2017-19 Capital Budget Highlights

HIGHLIGHTS

2017-19 CAPITAL BUDGET AND 2017 SUPPLEMENTAL BUDGET

PROPOSED SUBSTITUTE HOUSE BILL 1075

DEBT LIMIT, BOND CAPACITY, AND TOTAL APPROPRIATIONS

Debt Limit

Washington State has a constitutional debt limit. The State Treasurer may not issue any bonds that would cause the debt service (principal and interest payments) on any new and existing bonds to exceed this limit. Under a constitutional amendment approved by the voters in 2012, the state debt limit is currently 8.25 percent of the average of the prior six years' general state revenues, defined as all unrestricted state tax revenues. This limit is reduced to 8.0 percent beginning on July 1, 2034.

Bond Capacity

A model administered by the State Treasurer's Office is used to calculate the available bond capacity for the current budgeting period and for future biennial planning purposes. The model calculates the actual debt service on outstanding bonds and estimates future debt service based on certain assumptions including revenue growth, interest rates, rate of repayment, rate of bond issuance and other factors.

For the 2017-19 biennium, projected bond capacity is \$2.56 billion. In addition there is capacity remaining from bonds previously authorized for the Columbia River Basin Water Supply programs and School Construction and Skills Center Building Account.

Appropriations for 2017-19 and 2017 Supplemental Budget

The 2017-19 Proposed Substitute House Bill (PSHB) 1075 appropriates a total of \$4.15 billion. Of this amount, \$2.468 billion in bonds is appropriated for the 2017-19 fiscal biennium. \$2.451 billion requires passage of a new bond authorization bill (PSHB 1080) and \$16.8 million is from existing bond authority. A total of \$1.68 billion is appropriated from other funding.

Approximately \$105.3 million in bond capacity is reserved for a 2018 Supplemental Capital Budget.

PSHB 1075 also adjusts the 2015-17 Capital Budget by increasing \$8.9 million in bonds and new appropriations. While reducing \$8.9 in bond re-appropriations and reducing \$90.4 million in other funds.
