the I-405/SR 522 to I-5 Capacity Improvements project (L2000234) in
 the 2017-2019 fiscal biennium.

3 (12) \$1,500,000 of the transportation partnership account—state 4 appropriation is provided solely for preliminary engineering for 5 adding capacity on Interstate 405 between state route number 522 and 6 Interstate 5. The funding is a transfer from the I-405/Kirkland 7 Vicinity Stage 2 - Widening project due to savings, and will start an 8 additional phase of this I-405 project.

9 (13)(a) The SR 520 Bridge Replacement and HOV project (8BI1003) 10 is supported over time from multiple sources, including a 11 \$300,000,000 TIFIA loan, \$924,615,000 in Garvee bonds, toll revenues, 12 state bonds, interest earnings, and other miscellaneous sources.

(b) \$44,311,000 of the transportation partnership account—state appropriation is provided solely for the SR 520 Bridge Replacement and HOV project (8BI1003).

16 (c) When developing the financial plan for the project, the 17 department shall assume that all maintenance and operation costs for 18 the new facility are to be covered by tolls collected on the toll 19 facility and not by the motor vehicle account.

20 (14) For urban corridors that are all or partially within a 21 metropolitan planning organization boundary, for which the department 22 has not initiated environmental review, and that require an 23 environmental impact statement, at least one alternative must be 24 consistent with the goals set out in RCW 47.01.440.

25 (15) The department shall itemize all future requests for the construction of buildings on a project list and submit them through 26 the transportation executive information system as part 27 of the 28 department's 2018 budget submittal. It is the intent of the 29 legislature that new facility construction must be transparent and not appropriated within larger highway construction projects. 30

31 (16) Any advisory group that the department convenes during the 32 2017-2019 fiscal biennium must consider the interests of the entire 33 state of Washington.

34 (17) It is the intent of the legislature that for the I-5 JBLM Corridor Improvements project (M00100R), the department 35 shall actively pursue \$50,000,000 in federal funds to pay for this project 36 to supplant state funds in the future. \$50,000,000 in connecting 37 Washington account funding must be held in unallotted status during 38 the 2021-2023 fiscal biennium. These funds may only be used after the 39 department has provided notice to the office of financial management 40 S-1991.5/17 5th draft Code Rev/BP:jcm 31

that it has exhausted all efforts to secure federal funds from the
 federal highway administration and the department of defense.

(18) Of the amounts allocated to the Puget Sound Gateway project (M00600R) in LEAP Transportation Document 2017-1 as developed March 20, 2017, \$4,000,000 must be used to complete the bridge connection at 28th/24th Street over state route number 509 in the city of SeaTac. The bridge connection must be completed prior to other construction on the state route number 509 segment of the project.

(19) In making budget allocations to the Puget Sound Gateway 9 project, the department shall implement the project's construction as 10 11 а single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state 12 route number 167 and state route number 509 in collaboration with 13 affected stakeholders. Specific funding allocations must be based on 14 where and when specific project segments are ready for construction 15 16 to move forward and investments can be best optimized for timely 17 project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project. 18

19 (20) It is the intent of the legislature that, for the I-5/North 20 Lewis County Interchange project (L2000204), the department develop 21 and design the project with the objective of significantly improving 22 access to the industrially zoned properties in north Lewis county. 23 The design must consider the county's process of investigating 24 alternatives to improve such access from Interstate 5 that began in 25 March 2015.

(21) \$600,000 of the motor vehicle account—state appropriation is
provided solely for the department to complete an interchange
justification report (IJR) for the U.S. 2 trestle (L1000158),
covering the state route number 204 and 20th Street interchanges at
the end of the westbound structure.

(a) The department shall develop the IJR in close collaboration
 with affected local jurisdictions, including Snohomish county and the
 cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe.

34 (b) Within the amount provided for the IJR, the department must
 35 address public outreach and the overall operational approval of the
 36 IJR.

37 (c) The department shall complete the IJR and submit the final 38 report to the governor and the transportation committees of the 39 legislature by July 1, 2018.

S-1991.5/17 5th draft

1 (22) The legislature recognizes that the city of Mercer Island 2 has unique access issues that require the use of Interstate 90 to 3 leave the island and that this access may be impeded by the I-90/Two 4 Way Transit and HOV Improvements project. The department must 5 continue to work with the city of Mercer Island to address potential 6 access solutions as the project nears completion.

7 (23) \$2,000,000 of the Interstate 405 express toll lanes
8 operations account—state appropriation is provided solely for the
9 I-405 NB Hard Shoulder Running - SR 527 to I-5 project (L1000163).

(24) The legislature finds that there are sixteen companies 10 involved in wood preserving in the state that employ four hundred 11 12 workers and have an annual payroll of fifteen million dollars. Before 13 the department's switch to steel guardrails, ninety percent of the 14 twenty-five hundred mile quardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were 15 produced annually for state use. Moreover, the policy of using steel 16 17 posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2019, the department shall 18 include the design option to use wood guardrail posts, in addition to 19 steel posts, in new guardrail installations. The selection of posts 20 21 must be consistent with the agency design manual policy that existed 22 before December 2009.

(25) The department shall complete all steps or phases of the 23 24 practical solutions study process for the SR 162 Study/Design project 25 (L2000107) during the 2017-2019 fiscal biennium. The last phase of the study must result in refined solutions with well-defined, 26 27 actionable steps for all identified strategies that can be implemented over the next twenty years to improve safety and 28 congestion and accommodate projected growth along the state route 29 number 162 corridor. For capital improvements to the corridor, the 30 product should include short, medium, and long-term projects that 31 32 have been sufficiently vetted to allow the projects to move forward to design or construction, or both, without further analysis of 33 alternatives. 34

35 (26) For the SR 526 Corridor Improvements project (N52600R), the 36 department shall look holistically at the state route number 526 37 corridor from the state route number 526/Interstate 5 interchange at 38 the east end to the southwest Everett industrial area and Boeing's 39 west access road on the west end. The department, working with 40 affected jurisdictions and stakeholders, shall select project Code Rev/BP:jcm 33 S-1991.5/17 5th draft elements that best maximize mobility and congestion relief in the corridor and draw from project elements identified in a practical solutions process.

4 (27)(a) For projects funded by the connecting Washington account— 5 state on LEAP Transportation Document 2017-1 as developed March 20, 6 2017, if the department expects to have substantial reappropriations 7 for the 2019-2021 fiscal biennium, the department may, on a pilot 8 basis, apply funding from a project with an appropriation that cannot 9 be used for the current fiscal biennium to advance one of the 10 following projects:

11

(i) SR 20/Sharpes Corner Vicinity Intersection (L1000112);

12 (ii) I-5/Marvin Road/SR 510 Interchange (L1100110);

13 (iii) I-5/Northbound On-ramp at Bakerview (L2000119);

14 (iv) US 395/Ridgeline Intersection (L2000127);

15 (v) I-90/Eastside Restripe Shoulders (L2000201);

16 (vi) SR 240/Richland Corridor Improvements (L2000202);

17 (vii) SR 14/Bingen Overpass (L2220062);

18 (viii) US Hwy 2 Safety (N00200R);

- 19 (ix) SR 520/148th Ave NE Overlake Access Ramp (L1100101);
- 20 (x) SR 28/SR 285 North Wenatchee Area Improvements (L2000061);

21 (xi) I-5/Rebuild Chambers Way Interchange Improvements
22 (L2000223);

23 (xii) SR 28 East Wenatchee Corridor Improvements (T10300R);

24 (xiii) SR 3/Belfair Bypass - New Alignment (T30400R); or

25 (xiv) SR 510/Yelm Loop Phase 2 (T32700R).

(b) At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2019-2021 fiscal biennium.

11 **Sec. 905.** 2016 c 14 s 205 (uncodified) is amended to read as 12 follows:

13 FOR THE TRANSPORTATION COMMISSION

Motor Vehicle Account—State Appropriation ((\$2,667,000))
\$2,516,000
Motor Vehicle Account—Federal Appropriation \$500,000
Multimodal Transportation Account—State
Appropriation
TOTAL APPROPRIATION
\$3,128,000

The appropriations in this section are subject to the following conditions and limitations:

(1) \$300,000 of the motor vehicle account-state appropriation is 23 provided solely to continue evaluating a road usage charge as 24 an alternative to the motor vehicle fuel tax to fund investments in 25 transportation. The evaluation must include monitoring and reviewing 26 work that is underway in other states and nationally. The commission 27 28 may coordinate with the department of transportation to jointly pursue any federal or other funds that are or might become available 29 and eligible for road usage charge pilot projects. The commission 30 must reconvene the road usage charge steering committee, with the 31 32 same membership authorized in chapter 222, Laws of 2014, and report 33 to the governor's office and the transportation committees of the house of representatives and the senate by December 15, 2015. 34

35 (2) \$150,000 of the motor vehicle account—state appropriation is 36 provided solely for the commission to use an outside survey firm to 37 conduct three transportation surveys during the 2015-2017 fiscal 38 biennium. The commission must consult with the joint transportation

1 committee when deciding on the survey topics and design to ensure the 2 survey results will deliver the data, information, and analysis for 3 future transportation policy and strategic planning decisions in a 4 manner useful to the legislature.

(3)(a) The legislature finds that, while some travel times have 5 6 improved through Interstate 405 between the junctions with Interstate 5 on the north end and NE 6th Street in the city of Bellevue on the 7 south end, especially for transit trips, the implementation of the 8 express toll lane system has made travel more difficult for a number 9 of other drivers and trips. To provide some relief to drivers, the 10 11 legislature encourages the commission to expedite consideration of 12 the elimination of tolls during evening nonpeak hours, weekends, and holidays, to the extent that such a change will improve commuters' 13 experience on this portion of Interstate 405. The legislature further 14 finds that the commission, as the tolling authority of the state, 15 16 should act swiftly, working in conjunction with the department of 17 transportation's comprehensive effort to tackle obstacles adversely 18 affecting commutes on this portion of Interstate 405, to drive 19 improved results for the users of this critical corridor as soon as is practicable. 20

21 (b) In accordance with the rule-making authority provided under 34.05.350(1)(a), the legislature deems it necessary, 22 RCW for preservation of the general welfare, that operational changes be made 23 to improve the express toll lane program on Interstate 405 and that 24 25 the tolling authority use its emergency rule-making authority to 26 effect such changes in accordance with RCW 47.56.850 and 47.56.880. The legislature finds that the need for improvements to the commuter 27 experience on the portion of Interstate 405 identified in (a) of this 28 subsection necessitates that such action be taken in an expedited 29 fashion. The tolling authority, with input from the department of 30 31 transportation, shall evaluate the hours and days of operation for the express toll lanes and the minimum high occupancy vehicle 32 passenger requirements for using the express toll lanes, taking into 33 consideration the goals of: Reducing travel time on this portion of 34 Interstate 405, including in the general purpose lanes; reducing the 35 36 cost of traveling within the express toll lanes on this portion of Interstate 405; and maintaining sufficient revenue to pay for this 37 38 portion of Interstate 405's express toll lane operating costs. This 39 subsection (3) does not create a private right of action.
