14 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

15 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted
16 and, subject to the provisions set forth in this act, the several
17 dollar amounts hereinafter specified, or so much thereof as shall be
18 sufficient to accomplish the purposes designated, are hereby
19 appropriated and authorized to be incurred for capital projects
20 during the period beginning with the effective date of this act and
21 ending June 30, 2025, out of the several funds specified in this act.

1 (2) The definitions in this subsection apply throughout this act
2 unless the context clearly requires otherwise.

3 (a) "Fiscal year 2024" or "FY 2024" means the period beginning
4 July 1, 2023, and ending June 30, 2024.

5 (b) "Fiscal year 2025" or "FY 2025" means the period beginning
6 July 1, 2024, and ending June 30, 2025.

7 (c) "Lapse" or "revert" means the amount shall return to an
8 unappropriated status.

9 (d) "Provided solely" means the specified amount may be spent
10 only for the specified purpose.

11 (3) Unless otherwise specifically authorized in this act, any
12 portion of an amount provided solely for a specified purpose that is
13 not expended subject to the specified conditions and limitations to
14 fulfill the specified purpose shall lapse.

15 (4) The amounts shown under the headings "Prior Biennia," "Future
16 Biennia," and "Total" in this act are for informational purposes only
17 and do not constitute legislative approval of these amounts. "Prior
18 biennia" typically refers to the immediate prior biennium for
19 reappropriations, but may refer to multiple biennia in the case of
20 specific projects. A "future biennia" amount is an estimate of what
21 may be appropriated for the project or program in the 2025-2027
22 biennium and the following three biennia; an amount of zero does not
23 necessarily constitute legislative intent to not provide funding for
24 the project or program in the future.

25 (5) "Reappropriations" in this act are appropriations and, unless
26 the context clearly provides otherwise, are subject to the relevant
27 conditions and limitations applicable to appropriations.
28 Reappropriations shall be limited to the unexpended balances
29 remaining on June 30, 2023, from the 2021-2023 biennial
30 appropriations for each project.

8 The appropriations in this section are subject to the provisions
9 of section 7013 of this act and the following conditions:

23 provide state match only for projects where the lead applicant is a
24 public entity.

25 (5) When soliciting and selecting competitive applications for
26 grant funds under this section, the board:

17 subsection (3) of this section, using objective criteria. The ranking
18 of projects must prioritize library district facilities listed on a
19 local, state, or federal register of historic places and those
20 located in distressed or rural counties. The evaluation and ranking
21 process must also include an examination of existing assets that
22 applicants propose to apply to projects. Grant assistance under this
23 section may not exceed 50 percent of the total cost of the project.
24 The nonstate portion of the total project cost may include cash, the
25 value of real property when acquired solely for the purpose of the
26 project, and in-kind contributions.

37 improvements be held by the grantee for a specified period of time
38 appropriate to the amount of the grant and that facilities be used
39 for the express purpose of the grant. If the grantee is found to be

1 out of compliance with provisions of the contract, the grantee must
2 repay to the state general fund the principal amount of the grant
3 plus interest calculated at the rate of interest on state of
4 Washington general obligation bonds issued on the date most close in
5 time to the date of authorization of the grant.

6 (7) The department must assist grant recipients under this
7 section to apply for applicable competitive federal grant funding

4 2023-25 Broadband Infrastructure Federal Match Projects
5 (40000290)

6 The appropriations in this section are subject to the following
7 conditions and limitations:

8 (1) (a) \$25,000,000 of the state building construction account—
9 state appropriation in this section is provided solely as match for
10 federal authority allocated under this section and section 7017 of
11 this act for the statewide broadband office to administer the
12 broadband equity, access, and deployment state grants program in
13 section 60102 of P.L. 117-58 (infrastructure investment and jobs
14 act). Expenditure of the amount in this subsection is contingent on
15 the receipt of this grant funding.

16 (b) To the extent permitted by federal law, the office shall
17 provide state match only for projects where the lead applicant is a
18 public entity.

19 (2) When soliciting and selecting competitive applications for
20 grant funds under this section, the statewide broadband office:

21 (a) To the extent permitted by federal law, may only award
22 federal or state funding to a project that will result in the
23 construction or improvement of open-access broadband infrastructure
24 that remains open access for the useful life of the subsidized
25 project. For the purposes of this section "open-access" means an
26 arrangement in which the subgrantee offers nondiscriminatory access
27 to and use of its network on a wholesale basis to other providers
28 seeking to provide broadband service to end-user locations, at rates
29 that include a discount from the provider's retail rates reflecting
30 the costs that the subgrantee avoids by not providing retail service
31 to the end user location; and

32 (b) Is encouraged to require a larger matching contribution from
33 applicants that are for-profit entities rather than using public
34 funds where it deems the applicant capable of providing matching
35 funds. The office must incentivize matching fund contributions
36 greater than 25 percent from applicants whenever feasible.

37 (3) The statewide broadband office must include, in the five-year
38 action plan developed using initial planning funds from the broadband

1 equity, access, and deployment program funded under P.L. 117-58
2 (infrastructure investment and jobs act):

3 (a) Consideration of broadband infrastructure projects that use
4 wireless technology in order to expand access at the lowest cost to
5 the most unserved or underserved residents;

6 (b) A challenge process that includes provisions that prohibit a
7 broadband service provider from receiving any state matching funds or
8 federal broadband equity, access, and deployment program funding that
9 is distributed by the office, the community economic revitalization
10 board, or the public works board for a period of three years
11 following the submission of the challenge in cases where:

12 (i) The service provider challenges a proposed project in
13 accordance with the challenge process established by the office and
14 the challenge is found to be unsubstantiated by the office, the
15 community economic revitalization board, or the public works board;
16 or

17 (ii) The broadband office, the community economic revitalization
18 board, or the public works board denies funding to another project
19 based on a substantiated challenge and the challenging service
20 provider does not demonstrate efforts to begin construction of a
21 broadband service project capable of delivering service at speeds
22 required by the office at the challenged service addresses within 12
23 months of the challenge or within 18 months of the challenge if
24 extended by the office; and

25 (c) Steps the office will take to promote: The use of existing
26 infrastructure; dig-once policies; streamlined permitting processes;
27 and cost-effective access to poles, conduits, easements, and rights-
28 of-way. To the extent permitted under federal law, the office must
29 consider creating a pool of grant funds dedicated to pole costs.

30 (4) \$300,000 of the general fund—federal appropriation provided
31 in this section is for a staff position dedicated to advising the
32 statewide broadband office on the availability and feasibility of
33 deploying new and emerging technologies in broadband internet
34 service.

25 state that have not received funding for low-income weatherization
26 programs, targeting hard to reach market segments;

27 (b) Leverage funding from community energy efficiency program
28 sponsors in an amount greater than or equal to the amount provided by
29 the state through the weatherization program;

35 and monitoring projects under this section, the department must:

36 (a) Ensure that competitive processes, rather than sole source
37 contracting processes, are used to select all projects, except as

31 income is up to 80 percent of the area median income, adjusted for
32 household size, for the county where the property is located are
33 eligible to apply, except that projects located in rural areas of the
34 state, as defined by the department, serving homebuyers whose income
35 is up to 100 percent of the area median income, adjusted for
36 household size, for the county where the property is located are
37 eligible to apply. Eligible activities include, but are not limited
38 to, down payment assistance, closing costs, acquisition,
39 rehabilitation costs, and new construction. Eligible organizations

1 may include those that plan to provide housing to socially
2 disadvantaged communities as defined in 13 C.F.R. Sec. 124.103. The
3 department shall strive to invest at least 50 percent of these funds
4 with by and for organizations, as defined by the office of equity,
5 and make efforts to enact the recommendations of the homeownership
6 disparities work group created in section 128(100), chapter 297, Laws
7 of 2022. In addition to the definition in RCW 43.185A.010, for the
8 purposes of awarding funds to homeownership projects during the
9 2023-2025 fiscal biennium, "first-time home buyer" also includes:

10 (a) A single parent who has only owned a home with a former
11 spouse while married;

12 (b) An individual who is a displaced homemaker as defined in 24
13 C.F.R. Sec. 93.2 as it existed on the effective date of this section,
14 or such subsequent date as may be provided by the department by rule,
15 consistent with the purposes of this section, and who has only owned
16 a home with a spouse;

17 (c) An individual who has only owned a principal residence not
18 permanently affixed to a permanent foundation in accordance with
19 applicable regulations; or

20 (d) An individual who has only owned a property that is discerned
21 by a licensed building inspector as being uninhabitable.

22 (5) \$25,000,000 of the state building construction account—state
23 appropriation is provided solely for affordable housing preservation
24 projects, which may include, but are not limited to:

25 (a) Projects preserving and extending the affordability
26 commitment period for projects in the housing trust fund portfolio.
27 The funds may be provided for major building improvements,
28 preservation, and system replacements, necessary for the existing
29 housing trust fund portfolio to maintain long-term viability. The
30 department must require a capital needs assessment be provided prior
31 to contract execution. Funds may not be used to add or expand the
32 capacity of the property. When allocating funds, the department must
33 prioritize buildings that are older than 15 years and that serve very
34 low-income and extremely low-income populations.

35 (b) Projects preserving affordable multifamily housing at risk of
36 losing its affordability due to expiration of use restrictions that
37 otherwise require affordability including, but not limited to, United
38 States department of agriculture funded multifamily housing. The
39 department must prioritize projects that satisfy the goal of long-
40 term preservation of Washington's affordable multifamily housing

1 stock, particularly in rural areas of the state. Funds may be used
2 for acquisition or for acquisition and rehabilitation of properties
3 to preserve the affordable housing units beyond their existing use
4 restrictions and keep them in Washington's housing portfolio for a
5 minimum of 40 years. If a capital needs assessment is required, the
6 department must work with the applicant to ensure that this does not
7 create an unnecessary impediment to rapidly accessing these funds.

8 (c) The funding provided under this subsection (5) is not subject
9 to the 90-day application periods in RCW 43.185.070 or 43.185A.050.

10 (d) The amount awarded under this subsection (5) may not be
11 calculated in award limitations for other housing trust fund awards.

12 (6) \$2,000,000 of the state taxable building construction account
13 —state appropriation is provided solely for a grant to the northwest
14 cooperative development center to provide subgrants for the
15 acquisition and preservation of mobile or manufactured home
16 communities. Funding provided under this subsection may be used to
17 acquire mobile or manufactured home communities for the purpose of
18 avoiding household displacement due to sale or other transactions and
19 ensuring preservation of housing affordability for low-income
20 households for a minimum of 40 years.

21 (7) \$2,000,000 of the state taxable building construction account
22 —state appropriation is provided solely for a grant to the northwest
23 cooperative development center to provide subgrants to organizations
24 that are "mobile home park cooperatives" or "manufactured housing
25 cooperatives" under RCW 59.20.030 for completing capital improvement
26 processes. Subgrants provided under this subsection may be used
27 solely for critical improvements, repairs, and infrastructure
28 upgrades to promote the preservation of mobile or manufactured home
29 communities as affordable housing. The grantee must award subgrants
30 based on needs relating to health, safety, and cost.

31 (8) \$11,500,000 of the state building construction account—state
32 appropriation is provided solely for the following list of projects:

33	Gravelly Lake Commons at LASA (Lakewood)	\$500,000
34	Leavenworth Affordable Workforce Rental Housing	
35	(Leavenworth)	\$1,000,000
36	Mary's Place Shelter Replacement (Burien)	\$6,000,000
37	Mount Zion Housing (Seattle)	\$1,000,000
38	Skyway Affordable Housing (Skyway)	\$3,000,000

1 (9) In evaluating projects in this section, the department must
2 give preference for applications based on some or all of the criteria
3 in RCW 43.185.070(5).

4 (10) The appropriations in this section are subject to the
5 following reporting requirements:

6 (a) The department must report on its website the following for
7 every previous funding cycle: The number of homeownership and
8 multifamily rental projects funded by housing trust fund moneys; the
9 percentage of housing trust fund investments made to homeownership
10 and multifamily rental projects; and the total number of households
11 being served at up to 80 percent of the area median income, up to 50
12 percent of the area median income, and up to 30 percent of the area
13 median income, for both homeownership and multifamily rental
14 projects.

15 (b) By November 1, 2023, and November 1, 2024, the department
16 must provide the legislature and the governor with a report of its
17 final cost data for each project under this section. Such cost data
18 must, at a minimum, include total development cost per unit for each
19 project completed within the past year, descriptive statistics such
20 as average and median per unit costs, regional cost variation, and
21 other costs that the department deems necessary to improve cost
22 controls and enhance understanding of development costs. The
23 department must coordinate with the housing finance commission to
24 identify relevant development costs data and ensure that the measures
25 are consistent across relevant agencies.

26 (11) The department shall strive to allocate at least 30 percent
27 of the funds provided in this section to projects located in rural
28 areas of the state, as defined by the department.

29 (12) The department must strive to allocate all of the amounts
30 appropriated in this section within the 2023-2025 fiscal biennium in
31 the manner prescribed in each subsection. However, if upon review of
32 applications the department determines there are not adequate
33 suitable projects in a category, the department may allocate funds to
34 other affordable housing projects serving other low-income and
35 special needs populations, provided those projects are located in an
36 area with an identified need for the type of housing proposed.

37 Appropriation:

38	Capital Community Assistance Account—State.	\$2,623,000

32 NEW SECTION. **Sec. 1025. FOR THE DEPARTMENT OF COMMERCE**

33 2023-25 Behavioral Health Community Capacity Grants (40000299)

34 The appropriation in this section is subject to the following
35 conditions and limitations:

1 (1) The appropriation in this section is provided solely for the
2 department to issue grants to community hospitals or other community
3 providers to expand and establish new capacity for behavioral health
4 services in communities. The department must consult an advisory
5 group consisting of representatives from the department of social and
6 health services, the health care authority, one representative from a
7 managed care organization, one representative from an accountable
8 care organization, and one representative from the association of
9 county human services. Amounts provided in this section may be used
10 for construction and equipment costs associated with establishment or
11 preservation of the facilities. The department may approve funding
12 for the acquisition of a facility if the project will result in
13 increased behavioral health capacity. Amounts provided in this
14 section may not be used for operating costs associated with the
15 treatment of patients using these services.

16 (2) In awarding funding for projects in subsection (5) of this
17 section, the department must establish criteria for the issuance of
18 the grants, which must include:

19 (a) Evidence that the application was developed in collaboration
20 with one or more regional behavioral health entities that administer
21 the purchasing of services;

22 (b) Evidence that the applicant has assessed and would meet gaps
23 in geographical availability of behavioral health services in their
24 region;

25 (c) Evidence that the applicant is able to meet applicable
26 licensing and certification requirements in the facility that will be
27 used to provide services;

28 (d) A commitment by applicants to serve persons who are publicly
29 funded and persons detained for involuntary commitment under chapter
30 71.05 RCW;

31 (e) A commitment by the applicant to maintain and operate the
32 beds or facility for a time period commensurate to the state
33 investment, but for at least a 10-year period;

34 (f) The date upon which structural modifications or construction
35 would begin and the anticipated date of completion of the project;

36 (g) A detailed estimate of the costs associated with opening the
37 beds;

38 (h) A financial plan demonstrating the applicant's ability to
39 maintain and operate the facility; and

1 (i) The applicant's commitment to work with local courts and
2 prosecutors to ensure that prosecutors and courts in the area served
3 by the hospital or facility will be available to conduct involuntary
4 commitment hearings and proceedings under chapter 71.05 RCW.

5 (3) In awarding funding for projects in subsection (5) of this
6 section, the department, in consultation with the advisory group
7 established in subsection (1) of this section, must strive for
8 geographic distribution and to allocate funding based on population
9 and service needs of an area. The department must consider current
10 services available, anticipated services available based on projects
11 underway, and the service delivery needs of an area.

12 (4) The department must prioritize projects that increase
13 capacity in unserved and underserved areas of the state.

14 (5) (a) \$34,765,000 of the state building construction account—
15 state appropriation in this section is provided solely for
16 competitive community behavioral health grants to address regional
17 needs. The department must give priority to facilities that:

18 (i) Serve individuals who will be transitioned from or diverted
19 from the state hospitals; and

20 (ii) Have confirmed that the health care authority, department of
21 social and health services, or a managed care organization plans to
22 contract with the facility for operating costs.

23 (b) \$31,000,000 of the state building construction account—state
24 appropriation in this section is provided solely for grants to
25 intensive behavioral health treatment facilities for long-term
26 placement of behavioral health patients with complex needs and that
27 are not subject to federal funding restrictions that apply to
28 institutions of mental diseases.

29 (c) \$28,000,000 of the state building construction account—state
30 appropriation in this section is provided solely for grants to
31 community providers to increase behavioral health services and
32 capacity for children and minor youth including, but not limited to,
33 services for substance use disorder treatment, sexual assault and
34 traumatic stress, anxiety, or depression, children with behavioral
35 health and intellectual or developmental disability needs, and
36 interventions for children exhibiting aggressive or depressive
37 behaviors in facilities that are not subject to federal funding
38 restrictions. Consideration must be given to programs that

1 incorporate outreach and treatment for youth dealing with behavioral
2 health or social isolation issues.

3 (6) The amounts provided in this subsection are subject to the
4 criteria in subsection (1) of this section, except the projects are
5 not required to establish new capacity:

6 (a) \$22,000,000 of the state building construction account—state
7 appropriation in this section is provided solely for grants to
8 community providers to prevent the closure of existing behavioral
9 health facilities. For purposes of this subsection (6)(a), the
10 department must implement necessary procedures to enable rapid
11 commitment of funds on a first-come, first-served basis to qualifying
12 project proposals that satisfy the goal of long-term preservation of
13 behavioral health facilities.

14 (b) \$95,235,000 of the appropriation in this section is provided

36 (7) The department shall notify all applicants that they may be
37 required to have a construction review performed by the department of
38 health.

1 (8) To accommodate the emergent need for behavioral health
2 services, the department and the department of health, in
3 collaboration with the health care authority and the department of
4 social and health services, must establish a concurrent and expedited
5 process to assist grant applicants in meeting any applicable
6 regulatory requirements necessary to operate inpatient psychiatric

12 provided in this section in the manner prescribed in each subsection.
13 However, if upon review of applications, the department determines,
14 in consultation with the advisory group established in subsection (1)
15 of this section, that there are not adequate suitable projects in a
16 category, the department may allocate funding to other project
17 categories listed in this section, prioritizing projects that support
18 serving individuals who will be transitioned from or diverted from
19 the state hospitals. Underserved areas of the state may also be
20 considered.

21 (10) In contracts for grants authorized under this section, the
22 department must include provisions that require that the grantee or
23 successor hold the capital improvements for at least a 10-year
24 period. The provisions must require the facility to be used for
25 behavioral health services, but may allow the facility to change
26 ownership or facility type during the commitment period. The
27 department shall monitor the activities of recipients of grants under
28 this program to determine compliance with the terms and conditions
29 set forth in its contract.

30 (11) The department must provide a progress report to the

28 solely for minor renovation grants.

29 (2) \$54,500,000 of the Ruth Lecocq Kagi early learning facilities
30 development account—state appropriation in this section is provided
31 solely for the early learning facility grant and loan program,
32 subject to the provisions of RCW 43.31.573 through 43.31.583 and
33 43.84.092, to provide state assistance for designing, constructing,
34 purchasing, expanding, or modernizing public or private early
35 learning education facilities for eligible organizations. Up to four

37 department of children, youth, and families to provide technical

1 assistance to early learning providers interested in applying for the
2 early learning facility grant or loan program.

3 (3) The department of children, youth, and families must develop
4 methodology to identify, at the school district boundary level, the
5 geographic locations of where early childhood education and
6 assistance program slots are needed to meet the entitlement specified
7 in RCW 43.216.556. This methodology must be linked to the caseload
8 forecast produced by the caseload forecast council and must include
9 estimates of the number of slots needed at each school district. This
10 methodology must inform any early learning facilities needs
11 assessment conducted by the department and the department of
12 children, youth, and families. This methodology must be included as
13 part of the budget submittal documentation required by RCW 43.88.030.

14 (4) When prioritizing areas with the highest unmet need for early
15 childhood education and assistance program slots, the committee of
16 early learning experts convened by the department pursuant to RCW
17 43.31.581 must first consider those areas at risk of not meeting the
18 entitlement specified in RCW 43.216.556.

19 (5) The department must track the number of slots being renovated
20 separately from the number of slots being constructed and, within
21 these categories, must track the number of slots separately by
22 program for the working connections child care program and the early
23 childhood education and assistance program.

24 (6) When prioritizing applications for projects pursuant to RCW
25 43.31.581, the department must award priority points to applications
26 from a rural county or from extreme child care deserts as defined by
27 the department of children, youth, and families.

28 (7) For early learning facilities collocated with affordable or
29 supportive housing developments, the department may remit state
30 funding on a reimbursement basis for 100 percent of eligible project
31 costs, regardless of the project's match amount, once the nonstate
32 share of project costs have been either expended or firmly committed
33 in an amount sufficient to complete the entire project or a distinct
34 phase of the project that is useable to the public as an early
35 learning facility. These projects are not subject to section 8015 of
36 this act or RCW 43.88.150.

37 (8) It is the intent of the legislature to reappropriate funding
38 in the 2023-2025 omnibus capital appropriations act for early
39 learning facilities appropriated in this section.

2024 Local and Community Projects (40000301)

The appropriation in this section is subject to the following conditions and limitations:

(1) The department shall not expend the appropriation in this section unless and until the nonstate share of project costs have been either expended or firmly committed, or both, in an amount sufficient to complete the project or a distinct phase of the project that is useable to the public for the purpose intended by the legislature. This requirement does not apply to projects where a share of the appropriation is for design costs only.

(2) Prior to receiving funds, project recipients must demonstrate that the project site is under control for a minimum of 10 years, either through ownership or a long-term lease. 11 out of compliance with provisions of the contract, the grantee shall

14 Washington general obligation bonds issued most closely to the date

 13 conditions and limitations:

14 (1) The appropriation in this section is provided solely for
 15 technical assistance and grants to conservation districts for the
 16 purpose of implementing water conservation measures and irrigation
 17 efficiencies. The state conservation commission shall give preference
 18 to projects located in the 16 fish critical basins, other water-short

16 Riparian Restoration with Landowners (91000020)

17 The appropriations in this section are subject to the following
18 conditions and limitations:

19 (1) The appropriations in this section are provided solely for
20 the state conservation commission to provide grants for riparian
21 restoration projects with landowners.

22 (2)(a) Within funds appropriated in this section, the commission
23 shall develop and implement the voluntary riparian grant program to
24 fund protection and restoration of critical riparian management
25 zones. The commission is responsible for developing the voluntary
26 grant program criteria to achieve optimal restoration of functioning
27 riparian ecosystems in priority critical riparian management zones.

28 (b) In adopting the program criteria under this section, the
29 commission must:

30 (i) Invite federally recognized tribes to be full participants;

31 (ii) Coordinate with private landowners and other interested
32 stakeholders;

33 (iii) Seek technical support from the department of ecology, the
34 department of fish and wildlife, conservation districts, and the
35 department of agriculture; and

1 (iv) Consider the best available, locally applicable science that
2 is specific to each region of the state where the program criteria
3 will be applied.

4 (3) (a) The commission shall prioritize critical riparian
5 management zones at the watershed or subbasin scale where grant
6 funding under the program created in this section would be primarily
7 targeted. The prioritization must be informed by, consistent with,
8 and aligned with one or more of the following: Watershed plans
9 developed pursuant to chapter 90.82 RCW; the action agenda developed
10 under RCW 90.71.260; regional recovery plans created under RCW
11 77.85.090; the habitat project lists developed pursuant to
12 RCW 77.85.050; the prioritization process developed under RCW
13 77.95.160; and priority projects identified for salmon recovery
14 through agency grant programs.

15 (b) The prioritization of critical riparian management projects
16 must be developed in coordination with:

17 (i) Local federally recognized tribes;

18 (ii) Local private landowners who are voluntarily participating
19 in the program;

20 (iii) Local conservation districts; and

21 (iv) Technical support from the local county, the department of
22 fish and wildlife, the department of ecology, and water resource
23 inventory area planning units organized pursuant to chapter 90.82
24 RCW.

25 (4) (a) Conditions for awarding funding for projects under this
26 program include, but are not limited to:

27 (i) Consistency with the program criteria established under
28 subsection (2) of this section;

29 (ii) Tiered incentive rates tied to improving functionality for
30 riparian areas; and

31 (iii) Other requirements as determined by the commission.

32 (b) The commission must give preference and compensation for
33 permanent protection of riparian areas or removal of riparian land
34 from agricultural production or other development by purchase at fair
35 market value.

36 (5) The commission must distribute riparian grant program funding
37 equitably throughout the state, consistent with received grant
38 applications and benefit to salmon habitat. Funding is intended
39 primarily for projects located in salmon recovery regions, as defined
40 in RCW 77.85.010, but funding may also be distributed to a project

1 not located in a salmon recovery region upon a determination by the
2 commission that the project will provide a unique benefit to salmon
3 habitat.

4 (6) Allowable expenses to a grantee receiving funds under this
5 section include, but are not limited to, labor, equipment, fencing,
6 mulch, seed, seedling trees, manual weed control, and yearly
7 maintenance costs for up to 10 years.

8 (7) Any native woody trees and shrubs planted with funding
9 provided under this section must be maintained for a minimum of five
10 years or as otherwise set by the commission for each grantee.
11 Vegetation must be chosen to prevent invasive weed populations and
12 ensure survival and successful establishment of plantings.

13 (8) The commission shall determine appropriate recordkeeping and
14 data collections procedures required for program implementation and
15 shall establish a data management system that allows for coordination
16 between the commission and other state agencies. Any data collected
17 or shared under this section may be used only to assess the successes
18 of the riparian grant program in improving the functions of critical
19 riparian habitat.

20 (9) The commission shall develop and implement a framework that
21 includes monitoring, adaptive management, and metrics in order to
22 ensure consistency with the requirements of the riparian grant
23 program. The monitoring and adaptive management framework may
24 include, but is not limited to, consideration of:

25 (a) Acres identified as eligible for restoration within a
26 watershed;

27 (b) Acres planned to be restored;

28 (c) Acres actually planted and maintained;

29 (d) Success in targeting and achieving aggregated project
30 implementation resulting in increase in linear miles restored;

31 (e) Plan review criteria; and

32 (f) Other similar factors as identified by the commission.

33 (10) The commission may use up to two percent of any amounts
34 appropriated in this section for targeted outreach activities that
35 focus on critically identified geographic locations for listed salmon
36 species.

37 (11) The commission may use up to four percent of amounts
38 appropriated in this for administrative expenses.

39 (12) For the purposes of this section, "critical riparian
40 management zone" means the area adjacent to freshwaters, wetlands,

1 and marine waters that has been locally or regionally identified as
2 an area where salmon recovery efforts would significantly benefit
3 from enhanced protection or restoration.

FOR THE DEPARTMENT OF COMMERCE

2021-23 Rapid Capital Housing Acquisition (40000222)

1 The appropriations in this section are subject to the following
2 conditions and limitations:

3 (1) Except as provided in subsections (7) through (8) of this
4 section, the appropriations in this section are provided solely for
5 the department to issue competitive financial assistance to eligible
6 organizations under RCW 43.185A.040 to acquire or rent real property
7 for a rapid conversion into enhanced emergency shelters, permanent
8 supportive housing, transitional housing, permanent housing, youth
9 housing, drop-in center, or shelter for extremely low-income people,
10 as well as individuals, families, unaccompanied youth, and young
11 people experiencing sheltered and unsheltered homelessness. Amounts
12 provided in this section may be also used for renovation and building
13 update costs associated with establishment of the acquired or rented
14 facilities. For youth housing, drop-in centers, and shelter projects,
15 renovation of existing properties is an allowable activity. The
16 department may only approve funding for projects resulting in
17 increased shelter or housing capacity. Amounts provided in this
18 section may not be used for operating or maintenance costs associated
19 with providing housing, supportive services, or debt service.

20 (2) Funds may also be used for permanent financing for real
21 estate acquired using other short term acquisition sources. To expand
22 availability of permanent housing, financing of acquisition of
23 unoccupied multifamily housing is a priority. Funds must also be
24 provided specifically for the city of Seattle to move people
25 experiencing unsheltered homelessness into safe spaces, including,
26 but not limited to, tiny homes, hotels, enhanced emergency shelters,
27 or other rapid housing alternatives.

28 (3) While emphasizing the rapid deployment of the amounts
29 appropriated under this section to alleviate the immediate crisis of
30 homelessness throughout the state, the department shall establish
31 criteria for the issuance of the grants, during which time the
32 property must be used for the express purpose of the grant. If the
33 grantee is found to be out of compliance with provisions of the
34 contract, the grantee shall repay to the state general fund the
35 principal amount of the grant plus interest calculated at the rate of
36 interest on state of Washington general obligation bonds issued on
37 the date most close in time to the date of authorization of the
38 grant. The criteria must include:

1 (a) The date upon which structural modifications or construction
2 would begin and the anticipated date of completion of the project;

3 (b) A detailed estimate of the costs associated with the
4 acquisition and any updates or improvements necessary to make the
5 property habitable for its intended use;

6 (c) A detailed estimate of the costs associated with opening the
7 beds or units; and

8 (d) A financial plan demonstrating the ability to maintain and
9 operate the property and support its intended tenants throughout the
10 end of the grant contract.

11 (4) The department must provide a progress report on its website
12 by December 1, 2022. The report must include:

13 (a) The total number of applications and amount of funding
14 requested; and

15 (b) A list and description of the projects approved for funding
16 including state funding, total project cost, services anticipated to
17 be provided, housing units, and anticipated completion date.

18 (5) The funding provided under this section is not subject to the
19 90-day application periods in RCW 43.185.070 or 43.185A.050. The
20 department of commerce shall dispense funds to the city of Seattle
21 and other qualifying applicants within 45 days of receipt of
22 documentation from the applicant for qualifying uses and execution of
23 any necessary contracts with the department in order to effect the
24 purpose of rapid deployment of funds under this section.

25 (6) If the department receives simultaneous applications for
26 funding under this program, proposals that reach the greatest public
27 benefit, as defined by the department, must be prioritized. For
28 purposes of this subsection (6), "greatest public benefit" must
29 include, but is not limited to:

30 (a) The greatest number of accommodations or increased shelter
31 capacity that will benefit extremely low-income people, as well as
32 individuals, families, and youth experiencing homelessness.

33 (b) Whether the project has federally funded rental assistance
34 tied to it;

35 (c) The scarcity of the affordable housing or shelter capacity
36 applied for compared to the number of available affordable housing
37 units or shelter capacity in the same geographic location; and

38 (d) The program's established funding priorities under RCW
39 43.185.070(5).

1 (7) \$17,500,000 of the state building construction account—state
 2 appropriation is provided solely for the following list of projects:
 3 \$5,000,000 for the Tacoma Housing Authority affordable housing
 4 acquisition;
 5 \$4,000,000 for the Keiro nursing home acquisition in Seattle;
 6 (~~(\$1,500,000)~~) \$2,400,000 for the Parkland(~~(/Spanaway homeless))~~
 7 Next Chapter shelter;
 8 \$2,000,000 for the Illahee Affordable Housing project in
 9 Bellevue; and
 10 \$5,000,000 for the City of Seattle for the acquisition of the
 11 Clay Apartments in partnership with a low-income housing provider.

12 (8) (a) (~~(\$6,565,000 of the coronavirus state fiscal recovery~~
 13 ~~account—federal appropriation and \$1,338,000)~~) \$7,903,000 of the
 14 state building construction account—state appropriation (~~(are)~~) is
 15 provided solely for the following list of youth housing projects
 16 identified by the office of homeless youth protection and prevention
 17 programs:

- 18 FYRE's Village: Housing Stability for Young Adults
- 19 (Omak) \$3,350,000
- 20 NWYS Young Adult Shelter Services (Bellingham) \$438,000

25 (b) If funding provided in (a) of this subsection needs to be
 26 reallocated, the department shall consult with the office of homeless
 27 youth prevention and protection programs to identify other eligible
 28 youth housing projects.

29 (9) The department must ensure compliance with conditions of the
 30 federal coronavirus state fiscal recovery fund. All expenditures from
 31 the coronavirus state fiscal recovery account—federal appropriation
 32 in this section must be obligated by December 31, 2024.

20 2021-23 Clean Energy V - Investing in Washington's Clean Energy
21 (40000148)

22 The appropriations in this section are subject to the following
23 conditions and limitations:

24 (1) The appropriations in this section are provided solely for
25 projects that provide a benefit to the public through development,
26 demonstration, and deployment of clean energy technologies that save
27 energy and reduce energy costs, reduce harmful air emissions, or
28 increase energy independence for the state. Priority must be given to
29 projects that benefit vulnerable populations and overburdened
30 communities, including tribes and communities with high environmental
31 or energy burdens.

32 (2) The 2021 state energy strategy must guide the department in
33 the design of programs under this section, using an equity and
34 environmental justice lens for program structure and participation.
35 To the extent practicable, the department must prioritize projects
36 that build upon Washington's existing strengths in communities,

1 aerospace, maritime, information and communications technology
2 (particularly data center infrastructure, artificial intelligence and
3 machine learning), grid modernization, advanced materials, and
4 decarbonizing the built environment.

5 (3) Subject to the availability of funds, the department must
6 reconvene an advisory committee to support involvement of a broad
7 range of stakeholders in the design and implementation of programs
8 implemented under this section to encourage collaboration, leverage
9 partners, and engage communities and organizations in improving the
10 equitable distribution of benefits from the program.

11 (4) In soliciting and evaluating proposals, awarding contracts,
12 and monitoring projects under this section, the department must:

13 (a) Ensure that competitive processes, rather than sole source
14 contracting processes, are used to select all projects, except as
15 otherwise noted in this section; and

16 (b) Conduct due diligence activities associated with the use of
17 public funds including, but not limited to, oversight of the project
18 selection process, project monitoring, and ensuring that all
19 applications and contracts fully comply with all applicable laws
20 including disclosure and conflict of interest statutes.

21 (5) During project solicitation periods for grants funded with
22 this appropriation, the department must maintain a list of applicants
23 by grant program that scored competitively but did not receive a
24 grant award due to lack of available funding. These applicants must
25 be considered for funding during future grant award cycles. If the
26 department submits a 2022 supplemental budget request for this
27 program, the request must include a list of prioritized projects by
28 grant type.

29 (6) (a) Pursuant to chapter 42.52 RCW, the ethics in public
30 service act, the department must require a project applicant to
31 identify in application materials any state of Washington employees
32 or former state employees employed by the firm or on the firm's
33 governing board during the past 24 months. Application materials must
34 identify the individual by name, the agency previously or currently
35 employing the individual, job title or position held, and separation
36 date. If it is determined by the department that a conflict of
37 interest exists, the applicant may be disqualified from further
38 consideration for award of funding.

39 (b) If the department finds, after due notice and examination,
40 that there is a violation of chapter 42.52 RCW, or any similar

1 statute involving a grantee who received funding under this section,
2 either in procuring or performing under the grant, the department in
3 its sole discretion may terminate the funding grant by written
4 notice. If the grant is terminated, the department must reserve its
5 right to pursue all available remedies under law to address the
6 violation.

7 (7) The requirements in subsections (4) and (6) of this section
8 must be specified in funding agreements issued by the department.

9 (8) \$17,594,000 of the state building construction account—state
10 appropriation is provided solely for grid modernization grants.

11 (a) (i) \$11,000,000 is provided solely for projects that: Advance

16 pursuant to the clean energy transformation act, including
17 requirements placed upon retail electric utilities.

18 (ii) Projects must be implemented by community organizations,
19 local governments, federally recognized tribal governments, or by
20 public and private electrical utilities that serve retail customers
21 in the state (retail electric utilities). Projects submitted by
22 applicants other than retail electric utilities must demonstrate
23 partnership with their load serving entity to apply. Priority must be
24 given to:

25 (A) Projects that benefit vulnerable populations, including
26 tribes and communities with high environmental or energy burden; and

27 (B) Projects that demonstrate partnerships between eligible
28 applicants in applying for funding, including utilities, public and
29 private sector research organizations, businesses, tribes, and
30 nonprofit organizations.

31 (iii) The department shall develop a grant application process to
32 competitively select projects for grant awards, to include scoring
33 conducted by a group of qualified experts with application of
34 criteria specified by the department. In development of the
35 application criteria, the department shall, to the extent possible,
36 develop program guidelines that encourage smaller utilities or
37 consortia of small utilities to apply for funding. Where suitable,
38 this may include funding for projects consisting solely of planning,
39 predesign and/or predevelopment activities.

1 (iv) Applications for grants must disclose all sources of public

15 grants must be used to match federal or other nonstate funds to
16 research, develop, and demonstrate clean energy technologies,
17 focusing on areas that help develop technologies to meet the state's
18 climate goals, offer opportunities for economic and job growth, and
19 strengthen technology supply chains. The program may include, but is
20 not limited to: Solar technologies, advanced bioenergy and biofuels,
21 development of new earth abundant materials or lightweight materials,

32 solely for a grant to the Chelan County Public Utility District for
33 the hydroelectric turbine hub project at Rocky Reach dam near
34 Wenatchee.

35 (10) (a) \$2,500,000 of the state taxable building construction
36 account—state appropriation is provided solely as grants to nonprofit
37 lenders to create a revolving loan fund to support the widespread use
38 of proven energy efficiency and renewable energy technologies by
39 households, or for the benefit of households, with high energy burden

1 or environmental health risk now inhibited by lack of access to
2 capital.

3 (b) The department shall provide grant funds to one or more
4 competitively selected nonprofit lenders that must provide matching
5 private capital and administer the loan fund. The department shall
6 select the loan fund administrator or administrators through a
7 competitive process, with scoring conducted by a group of qualified
8 experts, applying criteria specified by the department.

9 (c) The department must establish guidelines that specify
10 applicant eligibility, the screening process, and evaluation and
11 selection criteria. The guidelines must be used by the nonprofit
12 lenders.

13 (11) \$5,550,000 of the state building construction account—state
14 appropriation is provided solely for grants to demonstrate innovative
15 approaches to electrification of transportation systems.

16 (a) (i) \$3,000,000 of the appropriation is provided solely for
17 competitive grants, prioritizing projects that:

18 (A) Demonstrate meaningful and enduring benefits to communities
19 and populations disproportionately burdened by air pollution, climate
20 change, or lack of transportation investments;

27 infrastructure along highways, freeways, and other heavily trafficked
28 corridors across the state to support long-distance travel.

29 (ii) Projects must be implemented by local governments, federally
30 recognized tribal governments, by public and private electrical
31 utilities that serve retail customers in the state, or state
32 agencies. Eligible parties may partner with other public and private
33 sector research organizations and businesses in applying for funding.
34 The department shall consult and coordinate with the Washington state
35 department of transportation on project selection and implementation.
36 The department shall also coordinate with other state agencies that
37 have other electrification programs, in order to determine to
38 optimally accomplish each agency's respective policy and program
39 goals.

1 (iii) Projects must be related to on-road end-uses and
2 nonmaritime off-road uses.

3 (iv) Eligible technologies for these projects include, but are
4 not limited to:

9 where the upgrade is needed as a result of the installed electric
10 vehicle supply equipment;

11 (D) Hydrogen refueling station infrastructure that:

12 (I) Dispenses renewable hydrogen or hydrogen produced in
13 Washington with electrolysis; and

14 (II) Aligns with the 2021 state energy strategy's recommended
15 uses of hydrogen in the transportation sector.

16 (v) \$2,000,000 of the state building construction account—state
17 appropriation is provided solely for federally recognized tribal
18 governments and for local governments in rural communities, for
19 projects aligning with the above objectives and addressing electric
20 vehicle supply infrastructure gaps in rural communities.

21 (b) \$2,550,000 of the appropriation in this section is provided
22 solely for a grant to the Lewis Public Transportation Benefit Area to
23 construct a hydrogen fueling station that dispenses renewable
24 hydrogen or hydrogen produced in Washington with electrolysis for
25 electric vehicles at Exit 74 on Interstate 5, near Chehalis.

26 (12)(a) \$10,000,000 of the state building construction account—

36 (c) Preference must be given to projects based on total
37 greenhouse gas emissions reductions, accelerating the path to zero-
38 energy, or that demonstrate early adoption of grid integration
39 technology.

1 (d) Program funding may be administered to entities also
2 receiving incentives provided according to RCW 19.27A.220 for
3 buildings covered by the state energy performance standard, RCW

30 (8) To accommodate the emergent need for behavioral health
31 services, the department and the department of health, in
32 collaboration with the health care authority and the department of
33 social and health services, must establish a concurrent and expedited
34 process to assist grant applicants in meeting any applicable
35 regulatory requirements necessary to operate inpatient psychiatric
36 beds, freestanding evaluation and treatment facilities, enhanced
37 services facilities, triage facilities, crisis stabilization
38 facilities, or secure detoxification/secure withdrawal management and
39 stabilization facilities.

1 (9) The department must strive to allocate all of the amounts
2 appropriated within subsection (5) of this section in the manner
3 prescribed. However, if upon review of applications, the department
4 determines, in consultation with the advisory group established in
5 subsection (1) of this section, that there are not adequate suitable
6 projects in a category of projects under subsection (5) of this
7 section, the department may allocate funds to other behavioral health
8 capacity project categories within subsection (5) of this section,
9 prioritizing projects under subsections (5)(a), (g), and (i) of this
10 section. Underserved areas of the state may also be considered.

11 (10) The department must provide a progress report by November 1,
12 2022. The report must include:

13 (a) The total number of applications and amount of funding
14 requested;

15 (b) A list and description of the projects approved for funding
16 including state funding, total project cost, services anticipated to
17 be provided, bed capacity, and anticipated completion date; and

18 (c) A status report of projects that received funding in prior
19 funding rounds, including details about the project completion and
20 the date the facility began providing services.

29 follows:

30 **FOR THE DEPARTMENT OF COMMERCE**

31 2021-23 Energy Retrofits for Public Buildings Grant Program
32 (40000149)

33 The appropriation in this section is subject to the following
34 conditions and limitations:

35 (1) \$4,000,000 of the appropriation in this section is provided
36 solely for grants to local governments, public higher education
37 institutions, school districts, federally recognized tribal
38 governments, and state agencies for operational cost savings

1 improvements to facilities and related projects that result in energy
2 and operational cost savings.

3 (a) (i) \$3,000,000 of the appropriation in this section is
4 provided solely for grants awarded in competitive rounds.

5 (ii) At least 20 percent of each competitive grant round is
6 designated for award to eligible projects in small cities or towns
7 with a population of 5,000 or fewer residents.

8 (iii) In each competitive round, a higher energy savings to
9 investment ratio must result in a higher project ranking. Priority
10 consideration must be given to applicants that have not received
11 grant awards for this purpose in prior biennia.

12 (iv) The department must determine a minimum match ratio to
13 maximize the leverage of nonstate funds.

14 (b) \$450,000 of the appropriation in this section is provided
15 solely for a grant to Western Washington University for the heating
16 system conversion feasibility study.

17 (c) \$550,000 of the appropriation in this section is provided
18 solely for a grant to Whidbey Island Public Hospital District for
19 energy upgrades at WhidbeyHealth Medical Center in Coupeville.

20 (2) (a) \$1,000,000 of the appropriation in this section is
21 provided solely for grants to be awarded in competitive rounds to
22 local governments, public higher education institutions, school
23 districts, federally recognized tribal governments, and state
24 agencies for projects that involve the purchase and installation of
25 solar energy systems, including solar modules and inverters, with a
26 preference for products manufactured in Washington.

27 (b) At least 20 percent of each competitive grant round is
28 designated for award to eligible projects in small cities or towns
29 with a population of 5,000 or fewer residents.

30 (c) In each competitive round, a higher energy savings to
31 investment ratio must result in a higher project ranking. Priority
32 consideration must be given to applicants that have not received
33 grant awards for this purpose in prior biennia.

34 (d) The department must determine a minimum match ratio to
35 maximize the leverage of nonstate funds.

36 (3) \$4,500,000 of the appropriation in this section is provided
37 solely for the energy efficiency and environmental performance
38 improvements to minor works, stand-alone, and emergency projects at
39 facilities owned by agencies named by the state efficiency and
40 environmental performance office executive order 20-01 that repair or

1 replace existing building systems and reduce greenhouse gas emissions
2 from state operations, including, but not limited to, HVAC, lighting,
3 insulation, windows, and other mechanical systems. Eligibility for
4 this funding is dependent on an analysis using the office of
5 financial management's life-cycle cost tool that compares project
6 design alternatives for initial and long-term cost-effectiveness.
7 Assuming a reasonable return on investment, the department shall
8 provide grants in the amount required to improve the project's energy
9 efficiency compared to the original project request. Prior to
10 awarding funds, the department shall submit to the office of
11 financial management a list of all proposed awards for review and
12 approval.

13 (4) The department shall develop metrics that indicate the
14 performance of energy efficiency efforts.

15 (5) \$457,000 of the appropriation provided in this section is
16 provided solely for photovoltaic panels for the capitol campus child
17 care center.

18 (6) If a grant is provided in subsection (1) or (3) of this
19 section to purchase heating devices or systems, the agency must,
20 whenever possible and most cost effective, select devices and systems
21 that do not use fossil fuels.

22 (7) Grants to state agencies provided under subsections (1), (2),
23 and (3) of this section are exempt from the match requirements of
24 this section.

25 Appropriation:

26	State Building Construction Account—State.	\$9,957,000
27	Prior Biennia (Expenditures).	\$0
28	Future Biennia (Projected Costs).	\$0
29	TOTAL.	\$9,957,000

30 **Sec. 7010.** 2022 c 296 s 1022 (uncodified) is amended to read as
31 follows:

32 **FOR THE DEPARTMENT OF COMMERCE**

33 2022 Local & Community Projects (40000230)

34 The appropriation in this section is subject to the following
35 conditions and limitations:

36 (1) The department may not expend the appropriation in this
37 section unless and until the nonstate share of project costs have
38 been either expended or firmly committed, or both, in an amount

1 sufficient to complete the project or a distinct phase of the project
2 that is useable to the public for the purpose intended by the
3 legislature. This requirement does not apply to projects where a
4 share of the appropriation is for design costs only or to the Chelan
5 municipal airport extension project in subsection (8)(a) of this
6 section.

7 (2) Prior to receiving funds, project recipients must demonstrate
8 that the project site is under control for a minimum of 10 years,
9 either through ownership or a long-term lease. This requirement does
10 not apply to appropriations for preconstruction activities or
11 appropriations in which the sole purpose is to purchase real property
12 that does not include a construction or renovation component.

13 (3) Projects funded in this section may be required to comply
14 with Washington's high-performance building standards as required by
15 chapter 39.35D RCW.

16 (4) Project funds are available on a reimbursement basis only,
17 and may not be advanced under any circumstances.

18 (5) In contracts for grants authorized under this section, the
19 department must include provisions that require that capital
20 improvements be held by the grantee for a specified period of time
21 appropriate to the amount of the grant and that facilities be used
22 for the express purpose of the grant. If the grantee is found to be
23 out of compliance with provisions of the contract, the grantee shall
24 repay to the state general fund the principal amount of the grant
25 plus interest calculated at the rate of interest on state of
26 Washington general obligation bonds issued most closely to the date
27 of authorization of the grant.

28 (6) Projects funded in this section, including those that are
29 owned and operated by nonprofit organizations, are generally required
30 to pay state prevailing wages.

31 (7) The department must comply with the requirements set forth in
32 executive order 21-02 and must consult with the department of
33 archaeology and historic preservation and affected tribes on the
34 potential effects of these projects on cultural resources and
35 historic properties. Consultation with the department of archaeology
36 and historic preservation and affected tribes must be initiated
37 before project funds are made available.

29 share of the appropriation is for design costs only.

30 (2) Prior to receiving funds, project recipients must demonstrate
31 that the project site is under control for a minimum of 10 years,

9 repay to the state general fund the principal amount of the grant
10 plus interest calculated at the rate of interest on state of
11 Washington general obligation bonds issued most closely to the date
12 of authorization of the grant.

13 (6) Projects funded in this section, including those that are
14 owned and operated by nonprofit organizations, are generally required
15 to pay state prevailing wages.

12 consult with the office of financial management and the office of the
13 state treasurer. Should the department of social and health services
14 choose to use a financing contract that does not provide for the
15 issuance of certificates of participation, the financing contract
16 shall be subject to approval by the state finance committee as
17 required by RCW 39.94.010. In approving a financing contract not
18 providing for the use of certificates of participation, the state
19 finance committee should be reasonably certain that the contract is
20 excluded from the computation of indebtedness, particularly that the
21 contract is not backed by the full faith and credit of the state and
22 the legislature is expressly not obligated to appropriate funds to
23 make payments. For purposes of this subsection, "financing contract"
24 includes but is not limited to a certificate of participation and tax
25 exempt financing similar to that authorized in RCW 47.79.140.

11 The appropriations in this section are subject to the following
12 conditions and limitations:

13 (1) The department is granted federal expenditure authority in
14 anticipation of the receipt of federal competitive grant funding for
15 which it is eligible to apply under section 8004 of the American
16 rescue plan act of 2021, P.L. 117-2.

17 (2) Funding appropriated in this section must be used for
18 projects in the following priority order:

19 (a) The WVH HVAC Retrofit project (40000006); and

20 (b) Minor works projects that meet the requirements set forth in
21 section 8004 of the American rescue plan act of 2021, P.L. 117-2.

22 (3) The state building construction account—state appropriation
23 in this section is provided solely for state match funds to leverage
24 the federal funding described in subsection (1) of this section. Any
25 amount that exceeds the level of state match funds required to
26 maximize the federal funding opportunity must be placed in unallotted
27 status.

28 Appropriation:

29	General Fund—Federal.	\$24,515,000
30	State Building Construction Account—State.	\$10,884,000

2 **MISCELLANEOUS PROVISIONS**

3 NEW SECTION. **Sec. 8001.** RCW 43.88.031 requires the disclosure
4 of the estimated debt service costs associated with new capital bond
5 appropriations. The estimated debt service costs for the
6 appropriations contained in this act are \$59,511,000 for the
7 2023-2025 biennium, \$370,419,000 for the 2025-2027 biennium, and
8 \$518,208,000 for the 2027-2029 biennium.

9 NEW SECTION. **Sec. 8002.** ACQUISITION OF PROPERTIES AND
10 FACILITIES THROUGH FINANCIAL CONTRACTS. (1) The following agencies
11 may enter into financial contracts, paid from any funds of an agency,
12 appropriated or nonappropriated, for the purposes indicated and in
13 not more than the principal amounts indicated, plus financing
14 expenses and required reserves pursuant to chapter 39.94 RCW. When
15 securing properties under this section, agencies shall use the most
16 economical financial contract option available, including long-term
17 leases, lease-purchase agreements, lease-development with option to
18 purchase agreements or financial contracts using certificates of
19 participation. Expenditures made by an agency for one of the
20 indicated purposes before the issue date of the authorized financial
21 contract and any certificates of participation therein are intended
22 to be reimbursed from proceeds of the financial contract and any
23 certificates of participation therein to the extent provided in the
24 agency's financing plan approved by the state finance committee.

25 (2) Those noninstructional facilities of higher education
26 institutions authorized in this section to enter into financial
27 contracts are not eligible for state funded maintenance and
28 operations. Instructional space that is available for regularly
29 scheduled classes for academic transfer, basic skills, and workforce
30 training programs may be eligible for state funded maintenance and
31 operations.

32 (3) Secretary of state: Enter into a financing contract for up to
33 \$119,000,000 plus financing expenses, required reserves, and
34 capitalized interest pursuant to chapter 39.94 RCW to construct a new
35 library-archives building.

36 (4) Department of social and health services: Enter into a
37 financing contract for up to \$175,888,000 plus costs and financing
38 expenses, required reserves, and capitalized interest pursuant to

1 chapter 39.94 RCW to construct a nursing facility on the Fircrest
2 residential habilitation center campus. The department may contract
3 to lease develop or lease purchase the facility. Before entering into
4 a contract, the department must consult with the office of financial
5 management and the office of the state treasurer. Should the
6 department of social and health services choose to use a financing
7 contract that does not provide for the issuance of certificates of
8 participation, the financing contract shall be subject to approval by
9 the state finance committee as required by RCW 39.94.010. In
10 approving a financing contract not providing for the use of
11 certificates of participation, the state finance committee should be
12 reasonably certain that the contract is excluded from the computation
13 of indebtedness, particularly that the contract is not backed by the
14 full faith and credit of the state and the legislature is expressly
15 not obligated to appropriate funds to make payments. For purposes of
16 this subsection, "financing contract" includes but is not limited to
17 a certificate of participation and tax exempt financing similar to
18 that authorized in RCW 47.79.140.

19 NEW SECTION. **Sec. 8003.** (1) To ensure that major construction
20 projects are carried out in accordance with legislative and executive
21 intent, agencies must complete a predesign for state construction
22 projects with a total anticipated cost in excess of \$10,000,000. For
23 purposes of this section, "total anticipated cost" means the sum of
24 the anticipated cost of the predesign, design, and construction
25 phases of the project.

26 (2) Appropriations for design may not be expended or encumbered
27 until the office of financial management has reviewed and approved
28 the agency's predesign.

29 (3) The predesign must explore at least three project
30 alternatives. These alternatives must be both distinctly different
31 and viable solutions to the issue being addressed. The chosen
32 alternative should be the most reasonable and cost-effective
33 solution. The predesign document must include, but not be limited to,
34 program, site, and cost analysis, and an analysis of the life-cycle
35 costs of the alternatives explored, in accordance with the predesign
36 manual adopted by the office of financial management.

37 (4) For projects exceeding the \$10,000,000 predesign threshold
38 established in this section, the office of financial management may
39 make an exception to some or all of the predesign requirements in

1 this section. The office of financial management shall report any
2 exception to the fiscal committees of the legislature:

3 (a) A description of the major capital project for which the
4 predesign waiver is made;

5 (b) An explanation of the reason for the waiver; and

6 (c) A rough order of magnitude cost estimate for the project's
7 design and construction.

8 (5) In deliberations related to submitting an exception under
9 this section, the office of financial management shall consider the
10 following factors:

11 (a) Whether there is any determination to be made regarding the
12 site of the project;

13 (b) Whether there is any determination to be made regarding
14 whether the project will involve renovation, new construction, or
15 both;

16 (c) Whether, within six years of submitting the request for
17 funding, the agency has completed, or initiated the construction of,
18 a substantially similar project;

19 (d) Whether there is any anticipated change to the project's
20 program or the services to be delivered at the facility;

21 (e) Whether the requesting agency indicates that the project may
22 not require some or all of the predesign requirements in this section
23 due to a lack of complexity; and

24 (f) Whether any other factors related to project complexity or
25 risk, as determined by the office of financial management, could
26 reduce the need for, or scope of, a predesign.

27 (6) If under this section, some or all predesign requirements are
28 waived, the office of financial management may instead propose a
29 professional project cost estimate instead of a request for predesign
30 funding.

31 NEW SECTION. **Sec. 8004.** (1) The legislature finds that use of
32 life-cycle cost analysis will aid public entities, architects,
33 engineers, and contractors in making design and construction
34 decisions that positively impact both the initial construction cost
35 and the ongoing operating and maintenance cost of a project. To
36 ensure that the total cost of a project is accounted for and the most
37 reasonable and cost-efficient design is used, agencies shall develop
38 life-cycle costs for any construction project over \$10,000,000. The
39 life-cycle costs must represent the present value sum of capital

1 costs, installation costs, operating costs, and maintenance costs
2 over the life expectancy of the project. The legislature further
3 finds the most effective approach to the life-cycle cost analysis is
4 to integrate it into the early part of the design process.

5 (2) Agencies must develop a minimum of three project alternatives
6 for use in the life-cycle cost analysis. These alternatives must be
7 both distinctly different and viable solutions to the issue being
8 addressed. Agencies must choose the most reasonable and cost-
9 effective solution, as supported by the life-cycle cost analysis. A
10 brief description of each project alternative and why it was chosen
11 must be included in the life-cycle cost analysis section of the
12 predesign.

13 (3) The office of financial management shall: (a) Make available
14 a life-cycle cost model to be used for analysis; (b) in consultation
15 with the department of enterprise services, provide assistance in
16 using the life-cycle cost model; and (c) update the life-cycle cost
17 model annually including assumptions for inflation rates, discount
18 rates, and energy rates.

19 (4) Agencies shall consider architectural and engineering firms'
20 and general contractors' experience using life-cycle costs, operating
21 costs, and energy efficiency measures when selecting an architectural
22 and engineering firm, or when selecting contractors using alternative
23 contracting methods.

24 NEW SECTION. **Sec. 8005.** Agencies administering construction
25 projects with a total anticipated cost in excess of \$10,000,000 must
26 submit progress reports to the office of financial management and to
27 the fiscal committees of the house of representatives and senate.
28 "Total anticipated cost" means the sum of the anticipated cost of the
29 predesign, design, and construction phases of the project. Reports
30 must be submitted on July 1st and December 31st of each year in a
31 format determined by the office of financial management. After the
32 project is completed, agencies must also submit a closeout report
33 that identifies the total project cost and any unspent
34 appropriations.

35 NEW SECTION. **Sec. 8006.** (1) Allotments for appropriations in
36 this act shall be provided in accordance with the capital project
37 review requirements adopted by the office of financial management and
38 in compliance with RCW 43.88.110. Projects that will be employing

1 alternative public works construction procedures under chapter 39.10
2 RCW are subject to the allotment procedures defined in this section
3 and RCW 43.88.110.

4 (2) Each project is defined as proposed in the legislative budget
5 notes or in the governor's budget document.

6 NEW SECTION. **Sec. 8007.** (1) The office of financial management
7 may authorize a transfer of appropriation authority provided for a
8 capital project that is in excess of the amount required for the
9 completion of such project to another capital project for which the
10 appropriation is insufficient. No such transfer may be used to expand
11 the capacity of any facility beyond that intended in making the
12 appropriation. Such transfers may be effected only between capital
13 appropriations to a specific department, commission, agency, or
14 institution of higher education and only between capital projects
15 that are funded from the same fund or account. No transfers may occur
16 between projects to local government agencies except where the grants
17 are provided within a single omnibus appropriation and where such
18 transfers are specifically authorized by the implementing statutes
19 that govern the grants.

20 (2) The office of financial management may find that an amount is
21 in excess of the amount required for the completion of a project only
22 if: (a) The project as defined in the notes to the budget document is
23 substantially complete and there are funds remaining; or (b) bids
24 have been let on a project and it appears to a substantial certainty
25 that the project as defined in the notes to the budget document can
26 be completed within the biennium for less than the amount
27 appropriated in this act.

28 (3) For the purposes of this section, the intent is that each
29 project be defined as proposed to the legislature in the governor's
30 budget document, unless it clearly appears from the legislative
31 history that the legislature intended to define the scope of a
32 project in a different way.

33 (4) A report of any transfer effected under this section, except
34 emergency projects or any transfer under \$250,000, shall be filed
35 with the fiscal committees of the legislature by the office of
36 financial management at least 30 days before the date the transfer is
37 effected. The office of financial management shall report all
38 emergency or smaller transfers within 30 days from the date of
39 transfer.

1 NEW SECTION. **Sec. 8008.** (1) It is expected that projects be
2 ready to proceed in a timely manner depending on the type or phase of
3 the project or program that is the subject of the appropriation in
4 this act. Except for major projects that customarily may take more
5 than two biennia to complete from predesign to the end of
6 construction, or large infrastructure grant or loan programs
7 supporting projects that often take more than two biennia to
8 complete, the legislature generally does not intend to reappropriate
9 funds more than once, particularly for smaller grant programs, local/
10 community projects, and minor works.

11 (2) Agencies shall expedite the expenditure of reappropriations
12 and appropriations in this act in order to: (a) Rehabilitate
13 infrastructure resources; (b) accelerate environmental rehabilitation
14 and restoration projects for the improvement of the state's natural
15 environment; (c) reduce additional costs associated with acquisition
16 and construction inflationary pressures; and (d) provide additional
17 employment opportunities associated with capital expenditures.

18 (3) To the extent feasible, agencies are directed to accelerate
19 expenditure rates at their current level of permanent employees and
20 shall use contracted design and construction services wherever
21 necessary to meet the goals of this section.

22 NEW SECTION. **Sec. 8009.** Any building project that receives over
23 \$10,000,000 in funding from the capital budget must be built to
24 sustainable standards. "Sustainable building" means a building that
25 integrates and optimizes all major high-performance building
26 attributes, including energy efficiency, durability, life-cycle
27 performance, and occupant productivity, and minimizes greenhouse gas
28 emissions. The following design and construction attributes must be
29 integrated into the building project:

30 (1) Employ integrated design principles: Use a collaborative,
31 integrated planning and design process that initiates and maintains
32 an integrated project team in all stages of a project's planning and
33 delivery. Establish performance goals for siting, energy, water,
34 materials, and indoor environmental quality along with other
35 comprehensive design goals and ensures incorporation of these goals
36 throughout the design and life-cycle of the building. Consider all
37 stages of the building's life-cycle, including deconstruction.

38 (2) Commissioning: Employ commissioning practices tailored to the
39 size and complexity of the building and its system components in

1 order to verify performance of building components and systems and
2 help ensure that design requirements are met. This should include an
3 experienced commissioning provider, inclusion of commissioning
4 requirements in construction documents, a commissioning plan,
5 verification of the installation and performance of systems to be
6 commissioned, and a commissioning report.

7 (3) Optimize energy performance: Establish a whole building
8 performance target that takes into account the intended use,
9 occupancy, operations, plug loads, other energy demands, and design
10 to earn the ENERGY STAR targets for new construction and major
11 renovation where applicable. For new construction target low energy
12 use index. For major renovations, target reducing energy use by 50
13 percent below prerenovations baseline.

14 (4) On-site renewable energy: Implement renewable energy
15 generation projects on agency property for agency use, when life-
16 cycle cost effective.

17 (5) High-efficiency electric equipment: Use only high-efficiency
18 electric equipment for water and space heating needs not met through
19 on-site renewable energy, when life-cycle cost effective.

20 (6) Measurement and verification: For buildings over 50,000
21 square feet, install building level electricity meters in new major
22 construction and renovation projects to track and continuously
23 optimize performance. Include equivalent meters for natural gas and
24 steam, where natural gas and steam are used. Where appropriate,
25 install dashboards inside buildings to display and incentivize
26 occupants on energy use.

27 (7) Benchmarking: Compare performance data from the first year of
28 operation with the energy design target. Verify that the building
29 performance meets or exceeds the design target. For other building

36 biennium, sums in the respective capital accounts may also be used
37 for routine facility maintenance, utility costs, and facility
38 condition assessments. During the 2023-2025 biennium, sums in the
39 respective capital accounts may also be used for routine facility
40 maintenance, utility costs, and facility condition assessments.

1 (3) Funds available in the respective capital projects accounts
2 may also be used for certificates of participation under chapter
3 39.94 RCW.

4 **Sec. 8028.** RCW 28B.50.360 and 2021 c 332 s 7030 are each amended
5 to read as follows:

6 Within (~~thirty-five~~) 35 days from the date of start of each
7 quarter all collected building fees of each such community and
8 technical college shall be paid into the state treasury, and shall be
9 credited as follows:

10 (1) On or before June 30th of each year the college board, if
11 issuing bonds payable out of building fees, shall certify to the
12 state treasurer the amounts required in the ensuing (~~twelve~~) 12-
13 month period to pay and secure the payment of the principal of and
14 interest on such bonds. The state treasurer shall thereupon deposit
15 the amounts so certified in the community and technical college
16 capital projects account. Such amounts of the funds deposited in the
17 community and technical college capital projects account as are
18 necessary to pay and secure the payment of the principal of and
19 interest on the building bonds issued by the college board as
20 authorized by this chapter shall be devoted to that purpose. If in
21 any (~~twelve~~) 12-month period it shall appear that the amount
22 certified by the college board is insufficient to pay and secure the
23 payment of the principal of and interest on the outstanding building
24 bonds, the state treasurer shall notify the college board and such
25 board shall adjust its certificate so that all requirements of moneys
26 to pay and secure the payment of the principal and interest on all
27 such bonds then outstanding shall be fully met at all times.

28 (2) The community and technical college capital projects account
29 is hereby created in the state treasury. The sums deposited in the
30 capital projects account shall be appropriated and expended to pay
31 and secure the payment of the principal of and interest on bonds
32 payable out of the building fees and for the construction,
33 reconstruction, erection, equipping, maintenance, demolition and
34 major alteration of buildings and other capital assets owned by the
35 state board for community and technical colleges in the name of the
36 state of Washington, and the acquisition of sites, rights-of-way,
37 easements, improvements or appurtenances in relation thereto,
38 engineering and architectural services provided by the department of
39 enterprise services, and for the payment of principal of and interest

1 on any bonds issued for such purposes. (~~During the 2019-2021~~
2 ~~biennium, sums in the capital projects account may also be used for~~
3 ~~routine facility maintenance and utility costs.~~) During the
4 2021-2023 biennium, sums in the capital projects account may also be
5 used for routine facility maintenance and utility costs. During the
6 2023-2025 biennium, sums in the capital projects account may also be
7 used for routine facility maintenance and utility costs.

8 (3) Funds available in the community and technical college
9 capital projects account may also be used for certificates of
10 participation under chapter 39.94 RCW.

11 **Sec. 8029.** RCW 39.35D.030 and 2021 c 332 s 7049 are each amended
12 to read as follows:

13 (1) All major facility projects of public agencies receiving any
14 funding in a state capital budget, or projects financed through a
15 financing contract as defined in RCW 39.94.020, must be designed,
16 constructed, and certified to at least the LEED silver standard. This
17 subsection applies to major facility projects that have not entered
18 the design phase prior to July 24, 2005, and to the extent
19 appropriate LEED silver standards exist for that type of building or
20 facility.

21 (2) All major facility projects of any entity other than a public
22 agency or public school district receiving any funding in a state
23 capital budget must be designed, constructed, and certified to at
24 least the LEED silver standard. This subsection applies to major
25 facility projects that have not entered the grant application process
26 prior to July 24, 2005, and to the extent appropriate LEED silver
27 standards exist for that type of building or facility.

28 (3)(a) Public agencies, under this section, shall monitor and
29 document ongoing operating savings resulting from major facility
30 projects designed, constructed, and certified as required under this
31 section.

32 (b) Public agencies, under this section, shall report annually to
33 the department on major facility projects and operating savings.

34 (4) The department shall consolidate the reports required in
35 subsection (3) of this section into one report and report to the
36 governor and legislature by September 1st of each even-numbered year
37 beginning in 2006 and ending in 2016. In its report, the department
38 shall also report on the implementation of this chapter, including
39 reasons why the LEED standard was not used as required by RCW

1 39.35D.020(5)(b). The department shall make recommendations regarding
2 the ongoing implementation of this chapter, including a discussion of
3 incentives and disincentives related to implementing this chapter.

4 (5) For the purposes of determining compliance with the
5 requirement for a project to be designed, constructed, and certified
6 to at least the LEED silver standard, the department must credit one
7 additional point for a project that uses wood products with a
8 credible third-party sustainable forest certification or from forests
9 regulated under chapter 76.09 RCW, the Washington forest practices
10 act. For projects that qualify for this additional point, and for
11 which an additional point would have resulted in formal certification
12 under the LEED silver standard, the project must be deemed to meet
13 the standard under this section.

14 (6) During the 2021-2023 and 2023-2025 fiscal (~~biennium~~)
15 biennia, an alternative high-performance building certification, as
16 determined by the legislature, may be used instead of the LEED silver
17 building design, construction, and certification standard required by
18 this section.

19 **Sec. 8030.** RCW 43.07.410 and 2019 c 448 s 9 are each amended to
20 read as follows:

21 The Washington state library-archives building account is created
22 in the custody of the state treasurer. All moneys received under RCW
23 36.18.010(12), 36.22.175(3), and 43.07.370(3) must be deposited in
24 the account. (~~Expenditures~~) Except for during the 2023-2025 fiscal
25 biennium, expenditures from the account may be made only for the
26 purposes of payment of the financing contract entered into by the
27 secretary of state for the Washington state library-archives
28 building. During the 2023-2025 fiscal biennium, the secretary of
29 state may spend up to \$15,000,000 from the account for costs
30 associated with the design and construction of the state library-
31 archives building and for costs necessary to prepare the building for
32 occupancy. Only the secretary of state or the secretary of state's
33 designee may authorize expenditures from the account. An
34 appropriation is not required for expenditures, but the account is
35 subject to allotment procedures under chapter 43.88 RCW.

36 **Sec. 8031.** RCW 43.31.577 and 2021 c 130 s 1 are each amended to
37 read as follows:

1 (1) Activities eligible for funding through the early learning
2 facilities grant and loan program for eligible organizations include:

3 (a) Facility predesign grants or loans of no more than \$20,000 to
4 allow eligible organizations to secure professional services or
5 consult with organizations certified by the community development
6 financial institutions fund to plan for and assess the feasibility of
7 early learning facilities projects or receive other technical
8 assistance to design and develop projects for construction funding;

9 (b) Grants or loans of no more than \$200,000 for minor
10 renovations or repairs of existing early learning facilities or for
11 predevelopment activities to advance a proposal from planning to
12 major construction or renovation;

13 (c) Major construction and renovation grants or loans and grants
14 or loans for facility purchases of no more than \$1,000,000 to create
15 or expand early learning facilities, except that during the 2023-2025
16 fiscal biennium these grants or loans may not exceed \$2,500,000; and

17 (d) Administration costs associated with conducting application
18 processes, managing contracts, and providing technical assistance.

19 (2) Activities eligible for funding through the early learning
20 facilities grant and loan program for school districts include major
21 construction, purchase, and renovation grants or loans of no more
22 than \$1,000,000 to create or expand early learning facilities that
23 received priority and ranking as described in RCW 43.31.581.

24 (3) Amounts in this section must be increased annually by the
25 United States implicit price deflator for state and local government
26 construction provided by the office of financial management.

27 **Sec. 8032.** RCW 43.82.010 and 2018 c 217 s 7 are each amended to
28 read as follows:

29 (1) The director of enterprise services, on behalf of the agency
30 involved and after consultation with the office of financial
31 management, shall purchase, lease, lease purchase, rent, or otherwise
32 acquire all real estate, improved or unimproved, as may be required
33 by elected state officials, institutions, departments, commissions,
34 boards, and other state agencies, or federal agencies where joint
35 state and federal activities are undertaken and may grant easements
36 and transfer, exchange, sell, lease, or sublease all or part of any
37 surplus real estate for those state agencies which do not otherwise
38 have the specific authority to dispose of real estate. Any such
39 transfer, exchange, or sale must comply with RCW 43.17.400, and may

1 be made in accordance with RCW 39.33.015. This section does not
2 transfer financial liability for the acquired property to the
3 department of enterprise services.

4 (2) Except for real estate occupied by federal agencies, the
5 director shall determine the location, size, and design of any real
6 estate or improvements thereon acquired or held pursuant to
7 subsection (1) of this section. Facilities acquired or held pursuant
8 to this chapter, and any improvements thereon, shall conform to
9 standards adopted by the director and approved by the office of
10 financial management governing facility efficiency unless a specific
11 exemption from such standards is provided by the director of
12 enterprise services. The director of enterprise services shall report
13 to the office of financial management and the appropriate committees
14 of the legislature annually on any exemptions granted pursuant to
15 this subsection.

16 (3) Except for leases permitted under subsection (4) of this
17 section, the director of enterprise services may fix the terms and
18 conditions of each lease entered into under this chapter, except that
19 no lease shall extend greater than twenty years in duration. The
20 director of enterprise services may enter into a long-term lease
21 greater than ten years in duration upon a determination by the
22 director of the office of financial management that the long-term
23 lease provides a more favorable rate than would otherwise be
24 available, it appears to a substantial certainty that the facility is
25 necessary for use by the state for the full length of the lease term,
26 and the facility meets the standards adopted pursuant to subsection
27 (2) of this section. The director of enterprise services may enter
28 into a long-term lease greater than ten years in duration if an
29 analysis shows that the life-cycle cost of leasing the facility is
30 less than the life-cycle cost of purchasing or constructing a
31 facility in lieu of leasing the facility.

32 (4) (a) The director of enterprise services may fix the terms of
33 leases for property under the department of enterprise services'
34 control at the former Northern State Hospital site for up to sixty
35 years.

36 (b) During the 2023-2025 fiscal biennium, the state board for
37 community and technical colleges on behalf of north Seattle community
38 college may enter into a long-term lease, not to exceed 99 years, of
39 a portion of the north Seattle community college for purposes of
40 affordable housing under RCW 39.33.015.

1 (5) Except as permitted under chapter 39.94 RCW, no lease for or
2 on behalf of any state agency may be used or referred to as
3 collateral or security for the payment of securities offered for sale
4 through a public offering. Except as permitted under chapter 39.94
5 RCW, no lease for or on behalf of any state agency may be used or
6 referred to as collateral or security for the payment of securities
7 offered for sale through a private placement without the prior
8 written approval of the state treasurer. However, this limitation
9 shall not prevent a lessor from assigning or encumbering its interest
10 in a lease as security for the repayment of a promissory note
11 provided that the transaction would otherwise be an exempt
12 transaction under RCW 21.20.320. The state treasurer shall adopt
13 rules that establish the criteria under which any such approval may
14 be granted. In establishing such criteria the state treasurer shall
15 give primary consideration to the protection of the state's credit
16 rating and the integrity of the state's debt management program. If
17 it appears to the state treasurer that any lease has been used or
18 referred to in violation of this subsection or rules adopted under
19 this subsection, then he or she may recommend that the governor cause
20 such lease to be terminated. The department of enterprise services
21 shall promptly notify the state treasurer whenever it may appear to
22 the department that any lease has been used or referred to in
23 violation of this subsection or rules adopted under this subsection.

24 (6) It is the policy of the state to encourage the colocation and
25 consolidation of state services into single or adjacent facilities,
26 whenever appropriate, to improve public service delivery, minimize
27 duplication of facilities, increase efficiency of operations, and
28 promote sound growth management planning.

29 (7) The director of enterprise services shall provide coordinated
30 long-range planning services to identify and evaluate opportunities
31 for collocating and consolidating state facilities. Upon the renewal
32 of any lease, the inception of a new lease, or the purchase of a
33 facility, the director of enterprise services shall determine whether
34 an opportunity exists for collocating the agency or agencies in a
35 single facility with other agencies located in the same geographic
36 area. If a colocation opportunity exists, the director of enterprise
37 services shall consult with the affected state agencies and the
38 office of financial management to evaluate the impact colocation
39 would have on the cost and delivery of agency programs, including
40 whether program delivery would be enhanced due to the centralization

1 of services. The director of enterprise services, in consultation
2 with the office of financial management, shall develop procedures for
3 implementing colocation and consolidation of state facilities.

4 (8) The director of enterprise services is authorized to
5 purchase, lease, rent, or otherwise acquire improved or unimproved
6 real estate as owner or lessee and to lease or sublet all or a part
7 of such real estate to state or federal agencies. The director of
8 enterprise services shall charge each using agency its proportionate
9 rental which shall include an amount sufficient to pay all costs,
10 including, but not limited to, those for utilities, janitorial and
11 accounting services, and sufficient to provide for contingencies;
12 which shall not exceed five percent of the average annual rental, to
13 meet unforeseen expenses incident to management of the real estate.

14 (9) If the director of enterprise services determines that it is
15 necessary or advisable to undertake any work, construction,
16 alteration, repair, or improvement on any real estate acquired
17 pursuant to subsection (1) or (8) of this section, the director shall
18 cause plans and specifications thereof and an estimate of the cost of
19 such work to be made and filed in his or her office and the state
20 agency benefiting thereby is hereby authorized to pay for such work
21 out of any available funds: PROVIDED, That the cost of executing such
22 work shall not exceed the sum of twenty-five thousand dollars. Work,
23 construction, alteration, repair, or improvement in excess of twenty-
24 five thousand dollars, other than that done by the owner of the
25 property if other than the state, shall be performed in accordance
26 with the public works law of this state.

27 (10) In order to obtain maximum utilization of space, the
28 director of enterprise services shall make space utilization studies,
29 and shall establish standards for use of space by state agencies.
30 Such studies shall include the identification of opportunities for
31 colocation and consolidation of state agency office and support
32 facilities.

33 (11) The director of enterprise services may construct new
34 buildings on, or improve existing facilities, and furnish and equip,
35 all real estate under his or her management. Prior to the
36 construction of new buildings or major improvements to existing
37 facilities or acquisition of facilities using a lease purchase
38 contract, the director of enterprise services shall conduct an
39 evaluation of the facility design and budget using life-cycle cost
40 analysis, value-engineering, and other techniques to maximize the

1 long-term effectiveness and efficiency of the facility or
2 improvement.

3 (12) All conveyances and contracts to purchase, lease, rent,
4 transfer, exchange, or sell real estate and to grant and accept
5 easements shall be approved as to form by the attorney general,
6 signed by the director of enterprise services or the director's
7 designee, and recorded with the county auditor of the county in which
8 the property is located.

9 (13) The director of enterprise services may delegate any or all
10 of the functions specified in this section to any agency upon such
11 terms and conditions as the director deems advisable. By January 1st
12 of each year, beginning January 1, 2008, the department shall submit
13 an annual report to the office of financial management and the
14 appropriate committees of the legislature on all delegated leases.

15 (14) This section does not apply to the acquisition of real
16 estate by:

17 (a) The state college and universities for research or
18 experimental purposes;

19 (b) The state liquor and cannabis board for liquor stores and
20 warehouses;

21 (c) The department of natural resources, the department of fish
22 and wildlife, the department of transportation, and the state parks
23 and recreation commission for purposes other than the leasing of
24 offices, warehouses, and real estate for similar purposes; and

25 (d) The department of commerce for community college health
26 career training programs, offices for the department of commerce or
27 other appropriate state agencies, and other nonprofit community uses,
28 including community meeting and training facilities, where the real
29 estate is acquired during the 2013-2015 fiscal biennium.

30 (15) Notwithstanding any provision in this chapter to the
31 contrary, the department of enterprise services may negotiate ground
32 leases for public lands on which property is to be acquired under a
33 financing contract pursuant to chapter 39.94 RCW under terms approved
34 by the state finance committee.

35 (16) The department of enterprise services shall report annually
36 to the office of financial management and the appropriate fiscal
37 committees of the legislature on facility leases executed for all
38 state agencies for the preceding year, lease terms, and annual lease
39 costs. The report must include leases executed under RCW 43.82.045
40 and subsection (13) of this section.

1 **Sec. 8033.** RCW 43.83B.430 and 2022 c 297 s 957 and 2022 c 296 s
2 7008 are each reenacted and amended to read as follows:

3 The state drought preparedness and response account is created in
4 the state treasury. All receipts from appropriated funds designated
5 for the account and all cost recovery revenues collected under RCW
6 43.83B.410(5) must be deposited into the account. Expenditures from
7 the account may be used for drought preparedness and response
8 activities under this chapter, including grants issued under RCW
9 43.83B.415. (~~During the 2021-2023 fiscal biennium, moneys in the~~
10 ~~account may be used for water banking pilot projects.~~) Moneys in the
11 account may be spent only after appropriation. During the 2021-2023
12 and 2023-2025 fiscal (~~biennium~~) biennia, the legislature may
13 appropriate moneys from the account for activities related to water
14 banking.

15 **Sec. 8034.** RCW 43.88D.010 and 2021 c 332 s 7034 are each amended
16 to read as follows:

17 (1) By October 1st of each even-numbered year, the office of
18 financial management shall complete an objective analysis and scoring
19 of all capital budget projects proposed by the public four-year
20 institutions of higher education and submit the results of the
21 scoring process to the legislative fiscal committees and the four-
22 year institutions. Each project must be reviewed and scored within
23 one of the following categories, according to the project's principal
24 purpose. Each project may be scored in only one category. The
25 categories are:

26 (a) Access-related projects to accommodate enrollment growth at
27 all campuses, at existing or new university centers, or through
28 distance learning. Growth projects should provide significant
29 additional student capacity. Proposed projects must demonstrate that
30 they are based on solid enrollment demand projections, more
31 cost-effectively provide enrollment access than alternatives such as
32 university centers and distance learning, and make cost-effective use
33 of existing and proposed new space;

34 (b) Projects that replace failing permanent buildings. Facilities
35 that cannot be economically renovated are considered replacement
36 projects. New space may be programmed for the same or a different use
37 than the space being replaced and may include additions to improve
38 access and enhance the relationship of program or support space;

1 (c) Projects that renovate facilities to restore building life
2 and upgrade space to meet current program requirements. Renovation
3 projects should represent a complete renovation of a total facility
4 or an isolated wing of a facility. A reasonable renovation project
5 should cost between sixty to eighty percent of current replacement
6 value and restore the renovated area to at least twenty-five years of
7 useful life. New space may be programmed for the same or a different
8 use than the space being renovated and may include additions to
9 improve access and enhance the relationship of program or support
10 space;

11 (d) Major stand-alone campus infrastructure projects;

12 (e) Projects that promote economic growth and innovation through
13 expanded research activity. The acquisition and installation of
14 specialized equipment is authorized under this category; and

15 (f) Other project categories as determined by the office of
16 financial management in consultation with the legislative fiscal
17 committees.

18 (2) The office of financial management, in consultation with the
19 legislative fiscal committees, shall establish a scoring system and
20 process for each four-year project category that is based on the
21 framework used in the community and technical college system of
22 prioritization. Staff from the state board for community and
23 technical colleges and the four-year institutions shall provide
24 technical assistance on the development of a scoring system and
25 process.

26 (3) The office of financial management shall consult with the
27 legislative fiscal committees in the scoring of four-year institution
28 project proposals, and may also solicit participation by independent
29 experts.

30 (a) For each four-year project category, the scoring system must,
31 at a minimum, include an evaluation of enrollment trends,
32 reasonableness of cost, the ability of the project to enhance
33 specific strategic master plan goals, age and condition of the
34 facility if applicable, and impact on space utilization.

35 (b) Each four-year project category may include projects at the
36 predesign, design, or construction funding phase.

37 (c) To the extent possible, the objective analysis and scoring
38 system of all capital budget projects shall occur within the context
39 of any and all performance agreements between the office of financial
40 management and the governing board of a public, four-year institution

1 of higher education that aligns goals, priorities, desired outcomes,
2 flexibility, institutional mission, accountability, and levels of
3 resources.

4 (4) In evaluating and scoring four-year institution projects, the
5 office of financial management shall take into consideration project
6 schedules that result in realistic, balanced, and predictable
7 expenditure patterns over the ensuing three biennia.

8 (5) The office of financial management shall distribute common
9 definitions, the scoring system, and other information required for
10 the project proposal and scoring process as part of its biennial
11 budget instructions. The office of financial management, in
12 consultation with the legislative fiscal committees, shall develop
13 common definitions that four-year institutions must use in developing
14 their project proposals and lists under this section.

15 (6) In developing any scoring system for capital projects
16 proposed by the four-year institutions, the office of financial
17 management:

18 (a) Shall be provided with all required information by the four-
19 year institutions as deemed necessary by the office of financial
20 management;

21 (b) May utilize independent services to verify, sample, or
22 evaluate information provided to the office of financial management
23 by the four-year institutions; and

24 (c) Shall have full access to all data maintained by the joint
25 legislative audit and review committee concerning the condition of
26 higher education facilities.

27 (7) By August 1st of each even-numbered year each public four-
28 year higher education institution shall prepare and submit
29 prioritized lists of the individual projects proposed by the
30 institution for the ensuing six-year period in each category. The
31 lists must be submitted to the office of financial management and the
32 legislative fiscal committees. The four-year institutions may
33 aggregate minor works project proposals by primary purpose for
34 ranking purposes. Proposed minor works projects must be prioritized
35 within the aggregated proposal, and supporting documentation,
36 including project descriptions and cost estimates, must be provided
37 to the office of financial management and the legislative fiscal
38 committees.

39 (8) For ~~((the 2019-2021 fiscal biennium and))~~ the 2021-2023
40 fiscal biennium, pursuant to subsection (1) of this section, by

1 November 1, 2022, the office of financial management must score
2 higher education capital project criteria with a rating scale that
3 assesses how well a particular project satisfies those criteria. The
4 office of financial management may not use a rating scale that weighs
5 the importance of those criteria.

6 (9) For ~~((the 2019-2021 fiscal biennium and))~~ the 2021-2023
7 fiscal biennium, pursuant to subsection (6)(a) of this section and in
8 lieu of the requirements of subsection (7) of this section, by August
9 15, 2022, the institutions of higher education shall prepare and
10 submit or resubmit to the office of financial management and the
11 legislative fiscal committees:

12 (a) Individual project proposals developed pursuant to subsection
13 (1) of this section;

14 (b) Individual project proposals scored in prior biennia pursuant
15 to subsection (1) of this section; and

16 (c) A prioritized list of up to five project proposals submitted
17 pursuant to (a) and (b) of this subsection.

18 (10) The requirements of this section are suspended during the
19 2023-2025 fiscal biennium. However, instead of these requirements,
20 the public four-year institutions of higher education must submit
21 additional supporting information for major project funding requests
22 for the 2025-2027 fiscal biennium that is equivalent to the
23 information produced for the 2022 higher education scoring process
24 under subsection (9) of this section. Examples of the information
25 required under this subsection include, but are not limited to,
26 measures of: (a) Space efficiency, (b) reasonableness of project
27 cost, (c) facility condition, and (d) anticipated impacts of the
28 requested major projects on projected degree totals. The public four-
29 year institutions of higher education shall consult with the office
30 of financial management and legislative fiscal staff regarding the
31 implementation of this requirement and the content of the additional
32 information.

33 **Sec. 8035.** RCW 43.99N.060 and 2021 c 334 s 976 are each amended
34 to read as follows:

35 (1) The stadium and exhibition center account is created in the
36 custody of the state treasurer. All receipts from the taxes imposed
37 under RCW 82.14.0494 and distributions under RCW 67.70.240(1)(d)
38 shall be deposited into the account. Only the director of the office
39 of financial management or the director's designee may authorize

1 expenditures from the account. The account is subject to allotment
2 procedures under chapter 43.88 RCW. An appropriation is not required
3 for expenditures from this account.

4 (2) Until bonds are issued under RCW 43.99N.020, up to (~~five~~
5 ~~million dollars~~) \$5,000,000 per year beginning January 1, 1999,
6 shall be used for the purposes of subsection (3)(b) of this section,
7 all remaining moneys in the account shall be transferred to the
8 public stadium authority, created under RCW 36.102.020, to be used
9 for public stadium authority operations and development of the
10 stadium and exhibition center.

11 (3) After bonds are issued under RCW 43.99N.020, all moneys in
12 the stadium and exhibition center account shall be used exclusively
13 for the following purposes in the following priority:

14 (a) On or before June 30th of each year, the office of financial
15 management shall accumulate in the stadium and exhibition center
16 account an amount at least equal to the amount required in the next
17 succeeding twelve months for the payment of principal of and interest
18 on the bonds issued under RCW 43.99N.020;

19 (b) An additional reserve amount not in excess of the expected
20 average annual principal and interest requirements of bonds issued
21 under RCW 43.99N.020 shall be accumulated and maintained in the
22 account, subject to withdrawal by the state treasurer at any time if
23 necessary to meet the requirements of (a) of this subsection, and,
24 following any withdrawal, reaccumulated from the first tax revenues
25 and other amounts deposited in the account after meeting the
26 requirements of (a) of this subsection; and

27 (c) The balance, if any, shall be transferred to the youth
28 athletic facility account under subsection (4) of this section.

29 Any revenues derived from the taxes authorized by RCW
30 36.38.010(5) and 36.38.040 or other amounts that if used as provided
31 under (a) and (b) of this subsection would cause the loss of any tax
32 exemption under federal law for interest on bonds issued under RCW
33 43.99N.020 shall be deposited in and used exclusively for the
34 purposes of the youth athletic facility account and shall not be
35 used, directly or indirectly, as a source of payment of principal of
36 or interest on bonds issued under RCW 43.99N.020, or to replace or
37 reimburse other funds used for that purpose.

38 (4) Any moneys in the stadium and exhibition center account not
39 required or permitted to be used for the purposes described in
40 subsection (3)(a) and (b) of this section shall be deposited in the

1 youth athletic facility account hereby created in the state treasury.
2 Expenditures from the account may be used only for purposes of grants
3 or loans to cities, counties, and qualified nonprofit organizations
4 for community outdoor athletic facilities. Only the director of the
5 recreation and conservation office or the director's designee may
6 authorize expenditures from the account. The account is subject to
7 allotment procedures under chapter 43.88 RCW, but an appropriation is
8 not required for expenditures. The athletic facility grants or loans
9 may be used for acquiring, developing, equipping, maintaining, and
10 improving community outdoor athletic facilities. Funds shall be
11 divided equally between the development of new community outdoor
12 athletic facilities, the improvement of existing community outdoor
13 athletic facilities, and the maintenance of existing community
14 outdoor athletic facilities. Cities, counties, and qualified
15 nonprofit organizations must submit proposals for grants or loans
16 from the account. To the extent that funds are available, cities,
17 counties, and qualified nonprofit organizations must meet eligibility
18 criteria as established by the director of the recreation and
19 conservation office. The grants and loans shall be awarded on a
20 competitive application process and the amount of the grant or loan
21 shall be in proportion to the population of the city or county for
22 where the community outdoor athletic facility is located. Grants or
23 loans awarded in any one year need not be distributed in that year.
24 (~~In the 2009-2011 biennium, if there are not enough project~~
25 ~~applications submitted in a category within the account to meet the~~
26 ~~requirement of equal distribution of funds to each category, the~~
27 ~~director of the recreation and conservation office may distribute any~~
28 ~~remaining funds to other categories within the account.)) The
29 director of the recreation and conservation office may expend up to
30 one and one-half percent of the moneys deposited in the account
31 created in this subsection for administrative purposes. During the
32 2021-2023 fiscal biennium, the legislature may appropriate moneys
33 from the youth athletic facility account to support a task force to
34 consider ways to improve equitable access to K-12 schools' fields and
35 athletic facilities and local parks agency facilities with the goal
36 of increasing physical activity for youth and families. A portion of
37 the appropriation must be used to inventory K-12 school fields and
38 athletic facilities and park agency facilities. During the 2023-2025
39 fiscal biennium, the director of the recreation and conservation
40 office may expend up to four percent of the moneys deposited in the~~

1 account created in this subsection for administrative purposes, and
2 expenditures from the account may include grants and loans to
3 political subdivisions of the state other than cities and counties as
4 well as federally recognized Indian tribes.

5 **Sec. 8036.** RCW 43.155.050 and 2022 c 296 s 7009, 2022 c 182 s
6 302, and 2022 c 157 s 15 are each reenacted and amended to read as
7 follows:

8 (1) The public works assistance account is hereby established in
9 the state treasury. Money may be placed in the public works
10 assistance account from the proceeds of bonds when authorized by the
11 legislature or from any other lawful source. Money in the public
12 works assistance account shall be used to make loans and grants and
13 to give financial guarantees to local governments for public works
14 projects. Moneys in the account may also be appropriated or
15 transferred to the water pollution control revolving fund and the
16 drinking water assistance account to provide for state match
17 requirements under federal law. Moneys in the account may be
18 transferred to the move ahead WA account to provide support of public
19 works projects funded in the move ahead WA program. Not more than 20
20 percent of the biennial capital budget appropriation to the public
21 works board from this account may be expended or obligated for
22 preconstruction loans and grants, emergency loans and grants, or
23 loans and grants for capital facility planning under this chapter.
24 Not more than 10 percent of the biennial capital budget appropriation
25 to the public works board from this account may be expended or
26 obligated as grants for preconstruction, emergency, capital facility
27 planning, and construction projects. During the 2017-2019 and
28 2019-2021 fiscal biennia, the legislature may appropriate moneys from
29 the account for activities related to rural economic development, the
30 growth management act, the aviation revitalization loan program, the
31 community economic revitalization board broadband program, and the
32 voluntary stewardship program. During the 2021-2023 (~~biennium~~) and
33 2023-2025 fiscal biennia, the legislature may appropriate moneys from
34 the account for activities related to the community aviation
35 revitalization board. During the 2019-2021 fiscal biennia, the
36 legislature may direct the state treasurer to make transfers of
37 moneys in the public works assistance account to the education legacy
38 trust account. During the 2019-2021 and 2021-2023 fiscal biennia, the
39 legislature may direct the state treasurer to make transfers of

1 moneys in the public works assistance account to the statewide
2 broadband account. The legislature may appropriate moneys from the
3 public works assistance account for activities related to the
4 voluntary stewardship program, rural economic development, and the
5 growth management act. During the 2021-2023 biennium, the legislature
6 may appropriate moneys from the account for projects identified in
7 section 1033, chapter 296, Laws of 2022.

8 (2) For fiscal year 2024 through fiscal year 2038, the state
9 treasurer must transfer from the public works assistance account to
10 the move ahead WA account created in RCW 46.68.510 \$57,000,000 each
11 fiscal year in four equal quarterly transfers.

12 **Sec. 8037.** RCW 43.160.060 and 2014 c 112 s 108 are each amended
13 to read as follows:

14 (1) The board is authorized to make direct loans to political
15 subdivisions of the state and to federally recognized Indian tribes
16 for the purposes of assisting the political subdivisions and
17 federally recognized Indian tribes in financing the cost of public
18 facilities, including development of land and improvements for public
19 facilities, project-specific environmental, capital facilities, land
20 use, permitting, feasibility, and marketing studies and plans;
21 project design, site planning, and analysis; project debt and revenue
22 impact analysis; as well as the construction, rehabilitation,
23 alteration, expansion, or improvement of the facilities. A grant may
24 also be authorized for purposes designated in this chapter, but only
25 when, and to the extent that, a loan is not reasonably possible,
26 given the limited resources of the political subdivision or the
27 federally recognized Indian tribe and the finding by the board that
28 financial circumstances require grant assistance to enable the
29 project to move forward. However, no more than (~~twenty-five~~) 25
30 percent of all financial assistance approved by the board in any
31 biennium may consist of grants to political subdivisions and
32 federally recognized Indian tribes, except that rural broadband
33 grants awarded during the 2023-2025 fiscal biennium do not count
34 toward the 25 percent limit on awarding assistance as grants.

35 (2) Application for funds must be made in the form and manner as
36 the board may prescribe. In making grants or loans the board must
37 conform to the following requirements:

38 (a) The board may not provide financial assistance:

1 (i) For a project the primary purpose of which is to facilitate
2 or promote a retail shopping development or expansion.

3 (ii) For any project that evidence exists would result in a
4 development or expansion that would displace existing jobs in any
5 other community in the state.

6 (iii) For a project the primary purpose of which is to facilitate
7 or promote gambling.

8 (iv) For a project located outside the jurisdiction of the
9 applicant political subdivision or federally recognized Indian tribe.

10 (b) The board may only provide financial assistance:

11 (i) For a project demonstrating convincing evidence that a
12 specific private development or expansion is ready to occur and will
13 occur only if the public facility improvement is made that:

14 (A) Results in the creation of significant private sector jobs or
15 significant private sector capital investment as determined by the
16 board; and

17 (B) Will improve the opportunities for the successful
18 maintenance, establishment, or expansion of industrial or commercial
19 plants or will otherwise assist in the creation or retention of long-
20 term economic opportunities;

21 (ii) For a project that cannot meet the requirement of (b)(i) of
22 this subsection but is a project that:

23 (A) Results in the creation of significant private sector jobs or
24 significant private sector capital investment as determined by the
25 board;

26 (B) Is part of a local economic development plan consistent with
27 applicable state planning requirements;

28 (C) Can demonstrate project feasibility using standard economic
29 principles; and

30 (D) Is located in a rural community as defined by the board, or a
31 rural county;

32 (iii) For site-specific plans, studies, and analyses that address
33 environmental impacts, capital facilities, land use, permitting,
34 feasibility, marketing, project engineering, design, site planning,
35 and project debt and revenue impacts, as grants not to exceed fifty
36 thousand dollars.

37 (c) The board must develop guidelines for local participation and
38 allowable match and activities.

39 (d) An application must demonstrate local match and local
40 participation, in accordance with guidelines developed by the board.

1 (e) An application must be approved by the political subdivision
2 and supported by the local associate development organization or
3 local workforce development council or approved by the governing body
4 of the federally recognized Indian tribe.

5 (f) The board may allow de minimis general system improvements to
6 be funded if they are critically linked to the viability of the
7 project.

8 (g) An application must demonstrate convincing evidence that the
9 median hourly wage of the private sector jobs created after the
10 project is completed will exceed the countywide median hourly wage.

11 (h) The board must prioritize each proposed project according to:

12 (i) The relative benefits provided to the community by the jobs
13 the project would create, not just the total number of jobs it would
14 create after the project is completed, but also giving consideration
15 to the unemployment rate in the area in which the jobs would be
16 located;

17 (ii) The rate of return of the state's investment, including, but
18 not limited to, the leveraging of private sector investment,
19 anticipated job creation and retention, and expected increases in
20 state and local tax revenues associated with the project;

21 (iii) Whether the proposed project offers a health insurance plan
22 for employees that includes an option for dependents of employees;

23 (iv) Whether the public facility investment will increase
24 existing capacity necessary to accommodate projected population and
25 employment growth in a manner that supports infill and redevelopment
26 of existing urban or industrial areas that are served by adequate
27 public facilities. Projects should maximize the use of existing
28 infrastructure and provide for adequate funding of necessary
29 transportation improvements;

30 (v) Whether the applicant's permitting process has been certified
31 as streamlined by the office of regulatory assistance; and

32 (vi) Whether the applicant has developed and adhered to
33 guidelines regarding its permitting process for those applying for
34 development permits consistent with section 1(2), chapter 231, Laws
35 of 2007.

36 (i) A responsible official of the political subdivision or the
37 federally recognized Indian tribe must be present during board
38 deliberations and provide information that the board requests.

39 (3) Before any financial assistance application is approved, the
40 political subdivision or the federally recognized Indian tribe

1 seeking the assistance must demonstrate to the community economic
2 revitalization board that no other timely source of funding is
3 available to it at costs reasonably similar to financing available
4 from the community economic revitalization board.

5 (4) During the 2023-2025 fiscal biennium, the board may award
6 broadband grants in accordance with state appropriations and
7 requirements for the broadband equity, access, and deployment program
8 in section 60102 of P.L. 117-58 (infrastructure investment and jobs
9 act) and section 1002, chapter . . ., Laws of 2023 (section 1002 of
10 this act).

11 **Sec. 8038.** RCW 43.185.050 and 2021 c 332 s 7032 and 2021 c 130 s
12 5 are each reenacted and amended to read as follows:

13 (1) The department must use moneys from the housing trust fund
14 and other legislative appropriations to finance in whole or in part
15 any loans or grant projects that will provide housing for persons and
16 families with special housing needs and with incomes at or below
17 (~~fifty~~) 50 percent of the median family income for the county or
18 standard metropolitan statistical area where the project is located.
19 At least (~~thirty~~) 30 percent of these moneys used in any given
20 funding cycle must be for the benefit of projects located in rural
21 areas of the state as defined by the department. If the department
22 determines that it has not received an adequate number of suitable
23 applications for rural projects during any given funding cycle, the
24 department may allocate unused moneys for projects in nonrural areas
25 of the state.

26 (2) Activities eligible for assistance from the housing trust
27 fund and other legislative appropriations include, but are not
28 limited to:

29 (a) New construction, rehabilitation, or acquisition of low and
30 very low-income housing units;

31 (b) Rent subsidies;

32 (c) Matching funds for social services directly related to
33 providing housing for special-need tenants in assisted projects;

34 (d) Technical assistance, design and finance services and
35 consultation, and administrative costs for eligible nonprofit
36 community or neighborhood-based organizations;

37 (e) Administrative costs for housing assistance groups or
38 organizations when such grant or loan will substantially increase the

1 recipient's access to housing funds other than those available under
2 this chapter;

3 (f) Shelters and related services for the homeless, including
4 emergency shelters and overnight youth shelters;

5 (g) Mortgage subsidies, including temporary rental and mortgage
6 payment subsidies to prevent homelessness;

7 (h) Mortgage insurance guarantee or payments for eligible
8 projects;

9 (i) Down payment or closing cost assistance for eligible first-
10 time home buyers;

11 (j) Acquisition of housing units for the purpose of preservation
12 as low-income or very low-income housing;

13 (k) Projects making housing more accessible to families with
14 members who have disabilities; and

15 (l) Remodeling and improvements as required to meet building
16 code, licensing requirements, or legal operations to residential
17 properties owned and operated by an entity eligible under RCW
18 43.185A.040, which were transferred as described in RCW
19 82.45.010(3)(t) by the parent of a child with developmental
20 disabilities.

21 (3) Preference must be given for projects that include an early
22 learning facility, as defined in RCW 43.31.565.

23 (4) Legislative appropriations from capital bond proceeds may be
24 used only for the costs of projects authorized under subsection
25 (2)(a), (i), and (j) of this section, and not for the administrative
26 costs of the department, except that during the 2021-2023 and
27 2023-2025 fiscal (~~biennium~~) biennia, the department may use up to
28 three percent of the appropriations from capital bond proceeds for
29 administrative costs associated with application, distribution, and
30 project development activities of the housing assistance program.

31 (5) Moneys from repayment of loans from appropriations from
32 capital bond proceeds may be used for all activities necessary for
33 the proper functioning of the housing assistance program except for
34 activities authorized under subsection (2)(b) and (c) of this
35 section.

36 (6) Administrative costs associated with application,
37 distribution, and project development activities of the department
38 may not exceed three percent of the annual funds available for the
39 housing assistance program. Reappropriations must not be included in

1 the calculation of the annual funds available for determining the
2 administrative costs.

3 (7) Administrative costs associated with compliance and
4 monitoring activities of the department may not exceed one-quarter of
5 one percent annually of the contracted amount of state investment in
6 the housing assistance program.

7 **Sec. 8039.** RCW 87.03.136 and 2011 c 50 s 1 are each amended to
8 read as follows:

9 An irrigation district has the power to sell or lease real
10 property owned by the district whenever its board of directors, by
11 resolution: Determines that the property is not necessary or needed
12 for the use of the district; and authorizes the sale or lease. Notice
13 of the district's intention to sell or lease the property shall be
14 made by publication at least (~~twenty~~) 20 days before the
15 transaction is executed regarding the property in a newspaper of
16 general circulation in the county where the property or part of the
17 property is located or, if there is no such newspaper in the county,
18 in a newspaper of general circulation published in an adjoining
19 county. The publication shall be made at least once a week during
20 three consecutive weeks. The notice shall state whether the sale or
21 lease will be negotiated by the district or will be awarded by bid.

22 The district may lease the property for a duration determined by
23 the board, afford the lessee the option to purchase the property,
24 sell the property on contract for deferred payments, sell the
25 property pursuant to a promissory note secured by a mortgage or deed
26 of trust, or sell the property for cash and conveyance by deed. The
27 appropriate documents shall be executed by the president of the board
28 and acknowledged by the secretary.

29 The resolution authorizing the sale or lease shall be entered in
30 the minutes of the board and shall fix the price at which the lease,
31 option, or sale may be made. The price shall be not less than the
32 reasonable market value of the property; however, the board may,
33 without consideration, dedicate, grant, or convey district land or
34 easements in district land for highway or public utility purposes
35 that convenience the inhabitants of the district if the board deems
36 that the action will enhance the value of the remaining district land
37 to an extent equal to or greater than the value of the land or
38 easement dedicated, granted, or conveyed.

1 During the 2023-2025 fiscal biennium, the limitations under this
2 section on the power of an irrigation district to sell or lease real
3 property owned by the district do not apply to property transferred
4 to the bureau of reclamation or to a public owner under section 3080,
5 chapter . . ., Laws of 2023 (section 3080 of this act).

6 NEW SECTION. Sec. 8040. If any provision of this act or its
7 application to any person or circumstance is held invalid, the
8 remainder of the act or the application of the provision to other
9 persons or circumstances is not affected.

10 NEW SECTION. Sec. 8041. Section 8038 of this act takes effect
11 if Engrossed Substitute Senate Bill No. 5301 (concerning housing
12 programs administered by the department of commerce), is not enacted
13 by June 30, 2023.

14 NEW SECTION. Sec. 8042. Except for section 8038 of this act,
15 this act is necessary for the immediate preservation of the public
16 peace, health, or safety, or support of the state government and its
17 existing public institutions, and takes effect immediately.
