HUMAN SERVICES

NEW SECTION. **Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.** (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage Medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP) the department may combine and transfer such Medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons during the 2005-2007 biennium. The amount of funding assigned to the pilot projects from each program may not

1 exceed the average per capita cost assumed in this act for individuals
 2 covered by that program, actuarially adjusted for the health condition
 3 of persons enrolled in the pilot, times the number of clients enrolled
 4 in the pilot. In implementing the WMIP pilot projects, the department
 5 may: (a) Withhold from calculations of "available resources" as set
 6 forth in RCW 71.24.025 a sum equal to the capitated rate for
 7 individuals enrolled in the pilots; and (b) employ capitation financing
 8 and risk-sharing arrangements in collaboration with health care service
 9 contractors licensed by the office of the insurance commissioner and
 10 qualified to participate in both the medicaid and medicare programs.
 11 The department shall conduct an evaluation of the WMIP, measuring
 12 changes in participant health outcomes, changes in patterns of service
 13 utilization, participant satisfaction, participant access to services,
 14 and the state fiscal impact.

2 *v. Quasim, et al.*, United States District Court Western District of
3 Washington at Tacoma, Cause No. C-99-5577 FDB, covering waiver
4 services. The expenditure of these amounts is contingent on the

16 allowed by the federal medicaid program.

17 (3) \$22,081,000 of the health services account appropriation and
18 \$20,714,000 of the general fund--federal appropriation are provided
19 solely for grants to nonrural hospitals. The department shall
20 distribute the funds under a formula that provides a relatively larger
21 share of the available funding to hospitals that (a) serve a
22 disproportionate share of low-income and medically indigent patients
23 and (b) have relatively smaller net financial margins, to the extent
24 allowed by the federal medicaid program.

25 (4) In response to the federal directive to eliminate
26 intergovernmental transfer transactions effective June 30, 2005, the
27 department is directed to implement the inpatient hospital certified
28 public expenditures program for the 2005-07 biennium. The program
29 shall apply to all public hospitals, including those owned or operated
30 by the state, except those classified as critical access hospitals.
31 Hospitals in the program shall be paid and shall retain (a) one hundred
32 percent of the federal portion of each medicaid inpatient fee-for-
33 service claim payable by the medical assistance administration; and (b)
34 one hundred percent of the federal portion of the maximum
35 disproportionate share hospital payment allowable under federal
36 regulations. Medicaid fee-for-service claim amounts shall be
37 established by applying the department's ratio of costs to charges
38 payment methodology. The department shall provide participating

1 hospitals with the information needed by the hospital to certify the
2 public expenditures required to qualify for the federal portions of
3 both the medicaid inpatient fee-for-service payments and the
4 disproportionate share hospital payments. The legislature intends that
5 hospitals in the program receive no less in combined state and federal
6 payments than they would have received under the methodology that was
7 in place during fiscal year 2005. The department shall therefore make
8 additional grant payments, not to exceed the amounts provided in this
9 subsection, to hospitals whose total payments under the program would
10 otherwise be less than the total state and federal payments they would
11 have received under the methodology in effect during fiscal year 2005.
12 \$37,034,000 of the general fund--state appropriation for fiscal year
13 2006, \$37,552,000 of the general fund--state appropriation for fiscal
14 year 2007, \$8,300,000 of the emergency medical services and trauma care
15 systems trust account--state appropriation, and \$45,450,000 of the
16 general fund--federal appropriation are provided solely for new state
17 grant and upper payment limit programs for the participating hospitals.

18 (5) \$3,972,000 of the general fund--state appropriation for fiscal
19 year 2006, \$3,990,000 of the general fund--state appropriation for
20 fiscal year 2007, and \$63,279,000 of the general fund--federal
21 appropriation are provided solely for development and implementation of
22 a replacement system for the existing medicaid management information
23 system.

24 (6) \$150,000 of the general fund--state appropriation for fiscal
25 year 2006, \$75,000 of the general fund--state appropriation for fiscal
26 year 2007, and \$225,000 of the general fund--federal appropriation are
27 provided solely for the department to contract for an independent
28 analysis of the medical assistance administration's current system for
29 establishing hospital inpatient payment rates, and for recommendations
30 on a new or updated system. The department shall submit an interim
31 report of study findings by December 1, 2005, and a final report by
32 November 15, 2006. The interim report shall include a comparison of
33 the strengths and weaknesses of the current rate-setting system
34 relative to those used by other state, federal, and private payers.
35 The final report shall include recommendations on the design and
36 implementation of a new or updated system that will promote equity
37 among hospitals, access to quality care for patients, and cost-control
38 and efficiency for taxpayers. The study should make use of complete

1 and current cost data from a wide variety of hospitals, recognize
2 unique aspects of hospital service delivery structures and medicaid
3 payment systems in Washington, and provide opportunities for comment
4 and participation by key interest groups in the identification and
5 assessment of alternatives.

6 (7) Payment rates for hospital inpatient and outpatient services
7 shall be increased by an average of 1.2 percent effective September 1,
8 2005, and by an average of an additional 1.7 percent effective
9 September 1, 2006. The increases shall be provided only on the portion
10 of a hospital's rate that excludes medical education and outlier costs,
11 and shall be allocated so that hospitals with lower costs of care
12 (excluding medical education and outlier costs) receive larger
13 percentage increases than those with higher costs of care. The
14 increases shall be allocated in three percentage increments, with the
15 lowest-cost hospitals receiving the largest percentage rate increase,
16 highest-cost hospitals receiving the smallest percentage increase, and
17 medium-cost hospitals receiving the average of the highest and the
18 lowest percentage rate increase. Increases shall not be provided to
19 those hospitals that are certified as critical access. Sufficient
20 funds are appropriated in this section for Healthy Options contractors
21 to increase hospital payment rates commensurate with the increases in
22 fee-for-service payment rates.

23 (8) When a person is ineligible for medicaid solely by reason of
24 residence in an institution for mental diseases, the department shall
25 provide the person with the same benefits as he or she would receive if
26 eligible for medicaid, using state-only funds to the extent necessary.

27 (9) The medical assistance program may use funds appropriated in
28 this section to purchase medical equipment and supplies through third-
29 party purchasing groups when it is cost-effective to do so.

30 (10) The legislature affirms that it is in the state's interest for
31 Harborview medical center to remain an economically viable component of
32 the state's health care system.

33 (11) By October 1, 2005, the department shall recommend to the
34 governor and legislature at least two pilot project designs which seem
35 likely to reduce avoidable emergency room utilization at no net cost to
36 the state within the projects' first eighteen months of operation.

34 **INSTRUCTION--FOR GENERAL APPORTIONMENT**

35	General Fund--State Appropriation (FY 2006)	\$4,188,076,000
36	General Fund--State Appropriation (FY 2007)	\$4,227,953,000
37	TOTAL APPROPRIATION	\$8,416,029,000

1 The appropriations in this section are subject to the following
2 conditions and limitations:

3 (1) Each general fund fiscal year appropriation includes such funds
4 as are necessary to complete the school year ending in the fiscal year
5 and for prior fiscal year adjustments.

6 (2) Allocations for certificated staff salaries for the 2005-06 and
7 2006-07 school years shall be determined using formula-generated staff
8 units calculated pursuant to this subsection. Staff allocations for
9 small school enrollments in (d) through (f) of this subsection shall be
10 reduced for vocational full-time equivalent enrollments. Staff
11 allocations for small school enrollments in grades K-6 shall be the
12 greater of that generated under (a) of this subsection, or under (d)
13 and (e) of this subsection. Certificated staffing allocations shall be
14 as follows:

15 (a) On the basis of each 1,000 average annual full-time equivalent
16 enrollments, excluding full-time equivalent enrollment otherwise
17 recognized for certificated staff unit allocations under (c) through
18 (f) of this subsection:

19 (i) Four certificated administrative staff units per thousand full-
20 time equivalent students in grades K-12;

21 (ii) 49 certificated instructional staff units per thousand full-
22 time equivalent students in grades K-3;

24 full-time equivalent students in grades 4-12; and

25 (iv) An additional 4.2 certificated instructional staff units for
26 grades K-3 and an additional 7.2 certificated instructional staff units
27 for grade 4. Any funds allocated for the additional certificated units
28 provided in this subsection (iv) shall not be considered as basic
29 education funding;

30 (A) Funds provided under this subsection (2)(a)(iv) in excess of
31 the amount required to maintain the statutory minimum ratio established
32 under RCW 28A.150.260(2)(b) shall be allocated only if the district
33 documents an actual ratio in grades K-4 equal to or greater than 53.2
34 certificated instructional staff per thousand full-time equivalent
35 students. For any school district documenting a lower certificated
36 instructional staff ratio, the allocation shall be based on the
37 district's actual grades K-4 certificated instructional staff ratio

1 achieved in that school year, or the statutory minimum ratio
2 established under RCW 28A.150.260(2)(b), if greater;

3 (B) Districts at or above 51.0 certificated instructional staff per
4 one thousand full-time equivalent students in grades K-4 may dedicate
5 up to 1.3 of the 53.2 funding ratio to employ additional classified
6 instructional assistants assigned to basic education classrooms in
7 grades K-4. For purposes of documenting a district's staff ratio under
8 this section, funds used by the district to employ additional
9 classified instructional assistants shall be converted to a
10 certificated staff equivalent and added to the district's actual
11 certificated instructional staff ratio. Additional classified
12 instructional assistants, for the purposes of this subsection, shall be
13 determined using the 1989-90 school year as the base year;

14 (C) Any district maintaining a ratio in grades K-4 equal to or
15 greater than 53.2 certificated instructional staff per thousand full-
16 time equivalent students may use allocations generated under this
17 subsection (2)(a)(iv) in excess of that required to maintain the
18 minimum ratio established under RCW 28A.150.260(2)(b) to employ
19 additional basic education certificated instructional staff or
20 classified instructional assistants in grades 5-6. Funds allocated
21 under this subsection (2)(a)(iv) shall only be expended to reduce class
22 size in grades K-6. No more than 1.3 of the certificated instructional
23 funding ratio amount may be expended for provision of classified
24 instructional assistants;

25 (b) For school districts with a minimum enrollment of 250 full-time
26 equivalent students whose full-time equivalent student enrollment count
27 in a given month exceeds the first of the month full-time equivalent
28 enrollment count by 5 percent, an additional state allocation of 110
29 percent of the share that such increased enrollment would have
30 generated had such additional full-time equivalent students been
31 included in the normal enrollment count for that particular month;

32 (c)(i) On the basis of full-time equivalent enrollment in:

33 (A) Vocational education programs approved by the superintendent of
34 public instruction, a maximum of 0.92 certificated instructional staff
35 units and 0.08 certificated administrative staff units for each 19.5
36 full-time equivalent vocational students; and

37 (B) Skills center programs meeting the standards for skills center
38 funding established in January 1999 by the superintendent of public

1 instruction, 0.92 certificated instructional staff units and 0.08
2 certificated administrative units for each 16.67 full-time equivalent
3 vocational students;

4 (ii) Vocational full-time equivalent enrollment shall be reported
5 on the same monthly basis as the enrollment for students eligible for
6 basic support, and payments shall be adjusted for reported vocational
7 enrollments on the same monthly basis as those adjustments for
8 enrollment for students eligible for basic support; and

9 (iii) Indirect cost charges by a school district to vocational-
10 secondary programs shall not exceed 15 percent of the combined basic
11 education and vocational enhancement allocations of state funds;

12 (d) For districts enrolling not more than twenty-five average
13 annual full-time equivalent students in grades K-8, and for small
14 school plants within any school district which have been judged to be
15 remote and necessary by the state board of education and enroll not
16 more than twenty-five average annual full-time equivalent students in
17 grades K-8:

18 (i) For those enrolling no students in grades 7 and 8, 1.76
19 certificated instructional staff units and 0.24 certificated
20 administrative staff units for enrollment of not more than five
21 students, plus one-twentieth of a certificated instructional staff unit
22 for each additional student enrolled; and

23 (ii) For those enrolling students in grades 7 or 8, 1.68
24 certificated instructional staff units and 0.32 certificated
25 administrative staff units for enrollment of not more than five
26 students, plus one-tenth of a certificated instructional staff unit for
27 each additional student enrolled;

28 (e) For specified enrollments in districts enrolling more than
29 twenty-five but not more than one hundred average annual full-time
30 equivalent students in grades K-8, and for small school plants within
31 any school district which enroll more than twenty-five average annual
32 full-time equivalent students in grades K-8 and have been judged to be
33 remote and necessary by the state board of education:

34 (i) For enrollment of up to sixty annual average full-time
35 equivalent students in grades K-6, 2.76 certificated instructional
36 staff units and 0.24 certificated administrative staff units; and

37 (ii) For enrollment of up to twenty annual average full-time

1 equivalent students in grades 7 and 8, 0.92 certificated instructional
2 staff units and 0.08 certificated administrative staff units;

3 (f) For districts operating no more than two high schools with
4 enrollments of less than three hundred average annual full-time
5 equivalent students, for enrollment in grades 9-12 in each such school,
6 other than alternative schools:

7 (i) For remote and necessary schools enrolling students in any
8 grades 9-12 but no more than twenty-five average annual full-time
9 equivalent students in grades K-12, four and one-half certificated
10 instructional staff units and one-quarter of a certificated
11 administrative staff unit;

12 (ii) For all other small high schools under this subsection, nine
13 certificated instructional staff units and one-half of a certificated
14 administrative staff unit for the first sixty average annual full time
15 equivalent students, and additional staff units based on a ratio of
16 0.8732 certificated instructional staff units and 0.1268 certificated
17 administrative staff units per each additional forty-three and one-half
18 average annual full time equivalent students.

19 Units calculated under (f)(ii) of this subsection shall be reduced
20 by certificated staff units at the rate of forty-six certificated
21 instructional staff units and four certificated administrative staff
22 units per thousand vocational full-time equivalent students;

23 (g) For each nonhigh school district having an enrollment of more
24 than seventy annual average full-time equivalent students and less than
25 one hundred eighty students, operating a grades K-8 program or a grades
26 1-8 program, an additional one-half of a certificated instructional
27 staff unit; and

28 (h) For each nonhigh school district having an enrollment of more
29 than fifty annual average full-time equivalent students and less than
30 one hundred eighty students, operating a grades K-6 program or a grades
31 1-6 program, an additional one-half of a certificated instructional
32 staff unit.

33 (3) Allocations for classified salaries for the 2005-06 and 2006-07
34 school years shall be calculated using formula-generated classified
35 staff units determined as follows:

36 (a) For enrollments generating certificated staff unit allocations
37 under subsection (2)(d) through (h) of this section, one classified

1 staff unit for each three certificated staff units allocated under such
2 subsections;

3 (b) For all other enrollment in grades K-12, including vocational
4 full-time equivalent enrollments, one classified staff unit for each
5 sixty average annual full-time equivalent students; and

6 (c) For each nonhigh school district with an enrollment of more
7 than fifty annual average full-time equivalent students and less than
8 one hundred eighty students, an additional one-half of a classified
9 staff unit.

10 (4) Fringe benefit allocations shall be calculated at a rate of
11 11.22 percent in the 2005-06 school year and 11.22 percent in the 2006-
12 07 school year for certificated salary allocations provided under
13 subsection (2) of this section, and a rate of 14.84 percent in the
14 2005-06 school year and 14.84 percent in the 2006-07 school year for
15 classified salary allocations provided under subsection (3) of this
16 section.

17 (5) Insurance benefit allocations shall be calculated at the
18 maintenance rate specified in section 504(2) of this act, based on the
19 number of benefit units determined as follows:

20 (a) The number of certificated staff units determined in subsection
21 (2) of this section; and

22 (b) The number of classified staff units determined in subsection
23 (3) of this section multiplied by 1.152. This factor is intended to
24 adjust allocations so that, for the purposes of distributing insurance
25 benefits, full-time equivalent classified employees may be calculated
26 on the basis of 1440 hours of work per year, with no individual
27 employee counted as more than one full-time equivalent.

28 (6)(a) For nonemployee-related costs associated with each
29 certificated staff unit allocated under subsection (2)(a), (b), and (d)
30 through (h) of this section, there shall be provided a maximum of
31 \$9,112 per certificated staff unit in the 2005-06 school year and a
32 maximum of \$9,285 per certificated staff unit in the 2006-07 school
33 year.

34 (b) For nonemployee-related costs associated with each vocational

37 staff unit in the 2005-06 school year and a maximum of \$22,802 per
38 certificated staff unit in the 2006-07 school year.

1 (c) For nonemployee-related costs associated with each vocational
2 certificated staff unit allocated under subsection (2)(c)(i)(B) of this
3 section, there shall be provided a maximum of \$17,362 per certificated
4 staff unit in the 2005-06 school year and a maximum of \$17,692 per
5 certificated staff unit in the 2006-07 school year.

6 (7) Allocations for substitute costs for classroom teachers shall
7 be distributed at a maintenance rate of \$531.09 for the 2005-06 and
8 2006-07 school years per allocated classroom teachers exclusive of
9 salary increase amounts provided in section 504 of this act. Solely
10 for the purposes of this subsection, allocated classroom teachers shall
11 be equal to the number of certificated instructional staff units
12 allocated under subsection (2) of this section, multiplied by the ratio
13 between the number of actual basic education certificated teachers and
14 the number of actual basic education certificated instructional staff
15 reported statewide for the prior school year.

16 (8) Any school district board of directors may petition the
17 superintendent of public instruction by submission of a resolution
18 adopted in a public meeting to reduce or delay any portion of its basic
19 education allocation for any school year. The superintendent of public
20 instruction shall approve such reduction or delay if it does not impair
21 the district's financial condition. Any delay shall not be for more
22 than two school years. Any reduction or delay shall have no impact on
23 levy authority pursuant to RCW 84.52.0531 and local effort assistance
24 pursuant to chapter 28A.500 RCW.

25 (9) The superintendent may distribute a maximum of \$7,622,000
26 outside the basic education formula during fiscal years 2006 and 2007
27 as follows:

28 (a) For fire protection for school districts located in a fire
29 protection district as now or hereafter established pursuant to chapter
30 52.04 RCW, a maximum of \$513,000 may be expended in fiscal year 2006
31 and a maximum of \$523,000 may be expended in fiscal year 2007;

32 (b) For summer vocational programs at skills centers, a maximum of
33 \$2,035,000 may be expended for the 2006 fiscal year and a maximum of
34 \$2,035,000 for the 2007 fiscal year;

35 (c) A maximum of \$365,000 may be expended for school district
36 emergencies;

37 (d) A maximum of \$485,000 each fiscal year may be expended for
38 programs providing skills training for secondary students who are

1 enrolled in extended day school-to-work programs, as approved by the
2 superintendent of public instruction. The funds shall be allocated at
3 a rate not to exceed \$500 per full-time equivalent student enrolled in
4 those programs; and

5 (e) \$394,000 of the general fund--state appropriation for fiscal
6 year 2006 and \$787,000 of the general fund--state appropriation for
7 fiscal year 2007 are provided solely for the implementation of
8 Substitute Senate Bill No. 5717 (skills centers). If the bill is not
9 enacted before June 30, 2005, the amounts provided in this subsection
10 shall lapse. The funding provided in this subsection shall be used as
11 an incentive to encourage school districts to increase enrollment in
12 vocational skills centers. Up to \$500 for each full-time equivalent
13 student may be proportionally distributed to a school district or
14 school districts increasing skills centers enrollment above the levels
15 in the 2004-05 school year. The office of the superintendent of public
16 instruction shall develop criteria for awarding incentive grants
17 pursuant to this subsection. The total amount allocated pursuant to
18 this subsection shall be limited to \$1,181,000 for the 2005-07
19 biennium.

20 (10) For purposes of RCW 84.52.0531, the increase per full-time
21 equivalent student is 5.2 percent from the 2004-05 school year to the
22 2005-06 school year and 3.4 percent from the 2005-06 school year to the
23 2006-07 school year.

24 (11) If two or more school districts consolidate and each district
25 was receiving additional basic education formula staff units pursuant
26 to subsection (2)(b) through (h) of this section, the following shall
27 apply:

28 (a) For three school years following consolidation, the number of
29 basic education formula staff units shall not be less than the number
30 of basic education formula staff units received by the districts in the
31 school year prior to the consolidation; and

32 (b) For the fourth through eighth school years following
33 consolidation, the difference between the basic education formula staff
34 units received by the districts for the school year prior to
35 consolidation and the basic education formula staff units after
36 consolidation pursuant to subsection (2)(a) through (h) of this section
37 shall be reduced in increments of twenty percent per year.

2 **INSTRUCTION--BASIC EDUCATION EMPLOYEE COMPENSATION.** (1) The following
3 calculations determine the salaries used in the general fund
4 allocations for certificated instructional, certificated
5 administrative, and classified staff units under section 502 of this
6 act:

7 (a) Salary allocations for certificated instructional staff units
8 shall be determined for each district by multiplying the district's
9 certificated instructional total base salary shown on LEAP Document 12E
10 by the district's average staff mix factor for certificated
11 instructional staff in that school year, computed using LEAP Document
12 1Sb; and

13 (b) Salary allocations for certificated administrative staff units
14 and classified staff units for each district shall be based on the
15 district's certificated administrative and classified salary allocation
16 amounts shown on LEAP Document 12E.

17 (2) For the purposes of this section:

18 (a) "LEAP Document 1Sb" means the computerized tabulation

20 according to education and years of experience, as developed by the
21 legislative evaluation and accountability program committee on March
22 28, 2005, at 10:00 hours; and

23 (b) "LEAP Document 12E" means the computerized tabulation of 2005-
24 06 and 2006-07 school year salary allocations for certificated
25 administrative staff and classified staff and derived and total base
26 salaries for certificated instructional staff as developed by the
27 legislative evaluation and accountability program committee on March
28 28, 2005, at 10:15 hours.

11 degree.

12 (c) For credits earned after the baccalaureate degree but before
13 the masters degree, any credits in excess of forty-five credits may be

- 20 (a) "BA" means a baccalaureate degree.
- 21 (b) "MA" means a masters degree.
- 22 (c) "PHD" means a doctorate degree.

23 (d) "Years of service" shall be calculated under the same rules
24 adopted by the superintendent of public instruction.

25 (e) "Credits" means college quarter hour credits and equivalent in-
26 service credits computed in accordance with RCW 28A.415.020 and

29 any employee after the baccalaureate degree may be used to determine
30 compensation allocations under the state salary allocation schedule and
31 LEAP documents referenced in this act, or any replacement schedules and
32 documents, unless:

- 33 (a) The employee has a masters degree; or
- 34 (b) The credits were used in generating state salary allocations
35 before January 1, 1992.

36 (7) The certificated instructional staff base salary specified for
37 each district in LEAP Document 12E and the salary schedules in
38 subsection (4)(a) of this section include two learning improvement

1 days. A school district is eligible for the learning improvement day
 2 funds only if the learning improvement days have been added to the 180-
 3 day contract year. If fewer days are added, the additional learning
 4 improvement allocation shall be adjusted accordingly. The additional
 5 days shall be limited to specific activities identified in the state
 6 required school improvement plan related to improving student learning
 7 that are consistent with education reform implementation, and shall not
 8 be considered part of basic education. The principal in each school
 9 shall assure that the days are used to provide the necessary school-
 10 wide, all staff professional development that is tied directly to the
 11 school improvement plan. The school principal and the district
 12 superintendent shall maintain documentation as to their approval of
 13 these activities. The length of a learning improvement day shall not
 14 be less than the length of a full day under the base contract. The
 15 superintendent of public instruction shall ensure that school districts
 16 adhere to the intent and purposes of this subsection.

17 (8) The salary allocation schedules established in this section are
 18 for allocation purposes only except as provided in RCW 28A.400.200(2)
 19 and subsection (7) of this section.

 29 percent effective September 1, 2005, and another 1.7 percent effective

1 state-funded school programs in part V of this act. Increases for
 2 general apportionment (basic education) are based on the salary
 3 allocation schedules and methodology in sections 502 and 503 of this
 4 act. Increases for special education result from increases in each
 5 district's basic education allocation per student. Increases for
 6 educational service districts and institutional education programs are
 7 determined by the superintendent of public instruction using the
 8 methodology for general apportionment salaries and benefits in sections
 9 502 and 503 of this act.

10 (b) The appropriations in this section provide cost of living and
 11 incremental fringe benefit allocations based on formula adjustments as

3 NEW SECTION. **Sec. 505. FOR THE SUPERINTENDENT OF PUBLIC**
4 **INSTRUCTION--FOR PUPIL TRANSPORTATION**

5	General Fund--State Appropriation (FY 2006)	\$243,160,000
6	General Fund--State Appropriation (FY 2007)	\$248,599,000
7	TOTAL APPROPRIATION	\$491,759,000

8 The appropriations in this section are subject to the following
9 conditions and limitations:

10 (1) Each general fund fiscal year appropriation includes such funds
11 as are necessary to complete the school year ending in the fiscal year
12 and for prior fiscal year adjustments.

13 (2) A maximum of \$796,000 of this fiscal year 2006 appropriation
14 and a maximum of \$812,000 of the fiscal year 2007 appropriation may be
15 expended for regional transportation coordinators and related
16 activities. The transportation coordinators shall ensure that data
17 submitted by school districts for state transportation funding shall,
18 to the greatest extent practical, reflect the actual transportation
19 activity of each district.

20 (3) \$5,000 of the fiscal year 2006 appropriation and \$5,000 of the
21 fiscal year 2007 appropriation are provided solely for the
22 transportation of students enrolled in "choice" programs.
23 Transportation shall be limited to low-income students who are
24 transferring to "choice" programs solely for educational reasons.

25 (4) Allocations for transportation of students shall be based on
26 reimbursement rates of \$41.56 per weighted mile in the 2005-06 school
27 year and \$41.80 per weighted mile in the 2006-07 school year exclusive
28 of salary and benefit adjustments provided in section 504 of this act.
29 Allocations for transportation of students transported more than one
30 radius mile shall be based on weighted miles as determined by
31 superintendent of public instruction multiplied by the per mile
32 reimbursement rates for the school year pursuant to the formulas
33 adopted by the superintendent of public instruction. Allocations for
34 transportation of students living within one radius mile shall be based
35 on the number of enrolled students in grades kindergarten through five
36 living within one radius mile of their assigned school multiplied by
37 the per mile reimbursement rate for the school year multiplied by 1.29.

1 (5) For busses purchased between July 1, 2005, and June 30, 2007,
2 the office of superintendent of public instruction shall provide
3 reimbursement funding to a school district only after the
4 superintendent of public instruction determines that the school bus was
5 purchased from the list established pursuant to RCW 28A.160.195(2) or
6 a comparable competitive bid process based on the lowest price quote
7 based on similar bus categories to those used to establish the list
8 pursuant to RCW 28A.160.195. The competitive specifications shall meet
9 federal motor vehicle safety standards, minimum state specifications as
10 established by rule by the superintendent, and supported options as
11 determined by the superintendent in consultation with the regional
12 transportation coordinators of the educational service districts.

13 (6) Beginning with the 2005-06 school year, the superintendent of
14 public instruction shall base depreciation payments for school district
15 buses on the five-year average of prices in the appropriate category of
16 bus. In the final year on the depreciation schedule, the depreciation
17 payment shall be based on the current state price. The superintendent
18 may include a weighting or other adjustment factor in the averaging
19 formula to ease the transition from the current-price depreciation
20 system to the average depreciation system. Prior to making any
21 depreciation payment in the 2005-06 school year, the superintendent
22 shall notify the office of financial management and the fiscal
23 committees of the legislature of the specific depreciation formula to
24 be used. The replacement cost shall be based on the lowest quote in
25 the appropriate bus category for that school year.

26 (7) In addition to the allocations for transportation of students
27 in subsection (4) of this section, school districts shall be allocated
28 \$0.17 per weighted mile in the 2005-06 school year and \$0.17 per
29 weighted mile in the 2006-07 school year exclusive of salary and
30 benefit adjustments provided in section 504 of this act. For the
31 purposes of this subsection, the weighted miles will be calculated
32 based on the actual reported amounts for the 2004-05 school year. The
33 total amount allocated pursuant to this subsection shall be limited to
34 \$1,534,000 for the 2005-07 biennium.

35 (8) A maximum of \$50,000 of the fiscal year 2006 appropriation may
36 be expended for software programming costs associated with the
37 implementation of subsection (6) of this section.

1 NEW SECTION. **Sec. 506. FOR THE SUPERINTENDENT OF PUBLIC**

4	General Fund--State Appropriation (FY 2007)	\$3,100,000
5	General Fund--Federal Appropriation	\$287,403,000
6	TOTAL APPROPRIATION	\$293,603,000

7 The appropriations in this section are subject to the following
8 conditions and limitations:

9 (1) \$3,000,000 of the general fund--state appropriation for fiscal
10 year 2006 and \$3,000,000 of the general fund--state appropriation for
11 fiscal year 2007 are provided for state matching money for federal
12 child nutrition programs.

13 (2) \$100,000 of the general fund--state appropriation for fiscal
14 year 2006 and \$100,000 of the 2007 fiscal year appropriation are
15 provided for summer food programs for children in low-income areas.

16 NEW SECTION. **Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC**
17 **INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS**

18	General Fund--State Appropriation (FY 2006)	\$456,306,000
19	General Fund--State Appropriation (FY 2007)	\$464,586,000
20	General Fund--Federal Appropriation	\$435,453,000
21	TOTAL APPROPRIATION	\$1,356,345,000

22 The appropriations in this section are subject to the following
23 conditions and limitations:

24 (1) Funding for special education programs is provided on an excess
25 cost basis, pursuant to RCW 28A.150.390. School districts shall ensure
26 that special education students as a class receive their full share of
27 the general apportionment allocation accruing through sections 502 and
28 504 of this act. To the extent a school district cannot provide an
29 appropriate education for special education students under chapter
30 28A.155 RCW through the general apportionment allocation, it shall
31 provide services through the special education excess cost allocation
32 funded in this section.

33 (2)(a) The superintendent of public instruction shall use the
34 excess cost methodology developed and implemented for the 2001-02
35 school year using the S-275 personnel reporting system and all related
36 accounting requirements to ensure that:

37 (i) Special education students are basic education students first;

1 (ii) As a class, special education students are entitled to the
2 full basic education allocation; and

3 (iii) Special education students are basic education students for
4 the entire school day.

5 (b) The S-275 and accounting changes in effect since the 2001-02
6 school year shall supercede any prior excess cost methodologies and
7 shall be required of all school districts.

8 (3) Each fiscal year appropriation includes such funds as are
9 necessary to complete the school year ending in the fiscal year and for
10 prior fiscal year adjustments.

11 (4) The superintendent of public instruction shall distribute state
12 and federal funds to school districts based on two categories: The
13 optional birth through age two program for special education eligible
14 developmentally delayed infants and toddlers, and the mandatory special
15 education program for special education eligible students ages three to
16 twenty-one. A "special education eligible student" means a student
17 receiving specially designed instruction in accordance with a properly
18 formulated individualized education program.

19 (5)(a) For the 2005-06 and 2006-07 school years, the superintendent
20 shall make allocations to each district based on the sum of:

21 (i) A district's annual average headcount enrollment of
22 developmentally delayed infants and toddlers ages birth through two,
23 multiplied by the district's average basic education allocation per
24 full-time equivalent student, multiplied by 1.15; and

25 (ii) A district's annual average full-time equivalent basic
26 education enrollment multiplied by the funded enrollment percent
27 determined pursuant to subsection (6)(b) of this section, multiplied by
28 the district's average basic education allocation per full-time
29 equivalent student multiplied by 0.9309.

30 (b) For purposes of this subsection, "average basic education
31 allocation per full-time equivalent student" for a district shall be
32 based on the staffing ratios required by RCW 28A.150.260 and shall not
33 include enhancements, secondary vocational education, or small schools.

34 (6) The definitions in this subsection apply throughout this
35 section.

36 (a) "Annual average full-time equivalent basic education
37 enrollment" means the resident enrollment including students enrolled
38 through choice (RCW 28A.225.225) and students from nonhigh districts

1 (RCW 28A.225.210) and excluding students residing in another district
2 enrolled as part of an interdistrict cooperative program (RCW
3 28A.225.250).

4 (b) "Enrollment percent" means the district's resident special
5 education annual average enrollment, excluding the birth through age
6 two enrollment, as a percent of the district's annual average full-time
7 equivalent basic education enrollment.

8 Each district's general fund--state funded special education
9 enrollment shall be the lesser of the district's actual enrollment
10 percent or 12.7 percent.

11 (7) At the request of any interdistrict cooperative of at least 15
12 districts in which all excess cost services for special education
13 students of the districts are provided by the cooperative, the maximum
14 enrollment percent shall be calculated in accordance with subsection
15 (6)(b) of this section, and shall be calculated in the aggregate rather
16 than individual district units. For purposes of this subsection, the
17 average basic education allocation per full-time equivalent student
18 shall be calculated in the aggregate rather than individual district
19 units.

20 (8) To the extent necessary, \$18,945,000 of the general fund--state
21 appropriation and \$28,698,000 of the general fund--federal
22 appropriation are provided for safety net awards for districts with
23 demonstrated needs for special education funding beyond the amounts
24 provided in subsection (5) of this section. If safety net awards
25 exceed the amount appropriated in this subsection (8), the
26 superintendent shall expend all available federal discretionary funds
27 necessary to meet this need. Safety net funds shall be awarded by the
28 state safety net oversight committee subject to the following
29 conditions and limitations:

30 (a) The committee shall consider unmet needs for districts that can
31 convincingly demonstrate that all legitimate expenditures for special
32 education exceed all available revenues from state funding formulas.
33 In the determination of need, the committee shall also consider
34 additional available revenues from federal sources. Differences in
35 program costs attributable to district philosophy, service delivery
36 choice, or accounting practices are not a legitimate basis for safety
37 net awards.

1 (b) The committee shall then consider the extraordinary high cost
2 needs of one or more individual special education students.
3 Differences in costs attributable to district philosophy, service
4 delivery choice, or accounting practices are not a legitimate basis for
5 safety net awards.

6 (c) The maximum allowable indirect cost for calculating safety net
7 eligibility may not exceed the federal restricted indirect cost rate
8 for the district plus one percent.

9 (d) Safety net awards shall be adjusted based on the percent of
10 potential medicaid eligible students billed as calculated by the
11 superintendent in accordance with chapter 318, Laws of 1999.

12 (e) Safety net awards must be adjusted for any audit findings or
13 exceptions related to special education funding.

14 (9) The superintendent of public instruction may adopt such rules
15 and procedures as are necessary to administer the special education
16 funding and safety net award process. Prior to revising any standards,
17 procedures, or rules, the superintendent shall consult with the office
18 of financial management and the fiscal committees of the legislature.

19 (10) The safety net oversight committee appointed by the
20 superintendent of public instruction shall consist of:

21 (a) One staff from the office of superintendent of public
22 instruction;

23 (b) Staff of the office of the state auditor who shall be nonvoting
24 members of the committee; and

25 (c) One or more representatives from school districts or
26 educational service districts knowledgeable of special education
27 programs and funding.

28 (11) A maximum of \$100,000 of the general fund--federal
29 appropriation shall be expended to create a special education ombudsman
30 program within the office of superintendent of public instruction. The
31 purpose of the program is to provide support to parents, guardians,
32 educators, and students with disabilities. The program will provide
33 information to help families and educators understand state laws,
34 rules, and regulations, and access training and support, technical
35 information services, and mediation services. The ombudsman program
36 will provide data, information, and appropriate recommendations to the
37 office of superintendent of public instruction, school districts,

1 educational service districts, state need projects, and the parent and
2 teacher information center.

3 (12) The superintendent of public instruction, consistent with the
4 new federal IDEA reauthorization, shall continue to educate schools on
5 how to implement a birth-to-three program and the cost effectiveness
6 and learning benefits of early intervention.

7 (13) A maximum of \$678,000 may be expended from the general fund--
8 state appropriations to fund 5.43 full-time equivalent teachers and 2.1
9 full-time equivalent aides at children's orthopedic hospital and
10 medical center. This amount is in lieu of money provided through the
11 home and hospital allocation and the special education program.

12 (14) \$1,000,000 of the general fund--federal appropriation is
13 provided for projects to provide special education students with
14 appropriate job and independent living skills, including work
15 experience where possible, to facilitate their successful transition
16 out of the public school system. The funds provided by this subsection
17 shall be from federal discretionary grants.

18 (15) The superintendent shall maintain the percentage of federal
19 flow-through to school districts at 85 percent. In addition to other
20 purposes, school districts may use increased federal funds for high-
21 cost students, for purchasing regional special education services from
22 educational service districts, and for staff development activities
23 particularly relating to inclusion issues.

24 (16) A maximum of \$1,200,000 of the general fund--federal
25 appropriation may be expended by the superintendent for projects
26 related to use of inclusion strategies by school districts for
27 provision of special education services.

28 (17) A school district may carry over from one year to the next
29 year up to 10 percent of the general fund--state funds allocated under
30 this program; however, carry over funds shall be expended in the
31 special education program.

3 NEW SECTION. **Sec. 901. EXPENDITURE AUTHORIZATIONS.** The
4 appropriations contained in this act are maximum expenditure
5 authorizations. Pursuant to RCW 43.88.037, moneys disbursed from the
6 treasury on the basis of a formal loan agreement shall be recorded as
7 loans receivable and not as expenditures for accounting purposes. To
8 the extent that moneys are disbursed on a loan basis, the corresponding
9 appropriation shall be reduced by the amount of loan moneys disbursed
10 from the treasury during the 2003-05 biennium.

11 NEW SECTION. **Sec. 902. INFORMATION SYSTEMS PROJECTS.** Agencies
12 shall comply with the following requirements regarding information
13 systems projects when specifically directed to do so by this act.

14 (1) Agency planning and decisions concerning information technology
15 shall be made in the context of its information technology portfolio.
16 "Information technology portfolio" means a strategic management
17 approach in which the relationships between agency missions and
18 information technology investments can be seen and understood, such
19 that: Technology efforts are linked to agency objectives and business
20 plans; the impact of new investments on existing infrastructure and
21 business functions are assessed and understood before implementation;
22 and agency activities are consistent with the development of an
23 integrated, nonduplicative statewide infrastructure.

24 (2) Agencies shall use their information technology portfolios in
25 making decisions on matters related to the following:

- 26 (a) System refurbishment, acquisitions, and development efforts;
27 (b) Setting goals and objectives for using information technology
28 in meeting legislatively-mandated missions and business needs;
29 (c) Assessment of overall information processing performance,
30 resources, and capabilities;
31 (d) Ensuring appropriate transfer of technological expertise for
32 the operation of any new systems developed using external resources;
33 and
34 (e) Progress toward enabling electronic access to public
35 information.

1 (3) Each project will be planned and designed to take optimal
2 advantage of Internet technologies and protocols. Agencies shall
3 ensure that the project is in compliance with the architecture,
4 infrastructure, principles, policies, and standards of digital
5 government as maintained by the information services board.

6 (4) The agency shall produce a feasibility study for information
7 technology projects at the direction of the information services board
8 and in accordance with published department of information services
9 policies and guidelines. At a minimum, such studies shall include a
10 statement of: (a) The purpose or impetus for change; (b) the business
11 value to the agency, including an examination and evaluation of
12 benefits, advantages, and cost; (c) a comprehensive risk assessment
13 based on the proposed project's impact on both citizens and state
14 operations, its visibility, and the consequences of doing nothing; (d)
15 the impact on agency and statewide information infrastructure; and (e)
16 the impact of the proposed enhancements to an agency's information
17 technology capabilities on meeting service delivery demands.

18 (5) The agency shall produce a comprehensive management plan for
19 each project. The plan or plans shall address all factors critical to
20 successful completion of each project. The plan(s) shall include, but
21 is not limited to, the following elements: A description of the
22 problem or opportunity that the information technology project is
23 intended to address; a statement of project objectives and assumptions;
24 a definition and schedule of phases, tasks, and activities to be
25 accomplished; and the estimated cost of each phase. The planning for
26 the phased approach shall be such that the business case justification
27 for a project needs to demonstrate how the project recovers cost or
28 adds measurable value or positive cost benefit to the agency's business
29 functions within each development cycle.

30 (6) The agency shall produce quality assurance plans for
31 information technology projects. Consistent with the direction of the
32 information services board and the published policies and guidelines of
33 the department of information services, the quality assurance plan
34 shall address all factors critical to successful completion of the
35 project and successful integration with the agency and state
36 information technology infrastructure. At a minimum, quality assurance
37 plans shall provide time and budget benchmarks against which project
38 progress can be measured, a specification of quality assurance

1 responsibilities, and a statement of reporting requirements. The
2 quality assurance plans shall set out the functionality requirements
3 for each phase of a project.

4 (7) A copy of each feasibility study, project management plan, and
5 quality assurance plan shall be provided to the department of
6 information services, the office of financial management, and
7 legislative fiscal committees. The plans and studies shall demonstrate
8 a sound business case that justifies the investment of taxpayer funds
9 on any new project, an assessment of the impact of the proposed system
10 on the existing information technology infrastructure, the disciplined
11 use of preventative measures to mitigate risk, and the leveraging of
12 private-sector expertise as needed. Authority to expend any funds for
13 individual information systems projects is conditioned on the approval
14 of the relevant feasibility study, project management plan, and quality
15 assurance plan by the department of information services and the office
16 of financial management.

17 (8) Quality assurance status reports shall be submitted to the
18 department of information services, the office of financial management,
19 and legislative fiscal committees at intervals specified in the
20 project's quality assurance plan.

21 NEW SECTION. **Sec. 903. BUSINESS CONTINUITY AND DISASTER**
22 **RECOVERY.** State agencies shall comply with the business continuity and
23 disaster recovery policies, guidelines, and statements of direction
24 developed by the department of information services and the information
25 services board in consultation with state agencies. To ensure that
26 agency business continuity and disaster recovery activities identify
27 the primary risks across state agencies, account for dependencies
28 between agencies, capitalize on economies of scale, and avoid
29 unnecessary duplication of costs and efforts, state agencies shall
30 receive the prior approval of the department of information services
31 before implementing business continuity and disaster recovery
32 strategies and expending funds for business continuity activities.

33 NEW SECTION. **Sec. 904. VIDEO TELECOMMUNICATIONS.** The department
34 of information services shall act as lead agency in coordinating video
35 telecommunications services for state agencies. As lead agency, the
36 department shall develop standards and common specifications for leased

1 and purchased telecommunications equipment and assist state agencies in
2 developing a video telecommunications expenditure plan. No agency may
3 spend any portion of any appropriation in this act for new video
4 telecommunication equipment, new video telecommunication transmission,
5 or new video telecommunication programming, or for expanding current
6 video telecommunication systems without first complying with chapter
7 43.105 RCW, including but not limited to, RCW 43.105.041(2), and
8 without first submitting a video telecommunications expenditure plan,
9 in accordance with the policies of the department of information
10 services, for review and assessment by the department of information
11 services under RCW 43.105.052. Prior to any such expenditure by a
12 public school, a video telecommunications expenditure plan shall be
13 approved by the superintendent of public instruction. The office of
14 the superintendent of public instruction shall submit the plans to the
15 department of information services in a form prescribed by the
16 department. The office of the superintendent of public instruction
17 shall coordinate the use of video telecommunications in public schools
18 by providing educational information to local school districts and
19 shall assist local school districts and educational service districts
20 in telecommunications planning and curriculum development. Prior to
21 any such expenditure by a public institution of postsecondary
22 education, a telecommunications expenditure plan shall be approved by
23 the higher education coordinating board. The higher education
24 coordinating board shall coordinate the use of video telecommunications
25 for instruction and instructional support in postsecondary education,
26 including the review and approval of instructional telecommunications
27 course offerings.

28 NEW SECTION. **Sec. 905. PROGRAM COST SHIFTS.** Any program costs
29 or moneys in this act that are shifted to the general fund from another
30 fund or account require an adjustment to the expenditure limit under
31 RCW 43.135.035(5).

32 NEW SECTION. **Sec. 906. EMERGENCY FUND ALLOCATIONS.** Whenever
33 allocations are made from the governor's emergency fund appropriation
34 to an agency that is financed in whole or in part by other than general
35 fund moneys, the director of financial management may direct the

1 repayment of such allocated amount to the general fund from any balance
2 in the fund or funds which finance the agency. No appropriation shall
3 be necessary to effect such repayment.

4 NEW SECTION. **Sec. 907. STATUTORY APPROPRIATIONS.** In addition
5 to the amounts appropriated in this act for revenues for distribution,
6 state contributions to the law enforcement officers' and fire fighters'
7 retirement system plan 2, and bond retirement and interest including
8 ongoing bond registration and transfer charges, transfers, interest on
9 registered warrants, and certificates of indebtedness, there is also
10 appropriated such further amounts as may be required or available for
11 these purposes under any statutory formula or under chapters 39.94 and
12 39.96 RCW or any proper bond covenant made under law.

13 NEW SECTION. **Sec. 908. BOND EXPENSES.** In addition to such other
14 appropriations as are made by this act, there is hereby appropriated to
15 the state finance committee from legally available bond proceeds in the
16 applicable construction or building funds and accounts such amounts as
17 are necessary to pay the expenses incurred in the issuance and sale of
18 the subject bonds.

19 NEW SECTION. **Sec. 909. VOLUNTARY SEPARATION INCENTIVES.** As a
20 management tool to reduce costs and make more effective use of
21 resources, while improving employee productivity and morale, agencies
22 may offer voluntary separation and/or downshifting incentives and
23 options according to procedures and guidelines established by the
24 department of personnel and the department of retirement systems in
25 consultation with the office of financial management. The options may
26 include, but are not limited to, financial incentives for: Voluntary
27 resignation and retirement, voluntary leave-without-pay, voluntary
28 workweek or work hour reduction, voluntary downward movement, or
29 temporary separation for development purposes. No employee shall have
30 a contractual right to a financial incentive offered pursuant to this
31 section. Agencies shall report on the outcomes of their plans, and
32 offers shall be reviewed and monitored jointly by the department of
33 personnel and the department of retirement systems, for reporting to
34 the office of financial management by December 1, 2006.

1 NEW SECTION. **Sec. 910. VOLUNTARY RETIREMENT INCENTIVES.** It is
2 the intent of the legislature that agencies may implement a voluntary
3 retirement incentive program that is cost neutral or results in cost
4 savings provided that such a program is approved by the director of
5 retirement systems and the office of financial management. Agencies
6 participating in this authorization are required to submit a report by
7 June 30, 2007, to the legislature and the office of financial
8 management on the outcome of their approved retirement incentive
9 program. The report should include information on the details of the
10 program including resulting service delivery changes, agency
11 efficiencies, the cost of the retirement incentive per participant, the
12 total cost to the state, and the projected or actual net dollar savings
13 over the 2005-07 biennium.

14 NEW SECTION. **Sec. 911. AGENCY EXPENDITURES FOR MOTOR VEHICLES.**
15 The use of hybrid motor vehicles reduces air contaminants, greenhouse
16 gas emissions and reliance on imported sources of petroleum. To foster
17 the use of hybrid motor vehicles, beginning July 1, 2005, before the
18 purchase or lease of a motor vehicle, state agencies should first
19 consider the feasibility of hybrid motor vehicles. State agencies
20 should strive to purchase or lease a hybrid motor vehicle when the use
21 of such vehicle is consistent with and can accomplish the agency's
22 mission and when the purchase is financially reasonable. The financial
23 assessment should include savings accruing from reduced fuel purchases
24 over the life of the vehicle. Agencies shall report on their purchases
25 of hybrid vehicles in their biennial sustainability plans as required
26 under executive order 02-03.

27 **Sec. 912.** RCW 28A.160.195 and 2004 c 276 s 904 are each amended to
28 read as follows:

29 (1) The superintendent of public instruction, in consultation with
30 the regional transportation coordinators of the educational service
31 districts, shall establish a minimum number of school bus categories
32 considering the capacity and type of vehicles required by school
33 districts in Washington. The superintendent, in consultation with the
34 regional transportation coordinators of the educational service
35 districts, shall establish competitive specifications for each category
36 of school bus. The categories shall be developed to produce minimum

1 long-range operating costs, including costs of equipment and all costs
2 in operating the vehicles. The categories, for purposes of comparative
3 studies, will be at a minimum the same as those in the beginning of the
4 1994-95 school year. The competitive specifications shall meet federal
5 motor vehicle safety standards, minimum state specifications as
6 established by rule by the superintendent, and supported options as
7 determined by the superintendent in consultation with the regional
8 transportation coordinators of the educational service districts. In
9 fiscal (~~(year 2005)~~) years 2006 and 2007, the superintendent may
10 solicit and accept price quotes for a rear-engine category school bus
11 that shall be reimbursed at the price of the corresponding front engine
12 category.

13 (2) After establishing school bus categories and competitive
14 specifications, the superintendent of public instruction shall solicit
15 competitive price quotes from school bus dealers to be in effect for
16 one year and shall (a) except in fiscal (~~(year 2005)~~) years 2006 and
17 2007, establish a list of the lowest competitive price quotes obtained
18 under this subsection, and (b) in fiscal (~~(year 2005)~~) years 2006 and
19 2007, establish a list of all accepted price quotes in each category
20 obtained under this subsection.

21 (3) The superintendent shall base the level of reimbursement to
22 school districts and educational service districts for school buses on
23 the lowest quote in each category.

24 (4) Notwithstanding RCW 28A.335.190, school districts and
25 educational service districts may purchase at the quoted price directly
26 from the dealer who is providing the lowest competitive price quote on
27 the list established under subsection (2) of this section and in fiscal
28 (~~(year 2005)~~) years 2006 and 2007 from any dealer on the list
29 established under subsection (2)(b) of this section. School districts
30 and educational service districts may make their own selections for
31 school buses, but shall be reimbursed at the rates determined under
32 subsection (3) of this section and RCW 28A.160.200. District-selected
33 options shall not be reimbursed by the state. For the (~~(2003-05)~~)
34 2005-2007 fiscal biennium, school districts and educational service
35 districts shall be reimbursed for buses purchased only through a
36 lowest-price competitive bid process conducted pursuant to RCW
37 28A.335.190 or through the state bid process established by this
38 section.

1 (5) This section does not prohibit school districts or educational
2 service districts from conducting their own competitive bid process.

3 (6) The superintendent of public instruction may adopt rules under
4 chapter 34.05 RCW to implement this section.

5 **Sec. 913.** RCW 28A.305.210 and 2003 1st sp.s. c 25 s 911 are each

8 require the assistance of educational service district boards and/or
9 superintendents in the performance of any duty, authority, or power
10 imposed upon or granted to the state board of education by law, upon
11 such terms and conditions as the state board of education shall
12 establish. Such authority to assist the state board of education shall
13 be limited to the service function of information collection and
14 dissemination and the attestment to the accuracy and completeness of
15 submitted information.

16 (2) During the ((2003-05)) 2005-2007 biennium, educational service
17 districts may, at the request of the state board of education, receive
18 and screen applications for school accreditation, conduct school
19 accreditation site visits pursuant to state board of education rules,
20 and submit to the state board of education postsite visit
21 recommendations for school accreditation. The educational service
22 districts may assess a cooperative service fee to recover actual plus
23 reasonable indirect costs for the purposes of this subsection.

24 **Sec. 914.** RCW 28A.500.030 and 2003 1st sp.s. c 25 s 912 are each

27 effort assistance shall be determined as follows:

28 (1) Funds raised by the district through maintenance and operation
29 levies shall be matched with state funds using the following ratio of
30 state funds to levy funds:

31 (a) The difference between the district's twelve percent levy rate
32 and the statewide average twelve percent levy rate; to

33 (b) The statewide average twelve percent levy rate.

34 (2) The maximum amount of state matching funds for districts
35 eligible for local effort assistance shall be the district's twelve
36 percent levy amount, multiplied by the following percentage:

1 (a) The difference between the district's twelve percent levy rate
2 and the statewide average twelve percent levy rate; divided by

3 (b) The district's twelve percent levy rate.

4 (3) Calendar year 2003 allocations and maximum eligibility under
5 this chapter shall be multiplied by 0.99.

6 (4) From January 1, 2004, to (~~June 30,~~) December 31, 2005,
7 allocations and maximum eligibility under this chapter shall be
8 multiplied by 0.937.

9 **Sec. 915.** RCW 41.05.120 and 1994 c 153 s 9 are each amended to
10 read as follows:

11 (1) The public employees' and retirees' insurance account is hereby
12 established in the custody of the state treasurer, to be used by the
13 administrator for the deposit of contributions, the remittance paid by
14 school districts and educational service districts (~~under RCW~~
15 ~~28A.400.400~~), reserves, dividends, and refunds, and for payment of
16 premiums for employee and retiree insurance benefit contracts and
17 subsidy amounts provided under RCW 41.05.085. Moneys from the account
18 shall be disbursed by the state treasurer by warrants on vouchers duly
19 authorized by the administrator.

20 (2) The state treasurer and the state investment board may invest
21 moneys in the public employees' and retirees' insurance account. All
22 such investments shall be in accordance with RCW 43.84.080 or
23 43.84.150, whichever is applicable. The administrator shall determine
24 whether the state treasurer or the state investment board or both shall
25 invest moneys in the public employees' insurance account.

26 (3) During the 2005-07 fiscal biennium, the legislature may
27 transfer from the public employees' and retirees' insurance account
28 such amounts as reflect the excess fund balance of the fund.

29 **Sec. 916.** RCW 41.50.110 and 2003 1st sp.s. c 25 s 914 are each
30 amended to read as follows:

31 (1) Except as provided by RCW 41.50.255 and subsection (6) of this
32 section, all expenses of the administration of the department, the
33 expenses of administration of the retirement systems, and the expenses
34 of the administration of the office of the state actuary created in
35 chapters 2.10, 2.12, 41.26, 41.32, 41.40, 41.34, 41.35, 43.43, and

1 44.44 RCW shall be paid from the department of retirement systems
2 expense fund.

3 (2) In order to reimburse the department of retirement systems
4 expense fund on an equitable basis the department shall ascertain and
5 report to each employer, as defined in RCW 41.26.030, 41.32.010,
6 41.35.010, or 41.40.010, the sum necessary to defray its proportional
7 share of the entire expense of the administration of the retirement
8 system that the employer participates in during the ensuing biennium or
9 fiscal year whichever may be required. Such sum is to be computed in
10 an amount directly proportional to the estimated entire expense of the
11 administration as the ratio of monthly salaries of the employer's
12 members bears to the total salaries of all members in the entire
13 system. It shall then be the duty of all such employers to include in
14 their budgets or otherwise provide the amounts so required.

15 (3) The department shall compute and bill each employer, as defined
16 in RCW 41.26.030, 41.32.010, 41.35.010, or 41.40.010, at the end of
17 each month for the amount due for that month to the department of
18 retirement systems expense fund and the same shall be paid as are its
19 other obligations. Such computation as to each employer shall be made
20 on a percentage rate of salary established by the department. However,
21 the department may at its discretion establish a system of billing
22 based upon calendar year quarters in which event the said billing shall
23 be at the end of each such quarter.

24 (4) The director may adjust the expense fund contribution rate for
25 each system at any time when necessary to reflect unanticipated costs
26 or savings in administering the department.

27 (5) An employer who fails to submit timely and accurate reports to
28 the department may be assessed an additional fee related to the
29 increased costs incurred by the department in processing the deficient
30 reports. Fees paid under this subsection shall be deposited in the
31 retirement system expense fund.

32 (a) Every six months the department shall determine the amount of
33 an employer's fee by reviewing the timeliness and accuracy of the
34 reports submitted by the employer in the preceding six months. If

1 (a) Fifty percent to the department of ecology, for use by the
2 departments of ecology, natural resources, revenue, transportation, and
3 corrections, and the parks and recreation commission, for use in litter
4 collection programs, to be distributed under RCW 70.93.220. The amount
5 to the department of ecology shall also be used for a central
6 coordination function for litter control efforts statewide, for the
7 biennial litter survey under RCW 70.93.200(8), and for statewide public
8 awareness programs under RCW 70.93.200(7). The amount to the
9 department shall also be used to defray the costs of administering the
10 funding, coordination, and oversight of local government programs for
11 waste reduction, litter control, and recycling, so that local
12 governments can apply one hundred percent of their funding to achieving
13 program goals. The amount to the department of revenue shall be used
14 to enforce compliance with the litter tax imposed in chapter 82.19 RCW;

15 (b) Twenty percent to the department for local government funding
16 programs for waste reduction, litter control, and recycling activities
17 by cities and counties under RCW 70.93.250, to be administered by the
18 department of ecology; and

19 (c) Thirty percent to the department of ecology for waste reduction
20 and recycling efforts.

21 (2) All taxes imposed in RCW 82.19.010 and fines and bail
22 forfeitures collected or received pursuant to this chapter shall be
23 deposited in the waste reduction, recycling, and litter control account
24 and used for the programs under subsection (1) of this section.

25 (3) Not less than five percent and no more than ten percent of the
26 amount appropriated into the waste reduction, recycling, and litter
27 control account every biennium shall be reserved for capital needs,
28 including the purchase of vehicles for transporting crews and for
29 collecting litter and solid waste. Capital funds shall be distributed
30 among state agencies and local governments according to the same
31 criteria provided in RCW 70.93.220 for the remainder of the funds, so
32 that the most effective waste reduction, litter control, and recycling
33 programs receive the most funding. The intent of this subsection is to
34 provide funds for the purchase of equipment that will enable the
35 department to account for the greatest return on investment in terms of
36 reaching a zero litter goal.

37 (4) During the 2005-2007 fiscal biennium, the legislature may

1 transfer from the waste reduction, recycling, and litter control
2 account to the state general fund such amounts as reflect the excess
3 fund balance of the account.

4 **Sec. 930.** RCW 70.105D.070 and 2003 1st sp.s. c 25 s 933 are each
5 amended to read as follows:

6 (1) The state toxics control account and the local toxics control
7 account are hereby created in the state treasury.

8 (2) The following moneys shall be deposited into the state toxics
9 control account: (a) Those revenues which are raised by the tax
10 imposed under RCW 82.21.030 and which are attributable to that portion
11 of the rate equal to thirty-three one-hundredths of one percent; (b)
12 the costs of remedial actions recovered under this chapter or chapter
13 70.105A RCW; (c) penalties collected or recovered under this chapter;
14 and (d) any other money appropriated or transferred to the account by
15 the legislature. Moneys in the account may be used only to carry out
16 the purposes of this chapter, including but not limited to the
17 following activities:

18 (i) The state's responsibility for hazardous waste planning,
19 management, regulation, enforcement, technical assistance, and public
20 education required under chapter 70.105 RCW;

21 (ii) The state's responsibility for solid waste planning,
22 management, regulation, enforcement, technical assistance, and public
23 education required under chapter 70.95 RCW;

24 (iii) The hazardous waste cleanup program required under this
25 chapter;

26 (iv) State matching funds required under the federal cleanup law;

27 (v) Financial assistance for local programs in accordance with
28 chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

29 (vi) State government programs for the safe reduction, recycling,
30 or disposal of hazardous wastes from households, small businesses, and
31 agriculture;

32 (vii) Hazardous materials emergency response training;

33 (viii) Water and environmental health protection and monitoring
34 programs;

35 (ix) Programs authorized under chapter 70.146 RCW;

36 (x) A public participation program, including regional citizen
37 advisory committees;

1 (xi) Public funding to assist potentially liable persons to pay for
2 the costs of remedial action in compliance with cleanup standards under
3 RCW 70.105D.030(2)(e) but only when the amount and terms of such
4 funding are established under a settlement agreement under RCW
5 70.105D.040(4) and when the director has found that the funding will
6 achieve both (A) a substantially more expeditious or enhanced cleanup
7 than would otherwise occur, and (B) the prevention or mitigation of
8 unfair economic hardship; and

9 (xii) Development and demonstration of alternative management
10 technologies designed to carry out the top two hazardous waste
11 management priorities of RCW 70.105.150.

12 (3) The following moneys shall be deposited into the local toxics
13 control account: Those revenues which are raised by the tax imposed
14 under RCW 82.21.030 and which are attributable to that portion of the
15 rate equal to thirty-seven one-hundredths of one percent.

16 (a) Moneys deposited in the local toxics control account shall be
17 used by the department for grants or loans to local governments for the
18 following purposes in descending order of priority: (i) Remedial
19 actions; (ii) hazardous waste plans and programs under chapter 70.105
20 RCW; (iii) solid waste plans and programs under chapters 70.95, 70.95C,
21 70.95I, and 70.105 RCW; (iv) funds for a program to assist in the
22 assessment and cleanup of sites of methamphetamine production, but not
23 to be used for the initial containment of such sites, consistent with
24 the responsibilities and intent of RCW 69.50.511; and (v) cleanup and
25 disposal of hazardous substances from abandoned or derelict vessels
26 that pose a threat to human health or the environment. For purposes of
27 this subsection (3)(a)(v), "abandoned or derelict vessels" means
28 vessels that have little or no value and either have no identified
29 owner or have an identified owner lacking financial resources to clean
30 up and dispose of the vessel. Funds for plans and programs shall be
31 allocated consistent with the priorities and matching requirements
32 established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW. During
33 the 1999-2001 fiscal biennium, moneys in the account may also be used
34 for the following activities: Conducting a study of whether dioxins
35 occur in fertilizers, soil amendments, and soils; reviewing
36 applications for registration of fertilizers; and conducting a study of
37 plant uptake of metals. During the ((2003-05)) 2005-2007 fiscal
38 biennium, the legislature may transfer from the local toxics control

1 account to the state toxics control account such amounts as specified
2 in the omnibus operating budget bill for methamphetamine lab cleanup.
3 During the 2005-2007 fiscal biennium, moneys in the account may also be
4 used for grants to local governments to retrofit public sector diesel
5 equipment and for storm water planning and implementation activities.

6 (b) Funds may also be appropriated to the department of health to
7 implement programs to reduce testing requirements under the federal
8 safe drinking water act for public water systems. The department of
9 health shall reimburse the account from fees assessed under RCW
10 70.119A.115 by June 30, 1995.

11 (4) Except for unanticipated receipts under RCW 43.79.260 through
12 43.79.282, moneys in the state and local toxics control accounts may be
13 spent only after appropriation by statute.

14 (5) One percent of the moneys deposited into the state and local
15 toxics control accounts shall be allocated only for public
16 participation grants to persons who may be adversely affected by a
17 release or threatened release of a hazardous substance and to not-for-
18 profit public interest organizations. The primary purpose of these
19 grants is to facilitate the participation by persons and organizations
20 in the investigation and remedying of releases or threatened releases
21 of hazardous substances and to implement the state's solid and
22 hazardous waste management priorities. However, during the 1999-2001
23 fiscal biennium, funding may not be granted to entities engaged in
24 lobbying activities, and applicants may not be awarded grants if their
25 cumulative grant awards under this section exceed two hundred thousand
26 dollars. No grant may exceed sixty thousand dollars. Grants may be
27 renewed annually. Moneys appropriated for public participation from
28 either account which are not expended at the close of any biennium
29 shall revert to the state toxics control account.

30 (6) No moneys deposited into either the state or local toxics
31 control account may be used for solid waste incinerator feasibility
32 studies, construction, maintenance, or operation.

33 (7) The department shall adopt rules for grant or loan issuance and
34 performance.

35 (8) During the 2005-2007 fiscal biennium, the legislature may
36 transfer from the state toxics control account to the state general
37 fund such amounts as reflect the excess fund balance of the fund.

1 **Sec. 931.** RCW 70.146.030 and 2004 c 277 s 909 are each amended to
2 read as follows:

3 (1) The water quality account is hereby created in the state
4 treasury. Moneys in the account may be used only in a manner
5 consistent with this chapter. Moneys deposited in the account shall be
6 administered by the department of ecology and shall be subject to
7 legislative appropriation. Moneys placed in the account shall include
8 tax receipts as provided in RCW 82.24.027, 82.26.025, and 82.32.390,
9 principal and interest from the repayment of any loans granted pursuant
10 to this chapter, and any other moneys appropriated to the account by
11 the legislature.

12 (2) The department may use or permit the use of any moneys in the
13 account to make grants or loans to public bodies, including grants to
14 public bodies as cost-sharing moneys in any case where federal, local,
15 or other funds are made available on a cost-sharing basis, for water
16 pollution control facilities and activities, or for purposes of
17 assisting a public body to obtain an ownership interest in water
18 pollution control facilities and/or to defray a part of the payments
19 made by a public body to a service provider under a service agreement
20 entered into pursuant to RCW 70.150.060, within the purposes of this
21 chapter and for related administrative expenses. For the period July
22 1, ((2003)) 2005, to June 30, ((2005)) 2007, moneys in the account may
23 be used to process applications received by the department that seek to
24 make changes to or transfer existing water rights, for water conveyance
25 projects, and for grants and technical assistance to public bodies for
26 watershed planning under chapter 90.82 RCW. No more than three percent
27 of the moneys deposited in the account may be used by the department to
28 pay for the administration of the grant and loan program authorized by
29 this chapter.

30 (3) Beginning with the biennium ending June 30, 1997, the
31 department shall present a biennial progress report on the use of
32 moneys from the account to the chairs of the senate committee on ways
33 and means and the house of representatives committee on appropriations.
34 The first report is due June 30, 1996, and the report for each
35 succeeding biennium is due December 31 of the odd-numbered year. The
36 report shall consist of a list of each recipient, project description,
37 and amount of the grant, loan, or both.

1 **Sec. 932.** RCW 70.146.080 and 2003 1st sp.s. c 25 s 935 are each
2 amended to read as follows:

3 Within thirty days after June 30, 1987, and within thirty days
4 after each succeeding fiscal year thereafter, the state treasurer shall
5 determine the tax receipts deposited into the water quality account for
6 the preceding fiscal year. If the tax receipts deposited into the
7 account in each of the fiscal years 1988 and 1989 are less than forty
8 million dollars, the state treasurer shall transfer sufficient moneys
9 from general state revenues into the water quality account to bring the
10 total receipts in each fiscal year up to forty million dollars.

11 For the biennium ending June 30, 1991, if the tax receipts
12 deposited into the water quality account and the earnings on investment
13 of balances credited to the account are less than ninety million
14 dollars, the treasurer shall transfer sufficient moneys from general
15 state revenues into the water quality account to bring the total
16 revenue up to ninety million dollars. The determination and transfer
17 shall be made by July 31, 1991.

18 For fiscal year 1992 and for fiscal years 1995 and 1996 and
19 thereafter, if the tax receipts deposited into the water quality
20 account for each fiscal year are less than forty-five million dollars,
21 the treasurer shall transfer sufficient moneys from general state
22 revenues into the water quality account to bring the total revenue up
23 to forty-five million dollars. However, during the ((2003-05)) 2005-
24 2007 fiscal biennium, the legislature may specify the transfer of a
25 different amount in the operating budget bill. Determinations and
26 transfers shall be made by July 31 for the preceding fiscal year.

27 **Sec. 933.** RCW 70.148.020 and 1999 c 73 s 1 are each amended to
28 read as follows:

29 (1) The pollution liability insurance program trust account is
30 established in the custody of the state treasurer. All funds
31 appropriated for this chapter and all premiums collected for
32 reinsurance shall be deposited in the account. Expenditures from the
33 account shall be used exclusively for the purposes of this chapter
34 including payment of costs of administering the pollution liability
35 insurance and underground storage tank community assistance programs.
36 Expenditures for payment of administrative and operating costs of the

1 agency are subject to the allotment procedures under chapter 43.88 RCW
2 and may be made only after appropriation by statute. No appropriation
3 is required for other expenditures from the account.

4 (2) Each calendar quarter, the director shall report to the
5 insurance commissioner the loss and surplus reserves required for the
6 calendar quarter. The director shall notify the department of revenue
7 of this amount by the fifteenth day of each calendar quarter.

8 (3) Each calendar quarter the director shall determine the amount
9 of reserves necessary to fund commitments made to provide financial
10 assistance under RCW 70.148.130 to the extent that the financial
11 assistance reserves do not jeopardize the operations and liabilities of
12 the pollution liability insurance program. The director shall notify
13 the department of revenue of this amount by the fifteenth day of each
14 calendar quarter. The director may immediately establish an initial
15 financial assistance reserve of five million dollars from available
16 revenues. The director may not expend more than fifteen million
17 dollars for the financial assistance program.

18 (4) During the 2005-2007 fiscal biennium, the legislature may
19 transfer from the pollution liability insurance program trust account
20 to the state general fund such amounts as reflect the excess fund
21 balance of the account.

22 (5) This section expires June 1, (~~(2001-2007)~~) 2007.

23 **Sec. 934.** RCW 72.11.040 and 2003 1st sp.s. c 25 s 936 are each
24 amended to read as follows:

25 The cost of supervision fund is created in the custody of the state
26 treasurer. All receipts from assessments made under RCW 9.94A.780 and
27 72.04A.120 shall be deposited into the fund. Expenditures from the
28 fund may be used only to support the collection of legal financial
29 obligations. During the (~~(2003-2005)~~) 2005-2007 biennium, funds from
30 the account may also be used for costs associated with the department's
31 supervision of the offenders in the community. Only the secretary of
32 the department of corrections or the secretary's designee may authorize
33 expenditures from the fund. The fund is subject to allotment
34 procedures under chapter 43.88 RCW, but no appropriation is required
35 for expenditures.

1 **Sec. 935.** RCW 74.09.5225 and 2001 2nd sp.s. c 2 s 2 are each
2 amended to read as follows:

3 (1) Payments for recipients eligible for medical assistance
4 programs under this chapter for services provided by hospitals,
5 regardless of the beneficiary's managed care enrollment status, shall
6 be made based on allowable costs incurred during the year, when
7 services are provided by a rural hospital certified by the health care
8 financing administration as a critical access hospital. Any additional
9 payments made by the medical assistance administration for the healthy
10 options program shall be no more than the additional amounts per
11 service paid under this section for other medical assistance programs.

12 (2) During the 2005-2007 fiscal biennium, a moratorium shall be
13 placed on additional hospitals participating in the medical assistance
14 program under chapter 74.09 RCW as described in subsection (1) of this
15 section. However, rural hospitals that applied for certification to
16 the centers for medicare and medicaid services prior to January 1,
17 2005, but have not yet completed the process or have not yet been
18 approved for certification, remain eligible for medical assistance
19 reimbursement.

20 **Sec. 936.** RCW 74.46.431 and 2004 c 276 s 913 are each amended to
21 read as follows:

22 (1) Effective July 1, 1999, nursing facility medicaid payment rate
23 allocations shall be facility-specific and shall have seven components:
24 Direct care, therapy care, support services, operations, property,
25 financing allowance, and variable return. The department shall
26 establish and adjust each of these components, as provided in this
27 section and elsewhere in this chapter, for each medicaid nursing
28 facility in this state.

29 (2) All component rate allocations for essential community
30 providers as defined in this chapter shall be based upon a minimum
31 facility occupancy of eighty-five percent of licensed beds, regardless
32 of how many beds are set up or in use. For all facilities other than
33 essential community providers, effective July 1, 2001, component rate
34 allocations in direct care, therapy care, support services, variable
35 return, operations, property, and financing allowance shall continue to
36 be based upon a minimum facility occupancy of eighty-five percent of
37 licensed beds. For all facilities other than essential community

1 providers, effective July 1, 2002, the component rate allocations in
2 operations, property, and financing allowance shall be based upon a
3 minimum facility occupancy of ninety percent of licensed beds,
4 regardless of how many beds are set up or in use.

5 (3) Information and data sources used in determining medicaid
6 payment rate allocations, including formulas, procedures, cost report
7 periods, resident assessment instrument formats, resident assessment
8 methodologies, and resident classification and case mix weighting
9 methodologies, may be substituted or altered from time to time as
10 determined by the department.

11 (4)(a) Direct care component rate allocations shall be established
12 using adjusted cost report data covering at least six months. Adjusted
13 cost report data from 1996 will be used for October 1, 1998, through
14 June 30, 2001, direct care component rate allocations; adjusted cost
15 report data from 1999 will be used for July 1, 2001, through June 30,
16 2005, direct care component rate allocations. Unless the legislature
17 provides otherwise in the biennial appropriations act, adjusted cost
18 report data from 1999 will continue to be used for July 1, 2005, and
19 later direct care component rate allocations.

20 (b) Direct care component rate allocations based on 1996 cost
21 report data shall be adjusted annually for economic trends and
22 conditions by a factor or factors defined in the biennial
23 appropriations act. A different economic trends and conditions
24 adjustment factor or factors may be defined in the biennial
25 appropriations act for facilities whose direct care component rate is
26 set equal to their adjusted June 30, 1998, rate, as provided in RCW
27 74.46.506(5)(i).

28 (c) Direct care component rate allocations based on 1999 cost
29 report data shall be adjusted annually for economic trends and
30 conditions by a factor or factors defined in the biennial
31 appropriations act. A different economic trends and conditions
32 adjustment factor or factors may be defined in the biennial
33 appropriations act for facilities whose direct care component rate is
34 set equal to their adjusted June 30, 1998, rate, as provided in RCW
35 74.46.506(5)(i).

36 (5)(a) Therapy care component rate allocations shall be established
37 using adjusted cost report data covering at least six months. Adjusted
38 cost report data from 1996 will be used for October 1, 1998, through

1 June 30, 2001, therapy care component rate allocations; adjusted cost
2 report data from 1999 will be used for July 1, 2001, through June 30,
3 2005, therapy care component rate allocations. Unless the legislature
4 provides otherwise in the biennial appropriations act, adjusted cost
5 report data from 1999 will continue to be used for July 1, 2005, and
6 later direct care component rate allocations.

7 (b) Therapy care component rate allocations shall be adjusted
8 annually for economic trends and conditions by a factor or factors
9 defined in the biennial appropriations act.

10 (6)(a) Support services component rate allocations shall be
11 established using adjusted cost report data covering at least six
12 months. Adjusted cost report data from 1996 shall be used for October
13 1, 1998, through June 30, 2001, support services component rate
14 allocations; adjusted cost report data from 1999 shall be used for July
15 1, 2001, through June 30, 2005, support services component rate
16 allocations. Unless the legislature provides otherwise in the biennial
17 appropriations act, adjusted cost report data from 1999 will continue
18 to be used for July 1, 2005, and later direct care component rate
19 allocations.

20 (b) Support services component rate allocations shall be adjusted
21 annually for economic trends and conditions by a factor or factors
22 defined in the biennial appropriations act.

23 (7)(a) Operations component rate allocations shall be established
24 using adjusted cost report data covering at least six months. Adjusted
25 cost report data from 1996 shall be used for October 1, 1998, through
26 June 30, 2001, operations component rate allocations; adjusted cost
27 report data from 1999 shall be used for July 1, 2001, through June 30,
28 2005, operations component rate allocations. Unless the legislature
29 provides otherwise in the biennial appropriations act, adjusted cost
30 report data from 1999 will continue to be used for July 1, 2005, and
31 later direct care component rate allocations.

32 (b) Operations component rate allocations shall be adjusted
33 annually for economic trends and conditions by a factor or factors
34 defined in the biennial appropriations act.

35 (8) For July 1, 1998, through September 30, 1998, a facility's
36 property and return on investment component rates shall be the
37 facility's June 30, 1998, property and return on investment component
38 rates, without increase. For October 1, 1998, through June 30, 1999,

1 a facility's property and return on investment component rates shall be
2 rebased utilizing 1997 adjusted cost report data covering at least six
3 months of data.

4 (9) Total payment rates under the nursing facility medicaid payment
5 system shall not exceed facility rates charged to the general public
6 for comparable services.

7 (10) Medicaid contractors shall pay to all facility staff a minimum
8 wage of the greater of the state minimum wage or the federal minimum
9 wage.

10 (11) The department shall establish in rule procedures, principles,
11 and conditions for determining component rate allocations for
12 facilities in circumstances not directly addressed by this chapter,
13 including but not limited to: The need to prorate inflation for
14 partial-period cost report data, newly constructed facilities, existing
15 facilities entering the medicaid program for the first time or after a
16 period of absence from the program, existing facilities with expanded
17 new bed capacity, existing medicaid facilities following a change of
18 ownership of the nursing facility business, facilities banking beds or
19 converting beds back into service, facilities temporarily reducing the
20 number of set-up beds during a remodel, facilities having less than six
21 months of either resident assessment, cost report data, or both, under
22 the current contractor prior to rate setting, and other circumstances.

23 (12) The department shall establish in rule procedures, principles,
24 and conditions, including necessary threshold costs, for adjusting
25 rates to reflect capital improvements or new requirements imposed by
26 the department or the federal government. Any such rate adjustments
27 are subject to the provisions of RCW 74.46.421.

28 (13) Effective July 1, 2001, medicaid rates shall continue to be
29 revised downward in all components, in accordance with department
30 rules, for facilities converting banked beds to active service under
31 chapter 70.38 RCW, by using the facility's increased licensed bed
32 capacity to recalculate minimum occupancy for rate setting. However,
33 for facilities other than essential community providers which bank beds
34 under chapter 70.38 RCW, after May 25, 2001, medicaid rates shall be
35 revised upward, in accordance with department rules, in direct care,
36 therapy care, support services, and variable return components only, by
37 using the facility's decreased licensed bed capacity to recalculate

1 minimum occupancy for rate setting, but no upward revision shall be
2 made to operations, property, or financing allowance component rates.

3 (14) Facilities obtaining a certificate of need or a certificate of
4 need exemption under chapter 70.38 RCW after June 30, 2001, must have
5 a certificate of capital authorization in order for (a) the
6 depreciation resulting from the capitalized addition to be included in
7 calculation of the facility's property component rate allocation; and
8 (b) the net invested funds associated with the capitalized addition to
9 be included in calculation of the facility's financing allowance rate
10 allocation.

11 **Sec. 937.** RCW 79.64.040 and 2004 c 199 s 227 are each amended to
12 read as follows:

13 The board shall determine the amount deemed necessary in order to
14 achieve the purposes of this chapter and shall provide by rule for the
15 deduction of this amount from the moneys received from all leases,
16 sales, contracts, licenses, permits, easements, and rights of way
17 issued by the department and affecting state lands and aquatic lands,
18 provided that no deduction shall be made from the proceeds from
19 agricultural college lands. Moneys received as deposits from
20 successful bidders, advance payments, and security under RCW 79.15.100,
21 79.15.080, and 79.11.150 prior to December 1, 1981, which have not been
22 subjected to deduction under this section are not subject to deduction
23 under this section. The deductions authorized under this section shall
24 in no event exceed twenty-five percent of the moneys received by the
25 department in connection with any one transaction pertaining to state
26 lands and aquatic lands other than second class tide and shore lands
27 and the beds of navigable waters, and fifty percent of the moneys
28 received by the department pertaining to second class tide and shore
29 lands and the beds of navigable waters. During the fiscal biennium
