2015-17 OMNIBUS
CAPITAL OVERVIEW &
PROJECT LIST**

SENATE CHAIR

**SENATE WAYS & MEANS COMMITTEE
APRIL 8, 2015**

SENATE PROPOSED 2015-17 CAPITAL BUDGET

OVERVIEW

The Senate capital budget proposal appropriates and authorizes \$3.9 billion in new projects. This amount includes \$280 million in separate legislation (SSB 6080) to help school districts build additional classrooms necessary to reduce class-size in kindergarten through third grade. It also includes \$137 million in projects financed with certificates of participation (COPs). The budget allocates about half of the money to education.

	Bonds	Total
Public Schools	716	943
Higher Education	559	924
Other Education	21	21
Total Education	1,296	1,888
General Government	548	776
Human Services	132	178
Natural Resources	385	1,077
Total	2,361	3,919

PUBLIC SCHOOLS

The budget allocates 30 percent of the total budget to public schools. This amount is a 66 percent increase from the 2013-15 biennium and includes:

- \$613 million for the school construction assistance program,
- \$280 million for added classrooms to enable class-size reductions in kindergarten through third grade,
- \$38 million for skills centers, and
- \$10 million for grants to upgrade high school facilities to support science, technology, engineering and math curriculum (STEM)

HIGHER EDUCATION

The Senate higher education capital budget authorizes \$923.7 million (\$558.7 state bonds) in higher education facilities for 2015-17. This represents a \$210 million increase from 2013-15 (29%) authorized levels. Sixty-one percent is for the four-year institutions and the remainder is for the community and technical colleges. The proposed capital budget follows the priorities established by the State Board for Community and Technical Colleges.

The proposed Senate higher education capital budget reduces any project that exceeds the square footage cost range established in the Berk & Associates report adjusted for inflation. OFM is instructed to perform a new higher education cost study that examines different financing options for equipment that has an estimated life span less than 25 years - the typical financing term for state bonds.

Funding is provided for a variety of major projects, including:

- \$70 million for the renovation of Carver Hall at Western Washington University. \$6 million is funding through alternative financing;
- \$52 million for the construction of the Samuelson Communication and Technology Center at Central Washington University;
- \$50 million for new construction of the WSU - Everett University Center;
- \$46 million for the replacement of the Burke Museum at the University of Washington;
- \$42 million for the new construction of the College Instruction Center at the Olympic College;
- \$37 million for the Student Services building at Centralia Community College. \$5 million is funding through alternative financing.
- \$32.5 million for the new construction of the Computer Science & Engineering Expansion at the University of Washington; and
- \$30 million for the renovation of Troy Hall at WSU Pullman.

NATURAL RESOURCES

The budget allocates \$1.1 billion for natural resource related projects. This includes:

- \$212 million in new toxic waste clean-up appropriations
- \$68.8 million for Washington Wildlife and Recreation Program (WWRP) grants. This amount fully funds 116 project, 17 of which are appropriated directly to the recipient state agency in order to coordinate these projects with the rest of the agency's capital budget. The WWRP appropriation temporarily suspends habitat land acquisition by state agencies. The budget fully funds 80 local parks and trails.
- \$63.7 million for capital projects at state parks
- \$86.2 million for the Department of Fish and Wildlife, including \$15 million for the Soos Creek Hatchery, and \$10.5 million for the Clarks Creek Hatchery.

GENERAL GOVERNMENT AND HUMAN SERVICES

The budget allocates \$954 million for general government and human services. This includes:

- \$65 million for affordable housing
- \$30 million for grant to expand community behavioral health beds
- \$50 million to continue development of flood control efforts in the Chehalis river basin,
- \$483 million for assistance for local government infrastructure (includes funding in department of ecology for water pollution control and centennial clean water appropriations)
- \$77 million for improvement at institutions in the Department of Social and Health Services.
