total  
18 program or project funds.

19       (3) Eligible projects must:

- 20       (a) Involve a majority of companies that are located in Washington  
21 state;
- 22       (b) Represent a substantially new solution that is not widely  
23 available today; and
- 24       (c) Be designed to generate solutions that are applicable both  
25 inside and outside of the state.

35 read as follows:

1 **FOR THE DEPARTMENT OF COMMERCE**

2 Community Economic Revitalization Board (30000190)

3 The appropriation in this section is subject to the following  
4 conditions and limitations: During the 2013-2015 fiscal biennium, the  
5 community economic revitalization board may make loans to  
6 municipalities to finance public facilities projects that will improve  
7 opportunities for revitalizing existing retail, industrial, or  
8 commercial properties located within incorporated areas. These  
9 properties must have either been abandoned, or have more than seventy-  
10 five percent of their square footage vacant.

11 (1) Municipalities include: Cities, towns, counties, port  
12 districts, and housing authorities of this state.

13 (2) Public facilities projects include: Planning, acquisition,  
14 construction, repair, reconstruction, replacement, rehabilitation, or  
15 improvement of: Bridges; roads; research, testing, training, and  
16 incubation facilities in areas designated as innovation partnership  
17 zones under RCW 43.330.270; buildings or structures; domestic and  
18 industrial water; earth stabilization; sanitary sewer; storm sewer;  
19 railroad; electricity; telecommunications; transportation; natural gas;  
20 and port facilities.

21 (3) The board may make a revitalization loan only for a public  
22 facilities project approved by a municipality that demonstrates  
23 convincing evidence that a specific private development or expansion is  
24 ready to occur and will occur only if the public facility improvement  
25 is made.

26 (4) The board may allow de minimis general system improvements to  
27 be funded if they are critically linked to the viability of the  
28 project.

29 (5) An application for a revitalization loan must be made in the  
30 form and manner prescribed by the board. When evaluating and  
31 prioritizing projects, the board must give consideration, at a minimum,  
32 to the following factors:

33 (a) The project's value to the community, including evidence of  
34 support from affected local businesses and government;

35 (b) The project's feasibility, using standard economic principles;

36 (c) Commitment of local matching resources and local participation;

37 (d) The project's inclusion in a capital facilities plan,

1 comprehensive plan, or local economic development plan consistent with  
2 applicable state planning requirements;

3 (e) Whether the proposed project offers a health insurance plan for  
4 employees that includes an option for dependents of employees; and

5 (f) The project's readiness to proceed.

6 (6) In making revitalization loans, the board must conform to the  
7 following requirements:

8 (a) The board must provide reasonable terms and conditions for  
9 repayment for loans;

10 (b) The board must not make loans that exceed twenty years in  
11 duration;

12 (c) A municipality must begin repayment of a loan five years after  
13 receiving it; and

14 (d) One or a combination of loans made to a municipality for a  
15 specific project must not exceed two million dollars.

16 (7) The board must not provide financing for any public facilities  
17 project that:

18 (a) Has the primary purpose of facilitating or promoting a retail  
19 shopping development with a floor exceeding ten thousand square feet;

20 (b) Will result in a development or expansion that would displace  
21 existing jobs in any other community in the state;

22 (c) Has the primary purpose of facilitating or promoting gambling;

23 (d) Is located outside the jurisdiction of the applicant; or

24 (e) Will result in a development or expansion of a professional  
25 sports arena.

16       (1) Emergency repair funding is provided solely to address  
17 unexpected and imminent health and safety hazards at K-12 public  
18 schools, including skill centers, that will impact the day- to-day  
19 operations of the school facility. To be eligible for funds from the  
20 emergency repair pool, an emergency declaration must be signed by the  
21 school district board of directors and the superintendent of public  
22 instruction, and submitted to the office of financial management for  
23 consideration. The emergency declaration must include a description of  
24 the imminent health and safety hazard, the possible cause, the proposed  
25 scope of emergency repair work and related cost estimate, and  
26 identification of local funding to be applied to the project. Grants  
27 of emergency repair moneys must be conditioned upon the written  
28 commitment and plan of the school district board of directors to repay  
29 the grant with any insurance payments or other judgments that may be  
30 awarded, if applicable. The office of financial management must notify  
31 the legislative evaluation and accountability program committee, the  
32 house capital budget committee, and the senate ways and means committee

10 Reduce Cost of Private Market Capital for Local Infrastructure  
11 (92000007)

12 The appropriation in this section is subject to the following  
13 conditions and limitations:

14 The appropriation is provided solely for the design of a state  
15 program to reduce the cost of private capital to finance local  
16 government infrastructure improvements. The program objective is to  
17 provide assistance to jurisdictions that would otherwise face  
18 significantly higher capital costs due to their smaller size and  
19 infrequent access of the capital bond market. It is not the objective  
20 of the program to reduce the cost of capital for reasons not associated  
21 with size and infrequent access to the bond market, such as poor  
22 maintenance of existing infrastructure, inadequate rates to support  
23 sufficient capital and operating reserves, and other financial and  
24 management practices that contribute to poorer bond ratings. The  
25 program is not intended to subsidize borrowing below market rates.  
26 Rather the program is to improve the efficiency of accessing market  
27 rate capital. The program must be designed to coordinate with the  
28 federally financed state revolving funds for safe drinking water and  
29 clean water in the departments of health and ecology which are intended  
30 to provide below market rate capital. The office of financial  
31 management must work with the state treasurer's office in the design of  
32 the program, and may explore the viability of options such as a state  
33 bond bank, state contingent loan agreements, and other options other  
34 than the use of state tax revenue for the principal of loans. A report  
35 that recommends a program design, including draft legislation, must be  
36 submitted to the appropriate committees of the legislature by December  
37 1, 2014.

8 **FOR THE DEPARTMENT OF ENTERPRISE SERVICES**

9 Natural Resources Building Garage Fire Suppression System Repairs  
10 (30000578)

11 The appropriations in this section are subject to the following  
12 conditions and limitations: The department must delay the project  
13 until sufficient revenues are projected in the state vehicle parking  
14 account to support the appropriation either through efficiencies in  
15 other uses of this account or through an increase in parking fees for  
16 state employees and state agencies.

27 1063 Block Replacement (91000016)

28 The appropriation in this section is subject to the following  
29 conditions and limitations: The appropriation in this section is  
30 provided solely for predesign and bridging documents, design,  
31 competition honoraria, project management, demolition, and other  
32 planning activities including permits. The predesign must specify the  
33 tenants of the building as directed by the office of financial  
34 management. The predesign must indicate the estimated annual cost

1 increase for state agency tenants compared to the cost of their  
2 existing leases. The estimated cost increase may take into account  
3 estimated cost savings in staff costs and other costs that may result  
4 in more efficient building design and layout of office space. The  
5 director of the office of financial management must review these cost  
6 estimates and submit a report to the appropriate committees of the  
7 legislature indicating the budget increase that would be required sixty  
8 days prior to executing any construction contracts for the building.  
9 The lease for any prospective tenant may not be extended beyond the  
10 anticipated occupancy date of the building. The building will be  
11 alternatively financed as authorized in section 7014 of this act.

22 Predesign for New State Patrol Building (92000001)

23 The appropriation in this section is subject to the following  
24 conditions and limitations:

25 The appropriation is provided solely for a predesign for a new  
26 facility for the headquarters of the state patrol. The predesign must  
27 describe a project scope that meets all or most of the facility needs  
28 of the state patrol in Thurston county while minimizing the budgetary  
29 impacts. The predesign must consider a variety of sites, excluding  
30 sites on the West capital campus.

The appropriation in this section is subject to the following conditions and limitations:

(1) Funding is provided solely for the clean-up of contaminated sites that lie adjacent to and are within one-half mile of Puget Sound. Clean-ups must include orphaned and abandoned sites that pose a threat to Puget Sound with the highest priority sites being cleaned up first. The department must provide the Puget Sound partnership the opportunity to review and provide comment on proposed projects and activities recommended for funding. This review must be consistent with the funding schedule for the program.

(2) By October 1, 2014, the department must submit a report to the appropriate committees of the legislature showing the requested clean-up projects that fit the definition of large complex multi-biennial projects under RCW 70.105D.030(5). The report must show a description of the project, the amount requested over the ten-year period, the

1 amount requested for the 2015-2017 biennium, and the estimated jobs  
2 created by the 2015-2017 proposed appropriation.

8 The appropriations in this section are subject to the following  
9 conditions and limitations:

10 (1) \$5,000,000 of the state taxable building construction account--  
11 state appropriation shall be deposited in the state drought  
12 preparedness account.

13 (2) The appropriations in this section are provided solely for  
14 response to the statewide drought that was declared pursuant to chapter  
15 43.83B RCW. The department of ecology may provide funding or  
16 compensation for purchase or lease of water rights and to public bodies  
17 as defined in RCW 43.83B.050 in connection with projects and measures  
18 designed to alleviate drought conditions that may affect: Public  
19 health and safety; drinking water supplies; agricultural activities; or  
20 fish and wildlife survival.

21 (3) Projects or measures for which funding or compensation will be  
22 provided must be connected with a water system, water source, or water  
23 body that is receiving, or has been projected to receive, less than  
24 seventy-five percent of normal water supply, as the result of natural  
25 drought conditions. This reduction in water supply must be such that  
26 it is causing, or will cause, undue hardship for the entities or fish  
27 or wildlife depending on the water supply. General criteria for  
28 guidelines to be established by the department of ecology for  
29 distribution of funds must include: A balanced and equitable  
30 distribution of the funds among the different sectors affected by  
31 drought; a funding process that ensures funds are available for drought  
32 impacts that arise both early and later during the course of the  
33 drought; and preference for projects that leverage other federal and  
34 local funds.

12       (1) For projects involving repair, replacement, or improvement of  
13 a wastewater treatment plant or other public works facility for which  
14 an investment grade efficiency audit is obtainable, the department of  
15 ecology must require as a contract condition that the project sponsor  
16 undertake an investment grade efficiency audit. The project sponsor  
17 may finance the costs of the audit as part of its centennial clean  
18 water program grant.

19       (2) \$3,000,000 of the appropriation in this section is provided

33       Storm Water Improvements (92000076)

34       The appropriation in this section is subject to the following  
35 conditions and limitations:

1 (1) \$81,081,000 of the appropriation in this section is provided  
2 solely for grants to cities and counties to perform project-specific  
3 planning, design, and construction of projects that reduce storm water  
4 impacts from existing infrastructure and development. The grants are  
5 intended to build on and expand a city's or county's storm water  
6 program.

7 (a) In consultation with storm water stakeholders, the department  
8 shall develop and implement a competitive grant program by July 1,  
9 2014, that is designed to fund storm water projects and activities that  
10 have been proven effective at reducing environmental degradation from  
11 storm water.

12 (b) In order to receive funding, projects must have a high water  
13 quality or ecological benefit and address pollution from existing  
14 development.

15 (c) A project that relies on low-impact development retrofit  
16 techniques to reduce storm water impacts that is otherwise rated  
17 equally to a project that does not rely on low-impact development  
18 retrofit techniques must be given priority for grant funding.

19 (d) Projects required by court or administrative order or for  
20 mitigation purposes are not eligible for funding.

21 (e) Up to \$15,000,000 of the appropriation provided in this  
22 subsection may be allocated to cities or counties covered by a phase I  
23 or II national pollutant discharge elimination system permit for  
24 project-specific planning and design activities that prepare projects  
25 for application to the competitive grant program to be implemented  
26 under subsection (1)(a) of this section. As a condition for funding,  
27 cities or counties shall prepare low-impact development retrofit  
28 projects for the competitive grant program. Cities or counties may  
29 also use project-specific planning and design funds for other projects  
30 that have high water quality and ecological benefits that address  
31 pollution from existing development. The department must provide  
32 notice to all cities and counties that are eligible for planning and  
33 design grants. The notice of eligibility must also include information  
34 on grant requirements so that those who elect to participate understand  
35 the requirements for funding.

36 (2)(a) \$150,000 of the appropriation in this section is provided  
37 solely to the department to develop an ongoing comprehensive, statewide  
38 storm water financial assistance program to be implemented beginning no

1 later than July 1, 2015. The program will provide grants to local  
2 governments for the protection and improvement of statewide water  
3 quality and to improve watershed functionality by reducing the  
4 transport of toxics and other pollutants through storm water runoff,  
5 and by reducing uncontrolled runoff flows.

6 (b) The department must collaborate with storm water stakeholders  
7 to develop the funding criteria for the storm water financial  
8 assistance program, and include the new statewide storm water financial  
9 assistance program into the department's integrated water quality  
10 funding cycle process.

11 (c) The storm water financial assistance program may include, but  
12 not be limited to: Funding for retrofit capital improvement projects;  
13 low-impact development; research and development components and  
14 investments in learning; pass-through funding for local government  
15 storm water permit implementation, education, and outreach; prioritized  
16 watershed basin retrofit strategies; purchase of pooled equipment for  
17 local government use; and preconstruction awards solely for the  
18 planning and design of either new storm water facilities or a retrofit  
19 of existing storm water facilities.

20 (3) (~~(\$18,769,000)~~) \$20,469,000 of the appropriation in this  
21 section is provided solely for the following list of projects.

17 Flood Hazard Reduction Grants (91000239)

18 The appropriation in this section is subject to the following  
 19 conditions and limitations: \$15,000,000 of the appropriation in this  
 20 section is provided solely for a statewide competitive grant program  
 21 for flood hazard reduction projects that also protect or restore  
 22 floodplain ecosystem functions.

23 (1) Grants may be distributed on a competitive basis to the  
 24 following eligible entities: Counties, cities, federally recognized  
 25 Indian tribes; port districts; flood control districts; conservation  
 26 districts; and diking and drainage districts.

27 (2) Applicants must provide a twenty percent match from nonstate  
 28 sources. The nonstate match may include cash on hand, the value of  
 29 real property when acquired solely for the purpose of the project, the  
 30 proceeds of a letter of credit or other binding loan commitment, a  
 31 pledge commitment, and in-kind contributions. Applicants may receive  
 32 credit for properly documented nonstate matching funds that were  
 33 contributed no earlier than ten years prior to the grant solicitation  
 34 round and that are related to the needs identified in the project

1 application. The department may develop additional requirements  
2 related to documenting the value of the nonstate match.

3 (3) The department, in consultation with the office of financial  
4 management, must evaluate, score, and rank applications based on the  
5 following criteria, in descending order of priority:

6 (a) Projects that achieve multiple benefits, including, but not  
7 limited to, cost-effective flood hazard reduction to people, property,  
8 critical facilities, and transportation corridors, flood risk  
9 reduction, salmon recovery, water quality improvements, habitat  
10 restoration, agricultural viability, public access, and channel  
11 migration zone protection. Projects must address both reduction and  
12 prevention of flood risks, and protection or restoration of floodplain  
13 ecosystem functions. For the Chehalis river basin, projects may also  
14 include, but not be limited to, an upstream water retention facility.

15 (i) Priority must first be given to projects that:

16 (A) Are located in a county or counties covered by ten or more  
17 state emergency flood proclamations from 1996 to 2012; and

18 (B) Are part of a basin-wide strategy created by a governor's work  
19 group in close collaboration with an Indian tribe and a multicounty  
20 flood authority.

21 (ii) Priority must next be given to projects in counties that have  
22 historically been and are projected to continue to be at greatest risk  
23 and most vulnerable to flooding;

24 (b) Projects that are consistent with and recommended by a  
25 collaborative planning and approval process that includes public  
26 comment, such as a comprehensive flood hazard management plan, a hazard  
27 mitigation plan, a comprehensive plan, a watershed plan, or other  
28 applicable plans;

29 (c) Projects that minimize or eliminate future costs for  
30 maintenance, operation, or emergency response; and

31 (d) Projects that are ready to proceed with the scope of work, and  
32 whose sponsors have the capacity to complete the project successfully.

16 Olympic Region Shop Fire Recovery (30000226)

17 The appropriations in this section are subject to the following  
 18 conditions and limitations: The department must deposit all insurance  
 19 payments received since July 1, 2013, for replacement of the building  
 20 in the resource management cost account. The appropriation from the  
 21 resource management cost account is the estimate of those expected  
 22 insurance payments. The department must notify the appropriate fiscal  
 23 committees of the legislature what the final insurance settlement is.  
 24 If the final amount is less than the expected amount the department  
 25 must submit a supplemental capital budget adjustment to reflect that  
 26 change.

3 **FOR THE DEPARTMENT OF NATURAL RESOURCES**

4 Teanaway Community Forest Trust (30000230)

5 The appropriation in this section is subject to the following  
6 conditions and limitations:

7 (1) The appropriation in this section is provided solely to correct  
8 barriers and meet road maintenance and abandonment planning (RMAP)  
9 responsibilities, upgrade outhouses and fire rings, install gates,  
10 signs and other mechanisms to control unauthorized use of the community  
11 forest, and conduct forest health and high-risk wildfire fuels  
12 treatments near high-risk communities.

13 (2) The state continues to purchase land for recreation, fish and  
14 wildlife habitat management, long term water supplies, and timber  
15 production and needs a long term strategy to control management costs.  
16 The Yakima basin integrated plan is important for watershed, wildlife,  
17 recreation and timber management. The Teanaway community forest is an  
18 essential element of that plan. Managing that land and achieving the  
19 goals of the Yakima basin integrated plan will be more difficult with  
20 checkerboard ownership of private, state, federal, and tribal lands.  
21 The department of natural resources must develop recommendations to the  
22 legislature for possible land acquisitions within the Yakima basin  
23 integrated plan area that would improve road access to isolated  
24 parcels, reduces management costs by eliminating checkerboard ownership  
25 patterns, and increase the potential to produce revenue for the state  
26 to cover management costs within the Teanaway community forest.

27 Appropriation:

28	State Building Construction Account--State . . . . .	\$1,620,000

9       **FOR THE DEPARTMENT OF NATURAL RESOURCES**

10       State Forest Land Replacement (30000223)

11       The appropriation in this section is subject to the following  
12 conditions and limitations:

13       (1) The appropriation in this section is provided solely to the  
14 department to transfer from state forest land status to natural  
15 resources conservation area status certain state forest lands in  
16 counties with a population of twenty-five thousand or less which are  
17 subject to timber harvest deferrals greater than thirty years due to  
18 the presence of wildlife species listed as endangered or threatened  
19 under the federal endangered species act. The total appropriation is  
20 to be used equally for the transfer of qualifying state forest lands in  
21 the qualifying counties.

22       (2) Property transferred under this section must be appraised and  
23 transferred at fair market value, without consideration of management  
24 or regulatory encumbrances associated with wildlife species listed  
25 under the federal endangered species act. The value of the timber and  
26 other valuable materials transferred must be distributed as provided in  
27 RCW 79.64.110. The value of the land transferred must be deposited in  
28 the park land trust revolving account and be used solely to buy  
29 replacement state forest land, consistent with RCW 79.22.060.

30       (3) Prior to or concurrent with conveyance of these properties, the  
31 department shall execute and record a real property instrument that  
32 dedicates the transferred properties to the purposes identified in  
33 subsection (1) of this section. Transfer agreements for properties  
34 identified in subsection (1) of this section must include terms that  
35 restrict the use of the property to the intended purpose.

36       (4) The department and applicable counties shall work in good faith  
37 to carry out the intent of this section. The department will identify

1 eligible properties for transfer, consistent with subsection (1) of  
2 this section, in consultation with the applicable counties, and will  
3 not execute any property transfers that are not in the statewide  
4 interest of either the state forest trust or the natural resources  
5 conservation area program.

16 Forest Hazard Reduction (30000224)

17 The appropriation in this section is subject to the following  
18 conditions and limitations: The appropriation is provided solely for  
19 forest health hazard reduction treatments on state, federal, and  
20 private lands. The appropriation may be used for mechanical  
21 treatments, project planning, site preparation, permitting, or

- 17 (j) A public participation program;
- 18 (k) Public funding to assist potentially liable persons to pay for  
19 the costs of remedial action in compliance with clean-up standards  
20 under RCW 70.105D.030(2)(e) but only when the amount and terms of such  
21 funding are established under a settlement agreement under RCW  
22 70.105D.040(4) and when the director has found that the funding will  
23 achieve both: (i) A substantially more expeditious or enhanced cleanup  
24 than would otherwise occur; and (ii) the prevention or mitigation of  
25 unfair economic hardship;
- 26 (l) Development and demonstration of alternative management  
27 technologies designed to carry out the hazardous waste management  
28 priorities of RCW 70.105.150;
- 29 (m) State agriculture and health programs for the safe use,  
30 reduction, recycling, or disposal of pesticides;
- 31 (n) Storm water pollution control projects and activities that  
32 protect or preserve existing remedial actions or prevent hazardous  
33 clean-up sites;
- 34 (o) Funding requirements to maintain receipt of federal funds under  
35 the federal solid waste disposal act (42 U.S.C. Sec. 6901 et seq.);
- 36 (p) Air quality programs and actions for reducing public exposure  
37 to toxic air pollution;

1 (q) Public funding to assist prospective purchasers to pay for the  
2 costs of remedial action in compliance with clean-up standards under  
3 RCW 70.105D.030(2)(e) if:

4 (i) The facility is located within a redevelopment opportunity zone  
5 designated under RCW 70.105D.150;

6 (ii) The amount and terms of the funding are established under a  
7 settlement agreement under RCW 70.105D.040(5); and

8 (iii) The director has found the funding meets any additional  
9 criteria established in rule by the department, will achieve a  
10 substantially more expeditious or enhanced cleanup than would otherwise  
11 occur, and will provide a public benefit in addition to cleanup  
12 commensurate with the scope of the public funding;

13 (r) Petroleum-based plastic or expanded polystyrene foam debris  
14 cleanup activities in fresh or marine waters;

15 (s) Appropriations to the local toxics control account or the  
16 environmental legacy stewardship account created in RCW 70.105D.170, if  
17 the legislature determines that priorities for spending exceed  
18 available funds in those accounts;

19 (t) During the 2013-2015 fiscal biennium, the department of  
20 ecology's water quality, shorelands, environmental assessment,  
21 administration, and air quality programs;

22 (u) During the 2013-2015 fiscal biennium, actions at the state  
23 conservation commission to improve water quality for shellfish; ~~((and))~~

24 (v) During the 2013-2015 fiscal biennium, actions at the University  
25 of Washington for reducing ocean acidification;

26 (w) For the 2013-2015 fiscal biennium, moneys in the state toxics  
27 control account may be spent on projects in section ~~((3159))~~ 3160,  
28 chapter 19, Laws of 2013 2nd sp. sess. projects in sections 2007 and  
29 4009 of this act, and for transfer to the local toxics control account;  
30 and

31 (x) For the 2013-2015 fiscal biennium, moneys in the state toxics  
32 control account may be transferred to the radioactive mixed waste  
33 account.

34 (4)(a) The department shall use moneys deposited in the local  
35 toxics control account for grants or loans to local governments for the  
36 following purposes in descending order of priority:

37 (i) Extended grant agreements entered into under ~~((e))(e))~~  
38 (e)(i) of this subsection;

1 (ii) Remedial actions, including planning for adaptive reuse of  
2 properties as provided for under ~~((e)-(e))~~ (e)(iv) of this  
3 subsection. The department must prioritize funding of remedial actions  
4 at:

5 (A) Facilities on the department's hazardous sites list with a high  
6 hazard ranking for which there is an approved remedial action work plan  
7 or an equivalent document under federal cleanup law;

8 (B) Brownfield properties within a redevelopment opportunity zone  
9 if the local government is a prospective purchaser of the property and  
10 there is a department-approved remedial action work plan or equivalent  
11 document under the federal cleanup law;

12 (iii) Storm water pollution source projects that: (A) Work in  
13 conjunction with a remedial action; (B) protect completed remedial  
14 actions against recontamination; or (C) prevent hazardous clean-up  
15 sites;

16 (iv) Hazardous waste plans and programs under chapter 70.105 RCW;

17 (v) Solid waste plans and programs under chapters 70.95, 70.95C,  
18 70.95I, and 70.105 RCW;

19 (vi) Petroleum-based plastic or expanded polystyrene foam debris  
20 cleanup activities in fresh or marine waters; and

21 (vii) Appropriations to the state toxics control account or the  
22 environmental legacy stewardship account created in RCW 70.105D.170, if  
23 the legislature determines that priorities for spending exceed  
24 available funds in those accounts.

25 (b) Funds for plans and programs must be allocated consistent with  
26 the priorities and matching requirements established in chapters  
27 70.105, 70.95C, 70.95I, and 70.95 RCW.

28 (c) During the 2013-2015 fiscal biennium, the local toxics control  
29 account may also be used for local government storm water planning and  
30 implementation activities.

31 (d) During the 2013-2015 fiscal biennium, the legislature may  
32 transfer from the local toxics control account to the state general  
33 fund, such amounts as reflect the excess fund balance in the account.

34 (e) To expedite cleanups throughout the state, the department may  
35 use the following strategies when providing grants to local governments  
36 under this subsection:

37 (i) Enter into an extended grant agreement with a local government  
38 conducting remedial actions at a facility where those actions extend

1 over multiple biennia and the total eligible cost of those actions  
2 exceeds twenty million dollars. The agreement is subject to the  
3 following limitations:

4 (A) The initial duration of such an agreement may not exceed ten  
5 years. The department may extend the duration of such an agreement  
6 upon finding substantial progress has been made on remedial actions at  
7 the facility;

8 (B) Extended grant agreements may not exceed fifty percent of the  
9 total eligible remedial action costs at the facility; and

10 (C) The department may not allocate future funding to an extended  
11 grant agreement unless the local government has demonstrated to the  
12 department that funds awarded under the agreement during the previous  
13 biennium have been substantially expended or contracts have been  
14 entered into to substantially expend the funds;

15 (ii) Enter into a grant agreement with a local government  
16 conducting a remedial action that provides for periodic reimbursement  
17 of remedial action costs as they are incurred as established in the  
18 agreement;

19 (iii) Enter into a grant agreement with a local government prior to  
20 it acquiring a property or obtaining necessary access to conduct  
21 remedial actions, provided the agreement is conditioned upon the local  
22 government acquiring the property or obtaining the access in accordance  
23 with a schedule specified in the agreement;

24 (iv) Provide integrated planning grants to local governments to  
25 fund studies necessary to facilitate remedial actions at brownfield  
26 properties and adaptive reuse of properties following remediation.  
27 Eligible activities include, but are not limited to: Environmental  
28 site assessments; remedial investigations; health assessments;  
29 feasibility studies; site planning; community involvement; land use and  
30 regulatory analyses; building and infrastructure assessments; economic  
31 and fiscal analyses; and any environmental analyses under chapter  
32 43.21C RCW;

33 (v) Provide grants to local governments for remedial actions  
34 related to areawide groundwater contamination. To receive the funding,  
35 the local government does not need to be a potentially liable person or  
36 be required to seek reimbursement of grant funds from a potentially  
37 liable person;

1 (vi) The director may alter grant matching requirements to create  
2 incentives for local governments to expedite cleanups when one of the  
3 following conditions exists:

4 (A) Funding would prevent or mitigate unfair economic hardship  
5 imposed by the clean-up liability;

6 (B) Funding would create new substantial economic development,  
7 public recreational opportunities, or habitat restoration opportunities  
8 that would not otherwise occur; or

9 (C) Funding would create an opportunity for acquisition and  
10 redevelopment of brownfield property under RCW 70.105D.040(5) that  
11 would not otherwise occur;

12 (vii) When pending grant applications under ~~((e)-(e))~~ (e)(iv)  
13 and (v) of this subsection (4) exceed the amount of funds available,  
14 designated redevelopment opportunity zones must receive priority for  
15 distribution of available funds.

16 ~~((d)-(f))~~ (f) To expedite multiparty clean-up efforts, the  
17 department may purchase remedial action cost-cap insurance. For the  
18 2013-2015 fiscal biennium, moneys in the local toxics control account  
19 may be spent on projects in sections 3024, 3035, 3036, and 3059,  
20 chapter 19, Laws of 2013 2nd sp. sess.

21 (5) Except for unanticipated receipts under RCW 43.79.260 through  
22 43.79.282, moneys in the state and local toxics control accounts may be  
23 spent only after appropriation by statute.

24 (6) No moneys deposited into either the state or local toxics  
25 control account may be used for: Natural disasters where there is no  
26 hazardous substance contamination; high performance buildings; solid  
27 waste incinerator facility feasibility studies, construction,  
28 maintenance, or operation; or after January 1, 2010, for projects  
29 designed to address the restoration of Puget Sound, funded in a  
30 competitive grant process, that are in conflict with the action agenda  
31 developed by the Puget Sound partnership under RCW 90.71.310. However,  
32 this subsection does not prevent an appropriation from the state toxics  
33 control account to the department of revenue to enforce compliance with  
34 the hazardous substance tax imposed in chapter 82.21 RCW.

35 (7) Except during the 2011-2013 fiscal biennium, one percent of the  
36 moneys collected under RCW 82.21.030 shall be allocated only for public  
37 participation grants to persons who may be adversely affected by a  
38 release or threatened release of a hazardous substance and to not-for-

1 profit public interest organizations. The primary purpose of these  
2 grants is to facilitate the participation by persons and organizations  
3 in the investigation and remedying of releases or threatened releases  
4 of hazardous substances and to implement the state's solid and  
5 hazardous waste management priorities. No grant may exceed sixty  
6 thousand dollars. Grants may be renewed annually. Moneys appropriated  
7 for public participation that are not expended at the close of any  
8 biennium revert to the state toxics control account.

9 (8) The department shall adopt rules for grant or loan issuance and  
10 performance. To accelerate both remedial action and economic recovery,  
11 the department may expedite the adoption of rules necessary to  
12 implement chapter 1, Laws of 2013 2nd sp. sess. using the expedited  
13 procedures in RCW 34.05.353. The department shall initiate the award  
14 of financial assistance by August 1, 2013. To ensure the adoption of  
15 rules will not delay financial assistance, the department may  
16 administer the award of financial assistance through interpretive  
17 guidance pending the adoption of rules through July 1, 2014.

18 (9) Except as provided under subsection (3)(k) and (q) of this  
19 section, nothing in chapter 1, Laws of 2013 2nd sp. sess. effects  
20 [affects] the ability of a potentially liable person to receive public  
21 funding.

22 (10) During the 2013-2015 fiscal biennium the local toxics control  
23 account may also be used for the centennial clean water program and for  
24 storm water grants.

25 **Sec. 5004.** RCW 43.160.080 and 2010 1st sp.s. c 36 s 6011 are each  
26 amended to read as follows:

27 There shall be a fund in the state treasury known as the public  
28 facilities construction loan revolving account, which shall consist of  
29 all moneys collected under this chapter and any moneys appropriated to  
30 it by law. Disbursements from the revolving account shall be on  
31 authorization of the board. In order to maintain an effective  
32 expenditure and revenue control, the public facilities construction  
33 loan revolving account shall be subject in all respects to chapter  
34 43.88 RCW. During the 2009-2011 biennium, sums in the public  
35 facilities construction loan revolving account may be used for  
36 community economic revitalization board export assistance grants and  
37 loans in section 1018, chapter 36, Laws of 2010 1st sp. sess. and for

1 matching funds for the federal energy regional innovation cluster in  
2 section 1017, chapter 36, Laws of 2010 1st sp. sess. During the 2013-  
3 2015 biennium, sums in the public facilities construction loan  
4 revolving account may be used for the animal disease traceability  
5 project in section 3247, chapter 19, Laws of 2013 2nd sp. sess.,  
6 administered by the department of agriculture.

7 **Sec. 5005.** RCW 70.105D.170 and 2013 2nd sp.s. c 28 s 1, 2013 2nd  
8 sp.s. c 19 s 7042, and 2013 2nd sp.s. c 4 s 991 are each reenacted and  
9 amended to read as follows:

10 (1) The environmental legacy stewardship account is created in the  
11 state treasury. Beginning July 1, 2013, and every fiscal year  
12 thereafter, the annual amount received from the tax imposed by RCW  
13 82.21.030 that exceeds one hundred forty million dollars must be  
14 deposited into the environmental legacy stewardship account. The state  
15 treasurer may make periodic deposits into the environmental legacy  
16 stewardship account based on forecasted revenue. Moneys in the account  
17 may only be spent after appropriation.

18 (2) Moneys in the environmental legacy stewardship account may be  
19 spent on:

20 (a) Grants or loans to local governments for performance and  
21 outcome-based projects, model remedies, demonstration projects,  
22 procedures, contracts, and project management and oversight that result  
23 in significant reductions in the time to complete compared to baseline  
24 averages;

25 (b) Purposes authorized under RCW 70.105D.070 (3) and (4);

26 (c) Grants or loans awarded through a competitive grant program  
27 administered by the department to fund design and construction of low-  
28 impact development retrofit projects and other high quality projects  
29 that reduce storm water pollution from existing infrastructure. The  
30 competitive grant program must apply criteria to review, rank, and  
31 prioritize projects for funding based on their water quality benefits,  
32 ecological benefits, and effectiveness at reducing environmental  
33 degradation; and

34 (d) Cleanup and disposal of hazardous substances from abandoned or  
35 derelict vessels, defined for the purposes of this section as vessels  
36 that have little or no value and either have no identified owner or

1 have an identified owner lacking financial resources to clean up and  
2 dispose of the vessel, that pose a threat to human health or the  
3 environment.

4 (3) Except as provided under RCW 70.105D.070(3) (k) and (q),  
5 nothing in chapter 1, Laws of 2013 2nd sp. sess. expands the ability of  
6 a potentially liable person to receive public funding.

7 (4) Moneys in the environmental legacy stewardship account may also  
8 be used as follows:

9 (a) During the 2013-2015 fiscal biennia, shoreline update technical  
10 assistance and for local government shoreline master program update  
11 grants;

12 (b) During the 2013-2015 fiscal biennium, solid and hazardous waste  
13 compliance at the department of corrections;

14 (c) During the 2013-2015 fiscal biennium, activities at the  
15 department of fish and wildlife concerning water quality monitoring,  
16 hatchery water quality regulatory compliance, and technical assistance  
17 to local governments on growth management and shoreline management;

18 (d) During the 2013-2015 fiscal biennium, forest practices  
19 regulation and aquatic land investigation and cleanup activities at the  
20 department of natural resources;

21 (e) During the 2013-2015 fiscal biennium, implementation of the  
22 voluntary stewardship program established in chapter 360, Laws of 2011.

23 (5) For the 2013-2015 fiscal biennium, moneys in the environmental  
24 legacy stewardship account may be transferred to the local toxics  
25 control account.

26 NEW SECTION. Sec. 5006. A new section is added to 2013 2nd sp.s.  
27 c 19 (uncodified) to read as follows:

28 The legislative evaluation and accountability program committee  
29 shall develop a new K-12 capital budget model in consultation with the  
30 superintendent of public instruction, the office of financial  
31 management, the caseload forecast council and legislative fiscal staff  
32 for use in forecasting biennial appropriations to support the school  
33 construction assistance program. The model must include improved  
34 forecasting of the school construction assistance program through  
35 analysis of existing data including, but not limited to:

36 (1) Local school district bond and levy elections and bond sales;

1 (2) Actual pace of state assistance reimbursement including front-  
2 funded projects and other conditions that contribute to variations in  
3 reimbursements;

4 (3) Local school district study and survey results specific to  
5 estimated capital costs, cost/benefit analyses on the need to modernize  
6 and/or replace existing school facilities, timelines for completing  
7 school facilities projects, and ability to provide capital funds by  
8 local efforts; and

9 (4) Analysis of actual inventory and condition of schools.

10 (5) State population forecasts of school-aged children.

11 NEW SECTION. **Sec. 5007.** A new section is added to 2013 2nd sp.s.  
12 c 19 (uncodified) to read as follows:

13 To the extent that any appropriation authorizes expenditures of  
14 state funds from the state building construction account, or from any  
15 other capital project account in the state treasury, for a capital  
16 project or program that is specified to be funded with proceeds from  
17 the sale of bonds, the legislature declares that any such expenditures  
18 for that project or program made prior to the issue date of the  
19 applicable bonds are intended to be reimbursed from proceeds of those  
20 bonds in a maximum amount equal to the amount of such appropriation.

21 NEW SECTION. **Sec. 5008.** The following acts or parts of acts are  
22 each repealed:

23 (1) 2013 2nd sp.s. c 19 s 7004 (uncodified); and

24 (2) 2013 2nd sp.s. c 19 s 7013 (uncodified).

25 NEW SECTION. **Sec. 5009.** This act is necessary for the immediate  
26 preservation of the public peace, health, or safety, or support of the  
27 state government and its existing public institutions, and takes effect  
28 immediately.
