6 6015 (uncodified); adding a new section to 2015 3rd sp.s. c 3
7 (uncodified); creating new sections; repealing 2016 sp.s. c 35 s 2011
8 (uncodified); making appropriations; and declaring an emergency.

9 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

10 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted
11 and, subject to the provisions set forth in this act, the several
12 dollar amounts hereinafter specified, or so much thereof as shall be
13 sufficient to accomplish the purposes designated, are hereby
14 appropriated and authorized to be incurred for capital projects
15 during the period beginning with the effective date of this act and
16 ending June 30, 2019, out of the several funds specified in this act.

17 (2) The definitions in this subsection apply throughout this act
18 unless the context clearly requires otherwise.

19 (a) "Fiscal year 2018" or "FY 2018" means the period beginning
20 July 1, 2017, and ending June 30, 2018.

1 (b) "Fiscal year 2019" or "FY 2019" means the period beginning
2 July 1, 2018, and ending June 30, 2019.

3 (c) "Lapse" or "revert" means the amount shall return to an
4 unappropriated status.

5 (d) "Provided solely" means the specified amount may be spent
6 only for the specified purpose.

7 (3) Unless otherwise specifically authorized in this act, any
8 portion of an amount provided solely for a specified purpose that is
9 not expended subject to the specified conditions and limitations to
10 fulfill the specified purpose shall lapse.

11 (4) The amounts shown under the headings "Prior Biennia," "Future
12 Biennia," and "Total" in this act are for informational purposes only
13 and do not constitute legislative approval of these amounts. "Prior
14 biennia" typically refers to the immediate prior biennium for
15 reappropriations, but may refer to multiple biennia in the case of
16 specific projects. A "future biennia" amount is an estimate of what
17 may be appropriated for the project or program in the 2019-2021
18 biennium and the following three biennia; an amount of zero does not
19 necessarily constitute legislative intent to not provide funding for
20 the project or program in the future.

21 (5) "Reappropriations" in this act are appropriations and, unless
22 the context clearly provides otherwise, are subject to the relevant
23 conditions and limitations applicable to appropriations.
24 Reappropriations shall be limited to the unexpended balances
25 remaining on June 30, 2017, from previous biennial appropriations for
26 each project.

28 The appropriation in this section is subject to the following
29 conditions and limitations:

30 (1) The appropriation in this section is provided solely for a
31 master plan for western state hospital and the child study and
32 treatment center. The master plan shall assume a reduced client
33 population at western state hospital that is focused on forensic
34 commitments.

1 (2) By June 30, 2019, the department of social and health
 2 services must transfer deed of the property known as the Fort
 3 Steilacoom park to the city of Lakewood. The city of Lakewood will
 4 receive the land covered by its current lease. Liabilities existing
 5 on the land at the time of transfer will transfer with the land. The
 6 transfer must be at no cost to the city. The department may reserve
 7 easements in the transferred property at no cost to the department.
 8 When the deed is transferred to the city, the lease expires. The
 9 department may include a restriction on the property requiring the
 10 city of Lakewood to maintain and operate the land as a park.

11 (3) By June 30, 2019, the department of social and health
 12 services must transfer deed of the property known as the Pierce
 13 College Fort Steilacoom campus to Pierce College. Pierce College will

5 Fircrest School: Campus Master Plan & Rezone (30003601)

6 The appropriation in this section is subject to the following
7 conditions and limitations:

8 (1) The appropriation is for the Fircrest school campus master
9 plan and rezone.

10 (2) The next phase of the master planning process must include
11 the continued exploration of options for the future use of land at
12 the Fircrest school residential habilitation center. Options may
13 include, but are not limited to, use for commercial development,
14 community recreation, senior housing, medical services, or other
15 social services. At a minimum, each option identified within the
16 updated master plan must provide a detailed accounting of the
17 transaction of highest and best value for each parcel on campus. The
18 transaction of highest and best value may not be the option selected
19 for implementation. However, it is the intent of the legislature to
20 maximize the net proceeds from the use of land on the Fircrest
21 campus, which will be deposited into the developmental disabilities
22 community trust account for future expansion of home and community-
23 based services for individuals with developmental disabilities.
24 Therefore, unless a clear reason exists for an alternative, the
25 transaction of highest and best value will be the preferred option.
26 The department must submit the updated master plan to the governor
27 and the fiscal committees of the legislature on or before October 1,
28 2018. The department must not act on any option included within the
29 updated master plan until receiving explicit direction from the
30 legislature.

31 (3) One of the options explored within the updated master plan
32 must be the transfer of approximately five acres east of the existing
33 department of health property, from the department of social and
34 health services to the department of health, for the purpose of
35 future expansion of the public health laboratory, in accordance with
36 the master plan of both agencies.

11 The appropriation in this section is subject to the following
12 conditions and limitations:

13 (1)(a) The appropriation in this section is provided solely to
14 the department to transfer from state forest land status to natural
15 resources conservation area status certain state forest lands in
16 counties:

17 (i) With a population of twenty-five thousand or fewer; and

18 (ii) With risks of timber harvest deferrals greater than thirty
19 years due to the presence of wildlife species listed as endangered or
20 threatened under the federal endangered species act.

21 (b) This appropriation must be used equally for the transfer of
22 qualifying state forest lands in the qualifying counties.

23 (2) Property transferred under this section must be appraised and
24 transferred at fair market value, without consideration of management
25 or regulatory encumbrances associated with wildlife species listed
26 under the federal endangered species act. The value of the timber and
27 other valuable materials transferred must be distributed per RCW
28 79.64.110. The value of the land transferred must be deposited in the
29 park land trust revolving account and be used solely to buy
30 replacement state forest land, consistent with RCW 79.22.060.

31 (3) Prior to or concurrent with conveyance of these properties,
32 the department shall execute and record a real property instrument
33 that dedicates the transferred properties to the purposes identified
34 in subsections (1) and (2) of this section. Transfer agreements for
35 properties identified in subsections (1) and (2) of this section must
36 include terms that restrict the use of the property to the intended
37 purpose.

1 (4) The department and applicable counties shall work in good
2 faith to carry out the intent of this section. The department shall
3 identify eligible properties for transfer, consistent with
4 subsections (1) and (2) of this section, in consultation with the
5 applicable counties, and may not execute any property transfers that
6 are not in the statewide interest of either the state forest trust or
7 the natural resources conservation area program.

Aviation Revitalization Loans (92000003)

The appropriation in this section is subject to the following conditions and limitations:

(1) This appropriation is provided solely for deposit into the public use general aviation airport loan revolving account created in section 7028 of this act for direct loans to political subdivisions of the state and privately owned airports for the purpose of improvements at public use airports that primarily support general aviation activities.

1 (2) The department must convene a community aviation
2 revitalization board to develop criteria for selecting loan
3 recipients, to develop a process for evaluating applications, and to
4 make decisions. The board must consist of the capital budget chair
5 and ranking minority member of the capital budget committee of the
6 house of representatives and the senate ways and means committee, and
7 a representative from both the department of transportation's
8 aviation division and the department of commerce. The board must also
9 consist of the following members appointed by the secretary of
10 transportation: One port district official, one county official, one
11 city official, one representative of airport managers, and one
12 representative of pilots. The chair of the board must be selected by
13 the secretary of transportation. The members of the board must elect
14 one of their members to serve as vice chair. The director of commerce
15 and the secretary of transportation must serve as nonvoting advisory
16 members of the board.

17 (3) The board may provide loans to privately owned airports for
18 the purpose of airport improvements only if the state is receiving
19 commensurate public benefit, such as guaranteed long-term public
20 access to the airport as a condition of the loan. For purposes of
21 this subsection, "public use airports that primarily support general
22 aviation activities" means all public use airports not listed as
23 having more than fifty thousand annual commercial air service
24 passenger enplanements as published by the federal aviation
25 administration.

26 (4) An application for loan funds under this section must be made
27 in the form and manner as the board may prescribe. When evaluating
28 loan applications, the board must prioritize applications that
29 provide conclusive justification that completion of the loan
30 application project will create revenue-generating opportunities. The
31 board is not limited to, but must also use, the following expected
32 outcome conditions when evaluating loan applications:

33 (a) A specific private development or expansion is ready to occur
34 and will occur only if the aviation facility improvement is made;

35 (b) The loan application project results in the creation of jobs
36 or private sector capital investment as determined by the board;

37 (c) The loan application project improves opportunities for the
38 successful maintenance, operation, or expansion of an airport or
39 adjacent airport business park;

1 (d) The loan application project results in the creation or
2 retention of long-term economic opportunities; and

3 (e) The loan application project results in leveraging additional
4 federal funding for an airport.

5 (5) The repayment of any loan made from the public use general
6 aviation airport loan revolving account under the contracts for
7 aviation loans must be paid into the public use general aviation
8 airport loan revolving account.

3 Emergency Repairs and Equal Access Grants for K-12 Public Schools
4 (30000182)

5 The appropriation in this section is subject to the following
6 conditions and limitations:

7 (1) \$2,000,000 of the appropriation is provided solely for
8 emergency repair grants to address unexpected and imminent health and
9 safety hazards at K-12 public schools, including skill centers, that
10 will impact the day-to-day operations of the school facility, and
11 this is the maximum amount that may be spent for this purpose. For
12 emergency repair grants only, an emergency declaration must be signed
13 by the school district board of directors and submitted to the
14 superintendent of public instruction for consideration. The emergency
15 declaration must include a description of the imminent health and
16 safety hazard, the possible cause, the proposed scope of emergency
17 repair work and related cost estimate, and identification of local
18 funding to be applied to the project. Grants of emergency repair
19 moneys must be conditioned upon the written commitment and plan of
20 the school district board of directors to repay the grant with any
21 insurance payments or other judgments that may be awarded, if
22 applicable.

23 (2) \$3,000,000 of the appropriation is provided solely for urgent
24 repair grants to address non-reoccurring urgent small repair projects
25 at K-12 public schools, excluding skill centers, that could impact
26 the health and safety of students and staff if not completed, and
27 this is the maximum amount that may be spent for this purpose. The
28 office of the superintendent of public instruction, after consulting
29 with maintenance and operations administrators of school districts,
30 shall develop criteria and assurances for providing funding for
31 specific projects through a competitive grant program. The criteria
32 and assurances must include, but are not limited to, the following:
33 (a) Limiting school districts to one grant, not to exceed \$200,000,
34 per three-year period; (b) prioritizing applications based on limited
35 school district financial resources for the project; and (c)
36 requiring any district receiving funding provided in this section to
37 demonstrate a consistent commitment to addressing school facility
38 needs. The grant applications must include a comprehensive
39 description of the health and safety issues to be addressed, a

1 detailed description of the remedy including a detailed cost estimate
2 of the repair or replacement work to be performed, and identification
3 of local funding, if any, which will be applied to the project.
4 Grants may be used for, but are not limited to: Repair or replacement
5 of failing building systems; abatement of potentially hazardous
6 materials; and safety-related structural improvements.

7 (3) \$1,000,000 of the appropriation is provided solely for equal
8 access grants for facility repairs and alterations at K-12 public
9 schools, including skills centers, to improve compliance with the
10 Americans with disabilities act and individuals with disabilities
11 education act, and this is the maximum amount that may be spent for
12 this purpose. The superintendent of public instruction shall develop
13 criteria and assurances for providing funding for specific projects
14 through a competitive grant program. The criteria and assurances must
15 include, but are not limited to, the following: (a) Limiting
16 districts to one grant, not to exceed \$1,000,000, per three-year
17 period; (b) prioritizing applications based on limited school
18 district financial resources for the project; (c) requiring recipient
19 districts to demonstrate a consistent commitment to addressing school
20 facility needs. The grant applications must include a description of
21 the Americans with disabilities act or individuals with disabilities
22 education act compliance deficiency, a comprehensive description of
23 the facility accessibility issues to be addressed, a detailed
24 description of the remedy including a detailed cost estimate of the
25 repair or replacement work to be performed, and identification of
26 local funding, if any, which will be applied to the project. Priority
27 for grant funding must be given to school districts that demonstrate
28 a lack of capital resources to address the compliance deficiencies
29 outlined in the grant application.

30 (4) The superintendent of public instruction must notify the
31 office of financial management, the legislative evaluation and
32 accountability program committee, the house capital budget committee,
33 and the senate ways and means committee as projects are approved for
34 funding.

8 districts and the department of health, shall develop criteria for
9 providing funding for specific projects that are consistent with the
10 healthiest next generation priorities. The criteria must include, but
11 are not limited to, the following: (a) Districts or schools may apply

19 provide a benefit to the public through development, demonstration,
20 and deployment of clean energy technologies that save energy and
21 reduce energy costs, reduce harmful air emissions or otherwise
22 increase energy independence for the state.

23 (2) In soliciting and evaluating proposals, awarding contracts,
24 and monitoring projects under this section, the department must:

25 (a) Ensure that competitive bidding processes, rather than sole
26 source contracting processes, are used to select all projects;

27 (b) Require that all expenditures be used for projects that

3 **FOR THE DEPARTMENT OF COMMERCE**

4 2017 Local and Community Projects (30000846)

5 The appropriation in this section is subject to the following
6 conditions and limitations:

7 (1) Except as directed otherwise prior to the effective date of
8 this section, the department may not expend the appropriation in this
9 section unless and until the nonstate share of project costs have
10 been either expended, or firmly committed, or both, in an amount
11 sufficient to complete the project or a distinct phase of the project
12 that is useable to the public for the purpose intended by the
13 legislature. This requirement does not apply to projects where a
14 share of the appropriation is released for design costs only.

15 (2) Prior to receiving funds, project recipients must demonstrate
16 that the project site is under control for a minimum of ten years,
17 either through ownership or a long-term lease. This requirement does
18 not apply to appropriations for preconstruction activities or

33 legislature recognizes the significant statewide benefits to be
34 gained from the proposed Asia Pacific cultural center. The
35 multipurpose facility will serve as a needed cultural resource for
36 Washington's Asian and Pacific Islander community; provide affordable
37 housing and educational opportunities; strengthen relations with our
38 Asia-Pacific trading partners; and deliver economic growth as a
39 commercial and tourist destination. The legislature intends to

1 support the development of the project through a grant to be used for
2 project coordination and development of a sustainable financial plan,
3 which the legislature intends as a prerequisite to consideration of
4 any further state capital commitment.

35 NEW SECTION. **Sec. 7003.** To ensure that major construction
36 projects are carried out in accordance with legislative and executive
37 intent, appropriations in this act in excess of \$5,000,000, or
38 \$10,000,000 for higher education institutions, may not be expended or
39 encumbered until the office of financial management has reviewed and

1 approved the agency's predesign. The predesign document must include,
2 but not be limited to, program, site, and cost analysis, and an
3 analysis of the life-cycle costs of the alternatives explored, in
4 accordance with the predesign manual adopted by the office of
5 financial management.

6 NEW SECTION. **Sec. 7004.** For facilities with an area of 5,000
7 square feet or greater, the results of a life-cycle cost analysis of
8 building systems must be a primary consideration in the selection of
9 a building design. Construction may proceed only upon providing to
10 the office of financial management the life-cycle costs.

11 NEW SECTION. **Sec. 7005.** To improve monitoring of major
12 construction projects, progress reports must be submitted by the
13 agency administering the project to the office of financial
14 management and to the fiscal committees of the house of
15 representatives and senate. Reports must be submitted on July 1st and
16 December 31st each year in a format to be determined by the office of
17 financial management.

18 NEW SECTION. **Sec. 7006.** (1) Allotments for appropriations in
19 this act shall be provided in accordance with the capital project
20 review requirements adopted by the office of financial management and
21 in compliance with RCW 43.88.110. Projects that will be employing
22 alternative public works construction procedures under chapter 39.10
23 RCW are subject to the allotment procedures defined in this section
24 and RCW 43.88.110.

25 (2) Each project is defined as proposed in the legislative budget
26 notes or in the governor's budget document.

27 NEW SECTION. **Sec. 7007.** (1) The office of financial management
28 may authorize a transfer of appropriation authority provided for a
29 capital project that is in excess of the amount required for the
30 completion of such project to another capital project for which the
31 appropriation is insufficient. No such transfer may be used to expand
32 the capacity of any facility beyond that intended in making the
33 appropriation. Such transfers may be effected only between capital
34 appropriations to a specific department, commission, agency, or
35 institution of higher education and only between capital projects
36 that are funded from the same fund or account. No transfers may occur

1 between projects to local government agencies except where the grants
2 are provided within a single omnibus appropriation and where such
3 transfers are specifically authorized by the implementing statutes
4 that govern the grants.

5 (2) The office of financial management may find that an amount is
6 in excess of the amount required for the completion of a project only
7 if: (a) The project as defined in the notes to the budget document is
8 substantially complete and there are funds remaining; or (b) bids
9 have been let on a project and it appears to a substantial certainty
10 that the project as defined in the notes to the budget document can
11 be completed within the biennium for less than the amount
12 appropriated in this act.

13 (3) For the purposes of this section, the intent is that each
14 project be defined as proposed to the legislature in the governor's
15 budget document, unless it clearly appears from the legislative
16 history that the legislature intended to define the scope of a
17 project in a different way.

18 (4) A report of any transfer effected under this section, except
19 emergency projects or any transfer under \$250,000, shall be filed
20 with the legislative fiscal committees of the senate and house of
21 representatives by the office of financial management at least thirty
22 days before the date the transfer is effected. The office of
23 financial management shall report all emergency or smaller transfers
24 within thirty days from the date of transfer.

25 NEW SECTION. **Sec. 7008.** (1) It is expected that projects be
26 ready to proceed in a timely manner depending on the type or phase of
27 the project or program that is the subject of the appropriation in
28 this act. Except for major projects that customarily may take more
29 than two biennia to complete from predesign to the end of
30 construction, or large infrastructure grant or loan programs
31 supporting projects that often take more than two biennia to
32 complete, the legislature generally does not intend to reappropriate
33 funds more than once, particularly for smaller grant programs, local/
34 community projects, and minor works.

35 (2) Agencies shall expedite the expenditure of reappropriations
36 and appropriations in this act in order to: (a) Rehabilitate
37 infrastructure resources; (b) accelerate environmental rehabilitation
38 and restoration projects for the improvement of the state's natural
39 environment; (c) reduce additional costs associated with acquisition

1 and construction inflationary pressures; and (d) provide additional
2 employment opportunities associated with capital expenditures.

3 (3) To the extent feasible, agencies are directed to accelerate
4 expenditure rates at their current level of permanent employees and
5 shall use contracted design and construction services wherever
6 necessary to meet the goals of this section.

7 NEW SECTION. **Sec. 7009.** (1) Any building project that receives
8 over \$10,000,000 in funding from the capital budget must be built to
9 sustainable standards. "Sustainable building" means a building that
10 integrates and optimizes all major high-performance building
11 attributes, including energy efficiency, durability, life-cycle
12 performance, and occupant productivity. The following design and
13 construction attributes must be integrated into the building project:

14 (a) **Employ integrated design principles:** Use a collaborative,
15 integrated planning and design process that initiates and maintains
16 an integrated project team in all stages of a project's planning and
17 delivery. Establish performance goals for siting, energy, water,
18 materials, and indoor environmental quality along with other
19 comprehensive design goals and ensures incorporation of these goals
20 throughout the design and life-cycle of the building. Considers all
21 stages of the building's life-cycle, including deconstruction.

22 (b) **Commissioning:** Employ commissioning practices tailored to the
23 size and complexity of the building and its system components in
24 order to verify performance of building components and systems and
25 help ensure that design requirements are met. This should include an
26 experienced commissioning provider, inclusion of commissioning
27 requirements in construction documents, a commissioning plan,
28 verification of the installation and performance of systems to be
29 commissioned, and a commissioning report.

30 (c) **Optimize energy performance:** Establish a whole building
31 performance target that takes into account the intended use,
32 occupancy, operations, plug loads, other energy demands, and design
33 to earn the ENERGY STAR targets for new construction and major
34 renovation where applicable. For new construction target low energy
35 use index. For major renovations, reduce the energy use by fifty
36 percent below prerenovations baseline.

37 (d) **On-site renewable energy:** Meet at least thirty percent of the
38 hot water demand through the installation of solar hot water heaters,
39 when life-cycle cost effective. Implement renewable energy generation

1 projects on agency property for agency use, when life-cycle cost
2 effective.

3 (e) Measurement and verification: Install building level
4 electricity meters in new major construction and renovation projects
5 to track and continuously optimize performance. Include equivalent
6 meters for natural gas and steam, where natural gas and steam are
7 used. Install dashboards inside buildings to display and incentivize
8 occupants on energy use.

9 (f) Benchmarking: Compare actual performance data from the first
10 year of operation with the energy design target. Verify that the
11 building performance meets or exceeds the design target. For other
12 building and space types, use an equivalent benchmarking tool for
13 laboratory buildings. Web-based data collection and dashboards must
14 also be provided.

15 NEW SECTION. **Sec. 7010.** State agencies, including institutions
16 of higher education, shall allot and report full-time equivalent
17 staff for capital projects in a manner comparable to staff reporting
18 for operating expenditures.

19 NEW SECTION. **Sec. 7011.** Executive Order No. 05-05,
20 archaeological and cultural resources, was issued effective November
21 10, 2005. Agencies shall comply with the requirements set forth in

36 Washington state arts commission during the 2017-2019 biennium for
37 the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be

1 expended solely for direct acquisition of works of art. Art
2 allocations not expended within the ensuing two biennia will lapse.
3 The commission may use up to \$150,000 of this amount to conserve or
4 maintain existing pieces in the state art collection pursuant to RCW
5 28A.335.210.

6 (5) The executive director of the arts commission shall appoint a
7 study group to review the operations of the one-half of one percent
8 for works of art purchased or commissioned as required by RCW
9 28A.335.210, 28B.10.027, and 43.17.200. The findings of the review

32 timed so that the state share of project expenditures never exceeds
33 the intended state share of total project costs.

34 (2) Provision of the full amount of required matching funds is
35 not required to permit the expenditure of capital budget
36 appropriations for phased projects if a proportional amount of the

1 required matching funds is provided for each distinct, identifiable

23 excess of the debt service due within the 2015-2017 fiscal biennium
24 from the date of such transfer on all outstanding bonds payable out
25 of the bond retirement fund. However, during the 2017-2019 fiscal
26 biennium, the legislature may transfer to the Washington State
27 University building account moneys that are in excess of the debt
28 service due within the 2017-2019 fiscal biennium from the date of
29 such transfer on all outstanding bonds payable out of the bond
30 retirement fund.

31 **Sec. 7020.** RCW 28B.35.370 and 2015 3rd sp.s. c 3 s 7029 are each

35 and normal school revenue and for the construction, reconstruction,
36 erection, equipping, maintenance, demolition and major alteration of
37 buildings and other capital assets, and the acquisition of sites,
38 rights-of-way, easements, improvements or appurtenances in relation
39 thereto except for any sums transferred therefrom as authorized by
40 law. However, during the 2013-2015 biennium, sums in the respective

1 capital accounts shall also be used for routine facility maintenance,

5 facility condition assessments. However, during the 2017-2019
6 biennium, sums in the respective capital accounts shall also be used
7 for routine facility maintenance, utility costs, and facility
8 condition assessments.

9 (3) Funds available in the respective capital projects accounts
10 may also be used for certificates of participation under chapter
11 39.94 RCW.

19 issuing bonds payable out of building fees, shall certify to the
20 state treasurer the amounts required in the ensuing twelve-month
21 period to pay and secure the payment of the principal of and interest
22 on such bonds. The state treasurer shall thereupon deposit the
23 amounts so certified in the community and technical college capital
24 projects account. Such amounts of the funds deposited in the
25 community and technical college capital projects account as are
26 necessary to pay and secure the payment of the principal of and
27 interest on the building bonds issued by the college board as
28 authorized by this chapter shall be devoted to that purpose. If in
29 any twelve-month period it shall appear that the amount certified by
30 the college board is insufficient to pay and secure the payment of
31 the principal of and interest on the outstanding building bonds, the
32 state treasurer shall notify the college board and such board shall
33 adjust its certificate so that all requirements of moneys to pay and
34 secure the payment of the principal and interest on all such bonds
35 then outstanding shall be fully met at all times.

12 2015-2017 biennium, sums in the capital projects account shall also
13 be used for routine facility maintenance and utility costs. However,
14 during the 2017-2019 biennium, sums in the capital projects account
15 shall also be used for routine facility maintenance and utility
16 costs.

17 (3) Funds available in the community and technical college
18 capital projects account may also be used for certificates of
19 participation under chapter 39.94 RCW.

20 **Sec. 7022.** RCW 70.105D.070 and 2016 sp.s. c 36 s 943 are each
21 amended to read as follows:

31 terms of such funding are established under a settlement agreement
32 under RCW 70.105D.040(4) and when the director has found that the
33 funding will achieve both: (i) A substantially more expeditious or
34 enhanced cleanup than would otherwise occur; and (ii) the prevention
35 or mitigation of unfair economic hardship;

36 (l) Development and demonstration of alternative management
37 technologies designed to carry out the hazardous waste management

14 (ii) The amount and terms of the funding are established under a
15 settlement agreement under RCW 70.105D.040(5); and

16 (iii) The director has found the funding meets any additional
17 criteria established in rule by the department, will achieve a
18 substantially more expeditious or enhanced cleanup than would
19 otherwise occur, and will provide a public benefit in addition to
20 cleanup commensurate with the scope of the public funding;

21 (r) Petroleum-based plastic or expanded polystyrene foam debris
22 cleanup activities in fresh or marine waters;

23 (s) Appropriations to the local toxics control account or the
24 environmental legacy stewardship account created in RCW 70.105D.170,
25 if the legislature determines that priorities for spending exceed
26 available funds in those accounts;

27 (t) During the 2013-2015 and 2015-2017 fiscal biennia, the
28 department of ecology's water quality, shorelands, environmental

36 project;

37 (x) For the 2013-2015 fiscal biennium, moneys in the state toxics
38 control account may be spent on projects in section 3160, chapter 19,
39 Laws of 2013 2nd sp. sess. and for transfer to the local toxics
40 control account;

1 (y) For the 2013-2015 fiscal biennium, moneys in the state toxics
2 control account may be transferred to the radioactive mixed waste
3 account; and

4 (z) For the 2015-2017 fiscal biennium, forest practices
5 regulation at the department of natural resources.

6 (4)(a) The department shall use moneys deposited in the local
7 toxics control account for grants or loans to local governments for
8 the following purposes in descending order of priority:

9 (i) Extended grant agreements entered into under (e)(i) of this
10 subsection;

11 (ii) Remedial actions, including planning for adaptive reuse of
12 properties as provided for under (e)(iv) of this subsection. The
13 department must prioritize funding of remedial actions at:

14 (A) Facilities on the department's hazardous sites list with a
15 high hazard ranking for which there is an approved remedial action
16 work plan or an equivalent document under federal cleanup law;

17 (B) Brownfield properties within a redevelopment opportunity zone
18 if the local government is a prospective purchaser of the property
19 and there is a department-approved remedial action work plan or
20 equivalent document under the federal cleanup law;

21 (iii) Storm water pollution source projects that: (A) Work in
22 conjunction with a remedial action; (B) protect completed remedial
23 actions against recontamination; or (C) prevent hazardous clean-up
24 sites;

25 (iv) Hazardous waste plans and programs under chapter 70.105 RCW;

26 (v) Solid waste plans and programs under chapters 70.95, 70.95C,
27 70.95I, and 70.105 RCW;

28 (vi) Petroleum-based plastic or expanded polystyrene foam debris
29 cleanup activities in fresh or marine waters; and

30 (vii) Appropriations to the state toxics control account or the
31 environmental legacy stewardship account created in RCW 70.105D.170,
32 if the legislature determines that priorities for spending exceed
33 available funds in those accounts.

34 (b) Funds for plans and programs must be allocated consistent
35 with the priorities and matching requirements established in chapters
36 70.105, 70.95C, 70.95I, and 70.95 RCW.

37 (c) During the 2013-2015 fiscal biennium, the local toxics
38 control account may also be used for local government storm water
39 planning and implementation activities.

1 (d) During the 2013-2015 fiscal biennium, the legislature may
2 transfer from the local toxics control account to the state general
3 fund, such amounts as reflect the excess fund balance in the account.

4 (e) To expedite cleanups throughout the state, the department may
5 use the following strategies when providing grants to local
6 governments under this subsection:

7 (i) Enter into an extended grant agreement with a local
8 government conducting remedial actions at a facility where those
9 actions extend over multiple biennia and the total eligible cost of
10 those actions exceeds twenty million dollars. The agreement is
11 subject to the following limitations:

12 (A) The initial duration of such an agreement may not exceed ten
13 years. The department may extend the duration of such an agreement
14 upon finding substantial progress has been made on remedial actions
15 at the facility;

16 (B) Extended grant agreements may not exceed fifty percent of the
17 total eligible remedial action costs at the facility; and

18 (C) The department may not allocate future funding to an extended
19 grant agreement unless the local government has demonstrated to the
20 department that funds awarded under the agreement during the previous
21 biennium have been substantially expended or contracts have been
22 entered into to substantially expend the funds;

23 (ii) Enter into a grant agreement with a local government
24 conducting a remedial action that provides for periodic reimbursement
25 of remedial action costs as they are incurred as established in the
26 agreement;

27 (iii) Enter into a grant agreement with a local government prior
28 to it acquiring a property or obtaining necessary access to conduct
29 remedial actions, provided the agreement is conditioned upon the
30 local government acquiring the property or obtaining the access in
31 accordance with a schedule specified in the agreement;

32 (iv) Provide integrated planning grants to local governments to
33 fund studies necessary to facilitate remedial actions at brownfield
34 properties and adaptive reuse of properties following remediation.
35 Eligible activities include, but are not limited to: Environmental
36 site assessments; remedial investigations; health assessments;
37 feasibility studies; site planning; community involvement; land use
38 and regulatory analyses; building and infrastructure assessments;
39 economic and fiscal analyses; and any environmental analyses under
40 chapter 43.21C RCW;

1 (v) Provide grants to local governments for remedial actions
2 related to area-wide groundwater contamination. To receive the
3 funding, the local government does not need to be a potentially
4 liable person or be required to seek reimbursement of grant funds
5 from a potentially liable person;

6 (vi) The director may alter grant matching requirements to create
7 incentives for local governments to expedite cleanups when one of the
8 following conditions exists:

9 (A) Funding would prevent or mitigate unfair economic hardship
10 imposed by the clean-up liability;

11 (B) Funding would create new substantial economic development,
12 public recreational opportunities, or habitat restoration
13 opportunities that would not otherwise occur; or

14 (C) Funding would create an opportunity for acquisition and
15 redevelopment of brownfield property under RCW 70.105D.040(5) that
16 would not otherwise occur;

17 (vii) When pending grant applications under (e)(iv) and (v) of
18 this subsection (4) exceed the amount of funds available, designated
19 redevelopment opportunity zones must receive priority for
20 distribution of available funds.

21 (f) To expedite multiparty clean-up efforts, the department may
22 purchase remedial action cost-cap insurance. For the 2013-2015 fiscal
23 biennium, moneys in the local toxics control account may be spent on
24 projects in sections 3024, 3035, 3036, and 3059, chapter 19, Laws of
25 2013 2nd sp. sess.

26 (5) Except for unanticipated receipts under RCW 43.79.260 through
27 43.79.282, moneys in the state and local toxics control accounts may
28 be spent only after appropriation by statute.

29 (6) No moneys deposited into either the state or local toxics
30 control account may be used for: Natural disasters where there is no
31 hazardous substance contamination; high performance buildings; solid
32 waste incinerator facility feasibility studies, construction,
33 maintenance, or operation; or after January 1, 2010, for projects
34 designed to address the restoration of Puget Sound, funded in a
35 competitive grant process, that are in conflict with the action
36 agenda developed by the Puget Sound partnership under RCW 90.71.310.
37 However, this subsection does not prevent an appropriation from the
38 state toxics control account to the department of revenue to enforce
39 compliance with the hazardous substance tax imposed in chapter 82.21
40 RCW.

1 (7) Except during the 2011-2013 and the 2015-2017 fiscal biennia,
2 one percent of the moneys collected under RCW 82.21.030 shall be
3 allocated only for public participation grants to persons who may be
4 adversely affected by a release or threatened release of a hazardous
5 substance and to not-for-profit public interest organizations. The
6 primary purpose of these grants is to facilitate the participation by
7 persons and organizations in the investigation and remedying of
8 releases or threatened releases of hazardous substances and to
9 implement the state's solid and hazardous waste management
10 priorities. No grant may exceed sixty thousand dollars. Grants may be
11 renewed annually. Moneys appropriated for public participation that
12 are not expended at the close of any biennium revert to the state
13 toxics control account.

14 (8) The department shall adopt rules for grant or loan issuance
15 and performance. To accelerate both remedial action and economic
16 recovery, the department may expedite the adoption of rules necessary
17 to implement chapter 1, Laws of 2013 2nd sp. sess. using the
18 expedited procedures in RCW 34.05.353. The department shall initiate
19 the award of financial assistance by August 1, 2013. To ensure the
20 adoption of rules will not delay financial assistance, the department
21 may administer the award of financial assistance through interpretive
22 guidance pending the adoption of rules through July 1, 2014.

23 (9) Except as provided under subsection (3)(k) and (q) of this
24 section, nothing in chapter 1, Laws of 2013 2nd sp. sess. affects the
25 ability of a potentially liable person to receive public funding.

26 (10) During the 2015-2017 fiscal biennium the local toxics
27 control account may also be used for the centennial clean water
28 program and for the storm water financial assistance program
29 administered by the department of ecology.

30 (11) During the 2017-2019 biennium the state toxics control
31 account, the local toxics control account, and the environmental
32 legacy stewardship account may be used for interchangeable purposes
33 and funds may be transferred between accounts to accomplish those
34 purposes.

35 NEW SECTION. **Sec. 7023.** (1) Funds appropriated in this act for
36 minor works may not be allotted until final project lists are
37 submitted to the office of financial management. Revisions to the
38 project lists are allowed for projects not anticipated at the time of
39 budget development but must be submitted to the office of financial

1 management, the house of representatives capital budget committee,
2 and the senate ways and means committee for review and comment and
3 must include an explanation of variances from the prior lists before
4 funds may be expended on the revisions. Any project list revisions
5 must be approved by the office of financial management before funds
6 may be expended from the minor works appropriation.

7 (2)(a) Minor works project lists are single line appropriations
8 that include multiple projects of a similar nature and that are
9 valued between \$25,000 and \$1,000,000 each, with the exception of
10 higher education minor works projects that may be valued up to
11 \$2,000,000. All projects must meet the criteria included in this
12 subsection (2)(a). These projects should be completed within two
13 years of the appropriation with the funding provided. Agencies are
14 prohibited from including projects on their minor works lists that
15 are a phase of a larger project, and that if combined over a
16 continuous period of time, would exceed \$1,000,000, or \$2,000,000 for
17 higher education minor works projects. Improvements for accessibility
18 in compliance with the Americans with disabilities act may be
19 included in any of the minor works categories.

20 (b) Minor works appropriations may not be used for the following:
21 Studies, except for technical or engineering reviews or designs that
22 lead directly to and support a project on the same minor works list;
23 planning; design outside the scope of work on a minor works list;
24 movable, temporary, and traditionally funded operating equipment not
25 in compliance with the equipment criteria established by the office
26 of financial management; software not dedicated to control of a
27 specialized system; moving expenses; land or facility acquisition;
28 rolling stock; computers; or to supplement funding for projects with
29 funding shortfalls unless expressly authorized. The office of
30 financial management may make an exception to the limitations
31 described in this subsection (2)(b) for exigent circumstances after
32 notifying the legislative fiscal committees and waiting ten days for
33 comments by the legislature regarding the proposed exception.

34 (c) Minor works preservation projects may include program
35 improvements of no more than twenty-five percent of the individual
36 minor works preservation project cost.

37 NEW SECTION. **Sec. 7024. FOR THE STATE TREASURER—TRANSFERS**

38 Public works assistance account—state: For transfer
39 to the water pollution control revolving account, up to

1 \$5,000,000 for fiscal year 2018 and up to \$5,000,000 for
 2 fiscal year 2019. \$10,000,000
 3 Public works assistance account—state: For transfer
 4 to the drinking water assistance account, up to \$5,000,000
 5 for fiscal year 2018 and up to \$5,000,000 for fiscal
 6 year 2019. \$10,000,000

7 **NEW SECTION. Sec. 7025. STATE TREASURER TRANSFER AUTHORITY**

8 State Toxics Control Account: For transfer to the
 9 environmental legacy stewardship account, \$3,650,000 for
 10 fiscal year 2018 and \$3,650,000 for fiscal year 2019. . . \$7,300,000

11 Local Toxics Control Account: For transfer to the
 12 environmental legacy stewardship account, \$13,700,000 in
 13 fiscal year 2018 and \$13,700,000 in fiscal year 2019. . . \$27,400,000

14 (1)(a) As directed by the department of ecology in consultation
 15 with the office of financial management, the state treasurer shall
 16 transfer amounts among the state toxics control account, the local
 17 toxics control account, and the environmental legacy stewardship
 18 account as needed during the 2017-2019 fiscal biennium to maintain
 19 positive account balances in all three accounts.

20 (b) If, after using the interfund transfer authority granted in
 21 this section, the department of ecology determines that further
 22 reductions are needed to maintain positive account balances in the
 23 state toxics control account, the local toxics control account, and
 24 the environmental legacy stewardship account, the department is
 25 authorized to delay the start of clean-up projects based on acuity of
 26 need, readiness to proceed, cost-efficiency, purposes of increasing
 27 affordable housing, or need to ensure geographic distribution. If the
 28 department uses this authority, the department must submit a
 29 prioritized list of projects that may be delayed to the office of
 30 financial management and the appropriate fiscal committees of the
 31 legislature.

32 (2) As directed by the pollution liability insurance agency in
 33 consultation with the office of financial management, the state
 34 treasurer shall transfer from the pollution liability insurance
 35 program trust account to the underground storage tank revolving

 37 exceeding \$7,500,000 after excluding the reserves during the
 38 2017-2019 fiscal biennium.

1 NEW SECTION. **Sec. 7026.** To the extent that any appropriation
2 authorizes expenditures of state funds from the state building
3 construction account, or from any other capital project account in
4 the state treasury, for a capital project or program that is
5 specified to be funded with proceeds from the sale of bonds, the
6 legislature declares that any such expenditures for that project or
7 program made prior to the issue date of the applicable bonds are
8 intended to be reimbursed from proceeds of those bonds in a maximum
9 amount equal to the amount of such appropriation.

10 NEW SECTION. **Sec. 7027.** The energy recovery act account is
11 hereby created in the state treasury. The sums deposited in the
