8 (uncodified); reenacting and amending RCW 43.155.050; creating new
9 sections; making appropriations; providing a contingent effective
10 date; and declaring an emergency.

11 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

12 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted
13 and, subject to the provisions set forth in this act, the several
14 dollar amounts hereinafter specified, or so much thereof as shall be
15 sufficient to accomplish the purposes designated, are hereby
16 appropriated and authorized to be incurred for capital projects
17 during the period beginning with the effective date of this section
18 and ending June 30, 2021, out of the several funds specified in this
19 act.

20 (2) The definitions in this subsection apply throughout this act
21 unless the context clearly requires otherwise.

1 (a) "Fiscal year 2020" or "FY 2020" means the period beginning
2 July 1, 2019, and ending June 30, 2020.

3 (b) "Fiscal year 2021" or "FY 2021" means the period beginning
4 July 1, 2020, and ending June 30, 2021.

5 (c) "Lapse" or "revert" means the amount shall return to an
6 unappropriated status.

7 (d) "Provided solely" means the specified amount may be spent
8 only for the specified purpose.

9 (3) Unless otherwise specifically authorized in this act, any
10 portion of an amount provided solely for a specified purpose that is
11 not expended subject to the specified conditions and limitations to
12 fulfill the specified purpose shall lapse.

13 (4) The amounts shown under the headings "Prior Biennia," "Future
14 Biennia," and "Total" in this act are for informational purposes only
15 and do not constitute legislative approval of these amounts. "Prior
16 biennia" typically refers to the immediate prior biennium for
17 reappropriations, but may refer to multiple biennia in the case of
18 specific projects. A "future biennia" amount is an estimate of what
19 may be appropriated for the project or program in the 2021-2023
20 biennium and the following three biennia; an amount of zero does not
21 necessarily constitute legislative intent to not provide funding for
22 the project or program in the future.

23 (5) "Reappropriations" in this act are appropriations and, unless
24 the context clearly provides otherwise, are subject to the relevant
25 conditions and limitations applicable to appropriations.
26 Reappropriations shall be limited to the unexpended balances
27 remaining on June 30, 2019, from the 2017-2019 biennial
28 appropriations for each project.

16 plus interest calculated at the rate of interest on state of
17 Washington general obligation bonds issued most closely to the date

10 State Forest Land Replacement (40000032)

11 The appropriation in this section is subject to the following
12 conditions and limitations:

13 (1) (a) The appropriation is provided solely to the department to
14 transfer from state forestland status to natural resources
15 conservation area status certain state forestlands in counties with:

- 16 (i) A population of twenty-five thousand or fewer; and
- 17 (ii) Risks of timber harvest deferrals greater than thirty years
18 due to the presence of wildlife species listed as endangered or
19 threatened under the federal endangered species act.

20 (b) This appropriation must be used equally for the transfer of
21 qualifying state forestlands in the qualifying counties.

22 (2) Property transferred under this section must be appraised and
23 transferred at fair market value, without consideration of management
24 or regulatory encumbrances associated with wildlife species listed
25 under the federal endangered species act. The value of the timber and
26 other valuable materials transferred must be distributed as provided
27 in RCW 79.64.110. The value of the land transferred must be deposited
28 in the park land trust revolving account and be used solely to buy
29 replacement state forestland, consistent with RCW 79.22.060.

30 (3) Prior to or concurrent with conveyance of these properties,
31 the department shall execute and record a real property instrument
32 that dedicates the transferred properties to the purposes identified
33 in subsection (1) of this section. Transfer agreements for properties
34 identified in subsection (1) of this section must include terms that
35 restrict the use of the property to the intended purpose.

36 (4) The department and applicable counties shall work in good
37 faith to carry out the intent of this section. The department will

1 identify eligible properties for transfer, consistent with
2 subsections (1) and (2) of this section, in consultation with the
3 applicable counties, and will not execute any property transfers that
4 are not in the statewide interest of either the state forest trust or
5 the natural resources conservation area program.

19 Trust Land Transfer Program (40000034)

20 The appropriation in this section is subject to the following
21 conditions and limitations:

22 (1) The appropriation is provided solely for the department of
23 natural resources to transfer from trust status certain trust lands
24 of statewide significance deemed appropriate for state parks, fish
25 and wildlife habitats, natural area preserves, natural resources
26 conservation areas, department of natural resources community forest
27 open spaces, or recreation purposes. The approved property for
28 transfer is identified in the LEAP capital document No. 2019-4H,
29 developed March 25, 2019.

30 (2) Property transferred under this section must be appraised and
31 transferred at fair market value. By September 30, 2019, the
32 department must deposit in the common school construction account the
33 portion of the appropriation in this section that represents the
34 estimated value of the timber on the transferred properties. This
35 transfer must be made in the same manner as timber revenues from
36 other common school trust lands. No deduction may be made for the

1 resource management cost account under RCW 79.64.040. The portion of
2 the appropriation in this section that represents the value of the
3 land transferred must be deposited in the natural resources real
4 property replacement account.

5 (3) All reasonable costs incurred by the department to implement
6 this section are authorized to be paid out of the appropriations.
7 Authorized costs include the actual cost of appraisals, staff time,
8 environmental reviews, surveys, and other similar costs, and may not
9 exceed one and nine-tenths percent of the appropriation.

10 (4) By June 30, 2021, land within the common school trust shall
11 be exchanged for land of equal value held for other trust
12 beneficiaries of the property identified in subsection (1) of this
13 section.

14 (5) Prior to or concurrent with conveyance of these properties,
15 the department shall execute and record a real property instrument
16 that dedicates the transferred properties to the purposes identified
17 in subsection (1) of this section. Fee transfer agreements for
18 properties identified in subsection (1) of this section must include
19 terms that perpetually restrict the use of the property to the
20 intended purpose. Transfer agreements may include provisions for
21 receiving agencies to request alternative uses of the property,
22 provided the alternative uses are compatible with the originally
23 intended public purpose and the department and legislature approves
24 such uses.

25 (6) The department shall work in good faith to carry out the
26 intent of this section.

27 (7) By June 30, 2021, the state treasurer shall transfer to the
28 common school construction account any unexpended balance of the
29 appropriation in this section.

4 conditions and limitations:

5 (1) The department, in consultation with the office of emergency
6 management, the office of the superintendent of public instruction,
7 and the state board of education, shall develop a prioritized seismic
8 risk assessment that includes seismic safety surveys of public
9 facilities that are subject to high seismic risk because of high
10 earthquake hazard and soils that amplify that hazard.

11 (2) The survey must be a representative sample of public
12 facilities located in high priority areas as determined in the
13 2017-19 survey of public school seismic safety assessments and
14 tsunami inundation zones as published by the department. The survey
15 must use the results of the 2017-19 survey's findings to prioritize
16 school buildings based on geologic and engineering results.

17 (3) The seismic safety surveys must be conducted for the
18 following types of public facilities in the following order:

19 (a) A portion of public school facilities that are routinely used
20 for the instruction of students in kindergarten through twelfth grade
21 and in school districts that have held successful bond elections
22 within the previous three years;

23 (b) A portion of the remaining public school facilities that are
24 routinely used for the instruction of students in kindergarten

30 possible.

31 (5) The initial phase of the prioritized seismic needs assessment
32 of the facilities specified in subsection (3)(a) and (b) of this
33 section shall include, but is not limited to, the following:

34 (a) An on-site assessment, under the supervision of licensed
35 geologists, of the seismic site class of the soils at the facilities;

36 (b) An on-site inspection of the facility buildings, including
37 structural systems using structural plans where available, condition,
38 maintenance, and nonstructural seismic hazards following standardized
39 methods by licensed structural engineers;

1 (c) An estimate of costs to retrofit a prioritized subset of the
2 facilities specified in subsection (3)(a) and (b) of this section to
3 life safety standards as defined by the American society of civil
4 engineers; and

5 (d) An estimate of costs to retrofit a prioritized subset of
6 facilities specified in subsection (3)(c) of this section to
7 immediate occupancy standards as defined by the American society of
8 civil engineers.

9 (6) The department must collect and submit survey data to the
10 superintendent of public instruction in a format compatible with the
11 inventory and condition of schools database. The department must
12 enter into an agreement with the superintendent of public instruction
13 to make any necessary modifications to the inventory and condition of
14 schools database to receive and report the survey data.

15 (7) The department must share that data with the school districts
16 where the surveys were conducted, the schools where the surveys were
17 conducted, the governor, and the appropriate legislative committees.

18 (8) The department and the office of the superintendent of public
19 instruction must provide technical assistance to the school
20 facilities sampled to incorporate survey information into their
21 school safety plans.

9 that may be spent for this purpose. For emergency repair grants only,
10 an emergency declaration must be signed by the school district board
11 of directors and submitted to the superintendent of public
12 instruction for consideration. The emergency declaration must include

18 directors to repay the grant with any insurance payments or other
19 judgments that may be awarded, if applicable.

20 (2) \$3,000,000 of the state building construction account—state
21 appropriation is provided solely for urgent repair grants to address

37 and safety issues to be addressed, a detailed description of the
38 remedy, including a detailed cost estimate of the repair or
39 replacement work to be performed, and identification of local

1 funding, if any, which will be applied to the project. Grants may be
2 used for, but are not limited to: Repair or replacement of failing
3 building systems; abatement of potentially hazardous materials; and

22 accessibility issues to be addressed, a detailed description of the
23 remedy including a detailed cost estimate of the repair or
24 replacement work to be performed, and identification of local
25 funding, if any, which will be applied to the project. Priority for
26 grant funding must be given to school districts that demonstrate a
27 lack of capital resources to address the compliance deficiencies
28 outlined in the grant application.

29 (4) The superintendent of public instruction must notify the
30 office of financial management, the legislative evaluation and

16 care professionals across both facilities by establishing organized
17 joint- and cross-training programs. The parties must measure the
18 success of this strategy by the number of health care professionals
19 in total and by discipline complete cross-training activities and by
20 the number and hours of cross-training opportunities offered under
21 the agreement.

2 instructional and lab classroom space.

3 (g) Enter into a financing contract on behalf of Everett
4 Community College for up to \$10,000,000 plus financing expenses and
5 required reserves pursuant to chapter 39.94 RCW to purchase one or
6 more properties adjacent to the campus.

7 NEW SECTION. **Sec. 7003.** (1) To ensure that major construction
8 projects are carried out in accordance with legislative and executive
9 intent, agencies must complete a predesign for state construction
10 projects with a total anticipated cost in excess of \$5,000,000, or
11 \$10,000,000 for higher education institutions. "Total anticipated
12 cost" means the sum of the anticipated cost of the predesign, design,
13 and construction phases of the project.

14 (2) Appropriations for design may not be expended or encumbered
15 until the office of financial management has reviewed and approved
16 the agency's predesign.

17 (3) The predesign must explore at least three project
18 alternatives. These alternatives must be both distinctly different
19 and viable solutions to the issue being addressed. The chosen
20 alternative should be the most reasonable and cost-effective
21 solution. The predesign document must include, but not be limited to,
22 program, site, and cost analysis, and an analysis of the life-cycle
23 costs of the alternatives explored, in accordance with the predesign
24 manual adopted by the office of financial management.

25 (4) The office of financial management may make an exception to
26 the predesign requirements in this section after notifying the
27 legislative fiscal committees and waiting ten days for comment by the
28 legislature regarding the proposed exception.

29 NEW SECTION. **Sec. 7004.** (1) The legislature finds that use of
30 life-cycle cost analysis will aid public entities, architects,
31 engineers, and contractors in making design and construction
32 decisions that positively impact both the initial construction cost
33 and the ongoing operating and maintenance cost of a project. To
34 ensure that the total cost of a project is accounted for and the most
35 reasonable and cost efficient design is used, agencies shall develop
36 life-cycle costs for any construction project over \$10,000,000. The
37 life-cycle costs must represent the present value sum of capital
38 costs, installation costs, operating costs, and maintenance costs

1 over the life expectancy of the project. The legislature further
2 finds the most effective approach to the life-cycle cost analysis is
3 to integrate it into the early part of the design process.

4 (2) Agencies must develop a minimum of three project alternatives
5 for use in the life-cycle cost analysis. These alternatives must be
6 both distinctly different and viable solutions to the issue being
7 addressed. The chosen alternative must be the most reasonable and
8 cost-effective solution. A brief description of each project
9 alternative and why it was chosen must be included in the life-cycle
10 cost analysis section of the predesign.

11 (3) The office of financial management shall: (a) Make available
12 a life-cycle cost model to be used for analysis; (b) in consultation
13 with the department of enterprise services, provide assistance in
14 using the life-cycle cost model; and (c) update the life-cycle cost
15 model annually including assumptions for inflation rates, discount
16 rates, and energy rates.

17 (4) Agencies shall consider architectural and engineering firms'
18 and general contractors' experience using life-cycle costs, operating
19 costs, and energy efficiency measures when selecting an architectural
20 and engineering firm, or when selecting contractors using alternative
21 contracting methods.

22 NEW SECTION. **Sec. 7005.** Agencies administering construction
23 projects with a total anticipated cost in excess of \$5,000,000, or
24 \$10,000,000 for higher education institutions, must submit progress
25 reports to the office of financial management and to the fiscal
26 committees of the house of representatives and senate. "Total
27 anticipated cost" means the sum of the anticipated cost of the
28 predesign, design, and construction phases of the project. Reports
29 must be submitted on July 1st and December 31st of each year in a
30 format determined by the office of financial management. After the
31 project is completed, agencies must also submit a closeout report
32 that identifies the total project cost and any unspent
33 appropriations.

34 NEW SECTION. **Sec. 7006.** (1) Allotments for appropriations in
35 this act shall be provided in accordance with the capital project
36 review requirements adopted by the office of financial management and
37 in compliance with RCW 43.88.110. Projects that will be employing
38 alternative public works construction procedures under chapter 39.10

1 RCW are subject to the allotment procedures defined in this section
2 and RCW 43.88.110.

3 (2) Each project is defined as proposed in the legislative budget
4 notes or in the governor's budget document.

5 NEW SECTION. **Sec. 7007.** (1) The office of financial management
6 may authorize a transfer of appropriation authority provided for a
7 capital project that is in excess of the amount required for the
8 completion of such project to another capital project for which the
9 appropriation is insufficient. No such transfer may be used to expand
10 the capacity of any facility beyond that intended in making the
11 appropriation. Such transfers may be effected only between capital
12 appropriations to a specific department, commission, agency, or
13 institution of higher education and only between capital projects
14 that are funded from the same fund or account. No transfers may occur
15 between projects to local government agencies except where the grants
16 are provided within a single omnibus appropriation and where such
17 transfers are specifically authorized by the implementing statutes
18 that govern the grants. However, the office of financial management
19 may transfer funds from the emergency repair pool to supplement the
20 western state hospital wards renovations for forensic services
21 project in section 2035 of this act if bids exceed the project
22 appropriation.

23 (2) The office of financial management may find that an amount is
24 in excess of the amount required for the completion of a project only
25 if: (a) The project as defined in the notes to the budget document is
26 substantially complete and there are funds remaining; or (b) bids
27 have been let on a project and it appears to a substantial certainty
28 that the project as defined in the notes to the budget document can
29 be completed within the biennium for less than the amount
30 appropriated in this act.

31 (3) For the purposes of this section, the intent is that each
32 project be defined as proposed to the legislature in the governor's
33 budget document, unless it clearly appears from the legislative
34 history that the legislature intended to define the scope of a
35 project in a different way.

36 (4) A report of any transfer effected under this section, except
37 emergency projects or any transfer under \$250,000, shall be filed
38 with the legislative fiscal committees of the senate and house of
39 representatives by the office of financial management at least thirty

1 days before the date the transfer is effected. The office of
2 financial management shall report all emergency or smaller transfers
3 within thirty days from the date of transfer. However, the office of
4 financial management may effect one or more transfers to supplement
5 the western state hospital wards renovations for forensic services
6 project in section 2035 of this act without waiting thirty days for
7 fiscal committee response.

8 NEW SECTION. **Sec. 7008.** (1) It is expected that projects be
9 ready to proceed in a timely manner depending on the type or phase of
10 the project or program that is the subject of the appropriation in
11 this act. Except for major projects that customarily may take more
12 than two biennia to complete from predesign to the end of
13 construction, or large infrastructure grant or loan programs
14 supporting projects that often take more than two biennia to
15 complete, the legislature generally does not intend to reappropriate
16 funds more than once, particularly for smaller grant programs, local/
17 community projects, and minor works.

18 (2) Agencies shall expedite the expenditure of reappropriations
19 and appropriations in this act in order to: (a) Rehabilitate
20 infrastructure resources; (b) accelerate environmental rehabilitation
21 and restoration projects for the improvement of the state's natural
22 environment; (c) reduce additional costs associated with acquisition
23 and construction inflationary pressures; and (d) provide additional
24 employment opportunities associated with capital expenditures.

25 (3) To the extent feasible, agencies are directed to accelerate
26 expenditure rates at their current level of permanent employees and
27 shall use contracted design and construction services wherever
28 necessary to meet the goals of this section.

29 NEW SECTION. **Sec. 7009.** (1) Any building project that receives
30 over \$10,000,000 in funding from the capital budget must be built to
31 sustainable standards. "Sustainable building" means a building that
32 integrates and optimizes all major high-performance building
33 attributes, including energy efficiency, durability, life-cycle
34 performance, and occupant productivity. The following design and
35 construction attributes must be integrated into the building project:

36 (a) Employ integrated design principles: Use a collaborative,
37 integrated planning and design process that initiates and maintains
38 an integrated project team in all stages of a project's planning and

1 delivery. Establish performance goals for siting, energy, water,
2 materials, and indoor environmental quality along with other
3 comprehensive design goals and ensures incorporation of these goals
4 throughout the design and life-cycle of the building. Consider all
5 stages of the building's life-cycle, including deconstruction.

6 (b) Commissioning: Employ commissioning practices tailored to the
7 size and complexity of the building and its system components in
8 order to verify performance of building components and systems and
9 help ensure that design requirements are met. This should include an
10 experienced commissioning provider, inclusion of commissioning
11 requirements in construction documents, a commissioning plan,
12 verification of the installation and performance of systems to be
13 commissioned, and a commissioning report.

14 (c) Optimize energy performance: Establish a whole building
15 performance target that takes into account the intended use,
16 occupancy, operations, plug loads, other energy demands, and design
17 to earn the ENERGY STAR targets for new construction and major
18 renovation where applicable. For new construction target low energy
19 use index. For major renovations, target reducing energy use by fifty
20 percent below prerenovations baseline.

21 (d) On-site renewable energy: Meet at least thirty percent of the
22 hot water demand through the installation of solar hot water heaters,
23 when life-cycle cost effective. Implement renewable energy generation
24 projects on agency property for agency use, when life-cycle cost
25 effective.

26 (e) Measurement and verification: Where appropriate, install
27 building level electricity meters in new major construction and
28 renovation projects to track and continuously optimize performance.
29 Include equivalent meters for natural gas and steam, where natural
30 gas and steam are used. Where appropriate, install dashboards inside
31 buildings to display and incentivize occupants on energy use.

32 (f) Benchmarking: Compare performance data from the first year of
33 operation with the energy design target. Verify that the building
34 performance meets or exceeds the design target. For other building
35 and space types, use an equivalent benchmarking tool.

36 NEW SECTION. **Sec. 7010.** State agencies, including institutions
37 of higher education, shall allot and report full-time equivalent
38 staff for capital projects in a manner comparable to staff reporting
39 for operating expenditures.

1 NEW SECTION. **Sec. 7011.** Executive Order No. 05-05,
2 archaeological and cultural resources, was issued effective November
3 10, 2005. Agencies shall comply with the requirements set forth in
4 this executive order.

5 NEW SECTION. **Sec. 7012.** FOR THE ARTS COMMISSION—ART WORK
6 ALLOWANCE. (1) One-half of one percent of moneys appropriated in this
7 act for original construction of school plant facilities is provided
8 solely for the purposes of RCW 28A.335.210.

9 (2) One-half of one percent of moneys appropriated in this act
10 for original construction or any major renovation or remodel work
11 exceeding \$200,000 by colleges or universities is provided solely for
12 the purposes of RCW 28B.10.027.

13 (3) One-half of one percent of moneys appropriated in this act
14 for original construction of any public building by a state agency
15 identified in RCW 43.17.200 is provided solely for the purposes of
16 RCW 43.17.200.

17 (4) At least eighty percent of the moneys spent by the Washington
18 state arts commission during the 2019-2021 biennium for the purposes
19 of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended solely
20 for direct acquisition of works of art. Art allocations not expended
21 within the ensuing two biennia will lapse. The commission may use up
22 to \$200,000 of this amount to conserve or maintain existing pieces in
23 the state art collection.

24 NEW SECTION. **Sec. 7013.** To carry out the provisions of this
25 act, the governor may assign responsibility for predesign, design,
26 construction, and other related activities to any appropriate agency.

27 NEW SECTION. **Sec. 7014.** If any federal moneys appropriated by
28 this act for capital projects are not received by the state, the
29 department or agency to which the moneys were appropriated may
30 replace the federal moneys with funds available from private or local
31 sources. No replacement may occur under this section without the
32 prior approval of the director of financial management in
33 consultation with the senate ways and means committee and the house
34 of representatives capital budget committee.

35 NEW SECTION. **Sec. 7015.** (1) Unless otherwise stated, for all
36 appropriations under this act that require a match of nonstate money

1 or in-kind contributions, the following requirement, consistent with
2 RCW 43.88.150, shall apply: Expenditures of state money shall be
3 timed so that the state share of project expenditures never exceeds
4 the intended state share of total project costs.

5 (2) Provision of the full amount of required matching funds is
6 not required to permit the expenditure of capital budget
7 appropriations for phased projects if a proportional amount of the
8 required matching funds is provided for each distinct, identifiable
9 phase of the project.

10 NEW SECTION. **Sec. 7016.** NONTAXABLE AND TAXABLE BOND PROCEEDS.
11 Portions of the appropriation authority granted by this act from the
12 state building construction account, or any other account receiving
13 bond proceeds, may be transferred to the state taxable building
14 construction account as deemed necessary by the state finance
15 committee to comply with the federal internal revenue service rules
16 and regulations pertaining to the use of nontaxable bond proceeds.
17 Portions of the general obligation bond proceeds authorized by
18 chapter 3, Laws of 2018, (House Bill No. 1080, the general obligation
19 bond bill) for deposit into the state taxable building construction
20 account that are in excess of amounts required to comply with the
21 federal internal revenue service rules and regulations shall be
22 deposited into the state building construction account. The state
23 treasurer shall submit written notification to the director of
24 financial management if it is determined that a shift of
25 appropriation authority between the state building construction
26 account, or any other account receiving bond proceeds, and the state
27 taxable building construction account is necessary, or that a shift
28 of appropriation authority from the state taxable building
29 construction account to the state building construction account may
30 be made.

31 NEW SECTION. **Sec. 7017.** (1) Minor works project lists are
32 single line appropriations that include multiple projects of a
33 similar nature and that are valued between \$25,000 and \$1,000,000
34 each, with the exception of higher education minor works projects
35 that may be valued up to \$2,000,000. Funds appropriated in this act
36 for minor works may not be initially allotted until agencies submit
37 project lists to the office of financial management for review and
38 approval.

1 (2) Revisions to the project lists, including the addition of
2 projects and the transfer of funds between projects, are allowed but
3 must be submitted to the office of financial management, the house of
4 representatives capital budget committee, and the senate ways and
5 means committee for review and comment, and must include an
6 explanation of variances from prior lists. Any project list revisions
7 must be approved by the office of financial management before funds
8 may be expended from the minor works appropriation.

9 (3) (a) All minor works projects should be completed within two
10 years of the appropriation with the funding provided.

11 (b) Agencies are prohibited from including projects on their
12 minor works lists that are a phase of a larger project, and that if
13 combined over a continuous period of time, would exceed \$1,000,000,
14 or \$2,000,000 for higher education minor works projects.

15 (c) Minor works appropriations may not be used for the following:
16 Studies, except for technical or engineering reviews or designs that
17 lead directly to and support a project on the same minor works list;
18 planning; design outside the scope of work on a minor works list;
19 movable, temporary, and traditionally funded operating equipment not
20 in compliance with the equipment criteria established by the office
21 of financial management; software not dedicated to control of a
22 specialized system; moving expenses; land or facility acquisition;
23 rolling stock; computers; or to supplement funding for projects with
24 funding shortfalls unless expressly authorized. The office of
25 financial management may make an exception to the limitations
26 described in this subsection (3) (c) for exigent circumstances after
27 notifying the legislative fiscal committees and waiting ten days for
28 comments by the legislature regarding the proposed exception.

29 (d) Minor works preservation projects may include program
30 improvements of no more than twenty-five percent of the individual
31 minor works preservation project cost.

32 (e) Improvements for accessibility in compliance with the
33 Americans with disabilities act may be included in any of the minor
34 works categories.

35 NEW SECTION. **Sec. 7018. FOR THE STATE TREASURER—TRANSFERS**

36 (1) Public Works Assistance Account: For transfer
37 to the water pollution control revolving account, up to
38 \$6,000,000 for fiscal year 2020 and up to \$6,000,000 for
39 fiscal year 2021 \$12,000,000

1 (2) Public Works Assistance Account: For transfer
2 to the drinking water assistance account, up to
3 \$5,500,000 for fiscal year 2020 and up to \$5,500,000 for
4 fiscal year 2021 \$11,000,000

5 (3) (a) Public Works Assistance Account: For transfer
6 to the statewide broadband account, \$12,500,000 for fiscal
7 year 2020 and \$12,500,000 for fiscal year 2021. \$25,000,000

8 (b) The transfer identified in this subsection is contingent upon
9 the enactment of chapter . . ., Laws of 2019 (Third Substitute House
10 Bill No. 1498) by June 30, 2019.

11 NEW SECTION. **Sec. 7019. STATE TREASURER TRANSFER AUTHORITY**

12 Local Toxics Control Account: For transfer
13 to the Environmental Legacy Stewardship Account,
14 \$4,900,000 for fiscal year 2020 and \$4,900,000
15 for fiscal year 2021 \$9,800,000

16 Local Toxics Control Account: For transfer to the
17 state toxics control account, \$18,200,000 for fiscal year
18 2020 and \$18,200,000 for fiscal year 2021 \$36,400,000

19 (1) (a) As directed by the department of ecology, in consultation
20 with the office of financial management, the state treasurer shall
21 transfer amounts among the state toxics control account, the local
22 toxics control account, and the environmental legacy stewardship
23 account as needed during the 2019-2021 fiscal biennium to maintain
24 positive account balances in all three accounts.

25 (b) If, after using the interfund transfer authority granted in
26 this section, the department of ecology determines that further
27 reductions are needed to maintain positive account balances in the
28 state toxics control account, the local toxics control account, and
29 the environmental legacy stewardship account, the department is
30 authorized to delay the start of any capital projects based on acuity
31 of need, readiness to proceed, cost-efficiency, purposes of
32 increasing affordable housing, or need to ensure geographic
33 distribution. If the department uses this authority, the department
34 must submit a prioritized list of projects that may be delayed to the
35 office of financial management and the appropriate fiscal committees
36 of the legislature.

37 (2) As directed by the pollution liability insurance agency in
38 consultation with the office of financial management, the state

1 treasurer shall transfer from the pollution liability insurance
2 program trust account to the underground storage tank revolving
3 account the lesser of \$20,000,000 or the balance of the fund
4 exceeding \$7,500,000 after excluding the reserves during the
5 2019-2021 fiscal biennium.

6 NEW SECTION. **Sec. 7020.** To the extent that any appropriation
7 authorizes expenditures of state funds from the state building
8 construction account, or from any other capital project account in
9 the state treasury, for a capital project or program that is
10 specified to be funded with proceeds from the sale of bonds, the
11 legislature declares that any such expenditures for that project or
12 program made prior to the issue date of the applicable bonds are
13 intended to be reimbursed from proceeds of those bonds in a maximum
14 amount equal to the amount of such appropriation.

15 NEW SECTION. **Sec. 7021.** The department of enterprise services,
16 in consultation with the office of financial management, is granted
17 the authority to sell the property known as the Tacoma Rhodes complex
18 for no less than fair market value. The price must cover appraisal
19 costs, all debt service, all closing costs, and the cost of
20 outstanding liabilities necessary to keep the department whole. The
21 property consists of the Broadway building, market building, and
22 parking garage. The terms and conditions of the sale must meet the
23 business needs of the state tenants.

24 NEW SECTION. **Sec. 7022.** (1) The department of natural resources
25 must conduct an asset valuation of state lands and state forestlands
26 held in trust and managed by the department. The analysis required in
27 subsections (3) and (4) of this section may be provided through
28 contracted services.

29 (2) The department must describe all trust lands, by trust,
30 including timber lands, agricultural lands, commercial lands, and
31 other lands, and identify revenues from leases or other sources for
32 those lands. The department must briefly describe the income from
33 these trust lands, and potential enhancements to income, including
34 intergenerational income, from the asset bases of these trusts.

35 (3) The analysis must estimate the current fair market value of
36 these lands for each trust beneficiary, including the separate
37 beneficiaries of state lands as defined in RCW 79.02.010, and the

1 beneficiaries of state forestlands as specified in chapter 79.22 RCW.
2 The estimation of current fair market values must specify the values
3 by the various asset classes including, but not limited to, the
4 following asset classes: Timber lands; irrigated agriculture; dryland
5 agriculture, including grazing lands; commercial real estate; mining;
6 and other income production. The analysis must also estimate the
7 value of ecosystem services and recreation benefits for asset classes
8 that produce these benefits. The legislature encourages the
9 department and its contractors to develop methods and tools to allow
10 tracking of the estimated fair market values over time.

11 (4) For each of the different asset classes and for each of the
12 various trusts, the analysis must calculate the average annual gross
13 and net income as a percentage of estimated current asset value.

14 (5) The department must provide a progress report to the
15 legislature by December 1, 2019, which may include any initial
16 recommendations. The final report must be submitted by June 30, 2020,
17 and must include options to:

18 (a) Improve the net rates of return on different classes of
19 assets;

20 (b) Increase the reliability of, and enhance if possible, revenue
21 for trust beneficiaries; and

22 (c) Present and explain factors that either (i) define, (ii)
23 constrict, or (iii) define and constrict the department's management
24 practices and revenue production. The factors to be considered
25 include, but are not limited to, statutory, constitutional,
26 operational, and social factors.

27 **Sec. 7023.** RCW 28B.15.210 and 2017 3rd sp.s. c 1 s 952 are each
28 amended to read as follows:

29 Within thirty-five days from the date of collection thereof, all
30 building fees at the University of Washington, including building
31 fees to be charged students registering in the schools of medicine
32 and dentistry, shall be paid into the state treasury and credited as
33 follows:

34 One-half or such larger portion as may be necessary to prevent a
35 default in the payments required to be made out of the bond
36 retirement fund to the "University of Washington bond retirement
37 fund" and the remainder thereof to the "University of Washington
38 building account." The sum so credited to the University of
39 Washington building account shall be used exclusively for the purpose

1 of erecting, altering, maintaining, equipping, or furnishing
2 buildings, and for certificates of participation under chapter 39.94
3 RCW, except for any sums transferred as authorized in RCW
4 28B.20.725(3). The sum so credited to the University of Washington
5 bond retirement fund shall be used for the payment of principal of
6 and interest on bonds outstanding as provided by chapter 28B.20 RCW
7 except for any sums transferred as authorized in RCW 28B.20.725(5).
8 (~~During the 2015-2017 biennium, sums credited to the University of~~
9 ~~Washington building account shall also be used for routine facility~~
10 ~~maintenance, utility costs, and facility condition assessments.))
11 During the 2017-2019 biennium, sums credited to the University of
12 Washington building account (~~shall~~) may also be used for routine
13 facility maintenance, utility costs, and facility condition
14 assessments. During the 2019-2021 biennium, sums credited to the
15 University of Washington building account may also be used for
16 routine facility maintenance, utility costs, and facility condition
17 assessments.~~

18 **Sec. 7024.** RCW 28B.15.310 and 2017 3rd sp.s. c 1 s 953 are each
19 amended to read as follows:

20 Within thirty-five days from the date of collection thereof, all
21 building fees shall be paid and credited as follows: To the
22 Washington State University bond retirement fund, one-half or such
23 larger portion as may be necessary to prevent a default in the
24 payments required to be made out of such bond retirement fund; and
25 the remainder thereof to the Washington State University building
26 account.

27 The sum so credited to the Washington State University building
28 account shall be expended by the board of regents for buildings,
29 equipment, or maintenance on the campus of Washington State
30 University as may be deemed most advisable and for the best interests
31 of the university, and for certificates of participation under
32 chapter 39.94 RCW, except for any sums transferred as authorized by
33 law. (~~During the 2015-2017 biennium, sums credited to the Washington~~
34 ~~State University building account shall also be used for routine~~
35 ~~facility maintenance, utility costs, and facility condition~~
36 ~~assessments.)) During the 2017-2019 biennium, sums credited to the
37 Washington State University building account (~~shall~~) may also be
38 used for routine facility maintenance, utility costs, and facility
39 condition assessments. During the 2019-2021 biennium, sums credited~~

1 to the Washington State University building account may also be used
2 for routine facility maintenance, utility costs, and facility
3 condition assessments. Expenditures so made shall be accounted for in
4 accordance with existing law and shall not be expended until
5 appropriated by the legislature.

6 The sum so credited to the Washington State University bond
7 retirement fund shall be used to pay and secure the payment of the
8 principal of and interest on building bonds issued by the university,
9 except for any sums which may be transferred out of such fund as
10 authorized by law.

27 **Sec. 7029.** RCW 28B.77.070 and 2018 c 298 s 7014 are each amended
28 to read as follows:

29 (1) The council shall identify budget priorities and levels of
30 funding for higher education, including the two and four-year
31 institutions of higher education and state financial aid programs. It
32 is the intent of the legislature for the council to make budget
33 recommendations for allocations for major policy changes in
34 accordance with priorities set forth in the ten-year plan, but the
35 legislature does not intend for the council to review and make
36 recommendations on individual institutional budgets. It is the intent
37 of the legislature that recommendations from the council prioritize
38 funding needs for the overall system of higher education in
39 accordance with priorities set forth in the ten-year plan. It is also

1 the intent of the legislature that the council's recommendations take
2 into consideration the total per-student funding at similar public
3 institutions of higher education in the global challenge states.

4 (2) By December of each odd-numbered year, the council shall
5 outline the council's fiscal priorities under the ten-year plan that
6 it must distribute to the institutions, the state board for community
7 and technical colleges, the office of financial management, and the
8 joint higher education committee.

9 (a) Capital budget outlines for the two-year institutions shall
10 be submitted to the office of financial management by August 15th of
11 each even-numbered year, and shall include the prioritized ranking of
12 the capital projects being requested, a description of each capital
13 project, and the amount and fund source being requested.

14 (b) Capital budget outlines for the four-year institutions must
15 be submitted to the office of financial management by August 15th of
16 each even-numbered year, and must include: The institutions' priority
17 ranking of the project; the capital budget category within which the
18 project will be submitted to the office of financial management in
19 accordance with RCW 43.88D.010; a description of each capital
20 project; and the amount and fund source being requested.

21 (c) The office of financial management shall reference these
22 reporting requirements in its budget instructions.

23 (3) The council shall submit recommendations on the operating
24 budget priorities to support the ten-year plan to the office of
25 financial management by October 1st each year, and to the legislature
26 by January 1st each year.

27 (4)(a) The office of financial management shall develop one
28 prioritized list of capital projects for the legislature to consider
29 that includes all of the projects requested by the four-year
30 institutions of higher education that were scored by the office of
31 financial management pursuant to chapter 43.88D RCW, including
32 projects that were previously scored but not funded. The prioritized
33 list of capital projects shall be based on the following priorities
34 in the following order:

35 (i) Office of financial management scores pursuant to chapter
36 43.88D RCW;

37 (ii) Preserving assets;

38 (iii) Degree production; and

39 (iv) Maximizing efficient use of instructional space.

1 (b) The office of financial management shall include all of the
2 capital projects requested by the four-year institutions of higher
3 education, except for the minor works projects, in the prioritized
4 list of capital projects provided to the legislature.

5 (c) The form of the prioritized list for capital projects
6 requested by the four-year institutions of higher education shall be
7 provided as one list, ranked in priority order with the highest
8 priority project ranked number "1" through the lowest priority
9 project numbered last. The ranking for the prioritized list of
10 capital projects may not:

11 (i) Include subpriorities;

12 (ii) Be organized by category;

13 (iii) Assume any state bond or building account biennial funding
14 level to prioritize the list; or

15 (iv) Assume any specific share of projects by institution in the
16 priority list.

17 (5) Institutions and the state board for community and technical
18 colleges shall submit any supplemental capital budget requests and
19 revisions to the office of financial management by November 1st and
20 to the legislature by January 1st.

21 (6) For the 2017-2019 fiscal biennium and the 2019-2021 fiscal
22 biennium, pursuant to subsection (4) of this section, the office of
23 financial management may, but is not obligated to, develop one
24 prioritized list of capital projects for the legislature to consider
25 that includes all of the projects requested by the four-year
26 institutions of higher education that were scored by the office of
27 financial management pursuant to chapter 43.88D RCW, including
28 projects that were previously scored but not funded.

29 **Sec. 7030.** RCW 43.63A.125 and 2011 1st sp.s. c 48 s 7027 are
30 each amended to read as follows:

31 (1) The department shall establish the building communities fund
32 program. Under the program, capital and technical assistance grants
33 may be made to nonprofit organizations for acquiring, constructing,
34 or rehabilitating facilities used for the delivery of nonresidential
35 community services, including social service centers and multipurpose
36 community centers, including those serving a distinct or ethnic
37 population. Such facilities must be located in a distressed community
38 or serve a substantial number of low-income or disadvantaged persons.

1 (2) The department shall establish a competitive process to
2 solicit, evaluate, and rank applications for the building communities
3 fund program as follows:

4 (a) The department shall conduct a statewide solicitation of
5 project applications from nonprofit organizations.

6 (b) The department shall evaluate and rank applications in
7 consultation with a citizen advisory committee using objective
8 criteria. To be considered qualified, applicants must demonstrate
9 that the proposed project:

10 (i) Will increase the range, efficiency, or quality of the
11 services provided to citizens;

12 (ii) Will be located in a distressed community or will serve a
13 substantial number of low-income or disadvantaged persons;

14 (iii) Will offer three or more distinct activities that meet a
15 single community service objective or offer a diverse set of
16 activities that meet multiple community service objectives, including
17 but not limited to: Providing social services; expanding employment
18 opportunities for or increasing the employability of community
19 residents; or offering educational or recreational opportunities
20 separate from the public school system or private schools, as long as
21 recreation is not the sole purpose of the facility;

22 (iv) Reflects a long-term vision for the development of the
23 community, shared by residents, businesses, leaders, and partners;

24 (v) Requires state funding to accomplish a discrete, usable phase
25 of the project;

26 (vi) Is ready to proceed and will make timely use of the funds;

27 (vii) Is sponsored by one or more entities that have the
28 organizational and financial capacity to fulfill the terms of the
29 grant agreement and to maintain the project into the future;

30 (viii) Fills an unmet need for community services;

31 (ix) Will achieve its stated objectives; and

32 (x) Is a community priority as shown through tangible commitments
33 of existing or future assets made to the project by community
34 residents, leaders, businesses, and government partners.

35 (c) The evaluation and ranking process shall also include an
36 examination of existing assets that applicants may apply to projects.
37 Grant assistance under this section shall not exceed twenty-five
38 percent of the total cost of the project, except, under exceptional
39 circumstances, the department may reduce the amount of nonstate match
40 required. However, during the 2019-2021 biennium, the legislature may

1 waive the match required for projects specified in section 1009 of
2 this act. No more than ten percent of the total granted amount may be
3 awarded to qualified eligible projects that meet the definition of
4 exceptional circumstances defined in this subsection. For purposes of
5 this subsection, exceptional circumstances include but are not
6 limited to: Natural disasters affecting projects; emergencies beyond
7 an applicant's control, such as a fire or an unanticipated loss of a
8 lease where services are currently provided; or a delay that could
9 result in a threat to public health or safety. The nonstate portion
10 of the total project cost may include cash, the value of real
11 property when acquired solely for the purpose of the project, and in-
12 kind contributions.

13 (d) The department may not set a monetary limit to funding
14 requests.

15 (3) The department shall submit biennially to the governor and
16 the legislature in the department's capital budget request a ranked
17 list of the qualified eligible projects for which applications were
18 received. The list must include a description of each project, its
19 total cost, and the amount of state funding requested. The
20 appropriate fiscal committees of the legislature shall use this list
21 to determine building communities fund projects that may receive
22 funding in the capital budget. The total amount of state capital
23 funding available for all projects on the biennial list shall be
24 determined by the capital budget beginning with the 2009-2011
25 biennium and thereafter. In addition, if cash funds have been
26 appropriated, up to three million dollars may be used for technical
27 assistance grants. The department shall not sign contracts or
28 otherwise financially obligate funds under this section until the
29 legislature has approved a specific list of projects.

30 (4) In addition to the list of ranked qualified eligible
31 projects, the department shall submit to the appropriate fiscal
32 committees of the legislature a summary report that describes the
33 solicitation and evaluation processes, including but not limited to
34 the number of applications received, the total amount of funding
35 requested, issues encountered, if any, and any recommendations for
36 process improvements.

37 (5) After the legislature has approved a specific list of
38 projects in law, the department shall develop and manage appropriate
39 contracts with the selected applicants; monitor project expenditures
40 and grantee performance; report project and contract information; and

1 exercise due diligence and other contract management responsibilities
2 as required.

3 (6) In contracts for grants authorized under this section the
4 department shall include provisions which require that capital
5 improvements shall be held by the grantee for a specified period of
6 time appropriate to the amount of the grant and that facilities shall
7 be used for the express purpose of the grant. If the grantee is found
8 to be out of compliance with provisions of the contract, the grantee
9 shall repay to the state general fund the principal amount of the
10 grant plus interest calculated at the rate of interest on state of
11 Washington general obligation bonds issued most closely to the date
12 of authorization of the grant.

13 **Sec. 7031.** RCW 43.88D.010 and 2018 c 298 s 7013 are each amended
14 to read as follows:

15 (1) By October 1st of each even-numbered year, the office of
16 financial management shall complete an objective analysis and scoring
17 of all capital budget projects proposed by the public four-year
18 institutions of higher education and submit the results of the
19 scoring process to the legislative fiscal committees and the four-
20 year institutions. Each project must be reviewed and scored within
21 one of the following categories, according to the project's principal
22 purpose. Each project may be scored in only one category. The
23 categories are:

24 (a) Access-related projects to accommodate enrollment growth at
25 all campuses, at existing or new university centers, or through
26 distance learning. Growth projects should provide significant
27 additional student capacity. Proposed projects must demonstrate that
28 they are based on solid enrollment demand projections, more
29 cost-effectively provide enrollment access than alternatives such as
30 university centers and distance learning, and make cost-effective use
31 of existing and proposed new space;

32 (b) Projects that replace failing permanent buildings. Facilities
33 that cannot be economically renovated are considered replacement
34 projects. New space may be programmed for the same or a different use
35 than the space being replaced and may include additions to improve
36 access and enhance the relationship of program or support space;

37 (c) Projects that renovate facilities to restore building life
38 and upgrade space to meet current program requirements. Renovation
39 projects should represent a complete renovation of a total facility

1 or an isolated wing of a facility. A reasonable renovation project
2 should cost between sixty to eighty percent of current replacement
3 value and restore the renovated area to at least twenty-five years of
4 useful life. New space may be programmed for the same or a different
5 use than the space being renovated and may include additions to
6 improve access and enhance the relationship of program or support
7 space;

8 (d) Major stand-alone campus infrastructure projects;

9 (e) Projects that promote economic growth and innovation through
10 expanded research activity. The acquisition and installation of
11 specialized equipment is authorized under this category; and

12 (f) Other project categories as determined by the office of
13 financial management in consultation with the legislative fiscal
14 committees.

15 (2) The office of financial management, in consultation with the
16 legislative fiscal committees, shall establish a scoring system and
17 process for each four-year project category that is based on the
18 framework used in the community and technical college system of
19 prioritization. Staff from the state board for community and
20 technical colleges and the four-year institutions shall provide
21 technical assistance on the development of a scoring system and
22 process.

23 (3) The office of financial management shall consult with the
24 legislative fiscal committees in the scoring of four-year institution
25 project proposals, and may also solicit participation by independent
26 experts.

27 (a) For each four-year project category, the scoring system must,
28 at a minimum, include an evaluation of enrollment trends,
29 reasonableness of cost, the ability of the project to enhance
30 specific strategic master plan goals, age and condition of the
31 facility if applicable, and impact on space utilization.

32 (b) Each four-year project category may include projects at the
33 predesign, design, or construction funding phase.

34 (c) To the extent possible, the objective analysis and scoring
35 system of all capital budget projects shall occur within the context
36 of any and all performance agreements between the office of financial
37 management and the governing board of a public, four-year institution
38 of higher education that aligns goals, priorities, desired outcomes,
39 flexibility, institutional mission, accountability, and levels of
40 resources.

1 (4) In evaluating and scoring four-year institution projects, the
2 office of financial management shall take into consideration project
3 schedules that result in realistic, balanced, and predictable
4 expenditure patterns over the ensuing three biennia.

5 (5) The office of financial management shall distribute common
6 definitions, the scoring system, and other information required for
7 the project proposal and scoring process as part of its biennial
8 budget instructions. The office of financial management, in
9 consultation with the legislative fiscal committees, shall develop
10 common definitions that four-year institutions must use in developing
11 their project proposals and lists under this section.

12 (6) In developing any scoring system for capital projects
13 proposed by the four-year institutions, the office of financial
14 management:

15 (a) Shall be provided with all required information by the four-
16 year institutions as deemed necessary by the office of financial
17 management;

18 (b) May utilize independent services to verify, sample, or
19 evaluate information provided to the office of financial management
20 by the four-year institutions; and

21 (c) Shall have full access to all data maintained by the joint
22 legislative audit and review committee concerning the condition of
23 higher education facilities.

24 (7) By August 1st of each even-numbered year each public four-
25 year higher education institution shall prepare and submit
26 prioritized lists of the individual projects proposed by the
27 institution for the ensuing six-year period in each category. The
28 lists must be submitted to the office of financial management and the
29 legislative fiscal committees. The four-year institutions may
30 aggregate minor works project proposals by primary purpose for
31 ranking purposes. Proposed minor works projects must be prioritized
32 within the aggregated proposal, and supporting documentation,
33 including project descriptions and cost estimates, must be provided
34 to the office of financial management and the legislative fiscal
35 committees.

36 (8) For the 2017-2019 fiscal biennium and the 2019-2021 fiscal
37 biennium, pursuant to subsection (1) of this section, by November 1,
38 (~~2018~~) 2020, the office of financial management must score higher
39 education capital project criteria with a rating scale that assesses
40 how well a particular project satisfies those criteria. The office of

1 financial management may not use a rating scale that weighs the
2 importance of those criteria.

3 (9) For the 2017-2019 fiscal biennium and the 2019-2021 fiscal
4 biennium, pursuant to subsection (6)(a) of this section and in lieu
5 of the requirements of subsection (7) of this section, by August 15,
6 (~~2018~~) 2020, the institutions of higher education shall prepare and
7 submit or resubmit to the office of financial management and the
8 legislative fiscal committees:

9 (a) Individual project proposals developed pursuant to subsection
10 (1) of this section;

11 (b) Individual project proposals scored in prior biennia pursuant
12 to subsection (1) of this section; and

13 (c) A prioritized list of up to five project proposals submitted
14 pursuant to (a) and (b) of this subsection.

15 **Sec. 7032.** RCW 43.155.050 and 2017 3rd sp.s. c 10 s 5 and 2017
16 3rd sp.s. c 1 s 974 are each reenacted and amended to read as
17 follows:

18 The public works assistance account is hereby established in the
19 state treasury. Money may be placed in the public works assistance
20 account from the proceeds of bonds when authorized by the legislature
21 or from any other lawful source. Money in the public works assistance
22 account shall be used to make loans and grants and to give financial
23 guarantees to local governments for public works projects. Moneys in
24 the account may also be appropriated or transferred to the water
25 pollution control revolving account [fund] and the drinking water
26 assistance account to provide for state match requirements under
27 federal law. Not more than twenty percent of the biennial capital
28 budget appropriation to the public works board from this account may
29 be expended or obligated for preconstruction loans and grants,
