- 345. **PRESUMPTIVE SSI FEDERAL MATCH** Chapter 10, Laws of 2013, 2nd special session broadened the disability determination standard for the Aged, Blind and Disabled program, which includes Presumptive Supplemental Security Income (SSI) individuals. As a result, the 2013-15 enacted budget assumed that nearly 20,000 Presumptive SSI individuals currently eligible for 50 percent federal match would become eligible for 100 percent federal match under the Affordable Care Act (ACA) Medicaid expansion, reducing General Fund-State expenditures. The Presumptive SSI program provides Medicaid coverage to clients with long-term medical conditions that make them likely to meet federal disability criteria while their disability determinations are pending. The Centers for Medicare and Medicaid Services has clarified that the state is eligible for a 75 percent federal match under the ACA expansion state provision. Additional state funding is needed to make up the difference between 100 percent and 75 percent federal match. (General Fund-State, General Fund-Federal)

Federal revenue is leveraged with assessment funds to increase the statewide average nursing home payment by \$7.24 per day. Of that, \$2.71 per day is used to increase the existing low-wage worker add-on. The remaining \$4.53 per day is provided in new rate add-ons for direct care, support services, and therapy care that are established in the operating budget. All of the new rate add-ons are subject to settlement. (Skilled Nursing Facility Net Trust Account--State, General Fund--Federal)

The Health Care Authority has reported that a higher number of individuals than initially assumed will enroll as "newly eligible" clients. New projections are that a monthly average of 1,223 individuals in FY 2014 and 2,674 individuals in FY 2015 will enroll as "newly eligible." State funding is reduced to reflect the 100 percent federal match rate for the "newly eligible" enrollees. - 424. **HOSPITAL SAFETY NET ASESSMENT** Implementation of the Hospital Safety Net Assessment program under Chapter 17, Laws of 2013, 2nd sp.s. (ESSB 5913) was delayed from July 1, 2013, to October 1, 2013, because HCA did not submit a timely request for the federal waiver required to implement the program. - 426. **ELIGIBILITY WORKER FUND SPLIT** The enacted 2013-15 budget provided additional staff and funding to support implementation of Medicaid expansion and Modified Gross Adjustment Income eligibility under the Affordable Care Act. Since implementation includes work associated with state-only programs, the Health Care Authority cannot earn the federal funds assumed. Additional state funds are provided. (General Fund-State, General Fund-Federal)
- PRESUMPTIVE SSI FEDERAL MATCH The Presumptive SSI program provides Medicaid coverage to clients with long-term medical conditions that make them likely to meet federal disability criteria while their disability determinations are pending. Chapter 10, Laws of 2013, 2nd sp. sess. (SHB 2069) broadened the disability determination standard for the Aged, Blind and Disabled program, which includes individuals in the Presumptive Supplemental Security Income (SSI) program. As a result, the 2013-15 enacted budget assumed that nearly 20,000 Presumptive SSI clients currently eligible for 50 percent federal match would become eligible for 100 percent federal match under the Affordable Care Act (ACA) Medicaid expansion, reducing state general fund expenditures. The Centers for Medicare and Medicaid Services has clarified that the state is eligible for a 75 percent federal match under the ACA expansion state provision. Additional state funding is needed to make up the difference between 100 percent and 75 percent federal match. (General Fund-State, General Fund-Federal)

(General Fund-State, General Fund-Federal)
- 429. **NEWLY ELIGIBLE MATCH THRESHOLD** The Affordable Care Act required the state of Washington to convert existing eligibility standards based upon net income to the Modified Adjusted Gross Income (MAGI) standard. The federal Centers for Medicare and Medicaid Dervices required states to develop proxy MAGI income levels under which clients would be deemed to have been eligible under the Categorically Needy Family Medical program with a federal match of 50.03 percent. Washington's MAGI proxy is 54 percent of the federal poverty level (FPL), and clients with MAGI income levels between 55 and 138 percent of the FPL will enroll as "newly eligible" with a 100 percent federal match. Under that proxy, approximately 2,500 clients in FY 2014 and 3,400 clients in FY 2015 that were assumed to be "newly eligible" in the enacted budget with a 100 percent federal match will be deemed currently eligible at a 50.03 percent match. (General Fund-State, General Fund-Federal)
- 430. **INPATIENT AND OUTPATIENT REBASE** Funding was provided in the 2013-15 enacted budget to rebase outpatient and inpatient payment methods.
