31 put into unallotted status and is subject to review by the office of
32 financial management. The director of the office of financial
33 management shall consult with the joint transportation committee
34 prior to making a decision to allot these funds.

35 (e) When developing the financial plan for the project, the
36 department shall assume that all maintenance and operation costs for
37 the new facility are to be covered by tolls collected on the toll
38 facility and not by the motor vehicle account.

1 (13) \$15,000,000 of the state route number 520 civil penalties
2 account—state appropriation is provided solely for the department to

20 posts requires the state to use imported steel. Given these findings,
21 where practicable, and until June 30, 2017, the department shall
22 include the design option to use wood guardrail posts, in addition to
23 steel posts, in new guardrail installations. The selection of posts

32 construction of buildings on a project list and submit them through
33 the transportation executive information system as part of the

35 legislature that new facility construction must be transparent and
36 not appropriated within larger highway construction projects.

37 (18) \$59,438,000 of the motor vehicle account—federal
38 appropriation, \$572,000 of the motor vehicle account—state

4 the 2015-2017 fiscal biennium must consider the interests of the
5 entire state of Washington.

6 (20) Practical design offers targeted benefits to a state
7 transportation system within available fiscal resources. This
8 delivers value not just for individual projects, but for the entire
9 system. Applying practical design standards will also preserve and
10 enhance safety and mobility. The department shall implement a
11 practical design strategy for transportation design standards. By
12 June 30, 2016, the department shall report to the governor and the
13 house of representatives and senate transportation committees on
14 where practical design has been applied or is intended to be applied
15 in the department and the cost savings resulting from the use of
16 practical design. This subsection takes effect if chapter . . .
17 (Substitute House Bill No. 2012), Laws of 2015 is not enacted by June
18 30, 2015.

23 201(1) of this act if the local legislative authority first enacts an
24 ordinance authorizing the use of cameras to detect speed violations.

25 (d) Automated traffic safety cameras may only take pictures of
26 the vehicle and vehicle license plate and only while an infraction is
27 occurring. The picture must not reveal the face of the driver or of
28 passengers in the vehicle. The primary purpose of camera placement is
29 to take pictures of the vehicle and vehicle license plate when an
30 infraction is occurring. Cities and counties shall consider
31 installing cameras in a manner that minimizes the impact of camera
32 flash on drivers.

33 (e) A notice of infraction must be mailed to the registered owner
34 of the vehicle within fourteen days of the violation, or to the
35 renter of a vehicle within fourteen days of establishing the renter's
36 name and address under subsection (3)(a) of this section. The law
37 enforcement officer issuing the notice of infraction shall include
38 with it a certificate or facsimile thereof, based upon inspection of
39 photographs, microphotographs, or electronic images produced by an
40 automated traffic safety camera, stating the facts supporting the

1 notice of infraction. This certificate or facsimile is prima facie
2 evidence of the facts contained in it and is admissible in a
3 proceeding charging a violation under this chapter. The photographs,
4 microphotographs, or electronic images evidencing the violation must
5 be available for inspection and admission into evidence in a
6 proceeding to adjudicate the liability for the infraction. A person
7 receiving a notice of infraction based on evidence detected by an
8 automated traffic safety camera may respond to the notice by mail.

9 (f) The registered owner of a vehicle is responsible for an
10 infraction under RCW 46.63.030(1)(d) unless the registered owner
11 overcomes the presumption in RCW 46.63.075, or, in the case of a
12 rental car business, satisfies the conditions under subsection (3) of
13 this section. If appropriate under the circumstances, a renter
14 identified under subsection (3)(a) of this section is responsible for
15 an infraction.

16 (g) Notwithstanding any other provision of law, all photographs,
17 microphotographs, or electronic images prepared under this section
18 are for the exclusive use of law enforcement in the discharge of
19 duties under this section and are not open to the public and may not
20 be used in a court in a pending action or proceeding unless the
21 action or proceeding relates to a violation under this section. No
22 photograph, microphotograph, or electronic image may be used for any
23 purpose other than enforcement of violations under this section nor
24 retained longer than necessary to enforce this section.

25 (h) All locations where an automated traffic safety camera is
26 used must be clearly marked at least thirty days prior to activation
27 of the camera by placing signs in locations that clearly indicate to
28 a driver that he or she is entering a zone where traffic laws are
29 enforced by an automated traffic safety camera. Signs placed in
30 automated traffic safety camera locations after June 7, 2012, must
31 follow the specifications and guidelines under the manual of uniform
32 traffic control devices for streets and highways as adopted by the
33 department of transportation under chapter 47.36 RCW.

34 (i) If a county or city has established an authorized automated
35 traffic safety camera program under this section, the compensation
36 paid to the manufacturer or vendor of the equipment used must be
37 based only upon the value of the equipment and services provided or
38 rendered in support of the system, and may not be based upon a
39 portion of the fine or civil penalty imposed or the revenue generated
40 by the equipment.

1 (2) Infractions detected through the use of automated traffic
2 safety cameras are not part of the registered owner's driving record
3 under RCW 46.52.101 and 46.52.120. Additionally, infractions
4 generated by the use of automated traffic safety cameras under this
5 section shall be processed in the same manner as parking infractions,
6 including for the purposes of RCW 3.50.100, 35.20.220, 46.16A.120,
7 and 46.20.270(~~((+3+))~~) (2). The amount of the fine issued for an
8 infraction generated through the use of an automated traffic safety
9 camera shall not exceed the amount of a fine issued for other parking
10 infractions within the jurisdiction. However, the amount of the fine
11 issued for a traffic control signal violation detected through the
12 use of an automated traffic safety camera shall not exceed the
13 monetary penalty for a violation of RCW 46.61.050 as provided under
14 RCW 46.63.110, including all applicable statutory assessments.

15 (3) If the registered owner of the vehicle is a rental car
16 business, the law enforcement agency shall, before a notice of
17 infraction being issued under this section, provide a written notice
18 to the rental car business that a notice of infraction may be issued
19 to the rental car business if the rental car business does not,
20 within eighteen days of receiving the written notice, provide to the
21 issuing agency by return mail:

22 (a) A statement under oath stating the name and known mailing
23 address of the individual driving or renting the vehicle when the
24 infraction occurred; or

25 (b) A statement under oath that the business is unable to
26 determine who was driving or renting the vehicle at the time the
27 infraction occurred because the vehicle was stolen at the time of the
28 infraction. A statement provided under this subsection must be
29 accompanied by a copy of a filed police report regarding the vehicle
30 theft; or

31 (c) In lieu of identifying the vehicle operator, the rental car
32 business may pay the applicable penalty.

33 Timely mailing of this statement to the issuing law enforcement
34 agency relieves a rental car business of any liability under this
35 chapter for the notice of infraction.

36 (4) Nothing in this section prohibits a law enforcement officer
37 from issuing a notice of traffic infraction to a person in control of
38 a vehicle at the time a violation occurs under RCW 46.63.030(1) (a),
39 (b), or (c).

1 (5) For the purposes of this section, "automated traffic safety
2 camera" means a device that uses a vehicle sensor installed to work
3 in conjunction with an intersection traffic control system, a
4 railroad grade crossing control system, or a speed measuring device,
5 and a camera synchronized to automatically record one or more
6 sequenced photographs, microphotographs, or electronic images of the
7 rear of a motor vehicle at the time the vehicle fails to stop when
8 facing a steady red traffic control signal or an activated railroad
9 grade crossing control signal, or exceeds a speed limit in a school
10 speed zone as detected by a speed measuring device. During the
11 (~~2011-2013 and~~) 2013-2015 and 2015-2017 fiscal biennia, an
12 automated traffic safety camera includes a camera used to detect
13 speed violations for the purposes of (~~section 201(2), chapter 367,~~
14 ~~Laws of 2011 and~~) section 201(4), chapter 306, Laws of 2013 and
15 section 201(1) of this act.

16 (6) During the 2011-2013 and 2013-2015 fiscal biennia, this
17 section does not apply to automated traffic safety cameras for the
18 purposes of section 216(5), chapter 367, Laws of 2011 and section
19 216(6), chapter 306, Laws of 2013.

20 **Sec. 703.** RCW 46.68.325 and 2013 c 306 s 706 are each amended to
21 read as follows:

22 (1) The rural mobility grant program account is created in the
23 state treasury. Moneys in the account may be spent only after
24 appropriation. Expenditures from the account may be used only for the
25 grants provided under RCW 47.66.100.

26 (2) Beginning September 2011, by the last day of September,
27 December, March, and June of each year, the state treasurer shall
28 transfer from the multimodal transportation account to the rural
29 mobility grant program account two million five hundred thousand
30 dollars.

31 (3) During the (~~2011-2013 and~~) 2013-2015 and 2015-2017 fiscal
32 biennia, the legislature may transfer from the rural mobility grant
33 program account to the multimodal transportation account such amounts
34 as reflect the excess fund balance of the rural mobility grant
35 program account.

36 **Sec. 704.** RCW 47.29.170 and 2013 c 306 s 708 are each amended to
37 read as follows:

1 Before accepting any unsolicited project proposals, the
2 commission must adopt rules to facilitate the acceptance, review,
3 evaluation, and selection of unsolicited project proposals. These
4 rules must include the following:

5 (1) Provisions that specify unsolicited proposals must meet
6 predetermined criteria;

7 (2) Provisions governing procedures for the cessation of
8 negotiations and consideration;

9 (3) Provisions outlining that unsolicited proposals are subject
10 to a two-step process that begins with concept proposals and would
11 only advance to the second step, which are fully detailed proposals,
12 if the commission so directed;

13 (4) Provisions that require concept proposals to include at least
14 the following information: Proposers' qualifications and experience;
15 description of the proposed project and impact; proposed project
16 financing; and known public benefits and opposition; and

17 (5) Provisions that specify the process to be followed if the
18 commission is interested in the concept proposal, which must include
19 provisions:

20 (a) Requiring that information regarding the potential project
21 would be published for a period of not less than thirty days, during
22 which time entities could express interest in submitting a proposal;

23 (b) Specifying that if letters of interest were received during
24 the thirty days, then an additional sixty days for submission of the
25 fully detailed proposal would be allowed; and

26 (c) Procedures for what will happen if there are insufficient
27 proposals submitted or if there are no letters of interest submitted
28 in the appropriate time frame.

29 The commission may adopt other rules as necessary to avoid
30 conflicts with existing laws, statutes, or contractual obligations of
31 the state.

32 The commission may not accept or consider any unsolicited
33 proposals before July 1, (~~2015~~) 2017.

34 **Sec. 705.** RCW 47.56.403 and 2013 c 306 s 709 are each amended to
35 read as follows:

36 (1) The department may provide for the establishment,
37 construction, and operation of a pilot project of high occupancy toll
38 lanes on state route 167 high occupancy vehicle lanes within King
39 county. The department may issue, buy, and redeem bonds, and deposit

1 and expend them; secure and remit financial and other assistance in
2 the construction of high occupancy toll lanes, carry insurance, and
3 handle any other matters pertaining to the high occupancy toll lane
4 pilot project.

5 (2) Tolls for high occupancy toll lanes will be established as
6 follows:

7 (a) The schedule of toll charges for high occupancy toll lanes
8 must be established by the transportation commission and collected in
9 a manner determined by the commission.

10 (b) Toll charges shall not be assessed on transit buses and
11 vanpool vehicles owned or operated by any public agency.

12 (c) The department shall establish performance standards for the
13 state route 167 high occupancy toll lane pilot project. The
14 department must automatically adjust the toll charge, using dynamic
15 tolling, to ensure that toll-paying single-occupant vehicle users are
16 only permitted to enter the lane to the extent that average vehicle
17 speeds in the lane remain above forty-five miles per hour at least
18 ninety percent of the time during peak hours. The toll charge may
19 vary in amount by time of day, level of traffic congestion within the
20 highway facility, vehicle occupancy, or other criteria, as the
21 commission may deem appropriate. The commission may also vary toll
22 charges for single-occupant inherently low-emission vehicles such as
23 those powered by electric batteries, natural gas, propane, or other
24 clean burning fuels.

25 (d) The commission shall periodically review the toll charges to
26 determine if the toll charges are effectively maintaining travel
27 time, speed, and reliability on the highway facilities.

28 (3) The department shall monitor the state route 167 high
29 occupancy toll lane pilot project and shall annually report to the
30 transportation commission and the legislature on operations and
31 findings. At a minimum, the department shall provide facility use
32 data and review the impacts on:

33 (a) Freeway efficiency and safety;

34 (b) Effectiveness for transit;

35 (c) Person and vehicle movements by mode;

36 (d) Ability to finance improvements and transportation services
37 through tolls; and

38 (e) The impacts on all highway users. The department shall
39 analyze aggregate use data and conduct, as needed, separate surveys
40 to assess usage of the facility in relation to geographic,

1 socioeconomic, and demographic information within the corridor in
2 order to ascertain actual and perceived questions of equitable use of
3 the facility.

4 (4) The department shall modify the pilot project to address
5 identified safety issues and mitigate negative impacts to high
6 occupancy vehicle lane users.

7 (5) Authorization to impose high occupancy vehicle tolls for the
8 state route 167 high occupancy toll pilot project expires if either
9 of the following two conditions apply:

10 (a) If no contracts have been let by the department to begin
11 construction of the toll facilities associated with this pilot
12 project within four years of July 24, 2005; or

13 (b) If high occupancy vehicle tolls are being collected on June
14 30, (~~(2015)~~) 2017.

15 (6) The department of transportation shall adopt rules that allow
16 automatic vehicle identification transponders used for electronic
17 toll collection to be compatible with other electronic payment
18 devices or transponders from the Washington state ferry system, other
19 public transportation systems, or other toll collection systems to
20 the extent that technology permits.

21 (7) The conversion of a single existing high occupancy vehicle
22 lane to a high occupancy toll lane as proposed for SR-167 must be
23 taken as the exception for this pilot project.

24 (8) A violation of the lane restrictions applicable to the high
25 occupancy toll lanes established under this section is a traffic
26 infraction.

27 (9) Procurement activity associated with this pilot project shall
28 be open and competitive in accordance with chapter 39.29 RCW.

29 **Sec. 706.** RCW 47.56.876 and 2013 c 306 s 710 are each amended to
30 read as follows:

31 A special account to be known as the state route number 520 civil
32 penalties account is created in the state treasury. All state route
33 number 520 bridge replacement and HOV program civil penalties
34 generated from the nonpayment of tolls on the state route number 520
35 corridor must be deposited into the account, as provided under RCW
36 47.56.870(4)(b)(vii). Moneys in the account may be spent only after
37 appropriation. Expenditures from the account may be used to fund any
38 project within the state route number 520 bridge replacement and HOV
39 program, including mitigation. During the (~~(2011-2013 and)~~) 2013-2015

1 and 2015-2017 fiscal biennia, the legislature may transfer from the
2 state route number 520 civil penalties account to the state route
3 number 520 corridor account such amounts as reflect the excess fund
4 balance of the state route number 520 civil penalties account. Funds
5 transferred must be used solely for capital expenditures for the
6 state route number 520 bridge replacement and HOV project
7 (~~(8BI1003)~~).

8 **Sec. 707.** RCW 47.64.170 and 2013 c 306 s 521 are each amended to
9 read as follows:

10 (1) Any ferry employee organization certified as the bargaining
11 representative shall be the exclusive representative of all ferry
12 employees in the bargaining unit and shall represent all such
13 employees fairly.

14 (2) A ferry employee organization or organizations and the
15 governor may each designate any individual as its representative to
16 engage in collective bargaining negotiations.

17 (3) Negotiating sessions, including strategy meetings of the
18 employer or employee organizations, mediation, and the deliberative
19 process of arbitrators are exempt from the provisions of chapter
20 42.30 RCW. Hearings conducted by arbitrators may be open to the
21 public by mutual consent of the parties.

22 (4) Terms of any collective bargaining agreement may be enforced
23 by civil action in Thurston county superior court upon the initiative
24 of either party.

25 (5) Ferry system employees or any employee organization shall not
26 negotiate or attempt to negotiate directly with anyone other than the
27 person who has been appointed or authorized a bargaining
28 representative for the purpose of bargaining with the ferry employees
29 or their representative.

30 (6)(a) Within ten working days after the first Monday in
31 September of every odd-numbered year, the parties shall attempt to
32 agree on an interest arbitrator to be used if the parties are not
33 successful in negotiating a comprehensive collective bargaining
34 agreement. If the parties cannot agree on an arbitrator within the
35 ten-day period, either party may request a list of seven arbitrators
36 from the federal mediation and conciliation service. The parties
37 shall select an interest arbitrator using the coin toss/alternate
38 strike method within thirty calendar days of receipt of the list.
39 Immediately upon selecting an interest arbitrator, the parties shall

1 cooperate to reserve dates with the arbitrator for potential
2 arbitration between August 1st and September 15th of the following
3 even-numbered year. The parties shall also prepare a schedule of at
4 least five negotiation dates for the following year, absent an
5 agreement to the contrary. The parties shall execute a written
6 agreement before November 1st of each odd-numbered year setting forth
7 the name of the arbitrator and the dates reserved for bargaining and
8 arbitration. This subsection (6)(a) imposes minimum obligations only
9 and is not intended to define or limit a party's full, good faith
10 bargaining obligation under other sections of this chapter.

11 (b) The negotiation of a proposed collective bargaining agreement
12 by representatives of the employer and a ferry employee organization
13 shall commence on or about February 1st of every even-numbered year.

14 (c) For negotiations covering the 2009-2011 biennium and
15 subsequent biennia, the time periods specified in this section, and
16 in RCW 47.64.210 and 47.64.300 through 47.64.320, must ensure
17 conclusion of all agreements on or before October 1st of the even-
18 numbered year next preceding the biennial budget period during which
19 the agreement should take effect. These time periods may only be
20 altered by mutual agreement of the parties in writing. Any such
21 agreement and any impasse procedures agreed to by the parties under
22 RCW 47.64.200 must include an agreement regarding the new time
23 periods that will allow final resolution by negotiations or
24 arbitration by October 1st of each even-numbered year.

25 (7) It is the intent of this section that the collective
26 bargaining agreement or arbitrator's award shall commence on July 1st
27 of each odd-numbered year and shall terminate on June 30th of the
28 next odd-numbered year to coincide with the ensuing biennial budget
29 year, as defined by RCW 43.88.020(7), to the extent practical. It is
30 further the intent of this section that all collective bargaining
31 agreements be concluded by October 1st of the even-numbered year
32 before the commencement of the biennial budget year during which the
33 agreements are to be in effect. After the expiration date of a
34 collective bargaining agreement negotiated under this chapter, except
35 to the extent provided in subsection (11) of this section and RCW
36 47.64.270(4), all of the terms and conditions specified in the
37 collective bargaining agreement remain in effect until the effective
38 date of a subsequently negotiated agreement, not to exceed one year
39 from the expiration date stated in the agreement. Thereafter, the
40 employer may unilaterally implement according to law.

1 (8) The office of financial management shall conduct a salary
2 survey, for use in collective bargaining and arbitration, which must
3 be conducted through a contract with a firm nationally recognized in
4 the field of human resources management consulting except during the
5 2015-2017 fiscal biennium.

6 (9) Except as provided in subsection (11) of this section:

7 (a) The governor shall submit a request either for funds
8 necessary to implement the collective bargaining agreements
9 including, but not limited to, the compensation and fringe benefit
10 provisions or for legislation necessary to implement the agreement,
11 or both. Requests for funds necessary to implement the collective
12 bargaining agreements shall not be submitted to the legislature by
13 the governor unless such requests:

14 (i) Have been submitted to the director of the office of
15 financial management by October 1st before the legislative session at
16 which the requests are to be considered; and

17 (ii) Have been certified by the director of the office of
18 financial management as being feasible financially for the state.

19 (b) The governor shall submit a request either for funds
20 necessary to implement the arbitration awards or for legislation
21 necessary to implement the arbitration awards, or both. Requests for
22 funds necessary to implement the arbitration awards shall not be
23 submitted to the legislature by the governor unless such requests:

24 (i) Have been submitted to the director of the office of
25 financial management by October 1st before the legislative session at
26 which the requests are to be considered; and

27 (ii) Have been certified by the director of the office of
28 financial management as being feasible financially for the state.

29 (c) The legislature shall approve or reject the submission of the
30 request for funds necessary to implement the collective bargaining
31 agreements or arbitration awards as a whole for each agreement or
32 award. The legislature shall not consider a request for funds to
33 implement a collective bargaining agreement or arbitration award
34 unless the request is transmitted to the legislature as part of the
35 governor's budget document submitted under RCW 43.88.030 and
36 43.88.060. If the legislature rejects or fails to act on the
37 submission, either party may reopen all or part of the agreement and
38 award or the exclusive bargaining representative may seek to
39 implement the procedures provided for in RCW 47.64.210 and 47.64.300.

1 (10) If, after the compensation and fringe benefit provisions of
2 an agreement are approved by the legislature, a significant revenue
3 shortfall occurs resulting in reduced appropriations, as declared by
4 proclamation of the governor or by resolution of the legislature,
5 both parties shall immediately enter into collective bargaining for a
6 mutually agreed upon modification of the agreement.

7 (11)(a) For the collective bargaining agreements negotiated for
8 the 2011-2013 fiscal biennium, the legislature may consider a request
9 for funds to implement a collective bargaining agreement even if the
10 request for funds was not received by the office of financial
11 management by October 1st and was not transmitted to the legislature
12 as part of the governor's budget document submitted under RCW
13 43.88.030 and 43.88.060.

14 (b) For the 2013-2015 fiscal biennium, a collective bargaining
15 agreement related to employee health care benefits negotiated between
16 the employer and coalition pursuant to RCW 41.80.020(3) regarding the
17 dollar amount expended on behalf of each employee must be a separate
18 agreement for which the governor may request funds necessary to
19 implement the agreement. The legislature may act upon a 2013-2015
20 collective bargaining agreement related to employee health care
21 benefits if an agreement is reached and submitted to the office of
22 financial management and legislative budget committees before final
23 legislative action on the biennial or supplemental operating budget
24 by the sitting legislature.

25 (c) For the collective bargaining agreements negotiated for the
26 2013-2015 fiscal biennium, the legislature may consider a request for
27 funds to implement a collective bargaining agreement reached after
28 October 1st after a determination of financial infeasibility by the
29 director of the office of financial management if the request for
30 funds is transmitted to the legislature as part of the governor's
31 budget document submitted under RCW 43.88.030 and 43.88.060.

32 **Sec. 708.** RCW 82.70.020 and 2014 c 222 s 704 are each amended to
33 read as follows:

34 (1) Employers in this state who are taxable under chapter 82.04
35 or 82.16 RCW and provide financial incentives to their own or other
36 employees for ride sharing, for using public transportation, for
37 using car sharing, or for using nonmotorized commuting before July 1,
38 ((2015)) 2017, are allowed a credit against taxes payable under
39 chapters 82.04 and 82.16 RCW for amounts paid to or on behalf of

1 employees for ride sharing in vehicles carrying two or more persons,
2 for using public transportation, for using car sharing, or for using
3 nonmotorized commuting, not to exceed sixty dollars per employee per
4 fiscal year.

5 (2) Property managers who are taxable under chapter 82.04 or
6 82.16 RCW and provide financial incentives to persons employed at a
7 worksite in this state managed by the property manager for ride
8 sharing, for using public transportation, for using car sharing, or
9 for using nonmotorized commuting before July 1, (~~2015~~) 2017, are
10 allowed a credit against taxes payable under chapters 82.04 and 82.16
11 RCW for amounts paid to or on behalf of these persons for ride
12 sharing in vehicles carrying two or more persons, for using public
13 transportation, for using car sharing, or for using nonmotorized
14 commuting, not to exceed sixty dollars per person per fiscal year.

15 (3) The credit under this section is equal to the amount paid to
16 or on behalf of each employee multiplied by fifty percent, but may
17 not exceed sixty dollars per employee per fiscal year. No refunds may
18 be granted for credits under this section.

19 (4) A person may not receive credit under this section for
20 amounts paid to or on behalf of the same employee under both chapters
21 82.04 and 82.16 RCW.

22 (5) A person may not take a credit under this section for amounts
23 claimed for credit by other persons.

24 **Sec. 709.** RCW 82.70.040 and 2014 c 222 s 705 are each amended to
25 read as follows:

26 (1)(a)(i) The department shall keep a running total of all
27 credits allowed under RCW 82.70.020 during each fiscal year. The
28 department shall not allow any credits that would cause the total
29 amount allowed to exceed two million seven hundred fifty thousand
30 dollars in any fiscal year. This limitation includes any deferred
31 credits carried forward under subsection (2)(b)(i) of this section
32 from prior years.

33 (ii) During the 2013-2015 and 2015-2017 fiscal (~~biennium~~)
34 biennia, the department shall not allow any credits that would cause
35 the total amount allowed to exceed one million five hundred thousand
36 dollars in any fiscal year. This limitation includes any deferred
37 credits carried forward under subsection (2)(b)(i) of this section
38 from prior years.

1 (b) If the total amount of credit applied for by all applicants
2 in any year exceeds the limit in this subsection, the department
3 shall ratably reduce the amount of credit allowed for all applicants
4 so that the limit in this subsection is not exceeded. If a credit is
5 reduced under this subsection, the amount of the reduction may not be
6 carried forward and claimed in subsequent fiscal years.

7 (2)(a) Tax credits under RCW 82.70.020 may not be claimed in
8 excess of the amount of tax otherwise due under chapter 82.04 or
9 82.16 RCW.

10 (b)(i) Through June 30, 2005, a person with taxes equal to or in
11 excess of the credit under RCW 82.70.020, and therefore not subject
12 to the limitation in (a) of this subsection, may elect to defer tax
13 credits for a period of not more than three years after the year in
14 which the credits accrue. No credits deferred under this subsection
15 (2)(b)(i) may be used after June 30, 2008. A person deferring tax

17 efficiencies to contain project costs and gain more value from
18 investments in Washington state's transportation system. The goal is
19 to enable the department of transportation to construct bridge and
20 highway projects more quickly and to build and operate them at a
21 lower cost, while ensuring that appropriate environmental and
22 regulatory protections are maintained and a quality project is
23 delivered. The joint transportation committee must convene an
24 advisory panel to provide study guidance and discuss potential
25 efficiencies and recommendations. The scope of the study must be
26 limited to state-level policies and practices relating to the
27 planning, design, permitting, construction, financing, and operation
28 of department of transportation roadway and bridge projects. The
29 study must:

- 30 (i) Identify best practices;
- 31 (ii) Identify inefficiencies in state policy or agency practice
32 where changes may save money;
- 33 (iii) Recommend changes to improve efficiency and save money; and
- 34 (iv) Identify potential savings to be achieved by adopting
35 changes in practice or policy.

6 revenue, county auditors or other agents, and subagents to identify
7 possible issues relating to the administration of, compliance with,
8 and enforcement of the existing statutory requirement for a person to
9 provide an unexpired driver's license when registering a vehicle. The
10 work group shall provide recommendations on how administration and
11 enforcement may be modified, as needed, to address any identified
12 issues, including whether statutory changes may be needed. A report
13 presenting the recommendations must be presented to the house of
14 representatives and senate transportation committees by December 31,
15 2013.

16 (3) The joint transportation committee shall continue to convene
17 a subcommittee for legislative oversight of the I-5/Columbia river
18 crossing bridge replacement project. The Columbia river crossing
19 legislative oversight subcommittee must be made up of six members:

22 representatives transportation committee, one designee of the
23 governor, and one citizen jointly appointed by the four members of
24 the joint transportation executive committee. The citizen appointee
25 must be a Washington state resident of the area served by the bridge.
26 At least two of the legislative members must be from the legislative
27 districts served by the bridge. In addition to reviewing project and
28 financing information, the subcommittee must also coordinate with the
29 Oregon legislative oversight committee for the Columbia river
30 crossing bridge.

2 use of surplus property proceeds to fund facility replacement
3 projects, and the possibility of using the north central region as a
4 pilot. The joint transportation committee shall consult with the
5 department of transportation and the office of financial management
6 regarding the department's current process for prioritizing and
7 funding facility improvement and replacement projects.

8 (6) \$250,000 of the motor vehicle account—state appropriation is
9 for the joint transportation committee to evaluate the current status
10 of electric vehicle charging stations in Washington, and to make
11 recommendations regarding potential business models for financially-
12 sustainable electric vehicle charging networks and alternative roles
13 for public and private sector participation in those business models.
14 Public sector participation may include public financing, funding,
15 facilitation, and other incentives to encourage installation of
16 electric vehicle charging stations. In conducting the study, the
17 committee must coordinate with the department of transportation and
18 consult with local governments and stakeholders in the electric
19 vehicle industry. The committee may also consult with users of
20 electric vehicles and stakeholders representing manufacturers and

26 with policies that county auditors, subagents, and agents must comply
27 with when conducting title and registration transactions. The goal
28 and related outcomes of the work group review are to provide
29 recommendations to streamline processes, modernize policies, and
30 identify potential information technology opportunities. Members of
31 the work group shall only include county auditors, subagents, agents,
32 and the department of licensing. The work group shall submit a report
33 to the transportation committees of the legislature on or before
34 December 1, 2014.

36 group comprised of representatives from the department of licensing,
37 the Washington state traffic safety commission, and other
38 stakeholders as deemed necessary, along with interested legislators,
39 to develop parameters for and make recommendations regarding a pilot
40 program that would allow students to meet traffic safety education

1 requirements online. Additionally, the work group shall make
2 recommendations related to requiring driver training to individuals
3 between the ages of eighteen and twenty-four who have not previously
4 passed a driver training education program or other methods of
5 enhancing the safety of this high-risk group. The joint
6 transportation committee shall issue a report of its findings to the
7 transportation committees of the house of representatives and senate
8 by December 1, 2014.

9 **Sec. 905.** 2014 c 222 s 205 (uncodified) is amended to read as
10 follows:

11 **FOR THE TRANSPORTATION COMMISSION**

12 Motor Vehicle Account—State Appropriation.	((\$3,516,000))
13	<u>\$3,389,000</u>
14 Multimodal Transportation Account—State	
15 Appropriation.	\$112,000
16 TOTAL APPROPRIATION.	((\$3,628,000))
17	<u>\$3,501,000</u>

18 The appropriations in this section are subject to the following
19 conditions and limitations:

20 (1) Consistent with RCW 43.135.055, 47.60.290, and 47.60.315,
21 during the 2013-2015 fiscal biennium, the legislature authorizes the
22 transportation commission to periodically review and, if necessary,
23 adjust the schedule of fares for the Washington state ferry system
24 only in amounts not greater than those sufficient to generate the
25 amount of revenue required by the biennial transportation budget.
26 When adjusting ferry fares, the commission must consider input from
27 affected ferry users by public hearing and by review with the
28 affected ferry advisory committees, in addition to the data gathered
29 from the current ferry user survey.

30 (2) Consistent with RCW 43.135.055 and 47.46.100, during the
31 2013-2015 fiscal biennium, the legislature authorizes the
32 transportation commission to periodically review and, if necessary,
33 adjust the schedule of toll charges applicable to the Tacoma Narrows
34 bridge only in amounts not greater than those sufficient to support
35 (a) any required costs for operating and maintaining the toll bridge,
36 including the cost of insurance, (b) any amount required by law to
37 meet the redemption of bonds and applicable interest payments, and
38 (c) repayment of the motor vehicle fund.

1 (3) Consistent with RCW 43.135.055 and 47.56.880, during the
2 2013-2015 fiscal biennium, the legislature authorizes the
3 transportation commission to set, periodically review, and, if
4 necessary, adjust the schedule of toll charges applicable to the
5 Interstate 405 express toll lanes.

6 (4)(a) \$400,000 of the motor vehicle account—state appropriation
7 is provided solely for the development of the business case for the
8 transition to a road usage charge system as the basis for funding the
9 state transportation system, from the current motor fuel tax system.
10 The funds are provided for fiscal year 2014 only.

11 (b) The legislature finds that the efforts started in the
12 2011-2013 fiscal biennium regarding the transition to a road usage
13 charge system represent an important first step in the policy and
14 conceptual development of potential alternative systems to fund
15 transportation projects, but that the governance for the development
16 needs clarification. The legislature also finds that significant
17 amounts of research and public education are occurring in similar
18 efforts in several states and that these efforts can and should be
19 leveraged to advance the evaluation in Washington. The legislature
20 intends, therefore, that the commission and its staff lead the policy
21 development of the business case for a road usage charge system, with
22 the goal of providing the business case to the governor and the
23 legislative committees of the legislature in time for inclusion in
24 the 2014 supplemental omnibus transportation appropriations act. The
25 legislature intends for additional oversight in the business case
26 development, with guidance from a steering committee as provided in
27 chapter 86, Laws of 2012, augmented with participation by the joint
28 transportation committee. The legislature further intends that the
29 department of transportation continue to address administrative,
30 technical, and conceptual operational issues related to road usage
31 charge systems, and that the department serve as a resource for
32 information gleaned from other states on this topic for the
33 commission's efforts.

34 (c) For the purposes of this subsection (4), the commission
35 shall:

36 (i) Develop preliminary road usage charge policies that are
37 necessary to develop the business case, as well as supporting
38 research and data that will guide the potential application in
39 Washington;

1 (ii) Develop the preferred operational concept or concepts that
2 reflect the preliminary policies;

3 (iii) Evaluate the business case for the road usage charge system
4 that would result from implementing the preliminary policies and
5 preferred operational concept or concepts. The evaluation must assess
6 likely financial outcomes if the system were to be implemented; and

7 (iv) Identify and document policy and other issues that are
8 deemed important to further refine the preferred operational concept
9 or concepts and to gain public acceptance. These identified issues
10 should form the basis for continued work beyond this funding cycle.

11 (d) The commission shall convene a steering committee to guide
12 the development of the business case. The membership must be the same
13 as provided in chapter 86, Laws of 2012, except that the membership
14 must also include the joint transportation committee executive
15 members.

16 (e) The commission shall submit a report of the business case to
17 the governor and the transportation committees of the legislature by
18 December 15, 2013. The report must also include a proposed budget and
19 work plan for fiscal year 2015. A progress report must be submitted
20 to the governor and the joint transportation committee by November 1,
21 2013, including a presentation to the joint transportation committee.

22 (5) \$174,000 of the motor vehicle account—state appropriation is
23 provided solely for the voice of Washington survey program. The
24 funding must be utilized for continued program maintenance and two
25 transportation surveys for the 2013-2015 fiscal biennium.

26 (6)(a) \$450,000 of the motor vehicle account—state appropriation
27 is provided solely for a work plan to further develop the concept of
28 a road usage charge system. The work plan must include: Refinement of
29 initial policy analysis and development, a concept of operations that
30 incorporates refined policy inputs, and a financial analysis
31 evaluating the operational concept. The refinement of initial policy
32 analysis and development funded under this subsection must be
33 supplemented by the products of complementary policy refinement tasks
34 delegated to the department of transportation in section 214 (~~of~~
35 ~~this act~~), chapter 222, Laws of 2014 and the office of the state
36 treasurer in section 703 (~~of this act~~), chapter 222, Laws of 2014.
37 It is the intent of the legislature that consideration for potential
38 planning for a pilot project and any risk analysis occur in the 2015
39 legislative session.

1 (b)(i) For the purposes of the refinement of initial policy
2 analysis and development, the work plan must consider phasing and
3 staging of how a road usage charge would be implemented as it relates
4 to the types of vehicles that would be subject to a road usage charge
5 and the nature and manner of a transition period.

6 (ii) For the purposes of this subsection (6)(b), the legislature
7 intends that the commission focus its analysis by assuming that the
8 exemptions under a road usage charge would be the same as those under
9 the motor vehicle fuel and special fuel taxes. In addition, the
10 commission must engage the road usage charge steering committee,
11 which was reauthorized in chapter 306, Laws of 2013 for fiscal year
12 2014 and is hereby reauthorized in this act with the same membership,
13 to continue in its role and, at a minimum, to guide the work
14 specified in (a) of this subsection, including the following:
15 Assessing and recommending the type of vehicles that would be subject
16 to the road usage charge, and assessing and recommending the options
17 for the timing and duration of the transition period. The steering
18 committee shall report its findings and guidance to the commission by
19 December 1, 2014.

20 (c)(i) For the purposes of the development of the concept of
21 operations, the development must incorporate the products of (b) of
22 this subsection, and, to the extent practicable, the products of work
23 conducted by the department of transportation in section 214 (~~of~~
24 ~~this act~~), chapter 222, Laws of 2014 and the office of the state
25 treasurer in section 703 (~~of this act~~), chapter 222, Laws of 2014.

26 (ii) To reduce system development and operational costs, for road
27 user charge options that rely on in-vehicle devices to record
28 mileage, the work plan must recommend how the state can utilize the
29 technology and back-office platforms that are scheduled to be
30 provided by commercial account managers under the Oregon road usage
31 charge program.

32 (iii) In addition to a time permit and an odometer charge, the
33 concept of operations recommendation must be developed to include a
34 means for periodic payments based on mileage reporting utilizing
35 methods other than onboard diagnostic in-vehicle devices.

36 (d) The work plan and recommendations, along with a proposed work
37 plan and budget for the 2015-2017 fiscal biennium, must be submitted
38 by the commission to the transportation committees of the legislature
39 by January 15, 2015.

1 (7) Within existing resources, the commission shall undertake a
2 study of the urban and rural financial and equity implications of a
3 potential road usage charge system in Washington. The commission
4 shall work with the department of transportation and the department
5 of licensing to conduct this analysis. For any survey work that is
6 considered, the commission should utilize the existing voice of
7 Washington survey panel and budget to inform the study. The results
8 must be presented to the governor and the legislature by January 15,
9 2015.

TOTAL APPROPRIATION.	((\$10,059,000))
	<u>\$10,053,000</u>

The appropriations in this section are subject to the following conditions and limitations: \$4,065,000 of the aeronautics account—state appropriation is provided solely for airport investment studies and the airport aid grant program, which provides competitive grants to public airports for pavement, safety, maintenance, planning, and security.

Sec. 913. 2014 c 222 s 213 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF TRANSPORTATION—PROGRAM DELIVERY MANAGEMENT AND SUPPORT—PROGRAM H

Motor Vehicle Account—State Appropriation.	((\$48,687,000))
	<u>\$48,555,000</u>
Motor Vehicle Account—Federal Appropriation.	\$500,000
Multimodal Transportation Account—State Appropriation.	\$250,000
TOTAL APPROPRIATION.	((\$49,437,000))
	<u>\$49,305,000</u>

The appropriations in this section are subject to the following conditions and limitations:

- (1) \$4,423,000 of the motor vehicle account—state appropriation is provided solely for the department's compliance with its national pollution discharge elimination system permit.

1 (2) The real estate services division of the department must
2 recover the cost of its efforts from sale proceeds and fund
3 additional future sales from those proceeds.

4 (3) The legislature recognizes that the Dryden pit site (WSDOT
5 Inventory Control (IC) No. 2-04-00103) is unused state-owned real
6 property under the jurisdiction of the department, and that the
7 public would benefit significantly from the complete enjoyment of the
8 natural scenic beauty and recreational opportunities available at the
9 site. Therefore, pursuant to RCW 47.12.080, the legislature declares
10 that transferring the property to the department of fish and wildlife
11 for recreational use and fish and wildlife restoration efforts is
12 consistent with the public interest in order to preserve the area for
13 the use of the public and the betterment of the natural environment.
14 The department shall work with the department of fish and wildlife
15 and transfer and convey the Dryden pit site to the department of fish
16 and wildlife as-is for an adjusted fair market value reflecting site
17 conditions, the proceeds of which must be deposited in the motor
18 vehicle fund. The department is not responsible for any costs
19 associated with the cleanup or transfer of this property. This
20 subsection expires June 30, 2014.

21 (4) The legislature recognizes that the trail known as the Apple
22 Capital Loop, and its extensions, serve to separate motor vehicle
23 traffic from pedestrians and bicyclists, increasing motor vehicle
24 safety on existing state route number 28. Consistent with chapter
25 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares
26 that transferring portions of WSDOT Inventory Control (IC) Nos.
27 2-09-04537 and 2-09-04569 to Douglas county and the city of East
28 Wenatchee is consistent with the public interest. The legislature
29 directs the department to transfer the property to Douglas county and
30 the city of East Wenatchee. The department must be paid fair market
31 value for any portions of the transferred real property that is later
32 abandoned, vacated, or ceases to be publicly maintained for trail
33 purposes. Douglas county and the city of East Wenatchee must agree to
34 accept responsibility for trail segments within their respective
35 jurisdictions and sign an agreement with the state that the transfer
36 of these parcels to their respective jurisdictions extinguishes any
37 state obligations to improve, maintain, or be in any way responsible
38 for these assets. This subsection expires June 30, 2014.

39 (5) The legislature recognizes that the SR 20/Cook Road
40 realignment and extension project in the city of Sedro-Woolley will

1 enhance the state and local highway systems by providing a more
2 direct route from state route number 20 and state route number 9 to
3 Interstate 5, and will reduce traffic on state route number 20 and
4 state route number 9, improving the capacity of each route.
5 Furthermore, the legislature declares that certain portions of the
6 department's property held for highway purposes located primarily to
7 the north and west of state route number 20, between state route
8 number 20 to the south and F and S Grade Road to the north, in the
9 incorporated limits of Sedro-Woolley in Skagit county, can help
10 facilitate completion of the project. Therefore, consistent with RCW
11 47.12.063, 47.12.080, and 47.12.120, it is the intent of the
12 legislature that the department sell, transfer, or lease, as
13 appropriate, to the city of Sedro-Woolley only those portions of the
14 property necessary to construct the project, including necessary
15 staging areas. However, any staging areas should revert to the
16 department within three years of completion of the project.

17 (6) Within the amounts provided in this section, the department
18 shall create a quality assurance position. This position must provide
19 independent project quality assurance validation and ensure that
20 quality assurance audit functions are accountable at the highest
21 level of the organization.

22 ~~((+8))~~ (7) \$1,453,000 of the motor vehicle account—state
23 appropriation is provided solely to support increased departmental
24 efforts to dispose of surplus property as directed in subsection (2)
25 of this section. These additional funds are expected to result in up
26 to \$5,000,000 per fiscal biennium in additional revenues through
27 increasing the sale of surplus property. By December 1, 2014, the
28 department shall report to the governor and the chairs and ranking
29 members of the senate and house of representatives transportation
30 committees on the number of surplus property parcels sold and the
31 amount of revenue generated from those sales during 2014.

32 **Sec. 914.** 2014 c 222 s 214 (uncodified) is amended to read as
33 follows:

34 **FOR THE DEPARTMENT OF TRANSPORTATION—ECONOMIC PARTNERSHIPS—PROGRAM K**
35 Motor Vehicle Account—State Appropriation. ~~((589,000))~~
36 \$588,000

37 The appropriation in this section is subject to the following
38 conditions and limitations:

1 (1) The legislature finds that the efforts started in the
2 2011-2013 fiscal biennium regarding the transition to a road usage
3 charge system represent an important first step in the policy and
4 conceptual development of potential alternative systems to fund
5 transportation projects, but that the governance for the development
6 needs clarification. The legislature also finds that significant
7 amounts of research and public education are occurring in similar
8 efforts in several states and that these efforts can and should be
9 leveraged to advance the evaluation in Washington. The legislature
10 intends, therefore, that the transportation commission and its staff
11 lead the policy development of the business case for a road usage
12 charge system, with the goal of providing the business case to the
13 governor and the legislative committees of the legislature in time
14 for inclusion in the 2014 supplemental omnibus transportation
15 appropriations act. The legislature intends for additional oversight
16 in the business case development, with guidance from a steering
17 committee as provided in chapter 86, Laws of 2012 for the
18 transportation commission, augmented with participation by the joint
19 transportation committee. The legislature further intends that,
20 through the economic partnerships program, the department continue to
21 address administrative, technical, and conceptual operational issues
22 related to road usage charge systems, and that the department serve
23 as a resource for information gleaned from other states on this topic
24 for the transportation commission's efforts.

25 (2) The economic partnerships program must continue to explore
26 retail partnerships at state-owned park-and-ride facilities, as
27 authorized in RCW 47.04.295.

28 (3) The department, in collaboration with the transportation
29 commission, shall work with the office of the state treasurer and the
30 state's bond counsel to explore legal approaches for ensuring that
31 any reduction, refunding, crediting, or repeal of the motor vehicle
32 fuel tax, in whole or in part, can be accomplished without unlawfully
33 impairing the legal rights of motor vehicle fuel tax bond holders.
34 The results of this work must be shared with the transportation
35 committees of the legislature and the office of financial management
36 by September 1, 2014.

37 (4) \$21,000 of the motor vehicle account—state appropriation is
38 provided solely as matching funds for the department to partner with
39 other transportation agencies located in the western region of North
40 America to develop strategies and methods for reporting, collecting,

1 crediting, and remitting road usage charges resulting from inter-
2 jurisdictional travel. At least one partnering jurisdiction must
3 share a common border with Washington. The results of this work must
4 be reported to the governor, the transportation commission, and the
5 transportation committees of the legislature by September 1, 2014.

6 **Sec. 915.** 2014 c 222 s 215 (uncodified) is amended to read as
7 follows:

8 **FOR THE DEPARTMENT OF TRANSPORTATION—HIGHWAY MAINTENANCE—PROGRAM M**

9 Highway Safety Account—State Appropriation.	\$10,000,000

13 TOTAL APPROPRIATION.	(\$408,358,000)
14	<u>\$407,394,000</u>

15 The appropriations in this section are subject to the following
16 conditions and limitations:

17 (1) \$10,910,000 of the motor vehicle account—state appropriation
18 is provided solely for the department's compliance with its national
19 pollution discharge elimination system permit.

20 (2) \$2,605,000 of the motor vehicle account—state appropriation
21 is provided solely for utility fees assessed by local governments as
22 authorized under RCW 90.03.525 for the mitigation of storm water
23 runoff from state highways.

24 (3) The department shall submit a budget decision for the 2014
25 legislative session package that details all costs associated with
26 utility fees assessed by local governments as authorized under RCW
27 90.03.525.

28 (4) \$50,000 of the motor vehicle account—state appropriation is
29 provided solely for clearing and pruning dangerous trees along state
30 route number 542 between mile markers 43 and 48 to prevent safety
31 hazards and delays.

32 (5) \$2,277,000 of the motor vehicle account—state appropriation
33 is provided solely to replace or rehabilitate critical equipment
34 needed to perform snow and ice removal activities and roadway
35 maintenance. These funds may not be used to purchase passenger cars
36 as defined in RCW 46.04.382.

1 **Sec. 916.** 2014 c 222 s 216 (uncodified) is amended to read as
2 follows:

3 **FOR THE DEPARTMENT OF TRANSPORTATION—TRAFFIC OPERATIONS—PROGRAM Q—**
4 **OPERATING**

5 Motor Vehicle Account—State Appropriation.	((\$50,055,000))
6	<u>\$49,879,000</u>

8 Motor Vehicle Account—Private/Local Appropriation.	\$250,000
9 TOTAL APPROPRIATION.	((\$52,355,000))
10	<u>\$52,179,000</u>

11 The appropriations in this section are subject to the following
12 conditions and limitations:

13 (1) \$6,000,000 of the motor vehicle account—state appropriation
14 is provided solely for low-cost enhancements. The department shall
15 give priority to low-cost enhancement projects that improve safety or
16 provide congestion relief. The department shall prioritize low-cost
17 enhancement projects on a statewide rather than regional basis. By
18 September 1st of each even-numbered year, the department shall
19 provide a report to the legislature listing all low-cost enhancement
20 projects prioritized on a statewide rather than regional basis
21 completed in the prior year.

22 (2) \$9,000,000 of the motor vehicle account—state appropriation
23 is provided solely for the department's incident response program.

24 (3) During the 2013-2015 fiscal biennium, the department shall
25 continue a pilot program that expands private transportation
26 providers' access to high occupancy vehicle lanes. Under the pilot
27 program, when the department reserves a portion of a highway based on
28 the number of passengers in a vehicle, the following vehicles must be
29 authorized to use the reserved portion of the highway if the vehicle
30 has the capacity to carry eight or more passengers, regardless of the
31 number of passengers in the vehicle: (a) Auto transportation company
32 vehicles regulated under chapter 81.68 RCW; (b) passenger charter
33 carrier vehicles regulated under chapter 81.70 RCW, except marked or
34 unmarked stretch limousines and stretch sport utility vehicles as
35 defined under department of licensing rules; (c) private nonprofit
36 transportation provider vehicles regulated under chapter 81.66 RCW;
37 and (d) private employer transportation service vehicles. For
38 purposes of this subsection, "private employer transportation
39 service" means regularly scheduled, fixed-route transportation

1 service that is offered by an employer for the benefit of its
2 employees. Nothing in this subsection is intended to authorize the
3 conversion of public infrastructure to private, for-profit purposes
4 or to otherwise create an entitlement or other claim by private users
5 to public infrastructure.

6 (4) The department shall work with the cities of Lynnwood and
7 Edmonds to provide traffic light synchronization on state route
8 number 524.

9 (5) The department, in consultation with the Washington state
10 patrol, must continue a pilot program for the state patrol to issue
11 infractions based on information from automated traffic safety
12 cameras in roadway construction zones on state highways. For the
13 purpose of this pilot program, during the 2013-2015 fiscal biennium,
14 a roadway construction zone includes areas where public employees or
15 private contractors may be present or where a driving condition
16 exists that would make it unsafe to drive at higher speeds, such as,
17 when the department is redirecting or realigning lanes on any public
18 roadway pursuant to ongoing construction. The department shall use
19 the following guidelines to administer the program:

20 (a) Automated traffic safety cameras may only take pictures of
21 the vehicle and vehicle license plate and only while an infraction is
22 occurring. The picture must not reveal the face of the driver or of
23 passengers in the vehicle;

24 (b) The department shall plainly mark the locations where the
25 automated traffic safety cameras are used by placing signs on
26 locations that clearly indicate to a driver that he or she is
27 entering a roadway construction zone where traffic laws are enforced
28 by an automated traffic safety camera;

29 (c) Notices of infractions must be mailed to the registered owner
30 of a vehicle within fourteen days of the infraction occurring;

31 (d) The owner of the vehicle is not responsible for the violation
32 if the owner of the vehicle, within fourteen days of receiving
33 notification of the violation, mails to the patrol, a declaration
34 under penalty of perjury, stating that the vehicle involved was, at
35 the time, stolen or in the care, custody, or control of some person
36 other than the registered owner, or any other extenuating
37 circumstances;

38 (e) For purposes of the 2013-2015 fiscal biennium pilot program,
39 infractions detected through the use of automated traffic safety
40 cameras are not part of the registered owner's driving record under

1 RCW 46.52.101 and 46.52.120. Additionally, infractions generated by
2 the use of automated traffic safety cameras must be processed in the
3 same manner as parking infractions for the purposes of RCW 3.50.100,
4 35.20.220, 46.16A.120, and 46.20.270(3). However, the amount of the
5 fine issued under this subsection (5) for an infraction generated
6 through the use of an automated traffic safety camera is one hundred
7 thirty-seven dollars. The court shall remit thirty-two dollars of the
8 fine to the state treasurer for deposit into the state patrol highway
9 account; and

10 (f) If a notice of infraction is sent to the registered owner and
11 the registered owner is a rental car business, the infraction must be
12 dismissed against the business if it mails to the patrol, within
13 fourteen days of receiving the notice, a declaration under penalty of
14 perjury of the name and known mailing address of the individual
15 driving or renting the vehicle when the infraction occurred. If the
16 business is unable to determine who was driving or renting the
17 vehicle at the time the infraction occurred, the business must sign a
18 declaration under penalty of perjury to this effect. The declaration
19 must be mailed to the patrol within fourteen days of receiving the
20 notice of traffic infraction. Timely mailing of this declaration to
21 the issuing agency relieves a rental car business of any liability
22 under this section for the notice of infraction. A declaration form
23 suitable for this purpose must be included with each automated
24 traffic safety camera infraction notice issued, along with
25 instructions for its completion and use.

26 (6) \$102,000 of the motor vehicle account—state appropriation is
27 provided solely to replace or rehabilitate critical equipment needed
28 to perform traffic control. These funds may not be used to purchase
29 passenger cars as defined in RCW 46.04.382.

29		<u>\$101,618,000</u>

30 The appropriations in this section are subject to the following
31 conditions and limitations:

32 (1) \$25,000,000 of the multimodal transportation account—state
33 appropriation is provided solely for a grant program for special
34 needs transportation provided by transit agencies and nonprofit
35 providers of transportation. Of this amount:

36 (a) \$5,500,000 of the multimodal transportation account—state
37 appropriation is provided solely for grants to nonprofit providers of

1 special needs transportation. Grants for nonprofit providers must be
2 based on need, including the availability of other providers of
3 service in the area, efforts to coordinate trips among providers and
4 riders, and the cost effectiveness of trips provided.

5 (b) \$19,500,000 of the multimodal transportation account—state
6 appropriation is provided solely for grants to transit agencies to
7 transport persons with special transportation needs. To receive a
8 grant, the transit agency must, to the greatest extent practicable,
9 have a maintenance of effort for special needs transportation that is
10 no less than the previous year's maintenance of effort for special
11 needs transportation. Grants for transit agencies must be prorated
12 based on the amount expended for demand response service and route
13 deviated service in calendar year 2011 as reported in the "Summary of
14 Public Transportation - 2011" published by the department of
15 transportation. No transit agency may receive more than thirty
16 percent of these distributions.

17 (2) \$17,000,000 of the rural mobility grant program account—state
18 appropriation is provided solely for grants to aid small cities in
19 rural areas as prescribed in RCW 47.66.100.

20 (3)(a) \$6,000,000 of the multimodal transportation account—state
21 appropriation is provided solely for a vanpool grant program for: (a)
22 Public transit agencies to add vanpools or replace vans; and (b)
23 incentives for employers to increase employee vanpool use. The grant
24 program for public transit agencies will cover capital costs only;
25 operating costs for public transit agencies are not eligible for
26 funding under this grant program. Additional employees may not be
27 hired from the funds provided in this section for the vanpool grant
28 program, and supplanting of transit funds currently funding vanpools
29 is not allowed. The department shall encourage grant applicants and
30 recipients to leverage funds other than state funds.

31 (b) At least \$1,600,000 of the amount provided in this subsection
32 must be used for vanpool grants in congested corridors.

33 (c) \$520,000 of the amount provided in this subsection is
34 provided solely for the purchase of additional vans for use by
35 vanpools serving or traveling through the Joint Base Lewis-McChord
36 I-5 corridor between mile post 116 and 127. The department's public
37 transportation division is authorized to purchase vans in the
38 2013-2015 fiscal biennium, on behalf of public transit agencies,

2 subsection (3)(c).

13 Public Transportation Program (V). The department shall review all
14 projects receiving grant awards under this program at least
15 semiannually to determine whether the projects are making
16 satisfactory progress. Any project that has been awarded funds, but
17 does not report activity on the project within one year of the grant
18 award, must be reviewed by the department to determine whether the
19 grant should be terminated. The department shall promptly close out
20 grants when projects have been completed, and any remaining funds
21 must be used only to fund projects identified in the LEAP
22 transportation document referenced in this subsection. The department
23 shall provide annual status reports on December 15, 2013, and
24 December 15, 2014, to the office of financial management and the
25 transportation committees of the legislature regarding the projects
26 receiving the grants. It is the intent of the legislature to
27 appropriate funds through the regional mobility grant program only
28 for projects that will be completed on schedule. A grantee may not
29 receive more than twenty-five percent of the amount appropriated in
30 this subsection. The department shall not approve any increases or
31 changes to the scope of a project for the purpose of a grantee
32 expending remaining funds on an awarded grant.

33 (b) In order to be eligible to receive a grant under (a) of this
34 subsection during the 2013-2015 fiscal biennium, a transit agency
35 must establish a process for private transportation providers to
36 apply for the use of park and ride facilities. For purposes of this
37 subsection, (i) "private transportation provider" means: An auto
38 transportation company regulated under chapter 81.68 RCW; a passenger
39 charter carrier regulated under chapter 81.70 RCW, except marked or
40 unmarked stretch limousines and stretch sport utility vehicles as

1 defined under department of licensing rules; a private nonprofit
2 transportation provider regulated under chapter 81.66 RCW; or a
3 private employer transportation service provider; and (ii) "private
4 employer transportation service" means regularly scheduled, fixed-
5 route transportation service that is offered by an employer for the
6 benefit of its employees.

7 (6) Funds provided for the commute trip reduction (CTR) program
8 may also be used for the growth and transportation efficiency center
9 program.

10 (7) \$6,424,000 of the total appropriation in this section is
11 provided solely for CTR grants and activities. Of this amount:

12 (a) \$3,900,000 of the multimodal transportation account—state
13 appropriation is provided solely for grants to local jurisdictions,
14 selected by the CTR board, for the purpose of assisting employers

9	<u>\$475,915,000</u>

10 Puget Sound Ferry Operations Account—Private/Local

11 Appropriation.	\$121,000
12 TOTAL APPROPRIATION.	((\$483,525,000))
13	<u>\$476,036,000</u>

14 The appropriations in this section are subject to the following
15 conditions and limitations:

16 (1) The office of financial management budget instructions
17 require agencies to recast enacted budgets into activities. The
18 Washington state ferries shall include a greater level of detail in
19 its 2013-2015 supplemental and 2015-2017 omnibus transportation
20 appropriations act requests, as determined jointly by the office of
21 financial management, the Washington state ferries, and the
22 transportation committees of the legislature. This level of detail
23 must include the administrative functions in the operating as well as
24 capital programs.

25 (2) Until a reservation system is operational on the San Juan
26 islands inter-island route, the department shall provide the same
27 priority loading benefits on the San Juan islands inter-island route
28 to home health care workers as are currently provided to patients
29 traveling for purposes of receiving medical treatment.

30 (3) For the 2013-2015 fiscal biennium, the department may enter
31 into a distributor controlled fuel hedging program and other methods
32 of hedging approved by the fuel hedging committee.

33 (4) ((~~\$113,157,000~~)) \$106,497,000 of the Puget Sound ferry
34 operations account—state appropriation is provided solely for auto
35 ferry vessel operating fuel in the 2013-2015 fiscal biennium, which
36 reflect cost savings from a reduced biodiesel fuel requirement and,
37 therefore, are contingent upon the enactment of section 701, chapter
38 306, Laws of 2013. The amount provided in this subsection represent

1 the fuel budget for the purposes of calculating any ferry fare fuel
2 surcharge. The department shall develop a fuel reduction plan to be
3 submitted as part of its 2014 supplemental budget proposal. The plan
4 must include fuel saving proposals, such as vessel modifications,
5 vessel speed reductions, and changes to operating procedures, along
6 with anticipated fuel saving estimates.

7 (5) \$100,000 of the Puget Sound ferry operations account—state
8 appropriation is provided solely for the department's compliance with
9 its national pollution discharge elimination system permit.

10 (6) When purchasing uniforms that are required by collective
11 bargaining agreements, the department shall contract with the lowest
12 cost provider.

13 (7) \$3,049,000 of the Puget Sound ferry operations account—state
14 appropriation is provided solely for the operating program share of
15 the \$7,259,000 in lease payments for the ferry division's
16 headquarters building. Consistent with the 2012 facilities oversight
17 plan, the department shall strive to consolidate office space in
18 downtown Seattle by the end of 2015. The department shall consider
19 renewing the lease for the ferry division's current headquarters
20 building only if the lease rate is reduced at least (~~fifty~~) forty
21 percent and analysis shows that this is the least cost and risk
22 option for the department. Consolidation with other divisions or
23 state agencies, or a reduction in leased space, must also be
24 considered as part of any headquarters lease renewal analysis.

25 (8) \$5,000,000 of the Puget Sound ferry operations account—state
26 appropriation is provided solely for the purchase of a 2013-2015
27 marine insurance policy. Within this amount, the department is
28 expected to purchase a policy with the lowest deductible possible,
29 while maintaining at least existing coverage levels for ferry
30 vessels, and providing coverage for all terminals.

31 (9) Within existing resources, the department must evaluate the
32 feasibility of using re-refined used motor oil processed in
33 Washington state as a ferry fuel source. The evaluation must include,
34 but is not limited to, research on existing entities currently using
35 the process for re-refined fuel, any required combustible engine
36 modifications, additional needed equipment on the vessels or fueling
37 locations, cost analysis, compatibility with B-5 blended diesel, and
38 meeting engine performance specifications. The department must
39 establish an evaluation group that includes, but is not limited to,

1 persons experienced in the re-refined motor oil industry. The
2 department must deliver a report containing the results of the
3 evaluation to the transportation committees of the legislature and
4 the office of financial management by December 1, 2014.

5 (10) \$71,000 of the Puget Sound ferry operations account—state
6 appropriation is provided solely for one traffic attendant for ferry
7 terminal traffic control at the Fauntleroy ferry terminal.

19 (1) \$40,289,000 of the multimodal transportation account—state
20 appropriation is provided solely for operating and maintaining state-

24 and find cost saving alternatives. The department shall report to the
25 transportation committees of the legislature before the 2014 regular
26 legislative session on its revisions to the Amtrak contract,
27 including a review of the appropriate costs within the contract for
28 concession services, policing, host railroad incentives, and station
29 services and staffing needs. Within thirty days of each annual cost/
30 revenue reconciliation under the Amtrak service contract, the
31 department shall report any changes that would affect the state
32 subsidy amount appropriated in this subsection. Through a competitive
33 process, the department may contract with a private entity for
34 services related to operations and maintenance of the Amtrak Cascades
35 route, including, but not limited to, concession services.

36 (2) Amtrak Cascades runs may not be eliminated.

37 (3) The department shall continue a pilot program by partnering
38 with the travel industry on the Amtrak Cascades service between

2 increasing ridership, maximizing farebox recovery, and stimulating
3 private investment. The pilot program must run from December 31,
4 2013, to December 31, 2014, and evaluate seasonal differences in the
5 program and the effect of advertising. The department may offer to
6 Washington universities an opportunity for business students to work
7 as interns on the analysis of the pilot program process and results.
8 The department shall report on the results of the pilot program to

14 support a data-driven approach to identifying system needs. The
15 department shall work with short line rail owners and operators
16 within the state, provide status updates periodically to the joint
17 transportation committee, submit a progress report of its findings to
18 the transportation committees of the legislature and the office of
19 financial management by December 15, 2014, submit a preliminary
20 report of key findings and recommendations to the transportation
21 committees of the legislature and the office of financial management
22 by March 1, 2015, and submit a final report to the transportation
23 committees of the legislature and the office of financial management

Pursuant to RCW 47.12.063, the department shall work with the owner of King county parcel number 7643400010, which abuts both parcels of the Marginal Way site, and shall convey the Marginal Way site to that abutting property owner for the appraised fair market value of the parcels, the proceeds of which must be deposited in the motor vehicle fund. The conveyance is conditional upon the purchaser's agreement to commit the use of the Marginal Way site to operations with the goal of ending hunger in western Washington. The

32 state bonds, interest earnings, and other miscellaneous sources.

33 (b) The state route number 520 corridor account—state
34 appropriation includes up to \$814,784,000 in proceeds from the sale
35 of bonds authorized in RCW 47.10.879 and 47.10.886.

36 (c) The state route number 520 corridor account—federal
37 appropriation includes up to \$300,000,000 in proceeds from the sale
38 of bonds authorized in RCW 47.10.879 and 47.10.886.

1 (d) \$165,175,000 of the transportation partnership account—state
2 appropriation, \$300,000,000 of the state route number 520 corridor
3 account—federal appropriation, and \$880,111,000 of the state route
4 number 520 corridor account—state appropriation are provided solely
5 for the SR 520 Bridge Replacement and HOV project (8BI1003). Of the
6 amounts appropriated in this subsection (12)(d), \$84,001,000 of the
7 state route number 520 corridor account—federal appropriation and
8 \$354,411,000 of the state route number 520 corridor account—state
9 appropriation must be put into unallotted status and are subject to
10 review by the office of financial management. The director of the
11 office of financial management shall consult with the joint
12 transportation committee prior to making a decision to allot these
13 funds.

14 (e) When developing the financial plan for the project, the
15 department shall assume that all maintenance and operation costs for
16 the new facility are to be covered by tolls collected on the toll
17 facility and not by the motor vehicle account.

18 (f) The legislature finds that the most appropriate way to pay
19 for the cost overruns related to change orders, additional sales tax,
20 and future risks associated with pontoon design errors is for the
21 state to issue triple pledge bonds in the 2015-2017 fiscal biennium
22 resulting in \$110,961,000 in proceeds, and use efficiencies,
23 including the use of least cost planning or practical design, and
24 favorable bids in the highway construction program to generate an
25 additional \$61,066,000 towards paying for the estimated project
26 overruns. Of this additional \$61,066,000, \$33,866,000 should come
27 from the transportation partnership account—state appropriation and
28 \$27,200,000 should come from federal funds. As the department
29 identifies savings in federal funds during the 2013-2015 fiscal
30 biennium, the department shall prioritize the use of these funds
31 towards the anticipated \$27,200,000 in federal funds needed to
32 address cost overruns before expending state funds during this fiscal
33 biennium. The legislature assumes that issuing bonds to complete this
34 project as listed in LEAP Transportation Document 2014-1 as developed
35 March 10, 2014, does not require a comprehensive financial plan for a
36 project that completes the state route number 520 corridor to
37 Interstate 5.

38 (g) The department's 2014 supplemental budget allotment submittal
39 must include a project-specific plan detailing how the department

1 will achieve the mandatory budget savings in (f) of this subsection,
2 including the use of least cost planning or practical design as a
3 means to generate savings, as referenced in subsection (23) of this
4 section. The use of least cost planning or practical design may
5 result in a reduction of project cost, but not a reduction of
6 functional scope. The director of financial management shall notify
7 the transportation committees of the legislature in writing seven
8 days prior to approving any allotment modifications under this
9 subsection.

10 (13) Within the amounts provided in this section, the department
11 must continue to work with the Seattle department of transportation
12 in their joint planning, design, outreach, and operation of the
13 remaining west side elements including, but not limited to, the
14 Montlake lid, the bicycle/pedestrian path, the effective network of
15 transit connections, and the Portage Bay bridge of the SR 520 Bridge
16 Replacement and HOV project.

17 (14) (~~(\$1,062,000)~~) \$514,000 of the motor vehicle account—federal
18 appropriation (~~(is)~~) and \$19,000 of the motor vehicle account—state
19 appropriation are provided solely for the 31st Ave SW Overpass
20 Widening and Improvement project (L1100048).

21 (15) (~~(\$25,243,000)~~) \$18,016,000 of the motor vehicle account—
22 state appropriation is provided solely to advance the design,
23 preliminary engineering, and rights-of-way acquisition for the
24 priority projects identified in LEAP Transportation Document 2014-3
25 as developed March 10, 2014. Funds must be used to advance the
26 emergent, initial development of these projects for the purpose of
27 expediting delivery of the associated major investments when funding
28 for such investments becomes available. Funding may be reallocated
29 between projects to maximize the accomplishment of design and
30 preliminary engineering work and rights-of-way acquisition, provided
31 that all projects are addressed. It is the intent of the legislature
32 that, while seeking to maximize the outcomes in this section, the
33 department shall provide for continuity of both the state and
34 consulting engineer workforce, while strategically utilizing private
35 sector involvement to ensure consistency with the department's
36 business plan for staffing in the highway construction program in the
37 current fiscal biennium.

38 (16) If a planned roundabout in the vicinity of state route
39 number 526 and 84th Street SW would divert commercial traffic onto

1 neighborhood streets, the department may not proceed with
2 improvements at state route number 526 and 84th Street SW until the
3 traffic impacts in the vicinity of state route number 526 and 40th
4 Avenue West are addressed.

5 (17) The legislature finds that there are sixteen companies
6 involved in wood preserving in the state that employ four hundred
7 workers and have an annual payroll of fifteen million dollars. Prior
8 to the department's switch to steel guardrails, ninety percent of the
9 twenty-five hundred mile guardrail system was constructed of
10 preserved wood and one hundred ten thousand wood guardrail posts were
11 produced annually for state use. Moreover, the policy of using steel
12 posts requires the state to use imported steel. Given these findings,
13 where practicable, and until June 30, 2015, the department shall
14 include the design option to use wood guardrail posts, in addition to
15 steel posts, in new guardrail installations. The selection of posts
16 must be consistent with the agency design manual policy that existed
17 before December 2009.

18 (18) The legislature finds that "right-sizing" is a lean, metric-
19 based approach to determining project investments. This concept
20 entails compromise between project cost and design, incorporating
21 local community needs, desired outcomes, and available funding.
22 Furthermore, the legislature finds that the concepts and principles
23 the department has utilized in the safety analyst program have been
24 effective tools to prioritize projects and reduce project costs.
25 Therefore, the department shall establish a pilot project on the SR
26 3/Belfair Bypass - New Alignment (300344C) to begin implementing the
27 concept of "right-sizing" in the highway construction program.

28 (19) For urban corridors that are all or partially within a
29 metropolitan planning organization boundary, for which the department
30 has not initiated environmental review, and that require an
31 environmental impact statement, at least one alternative must be
32 consistent with the goals set out in RCW 47.01.440.

33 (20) The department shall itemize all future requests for the
34 construction of buildings on a project list and submit them through
35 the transportation executive information system as part of the
36 department's 2014 budget submittal. It is the intent of the
37 legislature that new facility construction must be transparent and
38 not appropriated within larger highway construction projects.

39 (21) \$19,513,000 of the motor vehicle account—state appropriation
40 and \$9,450,000 of the motor vehicle account—federal appropriation are

1 provided solely for improvement program support activities (095901X).
2 \$18,000,000 of this amount must be held in unallotted status until
3 the office of financial management certifies that the department's
4 2014 supplemental budget request conforms to the terms of subsection
5 (20) of this section.

6 (22) Any new advisory group that the department convenes during
7 the 2013-2015 fiscal biennium must be representative of the interests
8 of the entire state of Washington.

9 (23) Practical design offers targeted benefits to a state
10 transportation system within available fiscal resources. This
11 delivers value not just for individual projects, but for the entire
12 system. Applying practical design standards will also preserve and
13 enhance safety and mobility. The department shall implement a
14 practical design strategy for transportation design standards. By
15 June 30, 2015, the department shall report to the governor and the
16 house of representatives and senate transportation committees on
17 where practical design has been applied or is intended to be applied
18 in the department and the cost savings resulting from the use of
19 practical design.

12 and amount in LEAP Transportation Document ((~~2014-1~~)) 2015-1 as
13 developed ((~~March 10, 2014~~)) May 26, 2015, Program - Highway

27 the pontoon design errors on the SR 520 Bridge Replacement and HOV
28 project (8BI1003) as described in section 306(12)(f) ((~~of this act~~)),
29 chapter 222, Laws of 2014. Any federal funds gained through
30 efficiencies or the redistribution process that are in excess of
31 \$27,200,000 must then be applied to the "Contingency (Unfunded)
32 Highway Preservation Projects" as identified in LEAP Transportation

37 (3) Within the motor vehicle account—state appropriation and
38 motor vehicle account—federal appropriation, the department may

1 transfer funds between programs I and P, except for funds that are

6 account—state appropriation are provided solely for the SR 167/
7 Puyallup River Bridge Replacement project (316725A). This project
8 must be completed as a design-build project. The department must work
9 with local jurisdictions and the community during the environmental
10 review process to develop appropriate esthetic design elements, at no
11 additional cost to the department, and traffic management plans
12 pertaining to this project. The department must report to the
13 transportation committees of the legislature on estimated cost and/or
14 time savings realized as a result of using the design-build process.

15 (5) The department shall examine the use of electric arc furnace
16 slag for use as an aggregate for new roads and paving projects in
17 high traffic areas and report back to the legislature on its current
18 use in other areas of the country and any characteristics that can
19 provide greater wear resistance and skid resistance in new pavement
20 construction.

24 The appropriations in this section are subject to the following
25 conditions and limitations:

26 (1) Except as provided otherwise in this section, the entire
27 appropriations in this section are provided solely for the projects
28 and activities as listed in LEAP Transportation Document ((~~2014-2~~)
29 2015-2 ALL PROJECTS as developed ((~~March 10, 2014~~) May 26, 2015,

31 (2) The Puget Sound capital construction account—state
32 appropriation includes up to \$20,000,000 in proceeds from the sale of
33 bonds authorized in RCW 47.10.843.

34 (3) ((~~\$137,425,000~~) \$136,957,000 of the transportation 2003

37 ((~~\$300,000~~) \$768,000 of the Puget Sound capital construction account
38 —federal appropriation are provided solely for the acquisition of two
39 144-car vessels ((~~projects~~) L2200038 and L2200039). The department

1 shall use as much already procured equipment as practicable on the
2 144-car vessels.

3 (4) (~~(\$14,728,000)~~) \$8,773,000 of the Puget Sound capital

5 of the Puget Sound capital construction account—state appropriation,
6 and (~~(\$1,535,000)~~) \$490,000 of the multimodal transportation account—
7 state appropriation are provided solely for the Mukilteo ferry
8 terminal (~~((project))~~) 952515P). To the greatest extent practicable,
9 the department shall seek additional federal funding for this
10 project. Within the multimodal transportation account—state
11 appropriation amount provided in this subsection, the department
12 shall lease to the city in which the project is located a portion of
13 the department's property associated with this project to provide
14 safe, temporary public access from the easterly terminus of First
15 Street to the vicinity of Front Street. The department shall provide
16 the lease at no cost in recognition of the impacts of this project to
17 the city and require appropriate liability and maintenance coverage
18 in the terms of the lease. Public access must be installed and
19 removed at no cost to the state prior to construction of the
20 multimodal terminal project.

21 (5) (~~(\$4,935,000)~~) \$7,000,000 of the Puget Sound capital
22 construction account—state appropriation is provided solely for
23 emergency capital repair costs (~~((project))~~) 999910K). Funds may only
24 be spent after approval by the office of financial management.

25 (6) Consistent with RCW 47.60.662, which requires the Washington
26 state ferry system to collaborate with passenger-only ferry and
27 transit providers to provide service at existing terminals, the
28 department shall ensure that multimodal access, including for
29 passenger-only ferries and transit service providers, is not
30 precluded by any future modifications at the terminal.

31 (7) (~~(\$4,026,000)~~) \$4,788,000 of the Puget Sound capital
32 construction account—state appropriation is provided solely for the
33 reservation and communications system projects (L200041 & L200042).

34 (8) \$4,210,000 of the Puget Sound capital construction account—
35 state appropriation is provided solely for the capital program share
36 of \$7,259,000 in lease payments for the ferry division's headquarters
37 building. Consistent with the 2012 facilities oversight plan, the
38 department shall strive to consolidate office space in downtown
39 Seattle by the end of 2015. The department shall consider renewing

1 the lease for the ferry division's current headquarters building only
2 if the lease rate is reduced at least (~~(fifty)~~) forty percent and
3 analysis shows that this is the least cost and risk option for the
4 department. Consolidation with other divisions or state agencies, or
5 a reduction in leased space, must also be considered as part of any
6 headquarters lease renewal analysis.

16 ~~(10))~~ The transportation 2003 account (nickel account)—state

22 chapter . . . (Engrossed Second Substitute House Bill No. 1129), Laws
23 of 2014 (ferry vessel replacement) is not enacted by June 30, 2014,
24 the amount provided in the subsection lapses.

25 ~~((12))~~ (11) If the department pursues a conversion of the
26 existing diesel powered Issaquah class fleet to a different fuel
27 source or engine technology or the construction of a new vessel
28 powered by a fuel source or engine technology that is not diesel
29 powered, the department must use a design-build procurement process.

30 ~~((13))~~ (12) \$350,000 of the Puget Sound capital construction
31 account—state appropriation is provided solely for the issuance of a
32 request for proposals to convert the Issaquah class vessels to use
33 liquefied natural gas and to provide a one-time stipend to the entity
34 awarded the conversion contract. Of the amounts provided in this
35 subsection:

36 (a) \$100,000 of the Puget Sound capital construction account—
37 state appropriation is for the department to issue a request for
38 proposals for a design-build contract consistent with RCW 47.20.780
39 to convert six Issaquah class vessels to be powered by liquefied

1 natural gas. Consistent with RCW 47.56.030(2)(c), the legislature
 2 finds that the performance needs of the department in converting to
 3 liquefied natural gas are for engines with the lowest life-cycle
 4 costs, and the department must weigh this criteria as a priority when
 5 evaluating the proposals. To encourage cost saving ideas, the
 6 department shall limit prescribing design elements in the proposal to
 7 those approved or required by the United States coast guard in the
 8 liquefied natural gas waterways suitability assessment or those
 9 otherwise essential to provide clear direction to bidders. The
 10 request for proposals must include a process for evaluating proposals
 11 that may include alternative financing arrangements that are in
 12 compliance with state private financing law. When evaluating the
 13 financial merits of any liquefied natural gas conversion request for
 14 proposals, the department shall give consideration to the inability
 15 of the state to fund a liquefied natural gas conversion using
 16 currently available public resources. The department shall issue the
 17 request for proposals within forty-five days of rejecting the
 18 liquefied natural gas request for proposals issued under section
 19 308(11), chapter 86, Laws of 2012 or receiving final findings from
 20 the United States coast guard on the liquefied natural gas waterways
 21 suitability assessment, whichever is later.

22 (b) \$250,000 of the Puget Sound capital construction account—
 23 state appropriation is for the entity awarded the contract pursuant
 24 to this subsection.

7 conditions and limitations:

8 (1)(a) Except as provided otherwise in this section, the entire
9 appropriations in this section are provided solely for the projects
10 and activities as listed by project and amount in LEAP Transportation
11 Document ((~~2014-2~~)) 2015-2 ALL PROJECTS as developed ((~~March 10,~~

13 (b) Within the amounts provided in this section, \$7,669,000 of
14 the transportation infrastructure account—state appropriation is for
15 low-interest loans through the freight rail investment bank program
16 identified in the LEAP transportation document referenced in (a) of
17 this subsection. The department shall issue freight rail investment
18 bank program loans with a repayment period of no more than ten years,
19 and only so much interest as is necessary to recoup the department's
20 costs to administer the loans.

21 (c) Within the amounts provided in this section, \$2,440,000 of

26 identified in the LEAP transportation document referenced in (a) of
27 this subsection.

28 (2) Unsuccessful 2012 freight rail assistance program grant
29 applicants may be awarded freight rail investment bank program loans,
30 if eligible. The department shall issue a call for projects for the
31 freight rail investment bank loan program and the freight rail
32 assistance grant program, and shall evaluate the applications in a
33 manner consistent with past practices as specified in section 309,

19 those currently owned by the department.

20 (5) The department shall provide quarterly reports to the office
21 of financial management and the transportation committees of the
22 legislature regarding applications that the department submits for

30 evaluation and assessment of future maintenance needs on the line to
31 ensure appropriate levels of state investment.

32 (b) Expenditures from the essential rail assistance account—state
33 appropriation in this section may not exceed the combined total of:

17 **IMPLEMENTING PROVISIONS**

18 **Sec. 1201.** 2014 c 222 s 601 (uncodified) is amended to read as
 19 follows:

20 **FUND TRANSFERS**

21 (1) The transportation 2003 projects or improvements and the 2005
 22 transportation partnership projects or improvements are listed in the
 23 LEAP list titled ~~((2014-1))~~ 2015-1 as developed ~~((March 10, 2014))~~
 24 May 26, 2015, which consists of a list of specific projects by fund
 25 source and amount over a ten-year period. Current fiscal biennium
 26 funding for each project is a line-item appropriation, while the
 27 outer year funding allocations represent a ten-year plan. The
 28 department is expected to use the flexibility provided in this
 29 section to assist in the delivery and completion of all
 30 transportation partnership account and transportation 2003 account
 31 (nickel account) projects on the LEAP transportation documents
 32 referenced in this act. However, this section does not apply to the
 33 I-5/Columbia River Crossing project (400506A). For the 2011-2013 and
 34 2013-2015 project appropriations, unless otherwise provided in this
 35 act, the director of financial management may authorize a transfer of
 36 appropriation authority between projects funded with transportation
 37 2003 account (nickel account) appropriations, or transportation

1 partnership account appropriations, in order to manage project
2 spending and efficiently deliver all projects in the respective
3 program under the following conditions and limitations:

4 (a) Transfers may only be made within each specific fund source
5 referenced on the respective project list;

6 (b) Transfers from a project may not be made as a result of the
7 reduction of the scope of a project or be made to support increases
8 in the scope of a project;

9 (c) Each transfer between projects may only occur if the director
10 of financial management finds that any resulting change will not
11 hinder the completion of the projects as approved by the legislature.
12 Until the legislature reconvenes to consider the 2014 supplemental
13 omnibus transportation appropriations act, any unexpended 2011-2013
14 appropriation balance as approved by the office of financial
15 management, in consultation with the legislative staff of the house
16 of representatives and senate transportation committees, may be
17 considered when transferring funds between projects;

18 (d) Transfers from a project may be made if the funds
19 appropriated to the project are in excess of the amount needed to
20 complete the project;

21 (e) Transfers may not occur for projects not identified on the
22 applicable project list;

23 (f) Transfers may not be made while the legislature is in
24 session; and

25 (g) Transfers between projects may be made, without the approval
26 of the director of the office of financial management, by the
27 department of transportation until the transfer amount by project
28 exceeds two hundred fifty thousand dollars, or ten percent of the
29 total project, whichever is less. These transfers must be reported
30 quarterly to the director of financial management and the chairs of
31 the house of representatives and senate transportation committees.

32 (2) At the time the department submits a request to transfer
33 funds under this section, a copy of the request must be submitted to
34 the transportation committees of the legislature.

35 (3) The office of financial management shall work with
36 legislative staff of the house of representatives and senate
37 transportation committees to review the requested transfers in a
38 timely manner.

39 (4) The office of financial management shall document approved
40 transfers and schedule changes in the transportation executive

1 information system, compare changes to the legislative baseline
2 funding and schedules identified by project identification number
3 identified in the LEAP transportation documents referenced in this
4 act, and transmit revised project lists to chairs of the
5 transportation committees of the legislature on a quarterly basis.

6 NEW SECTION. **Sec. 1202.** A new section is added to 2013 c 306
7 (uncodified) to read as follows:

8 The appropriations to the department of transportation in chapter
9 222, Laws of 2014 and this act must be expended for the programs and
10 in the amounts specified in this act. However, after May 1, 2015,
11 unless specifically prohibited, the department may transfer state
12 appropriations for the 2013-2015 fiscal biennium among operating
13 programs after approval by the director of the office of financial
14 management. However, the department shall not transfer state moneys
15 that are provided solely for a specific purpose. The department shall
16 not transfer funds, and the director of the office of financial
17 management shall not approve the transfer, unless the transfer is
18 consistent with the objective of conserving, to the maximum extent
19 possible, the expenditure of state funds and not federal funds. The
20 director of the office of financial management shall notify the
21 appropriate transportation committees of the legislature no fewer
22 than ten business days before approving any allotment modifications
23 or transfers under this section. The written notification must
24 include a narrative explanation and justification of the changes,
25 along with expenditures and allotments by program and appropriation,
26 both before and after any allotment modifications or transfers.

27 **MISCELLANEOUS**

28 NEW SECTION. **Sec. 1301.** If any provision of this act or its
29 application to any person or circumstance is held invalid, the
30 remainder of the act or the application of the provision to other
31 persons or circumstances is not affected.

32 NEW SECTION. **Sec. 1302.** This act is necessary for the immediate
33 preservation of the public peace, health, or safety, or support of
34 the state government and its existing public institutions, and takes
35 effect immediately.
