12 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

13 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted  
14 and, subject to the provisions set forth in this act, the several  
15 dollar amounts hereinafter specified, or so much thereof as shall be  
16 sufficient to accomplish the purposes designated, are hereby  
17 appropriated and authorized to be incurred for capital projects  
18 during the period beginning with the effective date of this act and  
19 ending June 30, 2025, out of the several funds specified in this act.  
20 (2) The definitions in this subsection apply throughout this act  
21 unless the context clearly requires otherwise.

1 (a) "Fiscal year 2024" or "FY 2024" means the period beginning  
2 July 1, 2023, and ending June 30, 2024.

3 (b) "Fiscal year 2025" or "FY 2025" means the period beginning  
4 July 1, 2024, and ending June 30, 2025.

5 (c) "Lapse" or "revert" means the amount shall return to an  
6 unappropriated status.

7 (d) "Provided solely" means the specified amount may be spent  
8 only for the specified purpose.

9 (3) Unless otherwise specifically authorized in this act, any  
10 portion of an amount provided solely for a specified purpose that is  
11 not expended subject to the specified conditions and limitations to  
12 fulfill the specified purpose shall lapse.

13 (4) The amounts shown under the headings "Prior Biennia," "Future  
14 Biennia," and "Total" in this act are for informational purposes only  
15 and do not constitute legislative approval of these amounts. "Prior  
16 biennia" typically refers to the immediate prior biennium for  
17 reappropriations, but may refer to multiple biennia in the case of  
18 specific projects. A "future biennia" amount is an estimate of what  
19 may be appropriated for the project or program in the 2025-2027  
20 biennium and the following three biennia; an amount of zero does not  
21 necessarily constitute legislative intent to not provide funding for  
22 the project or program in the future.

23 (5) "Reappropriations" in this act are appropriations and, unless  
24 the context clearly provides otherwise, are subject to the relevant  
25 conditions and limitations applicable to appropriations.  
26 Reappropriations shall be limited to the unexpended balances  
27 remaining on June 30, 2023, from the 2021-2023 biennial  
28 appropriations for each project.

34 can be used to acquire mobile or manufactured home communities for  
35 the purpose of avoiding household displacement due to sale or other  
36 transactions and ensuring preservation of housing affordability for

39 account—state appropriation is provided solely for the following list  
40 of projects:

1 as average and median per unit costs, regional cost variation, and

3 controls and enhance understanding of development costs. The  
4 department must coordinate with the housing finance commission to  
5 identify relevant development costs data and ensure that the measures  
6 are consistent across relevant agencies.

7 (10) The department shall strive to allocate at least 30 percent  
8 of the funds provided in this section to projects located in rural  
9 areas of the state, as defined by the department.

12 the manner prescribed in each subsection of this section. However, if  
13 upon review of applications the department determines there are not  
14 adequate suitable projects in a category, the department may allocate  
15 funds to other affordable housing projects serving other low-income  
16 and special needs populations, provided those projects are located in  
17 an area with an identified need for the type of housing proposed.

**PART 7**  
**SUPPLEMENTAL**

**Sec. 7001.** 2022 c 296 s 1018 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF COMMERCE**

2021-23 Clean Energy V - Investing in Washington's Clean Energy (40000148)

The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations in this section are provided solely for projects that provide a benefit to the public through development, demonstration, and deployment of clean energy technologies that save energy and reduce energy costs, reduce harmful air emissions, or increase energy independence for the state. Priority must be given to projects that benefit vulnerable populations and overburdened communities, including tribes and communities with high environmental or energy burdens.

(2) The 2021 state energy strategy must guide the department in the design of programs under this section, using an equity and environmental justice lens for program structure and participation. To the extent practicable, the department must prioritize projects that build upon Washington's existing strengths in communities, aerospace, maritime, information and communications technology (particularly data center infrastructure, artificial intelligence and machine learning), grid modernization, advanced materials, and decarbonizing the built environment.

(3) Subject to the availability of funds, the department must reconvene an advisory committee to support involvement of a broad range of stakeholders in the design and implementation of programs implemented under this section to encourage collaboration, leverage partners, and engage communities and organizations in improving the equitable distribution of benefits from the program.

(4) In soliciting and evaluating proposals, awarding contracts, and monitoring projects under this section, the department must:

(a) Ensure that competitive processes, rather than sole source contracting processes, are used to select all projects, except as otherwise noted in this section; and

1 (b) Conduct due diligence activities associated with the use of  
2 public funds including, but not limited to, oversight of the project  
3 selection process, project monitoring, and ensuring that all  
4 applications and contracts fully comply with all applicable laws  
5 including disclosure and conflict of interest statutes.

6 (5) During project solicitation periods for grants funded with  
7 this appropriation, the department must maintain a list of applicants  
8 by grant program that scored competitively but did not receive a  
9 grant award due to lack of available funding. These applicants must  
10 be considered for funding during future grant award cycles. If the  
11 department submits a 2022 supplemental budget request for this  
12 program, the request must include a list of prioritized projects by  
13 grant type.

14 (6)(a) Pursuant to chapter 42.52 RCW, the ethics in public  
15 service act, the department must require a project applicant to  
16 identify in application materials any state of Washington employees  
17 or former state employees employed by the firm or on the firm's  
18 governing board during the past 24 months. Application materials must  
19 identify the individual by name, the agency previously or currently  
20 employing the individual, job title or position held, and separation  
21 date. If it is determined by the department that a conflict of  
22 interest exists, the applicant may be disqualified from further  
23 consideration for award of funding.

24 (b) If the department finds, after due notice and examination,  
25 that there is a violation of chapter 42.52 RCW, or any similar  
26 statute involving a grantee who received funding under this section,  
27 either in procuring or performing under the grant, the department in  
28 its sole discretion may terminate the funding grant by written  
29 notice. If the grant is terminated, the department must reserve its  
30 right to pursue all available remedies under law to address the  
31 violation.

32 (7) The requirements in subsections (4) and (6) of this section  
33 must be specified in funding agreements issued by the department.

34 (8) \$17,594,000 of the state building construction account—state  
35 appropriation is provided solely for grid modernization grants.

36 (a)(i) \$11,000,000 is provided solely for projects that: Advance  
37 community resilience, clean and renewable energy technologies and  
38 transmission and distribution control systems; support integration of  
39 renewable energy sources, deployment of distributed energy resources  
40 and sustainable microgrids; and support state decarbonization goals

1 pursuant to the clean energy transformation act, including  
2 requirements placed upon retail electric utilities.

3 (ii) Projects must be implemented by community organizations,  
4 local governments, federally recognized tribal governments, or by  
5 public and private electrical utilities that serve retail customers  
6 in the state (retail electric utilities). Projects submitted by  
7 applicants other than retail electric utilities must demonstrate  
8 partnership with their load serving entity to apply. Priority must be  
9 given to:

10 (A) Projects that benefit vulnerable populations, including  
11 tribes and communities with high environmental or energy burden; and

12 (B) Projects that demonstrate partnerships between eligible  
13 applicants in applying for funding, including utilities, public and  
14 private sector research organizations, businesses, tribes, and  
15 nonprofit organizations.

16 (iii) The department shall develop a grant application process to  
17 competitively select projects for grant awards, to include scoring  
18 conducted by a group of qualified experts with application of  
19 criteria specified by the department. In development of the  
20 application criteria, the department shall, to the extent possible,  
21 develop program guidelines that encourage smaller utilities or  
22 consortia of small utilities to apply for funding. Where suitable,  
23 this may include funding for projects consisting solely of planning,  
24 predesign and/or predevelopment activities.

25 (iv) Applications for grants must disclose all sources of public  
26 funds invested in a project.

27 (b) \$3,550,000 of the appropriation in this section is provided  
28 solely for a grant to the Public Utility District No. 1 of Lewis  
29 county for land acquisition and construction of the Winlock  
30 Industrial Park and South County Substation and Transmission  
31 facility, located on North Military Road in Winlock.

32 (c) \$3,044,000 of the appropriation in this section is provided  
33 solely for a grant to the Klickitat County Public Hospital District  
34 #1 for the Electrical Upgrade and Smart Grid project at the Klickitat  
35 Valley Health Hospital in Goldendale.

36 (9) \$10,830,000 of the state building construction account—state  
37 appropriation is provided solely for grants for strategic research  
38 and development for new and emerging clean energy technologies. These  
39 grants must be used to match federal or other nonstate funds to  
40 research, develop, and demonstrate clean energy technologies,

1 focusing on areas that help develop technologies to meet the state's  
2 climate goals, offer opportunities for economic and job growth, and  
3 strengthen technology supply chains. The program may include, but is  
4 not limited to: Solar technologies, advanced bioenergy and biofuels,  
5 development of new earth abundant materials or lightweight materials,  
6 advanced energy storage, recycling energy system components, and new  
7 renewable energy and energy efficiency technologies.

8 (a) \$5,000,000 of the appropriation in this section is provided  
9 solely for competitive grants.

10 (b) \$4,800,000 of the appropriation in this section is provided  
11 solely for a grant to the Pacific Northwest National Laboratory for a  
12 renewable energy platform to support ocean energy research and  
13 development testbeds for the Marine and Coastal Research Laboratory  
14 in Sequim.

15 (c) \$1,030,000 of the appropriation in this section is provided  
16 solely for a grant to the Chelan County Public Utility District for  
17 the hydroelectric turbine hub project at Rocky Reach dam near  
18 Wenatchee.

19 (10)(a) \$2,500,000 of the state taxable building construction  
20 account—state appropriation is provided solely as grants to nonprofit  
21 lenders to create a revolving loan fund to support the widespread use  
22 of proven energy efficiency and renewable energy technologies by  
23 households, or for the benefit of households, with high energy burden  
24 or environmental health risk now inhibited by lack of access to  
25 capital.

26 (b) The department shall provide grant funds to one or more  
27 competitively selected nonprofit lenders that must provide matching  
28 private capital and administer the loan fund. The department shall  
29 select the loan fund administrator or administrators through a  
30 competitive process, with scoring conducted by a group of qualified  
31 experts, applying criteria specified by the department.

32 (c) The department must establish guidelines that specify  
33 applicant eligibility, the screening process, and evaluation and  
34 selection criteria. The guidelines must be used by the nonprofit  
35 lenders.

36 (11) \$5,550,000 of the state building construction account—state

16 demand control, and on-site renewable generation and efficiency  
17 measures that significantly reduce building energy loads.

18 (c) Preference must be given to projects based on total  
19 greenhouse gas emissions reductions, accelerating the path to zero-  
20 energy, or that demonstrate early adoption of grid integration  
21 technology.

35 project completed within the past year, descriptive statistics such  
36 as average and median per unit costs, regional cost variation, and  
37 other costs that the department deems necessary to improve cost  
38 controls and enhance understanding of development costs. The  
39 department must coordinate with the housing finance commission to  
40 identify relevant development costs data and ensure that the measures

1 are consistent across relevant agencies. (7) \$100,000 of the state  
2 building construction account—state appropriation is provided solely

4 of the community-based housing needs of adults with intellectual and  
5 developmental disabilities. The department of social and health  
6 services shall collaborate with appropriate stakeholders and the  
7 department in completing this study and the study shall:

8 (a) Estimate the number of adults with intellectual and  
9 developmental disabilities who are facing housing insecurity;

10 (b) Make recommendations for how to improve housing stability for  
11 adults with intellectual and developmental disabilities who are  
12 facing housing insecurity;

13 (c) Make recommendations for how to increase the capacity of  
14 developers to support increasing the supply of housing that meets the  
15 needs of the intellectual and developmental disabilities population;  
16 and

17 (d) Be submitted to the appropriate committees of the legislature  
18 no later than December 1, 2022. (8) The legislature finds that there  
19 are insufficient data sources to identify adults with intellectual  
20 and developmental disabilities facing housing insecurity in  
21 Washington state and that the absence of reliable data limits the  
22 ability for the legislature to make informed decisions that will  
23 improve the outcomes of these individuals. The legislature further  
24 finds that reliable, current information about the unmet housing  
25 needs of this population will position Washington state to leverage  
26 community-based partnerships and funding to establish greater housing  
27 choice and increased community integration of individuals with  
28 intellectual and developmental disabilities.

5 **FOR THE DEPARTMENT OF COMMERCE**

6 2022 Local & Community Projects (40000230)

7 The appropriation in this section is subject to the following  
8 conditions and limitations:

9 (1) The department may not expend the appropriation in this  
10 section unless and until the nonstate share of project costs have  
11 been either expended or firmly committed, or both, in an amount  
12 sufficient to complete the project or a distinct phase of the project  
13 that is useable to the public for the purpose intended by the  
14 legislature. This requirement does not apply to projects where a  
15 share of the appropriation is for design costs only.

16 (2) Prior to receiving funds, project recipients must demonstrate  
17 that the project site is under control for a minimum of 10 years,  
18 either through ownership or a long-term lease. This requirement does  
19 not apply to appropriations for preconstruction activities or  
20 appropriations in which the sole purpose is to purchase real property  
21 that does not include a construction or renovation component.

22 (3) Projects funded in this section may be required to comply  
23 with Washington's high-performance building standards as required by  
24 chapter 39.35D RCW.

25 (4) Project funds are available on a reimbursement basis only,  
26 and may not be advanced under any circumstances.

27 (5) In contracts for grants authorized under this section, the  
28 department must include provisions that require that capital  
29 improvements be held by the grantee for a specified period of time  
30 appropriate to the amount of the grant and that facilities be used  
31 for the express purpose of the grant. If the grantee is found to be  
32 out of compliance with provisions of the contract, the grantee shall

39 (b) The funding for the Magnuson Park Historic Hanger 2 (Seattle)  
40 project is contingent on the contribution of at least \$6,000,000 for

1 the Magnuson Park Center For Excellence. If the Magnuson Park Center  
 2 For Excellence has not certified to the department of commerce that  
 3 the project has secured at least \$6,000,000 in total funding for the  
 4 capital phase of the project by July 31, 2022, the funds in this  
 5 subsection (8)(b) shall lapse. The lapse date of July 31, 2022, must  
 6 be extended to the same extent that the city of Seattle grants an  
 7 extension, if any, beyond that date for the same project, provided  
 8 that no further extension may be granted past July 31, 2023. The  
 9 Magnuson Park Center For Excellence must ensure that the long-term  
 10 lease with Seattle Parks and Recreation stipulates meaningful public  
 11 benefits that prioritize low-income, black, indigenous, and people of  
 12 color youth and families of the Magnuson park and neighborhood and  
 13 Northeast Seattle. The lease must include provisions to proactively  
 14 recruit and provide no-cost access to the residents as well as the  
 15 creation of a scholarship fund dedicated to the residents for the  
 16 center's events and programming. Additional public benefits to  
 17 improve accessibility for Magnuson Park residents must be considered  
 18 in the lease negotiations.

2 solely for grants to local governments, public higher education  
3 institutions, school districts, federally recognized tribal

11 with a population of 5,000 or fewer residents.

12 (iii) In each competitive round, a higher energy savings to  
13 investment ratio must result in a higher project ranking. Priority  
14 consideration must be given to applicants that have not received  
15 grant awards for this purpose in prior biennia.

16 (iv) The department must determine a minimum match ratio to  
17 maximize the leverage of nonstate funds.

18 (b) \$450,000 of the appropriation in this section is provided  
19 solely for a grant to Western Washington University for the heating  
20 system conversion feasibility study.

6 replace existing building systems and reduce greenhouse gas emissions  
7 from state operations, including, but not limited to, HVAC, lighting,

9 this funding is dependent on an analysis using the office of  
10 financial management's life-cycle cost tool that compares project  
11 design alternatives for initial and long-term cost-effectiveness.  
12 Assuming a reasonable return on investment, the department shall  
13 provide grants in the amount required to improve the project's energy

1 The appropriation in this section is subject to the following  
2 conditions and limitations:

3 (1) The department may not expend the appropriation in this  
4 section unless and until the nonstate share of project costs have  
5 been either expended or firmly committed, or both, in an amount  
6 sufficient to complete the project or a distinct phase of the project  
7 that is useable to the public for the purpose intended by the  
8 legislature. This requirement does not apply to projects where a  
9 share of the appropriation is for design costs only.

10 (2) Prior to receiving funds, project recipients must demonstrate

22 department must include provisions that require that capital  
23 improvements be held by the grantee for a specified period of time  
24 appropriate to the amount of the grant and that facilities be used  
25 for the express purpose of the grant. If the grantee is found to be  
26 out of compliance with provisions of the contract, the grantee shall  
27 repay to the state general fund the principal amount of the grant  
28 plus interest calculated at the rate of interest on state of  
29 Washington general obligation bonds issued most closely to the date

33 to pay state prevailing wages.

22 The appropriations in this section are subject to the following  
23 conditions and limitations:

24 (1) (a) (~~(\$207,628,000)~~) \$187,628,000 of the capital community  
25 assistance account—state appropriation in this section is provided  
26 solely for the department to issue competitive financial assistance  
27 to eligible organizations under RCW 43.185A.040 to acquire real  
28 property for a rapid conversion into enhanced emergency shelters,  
29 permanent supportive housing, transitional housing, permanent  
30 housing, youth housing, or shelter for extremely low-income people,  
31 as well as individuals, families, unaccompanied youth, and young  
32 people experiencing sheltered and unsheltered homelessness. The  
33 department shall prioritize housing projects that will rapidly move  
34 people experiencing unsheltered homelessness into housing, including,  
35 but not limited to, individuals living in unsanctioned encampments,  
36 the public rights-of-way, or other public spaces. Amounts provided in  
37 this section may also be used for renovation and building update

1 costs associated with establishment of the acquired facilities. The  
2 department may only approve funding for projects resulting in  
3 increased shelter or housing capacity. Amounts provided in this  
4 section may not be used for operating or maintenance costs associated  
5 with providing housing, supportive services, or debt service.

6 (b) \$20,000,000 of the capital community assistance account—state  
7 appropriation in this section is provided solely for housing projects  
8 in rural areas as defined by the department under RCW 43.185.050 and  
9 underserved communities with the goal of maximizing the investment  
10 and increasing the number of supportive housing units in rural,  
11 underserved communities.

12 (c) \$2,000,000 of the capital community assistance account—state  
13 appropriation in this section is provided solely for the Woodley  
14 Place by Bayside Housing and Services project in Port Hadlock.

15 (d) \$172,000 of the capital community assistance account—state  
16 appropriation in this section is provided solely for Building  
17 Transitional Tiny Homes for the Homeless project in Seattle.

18 (e) \$200,000 of the capital community assistance account—state  
19 appropriation in this section is provided solely for the department  
20 to contract and work with a professional real estate broker to  
21 identify opportunities for rapid acquisition or conversion of  
22 properties.

23 (f) \$10,000,000 of the capital community assistance account—state  
24 appropriation in this section is provided solely for unexpected cost  
25 increases experienced by projects funded by prior rapid capital  
26 appropriations. The department must create a process by which  
27 providers that received prior rapid capital awards may request  
28 additional funding for unexpected costs of affordable housing  
29 projects that are under or ready for construction

30 (g) When selecting projects, the department shall balance the  
31 state's interest in quickly approving and financing projects, the  
32 degree to which the project will leverage other funds, the extent to  
33 which the project promotes racial equity, and the extent to which the  
34 project will promote priorities on a statewide basis, including in  
35 rural areas and in geographically diverse parts of the state.

36 (h) Amounts appropriated under this section may also be used for  
37 permanent financing for real estate acquired using other short-term  
38 acquisition sources. To expand availability of permanent housing,  
39 financing of acquisition of multifamily housing is a priority.

1 (i) While emphasizing the rapid deployment of the amounts  
2 appropriated under this section to alleviate the immediate crisis of  
3 homelessness throughout the state, the department shall use criteria  
4 for the issuance of funds that were developed to administer prior  
5 rapid capital appropriations, and which must include:

6 (i) The date upon which the units can be placed in service and  
7 occupied by the intended population, or the date any necessary  
8 structural modifications would begin and the anticipated date of  
9 completion of the project;

10 (ii) A detailed estimate of the costs associated with the  
11 acquisition and any updates or improvements necessary to make the  
12 property habitable for its intended use;

13 (iii) A detailed estimate of the costs associated with placing  
14 the beds or units in service; and

15 (iv) A financial plan demonstrating the ability to maintain and  
16 operate the property and support its intended tenants.

17 (j) If the recipient is found to be out of compliance with  
18 provisions of the contract, the recipient shall repay to the state  
19 general fund the principal amount of the award plus interest  
20 calculated at the rate of interest on state of Washington general  
21 obligation bonds issued on the date most close in time to the date of  
22 authorization of the award.

23 (k) The department must provide a progress report on its website  
24 by December 30, 2023. The report must include:

25 (i) The total number of applications and amount of funding  
26 requested; and

27 (ii) A list and description of the projects approved for funding  
28 including state funding, total project cost, services anticipated to  
29 be provided, housing units, and anticipated completion date.

30 (l) The funding provided under this section is not subject to the  
31 90-day application periods in RCW 43.185.070 or 43.185A.050.

32 (m) The department shall prioritize proposals that reach the  
33 greatest public benefit, as defined by the department. For purposes  
34 of this subsection (1)(m), "greatest public benefit" must include,  
35 but is not limited to:

36 (i) The rapid transition of people living unsheltered or  
37 chronically homeless, into housing;

38 (ii) The greatest number of accommodations or increased shelter  
39 capacity that will benefit extremely low-income people, as well as  
40 individuals, families, and youth experiencing homelessness;

1 (iii) Whether the project has local funding commitments and  
2 rental assistance;

3 (iv) The scarcity of the affordable housing or shelter capacity  
4 applied for compared to the number of available affordable housing  
5 units or shelter capacity in the same geographic location; and

6 (v) The program's established funding priorities under RCW  
7 43.185.070(5).

8 (n) The department must strive to allocate all of the amounts  
9 appropriated in this section within the 2021-2023 fiscal biennium in  
10 the manner prescribed in this section. However, if upon review of  
11 applications the department determines there are not adequate  
12 suitable projects in (a) of this subsection, the department may  
13 allocate funds to (f) of this subsection or to projects serving other  
14 low-income and special needs populations, provided those projects are  
15 located in an area with an identified need for the type of housing  
16 proposed.

17 (2) \$60,000,000 of the apple health and homes account—state  
18 appropriation in this section is provided solely for the rapid  
19 permanent supportive housing program created under chapter . . . ,  
20 Laws of 2022 (Engrossed Substitute House Bill No. 1866) and the  
21 creation of a housing dashboard providing permanent supportive  
22 housing need and current capacity data. Of the amounts in this  
23 subsection, \$1,500,000 is provided solely for the St. Agnes Haven  
24 project in Spokane. If Engrossed Substitute House Bill No. 1866 is  
25 not enacted by June 30, 2022, the amount provided in this subsection  
26 shall lapse.

27 The appropriations in this section are subject to the following  
28 conditions and limitations:

29 (1) The appropriations in this section are provided solely for  
30 the department to issue grants to community hospitals or other  
31 community providers to expand and establish new capacity for  
32 behavioral health services in communities. The department must

34 department of social and health services, the health care authority,  
35 one representative from a managed care organization, one  
36 representative from an accountable care organization, and one  
37 representative from the association of county human services. Amounts

2 may approve funding for the acquisition of a facility if the project  
3 will result in increased behavioral health capacity. Amounts provided  
4 in this section may not be used for operating costs associated with  
5 the treatment of patients using these services.

6 (2) The department must establish criteria for the issuance of  
7 the grants, which must include:

8 (a) Evidence that the application was developed in collaboration  
9 with one or more regional behavioral health entities that administer  
10 the purchasing of services;

11 (b) Evidence that the applicant has assessed and would meet gaps  
12 in geographical behavioral health services needs in their region;

13 (c) Evidence that the applicant is able to meet applicable  
14 licensing and certification requirements in the facility that will be  
15 used to provide services;

17 funded and persons detained under the involuntary treatment act under  
18 chapter 71.05 RCW;

20 beds or facility for a time period commensurate to the state  
21 investment, but for at least a 15-year period;

22 (f) The date upon which structural modifications or construction  
23 would begin and the anticipated date of completion of the project;

24 (g) A detailed estimate of the costs associated with opening the  
25 beds;

26 (h) A financial plan demonstrating the ability to maintain and  
27 operate the facility; and

28 (i) The applicant's commitment to work with local courts and  
29 prosecutors to ensure that prosecutors and courts in the area served  
30 by the hospital or facility will be available to conduct involuntary  
31 commitment hearings and proceedings under chapter 71.05 RCW.

33 section, the department, in consultation with the advisory group

33 required reserves pursuant to chapter 39.94 RCW to construct an  
34 allied health, science, and manufacturing replacement building.

35 (c) Enter into a financing contract on behalf of South Puget  
36 Sound Community College for up to \$5,000,000 plus financing expenses  
37 and required reserves pursuant to chapter 39.94 RCW to renovate a  
38 health education building.

39 (d) Enter into a financing contract on behalf of Bates Technical  
40 College for up to \$1,350,000 plus financing expenses and required

1 reserves pursuant to chapter 39.94 RCW to purchase land and  
2 facilities.

3 (7) The department of ecology: Enter into a financing contract  
4 for up to \$3,797,000 plus financing expenses and required reserves  
5 pursuant to chapter 39.94 RCW for the Lacey headquarters parking  
6 garage preservation project.

7 NEW SECTION. **Sec. 7055.** 2021 c 332 s 3111 (uncodified) is  
8 repealed.

(End of part)

1 **PART 8**

2 **MISCELLANEOUS PROVISIONS**

3 NEW SECTION. **Sec. 8001.** RCW 43.88.031 requires the disclosure  
4 of the estimated debt service costs associated with new capital bond  
5 appropriations. The estimated debt service costs for the  
6 appropriations contained in this act are \$62,480,000 for the  
7 2023-2025 biennium, \$379,283,000 for the 2025-2027 biennium, and  
8 \$529,187,000 for the 2027-2029 biennium.

9 NEW SECTION. **Sec. 8002.** ACQUISITION OF PROPERTIES AND  
10 FACILITIES THROUGH FINANCIAL CONTRACTS. (1) The following agencies  
11 may enter into financial contracts, paid from any funds of an agency,  
12 appropriated or nonappropriated, for the purposes indicated and in  
13 not more than the principal amounts indicated, plus financing  
14 expenses and required reserves pursuant to chapter 39.94 RCW. When  
15 securing properties under this section, agencies shall use the most  
16 economical financial contract option available, including long-term  
17 leases, lease-purchase agreements, lease-development with option to  
18 purchase agreements or financial contracts using certificates of  
19 participation. Expenditures made by an agency for one of the  
20 indicated purposes before the issue date of the authorized financial  
21 contract and any certificates of participation therein are intended  
22 to be reimbursed from proceeds of the financial contract and any  
23 certificates of participation therein to the extent provided in the  
24 agency's financing plan approved by the state finance committee.

25 (2) Those noninstructional facilities of higher education  
26 institutions authorized in this section to enter into financial  
27 contracts are not eligible for state funded maintenance and  
28 operations. Instructional space that is available for regularly  
29 scheduled classes for academic transfer, basic skills, and workforce  
30 training programs may be eligible for state funded maintenance and  
31 operations.

32 (3) Secretary of state: Enter into a financing contract for up to  
33 \$119,000,000 plus financing expenses, required reserves, and  
34 capitalized interest pursuant to chapter 39.94 RCW to construct a new  
35 library-archives building.

36 (4) Department of social and health services: Enter into a  
37 financing contract for up to \$146,038,000 plus costs and financing  
38 expenses, required reserves, and capitalized interest pursuant to

1 chapter 39.94 RCW to construct a nursing facility on the fircrest  
2 residential habilitation center campus. The department may contract  
3 to lease develop or lease purchase the facility. Before entering into  
4 a contract, the department must consult with the office of financial  
5 management and the office of the state treasurer. Should the  
6 department of social and health services choose to use a financing  
7 contract that does not provide for the issuance of certificates of  
8 participation, the financing contract shall be subject to approval by  
9 the state finance committee as required by RCW 39.94.010. In  
10 approving a financing contract not providing for the use of  
11 certificates of participation, the state finance committee should be  
12 reasonably certain that the contract is excluded from the computation  
13 of indebtedness, particularly that the contract is not backed by the  
14 full faith and credit of the state and the legislature is expressly  
15 not obligated to appropriate funds to make payments. For purposes of  
16 this subsection, "financing contract" includes but is not limited to  
17 a certificate of participation and tax exempt financing similar to  
18 that authorized in RCW 47.79.140.

19 NEW SECTION. **Sec. 8003.** (1) To ensure that major construction  
20 projects are carried out in accordance with legislative and executive  
21 intent, agencies must complete a predesign for state construction  
22 projects with a total anticipated cost in excess of \$10,000,000. For  
23 purposes of this section, "total anticipated cost" means the sum of  
24 the anticipated cost of the predesign, design, and construction  
25 phases of the project.

26 (2) Appropriations for design may not be expended or encumbered  
27 until the office of financial management has reviewed and approved  
28 the agency's predesign.

29 (3) The predesign must explore at least three project  
30 alternatives. These alternatives must be both distinctly different  
31 and viable solutions to the issue being addressed. The chosen  
32 alternative should be the most reasonable and cost-effective  
33 solution. The predesign document must include, but not be limited to,  
34 program, site, and cost analysis, and an analysis of the life-cycle  
35 costs of the alternatives explored, in accordance with the predesign  
36 manual adopted by the office of financial management.

37 (4) For projects exceeding the \$10,000,000 predesign threshold  
38 established in this section, the office of financial management may  
39 make an exception to some or all of the predesign requirements in

1 this section. The office of financial management shall report any  
2 exception to the fiscal committees of the legislature:

3 (a) A description of the major capital project for which the  
4 predesign waiver is made;

5 (b) An explanation of the reason for the waiver; and

6 (c) A rough order of magnitude cost estimate for the project's  
7 design and construction.

8 (5) In deliberations related to submitting an exception under  
9 this section, the office of financial management shall consider the  
10 following factors:

11 (a) Whether there is any determination to be made regarding the  
12 site of the project;

13 (b) Whether there is any determination to be made regarding  
14 whether the project will involve renovation, new construction, or  
15 both;

16 (c) Whether, within six years of submitting the request for  
17 funding, the agency has completed, or initiated the construction of,  
18 a substantially similar project;

19 (d) Whether there is any anticipated change to the project's  
20 program or the services to be delivered at the facility;

21 (e) Whether the requesting agency indicates that the project may  
22 not require some or all of the predesign requirements in this section  
23 due to a lack of complexity; and

24 (f) Whether any other factors related to project complexity or  
25 risk, as determined by the office of financial management, could  
26 reduce the need for, or scope of, a predesign.

27 (6) If under this section, some or all predesign requirements are  
28 waived, the office of financial management may instead propose a  
29 professional project cost estimate instead of a request for predesign  
30 funding.

31 NEW SECTION. **Sec. 8004.** (1) The legislature finds that use of  
32 life-cycle cost analysis will aid public entities, architects,  
33 engineers, and contractors in making design and construction  
34 decisions that positively impact both the initial construction cost  
35 and the ongoing operating and maintenance cost of a project. To  
36 ensure that the total cost of a project is accounted for and the most  
37 reasonable and cost efficient design is used, agencies shall develop  
38 life-cycle costs for any construction project over \$10,000,000. The  
39 life-cycle costs must represent the present value sum of capital

1 costs, installation costs, operating costs, and maintenance costs  
2 over the life expectancy of the project. The legislature further  
3 finds the most effective approach to the life-cycle cost analysis is  
4 to integrate it into the early part of the design process.

5 (2) Agencies must develop a minimum of three project alternatives  
6 for use in the life-cycle cost analysis. These alternatives must be  
7 both distinctly different and viable solutions to the issue being  
8 addressed. Agencies must choose the most reasonable and cost-  
9 effective solution, as supported by the life-cycle cost analysis. A  
10 brief description of each project alternative and why it was chosen  
11 must be included in the life-cycle cost analysis section of the  
12 predesign.

13 (3) The office of financial management shall: (a) Make available  
14 a life-cycle cost model to be used for analysis; (b) in consultation  
15 with the department of enterprise services, provide assistance in  
16 using the life-cycle cost model; and (c) update the life-cycle cost  
17 model annually including assumptions for inflation rates, discount  
18 rates, and energy rates.

19 (4) Agencies shall consider architectural and engineering firms'  
20 and general contractors' experience using life-cycle costs, operating  
21 costs, and energy efficiency measures when selecting an architectural  
22 and engineering firm, or when selecting contractors using alternative  
23 contracting methods.

24 NEW SECTION. **Sec. 8005.** Agencies administering construction  
25 projects with a total anticipated cost in excess of \$10,000,000 must  
26 submit progress reports to the office of financial management and to  
27 the fiscal committees of the house of representatives and senate.  
28 "Total anticipated cost" means the sum of the anticipated cost of the  
29 predesign, design, and construction phases of the project. Reports  
30 must be submitted on July 1st and December 31st of each year in a  
31 format determined by the office of financial management. After the  
32 project is completed, agencies must also submit a closeout report  
33 that identifies the total project cost and any unspent  
34 appropriations.

35 NEW SECTION. **Sec. 8006.** (1) Allotments for appropriations in  
36 this act shall be provided in accordance with the capital project  
37 review requirements adopted by the office of financial management and  
38 in compliance with RCW 43.88.110. Projects that will be employing

1 alternative public works construction procedures under chapter 39.10  
2 RCW are subject to the allotment procedures defined in this section  
3 and RCW 43.88.110.

4 (2) Each project is defined as proposed in the legislative budget  
5 notes or in the governor's budget document.

6 NEW SECTION. **Sec. 8007.** (1) The office of financial management  
7 may authorize a transfer of appropriation authority provided for a  
8 capital project that is in excess of the amount required for the  
9 completion of such project to another capital project for which the  
10 appropriation is insufficient. No such transfer may be used to expand  
11 the capacity of any facility beyond that intended in making the  
12 appropriation. Such transfers may be effected only between capital  
13 appropriations to a specific department, commission, agency, or  
14 institution of higher education and only between capital projects  
15 that are funded from the same fund or account. No transfers may occur  
16 between projects to local government agencies except where the grants  
17 are provided within a single omnibus appropriation and where such  
18 transfers are specifically authorized by the implementing statutes  
19 that govern the grants.

20 (2) The office of financial management may find that an amount is  
21 in excess of the amount required for the completion of a project only  
22 if: (a) The project as defined in the notes to the budget document is  
23 substantially complete and there are funds remaining; or (b) bids  
24 have been let on a project and it appears to a substantial certainty  
25 that the project as defined in the notes to the budget document can  
26 be completed within the biennium for less than the amount  
27 appropriated in this act.

28 (3) For the purposes of this section, the intent is that each  
29 project be defined as proposed to the legislature in the governor's  
30 budget document, unless it clearly appears from the legislative  
31 history that the legislature intended to define the scope of a  
32 project in a different way.

33 (4) A report of any transfer effected under this section, except  
34 emergency projects or any transfer under \$250,000, shall be filed  
35 with the fiscal committees of the legislature by the office of  
36 financial management at least 30 days before the date the transfer is  
37 effected. The office of financial management shall report all  
38 emergency or smaller transfers within 30 days from the date of  
39 transfer.

1        NEW SECTION.    **Sec. 8008.**    (1) It is expected that projects be  
2 ready to proceed in a timely manner depending on the type or phase of  
3 the project or program that is the subject of the appropriation in  
4 this act. Except for major projects that customarily may take more  
5 than two biennia to complete from predesign to the end of  
6 construction, or large infrastructure grant or loan programs  
7 supporting projects that often take more than two biennia to  
8 complete, the legislature generally does not intend to reappropriate  
9 funds more than once, particularly for smaller grant programs, local/  
10 community projects, and minor works.

11        (2) Agencies shall expedite the expenditure of reappropriations  
12 and appropriations in this act in order to: (a) Rehabilitate  
13 infrastructure resources; (b) accelerate environmental rehabilitation  
14 and restoration projects for the improvement of the state's natural  
15 environment; (c) reduce additional costs associated with acquisition  
16 and construction inflationary pressures; and (d) provide additional  
17 employment opportunities associated with capital expenditures.

18        (3) To the extent feasible, agencies are directed to accelerate  
19 expenditure rates at their current level of permanent employees and  
20 shall use contracted design and construction services wherever  
21 necessary to meet the goals of this section.

22        NEW SECTION.    **Sec. 8009.**    Any building project that receives over  
23 \$10,000,000 in funding from the capital budget must be built to  
24 sustainable standards. "Sustainable building" means a building that  
25 integrates and optimizes all major high-performance building  
26 attributes, including energy efficiency, durability, life-cycle  
27 performance, and occupant productivity, and minimizes greenhouse gas  
28 emissions. The following design and construction attributes must be  
29 integrated into the building project:

30        (1) Employ integrated design principles: Use a collaborative,  
31 integrated planning and design process that initiates and maintains  
32 an integrated project team in all stages of a project's planning and  
33 delivery. Establish performance goals for siting, energy, water,  
34 materials, and indoor environmental quality along with other  
35 comprehensive design goals and ensures incorporation of these goals  
36 throughout the design and life-cycle of the building. Consider all  
37 stages of the building's life-cycle, including deconstruction.

38        (2) Commissioning: Employ commissioning practices tailored to the  
39 size and complexity of the building and its system components in

1 order to verify performance of building components and systems and  
2 help ensure that design requirements are met. This should include an  
3 experienced commissioning provider, inclusion of commissioning  
4 requirements in construction documents, a commissioning plan,  
5 verification of the installation and performance of systems to be  
6 commissioned, and a commissioning report.

7 (3) Optimize energy performance: Establish a whole building  
8 performance target that takes into account the intended use,  
9 occupancy, operations, plug loads, other energy demands, and design  
10 to earn the ENERGY STAR targets for new construction and major  
11 renovation where applicable. For new construction target low energy  
12 use index. For major renovations, target reducing energy use by 50  
13 percent below prerenovations baseline.

14 (4) On-site renewable energy: Implement renewable energy  
15 generation projects on agency property for agency use, when life-  
16 cycle cost effective.

17 (5) High-efficiency electric equipment: Use only high-efficiency  
18 electric equipment for water and space heating needs not met through  
19 on-site renewable energy, when life-cycle cost effective.

20 (6) Measurement and verification: For buildings over 50,000  
21 square feet, install building level electricity meters in new major  
22 construction and renovation projects to track and continuously  
23 optimize performance. Include equivalent meters for natural gas and  
24 steam, where natural gas and steam are used. Where appropriate,  
25 install dashboards inside buildings to display and incentivize  
26 occupants on energy use.

27 (7) Benchmarking: Compare performance data from the first year of  
28 operation with the energy design target. Verify that the building  
29 performance meets or exceeds the design target. For other building  
30 and space types, use an equivalent benchmarking tool.

31 NEW SECTION. **Sec. 8010.** State agencies, including institutions  
32 of higher education, shall allot and report full-time equivalent  
33 staff for capital projects in a manner comparable to staff reporting  
34 for operating expenditures.

35 NEW SECTION. **Sec. 8011.** Executive Order No. 21-02,  
36 archaeological and cultural resources, was issued effective April 7,  
37 2021. Agencies shall comply with the requirements set forth in this  
38 executive order and must consult with the department of archaeology

1 and historic preservation and affected tribes on the potential  
2 effects of projects on cultural resources and historic properties  
3 proposed in state-funded construction or acquisition projects,  
4 including grant or pass-through funding that culminates in  
5 construction or land acquisitions. Consultation with the department  
6 of archaeology and historic preservation and affected tribes must be  
7 initiated early in the project planning process, prior to  
8 construction or taking title.

9 NEW SECTION. **Sec. 8012.** FOR THE ARTS COMMISSION—ART WORK  
10 ALLOWANCE. (1) One-half of one percent of moneys appropriated in this  
11 act for original construction of school plant facilities is provided  
12 solely for the purposes of RCW 28A.335.210.

13 (2) One-half of one percent of moneys appropriated in this act  
14 for original construction or any major renovation or remodel work  
15 exceeding \$200,000 by colleges or universities is provided solely for  
16 the purposes of RCW 28B.10.027.

17 (3) One-half of one percent of moneys appropriated in this act  
18 for original construction of any public building by a state agency  
19 identified in RCW 43.17.200 is provided solely for the purposes of  
20 RCW 43.17.200.

21 (4) At least 75 percent of the moneys spent by the Washington  
22 state arts commission during the 2023-2025 fiscal biennium for the  
23 purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be  
24 expended solely for direct acquisition of works of art; 15 percent  
25 may be expended for program administration; and 10 percent may be  
26 expended to conserve or maintain existing pieces in the state art  
27 collection. Except for art allocations made under K-3 class size  
28 reduction grants under section 6527 of this act, art allocations not  
29 expended within the ensuing two biennia shall lapse.

30 NEW SECTION. **Sec. 8013.** To carry out the provisions of this  
31 act, the governor may assign responsibility for predesign, design,  
32 construction, and other related activities to any appropriate agency.

33 NEW SECTION. **Sec. 8014.** If any federal moneys appropriated by  
34 this act for capital projects are not received by the state, the  
35 department or agency to which the moneys were appropriated may  
36 replace the federal moneys with funds available from private or local  
37 sources. No replacement may occur under this section without the

1 prior approval of the director of financial management in  
2 consultation with the senate ways and means committee and the house  
3 of representatives capital budget committee.

4 NEW SECTION. **Sec. 8015.** (1) Unless otherwise stated, for all  
5 appropriations under this act that require a match of nonstate money  
6 or in-kind contributions, the following requirement, consistent with  
7 RCW 43.88.150, shall apply: Expenditures of state money shall be  
8 timed so that the state share of project expenditures never exceeds  
9 the intended state share of total project costs.

10 (2) Provision of the full amount of required matching funds is  
11 not required to permit the expenditure of capital budget  
12 appropriations for phased projects if a proportional amount of the  
13 required matching funds is provided for each distinct, identifiable  
14 phase of the project.

15 NEW SECTION. **Sec. 8016.** NONTAXABLE AND TAXABLE BOND PROCEEDS.  
16 Portions of the appropriation authority granted by this act from the  
17 state building construction account, or any other account receiving  
18 bond proceeds, may be transferred to the state taxable building  
19 construction account as deemed necessary by the state treasurer, on  
20 behalf of the state finance committee, to comply with the federal  
21 internal revenue service rules and regulations pertaining to the use  
22 of nontaxable bond proceeds. Portions of the general obligation bond  
23 proceeds authorized by chapter . . . (Z-0216), Laws of 2023 (state  
24 general obligation bonds and related accounts) for deposit into the  
25 state taxable building construction account that are in excess of  
26 amounts required to comply with the federal internal revenue service  
27 rules and regulations shall be deposited into the state building  
28 construction account. The state treasurer shall submit written  
29 notification to the director of financial management and the  
30 legislative evaluation and accountability program committee if it is  
31 determined that a shift of appropriation authority between the state  
32 building construction account, or any other account receiving bond  
33 proceeds, and the state taxable building construction account is  
34 necessary, or that a shift of appropriation authority from the state  
35 taxable building construction account to the state building  
36 construction account may be made.

1        NEW SECTION.        **Sec. 8017.**        (1) Minor works project lists are  
2 single line appropriations that include multiple projects of a  
3 similar nature and that are valued between \$25,000 and \$2,000,000  
4 each. Funds appropriated in this act for minor works may not be  
5 initially allotted until agencies submit project lists to the office  
6 of financial management for review and approval.

7        (2) Revisions to the project lists, including the addition of  
8 projects and the transfer of funds between projects, are allowed but  
9 must be submitted to the office of financial management, the house of  
10 representatives capital budget committee, and the senate ways and  
11 means committee for review and comment, and must include an  
12 explanation of variances from prior approved lists. Any project list  
13 revisions must be approved by the office of financial management  
14 before funds may be expended from the minor works appropriation.

15        (3)(a) All minor works projects should be completed within two  
16 years of the appropriation with the funding provided.

17        (b) Agencies are prohibited from including projects on their  
18 minor works lists that are a phase of a larger project, and that if  
19 combined over a continuous period of time, would exceed \$2,000,000.

20        (c) Minor works appropriations may not be used for the following:  
21 Studies, except for technical or engineering reviews or designs that  
22 lead directly to and support a project on the same minor works list;  
23 planning; design outside the scope of work on a minor works list;  
24 movable, temporary, and traditionally funded operating equipment not  
25 in compliance with the equipment criteria established by the office  
26 of financial management; software not dedicated to control of a  
27 specialized system; moving expenses; land or facility acquisition;  
28 rolling stock; computers; or to supplement funding for projects with  
29 funding shortfalls unless expressly authorized. The office of  
30 financial management may make an exception to the limitations  
31 described in this subsection (3)(c) for exigent circumstances after  
32 notifying the legislative fiscal committees and waiting 10 days for  
33 comments by the legislature regarding the proposed exception.

34        (d) Minor works preservation projects may include program  
35 improvements of no more than 25 percent of the individual minor works  
36 preservation project cost.

37        (e) Improvements for accessibility in compliance with the  
38 Americans with disabilities act may be included in any of the minor  
39 works categories.

1 NEW SECTION. **Sec. 8018.** To the extent that any appropriation  
 2 authorizes expenditures of state funds from the state building  
 3 construction account, or from any other capital project account in  
 4 the state treasury, for a capital project or program that is  
 5 specified to be funded with proceeds from the sale of bonds, the  
 6 legislature declares that any such expenditures for that project or  
 7 program made prior to the issue date of the applicable bonds are  
 8 intended to be reimbursed from proceeds of those bonds in a maximum  
 9 amount equal to the amount of such appropriation.

10 NEW SECTION. **Sec. 8019. FOR THE STATE TREASURER—TRANSFERS**

11 Public Works Assistance Account: For transfer to the  
 12 water pollution control revolving account, up to  
 13 \$17,500,000 for fiscal year 2024 and up to \$17,500,000  
 14 for fiscal year 2025. . . . . \$35,000,000

15 NEW SECTION. **Sec. 8020.** In order to accelerate the reduction of  
 16 embodied carbon and improve the environmental performance of  
 17 construction materials, agencies shall, whenever possible, review and  
 18 consider embodied carbon reported in environmental product  
 19 declarations when evaluating proposed structural materials for  
 20 construction projects.

21 NEW SECTION. **Sec. 8021.** The department of natural resources, in  
 22 coordination with the department of social and health services, shall  
 23 enter into long-term, revenue-generating opportunities for under used  
 24 portions of the Fircrest residential habilitation center bounded by  
 25 15th Ave NE and NE 150th Street to benefit the charitable,  
 26 educational, penal, and reformatory institutions account. Long-term,  
 27 revenue generating opportunities may include, but are not limited to,  
 28 land leases, land sales, and land swaps. The department of social and  
 29 health services and the department of natural resources must amend  
 30 their lease under chapter 7, Laws of 1986 if necessary to conform  
 31 with this section.

32 **Sec. 8022.** RCW 43.185.050 and 2021 c 332 s 7032 and 2021 c 130 s  
 33 5 are each reenacted and amended to read as follows:

- 34 (1) The department must use moneys from the housing trust fund
- 35 and other legislative appropriations to finance in whole or in part

23 **Sec. 8026.** RCW 43.88D.010 and 2021 c 332 s 7034 are each amended  
24 to read as follows:

25 (1) By October 1st of each even-numbered year, the office of  
26 financial management shall complete an objective analysis and scoring  
27 of all capital budget projects proposed by the public four-year  
28 institutions of higher education and submit the results of the  
29 scoring process to the legislative fiscal committees and the four-  
30 year institutions. Each project must be reviewed and scored within  
31 one of the following categories, according to the project's principal  
32 purpose. Each project may be scored in only one category. The  
33 categories are:

34 (a) Access-related projects to accommodate enrollment growth at  
35 all campuses, at existing or new university centers, or through  
36 distance learning. Growth projects should provide significant  
37 additional student capacity. Proposed projects must demonstrate that  
38 they are based on solid enrollment demand projections, more  
39 cost-effectively provide enrollment access than alternatives such as

1 university centers and distance learning, and make cost-effective use  
2 of existing and proposed new space;

3 (b) Projects that replace failing permanent buildings. Facilities  
4 that cannot be economically renovated are considered replacement  
5 projects. New space may be programmed for the same or a different use  
6 than the space being replaced and may include additions to improve  
7 access and enhance the relationship of program or support space;

8 (c) Projects that renovate facilities to restore building life  
9 and upgrade space to meet current program requirements. Renovation  
10 projects should represent a complete renovation of a total facility  
11 or an isolated wing of a facility. A reasonable renovation project  
12 should cost between sixty to eighty percent of current replacement  
13 value and restore the renovated area to at least twenty-five years of  
14 useful life. New space may be programmed for the same or a different  
15 use than the space being renovated and may include additions to  
16 improve access and enhance the relationship of program or support  
17 space;

18 (d) Major stand-alone campus infrastructure projects;

19 (e) Projects that promote economic growth and innovation through  
20 expanded research activity. The acquisition and installation of  
21 specialized equipment is authorized under this category; and

22 (f) Other project categories as determined by the office of  
23 financial management in consultation with the legislative fiscal  
24 committees.

25 (2) The office of financial management, in consultation with the  
26 legislative fiscal committees, shall establish a scoring system and  
27 process for each four-year project category that is based on the  
28 framework used in the community and technical college system of  
29 prioritization. Staff from the state board for community and  
30 technical colleges and the four-year institutions shall provide  
31 technical assistance on the development of a scoring system and  
32 process.

33 (3) The office of financial management shall consult with the  
34 legislative fiscal committees in the scoring of four-year institution  
35 project proposals, and may also solicit participation by independent  
36 experts.

37 (a) For each four-year project category, the scoring system must,  
38 at a minimum, include an evaluation of enrollment trends,  
39 reasonableness of cost, the ability of the project to enhance

1 specific strategic master plan goals, age and condition of the  
2 facility if applicable, and impact on space utilization.

3 (b) Each four-year project category may include projects at the  
4 predesign, design, or construction funding phase.

5 (c) To the extent possible, the objective analysis and scoring  
6 system of all capital budget projects shall occur within the context  
7 of any and all performance agreements between the office of financial  
8 management and the governing board of a public, four-year institution  
9 of higher education that aligns goals, priorities, desired outcomes,  
10 flexibility, institutional mission, accountability, and levels of  
11 resources.

12 (4) In evaluating and scoring four-year institution projects, the  
13 office of financial management shall take into consideration project  
14 schedules that result in realistic, balanced, and predictable  
15 expenditure patterns over the ensuing three biennia.

16 (5) The office of financial management shall distribute common  
17 definitions, the scoring system, and other information required for  
18 the project proposal and scoring process as part of its biennial  
19 budget instructions. The office of financial management, in  
20 consultation with the legislative fiscal committees, shall develop  
21 common definitions that four-year institutions must use in developing  
22 their project proposals and lists under this section.

23 (6) In developing any scoring system for capital projects  
24 proposed by the four-year institutions, the office of financial  
25 management:

26 (a) Shall be provided with all required information by the four-  
27 year institutions as deemed necessary by the office of financial  
28 management;

29 (b) May utilize independent services to verify, sample, or  
30 evaluate information provided to the office of financial management  
31 by the four-year institutions; and

32 (c) Shall have full access to all data maintained by the joint  
33 legislative audit and review committee concerning the condition of  
34 higher education facilities.

35 (7) By August 1st of each even-numbered year each public four-  
36 year higher education institution shall prepare and submit  
37 prioritized lists of the individual projects proposed by the  
38 institution for the ensuing six-year period in each category. The  
39 lists must be submitted to the office of financial management and the  
40 legislative fiscal committees. The four-year institutions may

1 aggregate minor works project proposals by primary purpose for  
2 ranking purposes. Proposed minor works projects must be prioritized  
3 within the aggregated proposal, and supporting documentation,  
4 including project descriptions and cost estimates, must be provided  
5 to the office of financial management and the legislative fiscal  
6 committees.

7 (8) For (~~the 2019-2021 fiscal biennium and~~) the 2021-2023  
8 fiscal biennium, pursuant to subsection (1) of this section, by  
9 November 1, 2022, the office of financial management must score  
10 higher education capital project criteria with a rating scale that  
11 assesses how well a particular project satisfies those criteria. The  
12 office of financial management may not use a rating scale that weighs  
13 the importance of those criteria.

14 (9) For (~~the 2019-2021 fiscal biennium and~~) the 2021-2023  
15 fiscal biennium, pursuant to subsection (6)(a) of this section and in  
16 lieu of the requirements of subsection (7) of this section, by August  
17 15, 2022, the institutions of higher education shall prepare and  
18 submit or resubmit to the office of financial management and the  
19 legislative fiscal committees:

20 (a) Individual project proposals developed pursuant to subsection  
21 (1) of this section;

22 (b) Individual project proposals scored in prior biennia pursuant  
23 to subsection (1) of this section; and

24 (c) A prioritized list of up to five project proposals submitted  
25 pursuant to (a) and (b) of this subsection.

26 (10) The requirements of this section are suspended during the  
27 2023-2025 fiscal biennium.

28 **Sec. 8027.** RCW 39.35D.030 and 2021 c 332 s 7049 are each amended  
29 to read as follows:

30 (1) All major facility projects of public agencies receiving any  
31 funding in a state capital budget, or projects financed through a  
32 financing contract as defined in RCW 39.94.020, must be designed,  
33 constructed, and certified to at least the LEED silver standard. This  
34 subsection applies to major facility projects that have not entered  
35 the design phase prior to July 24, 2005, and to the extent  
36 appropriate LEED silver standards exist for that type of building or  
37 facility.

38 (2) All major facility projects of any entity other than a public  
39 agency or public school district receiving any funding in a state

1 capital budget must be designed, constructed, and certified to at  
2 least the LEED silver standard. This subsection applies to major  
3 facility projects that have not entered the grant application process  
4 prior to July 24, 2005, and to the extent appropriate LEED silver  
5 standards exist for that type of building or facility.

6 (3) (a) Public agencies, under this section, shall monitor and  
7 document ongoing operating savings resulting from major facility  
8 projects designed, constructed, and certified as required under this  
9 section.

10 (b) Public agencies, under this section, shall report annually to  
11 the department on major facility projects and operating savings.

12 (4) The department shall consolidate the reports required in  
13 subsection (3) of this section into one report and report to the  
14 governor and legislature by September 1st of each even-numbered year  
15 beginning in 2006 and ending in 2016. In its report, the department  
16 shall also report on the implementation of this chapter, including  
17 reasons why the LEED standard was not used as required by RCW  
18 39.35D.020(5)(b). The department shall make recommendations regarding  
19 the ongoing implementation of this chapter, including a discussion of  
20 incentives and disincentives related to implementing this chapter.

21 (5) For the purposes of determining compliance with the  
22 requirement for a project to be designed, constructed, and certified  
23 to at least the LEED silver standard, the department must credit one  
24 additional point for a project that uses wood products with a  
25 credible third-party sustainable forest certification or from forests  
26 regulated under chapter 76.09 RCW, the Washington forest practices  
27 act. For projects that qualify for this additional point, and for  
28 which an additional point would have resulted in formal certification  
29 under the LEED silver standard, the project must be deemed to meet  
30 the standard under this section.

31 (6) During the 2021-2023 and 2023-2025 fiscal (~~biennium~~)  
32 biennia, an alternative high-performance building certification, as  
33 determined by the legislature, may be used instead of the LEED silver  
34 building design, construction, and certification standard required by  
35 this section.

36 **Sec. 8028.** RCW 43.83B.430 and 2022 c 297 s 957 and 2022 c 296 s  
37 7008 are each reenacted and amended to read as follows:

38 The state drought preparedness and response account is created in  
39 the state treasury. All receipts from appropriated funds designated

1 for the account and all cost recovery revenues collected under RCW  
2 43.83B.410(5) must be deposited into the account. Expenditures from  
3 the account may be used for drought preparedness and response  
4 activities under this chapter, including grants issued under RCW  
5 43.83B.415. (~~During the 2021-2023 fiscal biennium, moneys in the~~  
6 ~~account may be used for water banking pilot projects.~~) Moneys in the  
7 account may be spent only after appropriation. During the 2021-2023  
8 and 2023-2025 fiscal (~~biennium~~) biennia, the legislature may  
9 appropriate moneys from the account for activities related to water  
10 banking.

11 **Sec. 8029.** RCW 43.99N.060 and 2021 c 334 s 976 are each amended  
12 to read as follows:

13 (1) The stadium and exhibition center account is created in the

16 shall be deposited into the account. Only the director of the office  
17 of financial management or the director's designee may authorize  
18 expenditures from the account. The account is subject to allotment  
19 procedures under chapter 43.88 RCW. An appropriation is not required  
20 for expenditures from this account.

21 (2) Until bonds are issued under RCW 43.99N.020, up to (~~five~~  
22 ~~million dollars~~) \$5,000,000 per year beginning January 1, 1999,  
23 shall be used for the purposes of subsection (3)(b) of this section,  
24 all remaining moneys in the account shall be transferred to the  
25 public stadium authority, created under RCW 36.102.020, to be used  
26 for public stadium authority operations and development of the  
27 stadium and exhibition center.

28 (3) After bonds are issued under RCW 43.99N.020, all moneys in  
29 the stadium and exhibition center account shall be used exclusively  
30 for the following purposes in the following priority:

31 (a) On or before June 30th of each year, the office of financial  
32 management shall accumulate in the stadium and exhibition center  
33 account an amount at least equal to the amount required in the next  
34 succeeding twelve months for the payment of principal of and interest  
35 on the bonds issued under RCW 43.99N.020;

4 requirements of (a) of this subsection; and

5 (c) The balance, if any, shall be transferred to the youth  
6 athletic facility account under subsection (4) of this section.

7 Any revenues derived from the taxes authorized by RCW  
8 36.38.010(5) and 36.38.040 or other amounts that if used as provided  
9 under (a) and (b) of this subsection would cause the loss of any tax  
10 exemption under federal law for interest on bonds issued under RCW  
11 43.99N.020 shall be deposited in and used exclusively for the  
12 purposes of the youth athletic facility account and shall not be  
13 used, directly or indirectly, as a source of payment of principal of  
14 or interest on bonds issued under RCW 43.99N.020, or to replace or  
15 reimburse other funds used for that purpose.

16 (4) Any moneys in the stadium and exhibition center account not  
17 required or permitted to be used for the purposes described in  
18 subsection (3)(a) and (b) of this section shall be deposited in the  
19 youth athletic facility account hereby created in the state treasury.  
20 (~~Expenditures~~) Except as provided in subsection (5) of this  
21 section, expenditures from the account may be used only for purposes

24 director of the recreation and conservation office or the director's  
25 designee may authorize expenditures from the account. The account is

27 appropriation is not required for expenditures. The athletic facility  
28 grants or loans may be used for acquiring, developing, equipping,  
29 maintaining, and improving community outdoor athletic facilities.  
30 Funds shall be divided equally between the development of new  
31 community outdoor athletic facilities, the improvement of existing  
32 community outdoor athletic facilities, and the maintenance of  
33 existing community outdoor athletic facilities. Cities, counties, and  
34 qualified nonprofit organizations must submit proposals for grants or  
35 loans from the account. To the extent that funds are available,  
36 cities, counties, and qualified nonprofit organizations must meet

39 competitive application process and the amount of the grant or loan  
40 shall be in proportion to the population of the city or county for

1 where the community outdoor athletic facility is located. For the  
2 2023-2025 fiscal biennium, park districts and federally recognized  
3 Indian tribes that have a demonstrated financial need may submit  
4 proposals and be awarded grants and loans in the competitive process.  
5 Grants or loans awarded in any one year need not be distributed in  
6 that year. (~~In the 2009-2011 biennium, if there are not enough~~

14 subsection for administrative purposes. During the 2021-2023 fiscal

16 athletic facility account to support a task force to consider ways to  
17 improve equitable access to K-12 schools' fields and athletic  
18 facilities and local parks agency facilities with the goal of  
19 increasing physical activity for youth and families. A portion of the  
20 appropriation must be used to inventory K-12 school fields and  
21 athletic facilities and park agency facilities.~~

26 subsection (4) of this section, and the agencies' authorized  
27 administrative costs in administering these programs.

28 **Sec. 8030.** RCW 43.88.030 and 2020 c 218 s 1 are each amended to  
29 read as follows:

30 (1) The director of financial management shall provide all

4 fiscal period in expenditure and revenue items and shall explain any  
5 major changes in financial policy. Attached to the budget message  
6 shall be such supporting schedules, exhibits and other explanatory  
7 material in respect to both current operations and capital  
8 improvements as the governor shall deem to be useful to the  
9 legislature. The budget document or documents shall set forth a  
10 proposal for expenditures in the ensuing fiscal period, or six-year  
11 period where applicable, based upon the estimated revenues and  
12 caseloads as approved by the economic and revenue forecast council  
13 and caseload forecast council or upon the estimated revenues and  
14 caseloads of the office of financial management for those funds,  
15 accounts, sources, and programs for which the forecast councils do  
16 not prepare an official forecast. Revenues shall be estimated for  
17 such fiscal period from the source and at the rates existing by law  
18 at the time of submission of the budget document, including the  
19 supplemental budgets submitted in the even-numbered years of a  
20 biennium. However, the estimated revenues and caseloads for use in  
21 the governor's budget document may be adjusted to reflect budgetary  
22 revenue transfers and revenue and caseload estimates dependent upon  
23 budgetary assumptions of enrollments, workloads, and caseloads. All  
24 adjustments to the approved estimated revenues and caseloads must be  
25 set forth in the budget document. The governor may additionally  
26 submit, as an appendix to each supplemental, biennial, or six-year  
27 agency budget or to the budget document or documents, a proposal for  
28 expenditures in the ensuing fiscal period from revenue sources  
29 derived from proposed changes in existing statutes.

30 The budget document or documents shall also contain:

36 revenues, workload, performance, and personnel as the legislature may  
37 direct by law or concurrent resolution;

39 expenditures as the governor shall deem pertinent and useful to the  
40 legislature;

9 retirement system established after fiscal year 1991, to include, but  
10 not be limited to, estimated total payments made to the end of the  
11 previous biennial period, estimated payments for the present  
12 biennium, and estimated payments for the ensuing biennium.

13 (2) The budget document or documents shall include detailed  
14 estimates of all anticipated revenues applicable to proposed  
15 operating or capital expenditures and shall also include all proposed  
16 operating or capital expenditures. The total of beginning  
17 undesignated fund balance and estimated revenues less working capital  
18 and other reserves shall equal or exceed the total of proposed  
19 applicable expenditures. The budget document or documents shall  
20 further include:

21 (a) Interest, amortization and redemption charges on the state  
22 debt;

23 (b) Payments of all reliefs, judgments, and claims;

24 (c) Other statutory expenditures;

25 (d) Expenditures incident to the operation for each agency;

2 total dollars and as a level percentage of total compensation.

3 (3) The governor's operating budget document or documents shall  
4 reflect the statewide priorities as required by RCW 43.88.090.

5 (4) The governor's operating budget document or documents shall  
6 identify activities that are not addressing the statewide priorities.

7 (5) (a) Beginning in the 2021-2023 fiscal biennium, the governor's  
8 operating budget document or documents submitted to the legislature  
9 must leave, in total, a positive ending fund balance in the general  
10 fund and related funds.

11 (b) Beginning in the 2021-2023 fiscal biennium, the projected  
12 maintenance level of the governor's operating budget document or  
13 documents submitted to the legislature must not exceed the available  
14 fiscal resources for the next ensuing fiscal biennium.

15 (c) For purposes of this subsection:

16 (i) "Available fiscal resources" means the beginning general fund  
17 and related funds balances and any fiscal resources estimated for the  
18 general fund and related funds, adjusted for proposed revenue  
19 legislation, and with forecasted revenues adjusted to the greater of  
20 (A) the official general fund and related funds revenue forecast for  
21 the ensuing biennium, or (B) the official general fund and related  
22 funds forecast for the second fiscal year of the current fiscal  
23 biennium, increased by 4.5 percent for each fiscal year of the  
24 ensuing biennium.

25 (ii) "Projected maintenance level" means estimated appropriations  
26 necessary to maintain the continuing costs of program and service  
27 levels either funded in the governor's budget document or documents  
28 submitted to the legislature or mandated by other state or federal  
29 law, adjusted by the estimated cost of proposed executive branch  
30 legislation, and the amount of any general fund moneys projected to  
31 be transferred to the budget stabilization account pursuant to  
32 Article VII, section 12 of the state Constitution. Proposed executive  
33 branch legislation does not include proposals by institutions of  
34 higher education, other separately elected officials, or other  
35 boards, commissions, and offices not under the authority of the  
36 governor that are not funded or assumed in the governor's budget  
37 document or documents submitted to the legislature.

38 (iii) "Related funds" has the meaning defined in RCW 43.88.055.

39 (d) (b) of this subsection (5) does not apply:

1 (i) To any governor-proposed legislation submitted to the  
2 legislature that makes net reductions in general fund and related  
3 funds appropriations to prevent the governor from making across-the-  
4 board reductions in allotments for these particular funds as provided  
5 in RCW 43.88.110(~~(+7)~~) (10); or

6 (ii) In a fiscal biennium for which the governor proposes  
7 appropriations from the budget stabilization account pursuant to  
8 Article VII, section 12(d)(ii) of the state Constitution.

9 (6) A separate capital budget document or schedule shall be  
10 submitted that will contain the following:

11 (a) A statement setting forth a long-range facilities plan for  
12 the state that identifies and includes the highest priority needs  
13 within affordable spending levels;

14 (b) A capital program consisting of proposed capital projects for  
15 the next biennium and the two biennia succeeding the next biennium  
16 consistent with the long-range facilities plan. Inasmuch as is  
17 practical, and recognizing emergent needs, the capital program shall  
18 reflect the priorities, projects, and spending levels proposed in  
19 previously submitted capital budget documents in order to provide a  
20 reliable long-range planning tool for the legislature and state  
21 agencies;

22 (c) A capital plan consisting of proposed capital spending for at  
23 least four biennia succeeding the next biennium;

24 (d) A strategic plan for reducing backlogs of maintenance and  
25 repair projects. The plan shall include a prioritized list of  
26 specific facility deficiencies and capital projects to address the  
27 deficiencies for each agency, cost estimates for each project, a  
28 schedule for completing projects over a reasonable period of time,  
29 and identification of normal maintenance activities to reduce future  
30 backlogs;

31 (e) A statement of the reason or purpose for a project;

32 (f) Verification that a project is consistent with the provisions  
33 set forth in chapter 36.70A RCW;

34 (g) A statement about the proposed site, size, and estimated life  
35 of the project, if applicable;

36 (h) Estimated total project cost;

38 estimated costs for the following project components: Acquisition,  
39 consultant services, construction, equipment, project management, and  
40 other costs included as part of the project. Project component costs

1 shall be displayed in a standard format defined by the office of  
2 financial management to allow comparisons between projects;

3 (j) Estimated total project cost for each phase of the project as  
4 defined by the office of financial management;

5 (k) Estimated ensuing biennium costs;

6 (l) Estimated costs beyond the ensuing biennium;

7 (m) Estimated construction start and completion dates;

8 (n) Source and type of funds proposed;

9 (o) Estimated ongoing operating budget costs or savings resulting  
10 from the project, including staffing and maintenance costs;

11 (p) For any capital appropriation requested for a state agency  
12 for the acquisition of land or the capital improvement of land in  
13 which the primary purpose of the acquisition or improvement is  
14 recreation or wildlife habitat conservation, the capital budget  
15 document, or an omnibus list of recreation and habitat acquisitions  
16 provided with the governor's budget document, shall identify the  
17 projected costs of operation and maintenance for at least the two  
18 biennia succeeding the next biennium. Omnibus lists of habitat and  
19 recreation land acquisitions shall include individual project cost  
20 estimates for operation and maintenance as well as a total for all  
21 state projects included in the list. The document shall identify the  
22 source of funds from which the operation and maintenance costs are  
23 proposed to be funded;

24 (q) For any capital budget request for funding in the 2023-2025  
25 or 2025-2027 fiscal biennia by an institution of higher education to  
26 address a cost increase for any major project, a statement describing  
27 the unexpected project costs, ways the agency has mitigated or will  
28 mitigate the estimated project costs, and identification of other  
29 funding that may be applied to the project. For purposes of this  
30 subsection (6) (q):

31 (i) "Cost increases" means total project costs estimated above  
32 those listed in the prior agency budget request and for which the  
33 legislature relied in making a funding decision for design or  
34 construction, adjusted for C-100 inflation factors; and

35 (ii) "Institution of higher education" has the meaning provided  
36 in RCW 28B.10.016;

37 (r) Such other information bearing upon capital projects as the  
38 governor deems to be useful;

39 (~~(s)~~) (s) Standard terms, including a standard and uniform  
40 definition of normal maintenance, for all capital projects; and

1       (~~(s)~~) (t) Such other information as the legislature may direct  
2 by law or concurrent resolution.

3       For purposes of this subsection (6), the term "capital project"  
4 shall be defined subsequent to the analysis, findings, and  
5 recommendations of a joint committee comprised of representatives  
6 from the house capital appropriations committee, senate ways and  
7 means committee, legislative evaluation and accountability program  
8 committee, and office of financial management.

9       (7) No change affecting the comparability of agency or program  
10 information relating to expenditures, revenues, workload, performance  
11 and personnel shall be made in the format of any budget document or  
12 report presented to the legislature under this section or RCW  
13 43.88.160(1) relative to the format of the budget document or report  
14 which was presented to the previous regular session of the  
15 legislature during an odd-numbered year without prior legislative  
16 concurrence. Prior legislative concurrence shall consist of (a) a  
17 favorable majority vote on the proposal by the standing committees on  
18 ways and means of both houses if the legislature is in session or (b)  
19 a favorable majority vote on the proposal by members of the  
20 legislative evaluation and accountability program committee if the  
21 legislature is not in session.

22       **Sec. 8031.** RCW 43.155.050 and 2022 c 296 s 7009, 2022 c 182 s  
23 302, and 2022 c 157 s 15 are each reenacted and amended to read as  
24 follows:

25       (1) The public works assistance account is hereby established in  
26 the state treasury. Money may be placed in the public works  
27 assistance account from the proceeds of bonds when authorized by the  
28 legislature or from any other lawful source. Money in the public  
29 works assistance account shall be used to make loans and grants and  
30 to give financial guarantees to local governments for public works  
31 projects. Moneys in the account may also be appropriated or  
32 transferred to the water pollution control revolving fund and the  
33 drinking water assistance account to provide for state match  
34 requirements under federal law. Moneys in the account may be  
35 transferred to the move ahead WA account to provide support of public  
36 works projects funded in the move ahead WA program. Not more than 20  
37 percent of the biennial capital budget appropriation to the public  
38 works board from this account may be expended or obligated for  
39 preconstruction loans and grants, emergency loans and grants, or

1 loans and grants for capital facility planning under this chapter.  
2 Not more than 10 percent of the biennial capital budget appropriation  
3 to the public works board from this account may be expended or  
4 obligated as grants for preconstruction, emergency, capital facility  
5 planning, and construction projects. During the 2017-2019 and  
6 2019-2021 fiscal biennia, the legislature may appropriate moneys from  
7 the account for activities related to rural economic development, the  
8 growth management act, the aviation revitalization loan program, the  
9 community economic revitalization board broadband program, and the  
10 voluntary stewardship program. During the 2021-2023 (~~biennium~~) and  
11 2023-2025 fiscal biennia, the legislature may appropriate moneys from  
12 the account for activities related to the community aviation  
13 revitalization board. During the 2019-2021 fiscal biennia, the  
14 legislature may direct the state treasurer to make transfers of  
15 moneys in the public works assistance account to the education legacy  
16 trust account. During the 2019-2021 and 2021-2023 fiscal biennia, the  
17 legislature may direct the state treasurer to make transfers of  
18 moneys in the public works assistance account to the statewide  
19 broadband account. The legislature may appropriate moneys from the  
20 public works assistance account for activities related to the  
21 voluntary stewardship program, rural economic development, and the  
22 growth management act. During the 2021-2023 biennium, the legislature  
23 may appropriate moneys from the account for projects identified in  
24 section 1033, chapter 296, Laws of 2022.

25 (2) For fiscal year 2024 through fiscal year 2038, the state  
26 treasurer must transfer from the public works assistance account to  
27 the move ahead WA account created in RCW 46.68.510 \$57,000,000 each  
28 fiscal year in four equal quarterly transfers.

29 **Sec. 8032.** RCW 43.07.410 and 2019 c 448 s 9 are each amended to  
30 read as follows:

31 The Washington state library-archives building account is created  
32 in the custody of the state treasurer. All moneys received under RCW  
33 36.18.010(12), 36.22.175(3), and 43.07.370(3) must be deposited in  
34 the account. Expenditures from the account may be made only for the  
35 purposes of payment of the financing contract entered into by the  
36 secretary of state for the Washington state library-archives  
37 building. However, during the 2023-2025 fiscal biennium, up to  
38 \$5,000,000 may be used for costs associated with the design,  
39 permitting, and conservation plan development of the library-archives

1 building. Only the secretary of state or the secretary of state's  
2 designee may authorize expenditures from the account. An  
3 appropriation is not required for expenditures, but the account is  
4 subject to allotment procedures under chapter 43.88 RCW.

5 **Sec. 8033.** RCW 87.03.136 and 2011 c 50 s 1 are each amended to  
6 read as follows:

7 An irrigation district has the power to sell or lease real  
8 property owned by the district whenever its board of directors, by  
9 resolution: Determines that the property is not necessary or needed  
10 for the use of the district; and authorizes the sale or lease. Notice  
11 of the district's intention to sell or lease the property shall be  
12 made by publication at least twenty days before the transaction is  
13 executed regarding the property in a newspaper of general circulation  
14 in the county where the property or part of the property is located  
15 or, if there is no such newspaper in the county, in a newspaper of  
16 general circulation published in an adjoining county. The publication  
17 shall be made at least once a week during three consecutive weeks.  
18 The notice shall state whether the sale or lease will be negotiated  
19 by the district or will be awarded by bid.

20 The district may lease the property for a duration determined by  
21 the board, afford the lessee the option to purchase the property,  
22 sell the property on contract for deferred payments, sell the  
23 property pursuant to a promissory note secured by a mortgage or deed  
24 of trust, or sell the property for cash and conveyance by deed. The  
25 appropriate documents shall be executed by the president of the board  
26 and acknowledged by the secretary.

27 The resolution authorizing the sale or lease shall be entered in  
28 the minutes of the board and shall fix the price at which the lease,  
29 option, or sale may be made. The price shall be not less than the  
30 reasonable market value of the property; however, the board may,  
31 without consideration, dedicate, grant, or convey district land or  
32 easements in district land for highway or public utility purposes  
33 that convenience the inhabitants of the district if the board deems  
34 that the action will enhance the value of the remaining district land  
35 to an extent equal to or greater than the value of the land or  
36 easement dedicated, granted, or conveyed.

37 During the 2023-2025 fiscal biennium, the requirements of this  
38 section do not apply to a property transferred to the bureau of

5 remainder of the act or the application of the provision to other  
6 persons or circumstances is not affected.

7 NEW SECTION. **Sec. 8035.** Except for section 8022 of this act,  
8 this act is necessary for the immediate preservation of the public  
9 peace, health, or safety, or support of the state government and its  
10 existing public institutions, and takes effect immediately.
