6 read as follows:

7       **FOR THE DEPARTMENT OF COMMERCE**

8       Local and Community Projects 2016 (92000369)

9       The appropriation in this section is subject to the following  
10 conditions and limitations:

11       (1) Except as directed otherwise prior to the effective date of  
12 this section, the department may not expend the appropriation in this  
13 section unless and until the nonstate share of project costs have  
14 been either expended, or firmly committed, or both, in an amount  
15 sufficient to complete the project or a distinct phase of the project  
16 that is useable to the public for the purpose intended by the  
17 legislature. This requirement does not apply to projects where a  
18 share of the appropriation is released for design costs only.

19       (2) Prior to receiving funds, project recipients must demonstrate  
20 that the project site is under control for a minimum of ten years,  
21 either through ownership or a long-term lease. This requirement does  
22 not apply to appropriations for preconstruction activities or  
23 appropriations whose sole purpose is to purchase real property that  
24 does not include a construction or renovation component.

25       (3) Projects funded in this section may be required to comply  
26 with Washington's high performance building standards as required by  
27 chapter 39.35D RCW.

28       (4) Project funds are available on a reimbursement basis only,  
29 and shall not be advanced under any circumstances.

30       (5) Projects funded in this section must be held by the recipient  
31 for a minimum of ten years and used for the same purpose or purposes  
32 intended by the legislature as required in RCW 43.63A.125(6).

33       (6) Projects funded in this section, including those that are  
34 owned and operated by nonprofit organizations, are generally required  
35 to pay state prevailing wages.

36       (7) \$2,209,000 of the appropriation in this section is provided  
37 solely for the Fairchild air force base protection and community  
38 empowerment project, including the purchase of twenty acres of land

1 for development of affordable housing and the county's purchase of  
2 mobile home parks in order to reduce the use of the accident  
3 potential zone for residential purposes. If the county subsequently  
4 rezones, develops, and leases the mobile home park property for  
5 commercial or industrial uses contrary to the allowed uses in the  
6 accident potential zone, the county must repay to the state the  
7 amount spent on the purchase of mobile home parks in its entirety  
8 within ten years.

9 (8) \$850,000 of the appropriation in this section is provided  
10 solely for the White River restoration project. Design solutions for  
11 flooding reductions in the lower White River must include a  
12 floodplain habitat design that both reduces flood risks and restores  
13 salmon habitat by reconnecting the river with its floodplain and a  
14 sustainable riparian corridor. Project designs and plans must also  
15 identify lands for acquisition needed for floodplain reconnection  
16 where pending or existing development eliminates the potential for  
17 riparian and aquatic habitat restoration. The city shall work  
18 cooperatively with the Muckleshoot Indian Tribe and the Puyallup  
19 Tribe of Indians, and develop a plan collaboratively to achieve both  
20 flood reduction and habitat restoration.

21 (9) Up to \$150,000 of the appropriation in this section for the  
22 veterans helping veterans: Emergency transition shelter project may  
23 be spent on preconstruction or preacquisition activities, including,  
24 but not limited to, building inspections, design of necessary  
25 renovations, cost estimation, and other activities necessary to  
26 identify and select a facility appropriate for the program. The  
27 remainder of the appropriation must be used for eventual acquisition  
28 and renovations of a facility.

29 (10) \$2,500,000 of the appropriation in this section is provided  
30 solely for the mercy housing and health care center at Sand Point.  
31 During the 2015-2017 fiscal biennium, the center may not house any  
32 community health care training organization that has been  
33 investigated by and has paid settlement fees to the attorney  
34 general's office for alleged medicaid fraud.

19 Water Infrastructure Investment (91000432)

20 The appropriation in this section is subject to the following  
21 conditions and limitations:

22 (1) The legislature finds that population growth, climate change,  
23 and other factors are creating increasing stresses on critical water  
24 infrastructure, fisheries, and watershed health. To inform policy  
25 decisions about the scale and timing of new investments in flood risk  
26 reduction, water quality, and water supply both in-stream and out-of-  
27 stream, \$225,000 of the appropriation in this section is provided  
28 solely for the office of financial management to contract with a  
29 consultant for an analysis of the economic implications related to  
30 water infrastructure and fisheries habitat restoration needs across  
31 the state.

32 (2) The analysis must incorporate existing data and information  
33 related to:

34 (a) Integrated water supply and management planning that  
35 addresses in-stream and/or out-of-stream water supply needs as well  
36 as fisheries habitat and passage improvements;

37 (b) Multiple benefit approaches that reduce the risk from floods  
38 and protect and restore naturally functioning areas; and

1 (c) Low-impact development retrofits to reduce toxic substances  
2 and other pollutants in stormwater.

3 (3) The analysis must consider, but not be limited to, fishing  
4 and recreation benefits of improved floodplain and riparian habitat,  
5 in-stream flows, and fish passage projects. Further, the analysis  
6 must provide a review of other state reports that examine the  
7 economic implications to water infrastructure and fisheries habitat  
8 restoration needs. To the extent practicable, the analysis should  
9 address, but not be limited to:

10 (a) A 20-year forecast of known need for investment for the three  
11 categories;

12 (b) Estimated effects on the Washington economy without new  
13 infrastructure investment, including impacts on households, business,  
14 and commerce caused by flooding, drought, and degraded water quality  
15 from storm water run off; and

16 (c) Estimated economic benefits, including jobs, commerce, and  
17 development associated with each billion dollars invested in the  
18 three categories.

19 (4) The Washington business roundtable, the Washington state  
20 labor council and the Washington environmental council must be  
21 invited to designate a representative to provide input to the  
22 consultant in developing the analysis.

23 (5) The consultant must report its findings to the capital budget  
24 committee of the house of representatives and the ways and means  
25 committee of the senate by January 15, 2017.

26 (6) Up to \$25,000 of the appropriation in this section may be  
27 used by the office of financial management for administrative costs.

37 The appropriation in this section is subject to the following  
38 conditions and limitations:

1 (1) The appropriation in this section is provided solely for  
2 predesign and bridging documents, design, competition honoraria,  
3 project management, demolition, and other planning activities  
4 including permits. The predesign must include the utilities and  
5 transportation commission and other tenants as directed by the office  
6 of financial management. The lease for any prospective tenant may not  
7 be extended beyond the anticipated occupancy date of the building.

8 (2) The legislature intends the building to be a model for public  
9 buildings to use cross laminated timber. The department must provide  
10 a report to the legislature and governor on the use of cross  
11 laminated timber in the building including the effect on construction  
12 cost and any building code or design issues.

13 (3) The legislature intends the utilities and transportation  
14 commission building project to be a high efficient space and energy  
15 use building. To achieve this intent, the office of financial  
16 management must consider tenants for the building, including the  
17 utilities and transportation commission and consideration of the  
18 department of licensing, all current tenants of the general  
19 administration building with operations compatible with a high  
20 density office building, and other possible tenants. The measure of  
21 achieving a higher space efficiency is measured by the average square  
22 feet per housed employee.

23 (4) The building must be delivered using design build, as defined  
24 by chapter 39.10 RCW, with a guarantee for energy, operations, and  
25 maintenance performance. The term for performance validation must not  
26 be less than five years. The state may use state employees for  
27 services not related to building performance. Criteria for selecting  
28 a contractor must include life-cycle costs, energy costs or energy  
29 use index, innovative use of cross laminated timber, and percentage  
30 of cross laminated timber used. The scope of the building must be

32 square feet of office space based on the office of financial  
33 management's direction for square feet and tenants identified in the  
34 programming phase.

35 (5) The project includes a parking garage to be built at 120  
36 union street, Olympia. The parking garage must include at least 400  
37 parking stalls.

38 (6) The project will be alternatively financed as authorized by

3 extent of compliance with that program. Land stewardship includes,  
4 but is not limited to, restoring or developing the land to meet the
