By Representative Tharinger

1 Strike everything after the enacting clause and insert the  
2 following:

3 "NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted  
4 and, subject to the provisions set forth in this act, the several  
5 dollar amounts hereinafter specified, or so much thereof as shall be  
6 sufficient to accomplish the purposes designated, are hereby  
7 appropriated and authorized to be incurred for capital projects  
8 during the period beginning with the effective date of this act and  
9 ending June 30, 2019, out of the several funds specified in this act.

10 (2) The definitions in this subsection apply throughout this act  
11 unless the context clearly requires otherwise.

12 (a) "Fiscal year 2018" or "FY 2018" means the period beginning  
13 July 1, 2017, and ending June 30, 2018.

14 (b) "Fiscal year 2019" or "FY 2019" means the period beginning  
15 July 1, 2018, and ending June 30, 2019.

16 (c) "Lapse" or "revert" means the amount shall return to an  
17 unappropriated status.

18 (d) "Provided solely" means the specified amount may be spent  
19 only for the specified purpose.

20 (3) Unless otherwise specifically authorized in this act, any  
21 portion of an amount provided solely for a specified purpose that is  
22 not expended subject to the specified conditions and limitations to  
23 fulfill the specified purpose shall lapse.

24 (4) The amounts shown under the headings "Prior Biennia," "Future  
25 Biennia," and "Total" in this act are for informational purposes only  
26 and do not constitute legislative approval of these amounts. "Prior  
27 biennia" typically refers to the immediate prior biennium for  
28 reappropriations, but may refer to multiple biennia in the case of  
29 specific projects. A "future biennia" amount is an estimate of what  
30 may be appropriated for the project or program in the 2019-2021  
31 biennium and the following three biennia; an amount of zero does not

1 necessarily constitute legislative intent to not provide funding for  
2 the project or program in the future.

3 (5) "Reappropriations" in this act are appropriations and, unless  
4 the context clearly provides otherwise, are subject to the relevant  
5 conditions and limitations applicable to appropriations.  
6 Reappropriations shall be limited to the unexpended balances  
7 remaining on June 30, 2017, from previous biennial appropriations for  
8 each project.

- 13 (vi) Othello Homesight Community Center. . . . . \$3,000,000

14 (vii) \$6,000,000 is provided solely for grants for high quality  
15 low-income housing projects that will quickly move people from  
16 homelessness into secure housing, and are significantly less  
17 expensive to construct than traditional housing. It is the intent of  
18 the legislature that these grants serve projects with a total project  
19 development cost per housing unit of less than \$125,000, excluding  
20 the value of land, and with a commitment by the applicant to maintain  
21 the housing units for at least a twenty-five year period. Amounts  
22 provided that are subject to this subsection must be used to plan,  
23 predesign, design, provide technical assistance and financial  
24 services, purchase land for, and build innovative low-income housing  
25 units. \$3,000,000 of the appropriation that is subject to this  
26 subsection is provided solely for innovative affordable housing in  
27 Shelton and \$3,000,000 of the appropriation that is subject to this  
28 subsection is provided solely for innovative affordable housing for  
29 veterans in Orting. Mental health and substance abuse counseling  
30 services must be offered to residents of housing projects supported  
31 by appropriations in this subsection. The housing projects supported  
32 by appropriations in this subsection must meet or exceed the  
33 standards for temporary working housing in chapter 70.114A RCW.

34 (viii) \$6,000,000 is provided solely for grants to the following  
35 organizations using innovative methods to address homelessness:  
36 \$3,000,000 for THA Arlington drive youth campus in Tacoma and  
37 \$3,000,000 for a King county modular housing project.

38 (f) Of the amounts appropriated remaining after (a) through (e)  
39 of this subsection, the department must allocate the funds as  
40 follows:

- 1 (i) 10 percent is provided solely for housing projects that  
 2 benefit veterans;
- 3 (ii) 10 percent is provided solely for housing projects that  
 4 benefit homeownership;
- 5 (iii) 5 percent is provided solely for housing projects that  
 6 benefit people with developmental disabilities;
- 7 (iv) The remaining amount is provided solely for projects that  
 8 serve low-income and special needs populations in need of housing,  
 9 including, but not limited to, homeless families with children,  
 10 homeless youth, farmworkers, and seniors.

11 (2) In evaluating projects in this section, the department must  
 12 give preference for applications based on some or all of the criteria  
 13 in RCW 43.185.070(5).

14 (3) The department must strive to allocate all of the amounts  
 15 appropriated in this section within the 2017-2019 fiscal biennium in  
 16 the manner prescribed in subsection (1) of this section. However, if  
 17 upon review of applications the department determines there are not  
 18 adequate suitable projects in a category, the department may allocate  
 19 funds to projects serving other low-income and special needs  
 20 populations, provided those projects are located in an area with an  
 21 identified need for the type of housing proposed.

14 Clean Energy Funds 3 (30000881)

15 The appropriations in this section are subject to the following  
16 conditions and limitations:

17 (1) The appropriations are provided solely for projects that  
18 provide a benefit to the public through development, demonstration,  
19 and deployment of clean energy technologies that save energy and  
20 reduce energy costs, reduce harmful air emissions, or increase energy  
21 independence for the state.

22 (2) In soliciting and evaluating proposals, awarding contracts,  
23 and monitoring projects under this section, the department must:

24 (a) Ensure that competitive processes, rather than sole source  
25 contracting processes, are used to select all projects, except as  
26 otherwise noted in this section; and

27 (b) Conduct due diligence activities associated with the use of  
28 public funds including, but not limited to, oversight of the project  
29 selection process, project monitoring and ensuring that all  
30 applications and contracts fully comply with all applicable laws  
31 including disclosure and conflict of interest statutes.

32 (3)(a) Pursuant to chapter 42.52 RCW, the ethics in public  
33 service act, the department must require a project applicant to  
34 identify in application materials any state of Washington employees  
35 or former state employees employed by the firm or on the firm's  
36 governing board during the past twenty-four months. Application  
37 materials must identify the individual by name, the agency previously  
38 or currently employing the individual, job title or position held,

1 and separation date. If it is determined by the department that a  
2 conflict of interest exists, the applicant may be disqualified from  
3 further consideration for award of funding.

4 (b) If the department finds, after due notice and examination,  
5 that there is a violation of chapter 42.52 RCW, or any similar  
6 statute involving a grantee who received funding under this section,  
7 either in procuring or performing under the grant, the department in  
8 its sole discretion may terminate the funding grant by written  
9 notice. If the grant is terminated, the department must reserve its  
10 right to pursue all available remedies under law to address the  
11 violation.

12 (4) The requirements in subsections (2) and (3) of this section  
13 must be specified in funding agreements issued by the department.

14 (5) \$11,000,000 of the state building construction account, is  
15 provided solely for grid modernization grants for projects that  
16 advance clean and renewable energy technologies, and transmission and  
17 distribution control systems; that support integration of renewable  
18 energy sources, deployment of distributed energy resources, and  
19 sustainable microgrids; and that increase utility customer options  
20 for energy sources, energy efficiency, energy equipment, and utility  
21 services.

22 (a) Projects must be implemented by public and private electrical  
23 utilities that serve retail customers in the state. Eligible  
24 utilities may partner with other public and private sector research  
25 organizations and businesses in applying for funding.

26 (b) The department shall develop a grant application process to  
27 competitively select projects for grant awards, to include scoring  
28 conducted by a group of qualified experts with application of  
29 criteria specified by the department. In development of the  
30 application criteria, the department shall, to the extent possible,  
31 allow smaller utilities or consortia of small utilities to apply for  
32 funding.

33 (c) Applications for grants must disclose all sources of public  
34 funds invested in a project.

35 (6) \$7,900,000 of the state building construction account and  
36 \$3,100,000 of the energy efficiency account are provided solely for  
37 grants to demonstrate new approaches to electrification of  
38 transportation systems.

39 (a) Projects must be implemented by local governments, or by  
40 public and private electrical utilities that serve retail customers

1 in the state. Eligible parties may partner with other public and  
2 private sector research organizations and businesses in applying for  
3 funding. The department of commerce must coordinate with other  
4 electrification programs, including projects the department of  
5 transportation is developing and projects funded by the Volkswagen  
6 consent decree, to determine the most effective distribution of the  
7 systems.

8 (b) Priorities must be given to eligible technologies that reduce  
9 the top two hundred hours of demand and the demand side.

10 (c) Eligible technologies for these projects include, but are not  
11 limited to:

12 (i) Electric vehicle and transportation system charging and open  
13 source control infrastructure, including inductive charging systems;

14 (ii) Electric vehicle sharing in low-income, multi-unit housing  
15 communities in urban areas;

16 (iii) Grid-related vehicle electrification, connecting vehicle  
17 fleets to grid operations, including school and transit buses;

18 (iv) Electric vehicle fleet management tools with open source  
19 software;

20 (v) Maritime electrification, such as electric ferries, water  
21 taxis, and shore power infrastructure.

22 (7)(a) \$8,600,000 of the state building construction account is  
23 provided solely for strategic research and development for new and  
24 emerging clean energy technologies, as needed to match federal or  
25 other nonstate funds to research, develop, and demonstrate clean  
26 energy technologies.

27 (b) The department shall consult and coordinate with the  
28 University of Washington, Washington State University, the Pacific  
29 Northwest national laboratory and other clean energy organizations to  
30 design the grant program unless the organization prefers to compete  
31 for the grants. If the organization prefers to receive grants from  
32 the program they may not participate in the consultant process  
33 determining how the grant process is structured. The program shall  
34 offer matching funds for competitively selected clean energy  
35 projects, including but not limited to: Solar technologies, advanced  
36 bioenergy and biofuels, development of new earth abundant materials  
37 or lightweight materials, advanced energy storage, battery components  
38 recycling, and new renewable energy and energy efficiency  
39 technologies. Criteria for the grant program must include life cycle  
40 cost analysis for projects that are part of the competitive process.

1 (c) \$750,000 of this subsection (7) is provided solely for the  
2 state efficiency and environmental program.

3 (8)(a) \$8,000,000 of the state taxable construction account is  
4 provided solely for scientific instruments to help accelerate  
5 research in advanced materials at the proposed science laboratories  
6 infrastructure facility at the Pacific Northwest national laboratory.  
7 These state funds are contingent on securing federal funds for the  
8 new facility, and are provided as match to the federal funding. The  
9 instruments will support researchers at the bioproducts sciences and  
10 engineering laboratory, the joint center for deployment research in  
11 earth abundant materials, the center for advanced materials and clean  
12 energy technology, and other energy and materials collaborations with  
13 the University of Washington and Washington State University.

14 (b) If by December 30, 2018, federal funding is not secured, the  
15 funds in this subsection (8) shall lapse.

16 (9) \$1,600,000 of the state building construction account and  
17 \$2,400,000 of the energy efficiency account are provided solely for  
18 grants to be awarded in competitive rounds for the deployment of  
19 solar projects located in Washington state.

20 (a) Priority must be given to distribution side projects that  
21 reduce peak electricity demand.

22 (b) Projects must be capable of generating at least five hundred  
23 kilowatts of direct current generating capacity.

24 (c) Grants shall not exceed \$200,000 per megawatt of direct  
25 current generating capacity and total grant funds per project shall  
26 not exceed \$1,000,000 per applicant. Applicants may not use other  
27 state grants.

28 (d) At least 25 percent of the total allocation of a project  
29 shall be provided solely for projects that provide direct benefits to  
30 low-income residents or communities. The department must attempt to  
31 prioritize an equal geographic distribution.

32 (e) Priority must be given to major components made in  
33 Washington.

34 (10) \$2,400,000 of the state building construction account is  
35 provided solely for a project which, when fully deployed, will reduce  
36 emissions of greenhouse gases by a minimum of seven hundred fifty  
37 thousand tons per year, increase energy efficiency, and protect or  
38 create manufacturing jobs located in a county with a population of  
39 less than three hundred thousand.

9 **NEW SECTION. Sec. 1074. FOR THE DEPARTMENT OF COMMERCE**

10 Energy Efficiency and Solar Grants (30000882)

11 The appropriations in this section are subject to the following  
12 conditions and limitations:

13 (1)(a) \$3,675,000 for fiscal year 2018 and \$3,675,000 for fiscal  
14 year 2019 is provided solely for grants to be awarded in competitive  
15 rounds to local agencies, public higher education institutions,  
16 school districts, and state agencies for operational cost savings  
17 improvements to facilities and related projects that result in energy  
18 and operational cost savings.

19 (b) At least twenty percent of each competitive grant round must  
20 be awarded to small cities or towns with a population of five  
21 thousand or fewer residents.

22 (c) In each competitive round, the higher the leverage ratio of  
23 nonstate funding sources to state grant and the higher the energy  
24 savings, the higher the project ranking.

25 (d) For school district applicants, priority consideration must  
26 be given to school districts that demonstrate improved health and  
27 safety through: (i) Reduced exposure to polychlorinated biphenyl; or  
28 (ii) replacing outdated heating systems that use oil or propane as  
29 fuel sources as identified by the Washington State University  
30 extension energy program. Priority consideration must be given to  
31 applicants that have not received grant awards for this purpose in  
32 prior biennia.

33 (2) \$1,750,000 is provided solely for grants to be awarded in  
34 competitive rounds to local agencies, public higher education  
35 institutions, school districts, and state agencies for projects that  
36 involve the purchase and installation of solar energy systems,

1 including solar modules and inverters, with a preference for products  
2 manufactured in Washington.

3 (3) \$1,400,000 is provided solely for energy efficiency  
4 improvements to minor works and stand-alone projects at state-owned  
5 facilities that repair or replace existing building systems  
6 including, but not limited to HVAC, lighting, insulation, windows,  
7 and other mechanical systems. Eligibility for this funding is  
8 dependent on an analysis using the office of financial management's  
9 life-cycle cost tool that compares project design alternatives for  
10 initial and long-term cost-effectiveness. Assuming a reasonable

12 efficiency compared to the original project request will be added to  
13 the project appropriation after construction bids are received. The

22 energy and other resources in state-owned facilities. The department  
23 of commerce will oversee an interagency agreement with the department  
24 of enterprise services to fund the resource conservation managers.

25 (5) The department shall develop metrics that indicate the  
26 performance of energy efficiency efforts and provide a report of the  
27 metrics, including at a minimum the current energy used by the  
28 building, the energy use after efficiencies are completed, and cost  
29 of energy saved. The report must include these metrics from other  
30 states.

5 Indian tribe, and subject to a finding by the board that financial  
6 circumstances require grant assistance to enable the project to move  
7 forward. However, no more than 25 percent of all financial assistance  
8 approved by the board in any biennium may consist of grants to local  
9 governments and federally recognized Indian tribes.

10 (4) Application for funding must be made in the form and manner  
11 as the board may prescribe. In making grants or loans the board must

17 development or expansion that would displace existing jobs in any  
18 other community in the state.

19 (iii) For a project the primary purpose of which is to facilitate  
20 or promote gambling.

21 (iv) For a project located outside the jurisdiction of the  
22 applicant local government or federally recognized Indian tribe.

23 (v) For equipment or facilities which would enable a public  
24 entity to provide retail telecommunications services or services that  
25 the entity is not authorized by statute to provide.

26 (vi) For the deployment of publicly-owned telecommunication  
27 network infrastructure ("backbone") solely for the sake of creating  
28 competitive, publicly-owned telecommunication network infrastructure.

29 (b) The board may provide financial assistance only:

30 (i) For projects demonstrating convincing evidence that a  
31 specific private development or expansion is ready to occur and will  
32 occur only if the public facility improvement is made that:

33 (A) Results in the creation of significant private sector jobs or  
34 significant private sector capital investment as determined by the  
35 board;

36 (B) Will improve the opportunities for the successful  
37 maintenance, establishment, or expansion of industrial or commercial  
38 plants or will otherwise assist in the creation or retention of long-  
39 term economic opportunities; and

1 (C) Is located in a rural community as defined by the board, or a  
2 rural county; or

16 VW Settlement Funded Projects (40000018)

17 The appropriation in this section is subject to the following  
18 conditions and limitations:

19 (1) The legislature finds that it is appropriate to provide a  
20 framework for the administration of mitigation funds provided to the  
21 state as a beneficiary under the terms of the consent decrees entered  
22 into by the United States, Volkswagen AG, and other participating  
23 parties that settle emissions-related claims for 2.0 and 3.0 liter  
24 diesel vehicles of certain models and years. The legislature deems  
25 the department of ecology the responsible agency for the  
26 administration and expenditure of funds provided by the trustee under  
27 the terms of the consent decrees, including the development of a  
28 mitigation plan to guide the use of the funds, whether or not the  
29 department receives funds directly for projects included in the plan.

30 (2)(a) The department of ecology shall develop the mitigation  
31 plan through an open, transparent public process consistent with  
32 direction in the consent decrees. The department shall provide ample  
33 opportunity using a variety of engagement options, as appropriate,  
34 for stakeholders and the public to shape, review, and comment  
35 throughout the development of the mitigation plan, including at least

1 two meetings of the legislative advisory group as described in (c) of  
2 this subsection.

3 (b) The department of ecology shall work collaboratively with  
4 other agencies to develop and implement the elements of the  
5 mitigation plan that address categories of projects for which other  
6 agencies have already developed programs or expertise. In doing so,  
7 the department of ecology must consider and utilize, where  
8 appropriate and to the extent possible, the following existing  
9 programs for alternative fuels and zero emission vehicles:

10 (i) The department of transportation's electric vehicle  
11 infrastructure bank program;

12 (ii) The state alternative fuel commercial vehicle tax credit;

13 (iii) The state sales and use tax exemption for clean vehicles;  
14 and

15 (iv) Public transportation grant programs administered by the  
16 department of transportation.

17 (c)(i) For the purposes of providing legislative input and  
18 gathering public feedback on the development of the mitigation plan,  
19 a legislative advisory group is established. The advisory group is  
20 comprised of eight legislators, including the chairs and ranking  
21 members, or designees of the chairs and ranking members, of the  
22 transportation and capital budget committees in the House and in the  
23 Senate; the director of the department of ecology; and the secretary  
24 of the department of transportation.

25 (ii) The advisory group must select a chair from among its  
26 membership. Meetings of the advisory group must be open to the public  
27 and allow for public comment.

28 (iii) The advisory group must meet at least twice, once  
29 immediately prior to the date that the draft mitigation plan is  
30 released publicly, and again after public comment has been  
31 incorporated but before the department submits the plan to the  
32 trustee.

33 (iv) The office of program research and the senate committee  
34 services must provide staff support to the advisory group. The  
35 department of ecology staff must provide technical support, as  
36 needed. Legislative members of the advisory group are reimbursed for  
37 travel expenses in accordance with RCW 44.04.120. Nonlegislative  
38 members are not entitled to be reimbursed for travel expenses if they  
39 are elected officials or are participating on behalf of an employer,  
40 government entity, or other organization. Any reimbursement for other

1 nonlegislative members is subject to chapter 43.03 RCW. Advisory  
2 group expenditures are subject to approval by the senate facilities  
3 and operations committee and the house of representatives executive  
4 rules committee, or their successor committees.

5 (3) The mitigation plan and the stewardship of project  
6 implementation must adhere to the following principles:

7 (a) Maximize air quality and public health benefits relating to  
8 the reduction of nitrogen oxides emissions;

9 (b) Give priority to projects that improve air quality relating  
10 to the reduction of nitrogen oxides emissions in areas that bear a  
11 disproportionate share of the burden from nitrogen oxides emissions;

12 (c) Achieve substantial additional air quality benefits relating  
13 to the reduction of nitrogen oxides emissions beyond that which would  
14 already occur, absent trust funding;

15 (d) Investments in clean vehicles or investments in clean engine  
16 replacements must be shown to be cost-effective. For the purposes of  
17 leveraging funding, investments in clean vehicles may not exceed the  
18 incremental cost of the clean vehicle, relative to the cost of a  
19 similar conventionally fueled vehicle. To incentivize the replacement  
20 of standard engines, investments may be made up to the full cost of  
21 the clean engine replacement;

22 (e) Consideration must be given to investments across a range of  
23 fueling technologies and emissions reduction technologies; and

24 (f) Priority must be given to projects that have the highest  
25 benefit-cost ratios, in terms of the amount of nitrogen oxides  
26 emissions reduced per dollar invested.

27 (4) Funding must be allocated to eligible projects under the  
28 terms of the consent decrees in the following manner:

29 (a)(i) No more than thirty percent of funding provided during the  
30 2017-2019 biennium for commercial vehicle class four through eight  
31 transit buses, shuttle buses, and school buses;

32 (ii) No more than thirty percent of funding provided during the  
33 2017-2019 biennium for commercial vehicle class eight local freight  
34 trucks and port drayage trucks;

35 (iii) No more than twenty percent of funding provided during the  
36 2017-2019 biennium for commercial vehicle class four through seven  
37 local freight trucks;

38 (iv) No more than twenty percent of funding provided during the  
39 2017-2019 biennium for airport ground support equipment;

1 (v) No more than twenty percent of funding provided during the  
2 2017-2019 biennium for ocean-going vessels' shore power;

3 (vi) No more than fifteen percent of funding provided during the  
4 2017-2019 biennium for light duty, zero emission vehicle supply  
5 equipment;

6 (vii) No more than twenty percent of funding provided during the  
7 2017-2019 biennium for nonfederal matching funds for projects  
8 eligible under the diesel emission reduction act option; and

9 (viii) For each of the other categories of mitigation actions  
10 that are eligible under the consent decrees but not otherwise  
11 specified under this subsection (4)(a), no more than ten percent of  
12 funding provided during the 2017-2019 biennium.

13 (b) Projects that receive funding under subsection (4)(a)(ii) and  
14 (iii) of this section and ocean-going vessels shorepower projects  
15 that receive funding under subsection (4)(a)(viii) of this section  
16 must include electric technologies, if practicable.

17 (5) To the extent this section conflicts with the consent  
18 decrees, the consent decrees supersede it.

19 (6) The department of ecology may modify the mitigation plan as  
20 needed to comply with trustee requirements, including to the extent  
21 these modifications conflict with this section. In making any  
22 adjustments, the department of ecology shall consult with the  
23 department of transportation and the office of the superintendent of  
24 public instruction and provide notice to the steering committee of  
25 any significant changes to the plan submitted.

26 (7) The department of ecology shall provide a report to the  
27 governor and the appropriate committees of the legislature by January  
28 1, 2018, and each year thereafter, on any plans or efforts to change  
29 the mitigation plan, its progress in implementing the mitigation  
30 plan, and the specific projects funded through these mitigation funds  
31 for the previous fiscal year.

32 (8) For the purposes of this section:

33 (a) "Project" means an eligible mitigation action under the terms  
34 of the consent decrees entered into by the United States, Volkswagen  
35 AG, and other participating parties that settle emissions-related  
36 claims for 2.0 and 3.0 liter diesel vehicles of certain models and  
37 years.

38 (b) "Trustee" means the entity selected under the terms of the  
39 consent decrees to administer the disbursement of funds to eligible

1 projects for the purposes of mitigating nitrogen oxides emission  
2 pollution.

17 Trust Land Transfer Program (30000269)

18 The appropriation in this section is subject to the following  
19 conditions and limitations:

20 (1) The appropriation is provided solely to the department of  
21 natural resources to transfer from trust status certain trust lands  
22 of statewide significance deemed appropriate for state parks, fish  
23 and wildlife habitats, natural area preserves, natural resources  
24 conservation areas, department of natural resources community forest  
25 open spaces, or recreation purposes. The approved property for  
26 transfer is identified in the LEAP capital document no. 2017-2H,  
27 developed June 30, 2017.

28 (2) Property transferred under this section must be appraised and  
29 transferred at fair market value. By September 30, 2018, the  
30 department must deposit in the common school construction account the  
31 portion of the appropriation in this section that represents the  
32 estimated value of the timber on the transferred properties. This  
33 transfer must be made in the same manner as timber revenues from  
34 other common school trust lands. No deduction may be made for the  
35 resource management cost account under RCW 79.64.040. The portion of

1 the appropriation in this section that represents the value of the  
2 land transferred must be deposited in the natural resources real  
3 property replacement account.

4 (3) All reasonable costs incurred by the department to implement  
5 this section are authorized to be paid out of the appropriations.  
6 Authorized costs include the actual cost of appraisals, staff time,  
7 environmental reviews, surveys, and other similar costs, and may not  
8 exceed one and nine-tenths percent of the appropriation.

9 (4) By June 30, 2018, land within the common school trust shall  
10 be exchanged for land of equal value held for other trust  
11 beneficiaries of the property identified in subsection (1) of this  
12 section.

13 (5) Prior to or concurrent with conveyance of these properties,  
14 the department shall execute and record a real property instrument  
15 that dedicates the transferred properties to the purposes identified  
16 in subsection (1) of this section. Fee transfer agreements for  
17 properties identified in subsection (1) of this section must include  
18 terms that perpetually restrict the use of the property to the  
19 intended purpose. Transfer agreements may include provisions for  
20 receiving agencies to request alternative uses of the property,  
21 provided the alternative uses are compatible with the originally  
22 intended public purpose and the department and legislature approves  
23 such uses.

24 (6) The department shall work in good faith to carry out the  
25 intent of this section.

26 (7) By June 30, 2019, the state treasurer shall transfer to the  
27 common school construction account any unexpended balance of the  
28 appropriation in this section.

29 Appropriation:

30	State Building Construction Account—State. . . . .	\$10,000,000

34 **NEW SECTION. Sec. 3265. FOR THE DEPARTMENT OF NATURAL RESOURCES**  
35 **State Forest Land Replacement (30000277)**

36 The appropriation in this section is subject to the following  
37 conditions and limitations:

1 (1) \$60,000 of the appropriation is provided solely for the  
2 department to assess options to replace timber trust revenues for  
3 counties with populations of twenty-five thousand or fewer that are  
4 subject to timber harvest deferrals greater than thirty years due to  
5 the presence of wildlife species listed as endangered or threatened  
6 under the federal endangered species act. The department must consult  
7 with the qualifying counties and other stakeholders in conducting the  
8 assessment. The department shall report the findings of its  
9 assessment, including recommendations for addressing decreased  
10 revenues from state forestlands and improving the forest products  
11 economy in the qualifying counties, by December 15, 2017.

12 (2)(a) The remaining portion of the appropriation is provided  
13 solely to the department to transfer from state forestland status to  
14 natural resources conservation area status certain state forestlands  
15 in counties:

16 (i) With a population of twenty-five thousand or fewer; and

17 (ii) With risks of timber harvest deferrals greater than thirty  
18 years due to the presence of wildlife species listed as endangered or  
19 threatened under the federal endangered species act.

20 (b) This appropriation must be used equally for the transfer of  
21 qualifying state forestlands in the qualifying counties.

22 (3) Property transferred under this section must be appraised and  
23 transferred at fair market value, without consideration of management  
24 or regulatory encumbrances associated with wildlife species listed  
25 under the federal endangered species act. The value of the timber and  
26 other valuable materials transferred must be distributed as provided  
27 in RCW 79.64.110. The value of the land transferred must be deposited  
28 in the park land trust revolving account and be used solely to buy  
29 replacement state forestland, consistent with RCW 79.22.060.

30 (4) Prior to or concurrent with conveyance of these properties,  
31 the department shall execute and record a real property instrument  
32 that dedicates the transferred properties to the purposes identified  
33 in subsection (2) of this section. Transfer agreements for properties  
34 identified in subsection (2) of this section must include terms that  
35 restrict the use of the property to the intended purpose.

36 (5) The department and applicable counties shall work in good  
37 faith to carry out the intent of this section. The department will  
38 identify eligible properties for transfer, consistent with  
39 subsections (2) and (3) of this section, in consultation with the  
40 applicable counties, and will not execute any property transfers that

1 are not in the statewide interest of either the state forest trust or  
2 the natural resources conservation area program.

Aviation Revitalization Loans (92000003)

The appropriation in this section is subject to the following conditions and limitations:

(1) This appropriation is provided solely for deposit into the public use general aviation airport loan revolving account created in section 7029 of this act for direct loans to political subdivisions of the state and privately owned airports for the purpose of improvements at public use airports that primarily support general aviation activities.

1           (2) The department must convene a community aviation  
2 revitalization board to develop criteria for selecting loan  
3 recipients, to develop a process for evaluating applications, and to  
4 make decisions. The board must consist of the capital budget chair  
5 and ranking minority member of the capital budget committee of the  
6 house of representatives and the senate ways and means committee, and  
7 a representative from both the department of transportation's  
8 aviation division and the department of commerce. The board must also  
9 consist of the following members appointed by the secretary of  
10 transportation: One port district official, one county official, one  
11 city official, one representative of airport managers, and one  
12 representative of pilots. The chair of the board must be selected by  
13 the secretary of transportation. The members of the board must elect  
14 one of their members to serve as vice chair. The director of commerce  
15 and the secretary of transportation must serve as nonvoting advisory  
16 members of the board.

17           (3) The board may provide loans to privately owned airports for  
18 the purpose of airport improvements only if the state is receiving  
19 commensurate public benefit, such as guaranteed long-term public  
20 access to the airport as a condition of the loan. For purposes of  
21 this subsection, "public use airports that primarily support general  
22 aviation activities" means all public use airports not listed as  
23 having more than fifty thousand annual commercial air service  
24 passenger enplanements as published by the federal aviation  
25 administration.

26           (4) An application for loan funds under this section must be made  
27 in the form and manner as the board may prescribe. When evaluating  
28 loan applications, the board must prioritize applications that  
29 provide conclusive justification that completion of the loan  
30 application project will create revenue-generating opportunities. The  
31 board is not limited to, but must also use, the following expected  
32 outcome conditions when evaluating loan applications:

33           (a) A specific private development or expansion is ready to occur  
34 and will occur only if the aviation facility improvement is made;

35           (b) The loan application project results in the creation of jobs  
36 or private sector capital investment as determined by the board;

37           (c) The loan application project improves opportunities for the  
38 successful maintenance, operation, or expansion of an airport or  
39 adjacent airport business park;

1 (d) The loan application project results in the creation or  
2 retention of long-term economic opportunities; and

3 (e) The loan application project results in leveraging additional  
4 federal funding for an airport.

5 (5) The repayment of any loan made from the public use general  
6 aviation airport loan revolving account under the contracts for  
7 aviation loans must be paid into the public use general aviation  
8 airport loan revolving account.

16 commitment to addressing school facility needs. The grant  
17 applications must include a comprehensive description of the health  
18 and safety issues to be addressed, a detailed description of the  
19 remedy including a detailed cost estimate of the repair or  
20 replacement work to be performed, and identification of local  
21 funding, if any, which will be applied to the project. Grants may be  
22 used for, but are not limited to: Repair or replacement of failing  
23 building systems; abatement of potentially hazardous materials; and

35 to exceed \$100,000, per three-year period; (b) prioritizing  
36 applications based on limited school district financial resources for  
37 the project; and (c) requiring recipient districts to demonstrate a  
38 consistent commitment to addressing school facility needs. The grant  
39 applications must include a description of the Americans with  
40 disabilities act or individuals with disabilities education act

1 (c) Applicants with a high percentage of students who are

17 The appropriation in this section is subject to the following  
18 conditions and limitations:

19 (1) \$2,800,000 of the appropriation is provided solely for the  
20 Federal Way school district to merge STEM facilities.

21 (2) \$200,000 of the appropriation is provided solely for the  
22 contract with the statewide STEM organization described in subsection  
23 (5) of this section.

24 (3) The remaining portion of the appropriation in this section is  
25 provided solely for the superintendent of public instruction to  
26 provide STEM classrooms and labs grants to school districts for  
27 public school facilities serving students in grades nine through  
28 twelve, or any combination thereof, to construct classrooms, or labs,  
29 as additions to existing school buildings or to modernize specialized  
30 STEM facilities.

31 (4) The superintendent shall award grants to school districts  
32 under the following conditions:

33 (a) Districts eligible to receive STEM classrooms and labs grants  
34 include:

35 (i) Districts that demonstrate a lack of sufficient space of STEM  
36 classrooms or labs to provide opportunities for students to meet  
37 statutory graduation requirements;

1 (ii) Districts that demonstrate that their current STEM  
2 classrooms or labs are insufficient to provide opportunities for  
3 students to meet statutory graduation requirements;

4 (iii) Districts that have not received state capital funding  
5 assistance in the previous ten years for the STEM classrooms or labs  
6 project proposals; and

7 (iv) Districts that have secured private donations of cash, like-  
8 kind, or equipment in a value of no less than \$100,000. Prior to  
9 receiving grant funding, the district must provide verification of  
10 the donation to the superintendent within ninety days of notification  
11 of grant award.

12 (b) Allowable project costs under the grant program include  
13 design, renovation, or modernization of existing science labs or  
14 classrooms; project management costs; furnishings, fixtures, and  
15 equipment; and necessary utility and information technology systems  
16 upgrades to support specialized STEM facilities.

17 (c) At least one grant award is made to school districts located  
18 in southwest Washington;

19 (d) At least one grant award is made to school districts located  
20 in the Puget Sound region; and

21 (e) At least two grant awards are made to school districts  
22 located east of the crest of the Cascade mountain range.

23 (5) The STEM classrooms and labs grants program must be  
24 administered by the superintendent of public instruction in  
25 consultation with the STEM education innovation alliance specified in  
26 RCW 28A.188.030 and the statewide STEM organization specified in RCW  
27 28A.188.050. The superintendent of public instruction must develop  
28 grant application materials and criteria in consultation with the  
29 statewide STEM organization, must review applications for accuracy  
30 and financial reasonableness, and must administer awarded grants.  
31 With funding specifically appropriated for this purpose, the  
32 superintendent of public instruction must contract with the statewide  
33 STEM organization specified in RCW 28A.188.050 to evaluate  
34 applications against the criteria developed for the program and  
35 develop a single prioritized list. The superintendent of public  
36 instruction must award grants within the appropriated funding and may  
37 depart from the recommended prioritized list only after consulting  
38 with the office of financial management and the appropriate  
39 committees of the legislature. The criteria must include, but are not  
40 limited to, the following:

1 (a) Priority for school districts that have experienced decreased  
2 enrollments of more than ten percent over the previous five year  
3 period due to interdistrict transfers to schools with STEM facilities  
4 constructed or modernized in that same period of time;

5 (b) Priority for applicants with a high percentage of students  
6 who are eligible and enrolled in the free and reduced-price meals  
7 program;

8 (c) Economic conditions within the school district that limits  
9 their ability to finance the modernization of STEM classrooms and  
10 labs from local funding sources;

11 (d) Educational benefits of proposed projects;

12 (e) Age and condition of existing STEM classroom and lab space,  
13 if applicable;

14 (f) The extent that existing STEM facilities are inadequate  
15 including the lack of adequate STEM facilities to meet graduation  
16 requirements in RCW 28A.150.220;

17 (g) Financial reasonableness based on total project cost per  
18 square foot; and

19 (h) Demonstration of readiness to proceed that may include, but  
20 is not limited to:

21 (i) A demonstration that existing STEM faculty are in place and  
22 are qualified to deliver an interactive, project-based STEM  
23 curriculum in the proposed specialized STEM facilities; or

24 (ii) A plan and budget in place to recruit or train such STEM  
25 faculty.

26 (6) For purposes of grant applications made in the 2017-2019  
27 biennium, additional square footage funded through this grant program  
28 is excluded from the school district's inventory of available  
29 educational space for determining eligibility for state assistance  
30 for new construction until the earlier of:

31 (a) Five years following acceptance of the project by the school  
32 district board of directors; or

33 (b) The date of the final review of the latest study and survey  
34 of the affected school district following acceptance of the project  
35 by the school district board of directors.

36 (7) Each school district is limited to one grant award, which may  
37 be used for more than one school facility within the district, of no  
38 more than \$2,000,000.

1 (8) The office of the superintendent of public instruction may  
2 charge fees consistent with capital budget guidelines established by  
3 the office of financial management for administering the grants.

18 economical financial contract option available, including long-term  
19 leases, lease-purchase agreements, lease-development with option to  
20 purchase agreements or financial contracts using certificates of  
21 participation. Expenditures made by an agency for one of the  
22 indicated purposes before the issue date of the authorized financial  
23 contract and any certificates of participation therein are intended  
24 to be reimbursed from proceeds of the financial contract and any  
25 certificates of participation therein to the extent provided in the  
26 agency's financing plan approved by the state finance committee.

27 (2) Those noninstructional facilities of higher education  
28 institutions authorized in this section to enter into financial  
29 contracts are not eligible for state funded maintenance and

1        NEW SECTION.     **Sec. 7003.**    To ensure that major construction  
2 projects are carried out in accordance with legislative and executive  
3 intent, appropriations in this act in excess of \$5,000,000, or  
4 \$10,000,000 for higher education institutions, may not be expended or  
5 encumbered until the office of financial management has reviewed and  
6 approved the agency's predesign. The predesign document must include,  
7 but not be limited to, program, site, and cost analysis, and an  
8 analysis of the life-cycle costs of the alternatives explored, in  
9 accordance with the predesign manual adopted by the office of  
10 financial management. The results of life-cycle cost analysis must be  
11 a primary consideration in the selection of a building design.  
12 Construction may proceed only upon providing to the office of  
13 financial management the life-cycle costs. To improve monitoring of  
14 major construction projects, progress reports must be submitted by  
15 the agency administering the project to the office of financial  
16 management and to the fiscal committees of the house of  
17 representatives and senate. Reports must be submitted on July 1st and  
18 December 31st each year in a format to be developed by the office of  
19 financial management.

20        NEW SECTION.     **Sec. 7004.**    (1) The legislature finds that use of  
21 life-cycle cost analysis will aid public entities, architects,  
22 engineers, and contractors in making design and construction  
23 decisions that positively impact both the initial construction cost  
24 and the ongoing operating and maintenance cost of a project. To  
25 ensure that the total cost of a project is accounted for and the most  
26 reasonable and cost efficient design is used, agencies shall develop  
27 life-cycle costs for any construction project over \$10,000,000. The  
28 life-cycle costs must represent the present value sum of capital  
29 costs, installation costs, operating costs, and maintenance costs  
30 over the life expectancy of the project. The legislature further  
31 finds the most effective approach to the life-cycle cost analysis is  
32 to integrate it into the early part of the design process.

33        (2) Agencies shall develop a minimum of three project  
34 alternatives for use in the life-cycle cost analysis. These  
35 alternatives must be both distinctly different and viable solutions  
36 to the issue being addressed. The chosen alternative must be the most  
37 reasonable and cost-effective solution. A brief description of each  
38 project alternative and why it was chosen must be included in the  
39 life-cycle cost analysis section of the predesign.

1 (3) The office of financial management shall: (a) Make available  
2 a life-cycle cost model to be used for analysis; (b) in consultation  
3 with the department of enterprise services, provide assistance in  
4 using the life-cycle cost model; and (c) update the life-cycle cost  
5 model annually including assumptions for inflation rates, discount  
6 rates, and energy rates.

7 (4) Agencies shall consider architectural and engineering firms'  
8 and general contractors' experience using life-cycle costs, operating  
9 costs, and energy efficiency measures when selecting an architectural  
10 and engineering firm, or when selecting contractors using alternative  
11 contracting methods.

12 NEW SECTION. **Sec. 7005.** To improve monitoring of major  
13 construction projects, progress reports must be submitted by the  
14 agency administering the project to the office of financial  
15 management and to the fiscal committees of the house of  
16 representatives and senate. Reports must be submitted on July 1st and  
17 December 31st each year in a format to be determined by the office of  
18 financial management.

19 NEW SECTION. **Sec. 7006.** (1) Allotments for appropriations in  
20 this act shall be provided in accordance with the capital project  
21 review requirements adopted by the office of financial management and  
22 in compliance with RCW 43.88.110. Projects that will be employing  
23 alternative public works construction procedures under chapter 39.10  
24 RCW are subject to the allotment procedures defined in this section  
25 and RCW 43.88.110.

26 (2) Each project is defined as proposed in the legislative budget  
27 notes or in the governor's budget document.

28 NEW SECTION. **Sec. 7007.** (1) The office of financial management  
29 may authorize a transfer of appropriation authority provided for a  
30 capital project that is in excess of the amount required for the  
31 completion of such project to another capital project for which the  
32 appropriation is insufficient. No such transfer may be used to expand  
33 the capacity of any facility beyond that intended in making the  
34 appropriation. Such transfers may be effected only between capital  
35 appropriations to a specific department, commission, agency, or  
36 institution of higher education and only between capital projects  
37 that are funded from the same fund or account. No transfers may occur

1 between projects to local government agencies except where the grants  
2 are provided within a single omnibus appropriation and where such  
3 transfers are specifically authorized by the implementing statutes  
4 that govern the grants.

5 (2) The office of financial management may find that an amount is  
6 in excess of the amount required for the completion of a project only  
7 if: (a) The project as defined in the notes to the budget document is  
8 substantially complete and there are funds remaining; or (b) bids  
9 have been let on a project and it appears to a substantial certainty  
10 that the project as defined in the notes to the budget document can  
11 be completed within the biennium for less than the amount  
12 appropriated in this act.

13 (3) For the purposes of this section, the intent is that each  
14 project be defined as proposed to the legislature in the governor's  
15 budget document, unless it clearly appears from the legislative  
16 history that the legislature intended to define the scope of a  
17 project in a different way.

18 (4) A report of any transfer effected under this section, except  
19 emergency projects or any transfer under \$250,000, shall be filed  
20 with the legislative fiscal committees of the senate and house of  
21 representatives by the office of financial management at least thirty  
22 days before the date the transfer is effected. The office of  
23 financial management shall report all emergency or smaller transfers  
24 within thirty days from the date of transfer.

25 (5) The transfer authority granted in this section does not apply  
26 to appropriations for projects for the state parks and recreation  
27 commission. Appropriations for commission projects may be spent only  
28 for the specified projects, and funding may not be transferred from  
29 one commission project to another or from other sources to a  
30 commission project.

31 NEW SECTION. **Sec. 7008.** (1) It is expected that projects be  
32 ready to proceed in a timely manner depending on the type or phase of  
33 the project or program that is the subject of the appropriation in  
34 this act. Except for major projects that customarily may take more  
35 than two biennia to complete from predesign to the end of  
36 construction, or large infrastructure grant or loan programs  
37 supporting projects that often take more than two biennia to  
38 complete, the legislature generally does not intend to reappropriate

1 funds more than once, particularly for smaller grant programs, local/  
2 community projects, and minor works.

3 (2) Agencies shall expedite the expenditure of reappropriations  
4 and appropriations in this act in order to: (a) Rehabilitate  
5 infrastructure resources; (b) accelerate environmental rehabilitation  
6 and restoration projects for the improvement of the state's natural  
7 environment; (c) reduce additional costs associated with acquisition  
8 and construction inflationary pressures; and (d) provide additional  
9 employment opportunities associated with capital expenditures.

10 (3) To the extent feasible, agencies are directed to accelerate  
11 expenditure rates at their current level of permanent employees and  
12 shall use contracted design and construction services wherever  
13 necessary to meet the goals of this section.

14 NEW SECTION. **Sec. 7009.** (1) Any building project that receives  
15 over \$10,000,000 in funding from the capital budget must be built to  
16 sustainable standards. "Sustainable building" means a building that  
17 integrates and optimizes all major high-performance building  
18 attributes, including energy efficiency, durability, life-cycle  
19 performance, and occupant productivity. The following design and  
20 construction attributes must be integrated into the building project:

21 (a) **Employ integrated design principles:** Use a collaborative,  
22 integrated planning and design process that initiates and maintains  
23 an integrated project team in all stages of a project's planning and  
24 delivery. Establish performance goals for siting, energy, water,  
25 materials, and indoor environmental quality along with other  
26 comprehensive design goals and ensures incorporation of these goals  
27 throughout the design and life-cycle of the building. Considers all  
28 stages of the building's life-cycle, including deconstruction.

29 (b) **Commissioning:** Employ commissioning practices tailored to the  
30 size and complexity of the building and its system components in  
31 order to verify performance of building components and systems and  
32 help ensure that design requirements are met. This should include an  
33 experienced commissioning provider, inclusion of commissioning  
34 requirements in construction documents, a commissioning plan,  
35 verification of the installation and performance of systems to be  
36 commissioned, and a commissioning report.

37 (c) **Optimize energy performance:** Establish a whole building  
38 performance target that takes into account the intended use,  
39 occupancy, operations, plug loads, other energy demands, and design

1 to earn the ENERGY STAR targets for new construction and major  
2 renovation where applicable. For new construction target low energy  
3 use index. For major renovations, reduce the energy use by fifty  
4 percent below prerenovations baseline.

5 (d) On-site renewable energy: Meet at least thirty percent of the  
6 hot water demand through the installation of solar hot water heaters,  
7 when life-cycle cost effective. Implement renewable energy generation  
8 projects on agency property for agency use, when life-cycle cost  
9 effective.

10 (e) Measurement and verification: Install building level  
11 electricity meters in new major construction and renovation projects  
12 to track and continuously optimize performance. Include equivalent  
13 meters for natural gas and steam, where natural gas and steam are  
14 used. Install dashboards inside buildings to display and incentivize  
15 occupants on energy use.

16 (f) Benchmarking: Compare actual performance data from the first  
17 year of operation with the energy design target. Verify that the  
18 building performance meets or exceeds the design target. For other  
19 building and space types, use an equivalent benchmarking tool for  
20 laboratory buildings. Web-based data collection and dashboards must  
21 also be provided.

22 NEW SECTION. **Sec. 7010.** State agencies, including institutions  
23 of higher education, shall allot and report full-time equivalent  
24 staff for capital projects in a manner comparable to staff reporting  
25 for operating expenditures.

26 NEW SECTION. **Sec. 7011.** Executive Order No. 05-05,  
27 archaeological and cultural resources, was issued effective November  
28 10, 2005. Agencies shall comply with the requirements set forth in  
29 this executive order.

30 NEW SECTION. **Sec. 7012.** FOR THE ARTS COMMISSION—ART WORK  
31 ALLOWANCE. (1) One-half of one percent of moneys appropriated in this  
32 act for original construction of school plant facilities is provided  
33 solely for the purposes of RCW 28A.335.210.

34 (2) One-half of one percent of moneys appropriated in this act  
35 for original construction or any major renovation or remodel work  
36 exceeding \$200,000 by colleges or universities is provided solely for  
37 the purposes of RCW 28B.10.027.

1 (3) One-half of one percent of moneys appropriated in this act  
2 for original construction of any public building by a state agency  
3 identified in RCW 43.17.020 is provided solely for the purposes of  
4 RCW 43.17.200.

5 (4) At least eighty-five percent of the moneys spent by the  
6 Washington state arts commission during the 2017-2019 biennium for  
7 the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be  
8 expended solely for direct acquisition of works of art. Art  
9 allocations not expended within the ensuing two biennia will lapse.  
10 The commission may use up to \$150,000 of this amount to conserve or  
11 maintain existing pieces in the state art collection pursuant to RCW  
12 28A.335.210.

13 (5) The executive director of the arts commission shall appoint a  
14 study group to review the operations of the one-half of one percent  
15 for works of art purchased or commissioned as required by RCW  
16 28A.335.210, 28B.10.027, and 43.17.200. The findings of the review  
17 must be reported annually to the office of financial management and  
18 the fiscal committees of the legislature by September 15th. The  
19 review must include, but is not limited to, the following: (a)  
20 Projects purchased or commissioned per biennium; (b) partner  
21 agencies; (c) funding sources by fiscal year; (d) artwork costs; (e)  
22 administrative costs; (f) collection care costs; and (g) project  
23 status.

24 **Sec. 7013.** RCW 28B.10.027 and 2016 sp.s. c 35 s 6008 are each  
25 amended to read as follows:

26 (1) All universities and colleges shall allocate as a  
27 nondeductible item, out of any moneys appropriated for the original  
28 construction or any major renovation or remodel work exceeding two  
29 hundred thousand dollars of any building, an amount of one-half of  
30 one percent of the appropriation to be expended by the Washington  
31 state arts commission with the approval of the board of regents or  
32 trustees for the acquisition of works of art.

33 (2) For projects funded in the 2015-2017 capital budget and the  
34 2017-2019 capital budget, an institution of higher education, working  
35 with the Washington arts commission, may expend up to ten percent of  
36 the projected art allocation for a project during the design phase in  
37 order to select an artist and design art to be integrated in the  
38 building design. The one-half of one percent to be expended by the  
39 Washington arts commission must be adjusted downward by the amount

1 expended by a university or college during the design phase of the  
2 capital project.

3 (3) The works of art may be placed on public lands of  
4 institutions of higher education, integral to or attached to a public  
5 building or structure of institutions of higher education, detached  
6 within or outside a public building or structure of institutions of  
7 higher education, part of a portable exhibition or collection, part  
8 of a temporary exhibition, or loaned or exhibited in other public  
9 facilities.

10 (4) In addition to the cost of the works of art, the one-half of  
11 one percent of the appropriation shall be used to provide for the  
12 administration of the visual arts program, including conservation of  
13 the state art collection, by the Washington state arts commission and  
14 all costs for installation of the work of art. For the purpose of  
15 this section building shall not include sheds, warehouses, and other  
16 buildings of a temporary nature.

17 NEW SECTION. **Sec. 7014.** To carry out the provisions of this  
18 act, the governor may assign responsibility for predesign, design,  
19 construction, and other related activities to any appropriate agency.

20 NEW SECTION. **Sec. 7015.** If any federal moneys appropriated by  
21 this act for capital projects are not received by the state, the  
22 department or agency to which the moneys were appropriated may  
23 replace the federal moneys with funds available from private or local  
24 sources. No replacement may occur under this section without the  
25 prior approval of the director of financial management in  
26 consultation with the senate ways and means committee and the house  
27 of representatives capital budget committee.

28 NEW SECTION. **Sec. 7016.** (1) Unless otherwise stated, for all  
29 appropriations under this act that require a match of nonstate money  
30 or in-kind contributions, the following requirement, consistent with  
31 RCW 43.88.150, shall apply: Expenditures of state money shall be  
32 timed so that the state share of project expenditures never exceeds  
33 the intended state share of total project costs.

34 (2) Provision of the full amount of required matching funds is  
35 not required to permit the expenditure of capital budget  
36 appropriations for phased projects if a proportional amount of the

1 required matching funds is provided for each distinct, identifiable  
2 phase of the project.

3 NEW SECTION. **Sec. 7017.** NONTAXABLE AND TAXABLE BOND PROCEEDS.  
4 Portions of the appropriation authority granted by this act from the  
5 state building construction account, or any other account receiving  
6 bond proceeds, may be transferred to the state taxable building  
7 construction account as deemed necessary by the state finance  
8 committee to comply with the federal internal revenue service rules  
9 and regulations pertaining to the use of nontaxable bond proceeds.  
10 Portions of the general obligation bond proceeds authorized by  
11 chapter . . . , Laws of 2017 (Substitute House Bill No. 1080, the  
12 general obligation bond bill) for deposit into the state taxable  
13 building construction account that are in excess of amounts required  
14 to comply with the federal internal revenue service rules and  
15 regulations shall be deposited into the state building construction  
16 account. The state treasurer shall submit written notification to the  
17 director of financial management if it is determined that a shift of  
18 appropriation authority between the state building construction  
19 account, or any other account receiving bond proceeds, and the state  
20 taxable building construction account is necessary, or that a shift  
21 of appropriation authority from the state taxable building  
22 construction account to the state building construction account may  
23 be made.

24 NEW SECTION. **Sec. 7018.** COLUMBIA RIVER BASIN NONTAXABLE AND  
25 TAXABLE BOND PROCEEDS. Portions of the appropriation authority  
26 granted by this act from the Columbia river basin water supply  
27 development account may be transferred to the Columbia river basin  
28 taxable bond water supply development account as deemed necessary by  
29 the state finance committee to comply with the federal internal  
30 revenue service rules and regulations pertaining to the use of  
31 nontaxable bond proceeds. The state treasurer shall submit written  
32 notification to the director of financial management if it is  
33 determined that a shift of appropriation authority between the  
34 Columbia river basin water supply development account and the  
35 Columbia river basin taxable bond water supply development account is  
36 necessary, or that a shift of appropriation authority from the  
37 Columbia river basin taxable bond water supply development account to

1 the Columbia river basin water supply development account may be  
2 made.

3 **Sec. 7019.** RCW 28B.20.725 and 2015 3rd sp.s. c 3 s 7025 are each  
4 amended to read as follows:

5 The board is hereby empowered:

6 (1) To reserve the right to issue bonds later on a parity with  
7 any bonds being issued;

8 (2) To authorize the investing of moneys in the bond retirement  
9 fund and any reserve account therein;

10 (3) To authorize the transfer of money from the University of  
11 Washington building account to the bond retirement fund when  
12 necessary to prevent a default in the payments required to be made  
13 out of such fund;

12 continuous period of time, would exceed \$1,000,000, or \$2,000,000 for  
13 higher education minor works projects. Improvements for accessibility

16 (b) Minor works appropriations may not be used for the following:  
17 Studies, except for technical or engineering reviews or designs that

26 financial management may make an exception to the limitations  
27 described in this subsection (2)(b) for exigent circumstances after  
28 notifying the legislative fiscal committees and waiting ten days for  
29 comments by the legislature regarding the proposed exception.

30 (c) Minor works preservation projects may include program  
31 improvements of no more than twenty-five percent of the individual  
32 minor works preservation project cost.

5 account as needed during the 2017-2019 fiscal biennium to maintain  
6 positive account balances in all three accounts.

7 (b) If, after using the interfund transfer authority granted in  
8 this section, the department of ecology determines that further  
9 reductions are needed to maintain positive account balances in the  
10 state toxics control account, the local toxics control account, and  
11 the environmental legacy stewardship account, the department is  
12 authorized to delay the start of stormwater and clean-up projects  
13 based on acuity of need, readiness to proceed, cost-efficiency,  
14 purposes of increasing affordable housing, or need to ensure  
15 geographic distribution. If the department uses this authority, the  
16 department must submit a prioritized list of projects that may be  
17 delayed to the office of financial management and the appropriate  
18 fiscal committees of the legislature.

19 (2) As directed by the pollution liability insurance agency in  
20 consultation with the office of financial management, the state

28 construction account, or from any other capital project account in  
29 the state treasury, for a capital project or program that is  
30 specified to be funded with proceeds from the sale of bonds, the  
31 legislature declares that any such expenditures for that project or  
32 program made prior to the issue date of the applicable bonds are  
33 intended to be reimbursed from proceeds of those bonds in a maximum  
34 amount equal to the amount of such appropriation.

35 NEW SECTION. **Sec. 7024.** The energy efficiency account is hereby  
36 created in the state treasury. The sums deposited in the energy  
37 recovery act account shall be appropriated and expended for loans,

5 recovery act account, are deposited in this account.
