13 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

14 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted
15 and, subject to the provisions set forth in this act, the several
16 dollar amounts hereinafter specified, or so much thereof as shall be
17 sufficient to accomplish the purposes designated, are hereby
18 appropriated and authorized to be incurred for capital projects
19 during the period beginning with the effective date of this act and
20 ending June 30, 2017, out of the several funds specified in this act.

1 (2) The definitions in this subsection apply throughout this act
2 unless the context clearly requires otherwise.

3 (a) "Fiscal year 2016" or "FY 2016" means the period beginning
4 July 1, 2015, and ending June 30, 2016.

5 (b) "Fiscal year 2017" or "FY 2017" means the period beginning
6 July 1, 2016, and ending June 30, 2017.

7 (c) "Lapse" or "revert" means the amount shall return to an
8 unappropriated status.

9 (d) "Provided solely" means the specified amount may be spent
10 only for the specified purpose.

11 (3) Unless otherwise specifically authorized in this act, any
12 portion of an amount provided solely for a specified purpose that is
13 not expended subject to the specified conditions and limitations to
14 fulfill the specified purpose shall lapse.

15 (4) The amounts shown under the headings "Prior Biennia," "Future
16 Biennia," and "Total" in this act are for informational purposes only
17 and do not constitute legislative approval of these amounts. "Prior
18 biennia" typically refers to the immediate prior biennium for
19 reappropriations, but may refer to multiple biennia in the case of
20 specific projects. A "future biennia" amount is an estimate of what
21 may be appropriated for the project or program in the 2017-2019
22 biennium and the following three biennia; an amount of zero does not
23 necessarily constitute legislative intent to not provide funding for
24 the project or program in the future.

25 (5) "Reappropriations" in this act are appropriations and, unless
26 the context clearly provides otherwise, are subject to the relevant
27 conditions and limitations applicable to appropriations.
28 Reappropriations shall be limited to the unexpended balances
29 remaining on June 30, 2015, from the 2013-2015 biennial
30 appropriations for each project.

28 The appropriations in this section are subject to the following
29 conditions and limitations:

30 (1) The appropriations are provided solely for projects that
31 provide a benefit to the public through development, demonstration,
32 and deployment of clean energy technologies that save energy and
33 reduce energy costs, reduce harmful air emissions or otherwise
34 increase energy independence for the state. All expenditures must be
35 used for projects that develop and acquire assets that have a useful
36 life of at least thirteen years. These requirements must be specified
37 in funding agreements issued by the department.

1 (2)(a) \$10,000,000 of the state taxable building construction
2 account is provided solely to create a revolving loan fund to support
3 the widespread use of proven energy efficiency and renewable energy
4 technologies now inhibited by lack of access to capital.

5 (b) The department shall provide grant funds to one or more
6 competitively selected nonprofit lenders that will provide matching
7 private capital and will administer the loan fund. The department
8 must select the loan fund administrator or administrators through a
9 competitive process, with scoring conducted by a group of qualified
10 experts, applying criteria specified by the department.

11 (c) The department must establish guidelines that specify
12 applicant eligibility, the screening process, and evaluation and
13 selection criteria. The guidelines must be used by the nonprofit
14 lenders.

15 (d) Loan applications must disclose all sources of public funds
16 invested in the project. The nonprofit lender must make loans
17 available to the following types of projects that include, but are
18 not limited to: Residential, commercial, industrial, and agricultural
19 energy retrofits, residential and community-scale solar
20 installations, anaerobic digesters to treat dairy and organic waste,
21 and combined heat and power projects using woody biomass as a fuel
22 source.

23 (e) State funds may not exceed fifty percent of the estimated
24 cost of a project, and funding preference must be provided to
25 projects that offer a higher percentage of nonstate match funds.

26 (f) The department must conduct due diligence activities
27 associated with the use of public funds, including oversight of the
28 project selection process and project monitoring.

29 (3) \$6,600,000 of the state taxable building construction account
30 is provided solely for credit enhancements of advanced solar and
31 renewable energy manufacturing within Washington state. The
32 department shall develop an application process to competitively
33 select projects.

34 (4)(a) \$13,000,000 of the state building construction account is
35 provided solely for grants to advance clean and renewable energy
36 technologies and advance transmission and distribution control system
37 improvements for increased reliability, resiliency, and enabling
38 integration of distributed and renewable resources and technology by
39 public and private electrical utilities that serve retail customers
40 in the state. Eligible utilities may partner with other public and

1 private sector research organizations and businesses in applying for
2 funding.

3 (b) The department shall develop a grant application process to
4 competitively select projects for grant awards, to include scoring
5 conducted by a group of qualified experts with application of
6 criteria specified by the department. In development of the
7 application criteria, the department shall, to the extent possible,
8 allow smaller utilities or consortia of small utilities to apply for
9 funding.

10 (c) The department shall convene an advisory panel of electric
11 utility representatives to identify program objectives, near term
12 priorities and long term goals.

13 (d) Applications for grants must disclose all sources of public
14 funds invested in a project.

15 (e) Grant funds must be used for research, development, or
16 demonstration projects that integrate intermittent renewables through
17 energy storage, information technology or other smart grid
18 technologies, dispatch energy storage resources from utility control
19 rooms, use demand response, transactive control, or the thermal
20 properties and electric load of commercial buildings and district
21 energy systems to store energy, reduce transmission congestion or
22 otherwise improve system reliability and resiliency and enable
23 integration of distributed and renewable energy sources.

24 (5)(a) \$10,000,000 of the state building construction account is
25 provided solely for grants to match federal funds or other nonstate
26 funding sources used to research, develop, and demonstrate clean
27 energy technologies.

28 (b) The department shall consult with the University of
29 Washington, Washington State University, the Pacific Northwest
30 national laboratory and other clean energy organizations to design
31 the program. The program shall offer matching funds for clean energy
32 projects including, but not limited to: Advancing energy storage and
33 solar technologies, advancing bioenergy, developing new lightweight
34 materials, and advancing renewable energy and energy efficiency
35 technologies.

36 (6) \$400,000 of the state building construction account—state is
37 provided solely for capital funding of wood energy conversion
38 projects at public facilities.

39 (7) The department must report on number and results of projects
40 that receive grants or loans through the clean energy fund, including

19 facilities and related projects that result in energy and operational
20 cost savings.

21 (b) At least ten percent of each competitive grant round must be
22 awarded to small cities or towns with a population of five thousand
23 or fewer residents.

24 (c) In each competitive round, the higher the leverage ratio of

34 improvements to minor works and stand-alone projects at state-owned
35 facilities that repair or replace existing building systems including
36 but not limited to HVAC, lighting, insulation, windows, and other
37 mechanical systems. Eligibility for this funding is dependent on an

1 analysis using the office of financial management's life cycle cost
2 tool that compares project design alternatives for initial and long-
3 term cost-effectiveness. Assuming a reasonable return on investment,
4 the cost to improve the project's energy efficiency compared to the
5 original project request will be added to the project appropriation
6 after construction bids are received. The department of commerce
7 shall coordinate with the office of financial management to develop a
8 process for project submittal, review, approval criteria, tracking
9 project budget adjustments, and performance measures.

31 building, energy efficiency and housing finance organizations, the
32 office of financial management and appropriate legislative staff, the
33 department shall develop a process that is designed to solicit,
34 evaluate and fund ultra-high energy efficient housing projects as
35 part of the housing trust fund competitive program.

36 (3) To receive funding, a project must demonstrate energy-saving
37 and renewable energy systems designed to reach net-zero energy use

1 after housing is fully occupied and must provide a life-cycle cost
2 analysis report to the department; and

3 (4) The department must consider, at a minimum and in any order,
4 the following factors in assigning a numerical ranking to a project:

5 (a) Whether the proposed design has demonstrated that the project
6 will achieve net-zero energy use when fully occupied;

7 (b) The life cycle cost of the project;

8 (c) That the project demonstrates a design, use of materials, and
9 construction process that can be replicated by the Washington
10 building industry;

11 (d) The extent to which the project leverages nonstate funds;

12 (e) The extent to which the project is ready to proceed to
13 construction;

14 (f) Whether the project promotes sustainable use of resources and
15 environmental quality;

16 (g) Whether the project is being well-managed to fund maintenance
17 and capital depreciation;

2 Trust Land Transfer (30000200)

3 The appropriation in this section is subject to the following
4 conditions and limitations:

5 (1) The appropriation is provided solely to the department to
6 transfer from trust status, or enter into fifty year leases for,
7 certain trust lands of statewide significance deemed appropriate for
8 state park, fish and wildlife habitat, natural area preserve, natural
9 resources conservation area, DNR community forest open space, or
10 recreation purposes. The approved list of properties for lease or
11 transfer is identified in the LEAP capital document No. 2015-4,
12 developed March 27, 2015.

13 (2) Property transferred under this section must be appraised and
14 transferred at fair market value. By September 30, 2015, the
15 department must deposit in the common school construction account the
16 portion of the appropriation in this section that represents the
17 estimated value of the timber on the transferred properties. This
18 transfer must be made in the same manner as timber revenues from
19 other common school trust lands. No deduction may be made for the
20 resource management cost account under RCW 79.64.040. The portion of
21 the appropriation in this section that represents the value of the
22 land transferred must be deposited in the natural resources real
23 property replacement account.

24 (3) Property subject to lease agreements under this section must
25 be appraised at fair market value. Lease terms must be fifty years
26 with options to renew for an additional fifty years. Lease payments
27 must be lump sum payments for the entire term of the lease at the
28 beginning of the lease. The department shall calculate such lump sum
29 payments using professional appraisal standards. These lease payments
30 may not exceed the fee simple purchase price based on current fair
31 market value and must be deposited by the department to the common
32 school construction account in the same manner as lease revenues from
33 other common school trust lands. No deduction may be made for the
34 resource management cost account under RCW 79.64.040. No later than
35 September 30, 2015, the department must transfer to the common school
36 construction account the portion of the appropriation in this section
37 that is attributable to receipts from lease payments.

38 (4) All reasonable costs incurred by the department to implement
39 this section are authorized to be paid out of the appropriations.

1 Authorized costs include the actual cost of appraisals, staff time,
2 environmental reviews, surveys, and other similar costs and may not
3 exceed one and nine-tenths percent of the appropriation.

4 (5) Intergrant exchanges between common school and other trust
5 lands of equal value may occur if the exchange is in the interest of
6 each trust, as determined by the board of natural resources.

7 (6) Prior to or concurrent with conveyance of these properties,
8 the department, with full cooperation of the receiving agencies,
9 shall execute and record a real property instrument that dedicates
10 the transferred properties to the purposes identified in subsection
11 (1) of this section. Fee transfer agreements for properties
12 identified in subsection (1) of this section must include terms that
13 perpetually restrict the use of the property to the intended purpose.
14 Lease agreements for properties identified in subsection (1) of this
15 section must include terms that restrict use of the property to the
16 intended purpose for the term of the lease. Transfer and lease
17 agreements may include provisions for receiving agencies to request
18 alternative uses of the property, provided the alternative uses are
19 compatible with the originally intended public purpose and the
20 department and legislature approves such uses.

21 (7) The department and receiving agencies shall work in good
22 faith to carry out the intent of this section. However, the
23 department or receiving agencies may remove a property from the
24 transfer list based on new, substantive information, if it is
25 determined that transfer of the property is not in the statewide
26 interest of either the common school trust or the receiving agency.

27 (8) \$26,422,000 of the appropriation must be deposited in the
28 common school construction account by September 30, 2015. The
29 department shall execute trust land transfers so that after the
30 deduction of reasonable costs as provided in subsection (4) of this
31 section on an aggregate basis eighty percent or more of the total
32 appropriation value is timber value or lease payments and is
33 deposited in the common school construction account. To achieve the
34 eighty percent requirement, the department may choose to lease
35 properties originally intended as transfers or transfer properties
36 originally intended as leases.

37 (9) By June 30, 2017, the state treasurer shall transfer to the
38 common school construction account any unexpended balance of the
39 appropriation in this section.

15 2015-17 Energy Grants (30000167)

16 The appropriation in this section is subject to the following
17 conditions and limitations:

18 (1)(a) Grants shall be awarded for projects that use the energy
19 savings performance contracting method under chapter 39.35C RCW or an
20 equivalent method of evaluating and delivering energy operational
21 costs savings improvements.

22 (b) Projects that do not use energy savings performance
23 contracting must: (i) Verify energy and operational cost savings for
24 ten years or until the energy and operational costs savings pay for
25 the project, whichever is shorter; (ii) follow the department of
26 enterprise service's energy savings performance contracting method
27 guidelines; and (iii) employ a licensed engineer for the energy
28 audit, design, and construction.

29 (c) The office of the superintendent of public instruction may
30 require third-party verification of savings if a project is not
31 implemented by an energy savings performance contracting method as
32 outlined in chapter 39.35C RCW. If required, third-party verification
33 must be conducted either by an energy savings performance contractor
34 qualified by the department of enterprise services, or a licensed
35 engineer that is a certified energy manager.

36 (2) Projects must be weighted and prioritized based on the
37 following criteria and in the following order: (a) Healthiest next
38 generation initiative: Priority consideration shall be given to

1 applicants that demonstrate improved health and safety through (i)
2 reduced exposure to polychlorinated biphenyl; or (ii) replacing
3 outdated heating systems that use oil or propane as fuel sources as
4 identified by the Washington state university extension energy
5 program; (b) prior grant award: Priority consideration must be given
6 to applicants that did not receive grant awards from appropriations
7 provided in section 5023, chapter 19, Laws of 2013 2nd sp. sess.; (c)
8 leverage ratio: The higher the leverage ratio of guaranteed energy
9 savings and utility or other incentives to state grant, the higher
10 the project ranking; (d) energy savings: The higher the simple
11 payback for energy savings, not to exceed the useful life of the
12 energy conservation measure, the higher the project ranking; and (e)
13 persistence: The more extensively a project ensures the persistence
14 of energy operational cost savings through ongoing measurement,
15 verification, and reporting over the life of a project, the higher
16 the project ranking.

17 (3) In order to be eligible for energy cost savings grants under
18 this section, school districts must complete an investment grade
19 audit prior to application or have completed an audit in the
20 2015-2017 biennium.

21 (4)(a) The superintendent of public instruction must pay one-half
22 of the preliminary audit, up to five cents per square foot, if the
23 project does not meet the school district's predetermined cost-
24 effectiveness criteria. Public school districts must pay the other
25 one-half of the cost of the preliminary audit if the project does not
26 meet their predetermined cost-effectiveness criteria.

27 (b) The energy savings performance contractor may not charge for
28 an investment grade audit if the project does not meet the school
29 district's predetermined cost-effectiveness criteria. Public school
30 districts must pay the full price of an investment grade audit if
31 they do not proceed with a project that meets the school district's
32 predetermined cost-effectiveness criteria.

33 (5) Applicants must submit documentation that demonstrates energy
34 and operational cost savings resulting from the installation of the
35 energy equipment and improvements. The energy savings analysis must
36 be performed by a licensed engineer and the documentation must
37 include, but is not limited to, the following:

- 38 (a) A description of the energy equipment and improvements; and
39 (b) A description of the energy and operational cost savings.

1 (6) Each school district is limited to one grant award and no
2 more than \$1,000,000.

3 (7) The office of the superintendent of public instruction may

9 in the prior ten-year period; and

10 (c) Priority for applicants with a high percentage of students
11 who are eligible and enrolled in the free and reduced-price meals
12 program.

13 (4) For purposes of grant applications made in the 2015-2017
14 biennium, additional square footage funded through this grant program
15 is excluded from the school district's inventory of available
16 educational space for determining eligibility for state assistance
17 for new construction for (a) five years following acceptance of the
18 project by the school district board of directors, or (b) the date of
19 the final review of the latest study and survey of the affected
20 school district following acceptance of the project by the school
21 district board of directors; whichever date is earliest.

22 (5) Each school district is limited to one grant award of no more
23 than \$3,000,000.

24 (6) The office of the superintendent of public instruction may

34 Inventory and Condition of Schools Data Collection (91000033)

35 The appropriation in this section is subject to the following
36 conditions and limitations:

1 (1) The appropriation is provided solely for the Washington State
2 University extension energy office to complete collection, input, and
3 verification of data of public school facilities in the inventory and
4 condition of schools system administered and maintained by the
5 superintendent of public instruction.

6 (2) The legislature intends to complete the data collection,
7 input, and verification of the inventory and condition of public
8 school facilities in order to make informed decisions about K-12
9 school facility and capacity needs to fulfill current educational
10 graduation requirements and class-size ratios. These decisions are
11 best made when based on accurate data collected in a thorough and
12 consistent manner by professionals experienced in making such
13 inventory and condition assessments for public institutions.

14 (3) The Washington State University extension energy office shall
15 conduct on-site visits to assess inventory and condition of all
16 facilities for school districts that have no current study and survey
17 as defined in RCW 28A.525.050 on file with the superintendent of
18 public instruction as of July 1, 2015, or no pending study and survey
19 to be filed with the superintendent through an outstanding study and
20 survey grant award. The data collected through on-site visits must be
21 input into the inventory and condition of schools system.

22 (4) The Washington State University extension energy office shall
23 input into the inventory and condition of schools system applicable
24 data of inventory and condition of school facilities from all current
25 studies and surveys on file with the superintendent of public
26 instruction as of July 1, 2015. The data must be input into the
27 system in a manner that captures older information and data first. As
28 studies and surveys from outstanding grant awards are filed with the
29 superintendent, the Washington State University extension energy
30 office shall input data into the system once current study and survey
31 data has been input. Activities conducted pursuant to this subsection
32 must occur concurrently with activities in subsection (3) of this
33 section.

34 (5) The Washington State University extension energy office shall
35 conduct on-site verification of data for school districts whose
36 current studies and surveys on file with the superintendent will
37 expire by June 30, 2017. Data verification must be conducted to
38 evaluate the study and survey process as a tool to collect accurate
39 inventory and condition of schools data upon which policymakers can
40 make informed decisions regarding school facility and capacity needs.

1 Activities conducted pursuant to this subsection must occur
2 concurrently with activities in subsection (3) of this section and
3 once sufficient data has been input into the system per subsection
4 (4) of this section to conduct on-site visits to verification.

5 (6) As a general condition of appropriations provided to the
6 superintendent of public instruction in this act, the superintendent
7 of public instruction and each state school district shall provide
8 requested facilities information and access to facilities in a timely
9 manner to enable the Washington State University extension energy
10 office to complete the tasks, oversight, and reporting requirements
11 assigned in this section.

12 (7) The Washington State University extension energy office shall
13 report progress of data collection, input, and verification to the

<u>Drinking Water Assistance Account—State.</u>	<u>\$4,400,000</u>

1 expenditures must be used for projects that develop and acquire
2 assets that have a useful life of at least thirteen years. These
3 requirements must be specified in funding agreements issued by the
4 department.

5 (2) For any project funded from the state taxable building
6 construction account—state appropriation in this section, state funds
7 must not exceed fifty percent of the estimated cost of a project, and
8 funding preference must be provided to projects that offer a higher
9 percentage of nonstate match funds.

10 (3)(a) \$15,000,000 of the state taxable building construction
11 account—state appropriation in this section is provided solely to
12 create a revolving loan fund to support the widespread use of proven
13 building energy efficiency and renewable energy technologies now
14 inhibited by lack of access to capital.

8 projects for grant awards, to include scoring conducted by a group of
9 qualified experts with application of criteria specified by the
10 department. Applications for grants must disclose all sources of
11 public funding to be provided for a project. The grant funds must be
12 used to fund projects that demonstrate how to: Integrate intermittent
13 renewables through energy storage and information technology,
14 dispatch energy storage resources from utility control rooms, use the
15 thermal properties and electric load of commercial buildings and
16 district energy systems to store energy, or otherwise improve the
17 reliability and reduce the costs of intermittent or distributed
18 renewable energy.

19 (5) \$6,000,000 of the state taxable building construction account
20 —state appropriation in this section is provided solely for grants to
21 match federal funds used to develop and demonstrate clean energy
22 technologies. The department shall work with the University of

26 The appropriations in this section are subject to the following
27 conditions and limitations:

28 (1) Except as directed otherwise prior to the effective date of
29 this section, the department shall not expend the appropriation in
30 this section unless and until the nonstate share of project costs
31 have been either expended, or firmly committed, or both, in an amount
32 sufficient to complete the project or a distinct phase of the project
33 that is useable to the public for the purpose intended by the
34 legislature. This requirement does not apply to projects where a
35 share of the appropriation is released for design costs only.

1 (2) Prior to receiving funds, project recipients must demonstrate
2 that the project site is under control for a minimum of ten years,
3 either through ownership or a long-term lease. This requirement does

10 NEW SECTION. **Sec. 7003.** (1) The legislature finds that use of
11 life-cycle cost analysis will aid public entities, architects,
12 engineers, and contractors in making design and construction
13 decisions that positively impact both the initial construction cost
14 and the ongoing operating and maintenance cost of a project. To
15 ensure that the total cost of a project is accounted for and the most
16 reasonable and cost efficient design is used, agencies shall develop
17 life-cycle costs for any construction project over \$10,000,000. The
18 life-cycle costs must represent the present value sum of capital
19 costs, installation costs, operating costs, and maintenance costs
20 over the life expectancy of the project. The legislature further
21 finds the most effective approach to the life-cycle cost analysis is
22 to integrate it into the early part of the design process.

23 (2) Agencies shall develop a minimum of three project
24 alternatives for use in the life-cycle cost analysis. These
25 alternatives must be both distinctly different and viable solutions
26 to the issue being addressed. The chosen alternative must be the most
27 reasonable and cost-effective solution. A brief description of each
28 project alternative and why it was chosen must be included in the
29 life-cycle cost analysis section of the predesign.

30 (3) The office of financial management shall: (a) Make available
31 a life-cycle cost model to be used for analysis; (b) in consultation
32 with the department of enterprise services, provide assistance in
33 using the life-cycle cost model; and (c) update the life-cycle cost
34 model annually including assumptions for inflation rates, discount
35 rates, and energy rates.

36 (4) Agencies shall consider architectural and engineering firms'
37 and general contractors' experience using life-cycle costs, operating
38 costs, and energy efficiency measures when selecting an architectural

1 and engineering firm, or when selecting contractors using alternative
2 contracting methods.

3 NEW SECTION. **Sec. 7004.** To ensure that major construction
4 projects are carried out in accordance with legislative and executive
5 intent, appropriations in this act in excess of \$10,000,000 may not
6 be expended or encumbered until the office of financial management
7 has reviewed and approved the agency's predesign. The predesign
8 document must include, but not be limited to, program, site, and cost
9 analysis, including life-cycle cost, in accordance with the predesign
10 manual adopted by the office of financial management. The results of
11 life-cycle cost analysis must be a primary consideration in the
12 selection of a building design. Construction may proceed only upon
13 providing to the office of financial management the life-cycle costs.
14 To improve monitoring of major construction projects, progress
15 reports must be submitted by the agency administering the project to
16 the office of financial management and to the fiscal committees of
17 the house of representatives and senate. Reports must be submitted on
18 July 1st and December 31st each year in a format to be developed by
19 the office of financial management.

20 NEW SECTION. **Sec. 7005.** (1) Allotments for appropriations in
21 this act shall be provided in accordance with the capital project
22 review requirements adopted by the office of financial management and
23 in compliance with RCW 43.88.110. Projects that will be employing
24 alternative public works construction procedures under chapter 39.10
25 RCW are subject to the allotment procedures defined in this section
26 and RCW 43.88.110.

27 (2) Each project is defined as proposed in the legislative budget
28 notes or in the governor's budget document.

29 NEW SECTION. **Sec. 7006.** (1) The office of financial management
30 may authorize a transfer of appropriation authority provided for a
31 capital project that is in excess of the amount required for the
32 completion of such project to another capital project for which the
33 appropriation is insufficient. No such transfer may be used to expand
34 the capacity of any facility beyond that intended in making the
35 appropriation. Such transfers may be effected only between capital
36 appropriations to a specific department, commission, agency, or
37 institution of higher education and only between capital projects

1 that are funded from the same fund or account. No transfers may occur
2 between projects to local government agencies except where the grants
3 are provided within a single omnibus appropriation and where such
4 transfers are specifically authorized by the implementing statutes
5 that govern the grants.

6 (2) The office of financial management may find that an amount is
7 in excess of the amount required for the completion of a project only
8 if: (a) The project as defined in the notes to the budget document is
9 substantially complete and there are funds remaining; or (b) bids
10 have been let on a project and it appears to a substantial certainty
11 that the project as defined in the notes to the budget document can
12 be completed within the biennium for less than the amount
13 appropriated in this act.

14 (3) For the purposes of this section, the intent is that each
15 project be defined as proposed to the legislature in the governor's
16 budget document, unless it clearly appears from the legislative
17 history that the legislature intended to define the scope of a
18 project in a different way.

19 (4) A report of any transfer effected under this section, except
20 emergency projects or any transfer under \$250,000, shall be filed
21 with the legislative fiscal committees of the senate and house of
22 representatives by the office of financial management at least thirty
23 days before the date the transfer is effected. The office of
24 financial management shall report all emergency or smaller transfers
25 within thirty days from the date of transfer.

26 NEW SECTION. **Sec. 7007.** (1) It is expected that projects be
27 ready to proceed in a timely manner depending on the type or phase of
28 the project or program that is the subject of the appropriation in
29 this act. Except for major projects that customarily may take more
30 than two biennia to complete from predesign to the end of
31 construction, or large infrastructure grant or loan programs
32 supporting projects that often take more than two biennia to
33 complete, the legislature generally does not intend to reappropriate
34 funds more than once, particularly for smaller grant programs, local/
35 community projects, and minor works.

36 (2) Agencies shall expedite the expenditure of reappropriations
37 and appropriations in this act in order to: (a) Rehabilitate
38 infrastructure resources; (b) accelerate environmental rehabilitation
39 and restoration projects for the improvement of the state's natural

1 environment; (c) reduce additional costs associated with acquisition
2 and construction inflationary pressures; and (d) provide additional
3 employment opportunities associated with capital expenditures.

4 (3) To the extent feasible, agencies are directed to accelerate
5 expenditure rates at their current level of permanent employees and
6 shall use contracted design and construction services wherever
7 necessary to meet the goals of this section.

8 NEW SECTION. **Sec. 7008.** (1) Any building project that receives
9 funding from the capital budget must be built to sustainable
10 standards. "Sustainable building" means a building that integrates
11 and optimizes all major high-performance building attributes,
12 including energy efficiency, durability, life-cycle performance, and
13 occupant productivity. The following design and construction
14 attributes must be integrated into the building project:

15 (a) Employ integrated design principles: Use a collaborative,
16 integrated planning and design process that initiates and maintains
17 an integrated project team in all stages of a project's planning and
18 delivery. Establish performance goals for siting, energy, water,
19 materials, and indoor environmental quality along with other
20 comprehensive design goals and ensures incorporation of these goals
21 throughout the design and life-cycle of the building. Considers all
22 stages of the building's life-cycle, including deconstruction.

23 (b) Commissioning: Employ commissioning practices tailored to the
24 size and complexity of the building and its system components in
25 order to verify performance of building components and systems and
26 help ensure that design requirements are met. This should include an
27 experienced commissioning provider, inclusion of commissioning
28 requirements in construction documents, a commissioning plan,
29 verification of the installation and performance of systems to be
30 commissioned, and a commissioning report.

31 (c) Optimize energy performance: Establish a whole building
32 performance target that takes into account the intended use,
33 occupancy, operations, plug loads, other energy demands, and design
34 to earn the ENERGY STAR targets for new construction and major
35 renovation where applicable. For new construction target low energy
36 use index. For major renovations, reduce the energy use by fifty
37 percent below pre-renovations baseline.

38 (d) On-site renewable energy: Meet at least thirty percent of the
39 hot water demand through the installation of solar hot water heaters,

1 when life-cycle cost effective. Implement renewable energy generation
2 projects on agency property for agency use, when life-cycle cost
3 effective.

4 (e) Measurement and verification: Install building level
5 electricity meters in new major construction and renovation projects
6 to track and continuously optimize performance. Include equivalent
7 meters for natural gas and steam, where natural gas and steam are
8 used. Install dashboards inside buildings to display and incentivize
9 occupants on energy use.

10 (f) Benchmarking: Compare actual performance data from the first
11 year of operation with the energy design target. Verify that the
12 building performance meets or exceeds the design target. For other
13 building and space types, use an equivalent benchmarking tool for
14 laboratory buildings. Web-based data collection and dashboards must
15 also be provided.

16 NEW SECTION. **Sec. 7009.** State agencies, including institutions
17 of higher education, shall allot and report full-time equivalent
18 staff for capital projects in a manner comparable to staff reporting
19 for operating expenditures.

20 NEW SECTION. **Sec. 7010.** Executive Order No. 05-05,
21 archaeological and cultural resources, was issued effective November
22 10, 2005. Agencies and higher education institutions shall comply
23 with the requirements set forth in this executive order.

24 NEW SECTION. **Sec. 7011.** PUGET SOUND PROTECTION AND RESTORATION.
25 Consistent with RCW 90.71.340, when expending appropriations under
26 this act that contribute to Puget Sound protection and recovery,
27 agencies shall consult with the Puget Sound partnership to ensure
28 that projects and expenditures are either in, or consistent with the
29 2020 action agenda. These consultations shall include the exchange of
30 information on specific actions, projects, associated funding,
31 performance measures, and other information necessary to track
32 project implementation and ensure alignment with the action agenda.
33 In situations where the Puget Sound partnership finds that a project
34 is not in, or is not consistent with the action agenda, Puget Sound
35 partnership shall document this finding and report back to the
36 governor and legislative fiscal committees.

1 NEW SECTION. **Sec. 7012.** FOR THE ARTS COMMISSION—ART WORK
2 ALLOWANCE. (1) One-half of one percent of moneys appropriated in this
3 act for original construction of school plant facilities is provided
4 solely for the purposes of RCW 28A.335.210.

5 (2) One-half of one percent of moneys appropriated in this act
6 for original construction or any major renovation or remodel work
7 exceeding \$200,000 by colleges or universities is provided solely for
8 the purposes of RCW 28B.10.027.

9 (3) One-half of one percent of moneys appropriated in this act
10 for original construction of any public building by a state agency
11 identified in RCW 43.17.020 is provided solely for the purposes of
12 RCW 43.17.200.

13 (4) At least eighty-five percent of the moneys spent by the
14 Washington state arts commission during the 2015-2017 biennium for
15 the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be
16 expended solely for direct acquisition of works of art. Art
17 allocations not expended within the ensuing two biennia will lapse.
18 The commission may use up to \$100,000 of this amount to conserve or
19 maintain existing pieces in the state art collection pursuant to RCW
20 28A.335.210.

21 (5) The executive director of the arts commission shall appoint a
22 study group to review the operations of the one-half of one percent
23 for works of art purchased or commissioned as required by RCW
24 28A.335.210, 28B.10.027, and 43.17.200. The findings of the review
25 must be reported annually to the office of financial management and
26 the fiscal committees of the legislature by August 15th. The review
27 must include, but is not limited to, the following: (a) Projects
28 purchased or commissioned per biennium; (b) partner agencies; (c)
29 funding sources by fiscal year; (d) artwork costs; (e) administrative
30 costs; (f) collection care costs; and (g) project status.

31 NEW SECTION. **Sec. 7013.** It is confirmed that the director of
32 the department of enterprise services is authorized under chapter
33 35A.14 RCW to petition for annexation of the former northern state
34 hospital property to the city of Sedro-Woolley upon the director's
35 determination that such annexation is appropriate and in furtherance
36 of the interests of the state. The director shall consult with the
37 office of financial management prior to making such determination.

1 **Sec. 7014.** RCW 27.34.330 and 2006 c 371 s 232 are each amended
2 to read as follows:

3 The Washington state historical society shall establish a
4 competitive process to solicit proposals for and prioritize heritage
5 capital projects for potential funding in the state capital budget.
6 The society shall adopt rules governing project eligibility and
7 evaluation criteria. Application for funding of specific projects may
8 be made to the society by local governments, public development
9 authorities, nonprofit corporations, tribal governments, and other
10 entities, as determined by the society. The society, with the advice
11 of leaders in the heritage field, including but not limited to
12 representatives from the office of the secretary of state, the
13 eastern Washington state historical society, and the department of
14 archaeology and historic preservation, shall establish and submit a
15 prioritized list of heritage capital projects to the governor and the
16 legislature in the society's biennial capital budget request. The
17 list shall include a description of each project, the amount of
18 recommended state funding, and documentation of nonstate funds to be
19 used for the project. The total amount of recommended state funding
20 for projects on a biennial project list shall not exceed ten million
21 dollars. The prioritized list shall be developed through open and
22 public meetings and the amount of state funding shall not exceed
23 thirty-three and thirty-three one hundredths percent of the total
24 cost of the project. The nonstate portion of the total project cost
25 may include cash, the value of real property when acquired solely for
26 the purpose of the project, and in-kind contributions. The department
27 shall not sign contracts or otherwise financially obligate funds
28 under this section until the legislature has approved a specific list
29 of projects. In contracts for grants authorized under this section,
30 the society shall include provisions requiring that capital
31 improvements be held by the grantee for a specified period of time
32 appropriate to the amount of the grant and that facilities be used
33 for the express purpose of the grant. If the grantee is found to be
34 out of compliance with provisions of the contract, the grantee shall
35 repay to the state general fund the principal amount of the grant
36 plus interest calculated at the rate of interest on state of
37 Washington general obligation bonds issued most closely to the date
38 of authorization of the grant.

1 NEW SECTION. **Sec. 7015.** To carry out the provisions of this
2 act, the governor may assign responsibility for predesign, design,
3 construction, and other related activities to any appropriate agency.

4 NEW SECTION. **Sec. 7016.** If any federal moneys appropriated by
5 this act for capital projects are not received by the state, the
6 department or agency to which the moneys were appropriated may
7 replace the federal moneys with funds available from private or local
8 sources. No replacement may occur under this section without the
9 prior approval of the director of financial management in
10 consultation with the senate ways and means committee and the house
11 of representatives capital budget committee.

12 NEW SECTION. **Sec. 7017.** (1) Unless otherwise stated, for all
13 appropriations under this act that require a match of nonstate money
14 or in-kind contributions, the following requirement, consistent with
15 RCW 43.88.150, shall apply: Expenditures of state money shall be
16 timed so that the state share of project expenditures never exceeds
17 the intended state share of total project costs.

18 (2) Provision of the full amount of required matching funds is
19 not required to permit the expenditure of capital budget
20 appropriations for phased projects if a proportional amount of the
21 required matching funds is provided for each distinct, identifiable
22 phase of the project.

23 **Sec. 7018.** RCW 28A.525.166 and 2013 2nd sp.s. c 18 s 514 are
24 each amended to read as follows:

25 Allocations to school districts of state funds provided by RCW
26 28A.525.162 through 28A.525.180 shall be made by the superintendent
27 of public instruction and the amount of state funding assistance to a
28 school district in financing a school plant project shall be
29 determined in the following manner:

30 (1) The boards of directors of the districts shall determine the
31 total cost of the proposed project, which cost may include the cost
32 of acquiring and preparing the site, the cost of constructing the
33 building or of acquiring a building and preparing the same for school
34 use, the cost of necessary equipment, taxes chargeable to the
35 project, necessary architects' fees, and a reasonable amount for
36 contingencies and for other necessary incidental expenses: PROVIDED,

1 That the total cost of the project shall be subject to review and
2 approval by the superintendent.

3 (2) The state funding assistance percentage for a school district
4 shall be computed by the following formula:

5 The ratio of the school district's adjusted valuation per pupil
6 divided by the ratio of the total state adjusted valuation per pupil
7 shall be subtracted from three, and then the result of the foregoing
8 shall be divided by three plus (the ratio of the school district's
9 adjusted valuation per pupil divided by the ratio of the total state
10 adjusted valuation per pupil).

11		District adjusted	Total state	
12		3-valuation	÷ adjusted valuation	
13	Computed	per pupil	per pupil	State
14	State =	_____		= - % Funding
15	Ratio	District adjusted	Total state	Assistance
16		3+valuation	÷ adjusted valuation	
17		per pupil	per pupil	

18 PROVIDED, That in the event the state funding assistance percentage
19 to any school district based on the above formula is less than twenty
20 percent and such school district is otherwise eligible for state
21 funding assistance under RCW 28A.525.162 through 28A.525.180, the
22 superintendent may establish for such district a state funding
23 assistance percentage not in excess of twenty percent of the approved
24 cost of the project, if the superintendent finds that such additional
25 assistance is necessary to provide minimum facilities for housing the
26 pupils of the district.

27 (3) In addition to the computed state funding assistance
28 percentage developed in subsection (2) of this section, a school
29 district shall be entitled to additional percentage points determined
30 by the average percentage of growth for the past three years. One
31 percent shall be added to the computed state funding assistance
32 percentage for each percent of growth, with a maximum of twenty
33 percent.

34 (4) In computing the state funding assistance percentage in
35 subsection (2) of this section and adjusting the percentage under
36 subsection (3) of this section, students residing outside the school
37 district who are enrolled in alternative learning experience courses
38 under RCW 28A.232.010 shall be excluded from the count of total

1 pupils. In lieu of the exclusion in this subsection, a district may
2 submit an alternative calculation for excluding students enrolled in
3 alternative learning experience courses. The alternative calculation
4 must show the student headcount use of district classroom facilities
5 on a regular basis for a reasonable duration by out-of-district
6 alternative learning experience students subtracted by the headcount
7 of in-district alternative learning experience students not using
8 district classroom facilities on a regular basis for a reasonable
9 duration. The alternative calculation must be submitted in a form
10 approved by the office of the superintendent of public instruction.
11 The office of the superintendent of public instruction must develop
12 rules to define "regular basis" and "reasonable duration."

13 (5) The approved cost of the project determined in the manner
14 prescribed in this section multiplied by the state funding assistance
15 percentage derived as provided for in this section shall be the
16 amount of state funding assistance to the district for the financing
17 of the project: PROVIDED, That need therefor has been established to
18 the satisfaction of the superintendent: PROVIDED, FURTHER, That
19 additional state funding assistance may be allowed if it is found by
20 the superintendent, considering policy recommendations from the
21 school facilities citizen advisory panel that such assistance is
22 necessary in order to meet (a) a school housing emergency resulting
23 from the destruction of a school building by fire, the condemnation
24 of a school building by properly constituted authorities, a sudden
25 excessive and clearly foreseeable future increase in school
26 population, or other conditions similarly emergent in nature; or (b)
27 a special school housing burden resulting from projects of statewide
28 significance or imposed by virtue of the admission of nonresident
29 students into educational programs established, maintained and
30 operated in conformity with the requirements of law; or (c) a
31 deficiency in the capital funds of the district resulting from
32 financing, subsequent to April 1, 1969, and without benefit of the
33 state funding assistance provided by prior state assistance programs,
34 the construction of a needed school building project or projects
35 approved in conformity with the requirements of such programs, after
36 having first applied for and been denied state funding assistance
37 because of the inadequacy of state funds available for the purpose,
38 or (d) a condition created by the fact that an excessive number of
39 students live in state owned housing, or (e) a need for the
40 construction of a school building to provide for improved school

1 district organization or racial balance, or (f) conditions similar to
2 those defined under (a), (b), (c), (d), and (e) of this subsection,
3 creating a like emergency.

4 (6) For the 2015-2017 biennium, schools determined to have a lack
5 of sufficient space to provide all-day kindergarten, reduce class
6 sizes, or provide science classrooms or labs to meet the requirements
7 of law, have a special housing burden condition similar to those
8 defined under subsection (5)(b) of this section, creating a like
9 emergency. For the 2015-2017 biennium, school districts are entitled
10 to additional percentage points for school construction projects that
11 have a special housing burden condition only. The additional
12 percentage points are determined by (a) student enrollments in the
13 free and reduced price meals program, and (b) donations of cash,
14 like-kind, or equipment from private sources. The additional
15 percentage points under (a) of this subsection are twenty percent of
16 the percent of student enrollments eligible and enrolled in the free
17 and reduced price meals program. The additional percentage points
18 under (b) of this subsection are determined by enrollments of the
19 school district and the value of the private donation as follows:

<u>District Enrollments</u>	<u>\$250K-\$499K</u>	<u>Value of Donation</u>	<u>>\$1M</u>
		<u>\$500K-\$1M</u>	
<u>Less than 2,000</u>	<u>10</u>	<u>15</u>	<u>20</u>
<u>2,000-4,000</u>	<u>5</u>	<u>10</u>	<u>15</u>
<u>More than 4,000</u>	<u>0</u>	<u>5</u>	<u>10</u>

25 **Sec. 7019.** RCW 28A.525.172 and 2006 c 263 s 314 are each amended
26 to read as follows:

27 All applications by school districts for state assistance in
28 providing school plant facilities shall be made to the superintendent
29 of public instruction in conformity with rules adopted by the
30 superintendent of public instruction, considering policy
31 recommendations from the school facilities citizen advisory panel.
32 Studies and surveys shall be conducted by the superintendent for the
33 purpose of securing information relating to ~~((a) [(1)])~~ (1) the
34 kind and extent of the school plant facilities required and the
35 urgency of need for such facilities in districts that seek state
36 assistance, ~~((b) [(2)])~~ (2) the ability of such districts to
37 provide capital funds by local effort, ~~((e) [(3)])~~ (3) the need for

1 improvement of school administrative units and school attendance
2 areas among or within such districts, and (~~(d)-(4)~~) (4) any other
3 pertinent matters. For the 2015-2017 biennium, the superintendent may
4 not conduct studies and surveys for the purpose of this section.

5 NEW SECTION. Sec. 7020. NONTAXABLE AND TAXABLE BOND PROCEEDS.
6 Portions of the appropriation authority granted by this act from the
7 state building construction account, or any other account receiving
8 bond proceeds, may be transferred to the state taxable building
9 construction account as deemed necessary by the state finance
10 committee to comply with the federal internal revenue service rules
11 and regulations pertaining to the use of nontaxable bond proceeds.
12 Portions of the general obligation bond proceeds authorized by
13 chapter . . . , Laws of 2015 (Substitute House Bill No. 1166, the
14 general obligation bond bill) for deposit into the state taxable
15 building construction account that are in excess of amounts required
16 to comply with the federal internal revenue service rules and
17 regulations shall be deposited into the state building construction
18 account. The state treasurer shall submit written notification to the
19 director of financial management if it is determined that a shift of
20 appropriation authority between the state building construction
21 account, or any other account receiving bond proceeds, and the state
22 taxable building construction account is necessary, or that a shift
23 of appropriation authority from the state taxable building
24 construction account to the state building construction account may
25 be made.

26 NEW SECTION. Sec. 7021. COLUMBIA RIVER BASIN NONTAXABLE AND
27 TAXABLE BOND PROCEEDS. Portions of the appropriation authority
28 granted by this act from the Columbia river basin water supply
29 development account may be transferred to the Columbia river basin
30 taxable bond water supply development account as deemed necessary by
31 the state finance committee to comply with the federal internal
32 revenue service rules and regulations pertaining to the use of
33 nontaxable bond proceeds. The state treasurer shall submit written
34 notification to the director of financial management if it is
35 determined that a shift of appropriation authority between the
36 Columbia river basin water supply development account and the
37 Columbia river basin taxable bond water supply development account is
38 necessary, or that a shift of appropriation authority from the

1 Columbia river basin taxable bond water supply development account to
2 the Columbia river basin water supply development account may be
3 made.

4 NEW SECTION. **Sec. 7022.** The office of financial management, in
5 consultation with the fiscal committees of the legislature, may
6 select capital projects that have completed predesign to undergo a
7 budget evaluation study. The budget evaluation study team approach
8 using value engineering techniques and life cycle cost analysis must
9 be utilized by the office of financial management in conducting the
10 studies. The office of financial management shall select the budget
11 evaluation team members, contract for the study, and report the
12 results to the legislature and agencies in a timely manner following
13 the study. Funds from the project appropriation must be used by the
14 office of financial management through an interagency agreement with
15 the affected agencies to cover the cost of the study.

16 NEW SECTION. **Sec. 7023.** RESEARCH ON TRANSFER OF FEDERAL LANDS
17 TO WASHINGTON STATE. Staff from the appropriate legislative
18 committees shall use existing studies and available literature to
19 research the potential costs, revenues, and policy impacts of
20 transferring federal lands to state ownership. The research must
21 include:

22 (1) Costs to the state of: (a) Land management related to
23 wildfires, forest health, invasive species management, and public
24 access; (b) addressing deferred forest health issues and ongoing
25 maintenance; (c) payments in lieu of taxes; (d) state program
26 development; and (e) other potential costs.

27 (2) Revenues to the state from: (a) Current and increased timber
28 cut-rates; (b) mineral lease revenues; (c) recreation fees; (d)
29 grazing fees; (e) permanent common school account investment income;
30 and (f) other potential revenues.

31 (3) Policy research related to the endangered species act, the
32 mining law of 1872, and other federal-state impacts.

33 (4) The research may not include consideration of revenues or
34 costs of transferring public lands into private ownership status.

35 (5) A report on this research must be provided to appropriate
36 legislative committees by December 1, 2015.

1 **Sec. 7024.** RCW 28B.20.725 and 2013 2nd sp.s. c 19 s 7027 are
2 each amended to read as follows:

3 The board is hereby empowered:

4 (1) To reserve the right to issue bonds later on a parity with
5 any bonds being issued;

6 (2) To authorize the investing of moneys in the bond retirement
7 fund and any reserve account therein;

8 (3) To authorize the transfer of money from the University of
9 Washington building account to the bond retirement fund when
10 necessary to prevent a default in the payments required to be made
11 out of such fund;

12 (4) To create a reserve account or accounts in the bond
13 retirement fund to secure the payment of the principal of and
14 interest on any bonds;

15 (5) To authorize the transfer to the University of Washington
16 building account of any money on deposit in the bond retirement fund
17 in excess of debt service for a period of three years from the date
18 of such transfer on all outstanding bonds payable out of such fund.

19 ~~((However, during the 2011-2013 fiscal biennium, the legislature may
20 transfer to the University of Washington building account moneys that
21 are in excess of the debt service due within one year of the date of
22 transfer on all outstanding bonds payable out of the bond retirement
23 fund.))~~ However, during the 2013-2015 fiscal biennium, the
24 legislature may transfer to the University of Washington building
25 account moneys that are in excess of the debt service due within the
26 2013-2015 fiscal biennium from the date of such transfer on all
27 outstanding bonds payable out of the bond retirement fund. However,
28 during the 2015-2017 fiscal biennium, the legislature may transfer to
29 the University of Washington building account moneys that are in
30 excess of the debt service due within the 2015-2017 fiscal biennium
31 from the date of such transfer on all outstanding bonds payable out
32 of the bond retirement fund.

33 **Sec. 7025.** RCW 28B.15.310 and 2013 2nd sp.s. c 19 s 7028 are
34 each amended to read as follows:

35 Within thirty-five days from the date of collection thereof, all
36 building fees shall be paid and credited as follows: To the

7 RCW at a rate of at least one-quarter of one percent;

8 (b) The local government must have developed a capital facility
9 plan; and

10 (c) The local government must be using all local revenue sources
11 which are reasonably available for funding public works, taking into

14 substantial environmental degradation, a county, city, or town
15 planning under RCW 36.70A.040 may not receive financial assistance
16 under this chapter unless it has adopted a comprehensive plan,

25 development regulations within the time periods specified in RCW
26 36.70A.040 may apply for and receive financial assistance under this
27 chapter if the comprehensive plan and development regulations are
28 adopted as required by RCW 36.70A.040 before executing a contractual
29 agreement for financial assistance with the board.

30 (3) In considering awarding financial assistance for public
31 facilities to special districts requesting funding for a proposed
32 facility located in a county, city, or town planning under RCW
33 36.70A.040, the board must consider whether the county, city, or town
34 planning under RCW 36.70A.040 in whose planning jurisdiction the
35 proposed facility is located has adopted a comprehensive plan and
36 development regulations as required by RCW 36.70A.040.

37 (4) The board must develop a priority process for public works
38 projects as provided in this section. The intent of the priority
39 process is to maximize the value of public works projects
40 accomplished with assistance under this chapter. The board must

1 attempt to assure a geographical balance in assigning priorities to
2 projects. The board must consider at least the following factors in
3 assigning a priority to a project:

4 (a) Whether the local government receiving assistance has
5 experienced severe fiscal distress resulting from natural disaster or
6 emergency public works needs;

7 (b) Except as otherwise conditioned by RCW 43.155.110, whether
8 the entity receiving assistance is a Puget Sound partner, as defined
9 in RCW 90.71.010;

13 the health and safety of a great number of citizens;

14 (e) Whether the applicant's permitting process has been certified
15 as streamlined by the office of regulatory assistance;

16 (f) Whether the applicant has developed and adhered to guidelines
17 regarding its permitting process for those applying for development
18 permits consistent with section 1(2), chapter 231, Laws of 2007;

19 (g) The cost of the project compared to the size of the local
20 government and amount of loan money available;

21 (h) The number of communities served by or funding the project;

22 (i) Whether the project is located in an area of high
23 unemployment, compared to the average state unemployment;

24 (j) Whether the project is the acquisition, expansion,
25 improvement, or renovation by a local government of a public water
26 system that is in violation of health and safety standards, including
27 the cost of extending existing service to such a system;

28 (k) Except as otherwise conditioned by RCW 43.155.120, and
29 effective one calendar year following the development of model
30 evergreen community management plans and ordinances under RCW
31 35.105.050, whether the entity receiving assistance has been
32 recognized, and what gradation of recognition was received, in the
33 evergreen community recognition program created in RCW 35.105.030;

34 (l) The relative benefit of the project to the community,
35 considering the present level of economic activity in the community
36 and the existing local capacity to increase local economic activity
37 in communities that have low economic growth; and

38 (m) Other criteria that the board considers advisable.

1 (5) For the ((2013-2015)) 2015-2017 fiscal biennium, in place of
2 the criteria, ranking, and submission processes for construction loan
3 lists provided in subsections (4) and (7) of this section:

4 (a) The board must develop a process for numerically ranking
5 applications for construction loans submitted by local governments.
6 The board must consider, at a minimum and in any order, the following
7 factors in assigning a numerical ranking to a project:

8 (i) Whether the project is critical in nature and would affect
9 the health and safety of many people;

10 (ii) The extent to which the project leverages nonstate funds;

11 (iii) The extent to which the project is ready to proceed to
12 construction;

13 (iv) Whether the project is located in an area of high
14 unemployment, compared to the average state unemployment;

15 (v) Whether the project promotes the sustainable use of resources
16 and environmental quality;

17 (vi) Whether the project consolidates or regionalizes systems;

18 (vii) Whether the project encourages economic development through
19 mixed-use and mixed income development consistent with chapter 36.70A
20 RCW;

21 (viii) Whether the system is being well-managed in the present
22 and for long-term sustainability;

23 (ix) Achieving equitable distribution of funds by geography and
24 population;

25 (x) The extent to which the project meets the following state
26 policy objectives:

27 (A) Efficient use of state resources;

28 (B) Preservation and enhancement of health and safety;

29 (C) Abatement of pollution and protection of the environment;

30 (D) Creation of new, family wage jobs, and avoidance of shifting
31 existing jobs from one Washington state community to another;

32 (E) Fostering economic development consistent with chapter 36.70A
33 RCW;

34 (F) Efficiency in delivery of goods and services, public transit,
35 and transportation;

36 (G) Avoidance of additional costs to state and local governments
37 that adversely impact local residents and small businesses; and

38 (H) Reduction of the overall cost of public infrastructure; and

39 (xi) Other criteria that the board considers necessary to achieve
40 the purposes of this chapter.

1 (b) Before November 1, (~~2014~~) 2016, the board must develop and
2 submit to the appropriate fiscal committees of the senate and house
3 of representatives a ranked list of qualified public works projects
4 which have been evaluated by the board and are recommended for
5 funding by the legislature. The maximum amount of funding that the
6 board may recommend for any jurisdiction is ten million dollars per
7 biennium. For each project on the ranked list, as well as for
8 eligible projects not recommended for funding, the board must
9 document the numerical ranking that was assigned.

10 (6) Existing debt or financial obligations of local governments
11 may not be refinanced under this chapter. Each local government
12 applicant must provide documentation of attempts to secure additional
13 local or other sources of funding for each public works project for
14 which financial assistance is sought under this chapter.

15 (7) Before November 1st of each even-numbered year, the board
16 must develop and submit to the appropriate fiscal committees of the
17 senate and house of representatives a description of the loans made
18 under RCW 43.155.065, 43.155.068, and subsection (10) of this section
19 during the preceding fiscal year and a prioritized list of projects
20 which are recommended for funding by the legislature, including one
21 copy to the staff of each of the committees. The list must include,
22 but not be limited to, a description of each project and recommended
23 financing, the terms and conditions of the loan or financial
24 guarantee, the local government jurisdiction and unemployment rate,
25 demonstration of the jurisdiction's critical need for the project and
26 documentation of local funds being used to finance the public works
27 project. The list must also include measures of fiscal capacity for
28 each jurisdiction recommended for financial assistance, compared to
29 authorized limits and state averages, including local government
30 sales taxes; real estate excise taxes; property taxes; and charges
31 for or taxes on sewerage, water, garbage, and other utilities.

32 (8) The board may not sign contracts or otherwise financially
33 obligate funds from the public works assistance account before the
34 legislature has appropriated funds for a specific list of public
35 works projects. The legislature may remove projects from the list
36 recommended by the board. The legislature may not change the order of
37 the priorities recommended for funding by the board.

38 (9) Subsection (8) of this section does not apply to loans made
39 under RCW 43.155.065, 43.155.068, and subsection (10) of this
40 section.

1 (10) Loans made for the purpose of capital facilities plans are
2 exempted from subsection (8) of this section.

3 (11) To qualify for loans or pledges for solid waste or recycling
4 facilities under this chapter, a city or county must demonstrate that
5 the solid waste or recycling facility is consistent with and
6 necessary to implement the comprehensive solid waste management plan
7 adopted by the city or county under chapter 70.95 RCW.

8 (12) After January 1, 2010, any project designed to address the
9 effects of storm water or wastewater on Puget Sound may be funded
10 under this section only if the project is not in conflict with the
11 action agenda developed by the Puget Sound partnership under RCW
12 90.71.310.

13 (13) During the ((2013-2015)) 2015-2017 fiscal biennium, for
14 projects involving repair, replacement, or improvement of a
15 wastewater treatment plant or other public works facility for which
16 an investment grade efficiency audit is obtainable, the public works
17 board must require as a contract condition that the project sponsor
18 undertake an investment grade efficiency audit. The project sponsor
19 may finance the costs of the audit as part of its public works
20 assistance account program loan.

21 (14)(a) ((For public works assistance account application rounds
22 conducted during the 2013-2015 fiscal biennium, the board must
23 implement policies and procedures designed to maximize local
24 government use of federally funded drinking water and clean water
25 state revolving funds operated by the state departments of health and
26 ecology. The board, department of ecology, and department of health
27 must jointly develop evaluation criteria and application procedures
28 that will increase access of eligible drinking water and wastewater
29 projects to the public works assistance account for short-term
30 preconstruction financing and to the federally funded state revolving
31 funds for construction financing. The procedures must also strengthen
32 coordinated funding of preconstruction and construction projects.))
33 For public works assistance account application rounds conducted
34 during the 2015-2017 fiscal biennium, the board must implement
35 policies and procedures designed to maximize local government use of
36 federal funds to finance local infrastructure including, but not
37 limited to, drinking water and clean water state revolving funds

39 (b) For all construction loan projects proposed to the
40 legislature for funding during the ((2013-2015)) 2015-2017 fiscal

1 biennium, the board must base interest rates on the average daily
2 market interest rate for tax-exempt municipal bonds as published in
3 the bond buyer's index for the period from sixty to thirty days
4 before the start of the application cycle. For projects with a
5 repayment period between five and twenty years, the rate must be
6 sixty percent of the market rate. For projects with a repayment
7 period under five years, the rate must be thirty percent of the
8 market rate. The board must also provide reduced interest rates,
9 extended repayment periods, or forgivable principal loans for
10 projects that meet financial hardship criteria as measured by the
11 affordability index or similar standard measure of financial
12 hardship.

13 ~~((c) By December 1, 2013, the board must recommend to the
14 appropriate committees of the legislature statutory language to make
15 permanent these new criteria, procedures, and financing policies.))~~

16 **Sec. 7033.** RCW 43.160.080 and 2010 1st sp.s. c 36 s 6011 are
17 each amended to read as follows:

18 There shall be a fund in the state treasury known as the public
19 facilities construction loan revolving account, which shall consist
20 of all moneys collected under this chapter and any moneys
21 appropriated to it by law. Disbursements from the revolving account
22 shall be on authorization of the board. In order to maintain an
23 effective expenditure and revenue control, the public facilities
24 construction loan revolving account shall be subject in all respects
25 to chapter 43.88 RCW. ~~((During the 2009-2011 biennium, sums in the
26 public facilities construction loan revolving account may be used for
27 community economic revitalization board export assistance grants and
28 loans in section 1018, chapter 36, Laws of 2010 1st sp. sess. and for
29 matching funds for the federal energy regional innovation cluster in
30 section 1017, chapter 36, Laws of 2010 1st sp. sess.))~~ During the
31 2015-2017 biennium, sums in the public facilities construction loan
32 revolving account may be used to continue and enhance the animal
33 disease traceability project in section 3247, chapter 19, Laws of
34 2013 2nd sp. sess., administered by the department of agriculture.
35 During the 2015-2017 biennium, sums in the public facilities
36 construction loan revolving account may be used for the clean energy
37 partnership project in section 1038, chapter 19, Laws of 2013 2nd sp.
38 sess.

1 **Sec. 7034.** RCW 70.105D.070 and 2013 2nd sp.s. c 19 s 7033 and
2 2013 2nd sp.s. c 4 s 992 are each reenacted and amended to read as
3 follows:

13 terms of such funding are established under a settlement agreement
14 under RCW 70.105D.040(4) and when the director has found that the
15 funding will achieve both: (i) A substantially more expeditious or
16 enhanced cleanup than would otherwise occur; and (ii) the prevention
17 or mitigation of unfair economic hardship;

18 (l) Development and demonstration of alternative management
19 technologies designed to carry out the hazardous waste management

35 zone designated under RCW 70.105D.150;

36 (ii) The amount and terms of the funding are established under a
37 settlement agreement under RCW 70.105D.040(5); and

38 (iii) The director has found the funding meets any additional
39 criteria established in rule by the department, will achieve a
40 substantially more expeditious or enhanced cleanup than would

1 otherwise occur, and will provide a public benefit in addition to
2 cleanup commensurate with the scope of the public funding;

3 (r) Petroleum-based plastic or expanded polystyrene foam debris
4 cleanup activities in fresh or marine waters;

5 (s) Appropriations to the local toxics control account or the
6 environmental legacy stewardship account created in RCW 70.105D.170,
7 if the legislature determines that priorities for spending exceed
8 available funds in those accounts;

9 (t) During the 2013-2015 and 2015-2017 fiscal (~~(biennium)~~)
10 biennia, the department of ecology's water quality, shorelands,
11 environmental assessment, administration, and air quality programs;

12 (u) During the 2013-2015 fiscal biennium, actions at the state
13 conservation commission to improve water quality for shellfish;

15 (v) During the 2013-2015 fiscal biennium, actions at the
16 University of Washington for reducing ocean acidification;

17 (w) For the 2013-2015 fiscal biennium, moneys in the state toxics
18 control account may be spent on projects in section (~~(3159)~~) 3160,
19 chapter 19, Laws of 2013 2nd sp. sess. and for transfer to the local
20 toxics control account; and

21 (x) For the 2013-2015 fiscal biennium, moneys in the state toxics
22 control account may be transferred to the radioactive mixed waste
23 account.

24 (4)(a) The department shall use moneys deposited in the local
25 toxics control account for grants or loans to local governments for
26 the following purposes in descending order of priority:

27 (i) Extended grant agreements entered into under (~~((e)+(e))~~) (e)
28 (i) of this subsection;

29 (ii) Remedial actions, including planning for adaptive reuse of
30 properties as provided for under (~~((e)+(e))~~) (e)(iv) of this
31 subsection. The department must prioritize funding of remedial
32 actions at:

33 (A) Facilities on the department's hazardous sites list with a
34 high hazard ranking for which there is an approved remedial action
35 work plan or an equivalent document under federal cleanup law;

36 (B) Brownfield properties within a redevelopment opportunity zone
37 if the local government is a prospective purchaser of the property
38 and there is a department-approved remedial action work plan or
39 equivalent document under the federal cleanup law;

1 (iii) Storm water pollution source projects that: (A) Work in
2 conjunction with a remedial action; (B) protect completed remedial
3 actions against recontamination; or (C) prevent hazardous clean-up
4 sites;

5 (iv) Hazardous waste plans and programs under chapter 70.105 RCW;

6 (v) Solid waste plans and programs under chapters 70.95, 70.95C,
7 70.95I, and 70.105 RCW;

8 (vi) Petroleum-based plastic or expanded polystyrene foam debris
9 cleanup activities in fresh or marine waters; and

10 (vii) Appropriations to the state toxics control account or the
11 environmental legacy stewardship account created in RCW 70.105D.170,
12 if the legislature determines that priorities for spending exceed
13 available funds in those accounts.

14 (b) Funds for plans and programs must be allocated consistent
15 with the priorities and matching requirements established in chapters
16 70.105, 70.95C, 70.95I, and 70.95 RCW.

17 (c) During the 2013-2015 fiscal biennium, the local toxics
18 control account may also be used for local government storm water
19 planning and implementation activities.

20 (d) During the 2013-2015 fiscal biennium, the legislature may
21 transfer from the local toxics control account to the state general
22 fund, such amounts as reflect the excess fund balance in the account.

23 (e) To expedite cleanups throughout the state, the department may
24 use the following strategies when providing grants to local
25 governments under this subsection:

26 (i) Enter into an extended grant agreement with a local
27 government conducting remedial actions at a facility where those
28 actions extend over multiple biennia and the total eligible cost of
29 those actions exceeds twenty million dollars. The agreement is
30 subject to the following limitations:

31 (A) The initial duration of such an agreement may not exceed ten
32 years. The department may extend the duration of such an agreement
33 upon finding substantial progress has been made on remedial actions
34 at the facility;

35 (B) Extended grant agreements may not exceed fifty percent of the
36 total eligible remedial action costs at the facility; and

37 (C) The department may not allocate future funding to an extended
38 grant agreement unless the local government has demonstrated to the
39 department that funds awarded under the agreement during the previous

1 biennium have been substantially expended or contracts have been
2 entered into to substantially expend the funds;

3 (ii) Enter into a grant agreement with a local government
4 conducting a remedial action that provides for periodic reimbursement
5 of remedial action costs as they are incurred as established in the
6 agreement;

7 (iii) Enter into a grant agreement with a local government prior
8 to it acquiring a property or obtaining necessary access to conduct
9 remedial actions, provided the agreement is conditioned upon the
10 local government acquiring the property or obtaining the access in
11 accordance with a schedule specified in the agreement;

12 (iv) Provide integrated planning grants to local governments to
13 fund studies necessary to facilitate remedial actions at brownfield
14 properties and adaptive reuse of properties following remediation.
15 Eligible activities include, but are not limited to: Environmental
16 site assessments; remedial investigations; health assessments;
17 feasibility studies; site planning; community involvement; land use
18 and regulatory analyses; building and infrastructure assessments;
19 economic and fiscal analyses; and any environmental analyses under
20 chapter 43.21C RCW;

21 (v) Provide grants to local governments for remedial actions
22 related to area-wide groundwater contamination. To receive the
23 funding, the local government does not need to be a potentially
24 liable person or be required to seek reimbursement of grant funds
25 from a potentially liable person;

26 (vi) The director may alter grant matching requirements to create
27 incentives for local governments to expedite cleanups when one of the
28 following conditions exists:

29 (A) Funding would prevent or mitigate unfair economic hardship
30 imposed by the clean-up liability;

31 (B) Funding would create new substantial economic development,
32 public recreational opportunities, or habitat restoration
33 opportunities that would not otherwise occur; or

34 (C) Funding would create an opportunity for acquisition and
35 redevelopment of brownfield property under RCW 70.105D.040(5) that
36 would not otherwise occur;

37 (vii) When pending grant applications under ~~((e)-(e))~~ (e)(iv)
38 and (v) of this subsection (4) exceed the amount of funds available,
39 designated redevelopment opportunity zones must receive priority for
40 distribution of available funds.

1 (~~(d)~~—[~~(f)~~]) (f) To expedite multiparty clean-up efforts, the
2 department may purchase remedial action cost-cap insurance. For the
3 2013-2015 fiscal biennium, moneys in the local toxics control account
4 may be spent on projects in sections 3024, 3035, 3036, and 3059,
5 chapter 19, Laws of 2013 2nd sp. sess.

6 (5) Except for unanticipated receipts under RCW 43.79.260 through
7 43.79.282, moneys in the state and local toxics control accounts may
8 be spent only after appropriation by statute.

9 (6) No moneys deposited into either the state or local toxics
10 control account may be used for: Natural disasters where there is no
11 hazardous substance contamination; high performance buildings; solid
12 waste incinerator facility feasibility studies, construction,
13 maintenance, or operation; or after January 1, 2010, for projects
14 designed to address the restoration of Puget Sound, funded in a
15 competitive grant process, that are in conflict with the action
16 agenda developed by the Puget Sound partnership under RCW 90.71.310.
17 However, this subsection does not prevent an appropriation from the
18 state toxics control account to the department of revenue to enforce
19 compliance with the hazardous substance tax imposed in chapter 82.21
20 RCW.

21 (7) Except during the 2011-2013 fiscal biennium, one percent of
22 the moneys collected under RCW 82.21.030 shall be allocated only for
23 public participation grants to persons who may be adversely affected
24 by a release or threatened release of a hazardous substance and to
25 not-for-profit public interest organizations. The primary purpose of
26 these grants is to facilitate the participation by persons and
27 organizations in the investigation and remedying of releases or
28 threatened releases of hazardous substances and to implement the
29 state's solid and hazardous waste management priorities. No grant may
30 exceed sixty thousand dollars. Grants may be renewed annually. Moneys
31 appropriated for public participation that are not expended at the
32 close of any biennium revert to the state toxics control account.

33 (8) The department shall adopt rules for grant or loan issuance
34 and performance. To accelerate both remedial action and economic
35 recovery, the department may expedite the adoption of rules necessary
36 to implement chapter 1, Laws of 2013 2nd sp. sess. using the
37 expedited procedures in RCW 34.05.353. The department shall initiate
38 the award of financial assistance by August 1, 2013. To ensure the
39 adoption of rules will not delay financial assistance, the department

1 may administer the award of financial assistance through interpretive
2 guidance pending the adoption of rules through July 1, 2014.

3 (9) Except as provided under subsection (3)(k) and (q) of this
4 section, nothing in chapter 1, Laws of 2013 2nd sp. sess. effects
5 [affects] the ability of a potentially liable person to receive
6 public funding.

7 (10) During the (~~2013-2015~~) 2015-2017 fiscal biennium the local
8 toxics control account may also be used for the centennial clean
9 water program (~~and for storm water grants~~) and for the storm water
10 financial assistance program administered by the department of
11 ecology.

12 NEW SECTION. Sec. 7035. (1) Funds appropriated in this act for
13 minor works may not be allotted until final project lists are
14 submitted to the office of financial management. Revisions to the
15 project lists are allowed for projects not anticipated at the time of
16 budget development but must be submitted to the office of financial
17 management, the house of representatives capital budget committee,
18 and the senate ways and means committee for review and comment and
19 must include an explanation of variances from the prior lists before
20 funds may be expended on the revisions. Any project list revisions
21 must be approved by the office of financial management before funds
22 may be expended from the minor works appropriation.

23 (2)(a) Minor works project lists are single line appropriations
24 that include multiple projects of a similar nature and that are
25 valued between \$25,000 and \$1,000,000 each, with the exception of
26 higher education minor works projects that may be valued up to
27 \$2,000,000. All projects must meet the criteria included in this
28 subsection (2)(a). These projects should be completed within two
29 years of the appropriation with the funding provided. Agencies are
30 prohibited from including projects on their minor works lists that
31 are a phase of a larger project, and that if combined over a
32 continuous period of time, would exceed \$1,000,000, or \$2,000,000 for
33 higher education minor works projects. Improvements for accessibility
34 in compliance with the Americans with disabilities act may be
35 included in any of the minor works categories.

36 (b) Minor works appropriations may not be used for the following:
37 Studies, except for technical or engineering reviews or designs that
38 lead directly to and support a project on the same minor works list;
39 planning; design outside the scope of work on a minor works list;

1 moveable, temporary, and traditionally funded operating equipment not
2 in compliance with the equipment criteria established by the office
3 of financial management; software not dedicated to control of a
4 specialized system; moving expenses; land or facility acquisition;
5 rolling stock; computers; or to supplement funding for projects with
6 funding shortfalls unless expressly authorized. The office of
7 financial management may make an exception to the limitations
8 described in this subsection (2)(b) for exigent circumstances after
9 notifying the legislative fiscal committees and waiting ten days for
10 comments by the legislature regarding the proposed exception.

11 (c) Minor works preservation projects may include program
12 improvements of no more than twenty-five percent of the individual
13 minor works preservation project cost.

14 NEW SECTION. **Sec. 7036. FOR THE STATE TREASURER—TRANSFERS**

15 Public works assistance account—state: For transfer
16 to the water pollution control revolving account,
17 \$6,000,000 for fiscal year 2016 and \$6,000,000 for
18 fiscal year 2017. \$12,000,000

19 Public works assistance account—state: For transfer
20 to the drinking water assistance account, \$4,400,000
21 for fiscal year 2016 and \$4,400,000 for fiscal
22 year 2017. \$8,800,000

23 NEW SECTION. **Sec. 7037.** To the extent that any appropriation
24 authorizes expenditures of state funds from the state building
25 construction account, or from any other capital project account in
26 the state treasury, for a capital project or program that is
27 specified to be funded with proceeds from the sale of bonds, the
28 legislature declares that any such expenditures for that project or
29 program made prior to the issue date of the applicable bonds are
30 intended to be reimbursed from proceeds of those bonds in a maximum
31 amount equal to the amount of such appropriation.

32 NEW SECTION. **Sec. 7038.** The office of financial management, in
33 accordance with RCW 28B.77.070 and 43.88D.010, shall include the
34 following in the scoring process:

35 (1) The office of financial management shall develop a single
36 prioritized list that includes all projects requesting funding, with

1 the exception of minor works and predesign requests. Predesigns must
2 be on a separate prioritized list.

3 (2) The office of financial management shall weight the
4 reasonableness of cost criteria based on the following criteria in
5 the following order: (a) Expected maximum allowable construction
6 costs per square foot; and (b) life-cycle cost analysis using the
7 office of financial management's life-cycle cost tool.

8 (3) Prior legislative commitment to the project funding of
9 predesign or design must be included in the scoring criteria.

10 (4) Projects must be scored only once unless the office of
11 financial management, or the requesting school, find that the project
12 scope or budget has significantly changed.

13 **Sec. 7039.** RCW 43.131.413 and 2010 c 245 s 12 are each amended
14 to read as follows:

15 The alternative process for awarding contracts established in RCW
16 28B.20.744 terminates June 30, (~~2015~~) 2017, as provided in RCW
17 43.131.414.

18 **Sec. 7040.** RCW 43.131.414 and 2010 c 245 s 13 are each amended
19 to read as follows:

20 RCW 28B.20.744, as now existing or hereafter amended, is
21 repealed, effective June 30, (~~2016~~) 2018.

22 NEW SECTION. **Sec. 7041.** This act is necessary for the immediate
23 preservation of the public peace, health, or safety, or support of
24 the state government and its existing public institutions, and takes
25 effect immediately.
