19 investments in Washington state's transportation system. The goal is
20 to enable the department of transportation to construct bridge and
21 highway projects more quickly and to build and operate them at a lower
22 cost, while ensuring that appropriate environmental and regulatory
23 protections are maintained and a quality project is delivered. The

10 work group shall provide recommendations on how administration and
11 enforcement may be modified, as needed, to address any identified
12 issues, including whether statutory changes may be needed. A report
13 presenting the recommendations must be presented to the house of
14 representatives and senate transportation committees by December 31,
15 2013.

16 (3) The joint transportation committee shall continue to convene a
17 subcommittee for legislative oversight of the I-5/Columbia river
18 crossing bridge replacement project. The Columbia river crossing

5 transportation and the office of financial management regarding the
6 department's current process for prioritizing and funding facility
7 improvement and replacement projects.

8 (6) The joint transportation committee shall coordinate a work
9 group comprised of representatives from the department of licensing,
10 the Washington state traffic safety commission, and other stakeholders
11 as deemed necessary, along with interested legislators, to develop
12 parameters for and make recommendations regarding a pilot program that
13 would allow students to meet traffic safety education requirements
14 online. Additionally, the work group shall make recommendations
15 related to requiring driver training to individuals between the ages of
16 eighteen and twenty-four who have not previously passed a driver
17 training education program or other methods of enhancing the safety of

21 **Sec. 205.** 2013 c 306 s 205 (uncodified) is amended to read as
22 follows:

23 **FOR THE TRANSPORTATION COMMISSION**

24 Motor Vehicle Account--State Appropriation	((\$2,947,000))
	<u>\$2,941,000</u>
26 Multimodal Transportation Account--State	
27 Appropriation	\$112,000
28 TOTAL APPROPRIATION	((\$3,059,000))
	<u>\$3,053,000</u>

30 The appropriations in this section are subject to the following
31 conditions and limitations:

32 (1) Consistent with RCW 43.135.055, 47.60.290, and 47.60.315,
33 during the 2013-2015 fiscal biennium, the legislature authorizes the
34 transportation commission to periodically review and, if necessary,
35 adjust the schedule of fares for the Washington state ferry system only
36 in amounts not greater than those sufficient to generate the amount of
37 revenue required by the biennial transportation budget. When adjusting

1 ferry fares, the commission must consider input from affected ferry
2 users by public hearing and by review with the affected ferry advisory
3 committees, in addition to the data gathered from the current ferry
4 user survey.

5 (2) Consistent with RCW 43.135.055 and 47.46.100, during the 2013-
6 2015 fiscal biennium, the legislature authorizes the transportation
7 commission to periodically review and, if necessary, adjust the
8 schedule of toll charges applicable to the Tacoma Narrows bridge only
9 in amounts not greater than those sufficient to support (a) any
10 required costs for operating and maintaining the toll bridge, including
11 the cost of insurance, (b) any amount required by law to meet the
12 redemption of bonds and applicable interest payments, and (c) repayment
13 of the motor vehicle fund.

14 (3)(a) \$400,000 of the motor vehicle account--state appropriation
15 is provided solely for the development of the business case for the
16 transition to a road usage charge system as the basis for funding the
17 state transportation system, from the current motor fuel tax system.
18 The funds are provided for fiscal year 2014 only.

19 (b) The legislature finds that the efforts started in the 2011-2013
20 fiscal biennium regarding the transition to a road usage charge system
21 represent an important first step in the policy and conceptual
22 development of potential alternative systems to fund transportation
23 projects, but that the governance for the development needs
24 clarification. The legislature also finds that significant amounts of
25 research and public education are occurring in similar efforts in
26 several states and that these efforts can and should be leveraged to
27 advance the evaluation in Washington. The legislature intends,
28 therefore, that the commission and its staff lead the policy
29 development of the business case for a road usage charge system, with
30 the goal of providing the business case to the governor and the
31 legislative committees of the legislature in time for inclusion in the
32 2014 supplemental omnibus transportation appropriations act. The
33 legislature intends for additional oversight in the business case
34 development, with guidance from a steering committee as provided in
35 chapter 86, Laws of 2012, augmented with participation by the joint
36 transportation committee. The legislature further intends that the
37 department of transportation continue to address administrative,
38 technical, and conceptual operational issues related to road usage

1 charge systems, and that the department serve as a resource for
2 information gleaned from other states on this topic for the
3 commission's efforts.

4 (c) For the purposes of this subsection (3), the commission shall:

5 (i) Develop preliminary road usage charge policies that are
6 necessary to develop the business case, as well as supporting research
7 and data that will guide the potential application in Washington;

8 (ii) Develop the preferred operational concept or concepts that
9 reflect the preliminary policies;

10 (iii) Evaluate the business case for the road usage charge system
11 that would result from implementing the preliminary policies and
12 preferred operational concept or concepts. The evaluation must assess
13 likely financial outcomes if the system were to be implemented; and

14 (iv) Identify and document policy and other issues that are deemed
15 important to further refine the preferred operational concept or
16 concepts and to gain public acceptance. These identified issues should
17 form the basis for continued work beyond this funding cycle.

18 (d) The commission shall convene a steering committee to guide the
19 development of the business case. The membership must be the same as
20 provided in chapter 86, Laws of 2012, except that the membership must
21 also include the joint transportation committee executive members.

22 (e) The commission shall submit a report of the business case to
23 the governor and the transportation committees of the legislature by
24 December 15, 2013. The report must also include a proposed budget and
25 work plan for fiscal year 2015. A progress report must be submitted to
26 the governor and the joint transportation committee by November 1,
27 2013, including a presentation to the joint transportation committee.

28 (4) \$174,000 of the motor vehicle account--state appropriation is
29 provided solely for the voice of Washington survey program. The
30 funding must be utilized for continued program maintenance and two

8		<u>\$68,155,000</u>

9 The appropriations in this section are subject to the following
10 conditions and limitations:

11 (1)(a) The legislature finds that the department's tolling division
12 has expanded greatly in recent years to address the demands of
13 administering several newly tolled facilities using emerging toll
14 collection technologies. The legislature intends for the department to
15 continue its good work in administering the tolled facilities of the
16 state, while at the same time implementing controls and processes to
17 ensure the efficient and judicious administration of toll payer
18 dollars.

19 (b) The legislature finds that the department has undertaken a
20 cost-of-service study in the winter and spring of 2013 for the purposes
21 of identifying in detail the costs of operating and administering
22 tolling on state route number 520, state route number 167
23 high-occupancy toll lanes, and the Tacoma Narrows bridge. The purpose
24 of the study is to provide results to establish a baseline by which
25 future activity may be compared and opportunities identified for cost
26 savings and operational efficiencies. In addition, the legislature
27 finds that the state auditor has undertaken a performance audit of the
28 department's contract for the customer service center and back office
29 processing of tolling transactions. The audit findings, which are
30 expected to include lessons learned, are due in late spring 2013.

31 (c) Using the results of the cost-of-service study and the state
32 audit as a basis, the department shall conduct a review of operations
33 using lean management principles in order to eliminate inefficiencies
34 and redundancies, incorporate lessons learned, and identify
35 opportunities to conduct operations more efficiently and effectively.
36 Within current statutory and budgetary tolling policy, the department
37 shall use the results of the review to improve operations in order to
38 conduct toll operations within the appropriations provided in

1 subsections (2) through (4) of this section. The department shall
2 submit the review, along with the status of and plans for the
3 implementation of review recommendations, to the office of financial
4 management and the house of representatives and senate transportation

10 and \$509,000 of the motor vehicle account--state appropriation are
11 provided solely for nonvendor costs of administering toll operations,
12 including the costs of: Staffing the division, consultants and other
13 personal service contracts required for technical oversight and
14 management assistance, insurance, payments related to credit card
15 processing, transponder purchases and inventory management, facility
16 operations and maintenance, and other miscellaneous nonvendor costs.

17 (3) \$10,907,000 of the Tacoma Narrows toll bridge account--state
18 appropriation, (~~(\$9,363,000)~~) \$9,730,000 of the state route number 520
19 corridor account--state appropriation, and \$625,000 of the

25 replacement.

26 (4) \$1,300,000 of the Tacoma Narrows toll bridge account--state
27 appropriation and \$6,000,000 of the state route number 520 corridor
28 account--state appropriation are provided solely for the purposes of
29 addressing unforeseen operations and maintenance costs on the Tacoma
30 Narrows bridge and the state route number 520 bridge, respectively.
31 The office of financial management shall place the amounts provided in
32 this section, which represent a portion of the required minimum fund
33 balance under the policy of the state treasurer, in unallotted status.
34 The office may release the funds only when it determines that all other
35 funds designated for operations and maintenance purposes have been
36 exhausted.

37 (5) (~~(\$4,169,000)~~) \$4,156,000 of the state route number 520 civil
38 penalties account--state appropriation and \$1,039,000 of the Tacoma

1 Narrows toll bridge account--state appropriation are provided solely
2 for expenditures related to the toll adjudication process. The
3 department shall report on the civil penalty process to the office of
4 financial management and the house of representatives and senate
5 transportation committees by the end of each calendar quarter. The
6 reports must include a summary table for each toll facility that

13 (6) The Tacoma Narrows toll bridge account--state appropriation in
14 this section reflects reductions in management costs of \$1,235,000.

15 (7) The department shall make detailed quarterly expenditure
16 reports available to the transportation commission and to the public on
17 the department's web site using current department resources. The
18 reports must include a summary of toll revenue by facility on all
19 operating toll facilities and high occupancy toll lane systems, and an
20 itemized depiction of the use of that revenue.

21 (8) The department shall make detailed quarterly reports to the
22 governor and the transportation committees of the legislature on the
23 use of consultants in the tolling program. The reports must include
24 the name of the contractor, the scope of work, the type of contract,
25 timelines, deliverables, any new task orders, and any extensions to
26 existing consulting contracts.

27 (9)(a) \$250,000 of the Puget Sound ferry operations account--state
28 appropriation is provided solely for the development of a plan to
29 integrate and transition customer service, reservation, and payment
30 systems currently provided by the marine division to ferry users into
31 the statewide tolling customer service center.

32 (b)(i) The department shall develop a plan that addresses:

33 (A) A phased implementation approach, beginning with "Good To Go"
34 as a payment option for ferry users;

35 (B) The feasibility, schedule, and cost of creating a single
36 account-based system for toll road and ferry users;

37 (C) Transitioning customer service currently provided by the marine
38 division to the statewide tolling customer service center; and

1 (D) Transitioning existing and planned ferry reservation system
2 support from the marine division to the statewide tolling customer
3 service center.

4 (ii) The plan must be provided to the office of financial
5 management and the transportation committees of the legislature by
6 January 14, 2014.

7 (10) \$2,019,000 of the Interstate 405 express toll lanes operations
8 account--state appropriation is provided solely for operating and
9 maintenance costs of the Interstate 405 express toll lanes program,
10 including staff costs related to operating an additional toll facility,
11 consulting support for operations, purchase of transponders, costs
12 related to adjudication, credit card fees, printing and postage, and
13 customer service center support. Of the amount provided in this
14 subsection, \$519,000 of the Interstate 405 express toll lanes
15 operations account--state appropriation must be placed in unallotted
16 status by the office of financial management until a plan to begin
17 tolling the Interstate 405 express toll lanes during the summer of 2015
18 is finalized and approved by the office of financial management, in
19 consultation with the chairs and ranking member of the transportation
20 committees of the legislature.

21 (11) \$1,060,000 of the Tacoma narrows toll bridge account--state
22 appropriation, \$2,003,000 of the state route number 520 corridor
23 account--state appropriation, and \$99,000 of high occupancy toll lanes
24 operations account--state appropriation are provided solely in
25 anticipation of, and to prepare for, the procurement of a new tolling
26 customer service center. Of the amounts provided in this subsection,
27 \$480,000 of the Tacoma narrows toll bridge account--state
28 appropriation, \$906,000 of the state route number 520 corridor
29 account--state appropriation, and \$45,000 of the high occupancy toll
30 lanes operations account--state appropriation must be placed in
31 unallotted status by the office of financial management until a
32 procurement plan is finalized and approved by the office of financial
33 management, in consultation with the chairs and ranking member of the
34 transportation committees of the legislature. The legislature finds
35 that the development and enforcement of the current tolling customer
36 service center contract has cost the state millions in project delays
37 and uncollected damages from the vendor; therefore, beginning July 1,
38 2014, the department shall report quarterly to the governor,

1 legislature, and state auditor on: (a) The department's effort to
2 mitigate risk to the state, (b) the development of a request for
3 proposals, and (c) the overall progress towards procuring a new tolling
4 customer service center.

29	<u>\$49,416,000</u>

30 The appropriations in this section are subject to the following
31 conditions and limitations:

32 (1) \$4,423,000 of the motor vehicle account--state appropriation is
33 provided solely for the department's compliance with its national
34 pollution discharge elimination system permit.

1 (2) The real estate services division of the department must
2 recover the cost of its efforts from sale proceeds and fund additional
3 future sales from those proceeds.

4 (3) The legislature recognizes that the Dryden pit site (WSDOT
5 Inventory Control (IC) No. 2-04-00103) is unused state-owned real
6 property under the jurisdiction of the department, and that the public
7 would benefit significantly from the complete enjoyment of the natural
8 scenic beauty and recreational opportunities available at the site.
9 Therefore, pursuant to RCW 47.12.080, the legislature declares that
10 transferring the property to the department of fish and wildlife for
11 recreational use and fish and wildlife restoration efforts is
12 consistent with the public interest in order to preserve the area for
13 the use of the public and the betterment of the natural environment.
14 The department shall work with the department of fish and wildlife and
15 transfer and convey the Dryden pit site to the department of fish and
16 wildlife as-is for an adjusted fair market value reflecting site
17 conditions, the proceeds of which must be deposited in the motor
18 vehicle fund. The department is not responsible for any costs
19 associated with the cleanup or transfer of this property. This
20 subsection expires June 30, 2014.

21 (4) The legislature recognizes that the trail known as the Apple
22 Capital Loop, and its extensions, serve to separate motor vehicle
23 traffic from pedestrians and bicyclists, increasing motor vehicle
24 safety on existing state route number 28. Consistent with chapter
25 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that
26 transferring portions of WSDOT Inventory Control (IC) Nos. 2-09-04537
27 and 2-09-04569 to Douglas county and the city of East Wenatchee is
28 consistent with the public interest. The legislature directs the
29 department to transfer the property to Douglas county and the city of
30 East Wenatchee. The department must be paid fair market value for any
31 portions of the transferred real property that is later abandoned,
32 vacated, or ceases to be publicly maintained for trail purposes.
33 Douglas county and the city of East Wenatchee must agree to accept
34 responsibility for trail segments within their respective jurisdictions
35 and sign an agreement with the state that the transfer of these parcels
36 to their respective jurisdictions extinguishes any state obligations to
37 improve, maintain, or be in any way responsible for these assets. This
38 subsection expires June 30, 2014.

1 (5) The legislature recognizes that the SR 20/Cook Road realignment
2 and extension project in the city of Sedro-Woolley will enhance the
3 state and local highway systems by providing a more direct route from
4 state route number 20 and state route number 9 to Interstate 5, and
5 will reduce traffic on state route number 20 and state route number 9,
6 improving the capacity of each route. Furthermore, the legislature
7 declares that certain portions of the department's property held for
8 highway purposes located primarily to the north and west of state route
9 number 20, between state route number 20 to the south and F and S Grade
10 Road to the north, in the incorporated limits of Sedro-Woolley in
11 Skagit county, can help facilitate completion of the project.
12 Therefore, consistent with RCW 47.12.063, 47.12.080, and 47.12.120, it
13 is the intent of the legislature that the department sell, transfer, or
14 lease, as appropriate, to the city of Sedro-Woolley only those portions
15 of the property necessary to construct the project, including necessary
16 staging areas. However, any staging areas should revert to the
17 department within three years of completion of the project.

18 **Sec. 214.** 2013 c 306 s 214 (uncodified) is amended to read as
19 follows:

20 **FOR THE DEPARTMENT OF TRANSPORTATION--ECONOMIC PARTNERSHIPS--PROGRAM**
21 **K**

22 Motor Vehicle Account--State Appropriation	((\$570,000))
23	<u>\$568,000</u>

24 The appropriation in this section is subject to the following
25 conditions and limitations:

26 (1) The legislature finds that the efforts started in the 2011-2013
27 fiscal biennium regarding the transition to a road usage charge system
28 represent an important first step in the policy and conceptual
29 development of potential alternative systems to fund transportation
30 projects, but that the governance for the development needs
31 clarification. The legislature also finds that significant amounts of
32 research and public education are occurring in similar efforts in
33 several states and that these efforts can and should be leveraged to
34 advance the evaluation in Washington. The legislature intends,
35 therefore, that the transportation commission and its staff lead the
36 policy development of the business case for a road usage charge system,
37 with the goal of providing the business case to the governor and the

1 legislative committees of the legislature in time for inclusion in the
2 2014 supplemental omnibus transportation appropriations act. The
3 legislature intends for additional oversight in the business case
4 development, with guidance from a steering committee as provided in
5 chapter 86, Laws of 2012 for the transportation commission, augmented
6 with participation by the joint transportation committee. The
7 legislature further intends that, through the economic partnerships
8 program, the department continue to address administrative, technical,
9 and conceptual operational issues related to road usage charge systems,
10 and that the department serve as a resource for information gleaned
11 from other states on this topic for the transportation commission's
12 efforts.

13 (2) The economic partnerships program must continue to explore
14 retail partnerships at state-owned park-and-ride facilities, as
15 authorized in RCW 47.04.295.

28	Motor Vehicle Account--Private/Local Appropriation	\$250,000
29	TOTAL APPROPRIATION	((\$52,804,000))
30		<u>\$52,355,000</u>

31 The appropriations in this section are subject to the following
32 conditions and limitations:

33 (1) \$6,000,000 of the motor vehicle account--state appropriation is
34 provided solely for low-cost enhancements. The department shall give
35 priority to low-cost enhancement projects that improve safety or
36 provide congestion relief. The department shall prioritize low-cost
37 enhancement projects on a statewide rather than regional basis. By

1 September 1st of each even-numbered year, the department shall provide
2 a report to the legislature listing all low-cost enhancement projects
3 prioritized on a statewide rather than regional basis completed in the
4 prior year.

5 (2) \$9,000,000 of the motor vehicle account--state appropriation is
6 provided solely for the department's incident response program.

7 (3) During the 2013-2015 fiscal biennium, the department shall
8 continue a pilot program that expands private transportation providers'
9 access to high occupancy vehicle lanes. Under the pilot program, when
10 the department reserves a portion of a highway based on the number of
11 passengers in a vehicle, the following vehicles must be authorized to
12 use the reserved portion of the highway if the vehicle has the capacity
13 to carry eight or more passengers, regardless of the number of
14 passengers in the vehicle: (a) Auto transportation company vehicles
15 regulated under chapter 81.68 RCW; (b) passenger charter carrier
16 vehicles regulated under chapter 81.70 RCW, except marked or unmarked
17 stretch limousines and stretch sport utility vehicles as defined under
18 department of licensing rules; (c) private nonprofit transportation
19 provider vehicles regulated under chapter 81.66 RCW; and (d) private
20 employer transportation service vehicles. For purposes of this
21 subsection, "private employer transportation service" means regularly
22 scheduled, fixed-route transportation service that is offered by an
23 employer for the benefit of its employees. Nothing in this subsection
24 is intended to authorize the conversion of public infrastructure to
25 private, for-profit purposes or to otherwise create an entitlement or
26 other claim by private users to public infrastructure.

27 (4) The department shall work with the cities of Lynnwood and
28 Edmonds to provide traffic light synchronization on state route number
29 524.

30 ((+6+)) (5) The department, in consultation with the Washington
31 state patrol, must continue a pilot program for the state patrol to
32 issue infractions based on information from automated traffic safety
33 cameras in roadway construction zones on state highways. For the
34 purpose of this pilot program, during the 2013-2015 fiscal biennium, a
35 roadway construction zone includes areas where public employees or
36 private contractors may be present or where a driving condition exists
37 that would make it unsafe to drive at higher speeds, such as, when the

1 department is redirecting or realigning lanes on any public roadway
2 pursuant to ongoing construction. The department shall use the
3 following guidelines to administer the program:

4 (a) Automated traffic safety cameras may only take pictures of the
5 vehicle and vehicle license plate and only while an infraction is
6 occurring. The picture must not reveal the face of the driver or of
7 passengers in the vehicle;

8 (b) The department shall plainly mark the locations where the
9 automated traffic safety cameras are used by placing signs on locations
10 that clearly indicate to a driver that he or she is entering a roadway
11 construction zone where traffic laws are enforced by an automated
12 traffic safety camera;

13 (c) Notices of infractions must be mailed to the registered owner
14 of a vehicle within fourteen days of the infraction occurring;

15 (d) The owner of the vehicle is not responsible for the violation
16 if the owner of the vehicle, within fourteen days of receiving
17 notification of the violation, mails to the patrol, a declaration under
18 penalty of perjury, stating that the vehicle involved was, at the time,
19 stolen or in the care, custody, or control of some person other than
20 the registered owner, or any other extenuating circumstances;

21 (e) For purposes of the 2013-2015 fiscal biennium pilot program,
22 infractions detected through the use of automated traffic safety
23 cameras are not part of the registered owner's driving record under RCW
24 46.52.101 and 46.52.120. Additionally, infractions generated by the
25 use of automated traffic safety cameras must be processed in the same
26 manner as parking infractions for the purposes of RCW 3.50.100,
27 35.20.220, 46.16A.120, and 46.20.270(3). However, the amount of the
28 fine issued under this subsection (~~((+6+))~~) (5) for an infraction
29 generated through the use of an automated traffic safety camera is one
30 hundred thirty-seven dollars. The court shall remit thirty-two dollars
31 of the fine to the state treasurer for deposit into the state patrol
32 highway account; and

33 (f) If a notice of infraction is sent to the registered owner and
34 the registered owner is a rental car business, the infraction must be
35 dismissed against the business if it mails to the patrol, within
36 fourteen days of receiving the notice, a declaration under penalty of
37 perjury of the name and known mailing address of the individual driving
38 or renting the vehicle when the infraction occurred. If the business

1 is unable to determine who was driving or renting the vehicle at the
2 time the infraction occurred, the business must sign a declaration
3 under penalty of perjury to this effect. The declaration must be
4 mailed to the patrol within fourteen days of receiving the notice of
5 traffic infraction. Timely mailing of this declaration to the issuing
6 agency relieves a rental car business of any liability under this
7 section for the notice of infraction. A declaration form suitable for
8 this purpose must be included with each automated traffic safety camera
9 infraction notice issued, along with instructions for its completion
10 and use.

11 ~~((7))~~ (6) \$102,000 of the motor vehicle account--state
12 appropriation is provided solely to replace or rehabilitate critical
13 equipment needed to perform traffic control. These funds may not be
14 used to purchase passenger cars as defined in RCW 46.04.382.

20 appropriation is provided solely for grants to nonprofit providers of
21 special needs transportation. Grants for nonprofit providers must be
22 based on need, including the availability of other providers of service
23 in the area, efforts to coordinate trips among providers and riders,
24 and the cost effectiveness of trips provided.

25 (b) \$19,500,000 of the multimodal transportation account--state
26 appropriation is provided solely for grants to transit agencies to
27 transport persons with special transportation needs. To receive a
28 grant, the transit agency must, to the greatest extent practicable,
29 have a maintenance of effort for special needs transportation that is
30 no less than the previous year's maintenance of effort for special
31 needs transportation. Grants for transit agencies must be prorated
32 based on the amount expended for demand response service and route
33 deviated service in calendar year 2011 as reported in the "Summary of
34 Public Transportation - 2011" published by the department of
35 transportation. No transit agency may receive more than thirty percent
36 of these distributions.

9 funding under this grant program. Additional employees may not be
10 hired from the funds provided in this section for the vanpool grant
11 program, and supplanting of transit funds currently funding vanpools is
12 not allowed. The department shall encourage grant applicants and
13 recipients to leverage funds other than state funds.

14 (b) At least \$1,600,000 of the amount provided in this subsection
15 must be used for vanpool grants in congested corridors.

34 the project within one year of the grant award, must be reviewed by the
35 department to determine whether the grant should be terminated. The
36 department shall promptly close out grants when projects have been
37 completed, and any remaining funds must be used only to fund projects
38 identified in the LEAP transportation document referenced in this

1 subsection. The department shall provide annual status reports on

36 1, 2014, to the office of financial management and the transportation

1 committees of the legislature with recommendations on utilizing federal
2 funds for weigh station projects.

9 \$8,285,000

10 TOTAL APPROPRIATION (~~(\$21,531,000)~~)

12 The appropriations in this section are subject to the following
13 conditions and limitations:

14 (1) The legislature recognizes that the Marginal Way site (King
15 county parcel numbers 3024049182 & 5367202525) is surplus state-owned
16 real property under the jurisdiction of the department and that the
17 public would benefit significantly if this site is used to provide
18 important social services. Therefore, the legislature declares that
19 committing the Marginal Way site to this use is consistent with the
20 public interest.

21 Pursuant to RCW 47.12.063, the department shall work with the owner
22 of King county parcel number 7643400010, which abuts both parcels of
23 the Marginal Way site, and shall convey the Marginal Way site to that
24 abutting property owner for the appraised fair market value of the
25 parcels, the proceeds of which must be deposited in the motor vehicle
26 fund. The conveyance is conditional upon the purchaser's agreement to
27 commit the use of the Marginal Way site to operations with the goal of
28 ending hunger in western Washington. The department may not make this
29 conveyance before September 1, 2013, and may not make this conveyance
30 after January 15, 2014.

31 The Washington department of transportation is not responsible for
32 any costs associated with the cleanup or transfer of the Marginal Way
33 site.

34 (2) (~~(\$13,425,000)~~) \$14,390,000 of the transportation partnership
35 account--state appropriation is provided solely for the construction of
36 a new traffic management and emergency operations center on property
37 owned by the department on Dayton Avenue in Shoreline (project
38 100010T). Consistent with the office of financial management's 2012

1 study, it is the intent of the legislature to appropriate no more than
2 \$15,000,000 for the total construction costs. The department shall
3 report to the transportation committees of the legislature and the
4 office of financial management by June 30, 2014, on the progress of the
5 construction of the traffic management and emergency operations center,
6 including a schedule for terminating the current lease of the Goldsmith
7 building in Seattle.

34 The appropriations in this section are subject to the following
35 conditions and limitations:

36 (1) Except as provided otherwise in this section, the entire
37 transportation 2003 account (nickel account) appropriation and the

1 entire transportation partnership account appropriation are provided
2 solely for the projects and activities as listed by fund, project, and
3 amount in LEAP Transportation Document ((2013-1)) 2014-1 as developed
4 ((~~April 23, 2013~~)) February 24, 2014, Program - Highway Improvement
5 Program (I). However, limited transfers of specific line-item project
6 appropriations may occur between projects for those amounts listed
7 subject to the conditions and limitations in section ((603)) 601 of
8 this act.

9 (2) Except as provided otherwise in this section, the entire motor
10 vehicle account--state appropriation and motor vehicle account--federal
11 appropriation are provided solely for the projects and activities
12 listed in LEAP Transportation Document ((2013-2)) 2014-2 ALL PROJECTS
13 as developed ((~~April 23, 2013~~)) February 24, 2014, Program - Highway
14 Improvement Program (I). ((~~It is the intent of the legislature to~~
15 ~~direct~~)) The department ((to give first priority of)) shall apply any
16 federal funds gained through efficiencies or the redistribution process
17 in an amount up to \$27,200,000 for cost overruns related to the pontoon
18 design errors on the SR 520 Bridge Replacement and HOV project
19 (8BI1003) as described in subsection (12)(f) of this section. Any
20 federal funds gained through efficiencies or the redistribution process
21 that are in excess of \$27,200,000 must then be applied to the remainder
22 of the "Contingency (Unfunded) Highway Preservation Projects" as
23 identified in LEAP Transportation Document 2013-2 ALL PROJECTS as
24 developed April 23, 2013, Program - Highway Preservation Program (P).
25 However, no additional federal funds may be allocated to the I-
26 5/Columbia River Crossing project (400506A).

27 (3) Within the motor vehicle account--state appropriation and
28 motor vehicle account--federal appropriation, the department may
29 transfer funds between programs I and P, except for funds that are
30 otherwise restricted in this act.

31 (4) The transportation 2003 account (nickel account)--state
32 appropriation includes up to ((~~\$217,604,000~~)) \$246,710,000 in proceeds
33 from the sale of bonds authorized by RCW 47.10.861.

34 (5) The transportation partnership account--state appropriation
35 includes up to ((~~\$1,156,217,000~~)) \$826,616,000 in proceeds from the
36 sale of bonds authorized in RCW 47.10.873.

37 (6) The motor vehicle account--state appropriation includes up to

1 \$30,000,000 in proceeds from the sale of bonds authorized in RCW
2 47.10.843.

3 ~~((8)(a) \$5,000,000))~~ (7)(a) \$6,174,000 of the motor vehicle
4 account--federal appropriation and ~~((200,000))~~ \$269,000 of the motor
5 vehicle account--state appropriation are provided solely for the I-90
6 Comprehensive Tolling Study and Environmental Review project (100067T).
7 The department shall prepare a detailed environmental impact statement
8 that complies with the national environmental policy act regarding
9 tolling Interstate 90 between Interstate 5 and Interstate 405 for the
10 purposes of both managing traffic and providing funding for the
11 construction of the unfunded state route number 520 from Interstate 5
12 to Medina project. As part of the preparation of the statement, the
13 department must review any impacts to the network of highways and roads
14 surrounding Lake Washington. In developing this statement, the
15 department must provide significant outreach to potential affected
16 communities. The department may consider traffic management options
17 that extend as far east as Issaquah.

18 (b)(i) As part of the project in this subsection ~~((8))~~ (7), the
19 department shall perform a study of all funding alternatives to tolling
20 Interstate 90 to provide funding for construction of the unfunded state
21 route number 520 and explore and evaluate options to mitigate the
22 effect of tolling on affected residents and all other users of the
23 network of highways and roads surrounding Lake Washington including,
24 but not limited to:

25 (A) Allowing all Washington residents to traverse a portion of the
26 tolled section of Interstate 90 without paying a toll. Residents may
27 choose either (I) the portion of Interstate 90 between the easternmost
28 landing west of Mercer Island and the westernmost landing on Mercer
29 Island, or (II) the portion of Interstate 90 between the westernmost
30 landing east of Mercer Island and the easternmost landing on Mercer
31 Island;

32 (B) Assessing a toll only when a driver traverses, in either
33 direction, the entire portion of Interstate 90 between the easternmost
34 landing west of Mercer Island and the westernmost landing east of
35 Mercer Island; and

36 (C) Allowing affected residents to choose one portion of the tolled
37 section of Interstate 90 upon which they may travel without paying a
38 toll. Residents may choose either (I) the portion of Interstate 90

1 between the easternmost landing west of Mercer Island and the
2 westernmost landing on Mercer Island, or (II) the portion of Interstate
3 90 between the westernmost landing east of Mercer Island and the
4 easternmost landing on Mercer Island.

5 (ii) The department may also consider any alternative mitigation
6 options that conform to the purpose of this subsection (~~((+8))~~) (7).

7 (iii) For the purposes of this subsection (~~((+8))~~) (7), "affected
8 resident" means anyone who must use a portion of Interstate 90 west of
9 Interstate 405 upon which tolling is considered in order to access
10 necessary medical services, such as a hospital.

11 (~~((+9)---\$541,901,000))~~) (8) \$490,796,000 of the transportation
12 partnership account--state appropriation, (~~((+\$144,954,000))~~) \$156,979,000

14 \$132,191,000 of the motor vehicle account--private/local appropriation,
15 and (~~((+\$78,004,000))~~) \$123,305,000 of the transportation 2003 account
16 (nickel account)--state appropriation are provided solely for the SR
17 99/Alaskan Way Viaduct - Replacement project (809936Z).

18 (~~((+10))~~) (9) The department shall reconvene an expert review panel
19 of no more than three members as described under RCW 47.01.400 for the
20 purpose of updating the work that was previously completed by the panel
21 on the Alaskan Way viaduct replacement project and to ensure that an
22 appropriate and viable financial plan is created and regularly
23 reviewed. The expert review panel must be selected cooperatively by
24 the chairs of the senate and house of representatives transportation
25 committees, the secretary of transportation, and the governor. The
26 expert review panel must report findings and recommendations to the
27 transportation committees of the legislature, the governor's Alaskan
28 Way viaduct project oversight committee, and the transportation
29 commission annually until the project is operationally complete. This
30 subsection takes effect if chapter ... (Substitute House Bill No.
31 1957), Laws of 2013 is not enacted by June 30, 2013.

37 account--state appropriation, and (~~((+\$41,395,000))~~) \$51,712,000 of the
38 motor vehicle account--federal appropriation are provided solely for

1 the US 395/North Spokane Corridor projects (600010A & 600003A). Any
2 future savings on the projects must stay on the US 395/Interstate 90
3 corridor and be made available to the current phase of the North
4 Spokane corridor projects or any future phase of the projects.

5 ~~((12) \$114,369,000))~~ (11) \$129,952,000 of the transportation
6 partnership account--state appropriation and ~~((53,755,000))~~
7 \$58,583,000 of the transportation 2003 account (nickel account)--state
8 appropriation are provided solely for the I-405/Kirkland Vicinity Stage
9 2 - Widening project (8BI1002). This project must be completed as soon
10 as practicable as a design-build project. Any future savings on this
11 project or other Interstate 405 corridor projects must stay on the
12 Interstate 405 corridor and be made available to either the I-405/SR
13 167 Interchange - Direct Connector project (140504C) or the I-405
14 Renton to Bellevue project.

15 ~~((13))~~ (12)(a) The SR 520 Bridge Replacement and HOV project
16 ~~((0BI1003))~~ (8BI1003) is supported over time from multiple sources,
17 including a \$300,000,000 TIFIA loan, ~~((819,524,625))~~ \$923,000,000 in
18 Garvee bonds, toll revenues, state bonds, interest earnings, and other
19 miscellaneous sources.

20 (b) The state route number 520 corridor account--state
21 appropriation includes up to ~~((668,142,000))~~ \$814,784,000 in proceeds
22 from the sale of bonds authorized in RCW 47.10.879 and 47.10.886.

23 (c) The state route number 520 corridor account--federal
24 appropriation includes up to \$300,000,000 in proceeds from the sale of
25 bonds authorized in RCW 47.10.879 and 47.10.886.

26 (d) ~~((153,124,000))~~ \$165,175,000 of the transportation partnership

29 \$880,111,000 of the state route number 520 corridor account--state
30 appropriation are provided solely for the SR 520 Bridge Replacement and
31 HOV project ~~((0BI1003))~~ (8BI1003). Of the amounts appropriated in
32 this subsection ~~((13))~~ (12)(d), ~~((105,085,000))~~ \$84,001,000 of the
33 state route number 520 corridor account--federal appropriation and
34 ~~((227,415,000))~~ \$354,411,000 of the state route number 520 corridor
35 account--state appropriation must be put into unallotted status and are
36 subject to review by the office of financial management. The director
37 of the office of financial management shall consult with the joint

1 transportation committee prior to making a decision to allot these
2 funds.

3 (e) When developing the financial plan for the project, the
4 department shall assume that all maintenance and operation costs for
5 the new facility are to be covered by tolls collected on the toll
6 facility and not by the motor vehicle account.

7 (f) The legislature finds that the most appropriate way to pay for
8 the cost overruns related to change orders, additional sales tax, and
9 future risks associated with pontoon design errors, is for the state to
10 issue triple pledge bonds in the 2015-2017 fiscal biennium resulting in
11 \$110,961,000 in proceeds, and use efficiencies and favorable bids in
12 the highway construction program to generate an additional \$61,066,000
13 towards paying for the overruns. Of this additional \$61,066,000,
14 \$33,866,000 should come from the transportation partnership account--
15 state appropriation and \$27,200,000 should come from federal funds. It
16 is the intent of the legislature to use the savings in federal funds
17 from the 2013-2015 fiscal biennium in the 2015-2017 fiscal biennium as
18 listed in LEAP Transportation Document 2014-2 as developed February 24,
19 2014. The legislature assumes that issuing bonds to complete this
20 project (8BI1003) does not require a comprehensive financial plan for
21 a project that completes the state route number 520 corridor to
22 Interstate 5.

23 ~~((14) \$1,100,000))~~ (13) \$1,062,000 of the motor vehicle account--
24 federal appropriation is provided solely for the 31st Ave SW Overpass
25 Widening and Improvement project (L1100048).

26 ~~((15) \$22,602,000))~~ (14) \$25,244,000 of the motor vehicle
27 account--state appropriation is provided solely to advance the design,
28 preliminary engineering, and rights-of-way acquisition for the priority
29 projects identified in LEAP Transportation Document ~~((2013-3))~~ 2014-3
30 as developed ~~((April 23, 2013))~~ February 24, 2014. Funds must be used
31 to advance the emergent, initial development of these projects for the
32 purpose of expediting delivery of the associated major investments when
33 funding for such investments becomes available. Funding may be
34 reallocated between projects to maximize the accomplishment of design
35 and preliminary engineering work and rights-of-way acquisition,
36 provided that all projects are addressed. It is the intent of the
37 legislature that, while seeking to maximize the outcomes in this
38 section, the department shall provide for continuity of both the state

1 and consulting engineer workforce, while strategically utilizing
2 private sector involvement to ensure consistency with the department's
3 business plan for staffing in the highway construction program in the
4 current fiscal biennium.

5 ~~((+16))~~ (15) If a planned roundabout in the vicinity of state
6 route number 526 and 84th Street SW would divert commercial traffic
7 onto neighborhood streets, the department may not proceed with
8 improvements at state route number 526 and 84th Street SW until the
9 traffic impacts in the vicinity of state route number 526 and 40th
10 Avenue West are addressed.

11 ~~((+17))~~ (16) The legislature finds that there are sixteen
12 companies involved in wood preserving in the state that employ four
13 hundred workers and have an annual payroll of fifteen million dollars.
14 Prior to the department's switch to steel guardrails, ninety percent of
15 the twenty-five hundred mile guardrail system was constructed of
16 preserved wood and one hundred ten thousand wood guardrail posts were
17 produced annually for state use. Moreover, the policy of using steel
18 posts requires the state to use imported steel. Given these findings,
19 where practicable, and until June 30, 2015, the department shall
20 include the design option to use wood guardrail posts, in addition to
21 steel posts, in new guardrail installations. The selection of posts
22 must be consistent with the agency design manual policy that existed
23 before December 2009.

24 ~~((+18))~~ (17) The legislature finds that "right-sizing" is a lean,
25 metric-based approach to determining project investments. This concept
26 entails compromise between project cost and design, incorporating local
27 community needs, desired outcomes, and available funding. Furthermore,
28 the legislature finds that the concepts and principles the department
29 has utilized in the safety analyst program have been effective tools to
30 prioritize projects and reduce project costs. Therefore, the
31 department shall establish a pilot project on the SR 3/Belfair Bypass
32 - New Alignment (300344C) to begin implementing the concept of
33 "right-sizing" in the highway construction program.

34 ~~((+19))~~ (18) For urban corridors that are all or partially within
35 a metropolitan planning organization boundary, for which the department
36 has not initiated environmental review, and that require an
37 environmental impact statement, at least one alternative must be
38 consistent with the goals set out in RCW 47.01.440.

1 ((+20)) (19) The department shall itemize all future requests for
2 the construction of buildings on a project list and submit them through
3 the transportation executive information system as part of the
4 department's 2014 budget submittal. It is the intent of the
5 legislature that new facility construction must be transparent and not
6 appropriated within larger highway construction projects.

7 ((+21)---\$28,963,000) (20) \$19,513,000 of the motor vehicle
8 account--state appropriation and \$9,450,000 of the motor vehicle
9 account--federal appropriation is provided solely for improvement
10 program support activities (095901X). \$18,000,000 of ((this amount))
11 these amounts must be held in unallotted status until the office of
12 financial management certifies that the department's 2014 supplemental
13 budget request conforms to the terms of subsection ((+20)) (19) of
14 this section.

15 ((+23)) (21) Any new advisory group that the department convenes
16 during the 2013-2015 fiscal biennium must be representative of the
17 interests of the entire state of Washington.

17 **IMPLEMENTING PROVISIONS**

18 **Sec. 601.** 2013 c 306 s 603 (uncodified) is amended to read as
19 follows:

20 **FUND TRANSFERS**

21 (1) The transportation 2003 projects or improvements and the 2005
22 transportation partnership projects or improvements are listed in the
23 LEAP list titled (~~(2013-1)~~) 2014-1, as developed (~~(April 23, 2013)~~)
24 February 24, 2014, which consists of a list of specific projects by
25 fund source and amount over a ten-year period. Current fiscal biennium
26 funding for each project is a line-item appropriation, while the outer
27 year funding allocations represent a ten-year plan. The department is
28 expected to use the flexibility provided in this section to assist in
29 the delivery and completion of all transportation partnership account
30 and transportation 2003 account (nickel account) projects on the LEAP
31 transportation documents referenced in this act. However, this section
32 does not apply to the I-5/Columbia River Crossing project (400506A).
33 For the 2011-2013 and 2013-2015 project appropriations, unless
34 otherwise provided in this act, the director of financial management
35 may authorize a transfer of appropriation authority between projects

1 funded with transportation 2003 account (nickel account)
2 appropriations, or transportation partnership account appropriations,
3 in order to manage project spending and efficiently deliver all
4 projects in the respective program under the following conditions and
5 limitations:

6 (a) Transfers may only be made within each specific fund source
7 referenced on the respective project list;

8 (b) Transfers from a project may not be made as a result of the
9 reduction of the scope of a project or be made to support increases in
10 the scope of a project;

11 (c) Each transfer between projects may only occur if the director
12 of financial management finds that any resulting change will not hinder
13 the completion of the projects as approved by the legislature. Until
14 the legislature reconvenes to consider the 2014 supplemental omnibus
15 transportation appropriations act, any unexpended 2011-2013
16 appropriation balance as approved by the office of financial
17 management, in consultation with the legislative staff of the house of
18 representatives and senate transportation committees, may be considered
19 when transferring funds between projects;

20 (d) Transfers from a project may be made if the funds appropriated
21 to the project are in excess of the amount needed to complete the
22 project;

23 (e) Transfers may not occur for projects not identified on the
24 applicable project list;

25 (f) Transfers may not be made while the legislature is in session;
26 and

27 (g) Transfers between projects may be made, without the approval of
28 the director of the office of financial management, by the department
29 of transportation until the transfer amount by project exceeds two
30 hundred fifty thousand dollars, or ten percent of the total project,
31 whichever is less. These transfers must be reported quarterly to the
32 director of financial management and the chairs of the house of
33 representatives and senate transportation committees.

34 (2) At the time the department submits a request to transfer funds
35 under this section, a copy of the request must be submitted to the
36 transportation committees of the legislature.

37 (3) The office of financial management shall work with legislative

1 staff of the house of representatives and senate transportation
2 committees to review the requested transfers in a timely manner.

3 (4) The office of financial management shall document approved
4 transfers and schedule changes in the transportation executive
5 information system, compare changes to the legislative baseline funding
6 and schedules identified by project identification number identified in
7 the LEAP transportation documents referenced in this act, and transmit
8 revised project lists to chairs of the transportation committees of the
9 legislature on a quarterly basis.

10 **MISCELLANEOUS**

11 NEW SECTION. **Sec. 701.** If any provision of this act or its
12 application to any person or circumstance is held invalid, the
13 remainder of the act or the application of the provision to other
14 persons or circumstances is not affected.

15 NEW SECTION. **Sec. 702.** This act is necessary for the immediate
