Comments:

1. CTS Central Services - Funding is provided for each agency's share of enterprise information technology security services provided by Consolidated Technology Services. This allocation is distributed based upon each agency's percentage share of actual statewide information technology full-time equivalent employees. (General Fund-State, Other Funds)

2. DES Central Services - Agency budgets are adjusted to align with expected billing levels for the Department of Enterprise Services in the 2013-15 biennium. (General Fund-State, Other Funds)

3. State Employee Health Insurance - Funding for state employee health insurance is reduced from \$800 per month per employee to \$782 per month in the first fiscal year and \$791 per month in the second fiscal year resulting in the identified savings. (The imposition of surcharges for tobacco use and for spouses and domestic partners that waive certain employer coverage reduces the necessary funding rate by \$28 per month per employee in the second fiscal year, from \$791 to \$763). (General Fund-State, Other Funds)

4. Wellness - Smoker Surcharge - State agency and higher education employer contributions for health insurance are reduced to reflect a \$25 per month surcharge for PEBB members who use tobacco products, beginning July 1, 2014. This reduces the employer funding rate in FY 2015 by approximately \$4 per month. (General Fund-State, Other Funds)

5. PEBB - Coverage Waiver Surcharge - Reflects expected savings from implementing a \$50 surcharge beginning July 1, 2015, for Public Employees' Benefits Board (PEBB) subscribers who have Employee plus Spouse coverage or Family coverage where the subscriber's covered spouse or partner has waived an opportunity to enroll in employer coverage, and where the waived employer coverage has an actuarial value not less than 95 percent of the value of the PEBB plan with the largest enrollment. Savings consist of waiver revenue plus a reduction in the number of covered spouses or partners. This reduces the employer funding rate in FY 2015 by approximately \$24 per month. (General Fund-State, Other Funds)

6. Legislative Cost Transfers - Costs are shifted, with no net funding increase, to the Office of Legislative Support Services from the House of Representatives, the Senate, and the Legislative Systems Committee (LSC) to consolidate legislative support services.

(General Fund-State, Other Funds)

4. Wellness - Smoker Surcharge - State agency and higher education employer contributions for health insurance are reduced to reflect a \$25 per month surcharge for PEBB members who use tobacco products, beginning July 1, 2014. This reduces the employer funding rate in FY 2015 by approximately \$4 per month. (General Fund-State, Other Funds)

5. PEBB - Coverage Waiver Surcharge - Reflects expected savings from implementing a \$50 surcharge beginning July 1, 2015, for Public Employees' Benefits Board (PEBB) subscribers who have Employee plus Spouse coverage or Family coverage where the subscriber's covered spouse or partner has waived an opportunity to enroll in employer coverage, and where the waived employer coverage has an actuarial value not less than 95 percent of the value of the PEBB plan with the largest enrollment. Savings consist of waiver revenue plus a reduction in the number of covered spouses or partners. This reduces the employer funding rate in FY 2015 by approximately \$24 per month. Comments:

1. HealthPath Washington - HealthPath Washington is a demonstration project that allows the Health Care Authority and the Department of Social and Health Services to establish a care management program for high-cost and high-risk Medicare and Medicaid enrollees. Coordination of services across Medicare and Medicaid is expected to result in savings in the Health Care Authority. The demonstration project is scheduled to begin April 1, 2013, and will continue until December 31, 2016. (General Fund-State, General Fund-Federal)

2. Restore Hospital Safety Net - The Hospital Safety Net Assessment (HSNA) program is set to expire on July 1, 2013. This program generates additional state and federal funding to support payments to hospitals for Medicaid services. Pursuant to Substitute Senate Bill 5913 (hospital safety net assessment) the HSNA program will continue in the 2013-15 biennium. Instead of increased inpatient and outpatient payment rates, hospital assessment funds will be used to provide supplemental payments and increased managed care premiums for hospital services. (General Fund-State, General Fund-Federal, Hospital Safety Net Assessment Account-State)

**2013-15 Omnibus Operating Budget
WA State Health Care Authority**

3. Federal Medicaid Expansion - The state will exercise its option under the federal Affordable Care Act to expand Medicaid eligibility to individuals between the ages of 19 and 64 with incomes at or below 138 percent of the federal poverty level (FPL) who are not otherwise categorically eligible for Medicaid. During the first three years of the expansion, the federal government will provide a 100 percent match for the newly eligible group's medical costs. The federal match will decrease gradually until 2020, when the federal government will continue to pay 90 percent for the newly eligible group. In the transition to the expansion, the Health Care Authority will phase out various programs described below. In most cases, clients in these programs with incomes below 138 percent of the FPL will enroll under the Medicaid expansion with a 100 percent federal match. Clients with incomes above 138 percent of the FPL will be able to purchase subsidized coverage through the Washington Health Benefit Exchange (Exchange). The Presumptive Supplemental Security Income program will be eliminated. This program provides Medicaid coverage for approximately 20,000 clients with long-term medical conditions that make them likely to meet federal disability criteria, but their federal disability determinations are pending. The federal government provides a 50 percent match for this program. Washington will receive an enhanced 75 percent federal match for currently enrolled clients because Washington is an "expansion state" under the Affordable Care Act. The Medical Care Services program, which provides medical benefits for approximately 9,000 persons who are physically or mentally disabled and cannot work for 90 days from the date of application, will be eliminated. The Alcoholism and Drug Addiction Treatment and Support Act (ADATSA), which provides coverage to approximately 4,400 individuals participating in drug or alcohol treatment, will be eliminated. The Breast and Cervical Cancer Treatment (BCCT) program, which covers treatment for approximately 1,000 women diagnosed with breast or cervical cancer with incomes under 300 percent of the FPL, will be eliminated. Clients with incomes over 138 percent of the FPL that are already enrolled in the BCCT program as of January 1, 2014, will retain state-only coverage throughout the course of their treatments. Enrollment in the Take Charge Family Planning program is expected to decrease as a result of the Medicaid expansion. Take Charge provides family planning services for approximately 43,000 clients with incomes under 250 percent of the FPL. Under the Medicaid expansion, clients with incomes under 138 percent of the FPL can receive these services by enrolling in Medicaid, and those with incomes between 138 and 250 percent of the FPL can receive these services through subsidized coverage in the Exchange. The state-subsidized Basic Health Plan (BHP) will be eliminated upon implementation of the Medicaid expansion. The BHP provides subsidized health care coverage through private health plans to Washington residents with incomes below 200 percent of the FPL. If coverage through the BHP continued, it would cover an average of 25,500 individuals in the 2013-15 biennium. The unsubsidized Washington Health Program, which provides benefits similar to the BHP without state subsidies, will also be eliminated. The federal Health Coverage Tax Credit (HCTC) program, which is a federal tax credit that pays 72.5 percent of the health plan premium for eligible people enrolled in qualified health plans, will be eliminated. In Washington, the BHP is a "qualified health plan" designated to offer HCTC coverage. Federally subsidized health plans offered through the Exchange will replace the Washington Health and HCTC programs. (General Fund-State, General Fund-Federal, Basic Health Plan Trust Account-Nonappropriated, Basic Health Plan Subscription Account-Nonappropriated)

4. Language Access Provider Agreement - Pursuant to the 2013-15 collective bargaining agreement for language access providers, funding is provided for a change to no-show payment rules and rate increases of 50 cents per hour on July 1, 2013, and 50 cents per hour on July 1, 2014. (General Fund-State, General Fund-Federal)

5. Prescription Monitoring Program - The Prescription Monitoring Program (PMP) helps practitioners identify and prevent abuse, misuse, duplication and forgery of prescriptions, as well as dangerous drug interactions. Federal grant funding was used to develop the program within the Department of Health (DOH). These federal grants are not ongoing and will be fully depleted by June 2013. Funding is provided to the DOH for the continuation of the PMP and local appropriation authority is provided to the Health Care Authority to claim eligible federal funding. This version will provide greater granularity in the definition of disease severity and associated health risk. (Medicaid Fraud Penalty Account-State, General Fund-Federal)

These services are provided in response to the negotiated settlement agreement from legal action taken against the Health Care Authority in W.A.A. vs. Porter. The services are intended to ameliorate the core symptoms of conditions classified as autism spectrum disorders, improve functioning in communication, and enhance behavior and social skills. This item includes interpreter services and transportation costs associated with delivering these services. (General Fund-State, General Fund-Federal)

19. ProviderOne Phase 2 Project - Funding is provided to complete phase two of the ProviderOne project and to support ongoing operations and maintenance costs once the project has been completed. Phase two consolidates Medicaid expenditures to include approximately \$2 billion in Medicaid payments for home and community-based services. (General Fund-State, General Fund-Federal)

20. Bree Collaborative - The Robert Bree Collaborative is a consortium of public and private health care purchasers, health carriers, and providers working together to identify concerns with quality and variation in health care and recommend evidence-based strategies for improvement. Funding is provided for the Health Care Authority and the Collaborative to subcontract for dissemination of evidence-based best practices for preventing and treating health problems. (General Fund-State, General Fund-Federal)

21. Improving Service Delivery - Staff and funding are provided to implement Engrossed Substitute House Bill 1519 (health care coordination) and Second Substitute Senate Bill 5732 (behavioral health services). 25. Professional Services Supp. Payment - Funding is provided to expand the current Professional Services Supplemental Payment (PSSP) program to include services provided to managed care enrollees. The PSSP program provides supplemental payments for professional services delivered by providers that are employed or affiliated with the University of Washington or employed by a public hospital that has elected to participate. (General Fund-Private/Local, General Fund-Federal)

26. Rural Health Clinics - Staff and funding are provided to support Medicaid services provided by Rural Health Clinics (RHC). The Health Care Authority (HCA) will use the funds to proportionally reduce the amounts that RHCs owe under the calendar year 2009 recoupment. The HCA will also implement a new administratively streamlined payment method for managed care payments to Federally Qualified Health Centers and RHCs. (General Fund-State, General Fund-Federal)

27. Foster Care and Adoption - Approximately 87 percent of foster children and adopted children receive medical care through the Health Care Authority on a fee-for-service basis. (General Fund-State, General Fund-Federal)

28. Adult Dental - Funding is provided to restore dental services for currently eligible and newly eligible Medicaid adults. (General Fund-State, General Fund-Federal)

Contracts with managed care plans will allow on-site dispensing of the prescribed contraceptive drugs at family planning clinics. Child Premiums - The requirement that children in families with incomes above 200 percent of the federal poverty level (FPL) that are not eligible for the federal Children's Health Insurance Program must pay monthly premiums equal to the average state share of the cost of coverage is eliminated. These children will pay the standard Apple Health for Kids premiums. Children between 200 and 250 percent of the FPL will pay \$20, and children between 250 and 300 percent of the FPL will pay \$30. (General Fund-State, General Fund-Private/Local)

The DOH will continue to seek outside grant funding to support PMP enhancements. (Medicaid Fraud Penalty Account-State)

2013-15 Omnibus Operating Budget
Department of Health

23. HIV Drug Rebates - The DOH receives drug rebate revenue from pharmaceutical companies on medications purchased for eligible clients in the HIV Client Services program. The DOH anticipates deferring enough rebate revenue to the 2013-15 biennium to cover a one-time fund shift from the state general fund. The rebate revenue will help cover the cost of insurance premiums and HIV drug assistance for clients. (General Fund-State, General Fund-Private/Local)

24. Public Health Block Grant - The state provides non-categorical financial support to Local Health Jurisdictions (LHJs) through the Local Capacity Development Fund, the Motor Vehicle Excise Tax (MVET) replacement funds, and the Blue Ribbon Commission funds. The MVET is paid from the Treasurer's Office directly to LHJs through a directed formula. The other two sources are paid by the DOH to LHJs. These three disparate funding streams are collapsed into a single block grant dispersed through the Treasurer's Office. Savings are achieved by eliminating the DOH indirect charge on pass-through funds, and by eliminating DOH support activities beginning in FY 2015. The LHJs will be required to report spending information by category and outcome-oriented performance measures to the Legislature each November. (General Fund-State)

25. Midwives - Additional funding is provided solely to subsidize fee revenue in the midwifery licensure and regulatory program. The DOH shall charge no more than \$525 annually for new or renewed midwifery licenses. (General Fund-State)

The integration will provide data from the PMP to emergency department personnel when a patient registers in the emergency department. The DOH shall request that insurers and third-party health care coverage administrators provide information to the coordinate care electronic tracking program. (Medicaid Fraud Penalty Account-State)

30. Birth Certificates - Expenditure authority is provided for the DOH to implement the provisions of Substitute House Bill 1525 (birth certificates). 36. State Employee Health Insurance - Funding for state employee health insurance is reduced from \$800 per month per employee to \$782 per month in the first fiscal year and \$791 per month in the second fiscal year resulting in the identified savings. (The imposition of surcharges for tobacco use and for spouses and domestic partners that waive certain employer coverage reduces the necessary funding rate by \$28 per month per employee in the second fiscal year, from \$791 to \$763). (General Fund-State, Other Funds)

37. Wellness - Smoker Surcharge - State agency and higher education employer contributions for health insurance are reduced to reflect a \$25 per month surcharge for PEBB members who use tobacco products, beginning July 1, 2014. This reduces the employer funding rate in FY 2015 by approximately \$4 per month. (General Fund-State, Other Funds)

38. PEBB - Coverage Waiver Surcharge - Reflects expected savings from implementing a \$50 surcharge beginning July 1, 2015, for Public Employees' Benefits Board (PEBB) subscribers who have Employee plus Spouse coverage or Family coverage where the subscriber's covered spouse or partner has waived an opportunity to enroll in employer coverage, and where the waived employer coverage has an actuarial value not less than 95 percent of the value of the PEBB plan with the largest enrollment. Savings consist of waiver revenue plus a reduction in the number of covered spouses or partners. This reduces the employer funding rate in FY 2015 by approximately \$24 per month. (General Fund-State, Other Funds)

39. Public Health Funding Transfer - Local Capacity Development Funds and Blue Ribbon Commission funds for LHJs are collapsed into a single block grant with MVET replacement funds to be dispersed through the Treasurer's Office. There is no change to the level and distribution of total public health funds for LHJs. The LHJs are required to report spending information by category and outcome-oriented performance measures to the Legislature each November. (General Fund-State)

Comments:

1. Move OMNI off Mainframe - The Offender Management Network Information (OMNI) system is currently running on an expensive mainframe architecture with limited disaster recovery capabilities. Funding is provided for DOC to use a phased strategy to move OMNI off of the mainframe into DOC's virtual server environment and build out an enterprise-class disaster recovery capability. Savings are net of investments in equipment and licenses.

3. Federal Medicaid Expansion - Implementation of the Affordable Care Act (ACA) expands Medicaid eligibility for individuals between the ages of 19 and 64 with income at or below 138 percent of the Federal Poverty Level. Savings will be realized by expanding the number of offenders who are eligible for hospital in-patient Medicaid reimbursement. The federal funds which are generated to offset these costs are reflected in the Health Care Authority budget. (General Fund-State, General Fund-Federal)

4. Attorney General Legal Services - Agency budgets are adjusted to align with expected billing levels for agency legal services in the 2013-15 biennium. (General Fund-State, Other Funds)

5. CTS Central Services - Funding is provided for each agency's share of enterprise information technology security services provided by Consolidated Technology Services. This allocation is distributed based upon each agency's percentage share of actual statewide information technology full-time equivalent employees. (General Fund-State, Other Funds)

6. DES Central Services - Agency budgets are adjusted to align with expected billing levels for the Department of Enterprise Services in the 2013-15 biennium. (General Fund-State, Other Funds)

7. New Hepatitis C Protocol - Funding is provided to implement a new treatment protocol for offenders screened as suitable candidates with Hepatitis C genotype 1.

8. Assault Near Court Proceedings - Funding is provided for three additional prison beds to accommodate anticipated increases in the adult daily population (ADP). Pursuant to Chapter 256, Laws of 2013 (ESB 5484), a person is guilty of assault in the third degree when that person assaults another individual in any area of a building that is used in connection with court proceedings. Assault in the third degree is a Class C felony offense ranked at Seriousness Level III on the adult felony sentencing grid. An offender convicted of assault in the third degree may receive a prison sentence of between 51-68 months.

9. Stalking Protection - Pursuant to Chapter 84, Laws of 2013 (ESHB 1381), the definition of stalking is expanded and the penalties for violating stalking orders are increased. Two existing Class C felonies are expanded and an aggravating factor for court employees is added. A Class C felony ranked at a Seriousness Level V on the adult felony sentencing grid may be punishable with a term of prison confinement between 72-96 months. It is expected this will increase the demand for prison beds by four ADP.

10. Radio Infrastructure Upgrades - Funding is provided for certificate of participation debt service payments to replace critical radio systems essential to staff safety at Larch Corrections Center, Cedar Creek Corrections Center, Clallam Bay Corrections Center, Stafford Creek Corrections Center, and Airway Heights Corrections Center. Debt service payments are scheduled for 10 years.

11. Maple Lane Ongoing Costs - In the 2012 supplemental operating budget, DOC was provided \$165,000 per year to assume responsibility for a warm closure of the Maple Lane School property. Additional funding is provided to pay for utilities, fire protection contracts, and other costs previously not covered but necessary to maintain Maple Lane so that it maintains its value while long-term plans are made for the facility. An additional 0.5 FTE is provided, bringing the total to 2.5 FTEs for on site staffing coverage.

12. Prison Rape Elimination Act (PREA) - New standards are implemented to comply with the federal Prison Rape Elimination Act (PREA). Released in June 2012, these standards require DOC to have one-third of its facilities audited by an outside source by August 2013. Funding is provided to comply with the PREA requirements.

**2013-15 Omnibus Operating Budget
Department of Corrections**

13. Special Needs Population - Funding for six psychiatric associates is provided to deliver additional support for offenders with developmental disabilities or traumatic brain injuries. The DOC will create special housing units to provide offenders with special needs specialized programming and treatment at the Monroe Correctional Complex and Washington State Penitentiary as recommended by the Vera Institute of Justice. Funding is also provided for additional custody staff and a mental health counselor to convert some mental health administrative segregation beds to Intensive Treatment Unit (ITU) beds at the Monroe Correctional Complex.

14. Sex Offender Risk Assessment - Funding is provided to expand the use of the Static 99 actuarial sex offender assessment tool to improve the diagnosis and treatment of offenders convicted of sex crimes. Sex offenders will be assessed at the time of intake and the additional information will be used in the classification process, and for placement and programming decisions. (County Criminal Justice Assistance Account - State)

15. Improving Safety - Funding is provided to increase correctional officer staffing levels in medium security housing units on the day shift and in stand-alone minimum security facilities on graveyard shift, consistent with staffing model changes recommended by the Statewide Security Advisory Committee.

16. Reducing Corrections Costs - Pursuant to Senate Bill 5892 (Reducing Corrections Costs), the drug sentencing grid is modified so that any offender who commits a Seriousness Level I drug offense and has a criminal history score within the range of 3-5, will serve their sentence in jail. Currently, drug offenders who have committed an identical Seriousness Level 1 drug offense and have identical criminal history scores may be sentenced to either prison or jail. This item is expected to decrease the adult average daily prison population by 126 in FY 2015 and thereby help reduce the need for the DOC to open or build additional housing units.

17. Delay Opening Units - Policy to reduce the forecasted Adult Daily Prison (ADP) population is expected to decrease the demand for prison beds allowing savings to be achieved due to the delay of opening one medium security unit at Washington State Penitentiary (WSP). Increased residential beds for Drug Offender Sentencing Alternatives are expected to reduce ADP by 272 beds. In addition, the DOC is authorized to rent local jail beds for short-term offenders who have 120 days or fewer remaining on their sentence when they would otherwise transfer from jail to DOC. When this policy is fully implemented, about 290 fewer offenders will go through the reception process annually, reducing the need for DOC capacity by an additional 52 beds. The DOC is authorized to open one medium unit at WSP and close one minimum unit at WSP within existing appropriations. Offenders residing in the new medium unit will receive health services at the existing WSP medical clinic and within existing resources. The DOC will use existing administrative resources to open the new medium unit thereby achieving additional savings.

18. Residential DOSA - Net savings are assumed from contracting for an additional 75 residential Drug Offender Sentencing Alternative (DOSA) beds, bringing the contracted residential beds for the program to 220. This program is provided as a community alternative by the courts for otherwise prison-bound offenders who are in need of chemical dependency treatment and supervision. In FY 2013 the program was funded for 145 beds, but the number of offenders sentenced to this option by the courts has increased. This expansion will reduce the forecasted average daily population for prison beds by 197 in FY 2014 and by 272 in FY 2015, thereby helping reduce the need for the DOC to open or build additional housing units.

19. Drug Treatment Fund Shift - Excess funds from the Ignition Interlock Device Revolving Account and the County Criminal Justice Assistance Account will be used one-time to support drug treatment provided through the Drug Offender Sentencing Alternative (DOSA) residential program for offenders on community supervision. In 2012, there were 4,975 offenders who were admitted to this 95-day evidence-based residential program. Use of these excess funds does not impact or alter amounts distributed to the counties by the State Treasurer or Washington State Patrol appropriated levels in the County Criminal Justice Assistance account. (County Criminal Justice Assistance Account-State, Ignition Interlock Device Revolving Account-State)

20. Presentence Credits - Savings are assumed from the DOC calculating an offender's presentence good-time credits consistent with the rate applicable to offenders in the Department's facilities, pursuant to legislation. This change will make credit earning calculations consistent for all DOC offenders. The change is estimated to reduce the forecasted population by an average of 51 offenders in the 2013-15 biennium.

21. Centralized Pharmacy - Funding is reduced to reflect savings from consolidation of the Department's five pharmacies down to two pharmacies. One-time funding of \$600,000 in the capital budget for tenant improvements to leased space is related to this reduction.

22. Program Delivery Positions - Position authority is provided for offender program delivery in DOC institutions. The DOC has shifted some offender programming from contract funding to staff delivering the services. No new funding is provided.

23. Offender Housing Voucher Program - The DOC is required to maintain a list of approved offender housing providers pursuant to Engrossed Senate Bill 5105 (rental vouchers for offenders). When a new housing provider or location is added to the list, the DOC must give notice to the local jurisdictions and collaboratively develop a community impact statement with the local county and city governments. If the local government determines that the housing is in a neighborhood with an existing concentration of special-needs housing, they may request the housing provider be removed from the list. The DOC is provided one Community Corrections Specialist in the first year to develop a process and rules for approving housing providers and standardizing a community impact review. For ongoing oversight of the housing approval process, DOC is provided a 0.5 FTE. Approximately 24 offenders per year will remain in prison up to 60 days longer than they would have otherwise due to delays from housing options that are not approved, thereby increasing the need for prison capacity by four additional beds. (County Criminal Justice Assistance Account-State)

24. Crimes Against Pharmacies - Pursuant to Senate Bill 5149 (Crimes Against Pharmacies), a special allegation may be brought against a person who commits robbery in the first degree if the crime is committed in a pharmacy. An additional 12 months is added to the standard sentence if the allegation is proven beyond a reasonable doubt. Funding is provided for three additional prison beds for an expected increase in adult daily population.

25. Program Underexpenditures - One-time savings is achieved by aligning funding levels for offender programming to more closely reflect expected 2013-15 biennial spending levels. The 2012 Supplemental Appropriations Act required the DOC to implement an evidence-based Risk Needs Responsivity (RNR) model. In conjunction with this effort, the DOC is revamping the way programming is provided to offenders in prisons and in community supervision. This includes phasing-out several programs and replacing them with programs considered to be more effective and that follow the RNR model. The RNR model requires programming interventions to be dynamic and directly linked to criminal behavior. Upon full implementation, programming will be targeted so that offenders that are at a higher risk to reoffend are provided with more intensive and extensive services.

26. Risk Needs Responsivity Programming - One-time funding is provided for the Department of Corrections (DOC) to contract with a consultant who can facilitate and provide project expertise on the implementation of community and prison based offender programming that follows the Risk Needs Responsivity (RNR) model. By October 1, 2013, the consultant will provide an evaluation to the DOC, Office of Financial Management (OFM), and the Legislature on current plans and processes to phase out ineffective programs and to implement programs that are evidence-based or research-based. The Washington State Institute of Public Policy (WSIPP) will be consulted to systematically review select programs. Based on the report provided by the consultant and WSIPP's review of programs, the DOC will work collaboratively with the consultant to develop a comprehensive written implementation plan and provide it to OFM and the Legislature by January 15, 2014. The written plan must include an implementation timeline, the types of programs to be included, the locations for the programs, and a phasing up of the projected number of participants that will meet the threshold of available funds. Using the written implementation plan as a guide, the DOC must have programs in place and fully phase-up no later than June 30, 2015. The consultant will review quarterly the actual implementation compared to the written plan and will provide a report to the Secretary of DOC. The DOC will provide progress updates to OFM and the Legislature on July 1, 2014, and December 1, 2014.

27. Trafficking - Pursuant to Chapter 302, Laws of 2013 (ESSB 5669) the definition for a felony related to communication with a minor is expanded to include the purchase or sale of commercial sex acts and sex trafficking. It is expected that this will increase the demand for prison beds by two ADP.

28. Vehicle Prowling - A new Class C felony offense is established pursuant to Chapter 267, Laws of 2013 (ESB 5053). The offense of vehicle prowling is ranked at Seriousness Level V on the adult felony sentencing grid. Statistics on the number of adult offenses for vehicle prowl in the second degree are not available. Vehicle prowling in the second degree on the third or subsequent offense, would be subject to a standard range of confinement between 6-12 months in jail and 51-60 months in prison. An increase in the ADP for two prison beds is anticipated.

8. Wellness - Smoker Surcharge - State agency and higher education employer contributions for health insurance are reduced to reflect a \$25 per month surcharge for PEBB members who use tobacco products, beginning July 1, 2014. This reduces the employer funding rate in FY 2015 by approximately \$4 per month. (General Fund-State, Other Funds)

9. PEBB - Coverage Waiver Surcharge - Reflects expected savings from implementing a \$50 surcharge beginning July 1, 2015, for Public Employees' Benefits Board (PEBB) subscribers who have Employee plus Spouse coverage or Family coverage where the subscriber's covered spouse or partner has waived an opportunity to enroll in employer coverage, and where the waived employer coverage has an actuarial value not less than 95 percent of the value of the PEBB plan with the largest enrollment. Savings consist of waiver revenue plus a reduction in the number of covered spouses or partners. This reduces the employer funding rate in FY 2015 by approximately \$24 per month. (General Fund-State, Other Funds)

10. Transfer Office of Juvenile Justice - Staff and funding for the Office of Juvenile Justice are transferred from the Department of Social and Health Services (DSHS) Administration and Supporting Services Division to JRA to reflect internal agency restructuring. Comments:

1. Federal Medicaid Expansion - Implementation of the Affordable Care Act expands Medicaid eligibility for individuals between the ages of 19 and 64 with income at or below 138 percent of the federal poverty level who are not otherwise categorically eligible for Medicaid. It is expected that this newly eligible group will be comprised primarily of adult populations, some of whom are currently served with state only funding. During the first three years of the expansion, the federal government will provide 100 percent Federal Financial Participation (FFP) for the newly eligible group's medical costs. The FFP will ramp down and after 10 years the federal government will continue to pay 90 percent of the FFP for the newly eligible group. In addition, current medicaid enrollees in the Presumptive Supplemental Security Income program will receive an enhanced 75 percent federal match because Washington is an "expansion state" under the Affordable Care Act. Individuals who would have become new enrollees will become newly eligible for Medicaid at 100% federal match. State and federal funding for Regional Support Networks is adjusted to reflect these changes and to reflect offsets in non-Medicaid funding for services to those who will now be eligible for Medicaid. (General Fund-State, General Fund-Federal)

2. Autism Licensing - As a result of a negotiated settlement agreement in W.A.A.A. vs. Porter, applied behavioral analysis therapy is now a covered mental health service for children 20 years of age and younger who are members of the Apple Health program. Local expenditure authority is provided for licensing agencies to provide these new services. It is estimated that 15 new certified mental health agencies will be licensed. (General Fund-Private/Local)

3. Involuntary Commitment - Staff and funding are provided to implement Chapter 335, Laws of 2013 (ESSB 5480). This act accelerates the date for changes which broaden the criteria for involuntary commitment under the state's involuntary treatment act from July 1, 2015 to July 1, 2014. Funding is provided for RSNs to develop and implement a variety of community services including increases in evaluation and treatment center beds, program of assertive community treatment teams, mobile outreach crisis teams, crisis triage or stabilization beds, peer support services, and other services approved by the Department of Social and Health Services that will serve as alternatives to the need for additional state hospital capacity. (General Fund-State, General Fund-Federal)

4. Electronic Medical Record System - Funding is provided for the state psychiatric hospitals to plan, procure, and implement the core elements of an electronic medical record system that is compliant with the International Classification of Diseases (ICD-10) by October 1, 2014. These funds must be used for an electronic medical record system that meets federal criteria for electronic sharing of patient information and clinical care summaries with doctors' offices, hospitals, and health systems which use federally certified electronic health record systems. The procurement and implementation shall be conducted to allow for these services to be expanded to the Department of Corrections. (General Fund-State, General Fund-Federal)

5. De-Certified Bed Days - The state hospitals are required to de-certify patients who remain after they no longer require active treatment for their mental disorder. This results in a loss of federal and local revenue for patients who have Medicare or private insurance. The state hospitals shall reduce the number of de-certified bed days in the 2013-15 biennium. (General Fund-State, General Fund-Federal, General Fund-Local)

6. Mental Health Security Enhancements - Funding is provided to implement security enhancements at the state hospitals. These enhancements include additional psychiatric security attendants and nurses, registered nurses, and staff training. (General Fund-State, General Fund-Federal, General Fund-Private/Local)

7. Criminal Incompetency - Chapter 289, Laws of 2013 (E2SHB 1114) modifies procedures and standards for involuntary treatment of persons who have been deemed incompetent to stand trial for violent felonies. This is expected to increase the number of individuals committed to state hospitals by approximately 20 persons per day. RSNs are provided funding to develop and implement alternative community programs which are expected to decrease the utilization of state hospital beds and allow for these beds to be used for increased commitments expected under the bill. These funds can be used to increase the number of program of assertive community treatment teams, mobile outreach crisis teams, crisis triage centers, or other alternatives approved by the Department of Social and Health Services that will result in decreased utilization of state hospital beds. Individuals who meet criteria for additional periods of commitment under the bill may be served through these programs if it is determined that a less restrictive alternative can meet their needs. (General Fund-State, General Fund-Federal)

8. Competency Evaluations - Funding is provided to implement Chapter 284, Laws of 2013 (ESSB 5551). Subject to specific funding appropriated for this purpose, the bill requires the Department of Social and Health Services to reimburse counties for competency evaluations conducted by non state hospital employees in certain circumstances.

9. RSN Viability - Funding is provided to maintain financial viability and provide stability for services in the Chelan-Douglas Regional Support Network (RSN). This funding will be used to provide payments to RSNs in eastern Washington which have used less than their allocated or contracted patient days of care at the state hospital to replace the share of the reimbursements from CD-RSN that the RSNs would have received under Chapter RCW 71.24.320.

10. Improving Service Delivery - Staff and funding are provided to implement Chapter 320, Laws of 2013 (ESHB 1519) and Chapter 338, Laws of 2013 (2SSB 5732). These acts require the use of evidence based practices and the creation of performance measures for service coordination organizations. (General Fund-State, General Fund-Federal)

11. Mental Health First Aid - In accordance with Chapter 197, Laws of 2013, the Department of Social and Health Services shall provide mental health first aid training targeted at teachers and educational staff. The training model will follow the model developed by the department of psychology in Melbourne, Australia. (General Fund-State, General Fund-Federal)

12. New Step M for Classified-Yr 1 Impl - Funding is provided in agency budgets for classified employees who have been at their top step for at least six years to move to a new top step during FY 2014. A new top step was included as part of several 2011-13 collective bargaining agreements. (General Fund-State, Other Funds)

13. New Step M for Classified-Yr 2 Impl - A new top step is included in several 2013-15 collective bargaining agreements. Funding is provided for additional classified employees to move to the new top step during FY 2015. The increase would affect those who reach six years at the current top step during FY 2015 and were not yet eligible for the increase during FY 2014. (General Fund-State, Other Funds)

14. State Employee Health Insurance - Funding for state employee health insurance is reduced from \$800 per month per employee to \$782 per month in the first fiscal year and \$791 per month in the second fiscal year resulting in the identified savings. (The imposition of surcharges for tobacco use and for spouses and domestic partners that waive certain employer coverage reduces the necessary funding rate by \$28 per month per employee in the second fiscal year, from \$791 to \$763). (General Fund-State, Other Funds)

15. Coll. Bargained Personal Leave Day - Some collective bargaining agreements include a personal leave day for some employees in positions that require uninterrupted, full-time coverage. This provides funding, at regular pay rates, for other employees to fill in during personal leave days. (General Fund-State, General Fund-Federal, General Fund-Private/Local)

16. Wellness - Smoker Surcharge - State agency and higher education employer contributions for health insurance are reduced to reflect a \$25 per month surcharge for PEBB members who use tobacco products, beginning July 1, 2014. This reduces the employer funding rate in FY 2015 by approximately \$4 per month. (General Fund-State, Other Funds)

Comments:

1. Federal Medicaid Expansion - Staffing and funding adjustments are made due to the expansion of Medicaid eligibility to include people whose incomes are at 138 percent of the federal poverty level or less, as allowed by the Patient Protection and Affordable Care Act. Enrollment in the Presumptive Supplemental Security Income (SSI) program will close on January 1, 2014. The Presumptive Supplemental Security Income program provides Medicaid coverage for approximately 20,000 clients with long-term medical conditions that make them likely to meet federal disability criteria, but their federal disability determinations are pending. The federal government provides a 50 percent match for this program. Washington will receive an enhanced 75 percent federal match for currently enrolled clients because Washington is an "expansion state" under the Affordable Care Act (ACA). New clients can enroll under the expansion with a 100 percent federal match. Under the ACA, the federal government will match Medicaid work that is application and maintenance related at 75 percent, instead of the current 50 percent. (General Fund-State, General Fund-Federal)

2. Agency Provider Parity - RCW 74.39A.310 requires that home care agency providers shall receive wage and benefit parity with individual home care providers. As a result, additional funding is provided for new or increased: wages; pay differentials; mileage reimbursements; comprehensive health benefits; training contributions; initial certification and testing fee subsidies; union presentations and paid holidays. These provisions are pursuant to the interest arbitration award between the Service Employees International Union Healthcare 775NW and the State of Washington. 3. Critical Community Placements - Funding is provided for out-of-home community residential placements for 51 individuals with developmental disabilities. These clients will need placement as they move from other state residential settings, including foster care, juvenile rehabilitation, mental health institutions, and the Department of Corrections. (General Fund-State, General Fund-Federal)

4. Community Crisis Stabilization - The Department of Social and Health Services will create and operate a community crisis stabilization home for children, and a mobile treatment team that will operate statewide. These services will provide time-limited supports to preserve, maintain, and strengthen an individual's ability to remain in the community with his or her family rather than move to a residential or institutional placement. (General Fund-State, General Fund-Federal)

5. SOLA Needs - The Department of Social and Health Services will create two new State Operated Living Alternative (SOLA) homes for people with developmental disabilities, one in the Spokane area and another in the Yakima area. SOLA homes provide an additional zero-reject alternative for children who are not eligible for a Residential Habilitation Center placement. (General Fund-State, General Fund-Federal)

6. Basic Plus Waiver - The Department of Social and Health Services will increase Medicaid waiver slots for 734 individuals with developmental disabilities. This additional capacity is intended for graduating high school students who are not already on a Medicaid waiver but are currently eligible for Medicaid Personal Care services, for use during the transition from high school to employment. (General Fund-State, General Fund-Federal)

7. Provider Fiscal Agent - The federal Office of the Inspector General has issued a finding for three consecutive years regarding time reporting for individual providers. The Department of Social and Health Services (DSHS) will contract with a fiscal employer agent to pay all W-2 paid providers. Implementing this change will result in compliance with Medicaid rules regarding time reporting for W-2 providers, federal financial participation requirements for federal matching funds, and meet collective bargaining agreement requirements. (General Fund-State, General Fund-Federal)

8. Recover Cost of AFH Quality Assuran - Adult family home license fees will be increased \$50 per bed in fiscal year 2014. (General Fund-State, General Fund-Federal, General Fund-Private/Local)

9. In-Home Provider Arbitration - Pursuant to the interest arbitration award between the Service Employees International Union Healthcare 775NW and the State of Washington for the 2013-15 biennium, additional funding is provided for new or increased: wages; pay differentials; mileage reimbursements; comprehensive health benefits; training contributions; initial certification and testing fee subsidies; union presentations and paid holidays. Additional administrative funding is also provided to implement the arbitration award. (General Fund-State, General Fund-Federal)

10. IFS Expansion - In order to increase the number of clients served by the Individual and Family Services (IFS) program, the Developmental Disabilities Administration (DDA) must utilize past experience about award utilization to guide the number of authorized awards, and must change the maximum annual dollar amount awarded to each service priority level. Clients who are not receiving paid services from DDA may be added to the IFS program during the 2013-15 biennium. Corresponding changes must be made to the State Supplementary Payment (SSP) program to ensure that award levels are consistent for clients in the IFS program and clients receiving SSP in lieu of IFS. (General Fund-State)

11. MR v Dreyfus Exception to Rule - Funding is provided for the workload impact, as well as the per capita cost impact, from an anticipated increase in exception-to-rule (ETR) requests due to the M.R. lawsuit. An ETR refers to additional paid service granted when a client presents a situation that differs from the majority, and is in the interest of both the overall economy and the client's welfare. The exception may not contradict a specific provision of federal law or state statute. (General Fund-State, General Fund-Federal)

12. New Step M for Classified-Yr 1 Impl - Funding is provided in agency budgets for classified employees who have been at their top step for at least six years to move to a new top step during FY 2014. Comments:

1. Eligibility Simplification - Implementation of the Affordable Care Act simplifies the eligibility rules for the Medicaid program. The Department of Social and Health Services Economic Services Administration will require fewer staff to process applications for children, families, and pregnant women which will be determined by the Health Benefits Exchange. (General Fund-State, General Fund-Federal)

2. (General Fund-State, General Fund-Federal)

3. Reform Telecommunication Svcs - The state telephone assistance program and a statewide information and referral network are currently supported through a portion of taxes that are deposited into the non-appropriated Telephone Assistance Account. 10. TANF Redesign Caseload - Funding is reduced due to an expectation that the redesign of the TANF program and WorkFirst activities will result in shorter lengths of stay on the program. This reduction assumes a three month shorter length of stay for 11 percent of the projected caseload for SFY 2015.

Comments:

1. Federal Medicaid Expansion - Implementation of the Affordable Care Act expands Medicaid eligibility for individuals, between the ages of 19 and 64 with income at or below 138 percent of the federal poverty level, who are not otherwise categorically eligible for Medicaid. It is expected that this newly eligible group will be comprised primarily of adult populations. During the first three years of the expansion, the federal government will provide 100 percent Federal Financial Participation (FFP) for the newly eligible group's medical costs. The FFP will ramp down and after 10 years the federal government will continue to pay 90 percent of the FFP for the newly eligible group. In addition, current medicaid enrollees in the Presumptive Supplemental Security Income program will receive an enhanced 75 percent federal match because Washington is an "expansion state" under the Affordable Care Act. Individuals who would have become new enrollees will become newly eligible for Medicaid at 100% federal match. State and federal funding for counties is adjusted to reflect these changes and to reflect offsets in non-Medicaid funding for services to those who will now be eligible for Medicaid. (General Fund-State, General Fund-Federal, Criminal Justice Treatment Account)

2. Family Drug Court - Pierce County has lost federal funding that supports the family drug court. One time state funding is provided for the county to transition these services to other funds.

3. PCAP Expansion - Federal appropriation authority is increased to allow the Department to expand the Parent Child Assistance Program with federal funds.

4. IMD Conversions - By July of 2014, the Department of Social and Health Services (DSHS) shall move or convert a minimum of 128 residential beds in Institutions of Mental Diseases (IMDs) to eight settings which have 16 or fewer beds and are eligible for federal Medicaid funding. One-time start-up funding of \$2.6 million in General Fund-State is provided in FY 2014. These settings shall be prioritized for individuals who are eligible for Medicaid including those newly eligible under the Affordable Care Act. DSHS may pay the same rate in these settings which it is paying in the two pilot sites authorized by the Legislature in the 2012 legislative session. The General Fund-State savings for the 2015-17 biennium associated with this step is estimated at \$5.5 million. (General Fund-State, General Fund-Federal)

(General Fund-State, Other Funds)

8. McNeil Island Stewardship - The stewardship of McNeil Island and associated funding are transferred to the Correctional Industries program within the Department of Corrections. Facility maintenance within the perimeter of the Special Commitment Center and the Pierce County Secure Community Transition Facility will remain the responsibility of the Department of Social and Health Services.

2. National Scenic Area Plan Update - The Columbia River Gorge Commission (CRGC) is statutorily mandated by Washington, Oregon, and the United States Congress to implement the Columbia River Gorge National Scenic Area Act, including updating a regional management plan every 10 years. One-time funding is provided for studies necessary for the management plan update. (General Fund-State, General Fund-Private/Local)

3. Provide Regional Planning Capacity - CRGC is the primary regional planning agency serving the Columbia River Gorge National Scenic Area. (General Fund-State, General Fund-Private/Local)

4. State Employee Health Insurance - Funding for state employee health insurance is reduced from \$800 per month per employee to \$782 per month in the first fiscal year and \$791 per month in the second fiscal year resulting in the identified savings. Comments:

- 1. Reduce Watershed Planning Asst.** - The Watershed Planning Technical and Financial Assistance Program provides assistance to local watershed groups to develop plans and to address watershed issues. State general fund provided for this work is reduced on an ongoing basis. Over 30 watersheds have adopted plans and remaining funds during the 2013-15 biennium will shift to support specific projects in three high-priority basins (Dungeness, Walla Walla, and Wenatchee) and fund implementation activities in the Chelan, Dungeness, Methow, Lower Lake Roosevelt, and Lower Spokane basins.
- 2. Air Quality Fund Shift** - Work within the Air Quality Program related to preventing unhealthy air and violations of federal air quality standards is shifted on an ongoing basis from the state general fund to the State Toxics Control Account (STCA). (General Fund-State, State Toxics Control Account-State)
- 3. Reduce Air Pollution Control Acct.** - Expenditure authority and staff are reduced on an ongoing basis in the Air Pollution Control Account to reflect lower-than-anticipated revenues. (Air Pollution Control Account-State)
- 4. Fund Shift to Toxics** - State general fund expenditures are shifted on an ongoing basis to STCA for activities in the Air Quality, Water Quality, Environmental Assessment, Shorelands and Environmental Assistance, and Administration Programs. (General Fund-State, State Toxics Control Account-State)
- 5. Reduce Product Stewardship Exp.** - Expenditure authority is reduced on an ongoing basis in the Product Stewardship Programs Account to reflect lower-than-anticipated revenues into the account. (Product Stewardship Programs Account-Nonappropriated)
- 6. Reduce Flood Control Grants** - The Flood Control Assistance Program provides grants and technical assistance to local governments for flood damage reduction projects and comprehensive flood hazard management plans. Competitive grants to local governments for flood hazard reduction projects are suspended on a one-time basis to achieve \$2 million in savings. (Flood Control Assistance Account-State)
- 7. Reduce Freshwater Aquatic Weed Exp.** - Expenditure authority is reduced on an ongoing basis in the Freshwater Aquatic Weeds Account to reflect lower available revenues from the boat trailer registration fee. (Freshwater Aquatic Weeds Account-State)
- 8. Reduce Emergency Water Account Exp.** - Expenditure authority is reduced on an ongoing basis in the State Emergency Water Projects Revolving Account to reflect actual available funds. (State Emergency Water Projects Revolving Account-State)
- 9. Litter Account Reduction** - Funding is reduced on a one-time basis in the Waste Reduction, Recycling and Litter Control Account for litter pickup, prevention and marketing, and for other work related to waste reduction and recycling. (Waste Reduction, Recycling and Litter Control Account-State)
- 10. Attorney General Legal Services** - Agency budgets are adjusted to align with expected billing levels for agency legal services in the 2013-15 biennium. (General Fund-State, Other Funds)
- 11. CTS Central Services** - Funding is provided for each agency's share of enterprise information technology security services provided by Consolidated Technology Services. This allocation is distributed based upon each agency's percentage share of actual statewide information technology full-time equivalent employees. (General Fund-State, Other Funds)
- 12. DES Central Services** - Agency budgets are adjusted to align with expected billing levels for the Department of Enterprise Services in the 2013-15 biennium. (General Fund-State, Other Funds)
- 13. Reducing Toxic Gasoline Vapors** - Gasoline vapors contain toxic and carcinogenic chemicals, in addition to volatile organic compounds that contribute to smog formation. Federal and state laws require gas stations to manage emissions of those vapors with vapor-recovery and spill-prevention technologies. The 2012 Legislature restored a gasoline vapor inspection program in areas not under the jurisdiction of a local clean air agency. Expenditure authority and FTE staff are provided to reflect increased fee revenues to carry out the program and ensure compliance with those laws. (Air Pollution Control Account-State)
- 14. Pollution Source Regist Fund Shift** - Facilities that produce air contaminants are required to register their pollutant emissions and are inspected periodically to ensure compliance with laws and permit conditions. During the 2011-13 biennium, fees were increased to more fully recover the costs of operating the program. Expenditure authority is shifted on an ongoing basis from the state general fund to the Air Pollution Control Account, which receives the increased fee revenue. (General Fund-State, Air Pollution Control Account-State)

2013-15 Omnibus Operating Budget

Department of Ecology

15. Implementing Better Brakes Law - Brake pads contain friction material such as copper, asbestiform fibers, cadmium, lead, mercury and their compounds, that are released from pads and may then be carried into streams, rivers, the Puget Sound, and other Washington waters where it can be toxic to many aquatic organisms, including salmon. The 2010 Better Brakes Law bans certain brake friction materials, effective January 2014. A combination of one-time and ongoing funding and FTE staff are provided to continue implementation of this program, including publicizing and enforcing the ban, certifying manufacturer compliance, tracking friction materials, and assessing safer alternatives. (Environmental Legacy Stewardship Account-State)

16. Meeting Air Operating Permit Needs - Major sources of air pollution are regulated by the Department of Ecology (DOE) under the federally-mandated Air Operating Permit Program. Under both federal and state law, the costs of the program must be fully supported with fees paid by the sources. Expenditure authority and FTE staff are increased on an ongoing basis to reflect increased fee revenues to cover the cost of serving new sources entering the program, provide technical assistance to regulated entities, and on a one-time basis to conduct rulemaking to address industry concerns and ensure alignment with state and federal law. (Air Operating Permit Account-State)

17. Preventing Nonattainment Areas - One-time funding is provided to address sources of pollution in the central region, and to work with elected officials, citizens, local air agencies, businesses, and civic leaders to make changes that reduce pollution levels. (Environmental Legacy Stewardship Account-State)

18. State Revolving Fund Admin Charge - DOE manages a water pollution facility loan program that provides low-interest financing to local governments for infrastructure projects designed to protect and restore water quality in local communities. Administrative oversight of the loan program has historically been funded through federal grants that are at risk of being eliminated within the next few years. DOE faces a projected deficit in the 2013-15 biennium in federal funds used to manage the loan program. Chapter 96, Laws of 2013 (SHB 1141), establishes a new loan administration charge for the loan program and funding is shifted permanently from the Water Pollution Control Revolving Account to the new Water Pollution Control Revolving Administration Account. Bridge funding from the State Toxics Control Account is provided to close the anticipated 2013-15 shortfall in funding for program oversight and administration. (Water Pollution Control Revolving Account-State, Water Pollution Control Revolving Administration Account-Federal, Water Pollution Control Revolving Administration Account-State, State Toxics Control Account-State)

19. Stormwater Training Program - To address pollution resulting from stormwater runoff, DOE updated municipal stormwater permits to require stormwater-reducing low-impact development (LID) practices, where feasible, for new development and redeveloped properties. LID is a suite of construction technologies that use vegetation, healthy soils, porous pavement, and other tools to keep stormwater from running off-site and carrying pollution downstream. Funding and FTE staff are provided through FY 2017 for DOE to implement a comprehensive training plan for a wide range of audiences and stakeholders with a role in implementing LID techniques. (State Toxics Control Account-State)

20. Spokane Rivr Toxic Source Abatement - Sampling in the Spokane River has consistently found elevated levels of polychlorinated biphenyls (PCBs). In 2011, DOE issued wastewater discharge permits requiring municipal and industrial dischargers to serve, along with community stakeholders and the Spokane Tribe, on a Regional Toxics Task Force (Task Force) to develop a comprehensive plan to bring the Spokane River into compliance with applicable water quality standards for PCBs, the highest priority toxic pollutant for this water body. One-time funding is provided for implementing the Task Force's highest-priority recommendations, due in April 2013. (State Toxics Control Account-State)

21. Protecting Washington Shorelines - DOE provides financial and technical assistance to local governments to update their local shoreline master programs, many of which have not been updated in over 25 years. Base operating funding is insufficient to complete shoreline updates in time to meet statutory deadlines resulting from a 2003 negotiated legal settlement. One-time funding and FTE staff are provided for grants to local governments to complete their updates and for DOE staff to provide technical assistance, financial accountability, and final review of shoreline updates. (Environmental Legacy Stewardship Account-State)

22. Ultrafine Particulate Study - One-time funding is provided for a study to evaluate ultrafine particle air pollutants generated by biomass co-generation facilities near Port Townsend and Port Angeles. The study is designed to determine whether or not the planned facilities will have an impact on air quality and the health of nearby residents. (State Toxics Control Account-State)

2013-15 Omnibus Operating Budget
Department of Ecology

23. Derelict and Abandoned Vessels - Chapter 291, Laws of 2013 (ESHB 1245), authorizes several state agencies to continue existing and begin new activities aimed at reducing the number of instances of derelict vessels in waters of the state, and to reduce the complexity and severity of environmental degradation associated with derelict vessels. Ongoing funding and FTE staff are provided for DOE to revise current or establish new general permits specific to hazardous material associated with the deconstruction, removal, and disposal of a derelict vessel, and for technical assistance and site inspections for facilities that would be regulated under the permit. (Water Quality Permit Account-State)

24. Wastewater Discharge Fees - DOE manages about 6,000 wastewater and stormwater discharge permits held by governmental, commercial, and industrial entities. The state Water Pollution Control Act authorizes DOE to collect permit fees to fully recover program costs, however, current fees do not cover some permit categories. Funding and FTE staff are increased on an ongoing basis to reflect increased fees on underpaying categories and will focus new resources on such priorities as source-control inspections and monitoring in Seattle's Duwamish waterway, and inspections in the Spokane area and other currently underserved permit categories. (Water Quality Permit Account-State)

26. Shift GF-S to State Toxics - Environmental program expenditures supported by the state general fund are shifted on a one-time basis to the State Toxics Control Account. (General Fund-State, State Toxics Control Account-State)

27. New Step M for Classified-Yr 1 Impl - Funding is provided in agency budgets for classified employees who have been at their top step for at least six years to move to a new top step during FY 2014. A new top step was included as part of several 2011-13 collective bargaining agreements. (General Fund-State, Other Funds)

28. New Step M for Classified-Yr 2 Impl - A new top step is included in several 2013-15 collective bargaining agreements. Funding is provided for additional classified employees to move to the new top step during FY 2015. The increase would affect those who reach six years at the current top step during FY 2015 and were not yet eligible for the increase during FY 2014. (General Fund-State, Other Funds)

29. State Employee Health Insurance - Funding for state employee health insurance is reduced from \$800 per month per employee to \$782 per month in the first fiscal year and \$791 per month in the second fiscal year resulting in the identified savings. (The imposition of surcharges for tobacco use and for spouses and domestic partners that waive certain employer coverage reduces the necessary funding rate by \$28 per month per employee in the second fiscal year, from \$791 to \$763). (General Fund-State, Other Funds)

30. Wellness - Smoker Surcharge - State agency and higher education employer contributions for health insurance are reduced to reflect a \$25 per month surcharge for PEBB members who use tobacco products, beginning July 1, 2014. This reduces the employer funding rate in FY 2015 by approximately \$4 per month. (General Fund-State, Other Funds)

31. PEBB - Coverage Waiver Surcharge - Reflects expected savings from implementing a \$50 surcharge beginning July 1, 2015, for Public Employees' Benefits Board (PEBB) subscribers who have Employee plus Spouse coverage or Family coverage where the subscriber's covered spouse or partner has waived an opportunity to enroll in employer coverage, and where the waived employer coverage has an actuarial value not less than 95 percent of the value of the PEBB plan with the largest enrollment. Savings consist of waiver revenue plus a reduction in the number of covered spouses or partners. This reduces the employer funding rate in FY 2015 by approximately \$24 per month. 1. Funding Northwest Avalanche Center - The State Parks and Recreation Commission (State Parks) is one of several state, federal, and local partners that cooperatively fund the Northwest Weather and Avalanche Center (NWAC), which collects and continuously updates mountain snow conditions, and provides avalanche and weather forecasts online. Ongoing grant funding is provided to State Parks for grants to NWAC.

2. Funding Essential Parks Activities - Pursuant to Engrossed Senate Bill 5897 (state parks), State Parks is provided \$10m from the Waste Reduction, Recycling and Litter Control Account (WRRLCA) for use in parks operations and maintenance. An additional \$1.7m from WRRLCA and state general funds are provided for state park operations and maintenance during the 2013-15 biennium to address lower-than-originally anticipated public participation in and resulting revenue from the Discover Pass. State Parks is provided one-time funding to implement the provisions of the bill which include marine law enforcement training and training manual updates. (General Fund-Federal)

2013-15 Omnibus Operating Budget Dept of Fish and Wildlife

Comments:

1. PILT Adjustment - The Department of Fish and Wildlife (WDFW) is statutorily obligated to make payments in-lieu of taxes (PILT) to counties in the state if they opt to collect PILT rather than keep revenue from fines assessed for violations of hunting regulations. During the 2013-15 biennium, PILT to counties is rolled back to their 2009 levels. (General Fund-State, General Fund-Federal)

2. Shift HPA Pgm Exp to ALEA - The Hydraulic Project Approval (HPA) program permits projects that occur in state waters at or below the ordinary high water mark. To achieve state general fund savings during the 2013-15 biennium, 49 percent of the HPA program's state general fund expenditures are transferred to the Aquatic Lands Enhancement Account (ALEA) on a one-time basis. (General Fund-State, Aquatic Lands Enhancement Account-State)

3. Suspend Winter Elk Feeding - WDFW maintains two primary elk feeding stations in order to reduce conflicts with agricultural operations. During the 2013-15 biennium, the elk feeding budget is reduced by 50 percent to achieve state general fund savings.

4. Shift PS Toxic Sampling to STCA - WDFW samples two key indicator fish species to inform policy and decision makers regarding the presence of toxic contaminants in the Puget Sound food web and the general health of Puget Sound. Funding for this work is shifted on an ongoing basis from ALEA and the state general fund, to the Environmental Legacy Stewardship Account (ELSA). (General Fund-State, Aquatic Lands Enhancement Account-State, Environmental Legacy Stewardship Account-State)

5. Shift AIS and Ballast Wtr to ALEA - WDFW monitors commercial vessels entering Washington ports that have the highest risk of transporting aquatic invasive species in their ballast water. WDFW also monitors the spread of aquatic invasive species in the state and provides for cleaning and containment of infested areas. Funding for this work is shifted on an ongoing basis from the state general fund to ALEA. (General Fund-State, Aquatic Lands Enhancement Account-State)

6. Shift Comm. Shellfish Mgmt to ALEA - WDFW manages recreational and commercial shellfish fisheries and is responsible for protecting species and their habitat. Funding for this work is shifted on an ongoing basis from the state general fund to ALEA. (General Fund-State, Aquatic Lands Enhancement Account-State)

7. Shift Water Quality Lab to STCA - WDFW analyzes water samples from its hatchery water intakes and outfalls for fish waste and chemical content under the pollution discharge permit issued by the Department of Ecology (DOE). These analyses are compiled into a mandatory compliance report. Funding for the water quality laboratory is shifted on an ongoing basis from the state general fund to ELSA. (General Fund-State, Environmental Legacy Stewardship Account-State)

8. Shift Hatchery NPDES to STCA - Hatchery facilities operated by WDFW are required to obtain National Pollution Discharge Elimination System (NPDES) permits administered by DOE. Funding to pay the permit fees is shifted on an ongoing basis from the state general fund to ELSA. (General Fund-State, Environmental Legacy Stewardship Account-State)

9. Shift GMA/SMA to STCA - WDFW supports local governments in implementing the Shoreline Management Act which leads to the protection of aquatic lands and identifies restoration of degrading shoreline functions. Funding for this work is shifted on an ongoing basis from the state general fund to ELSA. (General Fund-State, Environmental Legacy Stewardship Account-State)

10. Shift Hatchery Expenses to ALEA - WDFW produces fish at state-operated hatcheries for recreational and commercial fisheries and to recover threatened and endangered fish populations. During the 2013-15 biennium, a portion of hatchery expenditures funded through the state general fund are shifted to ALEA. (General Fund-State, Aquatic Lands Enhancement Account-State)

11. Attorney General Legal Services - Agency budgets are adjusted to align with expected billing levels for agency legal services in the 2013-15 biennium. (General Fund-State, Other Funds)

12. CTS Central Services - Funding is provided for each agency's share of enterprise information technology security services provided by Consolidated Technology Services. This allocation is distributed based upon each agency's percentage share of actual statewide information technology full-time equivalent employees. (General Fund-State, Other Funds)

13. DES Central Services - Agency budgets are adjusted to align with expected billing levels for the Department of Enterprise Services in the 2013-15 biennium. (General Fund-State, Other Funds)

**2013-15 Omnibus Operating Budget
Dept of Fish and Wildlife**

14. Wildlife Area Operations & Maint - WDFW generates revenue through timber thinning, agriculture agreements, easements, and other activities on wildlife area lands operated with a federal Pittman-Robertson grant and state funds. Federal expenditure authority is increased, in addition to the expenditure authority from the State Wildlife Account (SWA) that is required as matching funds, on an ongoing basis to address operation and maintenance needs on WDFW wildlife area lands. (General Fund-Federal, State Wildlife Account-State)

15. New WILD System - WDFW's automated licensing system, the Washington Interactive Licensing Database (WILD), is the system through which hunting and fishing licenses and Discover Passes are sold. The WILD contract with the current vendor expires in FY 2014. A new licensing vendor was contracted to build a new WILD system and is allowed to request up to \$1 million in payment for services rendered and equipment purchased and installed. This payment would be a loan paid back to WDFW in the form of the contractor taking a lower percentage of the transaction fee revenue. There is available fund balance within the restricted sub-account of SWA where transaction fee revenue is deposited, and expenditure authority is increased to cover the costs of the new system. (State Wildlife Account-State)

16. Pt. Whitney Staff Relocation - WDFW shares office space with a private commercial fish grower at WDFW's Point Whitney shellfish facility in Brinnon. The commercial grower wishes to expand operations and expenditure authority is increased in SWA to reflect an increase in revenue expected with the expanded lease. Funds are provided for WDFW staff stationed at Point Whitney to be relocated to a more urban location closer to the majority of WDFW's work stations in this region. (State Wildlife Account-State)

17. Vancouver Region Office Relocation - During the 2013-15 biennium, WDFW will relocate its southwest regional office to a facility located in a more secure area that will improve accessibility and public safety, reduce travel costs for field operations, and provide adequate space and protection of WDFW equipment. Funding is provided on a one-time basis for moving and associated relocation costs. (State Wildlife Account-State)

18. Reduce Deer & Elk Property Damage - A Wildlife Conflict Management Program is established to quickly and efficiently address the increasing number of interactions between wildlife and humans. This program will provide resources to landowners and take measures to support sustainable wildlife populations. Ongoing funding from increased sales of multi-season deer and elk hunting permits will focus on conflicts creating chronic property damage in the most vulnerable areas of the state. (State Wildlife Account-State)

19. Science and Public Policy - Chapter 68, Laws of 2013 (HB 1112), requires WDFW to identify peer-reviewed science, scientific literature, and other sources of information reviewed by WDFW before taking a significant agency action, and to make that information available on the WDFW website. Funding is provided on an ongoing basis for WDFW staff time to implement the provisions of the bill.

20. Invasive Species Passport - Funding is provided to develop a passport system for local boaters to combat invasive species. (Aquatic Lands Enhancement Account-State)

21. Cowlitz River Chinook Production - Funding is provided for the department to increase fall Chinook salmon production on the Cowlitz River and to secure local matching funds for the same purpose. (General Fund-State, State Wildlife Account-State, Columbia River Recreational Salmon and Steelhead Pilot Stamp Program Account-Nonappropriated)

22. Clark Creek and Lakewood Hatchery - Funding is provided for the transfer of trout production from the Clarks Creek hatchery to the Lakewood hatchery and funding for increased production of Steelhead, Coho and Chinook at the Clarks Creek hatchery. (General Fund-State, State Wildlife Account-State)

23. Wolf Conflict Management - Chapter 329, Laws of 2013 (E2SSB 5193), increases the initial registration and renewal fees for personalized license plates by \$10 beginning in FY 2014 for deposit into the unrestricted portion of SWA for the protection and management of nongame species as described in RCW 46.68.435. Expenditure authority is increased to reflect the additional ongoing revenue. (State Wildlife Account-State)

24. New Step M for Classified-Yr 1 Impl - Funding is provided in agency budgets for classified employees who have been at their top step for at least six years to move to a new top step during FY 2014. A new top step was included as part of several 2011-13 collective bargaining agreements. (General Fund-State, Other Funds)

25. New Step M for Classified-Yr 2 Impl - A new top step is included in several 2013-15 collective bargaining agreements. 26. State Employee Health Insurance - Funding for state employee health insurance is reduced from \$800 per month per employee to \$782 per month in the first fiscal year and \$791 per month in the second fiscal year resulting in the identified savings. PEBB - Coverage Waiver Surcharge - Reflects expected savings from implementing a \$50 surcharge beginning July 1, 2015, for Public Employees' Benefits Board (PEBB) subscribers who have Employee plus Spouse coverage or Family coverage where the subscriber's covered spouse or partner has waived an opportunity to enroll in employer coverage, and where the waived employer coverage has an actuarial value not less than 95 percent of the value of the PEBB plan with the largest enrollment. Savings consist of waiver revenue plus a reduction in the number of covered spouses or partners. This reduces the employer funding rate in FY 2015 by approximately \$24 per month. During the 2013-15 biennium, 20 percent of the program's state general fund expenditures are shifted to dedicated accounts. (General Fund-State, Environmental Legacy Stewardship Account-State, Aquatic Lands Enhancement Account-State)

3. Marine Spatial Planning - Marine spatial planning is a process that brings together multiple stakeholders to make decisions about how to use marine resources. The work is funded through the Marine Resources Stewardship Trust Account which receives funding during the 2013-15 biennium by a transfer from ALEA. 15. Aquatic Lands Business Management - DNR manages 2.6 million acres of state-owned aquatic lands and more than 5,000 leases and contracts on those lands. Ongoing funding is provided from the aquatics portion of RMCA to address a growing backlog of expired leases and new applications. Additional staff will focus on processing new or reauthorized uses. Additionally, aquatic lease compliance data will be collected, stored, and analyzed to assess and ensure minimal impact to aquatic environments resulting from DNR-authorized uses. (Resources Management Cost Account-State)

16. Aquatic Land Investigation/Cleanup - DNR has been identified as a potential liable party by the Department of Ecology (DOE) under the Model Toxics Control Act on three Puget Sound basin cleanup efforts. In addition, DNR is required by an existing hydraulic project approval permit to perform final-year maintenance of the Olympic View Triangle site in Commencement Bay. One-time funding is provided from the Environmental Legacy Stewardship Account to cover these costs. (Environmental Legacy Stewardship Account-State)

17. Protect Clean Water, Forests & Fish - Expenditure authority is increased from the Forest and Fish Support Account to allow DNR to complete high priority Clean Water Act assurance milestones and Adaptive Management Program research/monitoring projects necessary to support the Forest Practices Habitat Conservation Plan. 19. Derelict and Abandoned Vessels - Chapter 291, Laws of 2013 (ESHB 1245), authorizes several state agencies to continue existing and begin new activities aimed at reducing the number of instances of derelict vessels in waters of the state, and to reduce the complexity and severity of environmental degradation associated with derelict vessels. Ongoing funding and FTE staff are provided for DNR to establish and administer a vessel turn-in program, and to continue the removal and disposal of derelict vessels. (Derelict Vessel Removal Account-State)

20. Map Aggregate Resources - Aggregate resources (sand, gravel, and crushed stone) are used in road construction and in commercial and residential development. Aggregate resource maps are recognized as best available science under the Growth Management Act and local governments use them to reduce permit costs and make long-term land use plans and decisions. Expenditure authority is increased in the Surface Mining Reclamation Account using available fund balance to conduct a three-year project that will result in one completed aggregate resource map each year for Pierce, Lewis, and Thurston counties. (Surface Mining Reclamation Account-State)

21. Yakima Land Purchase - Funding is provided to assess the condition of the land, and perform weed management, road maintenance and other land management responsibilities associated with its Yakima land purchase. 23. Trust Land Productivity and Revenue - Lands managed by DNR generate about \$205 million a year in non-tax revenues. The economic downturn that began in 2008 resulted in reduced revenues into the trust land management accounts and trust and forest land management activities were suspended or reduced. Timber prices and revenues have since increased and expenditure authority is thereby increased in the uplands portion of RMCA and the Forest Development Account to resume trust land management activities deferred during the recession such as silviculture vegetation management, land surveying, and research and monitoring. (Forest Development Account-State, Resources Management Cost Account-State)

26. State Employee Health Insurance - Funding for state employee health insurance is reduced from \$800 per month per employee to \$782 per month in the first fiscal year and \$791 per month in the second fiscal year resulting in the identified savings. (The imposition of surcharges for tobacco use and for spouses and domestic partners that waive certain employer coverage reduces the necessary funding rate by \$28 per month per employee in the second fiscal year, from \$791 to \$763). (General Fund-State, Other Funds)

27. Wellness - Smoker Surcharge - State agency and higher education employer contributions for health insurance are reduced to reflect a \$25 per month surcharge for PEBB members who use tobacco products, beginning July 1, 2014. 28. PEBB - Coverage Waiver Surcharge - Reflects expected savings from implementing a \$50 surcharge beginning July 1, 2015, for Public Employees' Benefits Board (PEBB) subscribers who have Employee plus Spouse coverage or Family coverage where the subscriber's covered spouse or partner has waived an opportunity to enroll in employer coverage, and where the waived employer coverage has an actuarial value not less than 95 percent of the value of the PEBB plan with the largest enrollment. Savings consist of waiver revenue plus a reduction in the number of covered spouses or partners. This reduces the employer funding rate in FY 2015 by approximately \$24 per month. Comments:

1. Attorney General Legal Services - Agency budgets are adjusted to align with expected billing levels for agency legal services in the 2013-15 biennium. (General Fund-State, Other Funds)

2. Administrative Hearings - Agency budgets are adjusted to align with expected billing levels for the Office of Administrative Hearings in the 2013-15 biennium. (General Fund-State, Other Funds)

3. CTS Central Services - Funding is provided for each agency's share of enterprise information technology security services provided by Consolidated Technology Services. This allocation is distributed based upon each agency's percentage share of actual statewide information technology full-time equivalent employees. (General Fund-State, Other Funds)

4. DES Central Services - Agency budgets are adjusted to align with expected billing levels for the Department of Enterprise Services in the 2013-15 biennium. (General Fund-State, Other Funds)

5. Charter Schools (Initiative 1240) - Voters approved Initiative 1240 in the 2012 General Election, which authorizes up to 40 publicly-funded charter schools in Washington State over a period of five years. The initiative creates additional workload requirements for the State Board of Education and the Office of the Superintendent of Public Instruction.

6. Audit Workload Increase - One-time funding is provided to the Office of the Superintendent of Public Instruction (OSPI) to accommodate an increase in audits of school districts' Alternative Learning Experience (ALE) programs. Because Chapter 34, Laws of 2011 (ESHB 2065) reformed ALE programs, OSPI and the State Auditor's Office anticipate an increase in audit findings for the 2012-13 school year. A one-time workload increase is funded for the 2013-15 biennium to address additional audit resolutions and appeals in the ALE program area. (Performance Audit Account)

7. Longitudinal Data System - Funding is provided to maintain and operate the K-12 Statewide Longitudinal Data System. In 2009, the Office of the Superintendent of Public Instruction was awarded a \$5.9 million, four-year federal grant to build a statewide longitudinal data system (SLDS). The federal grant ends in June 2013 and all technical systems and business processes are scheduled to be completed at that time. State funding is provided for maintenance and operation of the technical systems and business processes developed under the federal grant, including the K-12 SLDS and the Student Record Exchange system.

8. Kindergarten Readiness WaKIDS - Funding is provided for continued implementation of the Washington Kindergarten Inventory and Developing Skills (WaKIDS) program. With an increase in the state-funded Full-Day Kindergarten, more teachers will be trained in WaKIDS.

9. Dropout Prevention and Retention - The Building Bridges and Jobs for America's Graduates programs are consolidated into a single Dropout Prevention and Retention program and are enhanced in total by \$1,056,000.

10. Troubled Youth in Schools - Funds are provided to implement Engrossed Second Substitute House Bill 1336 (troubled youth in schools). The bill adds educator training requirements and school planning requirements regarding youth emotional and behavioral distress, including suicide screening and referral. The bill also establishes a temporary task force to identify best practices for school districts to develop partnerships with community agencies to support youth in need.

11. State-Tribal Ed Compact - Funds are provided to implement Engrossed Second Substitute House Bill 1134 (state-tribal education compacts). One-time funding in the amount of \$53,000 is provided for reprogramming of the apportionment system. Additional funds are provided for the Office of the Superintendent of Public Instruction to adopt rules for the state-tribal education compacts and to administer the compact school application process.

12. Computer Science Education - Funding is provided for computer science education grants to improve and expand access to computer science education. The grant program supports computer science professionals service as co-instructors for Advanced Placement Computer Science and upgrades in technology, curriculum, and teacher training.

Public Schools
OSPI & Statewide Programs

13. Cardiac Arrest - Funding is provided for the implementation of House Bill 1556 (cardiac arrest/high school), creating initiatives in high schools to save lives in the event of cardiac arrest. The bill requires the Office of the Superintendent of Public Instruction, in consultation with others, to develop guidelines for medical emergency response and automated external defibrillator program for high schools. School districts that include high schools are required to offer instruction in cardiopulmonary resuscitation (CPR). CPR is added to the instructional requirements in health classes necessary for graduation.

14. School Pilot Program Data & Study - Funds are provided to support the collection of data that will be used in measuring the outcomes of several pilot projects funded by the Legislature in recent years.

15. Navigation 101 - Navigation 101 is part of a comprehensive school guidance and counseling program in Washington state. The purpose of Navigation 101 is to help students make choices for college and career readiness in the areas of course selection, goal setting, career planning, and postsecondary options, including financial aid. Funding for the Navigation 101 grants is eliminated. Funding for 2.5 FTEs at the Office of the Superintendent is maintained to support the curriculum where districts elect to continue to utilize the program using other funding sources.

16. Washington Innovation Schools - The Washington Innovation Schools program, created in 2011 under Chapter 202, Laws of 2011 (HB 1521), directed the Office of the Superintendent of Public Instruction (OSPI) to identify and designate Washington Innovation Schools utilizing selection criteria developed by OSPI. Funding is provided for OSPI to convene a committee in FY 2014 and FY 2015 to select and recognize Washington Innovation Schools using the existing selection criteria to identify additional innovative schools.

17. Non-Violence Leadership Training - Funding is provided to expand the nonviolence and leadership training program, provided by the Institute for Community Leadership, to a statewide program.

18. Funding Adjustment - Funding allocations for the Office of the Superintendent of Public Instruction are increased on a one-time basis to support Washington's Teacher of the Year.

19. Washington Achievers Scholars - Washington Achievers Scholars program is expanded to increase the number of school districts in which the program is provided.

A new top step was included as part of several 2011-13 collective bargaining agreements. (General Fund-State, Other Funds)

24. New Step M for Classified-Yr 2 Impl - A new top step is included in several 2013-15 collective bargaining agreements. Funding is provided for additional classified employees to move to the new top step during FY 2015. The increase would affect those who reach six years at the current top step during FY 2015 and were not yet eligible for the increase during FY 2014. (General Fund-State, Other Funds)

25. State Employee Health Insurance - Funding for state employee health insurance is reduced from \$800 per month per employee to \$782 per month in the first fiscal year and \$791 per month in the second fiscal year resulting in the identified savings. (The imposition of surcharges for tobacco use and for spouses and domestic partners that waive certain employer coverage reduces the necessary funding rate by \$28 per month per employee in the second fiscal year, from \$791 to \$763). (General Fund-State, Other Funds)

26. Wellness - Smoker Surcharge - State agency and higher education employer contributions for health insurance are reduced to reflect a \$25 per month surcharge for PEBB members who use tobacco products, beginning July 1, 2014. This reduces the employer funding rate in FY 2015 by approximately \$4 per month. (General Fund-State, Other Funds)

27. PEBB - Coverage Waiver Surcharge - Reflects expected savings from implementing a \$50 surcharge beginning July 1, 2015, for Public Employees' Benefits Board (PEBB) subscribers who have Employee plus Spouse coverage or Family coverage where the subscriber's covered spouse or partner has waived an opportunity to enroll in employer coverage, and where the waived employer coverage has an actuarial value not less than 95 percent of the value of the PEBB plan with the largest enrollment. Savings consist of waiver revenue plus a reduction in the number of covered spouses or partners. This reduces the employer funding rate in FY 2015 by approximately \$24 per month. 1. Reduce Early Elementary Class Size - Chapter 236, Laws of 2010 (SHB 2776) established new formulas for allocating funding for a number of programs, including General Apportionment, Learning Assistance Program, Highly Capable Program, and Transitional Bilingual Program. Included in the new formulas was a reduction in class sizes for grades kindergarten through three. Allocations for high poverty schools provided in school years 2013-14 and 2014-15 reduce class size for grades kindergarten through first from 24.1 full-time equivalent students (FTEs) to 20.85 FTEs in school year 2013-14 and 20.30 FTEs in school year 2014-15.

2. Expand Full Day Kindergarten - Allocations for statewide voluntary full-day kindergarten programs is expanded, increasing from 22 percent of kindergarten enrollment in school year 2012-13 to 43.75 percent of kindergarten enrollment in school years 2013-14 and 2014-15. Chapter 236, Laws of 2010 (SHB 2776) requires full implementation of statewide funding for voluntary full-day kindergarten by 2018.

3. Remove Hold Harmless - Chapter 236, Laws of 2010 (SHB 2776) established new formulas for allocating funding for a number of programs, including General Apportionment, Learning Assistance Program, Highly Capable Program, and Transitional Bilingual Program. The 2011-13 biennial budget provided funding to hold districts harmless to per-student funding amounts that existed prior to the formula conversion. The 2013-15 biennial budget eliminates the need for hold harmless amounts by the following basic education funding changes: (1) increasing the funding allocations for implementing the targets provided in statute, (2) providing additional allocations in the Learning Assistance Program and the Transitional Bilingual Program, and (3) providing additional allocations to fund an increase in grades 7 through 12 grade instructional hours.

4. Materials, Supplies, & Op. Costs - Allocations for Materials, Supplies, & Operating Costs (MSOC) are increased from \$562.88 per full-time equivalent student in school year 2013-14 to \$737.02 per full-time equivalent student. In school year 2014-15 MSOC allocations are increased to \$781.72. The MSOC allocation required by RCW 28A.150.260(8)(b) is revised to reflect actual audited expenditures by school districts, as reported by the Office of the Superintendent of Public Instruction. The allocation in the 2013-14 school year achieves 37 percent of the additional MSOC funding necessary to meet full funding requirements under the revised MSOC values. The allocation in the 2014-15 school year achieves 44 percent of the additional MSOC funding necessary. (Education Legacy Trust Account)

5. ALE Audit Recoveries - The State Auditor's Office (SAO) recently completed 2010-11 school year audits of the Alternative Learning Experience (ALE) Program. A one-time adjustment for audit recoveries is assumed based on the scope and size of the audit findings, adjusted by the historical ratio of SAO audit findings to the Office of the Superintendent of Public Instruction audit resolution recoveries for the ALE programs.

6. Increase Instructional Hours - An increase in instructional hours is funded for grades 7 through 12. The funding provides an additional 2.2222 hours of instruction per week, increasing the total required instruction for each of grades 7 through 12 to 1,080 hours beginning in the 2014-15 school year.

7. Parent Engagement Coordinator - The prototypical funding formula is revised for the prototypical elementary school. Parent Engagement coordinators are increased by 0.083 full-time equivalent staff.

8. Guidance Counselor - The prototypical funding formula is revised for the prototypical middle and high schools. Guidance Counselor allocations are increased by 0.1 full-time equivalent staff for each prototypical middle school and high school.

9. Alternative Learning Experience - In response to recent state audit findings, the state established new definitions and program guidance for funding Alternative Learning Experience (ALE) programs. Funding for ALE is based on the 9-12th grade Basic Education Allocation rate.

As of the 2014-15 school year, 100 percent of funding necessary to fully complete phase-in of the state's new pupil funding transportation formula as provided in Chapter 548, Laws of 2009 (ESHB 2261). Increased funding expands the levy base, which results in increased Local Effort Assistance (LEA) distributions. Amounts appropriated for LEA include funding sufficient for LEA distributions from the levy base as defined in RCW 84.52.0531 (3)-(5). Comments:

1. Suspend National Board Inflation - The National Board Bonus program provides annual bonuses to teachers and counselors who have earned rigorous National Board certification in one or more of 25 subject areas. RCW 28A.405.415 requires the regular bonus to be adjusted for inflation, increasing the bonus from \$5,090 to \$5,489. This requirement is suspended for the 2013-15 biennium and the bonus will remain at \$5,090.

2. Assessment Reforms - Savings are assumed from changes to the statewide required student assessments. The changes to assessments include: replacement of high school reading and writing exams with a single English language arts exam; and utilization of the Smarter Balance test bank. Collection of Evidence grading is maintained at the Education Service Districts.

3. Financial Education Partnership - Funding is provided for the financial literacy public-private partnership for fiscal years 2014 and 2015 to promote the financial literacy of students. Funding for the partnership was previously funded by a private grant. The grant is set to expire at the end of the 2013 fiscal year. The General Fund-State appropriation is provided to replace the grant funds previously used to support the partnership.

4. Dropout Prevention - Farming - Funds a dropout prevention program that incorporates partnerships between community based organizations, schools, food banks, and farms or gardens. The OSPI must partner with an organization that runs an existing similar program. The OSPI may use up to \$10,000 of this amount for administration.

5. Teacher & Principal Eval Training - Funding for training in the new teacher evaluation program and district student growth training is provided. For FY 2014, an allocation totaling \$10 million is provided, of which \$5 million is one-time. For FY 2015, an on-going allocation of \$5 million is provided. The Teacher Principal Evaluation Program training funds are provided for the Office of the Superintendent of Public Instruction to begin implementation of eight hours of training for every teacher in the state for the purpose of understanding the instructional framework, state evaluation criteria, evaluation tool, and evidence required to determine effectiveness under the new teacher principal evaluation program. The on-going \$5 million allocation per year is provided for small team "train the trainer" series for select staff from each of the 295 school districts on the use of student growth measures. The trained teams will provide three hours of training at their respective districts for one-third of teachers each year until full training implementation is achieved.

6. Career & Technical Education Grants - Funding is increased for secondary career and technical education grants.

7. PASS Act Program - The Pay for Actual Student Success (PASS) Act program is eliminated. The PASS Act supports several dropout prevention and retention programs including Building Bridges and JAG.

8. Regional Ed. Tech. Support Centers - Funding for the Regional Education Technical Support Centers at the Educational Service Districts is eliminated beginning in FY 2014.

9. High School Acceleration - Engrossed Second Substitute Senate Bill 5243 (high-school academic acceleration) creates a requirement for school boards to adopt an academic acceleration policy for high-school students; enroll qualifying students in the next most rigorous level of advanced courses offered by the high schools; and notify students and parents/guardians regarding the academic acceleration policy and the advanced courses available to students - from which the parents/guardians may opt out. Financial incentives are provided for the support of teacher training, curriculum, technology, examination fees, and other costs associated with offering dual credit courses. One-half of the funds will be allocated to school districts based on the growth of percentage of students who earn dual high school and college credit during the prior school year. The remaining half of the funds will be allocated to school districts with high schools with dual credit enrollment in the lowest 25 percentage quartile, to assist with improving participation rates. Funding is provided for OSPI's administrative work to collect the dual credit data, and for incentive grants to schools.

10. Persistently Lowest-Achieving Sch. - Funding is provided for Engrossed Second Substitute Senate Bill 5329 (Persistently Failing Schools) to support grants to school districts identified as persistently lowest-achieving, and/or having been listed by the Office of the Superintendent of Public Instruction (OSPI) as a Required Action District (RAD). The amount of the grant to be provided to a district is determined by the OSPI. Funds are also provided for staffing at OSPI for the implementation and continued administration of the program.

11. Consolidate Grants & Programs - Allocations for specific programs are consolidated and reduced. The Learning Assistance Program is revised, permitting districts to continue consolidated programs of their choosing. The Readiness to Learn educational program is consolidated.

12. Improved Student Outcomes (SB5946) - Engrossed Substitute Senate Bill 5946 (student educational outcomes) addresses early-grade reading proficiency; requires Learning Assistance Program (LAP) funds to be used for interventions and activities which research shows to be effective and makes early-grade reading proficiency the first priority for LAP funds; limits the length of long-term suspensions and expulsions; establishes a beginning teacher mentoring program in statute; limits educator supplemental salary funding above inflation to professional development purposes; and redefines and amends the funding allocation for alternative learning programs. Additionally, the permissible uses of LAP funds are extended to include interventions for students with behavioral issues. Funding is provided for implementation of the bill.

13. New Step M for Classified-Yr 1 Impl - Funding is provided in agency budgets for classified employees who have been at their top step for at least six years to move to a new top step during FY 2014. 14. State Employee Health Insurance - Funding for state employee health insurance is reduced from \$800 per month per employee to \$782 per month in the first fiscal year and \$791 per month in the second fiscal year resulting in the identified savings. (The imposition of surcharges for tobacco use and for spouses and domestic partners that waive certain employer coverage reduces the necessary funding rate by \$28 per month per employee in the second fiscal year, from \$791 to \$763). (General Fund-State, Other Funds)

15. Wellness - Smoker Surcharge - State agency and higher education employer contributions for health insurance are reduced to reflect a \$25 per month surcharge for PEBB members who use tobacco products, beginning July 1, 2014. This reduces the employer funding rate in FY 2015 by approximately \$4 per month. (General Fund-State, Other Funds)

16. PEBB - Coverage Waiver Surcharge - Reflects expected savings from implementing a \$50 surcharge beginning July 1, 2015, for Public Employees' Benefits Board (PEBB) subscribers who have Employee plus Spouse coverage or Family coverage where the subscriber's covered spouse or partner has waived an opportunity to enroll in employer coverage, and where the waived employer coverage has an actuarial value not less than 95 percent of the value of the PEBB plan with the largest enrollment. Savings consist of waiver revenue plus a reduction in the number of covered spouses or partners. This reduces the employer funding rate in FY 2015 by approximately \$24 per month. 5. PEBB - Coverage Waiver Surcharge - Reflects expected savings from implementing a \$50 surcharge beginning July 1, 2015, for Public Employees' Benefits Board (PEBB) subscribers who have Employee plus Spouse coverage or Family coverage where the subscriber's covered spouse or partner has waived an opportunity to enroll in employer coverage, and where the waived employer coverage has an actuarial value not less than 95 percent of the value of the PEBB plan with the largest enrollment. Savings consist of waiver revenue plus a reduction in the number of covered spouses or partners. This reduces the employer funding rate in FY 2015 by approximately \$24 per month. These services are provided in response to the negotiated settlement agreement from legal action taken against the Health Care Authority in W.A.A.A .v. Porter. The services are intended to ameliorate the core symptoms of conditions classified as autism spectrum disorders and improve functionality in communication, behavior, and social skills. Funding is also provided for interpreter services and transportation costs associated with delivering these services. (General Fund-State, General Fund-Federal)

5. Professional Services Supp. Payment - Funding is provided to expand the current Professional Services Supplemental Payment (PSSP) program to include services provided to managed care enrollees. The PSSP program provides supplemental payments for professional services delivered by providers that are employed or affiliated with the University of Washington or employed by a public hospital that has elected to participate. Payments to participating providers are processed through an intergovernmental transfer program in which the providers are invoiced for the state share of the payments and the Health Care Authority returns the state share with federal matching funds to the providers. 2. MR Exception to Rule - Funding is provided for the workload impact, as well as the per capita cost impact, from an anticipated increase in exception-to-rule (ETR) requests. An ETR refers to additional paid service granted when a client presents a situation that differs from the majority, and is in the interest of both the overall economy and the client's welfare. The exception may not contradict a specific provision of federal law or state statute. (General Fund-State, General Fund-Federal)

3. SOLA Needs - The Department of Social and Health Services will create two new State Operated Living Alternative (SOLA) homes for people with developmental disabilities, one in the Spokane area and another in the Yakima area. SOLA homes provide an additional zero reject option for children who are not eligible for a Residential Habilitation Center placement. (General Fund-State, General Fund-Federal)

4. Community Crisis Stabilization - The Department of Social and Health Services will create and operate a community crisis stabilization home for children and a mobile treatment team that will operate statewide. Comments:

1. HealthPath Washington - Washington was awarded a developmental grant to design improved coordination of services and manage costs for clients dually eligible for both Medicaid and Medicare. The final plan includes two strategies. The first will focus on incorporating high-risk dual eligibles into chronic care management Health Homes. The second, which is being negotiated with federal officials, county government and labor partners, will offer dual eligibles a combined Medicare and Medicaid managed care benefit package in selected counties. The design grants do not require a state match in the first year of development; however, there is a 25% state match in the second year and 50% match in subsequent years. (General Fund-Federal)

2. In-Home Provider Arbitration - Pursuant to the interest arbitration award between the Service Employees International Union Healthcare 775NW and the state of Washington for the 2013-15 biennium, additional funding is provided for new or increased wages; pay differentials; mileage reimbursements; comprehensive health benefits; training contributions; initial certification and testing fee subsidies; union presentations; and paid holidays. The Department of Social and Health Services will incur administrative costs in Fiscal Year 2013 to comply with the arbitration award. (General Fund-State, General Fund-Federal)

3. Dual Eligibles Grant - The Department of Social and Health Services (DSHS) will work with community partners to provide options counseling to Medicare-Medicaid individuals (dual eligibles) to ensure that these individuals have access to an unbiased and consumer friendly source of information. The funding for this effort has been awarded to DSHS by the Centers for Medicare and Medicaid Services and requires no state funds. (General Fund-Federal)

4. Quality Measures Grant - The Department of Social and Health Services (DSHS) will develop staff capacity to collect, report, and analyze data on the initial core set of health care quality measures for adults enrolled in Medicaid. The funding for this effort has been awarded to DSHS by the Centers for Medicare and Medicaid Services and requires no state funds. (General Fund-Federal)

5. MR Exception to Rule - Funding is provided for the workload impact, as well as the per capita cost impact, from an anticipated increase in exception-to-rule (ETR) requests. Comments:

1. Earn Federal TANF Contingency Funds - Washington State currently meets the criteria to earn federal contingency funds to support its Temporary Assistance to Needy Families (TANF) program. These one-time funds can be used to replace General Fund-State funding currently supporting the TANF program. (General Fund-State, General Fund-Federal)

2. Workfirst Funding - Funding for the Workfirst program is reduced to reflect changes in cash assistance and child-care forecasts and federal funding is adjusted.

3. Information System Changes - Implementation of the Affordable Care Act simplifies eligibility rules for the Medicaid program. Comments:

1. Emergency Fire Suppression - At the beginning of each biennium, the Department of Natural Resources (DNR) is appropriated a baseline amount of state general fund for emergency fire suppression costs. For FY 2013, this baseline amount was just over \$10 million. Any actual costs incurred by DNR in fighting fires that exceed the baseline are requested as additional appropriations in supplemental budgets. Over 700 fires during FY 2013 impacted nearly 54,000 acres of DNR protected lands and totaled \$43m in expenditures. Funding is provided to cover fire fighting costs incurred by DNR above the agency's baseline appropriation.

Comments:

1. Financially Struggling Schools - Funding is provided for the Office of the Superintendent of Public Instruction (OSPI) to provide one-time financial assistance to struggling nonhigh school districts located in educational service district 113. In order to receive the funds, the school district(s) must be experiencing budgetary shortfalls due to one or more of the following conditions: declining total enrollment; increased enrollment of students with special education needs; and, debts owed to school districts serving the nonhigh school districts' high school aged students. Funds provided through this one-time assistance must be repaid to the state. Additionally, as a condition of the loan, school districts receiving the funds must agree to budgetary oversight and supervision by the OSPI through the 2014-15 school year.
