9 Puget Sound Initiative - Nearshore Salmon Restoration (20062001)

10 The reappropriations in this section are subject to the following
11 conditions and limitations:

12 (1) The reappropriations in this section are provided solely for
13 efforts to restore nearshore habitat and estuaries in Puget Sound. The
14 department of fish and wildlife must focus on restoring natural
15 nearshore processes, including protection and restoration of beach
16 sediments and removal of existing bulkheads.

17 (2) The department of fish and wildlife shall provide the Puget
18 Sound partnership, as created by chapter 341, Laws of 2007 the
19 opportunity to review and provide comment on proposed projects and
20 activities recommended for funding. This review must be consistent
21 with the funding schedule for the program.

22 (3) Funded projects require a nonstate match or in-kind
23 contributions. The department of fish and wildlife must seek to
24 maximize the amount of nonstate match from local, state, tribal, and
25 federal partners. Individual projects require a minimum 33 percent
26 cash or in-kind match.

27 (4) Eligible projects must be within Puget Sound and identified by
28 a salmon recovery lead entity or marine resource committee and
29 identified in a current salmon recovery, watershed, or nearshore
30 habitat restoration and protection plan.

31 (5) Project evaluation criteria must be developed by the Puget
32 Sound nearshore steering committee. The criteria must be consistent
33 with the technical guidance developed by the Puget Sound nearshore
34 science team and shall be coordinated with the salmon recovery funding
35 board to ensure that project funding and matching requirements are
36 maximized to the greatest extent possible.

1 (6) The department of fish and wildlife must not utilize any amount
 2 of this reappropriation to support administration or overhead. Funding
 3 to support the administration of the funds and the implementation of
 4 selected projects must be obtained from the department of fish and
 5 wildlife's operating budget.

6 (7) In recognition of the urgent need to complete the Puget Sound
 7 nearshore ecosystem restoration project general investigation, up to
 8 \$723,000 of this reappropriation may be used to match federal funds
 9 implementing the cost-share agreement between the department and the
 10 United States army corps of engineers.

11 (8) Up to \$2,698,735 of the reappropriation is provided solely for
 12 the following projects:

16 conditions and limitations: The appropriation is provided solely for
17 acquisition of working forest lands at risk of conversion to nonforest
18 uses and working natural resource lands that will protect and enhance
19 the value of trust land holdings. The legislature finds that the
20 chronic loss of working forest lands threatens the long-term prospects

24 stabilize the primary source of revenue to trust land beneficiaries.
25 The department shall submit a report to the appropriate committees of
26 the legislature by October 1, 2010, and every two years thereafter,

28 locations, acres, purchase price, and within that purchase price, the
29 value of the property attributed to the future value of timber harvests
30 given an expected rate of return for timber lands, and the value of the
31 property attributed to future development of the property. It is the
32 intent of the legislature to lease the development rights of these
33 conversion lands and retain them as long-term working natural resource

32 trust lands. No deduction may be made for the resource management cost
33 account under RCW 79.64.040. The value of the land transferred must be
34 deposited in the natural resources real property replacement account.

1 These funds shall be expended by the department for the exclusive
2 purpose of acquiring working natural resource lands of equal value to
3 be managed as common school trust land.

4 (3) Property subject to lease agreements under this section must be
5 appraised at fair market value. Lease terms must be up to fifty years
6 with options to renew for an additional fifty years. Lease payments
7 must be lump sum payments for the entire term of the lease at the
8 beginning of the lease. The department shall calculate such lump sum
9 payments using professional appraisal standards. These lease payments
10 may not exceed the fee simple purchase price based on current fair
11 market value and must be deposited by the department to the common
12 school construction account in the same manner as lease revenues from
13 other common school trust lands. No deduction may be made for the
14 resource management cost account under RCW 79.64.040.

15 (4) All reasonable costs, up to one percent of the appropriation,
16 incurred by the department to implement this section are authorized to
17 be paid out of the appropriations. Authorized costs include the actual
18 cost of appraisals, staff time, environmental reviews, surveys, and
19 other similar costs.

20 (5) Intergrant exchanges between common school and other trust
21 lands of equal value may occur if the exchange is in the interest of
22 each trust, as determined by the board of natural resources.

23 (6) Prior to or concurrent with conveyance of these properties, the
24 department, with full cooperation of the receiving agencies, shall
25 execute and record a real property instrument that dedicates the
26 transferred properties to the purposes identified in subsection (1) of
27 this section. Transfer and lease agreements for properties identified
28 in subsection (1) of this section must include terms that restrict the
29 use of the property to the intended purpose. Transfer and lease
30 agreements may include provisions for receiving agencies to request
31 alternative uses of the property, provided the alternative uses are
32 compatible with the original intended public purpose and the department
33 and legislature approves such uses.

34 (7) The department and receiving agencies shall work in good faith
35 to carry out the intent of this section. However, the department or
36 receiving agencies may remove a property from the transfer list based
37 on new, substantive information, if it is determined that transfer of

1 the property is not in the statewide interest of either the common
2 school trust or the receiving agency.

3 (8) The department shall execute trust land transfers that, after
4 the deduction of reasonable costs as provided in subsection (4) of this
5 section, eighty percent of the total value of transferred property is
6 timber value and is deposited in the common school construction
7 account. To achieve the eighty percent requirement, the department may
8 choose to lease properties originally intended as transfers.

9 (9) On June 30, 2011, the state treasurer shall transfer all
10 remaining uncommitted funds from this appropriation to the common
11 school construction account and the appropriations in this section
12 shall be reduced by an equivalent amount.

23 The reappropriation in this section is subject to the following
24 conditions and limitations: The reappropriation is provided solely for
25 the state board for community and technical colleges to assist public
26 community and technical colleges to manage unanticipated cost
27 escalation for projects bid during the 2007-2009 biennium. Not more
28 than \$750,000 shall be made available to any single project and amounts
29 provided for this purpose must be matched equally from other resources.
30 The state board for community and technical colleges shall manage the
31 distribution of funds to ensure that the requesting college has managed
32 its project within the current appropriation through preparation of bid
33 documents and that the scope of the project is no greater than was
34 originally specified in the design. Prior to the office of financial

1 management approving use of a minor works appropriation as a match, and
 2 its transfer to the project with unanticipated cost escalation, the
 3 state board for community and technical colleges shall require the
 4 college to describe what it has done to identify and develop
 5 alternative resources for a match, and the specific minor works
 6 projects that would be deferred as a result of the transfer. The state
 7 board for community and technical colleges will report to the office of
 8 financial management and the appropriate fiscal committees of the
 9 legislature on the use of these funds.

1 **PART 6**

2 **MISCELLANEOUS AND SUPPLEMENTAL PROVISIONS**

3 NEW SECTION. **Sec. 6001.** (1) Allotments for appropriations in this
4 act shall be provided in accordance with the capital project review
5 requirements adopted by the office of financial management and in
6 compliance with RCW 43.88.110. Projects that will be employing
7 alternative public works construction procedures under chapter 39.10
8 RCW are subject to the allotment procedures defined in this section and
9 RCW 43.88.110.

10 (2) Each project is defined as proposed in the legislative budget
11 notes or in the governor's budget document.

12 NEW SECTION. **Sec. 6002.** To ensure that major construction
13 projects are carried out in accordance with legislative and executive
14 intent, appropriations in this act in excess of \$5,000,000 shall not be
15 expended or encumbered until the office of financial management has
16 reviewed and approved the agency's predesign. The predesign document
17 shall include but not be limited to program, site, and cost analysis in
18 accordance with the predesign manual adopted by the office of financial
19 management. To improve monitoring of major construction projects,
20 progress reports shall be submitted by the agency administering the
21 project to the office of financial management and to the fiscal
22 committees of the house of representatives and senate. Reports will be
23 submitted on July 1st and December 31st each year in a format to be
24 developed by the office of financial management.

25 NEW SECTION. **Sec. 6003.** (1) To ensure minor works appropriations
26 are carried out in accordance with legislative intent, funds
27 appropriated in this act shall not be allotted until project lists are
28 on file at the office of financial management, the house of
29 representatives capital budget committee, and the senate ways and means
30 committee. All projects must meet the criteria included in subsection
31 (2)(a) of this section. Revisions to the lists must be filed with the
32 office of financial management, the house of representatives capital
33 budget committee, and the senate ways and means committee and include

1 an explanation of variances from the prior lists before funds may be
2 expended on the revisions.

3 (2)(a) Minor works projects are single line appropriations that
4 include multiple projects of a similar nature and that are valued
5 between \$25,000 and \$1,000,000 each, with the exception of higher
6 education minor works projects that may be valued up to \$2,000,000.
7 These projects can generally be completed within two years of the
8 appropriation with the funding provided. Agencies are prohibited from
9 including projects on their minor works lists that are a phase of a
10 larger project, and that if combined over a continuous period of time,
11 would exceed \$1,000,000, or \$2,000,000 for higher education minor works
12 projects. Improvements for accessibility in compliance with the
13 Americans with disabilities act may be included in any of the above
14 minor works categories.

15 (b) Minor works appropriations shall not be used for, among other
16 things: Studies, except for technical or engineering reviews or
17 designs that lead directly to and support a project on the same minor
18 works list; planning; design outside the scope of work on a minor works
19 list; moveable, temporary, and traditionally funded operating equipment
20 not in compliance with the equipment criteria established by the office
21 of financial management; software not dedicated to control of a
22 specialized system; moving expenses; land or facility acquisition; or
23 to supplement funding for projects with funding shortfalls unless
24 expressly authorized elsewhere in this act. The office of financial
25 management may make an exception to the limitations described in this
26 subsection (2)(b) for exigent circumstances after notifying the
27 legislative fiscal committees and waiting ten days for comments by the
28 legislature regarding the proposed exception.

29 (3) It is generally not the intent of the legislature to make
30 future appropriations for capital expenditures or for maintenance and
31 operating expenses for an acquisition project or a significant
32 expansion project that is initiated through the minor works process and
33 therefore does not receive a policy and fiscal analysis by the
34 legislature. Minor works projects are intended to be one-time
35 expenditures that do not require future state resources to complete.

36 NEW SECTION. **Sec. 6004.** (1) The office of financial management
37 may authorize a transfer of appropriation authority provided for a

1 capital project that is in excess of the amount required for the
2 completion of such project to another capital project for which the
3 appropriation is insufficient. No such transfer may be used to expand
4 the capacity of any facility beyond that intended in making the
5 appropriation. Such transfers may be effected only between capital
6 appropriations to a specific department, commission, agency, or
7 institution of higher education and only between capital projects that
8 are funded from the same fund or account. No transfers may occur
9 between projects to local government agencies except where the grants
10 are provided within a single omnibus appropriation and where such
11 transfers are specifically authorized by the implementing statutes that
12 govern the grants.

13 (2) The office of financial management may find that an amount is
14 in excess of the amount required for the completion of a project only
15 if: (a) The project as defined in the notes to the budget document is
16 substantially complete and there are funds remaining; or (b) bids have
17 been let on a project and it appears to a substantial certainty that
18 the project as defined in the notes to the budget document can be
19 completed within the biennium for less than the amount appropriated in
20 this act.

21 (3) For the purposes of this section, the intent is that each
22 project be defined as proposed to the legislature in the governor's
23 budget document, unless it clearly appears from the legislative history
24 that the legislature intended to define the scope of a project in a
25 different way.

26 (4) Transfers of funds to an agency's infrastructure savings
27 appropriation are subject to review and approval by the office of
28 financial management. Expenditures from an infrastructure savings
29 appropriation are limited to projects that have a primary purpose to
30 correct infrastructure deficiencies or conditions that: (a) Adversely
31 affect the ability to utilize the infrastructure for its current
32 programmatic use; (b) reduce the life expectancy of the infrastructure;
33 or (c) increase the operating costs of the infrastructure for its
34 current programmatic use. Eligible infrastructure projects may include
35 structures and surface improvements, site amenities, utility systems
36 outside building footprints and natural environmental changes or
37 requirements as part of an environmental regulation, a declaration of

1 emergency for an infrastructure issue in conformance with RCW
2 43.88.250, or infrastructure planning as part of a facility master
3 plan.

4 (5) A report of any transfer effected under this section, except
5 emergency projects or any transfer under \$250,000, shall be filed with
6 the legislative fiscal committees of the senate and house of
7 representatives by the office of financial management at least thirty
8 days before the date the transfer is effected. The office of financial
9 management shall report all emergency or smaller transfers within
10 thirty days from the date of transfer.

11 NEW SECTION. **Sec. 6005.** (1) It is expected that projects be ready
12 to proceed in a timely manner depending on the type or phase of the
13 project or program that is the subject of the appropriation in this
14 act. Except for major projects that customarily may take more than two
15 biennia to complete from predesign to the end of construction, or large
16 infrastructure grant or loan programs supporting projects that often
17 take more than two biennia to complete, the legislature generally does
18 not intend to reappropriate funds more than once, particularly for
19 smaller grant programs, local/community projects, and minor works.

20 (2) Agencies shall expedite the expenditure of reappropriations and
21 appropriations in this act in order to: (a) Rehabilitate
22 infrastructure resources; (b) accelerate environmental rehabilitation
23 and restoration projects for the improvement of the state's natural
24 environment; (c) reduce additional costs associated with acquisition
25 and construction inflationary pressures; and (d) provide additional
26 employment opportunities associated with capital expenditures.

27 (3) To the extent feasible, agencies are directed to accelerate
28 expenditure rates at their current level of permanent employees and
29 shall use contracted design and construction services wherever
30 necessary to meet the goals of this section.

31 NEW SECTION. **Sec. 6006.** State agencies, including institutions of
32 higher education, shall allot and report full-time equivalent staff for
33 capital projects in a manner comparable to staff reporting for
34 operating expenditures.

1 NEW SECTION. **Sec. 6007.** The department of general administration
2 shall not charge the facility depreciation component of lease charges
3 for nonprofit tenants in the building adjoining Capitol Way and 11th
4 avenue during the 2009-2011 biennium.

5 NEW SECTION. **Sec. 6008.** Executive Order No. 05-05, archaeological
6 and cultural resources, was issued effective November 10, 2005.
7 Agencies and higher education institutions shall comply with the
8 requirements set forth in this executive order.

9 NEW SECTION. **Sec. 6009.** ACQUISITION OF PROPERTIES AND FACILITIES
10 THROUGH FINANCIAL CONTRACTS. The following agencies may enter into
11 financial contracts, paid from any funds of an agency, appropriated or
12 nonappropriated, for the purposes indicated and in not more than the
13 principal amounts indicated, plus financing expenses and required
14 reserves pursuant to chapter 39.94 RCW. When securing properties under
15 this section, agencies shall use the most economical financial contract
16 option available, including long-term leases, lease-purchase
17 agreements, lease-development with option to purchase agreements or
18 financial contracts using certificates of participation. Expenditures
19 made by an agency for one of the indicated purposes before the issue
20 date of the authorized financial contract and any certificates of
21 participation therein are intended to be reimbursed from proceeds of
22 the financial contract and any certificates of participation therein to
23 the extent provided in the agency's financing plan approved by the
24 state finance committee.

25 State agencies may enter into agreements with the department of
26 general administration and the state treasurer's office to develop
27 requests to the legislature for acquisition of properties and
28 facilities through financial contracts. The agreements may include
29 charges for services rendered.

30 Those noninstructional facilities of higher education institutions
31 authorized in this section to enter into financial contracts are not

20 in this act for original construction of school plant facilities is
21 provided solely for the purposes of RCW 28A.335.210. The Washington

23 in order to fund larger works of art or mobile art displays in
24 consultation with the superintendent of public instruction and
25 representatives of school district boards.

26 (2) One-half of one percent of moneys appropriated in this act for
27 original construction or any major renovation or remodel work exceeding
28 two hundred thousand dollars by colleges or universities is provided
29 solely for the purposes of RCW 28B.10.027. The Washington state arts
30 commission may combine the proceeds from individual projects in order
31 to fund larger works of art or mobile art displays in consultation with
32 the board of regents or trustees.

33 (3) One-half of one percent of moneys appropriated in this act for
34 original construction of any public building by a state agency as
35 defined in RCW 43.17.020 is provided solely for the purposes of RCW

5 purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended
6 solely for direct acquisition of works of art. The commission may use
7 up to \$100,000 of this amount to conserve or maintain existing pieces
8 in the state art collection pursuant to chapter 36, Laws of 2005.

9 NEW SECTION. **Sec. 6011.** The amounts shown under the headings
10 "Prior Biennia," "Future Biennia," and "Total" in this act are for
11 informational purposes only and do not constitute legislative approval
12 of these amounts. "Prior biennia" typically refers to the immediate
13 prior biennium for reappropriations, but may refer to multiple biennia
14 in the case of specific projects. A "future biennia" amount is an
15 estimate of what may be appropriated for the project or program in the
16 2011-2013 biennium and the following three biennia; an amount of zero
17 does not necessarily constitute legislative intent to not provide
18 funding for the project or program in the future.

19 NEW SECTION. **Sec. 6012.** (1) "Reappropriations" in this act are
20 appropriations and, unless the context clearly provides otherwise, are
21 subject to the relevant conditions and limitations applicable to
22 appropriations. Reappropriations shall be limited to the unexpended
23 balances remaining on June 30, 2009, from the 2007-2009 biennial
24 appropriations for each project.

25 (2) "Reappropriations" in sections 5126, 5130, and 5131 of this act
26 shall be reduced in this act to the unexpended balance remaining as of
27 the end of fiscal year 2009 for the 2007-09 biennial appropriations in
28 sections 1085, 1086, and 5145, chapter 520, Laws of 2007.

29 NEW SECTION. **Sec. 6013.** To carry out the provisions of this act,
30 the governor may assign responsibility for predesign, design,
31 construction, and other related activities to any appropriate agency.

32 NEW SECTION. **Sec. 6014.** If any federal moneys appropriated by
33 this act for capital projects are not received by the state, the
34 department or agency to which the moneys were appropriated may replace

1 the federal moneys with funds available from private or local sources.
2 No replacement may occur under this section without the prior approval
3 of the director of financial management in consultation with the senate
4 ways and means committee and the house of representatives capital
5 budget committee.

6 NEW SECTION. **Sec. 6015.** (1) Unless otherwise stated, for all
7 appropriations under this act that require a match of nonstate money or
8 in-kind contributions, the following requirement, consistent with RCW
9 43.88.150, shall apply: Expenditures of state money shall be timed so
10 that the state share of project expenditures never exceeds the intended
11 state share of total project costs.

12 (2) Provision of the full amount of required matching funds is not
13 required to permit the expenditure of capital budget appropriations for
14 phased projects if a proportional amount of the required matching funds
15 is provided for each distinct, identifiable phase of the project.

16 NEW SECTION. **Sec. 6016.** NONTAXABLE AND TAXABLE BOND PROCEEDS.
17 Portions of the appropriation authority granted by this act from the
18 state building construction account, or any other account receiving
19 bond proceeds, may be transferred to the state taxable building
20 construction account as deemed necessary by the state finance committee
21 to comply with the federal internal revenue service rules and
22 regulations pertaining to the use of nontaxable bond proceeds.
23 Portions of the general obligation bond proceeds authorized by chapter
24 . . . (House Bill No. 1272 (state general obligation bonds)), Laws of
25 2009 for deposit into the state taxable building construction account
26 that are in excess of amounts required to comply with the federal
27 internal revenue service rules and regulations shall be deposited into
28 the state building construction account. The state treasurer shall
29 submit written notification to the director of financial management if
30 it is determined that a shift of appropriation authority between the
31 state building construction account, or any other account receiving
32 bond proceeds, and the state taxable building construction account is
33 necessary.

34 NEW SECTION. **Sec. 6017.** The office of financial management, in
35 consultation with the fiscal committees of the legislature, may select

1 capital projects that have completed predesign to undergo a budget
2 evaluation study. The budget evaluation study team approach using
3 value engineering techniques must be utilized by the office of
4 financial management in conducting the studies. The office of
5 financial management shall select the budget evaluation team members,
6 contract for the study, and report the results to the legislature and
7 agencies in a timely manner following the study. Funds from the
8 project appropriation must be used by the office of financial
9 management through an interagency agreement with the affected agencies
10 to cover the cost of the study.

11 **Sec. 6018.** RCW 43.155.040 and 1985 c 446 s 10 are each amended to
12 read as follows:

13 The board may:

14 (1) Accept from any state or federal agency, loans or grants for
15 the planning or financing of any public works project and enter into
16 agreements with any such agency concerning the loans or grants;

17 (2) Provide technical assistance to local governments;

18 (3) Accept any gifts, grants, or loans of funds, property, or
19 financial or other aid in any form from any other source on any terms
20 and conditions which are not in conflict with this chapter;

21 (4) Adopt rules under chapter 34.05 RCW as necessary to carry out
22 the purposes of this chapter;

23 (5) Do all acts and things necessary or convenient to carry out the
24 powers expressly granted or implied under this chapter.

25 Board activities relating to awarding new loans for the 2009-2011
26 biennium are suspended.

27 **Sec. 6019.** RCW 43.155.050 and 2008 c 328 s 6002 are each amended
28 to read as follows:

29 (1) The public works assistance account is hereby established in
30 the state treasury. Money may be placed in the public works assistance
31 account from the proceeds of bonds when authorized by the legislature
32 or from any other lawful source. Money in the public works assistance
33 account shall be used to make loans and to give financial guarantees to
34 local governments for public works projects. Moneys in the account may
35 also be appropriated to provide for state match requirements under
36 federal law for projects and activities conducted and financed by the

1 board under the drinking water assistance account. Not more than
2 fifteen percent of the biennial capital budget appropriation to the
3 public works board from this account may be expended or obligated for
4 preconstruction loans, emergency loans, or loans for capital facility
5 planning under this chapter; of this amount, not more than ten percent
6 of the biennial capital budget appropriation may be expended for
7 emergency loans and not more than one percent of the biennial capital
8 budget appropriation may be expended for capital facility planning
9 loans. For the 2007-2009 biennium, moneys in the account may be used
10 for grants for projects identified in section 138, chapter 488, Laws of
11 2005, for the infrastructure investment system implementation plan
12 identified in section 1022, chapter 328, Laws of 2008; for the interest
13 rate buy-down pilot program identified in section 1004, chapter 328,
14 Laws of 2008; and for the housing assistance, weatherization, and
15 affordable housing program identified in section 1005, chapter 328,
16 Laws of 2008. For the 2009-2011 biennium, moneys in the account may be
17 used for rule-making activities related to greywater, identified in
18 section 2031, chapter . . . , Laws of 2009 (section 2031 of this act).

19 (2) The job development fund is hereby established in the state
20 treasury. Up to fifty million dollars each biennium from the public
21 works assistance account may be transferred into the job development
22 fund. Money in the job development fund may be used solely for job
23 development fund program grants, administrative expenses related to the
24 administration of the job development fund program created in RCW
25 43.160.230, and for the report prepared by the joint legislative audit
26 and review committee pursuant to RCW 44.28.801(2). Moneys in the job
27 development fund may be spent only after appropriation. The board
28 shall prepare a prioritized list of proposed projects of up to fifty
29 million dollars as part of the department's 2007-09 biennial budget
30 request. The board may provide an additional alternate job development
31 fund project list of up to ten million dollars. The legislature may
32 remove projects from the list recommended by the board. The
33 legislature may not change the prioritization of projects recommended
34 for funding by the board, but may add projects from the alternate list
35 in order of priority, as long as the total funding does not exceed
36 fifty million dollars.

1 **Sec. 6020.** RCW 43.155.065 and 2001 c 131 s 3 are each amended to
2 read as follows:

3 (1) The board may make low-interest or interest-free loans to local
4 governments for emergency public works projects. Emergency public
5 works projects shall include the construction, repair, reconstruction,
6 replacement, rehabilitation, or improvement of a public water system
7 that is in violation of health and safety standards and is being
8 operated by a local government on a temporary basis. The loans may be
9 used to help fund all or part of an emergency public works project less
10 any reimbursement from any of the following sources: ~~((+1))~~ (a)
11 Federal disaster or emergency funds, including funds from the federal
12 emergency management agency; ~~((+2))~~ (b) state disaster or emergency
13 funds; ~~((+3))~~ (c) insurance settlements; or ~~((+4))~~ (d) litigation.

14 (2) Board activities relating to awarding new loans for the 2009-
15 2011 biennium are suspended.

16 **Sec. 6021.** RCW 43.155.068 and 2001 c 131 s 4 are each amended to
17 read as follows:

18 (1) The board may make low-interest or interest-free loans to local
19 governments for preconstruction activities on public works projects
20 before the legislature approves the construction phase of the project.
21 Preconstruction activities include design, engineering, bid-document
22 preparation, environmental studies, right-of-way acquisition, and other
23 preliminary phases of public works projects as determined by the board.
24 The purpose of the loans authorized in this section is to accelerate
25 the completion of public works projects by allowing preconstruction
26 activities to be performed before the approval of the construction
27 phase of the project by the legislature.

28 (2) Projects receiving loans for preconstruction activities under
29 this section must be evaluated using the priority process and factors
30 in RCW 43.155.070~~((+2))~~ (4). The receipt of a loan for
31 preconstruction activities does not ensure the receipt of a
32 construction loan for the project under this chapter. Construction
33 loans for projects receiving a loan for preconstruction activities
34 under this section are subject to legislative approval under RCW
35 43.155.070 ~~((+4) and (+5))~~ (6) and (7). The board shall adopt a single
36 application process for local governments seeking both a loan for

1 preconstruction activities under this section and a construction loan
2 for the project.

3 (3) Board activities relating to awarding new loans for the 2009-
4 2011 biennium are suspended.

5 **Sec. 6022.** RCW 43.155.070 and 2008 c 299 s 25 are each amended to
6 read as follows:

7 (1) To qualify for loans or pledges under this chapter the board
8 must determine that a local government meets all of the following
9 conditions:

10 (a) The city or county must be imposing a tax under chapter 82.46
11 RCW at a rate of at least one-quarter of one percent;

12 (b) The local government must have developed a capital facility
13 plan; and

14 (c) The local government must be using all local revenue sources
15 which are reasonably available for funding public works, taking into
16 consideration local employment and economic factors.

17 (2) Except where necessary to address a public health need or
18 substantial environmental degradation, a county, city, or town planning
19 under RCW 36.70A.040 must have adopted a comprehensive plan, including
20 a capital facilities plan element, and development regulations as
21 required by RCW 36.70A.040. This subsection does not require any
22 county, city, or town planning under RCW 36.70A.040 to adopt a
23 comprehensive plan or development regulations before requesting or
24 receiving a loan or loan guarantee under this chapter if such request
25 is made before the expiration of the time periods specified in RCW
26 36.70A.040. A county, city, or town planning under RCW 36.70A.040
27 which has not adopted a comprehensive plan and development regulations
28 within the time periods specified in RCW 36.70A.040 is not prohibited
29 from receiving a loan or loan guarantee under this chapter if the
30 comprehensive plan and development regulations are adopted as required
31 by RCW 36.70A.040 before submitting a request for a loan or loan
32 guarantee.

33 (3) In considering awarding loans for public facilities to special
34 districts requesting funding for a proposed facility located in a
35 county, city, or town planning under RCW 36.70A.040, the board shall
36 consider whether the county, city, or town planning under RCW

1 36.70A.040 in whose planning jurisdiction the proposed facility is
2 located has adopted a comprehensive plan and development regulations as
3 required by RCW 36.70A.040.

4 (4) The board shall develop a priority process for public works
5 projects as provided in this section. The intent of the priority
6 process is to maximize the value of public works projects accomplished
7 with assistance under this chapter. The board shall attempt to assure
8 a geographical balance in assigning priorities to projects. The board
9 shall consider at least the following factors in assigning a priority
10 to a project:

11 (a) Whether the local government receiving assistance has
12 experienced severe fiscal distress resulting from natural disaster or
13 emergency public works needs;

14 (b) Except as otherwise conditioned by RCW 43.155.110, whether the
15 entity receiving assistance is a Puget Sound partner, as defined in RCW
16 90.71.010;

17 (c) Whether the project is referenced in the action agenda
18 developed by the Puget Sound partnership under RCW 90.71.310;

19 (d) Whether the project is critical in nature and would affect the
20 health and safety of a great number of citizens;

21 (e) Whether the applicant has developed and adhered to guidelines
22 regarding its permitting process for those applying for development
23 permits consistent with section 1(2), chapter 231, Laws of 2007;

24 (f) The cost of the project compared to the size of the local
25 government and amount of loan money available;

26 (g) The number of communities served by or funding the project;

27 (h) Whether the project is located in an area of high unemployment,
28 compared to the average state unemployment;

29 (i) Whether the project is the acquisition, expansion, improvement,
30 or renovation by a local government of a public water system that is in
31 violation of health and safety standards, including the cost of
32 extending existing service to such a system;

33 (j) Except as otherwise conditioned by RCW 43.155.120, and
34 effective one calendar year following the development of model
35 evergreen community management plans and ordinances under RCW
36 35.105.050, whether the entity receiving assistance has been
37 recognized, and what gradation of recognition was received, in the
38 evergreen community recognition program created in RCW 35.105.030;

1 (k) The relative benefit of the project to the community,
2 considering the present level of economic activity in the community and
3 the existing local capacity to increase local economic activity in
4 communities that have low economic growth; and

5 (1) Other criteria that the board considers advisable.

6 (5) Existing debt or financial obligations of local governments
7 shall not be refinanced under this chapter. Each local government
8 applicant shall provide documentation of attempts to secure additional
9 local or other sources of funding for each public works project for
10 which financial assistance is sought under this chapter.

11 (6) Before November 1st of each year, the board shall develop and
12 submit to the appropriate fiscal committees of the senate and house of
13 representatives a description of the loans made under RCW 43.155.065,
14 43.155.068, and subsection (9) of this section during the preceding
15 fiscal year and a prioritized list of projects which are recommended
16 for funding by the legislature, including one copy to the staff of each
17 of the committees. The list shall include, but not be limited to, a
18 description of each project and recommended financing, the terms and
19 conditions of the loan or financial guarantee, the local government
20 jurisdiction and unemployment rate, demonstration of the jurisdiction's
21 critical need for the project and documentation of local funds being
22 used to finance the public works project. The list shall also include
23 measures of fiscal capacity for each jurisdiction recommended for
24 financial assistance, compared to authorized limits and state averages,
25 including local government sales taxes; real estate excise taxes;
26 property taxes; and charges for or taxes on sewerage, water, garbage,
27 and other utilities. However, board activities relating to awarding
28 new loans for the 2009-2011 biennium are suspended.

29 (7) The board shall not sign contracts or otherwise financially
30 obligate funds from the public works assistance account before the
31 legislature has appropriated funds for a specific list of public works
32 projects. The legislature may remove projects from the list
33 recommended by the board. The legislature shall not change the order
34 of the priorities recommended for funding by the board.

35 (8) Subsection (7) of this section does not apply to loans made
36 under RCW 43.155.065, 43.155.068, and subsection (9) of this section.

37 (9) Loans made for the purpose of capital facilities plans shall be
38 exempted from subsection (7) of this section.

1 (10) To qualify for loans or pledges for solid waste or recycling
2 facilities under this chapter, a city or county must demonstrate that
3 the solid waste or recycling facility is consistent with and necessary
4 to implement the comprehensive solid waste management plan adopted by
5 the city or county under chapter 70.95 RCW.

6 (11) After January 1, 2010, any project designed to address the
7 effects of storm water or wastewater on Puget Sound may be funded under
8 this section only if the project is not in conflict with the action
9 agenda developed by the Puget Sound partnership under RCW 90.71.310.

10 **Sec. 6023.** RCW 36.22.175 and 2008 c 328 s 6006 are each amended to
11 read as follows:

12 (1)(a) In addition to any other charge authorized by law, the
13 county auditor shall charge a surcharge of one dollar per instrument
14 for each document recorded. Revenue generated through this surcharge
15 shall be transmitted monthly to the state treasurer for deposit in the
16 local government archives account under RCW 40.14.024. These funds
17 shall be used solely for providing records scheduling, security
18 microfilm inspection and storage, archival preservation, cataloging,
19 and indexing for local government records and digital data and access
20 to those records and data through the regional branch archives of the
21 division of archives and records management.

22 (b) The division of archives and records management within the
23 office of the secretary of state shall provide records management
24 training for local governments and shall establish a competitive grant
25 program to solicit and prioritize project proposals from local
26 governments for potential funding to be paid for by funds from the
27 auditor surcharge and tax warrant surcharge revenues. Application for
28 specific projects may be made by local government agencies only. The
29 state archivist in consultation with the advisory committee established
30 under RCW 40.14.027 shall adopt rules governing project eligibility,
31 evaluation, awarding of grants, and other criteria including
32 requirements for records management training for grant recipients.

33 (2) The advisory committee established under RCW 40.14.027 shall
34 review grant proposals and establish a prioritized list of projects to
35 be considered for funding by January 1st of each even-numbered year,
36 beginning in 2002. The evaluation of proposals and development of the
37 prioritized list must be developed through open public meetings.

1 Funding for projects shall be granted according to the ranking of each
2 application on the prioritized list and projects will be funded only to
3 the extent that funds are available. A grant award may have an
4 effective date other than the date the project is placed on the
5 prioritized list.

6 (3)(a) In addition to any other surcharge authorized by law, the
7 county auditor shall charge a surcharge of one dollar per instrument
8 for every document recorded after January 1, 2002. Revenue generated
9 through this surcharge shall be transmitted to the state treasurer
10 monthly for deposit in the local government archives account under RCW
11 40.14.024 to be used exclusively for(~~(i)~~) the construction and
12 improvement of a specialized regional facility located in eastern

20 (b) To the extent the facilities are used for the storage and
21 retrieval of state agency records and digital data, that portion of the
22 construction of such facilities used for state government records and
23 data shall be supported by other charges and fees paid by state
24 agencies and shall not be supported by the surcharge authorized in this
25 subsection(~~(, except that to the extent there is an excess fund balance~~

30 (c) At such time that all debt service from construction of the
31 specialized regional archive facility located in eastern Washington has
32 been paid, fifty percent of the surcharge authorized by this subsection
33 shall be reverted to the centennial document preservation and
34 modernization account as prescribed in RCW 36.22.170 and fifty percent

6 **Sec. 6024.** RCW 79.17.010 and 2008 c 328 s 6012 are each amended to
7 read as follows:

8 (1) The department, with the approval of the board, may exchange
9 any state land and any timber thereon for any land of equal value in
10 order to:

- 11 (a) Facilitate the marketing of forest products of state lands;
- 12 (b) Consolidate and block-up state lands;
- 13 (c) Acquire lands having commercial recreational leasing potential;
- 14 (d) Acquire county-owned lands;
- 15 (e) Acquire urban property which has greater income potential or
16 which could be more efficiently managed by the department in exchange
17 for state urban lands as defined in RCW 79.19.100; or
- 18 (f) Acquire any other lands when such exchange is determined by the
19 board to be in the best interest of the trust for which the state land
20 is held.

21 (2) Land exchanged under this section shall not be used to reduce
22 the publicly owned forest land base.

23 (3) The board shall determine that each land exchange is in the
24 best interest of the trust for which the land is held prior to
25 authorizing the land exchange.

26 (4) During the biennium ending June 30, ~~((2009))~~ 2011, for the
27 purposes of maintaining working farm and forest landscapes or acquiring
28 natural resource lands at risk of development, the department, with
29 approval of the board of natural resources, may exchange any state land
30 and any timber thereon for any land and proceeds of equal value, when
31 it can be demonstrated that the trust fiduciary obligations can be
32 better fulfilled after an exchange is completed. Proceeds may be in
33 the form of cash or services in order to achieve the purposes
34 established in this section. Any cash received as part of an exchange
35 transaction shall be deposited in the resource management cost account
36 to pay for administrative expenses incurred in carrying out an exchange
37 transaction. These administrative expenses include road maintenance

1 and abandonment expenses. The amount of proceeds received from the
2 exchange partner may not exceed five percent of the total value of the
3 exchange. The receipt of proceeds shall not change the character of
4 the transaction from an exchange to a sale.

5 (5) Prior to executing an exchange under this section, and in
6 addition to the public notice requirements set forth in RCW 79.17.050,
7 the department shall consult with legislative members, other state and
8 federal agencies, local governments, tribes, local stakeholders,
9 conservation groups, and any other interested parties to identify and
10 address cultural resource issues and the potential of the state lands
11 proposed for exchange to be used for open space, park, school, or
12 critical habitat purposes.

13 **Sec. 6025.** RCW 43.325.040 and 2007 c 348 s 305 are each amended to
14 read as follows:

15 (1) The energy freedom account is created in the state treasury.
16 All receipts from appropriations made to the account and any loan
17 payments of principal and interest derived from loans made under this
18 chapter must be deposited into the account. Moneys in the account may
19 be spent only after appropriation. Expenditures from the account may
20 be used only for assistance for projects consistent with this chapter
21 or otherwise authorized by the legislature.

22 (2) The green energy incentive account is created in the state
23 treasury as a subaccount of the energy freedom account. All receipts

20 (b) of this subsection would cause the loss of any tax exemption under
21 federal law for interest on bonds issued under RCW 43.99N.020 shall be
22 deposited in and used exclusively for the purposes of the youth
23 athletic facility account and shall not be used, directly or

3 equipping, maintaining, and improving community outdoor athletic
4 facilities. Funds shall be divided equally between the development of
5 new community outdoor athletic facilities, the improvement of existing
6 community outdoor athletic facilities, and the maintenance of existing
7 community outdoor athletic facilities. Cities, counties, and qualified
8 nonprofit organizations must submit proposals for grants or loans from
9 the account. To the extent that funds are available, cities, counties,
10 and qualified nonprofit organizations must meet eligibility criteria as
