- **1. Auditor Reduction -** Agency funding levels are reduced to reflect reductions in billing authority for the Office of the State Auditor's Audit of State Government Account and use of existing fund balance. The Office of the State Auditor will use a risk-based methodology in selecting agencies to audit.
- **2. Attorney General Reduction -** Agency funding levels are reduced to reflect reductions in billing authority for the Office of the Attorney General's Legal Services Revolving Account.
- **3. Sec of State Archive Reduction -** Agency funding levels are reduced to reflect reductions in billing authority for the Office of the Secretary of State's Archives and Records Management Account.
- **4. Central Services Savings -** Funding is reduced for Office of Minority & Women's Business Enterprises (OMWBE), Office of Administrative Hearings (OAH), and Labor Relations Office (LRO), with the resulting savings passed along to other state agencies as a central service billing reduction. The funding reduction utilizes an excess fund balance from the OMWBE Enterprises Account, eliminates a vacant administrative position at the OAH, and reduces LRO services.
- **5. Central Service Reforms -** Funding is reduced to reflect efficiencies related to state agency use of cell phones, mailing, printing, and information technology, pursuant to Engrossed Substitute Senate Bill 6607 (central service costs). (Various Funds)
- **6. Higher Education Funding Task Force -** Funding is provided for a joint legislative task force on higher education funding formulas.
- **7. Efficiency Reduction -** Legislative branch agencies will achieve savings by identifying administrative efficiencies that will reduce FTE levels, travel expenses, printing costs, and other operating expenditures. This includes savings from the consolidation of certain support functions pursuant to House Bill 2705 (creating the office of legislative support services). (General Fund-State)

2011-13 Revised Omnibus Operating Budget (2012 Supp) House of Representatives

- **8.** Legislative Support Consolidation Pursuant to SB 6509/HB 2705 (legislative support functions), savings are achieved by facility management, production and audio-visual services, information distribution, and other administrative and support services are consolidated into Office of Legislative Support Services. The amount reflected in this item is the amount of funding transferred to the new office. The savings from this consolidation are reflected in other items in the Senate, House of Representatives, Joint Legislative Audit and Review Committee, Statute Law Committee, Office of the State Actuary, Joint Legislative Systems Committee, and Legislative Evaluation and Accountability Program Committee budgets.
- **9. PEBB Funding Rate Reduction -** The Public Employees' Benefits Board(PEBB) funding rate is reduced from \$850 to \$800 per eligible employee per month for FY 2013. This is projected to leave the PEBB reserves (both the self-insured claims reserve and the incurred-but-not-paid reserve) fully funded at the end of the 2011-13 fiscal biennium.

- **6. Medical Provider Network** Staff are provided to recruit providers and process applications in order to develop the new health care provider network included in the 2011 workers' compensation reform legislation. When the legislation was enacted, it was anticipated that the department would use the new state centralized database of provider credentials initiated by the Office of the Insurance Commissioner. Due to delays in implementation of that system and low participation from medical providers, the department must use other means to build a robust health care provider network. (Medical Aid Account-State)
- 7. Nationwide Information Exchange Funding is provided to allow the department to participate in a national information exchange with other workers' compensation insurers, which was mandated by legislation enacted in 2011. The department has negotiated with Information Services Offices, Inc. (ISO), which maintains the only nationwide workers' compensation database (covering 97 percent of the nation's property casualty insurers). This database will help detect fraud. The ISO bases its fees on the size of the premium base of the insurer. (Medical Aid Account-State)
- **8. Indirect Programs -** Indirect charges to state-supported programs are reduced by realigning the cost allocation model with current program structure.
- **9. SB 6392 Farm Internship Program -** Funding is provided for a pilot project for farm internships in fourteen counties as provided in Substitute Senate Bill No. 6392 (farm internship program).

- 13. Furniture Factory COP For fiscal year 2012 and fiscal year 2013 only, the debt service for the certificate of participation used to finance the construction of the Correctional Industries Furniture Factory at the Stafford Creek Corrections Center is paid from the Correctional Industries Account. - 1. Optional Waiver Services Under the terms of the state's federal Medicaid waiver, some individual Regional Support Networks (RSNs) have been able to earn federal Medicaid matching funds to provide supported employment, clubhouse, and/or respite care services that are not typically covered by Medicaid. The federal government has recently adopted the position that such services must be funded and available in all RSN areas in order for Medicaid to fund them anywhere. Because state funds are not presently available to provide the services statewide, Medicaid funding for them is discontinued effective May 1, 2012. Individual RSNs may continue to provide these services with state-only, local, or federal block grant funds to the extent those are available. (General Fund-State, General Fund-Federal)

- 2. SCC Legal Costs # Legal costs associated with the civil commitment of sexually violent predators under Chapter 71.09 RCW are transferred; all prosecution activities are consolidated in the Office of the Attorney General and all defense activities are consolidated in the Office of Public Defense.

- 1. Haz Waste Toxics Staff Reduction Funding and FTE staff are reduced on an on-going basis in the Hazardous Waste and Toxics Reduction Program for staff responsible for communication, education, and outreach functions. (State Toxics Control Account-State)
- 2. Spills Admin Staff Reduction Funding and FTE staff are reduced on an on-going basis in the Spills Program for secretarial and administrative support, as well as vehicle maintenance coordination. (State Toxics Control Account-State)
- **3. Public Participation Grant Reduct -** Funding is reduced on a one-time basis for waste management related public participation grants. The public participation grant program is a competitive grant program that provides financial assistance to citizen groups and non-profit, public-interest organizations. (State Toxics Control Account-State, Local Toxics Control Account-State)
- **4. Padilla Bay Program/Facility Reduct -** Funding for the Reserve is reduced for education and outreach activities on an on-going basis. The Padilla Bay National Estuarine Research Reserve in Skagit County is one of 25 national reserves established to protect estuaries for research and education. The Reserve conducts public education programs, technical and professional training, coastal restoration, and scientific research and monitoring.
- **5. Product Stewardship and Other Red -** Appropriation authority is reduced on an ongoing basis to match lower-than-projected revenue collections in selected dedicated accounts. (Product Stewardship Programs Account-Nonappropriated, Air Pollution Control Account-State, Wood Stove Education and Enforcement Account-State, Water Rights Processing Account-State)
- **6. Expedite Water Discharge Permits -** Funding and FTE staff are provided to the Water Quality Program to speed processing of permits for new and expanded facilities in order to foster economic development and reduce the existing permit-processing backlog. Facilities discharging to the waters of the state are required to obtain a National Pollution Discharge Elimination System (NPDES) permit from the Department of Ecology. Ecology works with about 2,000 NPDES permit holders, and currently has approximately 75 percent of its permits up-to-date. (Water Quality Permit Account-State)
- 7. Johns Creek Hydrogeology Study Funding and FTE staff are provided for a two-year hydrogeologic study of the Johns Creek area. This funding will pay for contracted mapping, streamflow monitoring, development of a groundwater model, stakeholder consultation, generation of water-management options, and training for Ecology employees in using the new model. In March 2011, Thurston County Superior Court ordered Ecology to begin rulemaking related to groundwater management in the Johns Creek sub-basin of Mason County, where inadequate streamflows threaten fish and wildlife. (General Fund-Private/Local, State Drought Preparedness Account-State)
- **8.** Completed Hanford Tank Litigation Funding is reduced on an ongoing basis for Hanford tank waste litigation that was concluded in October 2010. A corresponding revenue reduction is taken to reflect the associated reduction in mixed waste fees. (State Toxics Control Account-State)
- **9. Auditor Reduction -** Agency funding levels are reduced to reflect reductions in billing authority for the Office of the State Auditor's Audit of State Government Account and use of existing fund balance. The Office of the State Auditor will use a risk-based methodology in selecting agencies to audit.
- **10. Attorney General Reduction -** Agency funding levels are reduced to reflect reductions in billing authority for the Office of the Attorney General's Legal Services Revolving Account.

2011-13 Revised Omnibus Operating Budget (2012 Supp) Department of Ecology

- 11. Sec of State Archive Reduction Agency funding levels are reduced to reflect reductions in billing authority for the Office of the Secretary of State's Archives and Records Management Account.
- 12. Central Services Savings Funding is reduced for Office of Minority & Women's Business Enterprises (OMWBE), Office of Administrative Hearings (OAH), and Labor Relations Office (LRO), with the resulting savings passed along to other state agencies as a central service billing reduction. The funding reduction utilizes an excess fund balance from the OMWBE Enterprises Account, eliminates an administrative position at the OAH, and reduces LRO services.
- 13. Central Service Reforms Funding is reduced to reflect efficiencies related to state agency use of cell phones, mailing, printing, and information technology, pursuant to Engrossed Substitute Senate Bill 6607 (central service costs). (Various Funds)
- 14. Hanford Tank Closure and Cleanup In 2010, Washington State settled litigation with the U.S. Department of Energy (USDOE) over cleanup delays at the Hanford Nuclear Reservation in south central Washington. The settlement includes an accelerated timeline for USDOE's completion of tank-waste treatment, retrieval and closure, and soil and groundwater cleanup actions protecting the Columbia River. A combination of one-time and ongoing funding and FTE staff is provided so Ecology's regulatory oversight capacity can support USDOE's more aggressive cleanup schedule. This expenditure authority increase is backed by increased mixed waste fee revenue paid entirely by USDOE. (State Toxics Control Account-State)
- 15. Puget Sound Federal Funding The U.S. Environmental Protection Agency's National Estuary Program awarded the Department of Ecology two cooperative agreements in support of Puget Sound recovery. One agreement funds work related to toxics and nutrient reduction and prevention, while the second funds watershed protection and restoration. Federal expenditure authority and FTE staff are provided on an ongoing basis to implement the agreements. Most of the funding will be passed through to other entities, such as local governments and tribes. Examples of work funded under the agreements include watershed protection and technical assistance, updating a hydrology model for low-impact development, removing nitrogen from on-site septic systems, and reducing persistent bioaccumulative toxins. (General Fund-Federal)
- **16. Reduce Management Staff -** Savings are achieved through the elimination of six management positions. The reduction assumes that supervisory duties will be allocated to other managers.
- 17. Close Walla Walla Office Savings are achieved by closing the Walla Walla water master office. The one FTE associated with that office is assumed to telecommute.
- **18.** Climate Change The climate change work as originally funded by the legislature is largely completed. Savings are achieved through a reduction to completed activities. Remaining funds will be used for work related to climate adaptation and ongoing reporting requirements.
- 19. Reduce Lab Services General fund state expenditures for the environmental assessment program at the department are reduced by five percent. The department may use under expenditures, reduced staffing or reductions of operations to achieve savings. The department may not reduce funding for activities associated with RCW 43.21A.230.
- **20. Reduce WA Conservation Corps -** Savings are achieved through a reduction in general fund state spending for the WA Conservation Corps by 50 percent. The department may shift project costs to project recipients or other sources. General fund state is used to subsidize Conservation Corps project costs.
- 21. Solid Waste Reductions Ecology is required to fund specific categories of projects within the solid waste program per RCW 74.93.180(1). Savings are achieved from eliminating the 30 percent category projects which include the following: Waste to Fuels Technology Research Partnership w/ Universities, Legislative Policy Support, Solid Waste Regulatory Reform Evaluation Process, Solid Waste Financing Study, Technical Assistance for organics reduction as well as recycling and composting programs to local government and the private sector, Work with Business to reduce the use of toxic substances and to reduce solid waste, Evaluation of beneficial use for solid wastes, and Compost Facility Compliance. The savings achieved through this reduction is transferred to the general fund.

The 50 percent category projects are litter pickup and the 20 percent category projects are for Local Government Litter Pickup and Prevention. Both are retained at current levels. (Waste Reduction/Recycling/Litter Control - State)

2011-13 Revised Omnibus Operating Budget (2012 Supp) Department of Ecology

- 22. Stream Flow Data and Assessment Combines stream flow analysis, data analysis, and assessment funding in the environmental assessment program and water resources program and reduces by five percent. Savings are assumed through increased efficiencies and reducing potential duplication.
- 23. Reduce Motor Vehicle Emissions Reduces oversight and compliance spending for the motor vehicle emissions program by five percent.
- **24.** Water Quantity Reduction Reduces water quantity spending. The potential reduction may come from water rights processing, water resource stewardship, water law compliance, dam safety, and clarification of water rights.
- **25. Reclamation Funds -** Due to excess fund balance, a portion of the general fund state funding for similar spending activities in water resources is shifted to the Reclamation Account on a one-time basis. The similar activities include stream gauging, geologic surveys, and investigations for hydro as well as a regulatory program for well construction. (Reclamation Account State)
- **26. Administrative Reduction -** Reduces all administrative spending by five percent. The savings are achieved from reductions to Ecology's administrative budget unit or through a reduction in the indirect rate. (General Fund-State and other funds)
- 27. Wood Stoves Funding is provided for the replacement of uncertified solid fuel burning devices and solid fuel burning devices manufactured prior to 1995 for low and middle income families in air quality nonattainment areas under the federal clean air act (42 U.S.C. Sec. 7401 et seq.). The replacement heating device may include certified solid fuel burning devices, pellet stoves, or to a cleaner natural gas or electric home heating devise. (State Toxics Control Account-State)
- **28. State Natural Resources -** Funding is provided for implementation of PSSB 6406 (State Natural Resources). If the bill does not pass by June 30, 2012, the funding shall lapse.
- **29. Hazardous Waste Cleanup** Funding is provided for the implementation of Engrossed Second Substitute Senate Bill 6211 (hazardous waste sites).
- **30. Toxics Fund Shift -** A portion of funding from the Department of Ecology's Water Quality program, the Shorelands and Environmental Assistance program, the Environmental Assessment program, the Hazardous Waste program, the Waste to Resources, Nuclear Waste program, related administrative costs, and related indirect costs are shifted on a one-time basis to the state toxics control account. (State Toxics Control Account)
- **31. Anaerobic Digester -** Funding is provided for the implementation of Second Substitute Senate Bill 5343 (anaerobic digester emission).
- **32. Woodstove Education -** Savings are achieved through the elimination of the General-Fund state subsidy of the woodstove education and enforcement program. If Senate Bill 6077 (Woodstoves) is enacted the department may shift activities to the dedicated account. (General Fund-State; Woodstove Education and Enforcement Account-State)
- 33. Shift Agricultural Burning to Fee A recent increase in the fee reduced but did not eliminate a General Fund-State subsidy for that program. Savings is achieved by reducing remaining General Fund-State in that program by reducing staff dedicated to administering and enforcing permits. Savings includes a reduction to contract expenditures for alternatives-to-agricultural burning paid for from fees. (General Fund-State, Air Pollution Control Account)
- **34. PEBB Funding Rate Reduction -** The Public Employees' Benefits Board(PEBB) funding rate is reduced from \$850 to \$800 per eligible employee per month for FY 2013. This is projected to leave the PEBB reserves (both the self-insured claims reserve and the incurred-but-not-paid reserve) fully funded at the end of the 2011-13 fiscal biennium.

- 1. Oil Heat Program Funding The Pollution Liability Insurance Program offers insurance coverage for the cleanup of contamination from residential heating oil tanks at no cost to program participants. Appropriation authority is reduced on an ongoing basis to reflect lower-than-anticipated revenue into the heating oil account. This funding reduction captures savings from under-expenditures in recent years. (Heating Oil Pollution Liability Trust Account-Nonappropriated)

- 1. Survey & Mapping Activity Due to lower revenue into the Survey and Maps Account, the expenditure authority for mapping and surveys is reduced. (Survey and Maps Account-State)
- 2. Trust Land Mgmt Activities In the 2009-11 enacted budget, DNR's trust management accounts were reduced substantially due to declines in timber revenues. Revenues have since stabilized. Additional expenditure authority will allow resumption of delayed silvicultural activities, which will help to maintain timber revenues in the future. (Forest Development Account-State, Resource Management Cost Account-State)
- **3. Silviculture Burn Permit Pgm -** The Department of Natural Resources and the Department of Ecology issue permits for silviculture and agriculture burning to maintain air quality. Due to a decline in permit revenue, funding for the silviculture burning permit program is reduced. (Air Pollution Control Account-State)

2011-13 Revised Omnibus Operating Budget (2012 Supp) Department of Natural Resources

- 4. Shift ECY/DFW Grant Funding to FFSA DNR's Adaptive Management Program distributes participation grants to certain stakeholders and state agencies that perform work as part of the forest practices adaptive management process. When the Forest and Fish Support Account (FFSA) was established in 2007, all participation grant funding was paid from it, but during the previous biennium, the grant funding for the Department of Ecology and the Department of Fish and Wildlife was paid from the General Fund. This ongoing shift moves the funding back to the FFSA. (General Fund-State, Forest and Fish Support Account-State)
- **5. Increase Adaptive Mgmt Activities -** The Forest Practices Act and the Forest and Fish Rules are the basis for the Forest Practices Habitat Conservation Plan (FPHCP) and the Clean Water Act (CWA) assurances which protect fish life and water quality in forested areas. The Forest and Fish Support Account, created in 2007 to support the implementation of the Forest and Fish Rules, has built up excess funds over time due to increased revenue and under-expenditures. These excess funds will be used to increase activities that support the CWA assurances and the FPHCP. (Forest and Fish Support Account-State)
- **6. Auditor Reduction -** Agency funding levels are reduced to reflect reductions in billing authority for the Office of the State Auditor's Audit of State Government Account and use of existing fund balance. The Office of the State Auditor will use a risk-based methodology in selecting agencies to audit.
- **7. Attorney General Reduction -** Agency funding levels are reduced to reflect reductions in billing authority for the Office of the Attorney General's Legal Services Revolving Account.
- **8. Sec of State Archive Reduction -** Agency funding levels are reduced to reflect reductions in billing authority for the Office of the Secretary of State's Archives and Records Management Account.
- **9. Central Services Savings -** Funding is reduced for Office of Minority & Women's Business Enterprises (OMWBE), Office of Administrative Hearings (OAH), and Labor Relations Office (LRO), with the resulting savings passed along to other state agencies as a central service billing reduction. The funding reduction utilizes an excess fund balance from the OMWBE Enterprises Account, eliminates an administrative position at the OAH, and reduces LRO services.
- 10. Land Management Costs Each biennium, the DNR is provided state general fund for the responsibility of carrying out fire suppression activities on approximately 12.7 million acres of private and state forest lands. During FY 2013, \$2.138 million in additional spending authority is provided to DNR from the Forest Development Account to replace an equal reduction in state general fund for fire suppression activities. (General Fund-State, Forest Development Account-State)
- 11. Central Service Reforms Funding is reduced to reflect efficiencies related to state agency use of cell phones, mailing, printing, and information technology, pursuant to Engrossed Substitute Senate Bill 6607 (central service costs). (Various Funds)
- 12. Reduce Administration Savings are achieved through reducing general fund state administrative expenditures by five percent.
- **13. Reduce Management -** Saving are achieved through the elimination of six management positions. The reduction assumes that supervisory duties will be allocated to other managers.
- 14. Fire Suppression Overtime Savings are achieved through controlling overtime costs, allocating staffing resources more efficiently, and reducing department employee overtime costs. Using fiscal year 2012 as a base year, the department pays an average rate that is 28 percent higher for department employees than the market rate for seasonal fire fighters.
- **15. Natural Heritage -** Savings are achieved through a reduction to the maintenance and operational support for Natural Area Preserves and Natural Resource Conservation Areas.
- **16.** Geology Services Savings are achieved through a reduction in department geology services by 7 percent effective May 1.
- 17. Forest and Fish Support Due to excess fund balance, a portion of the General Fund State funding for activities in the forest and fish program report is shifted on a one-time basis to the Forest and Fish Support Account. These activities include compliance monitoring. (General Fund-State, Forest and Fish Support Account-State)
- **18. Forest Practices -** Funding is provided for the implementation of Engrossed Second Substitute Senate Bill 6406 (state natural resources). The legislation reduces General Fund State and shifts new work to dedicated funds. (Forest Practices Account-State)

2011-13 Revised Omnibus Operating Budget (2012 Supp) Department of Natural Resources

- 19. Marine Management Funding is provided for the implementation of Second Substitute Senate Bill 6263 (marine management planning). The legislation allows for the development of marine management plans for different geographic areas on different schedules. (Marine Resources Stewardship Trust Account-State)
- **20. Infractions -** Spending authority is provided for the implementation of Substitute Senate Bill 6387. The legislation requires Discover Pass infractions to be deposited back into the Discover Pass account. The department receives eight percent of Discover Pass revenue.
- **21. PEBB Funding Rate Reduction -** The Public Employees' Benefits Board(PEBB) funding rate is reduced from \$850 to \$800 per eligible employee per month for FY 2013. This is projected to leave the PEBB reserves (both the self-insured claims reserve and the incurred-but-not-paid reserve) fully funded at the end of the 2011-13 fiscal biennium.
