

# SB 5751

Requiring an inventory of fees charged by state agencies be accessible on the state fiscal website

Enacted in the 2013 Legislative Session, SB 5751 directed the Office of Financial Management to compile, maintain, and periodically update an inventory of fees imposed by state agencies and institutions of higher education and required the Legislative Evaluation and Accountability Program Committee to provide access to the inventory on the state fiscal website. It also states that a work group develops a process to facilitate more frequent updates to the inventory and recommend changes to increase public accessibility. Per the requirements of the bill, LEAP deployed the website in January 2014.

Find the website at <http://fiscal.wa.gov/> and click the link Fee Inventory under the “Other Resources” section. One mouse-click takes website visitors to an interactive searchable tool of fees imposed by state agencies.

The screenshot displays the Washington State Fiscal Information website. At the top, there is a navigation menu with links for Home, Budgets, Spending, Revenue, Staff, K-12, Map Projects, and Other Resources. Below the navigation is the "Fee Inventory" section, which includes a sub-header "Inventory of fees imposed by state agencies". The main content area features a search interface with an "Agency" dropdown menu set to "Central Washington University", a "Fee Filter" input field, and a "View Report" button. A secondary navigation bar includes a "Find | Next" button and a "Save" icon. The central part of the page is titled "Inventory of Washington State Fees Fiscal Year 2013".
