## **HUMAN SERVICES**

Sec. 201. 2013 2nd sp.s. c 4 s 201 (uncodified) is amended to read as follows:

## FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

- (1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.
- (2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.
- (3)(a) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under the Washington medicaid integration partnership (WMIP) and the medicare integrated care project (MICP), the health care authority and the

department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary to finance a unified health care plan for the WMIP and the MICP program The WMIP pilot projects shall not exceed a daily enrollment. enrollment of 6,000 persons, nor expand beyond one county during the 2013-2015 fiscal biennium. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients In implementing the WMIP and the MICP, the health care authority and the department may: (i) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and (ii) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs.

(b) If Washington has been selected to participate in phase two of the federal demonstration project for persons dually-eligible for both medicare and medicaid, the department and the authority may initiate the MICP. Participation in the project shall be limited to persons who are eligible for both medicare and medicaid and to counties in which the county legislative authority has agreed to the terms and conditions under which it will operate. The purpose of the project shall be to demonstrate and evaluate ways to improve care while reducing state expenditures for persons enrolled both in medicare and medicaid. To that end, prior to initiating the project, the department and the authority shall assure that state expenditures shall be no greater on either a per person or total basis than the state would otherwise incur. Individuals who are solely eligible for medicaid may also participate if their participation is agreed to by the health care authority, the department, and the county legislative authority.

(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services

- are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.
  - (5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.
  - (6) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for the medicaid expansion but are enrolled in coverage that will be eliminated in the transition to the medicaid expansion.
  - (7)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2014, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2014 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.
- (b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2014 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medicaid personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not

- transfer funds, and the director of financial management shall not 1 approve the transfer, unless the transfer is consistent with the 2 objective of conserving, to the maximum extent possible, the 3 expenditure of state funds. The director of financial management shall 4 notify the appropriate fiscal committees of the senate and house of 5 representatives in writing seven days prior to approving any allotment 6 modifications or transfers under this subsection. The written 7 notification shall include a narrative explanation and justification of 8 the changes, along with expenditures and allotments by budget unit and 9 appropriation, both before and after any allotment modifications or 10 transfers. 11

The department may allow regional support networks which have nonmedicaid reimbursable costs that are 9 higher than the nonmedicaid allocation they receive under this section 10 to supplement these funds with local dollars or funds received under 11 12 section 204(1)(a) of this act. The department and regional support 13 networks shall maintain consistency with all essential elements of the 14 PACT evidence-based practice model in programs funded under this section. 15

Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn

- additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

  - (o) The legislature finds that the circumstances of the Chelan-Douglas regional support network (CD-RSN) make it necessary for CD-RSN to undergo restructuring in order to provide mental health services essential to the health and wellness of the citizens within its service area. The legislature intends to provide additional temporary

To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.
  - (2)(a) The superintendent of public instruction shall ensure that:
  - (i) Special education students are basic education students first;

- (iii) Special education students are basic education students for the entire school day.
- (b) The superintendent of public instruction shall continue to implement the full cost method of excess cost accounting, as designed by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006.

- (4)(a) For the 2013-14 and 2014-15 school years, the superintendent shall allocate funding to school district programs for special education students as provided in RCW 28A.150.390, except that the

- 9 (b) From July 1, 2013 to August 31, 2013, the superintendent shall allocate funding to school district programs for special education students as provided in section 507, chapter 50, Laws of 2011 1st sp. 12 sess., as amended.
  - (5) The following applies throughout this section: The definitions for enrollment and enrollment percent are as specified in RCW 28A.150.390(3). Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.
  - (6) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with RCW 28A.150.390(3) (c) and (d), and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.
  - (7) ((\$22,263,000)) \$17,578,000 of the general fund--state appropriation for fiscal year 2014, ((\$34,392,000)) \$29,948,000 of the general fund--state appropriation for fiscal year 2015, and \$29,574,000 of the general fund--federal appropriation are provided solely for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (4) of this section. At the conclusion of each school year, the superintendent shall recover

safety net funds that were distributed prospectively but for which districts were not subsequently eligible.

- (a) For the 2013-14 and 2014-15 school years, safety net funds shall be awarded by the state safety net oversight committee as provided in section 109(1) chapter 548, Laws of 2009 (ESHB 2261).

- (10) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.
