By Senators Honeyford and Warnick

1 AN ACT Relating to the capital budget; making appropriations and
2 authorizing expenditures for capital improvements; amending RCW
3 28B.10.027, 28B.20.725, and 28B.30.750; amending 2017 3rd sp.s. c 4
4 ss 1017, 1040, 1048, and 2001 (uncodified); reenacting and amending
5 RCW 43.19.501; creating new sections; repealing 2017 3rd sp.s. c 4 ss
6 3043, 3059, and 3134 (uncodified); making appropriations; providing
7 an expiration date; and declaring an emergency.

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

9 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted
10 and, subject to the provisions set forth in this act, the several
11 dollar amounts hereinafter specified, or so much thereof as shall be
12 sufficient to accomplish the purposes designated, are hereby
13 appropriated and authorized to be incurred for capital projects
14 during the period beginning with the effective date of this act and
15 ending June 30, 2019, out of the several funds specified in this act.

16 (2) The definitions in this subsection apply throughout this act
17 unless the context clearly requires otherwise.

18 (a) "Fiscal year 2018" or "FY 2018" means the period beginning
19 July 1, 2017, and ending June 30, 2018.

20 (b) "Fiscal year 2019" or "FY 2019" means the period beginning
21 July 1, 2018, and ending June 30, 2019.

1 (c) "Lapse" or "revert" means the amount shall return to an
2 unappropriated status.

3 (d) "Provided solely" means the specified amount may be spent
4 only for the specified purpose.

5 (3) Unless otherwise specifically authorized in this act, any
6 portion of an amount provided solely for a specified purpose that is
7 not expended subject to the specified conditions and limitations to
8 fulfill the specified purpose shall lapse.

9 (4) The amounts shown under the headings "Prior Biennia," "Future
10 Biennia," and "Total" in this act are for informational purposes only
11 and do not constitute legislative approval of these amounts. "Prior
12 biennia" typically refers to the immediate prior biennium for
13 reappropriations, but may refer to multiple biennia in the case of
14 specific projects. A "future biennia" amount is an estimate of what
15 may be appropriated for the project or program in the 2019-2021
16 biennium and the following three biennia; an amount of zero does not
17 necessarily constitute legislative intent to not provide funding for
18 the project or program in the future.

19 (5) "Reappropriations" in this act are appropriations and, unless
20 the context clearly provides otherwise, are subject to the relevant
21 conditions and limitations applicable to appropriations.
22 Reappropriations shall be limited to the unexpended balances
23 remaining on June 30, 2017, from previous biennial appropriations for
24 each project.

4 income supportive housing unit proposals that provide services or
5 include a partner community behavioral health treatment provider;

6 (b) \$10,000,000 is provided solely for housing preservation
7 grants or loans to be awarded competitively. The grants may be

16 development cost per housing unit of less than \$125,000, excluding
17 the value of land, and with a commitment by the applicant to maintain
18 the housing units for at least a twenty-five year period. Amounts
19 provided that are subject to this subsection must be used to plan,

6 homeless youth, farmworkers, and seniors.

7 (2) In evaluating projects in this section, the department must
8 give preference for applications based on some or all of the criteria

10 (3) The department must strive to allocate all of the amounts
11 appropriated in this section within the 2017-2019 fiscal biennium in
12 the manner prescribed in subsection (1) of this section. However, if
13 upon review of applications the department determines there are not
14 adequate suitable projects in a category, the department may allocate

17 (b) Conduct due diligence activities associated with the use of
18 public funds including, but not limited to, oversight of the project
19 selection process, project monitoring and ensuring that all
20 applications and contracts fully comply with all applicable laws
21 including disclosure and conflict of interest statutes.

22 (3)(a) Pursuant to chapter 42.52 RCW, the ethics in public
23 service act, the department must require a project applicant to
24 identify in application materials any state of Washington employees
25 or former state employees employed by the firm or on the firm's
26 governing board during the past twenty-four months. Application
27 materials must identify the individual by name, the agency previously
28 or currently employing the individual, job title or position held,

30 conflict of interest exists, the applicant may be disqualified from
31 further consideration for award of funding.

32 (b) If the department finds, after due notice and examination,
33 that there is a violation of chapter 42.52 RCW, or any similar
34 statute involving a grantee who received funding under this section,
35 either in procuring or performing under the grant, the department in
36 its sole discretion may terminate the funding grant by written
37 notice. If the grant is terminated, the department must reserve its

1 right to pursue all available remedies under law to address the
2 violation.

3 (4) The requirements in subsections (2) and (3) of this section
4 must be specified in funding agreements issued by the department.

6 provided solely for grid modernization grants for projects that
7 advance clean and renewable energy technologies, and transmission and
8 distribution control systems; that support integration of renewable
9 energy sources, deployment of distributed energy resources, and
10 sustainable microgrids; and that increase utility customer options
11 for energy sources, energy efficiency, energy equipment, and utility
12 services.

13 (a) Projects must be implemented by public and private electrical
14 utilities that serve retail customers in the state. Eligible
15 utilities may partner with other public and private sector research
16 organizations and businesses in applying for funding.

17 (b) The department shall develop a grant application process to
18 competitively select projects for grant awards, to include scoring
19 conducted by a group of qualified experts with application of
20 criteria specified by the department. In development of the
21 application criteria, the department shall, to the extent possible,
22 allow smaller utilities or consortia of small utilities to apply for
23 funding.

24 (c) Applications for grants must disclose all sources of public
25 funds invested in a project.

31 public and private electrical utilities that serve retail customers
32 in the state. Eligible parties may partner with other public and
33 private sector research organizations and businesses in applying for
34 funding. The department of commerce must coordinate with other
35 electrification programs, including projects the department of
36 transportation is developing and projects funded by the Volkswagen
37 consent decree, to determine the most effective distribution of the
38 systems.

39 (b) Priorities must be given to eligible technologies that reduce
40 the top two hundred hours of demand and the demand side.

1 (c) Eligible technologies for these projects include, but are not

16 other nonstate funds to research, develop, and demonstrate clean
17 energy technologies.

18 (b) The department shall consult and coordinate with the
19 University of Washington, Washington State University, the Pacific
20 Northwest national laboratory and other clean energy organizations to

23 the program they may not participate in the consultant process
24 determining how the grant process is structured. The program shall
25 offer matching funds for competitively selected clean energy
26 projects, including but not limited to: Solar technologies, advanced
27 bioenergy and biofuels, development of new earth abundant materials
28 or lightweight materials, advanced energy storage, battery components
29 recycling, and new renewable energy and energy efficiency
30 technologies. Criteria for the grant program must include life cycle
31 cost analysis for projects that are part of the competitive process.

33 state efficiency and environmental program.

34 (8) \$8,000,000 of the state taxable construction account is
35 provided solely for scientific instruments to help accelerate
36 research in advanced materials at the proposed science laboratories
37 infrastructure facility at the Pacific Northwest national laboratory.
38 These state funds are contingent on securing federal funds for the
39 new facility, and are provided as match to the federal funding. The
40 instruments will support researchers at the bioproducts sciences and

1 engineering laboratory, the joint center for deployment research in
2 earth abundant materials, the center for advanced materials and clean
3 energy technology, and other energy and materials collaborations with
4 the University of Washington and Washington State University.

5 (9) \$1,600,000 of the state building construction account and
6 \$2,400,000 of the energy efficiency account are provided solely for
7 grants to be awarded in competitive rounds for the deployment of
8 solar projects located in Washington state.

9 (a) Priority must be given to distribution side projects that
10 reduce peak electricity demand.

11 (b) Projects must be capable of generating at least five hundred
12 kilowatts of direct current generating capacity.

13 (c) Grants shall not exceed \$200,000 per megawatt of direct
14 current generating capacity and total grant funds per project shall
15 not exceed \$1,000,000 per applicant. Applicants may not use other
16 state grants.

17 (d) At least 25 percent of the total allocation of a project
18 shall be provided solely for projects that provide direct benefits to
19 low-income residents or communities. The department must attempt to
20 prioritize an equal geographic distribution.

21 (e) Priority must be given to major components made in
22 Washington.

23 (10) \$2,400,000 of the state building construction account is
24 provided solely for a project which, when fully deployed, will reduce
25 emissions of greenhouse gases by a minimum of seven hundred fifty
26 thousand tons per year, increase energy efficiency, and protect or
27 create manufacturing jobs located in a county with a population of
28 less than three hundred thousand.

29 (11) \$1,100,000 of the state building construction account—state
30 appropriation is provided solely for a grant to the public utility
31 district no. 1 of Klickitat county for the remediation, survey, and
32 evaluation of a closed-loop pump storage hydropower project at the
33 John Day pool.

3 **NEW SECTION. Sec. 1014. FOR THE DEPARTMENT OF COMMERCE**

4 Energy Efficiency and Solar Grants (30000882)

5 The appropriations in this section are subject to the following
6 conditions and limitations:

7 (1)(a) \$3,675,000 for fiscal year 2018 and \$3,675,000 for fiscal
8 year 2019 is provided solely for grants to be awarded in competitive
9 rounds to local agencies, public higher education institutions,
10 school districts, and state agencies for operational cost savings
11 improvements to facilities and related projects that result in energy
12 and operational cost savings.

13 (b) At least twenty percent of each competitive grant round must
14 be awarded to small cities or towns with a population of five
15 thousand or fewer residents.

16 (c) In each competitive round, the higher the leverage ratio of
17 nonstate funding sources to state grant and the higher the energy
18 savings, the higher the project ranking.

19 (d) For school district applicants, priority consideration must
20 be given to school districts that demonstrate improved health and
21 safety through: (i) Reduced exposure to polychlorinated biphenyl; or
22 (ii) replacing outdated heating systems that use oil or propane as
23 fuel sources as identified by the Washington State University
24 extension energy program. Priority consideration must be given to
25 applicants that have not received grant awards for this purpose in
26 prior biennia.

27 (2) \$1,750,000 is provided solely for grants to be awarded in
28 competitive rounds to local agencies, public higher education
29 institutions, school districts, and state agencies for projects that
30 involve the purchase and installation of solar energy systems,
31 including solar modules and inverters, with a preference for products
32 manufactured in Washington.

33 (3) \$1,400,000 is provided solely for energy efficiency
34 improvements to minor works and stand-alone projects at state-owned
35 facilities that repair or replace existing building systems
36 including, but not limited to HVAC, lighting, insulation, windows,
37 and other mechanical systems. Eligibility for this funding is
38 dependent on an analysis using the office of financial management's

1 life-cycle cost tool that compares project design alternatives for
2 initial and long-term cost-effectiveness. Assuming a reasonable
3 return on investment, the cost to improve the project's energy
4 efficiency compared to the original project request will be added to
5 the project appropriation after construction bids are received. The
6 department of commerce shall coordinate with the office of financial
7 management to develop a process for project submittal, review,
8 approval criteria, tracking project budget adjustments, and
9 performance measures.

10 (4) \$500,000 is provided solely for resource conservation
11 managers in the department of enterprise services to coordinate with
12 state agencies and school districts to assess and adjust existing
13 building systems and operations to optimize the efficiency in use of
14 energy and other resources in state-owned facilities. The department
15 of commerce will oversee an interagency agreement with the department
16 of enterprise services to fund the resource conservation managers.

17 (5) The department shall develop metrics that indicate the
18 performance of energy efficiency efforts and provide a report of the
19 metrics, including at a minimum the current energy used by the
20 building, the energy use after efficiencies are completed, and cost
21 of energy saved. The report must include these metrics from other
22 states.

26 (5) \$3,000,000 is provided solely for a grant to a joint venture
27 between MultiCare-Franciscan to provide community based behavioral
28 health services. Funding provided in this subsection is subject to
29 the criteria in subsection (1) of this section. The department of
30 commerce may not release funding for this project unless MultiCare-
31 Franciscan enters into a memorandum of understanding with the
32 department of social and health services by October 31, 2017, to
33 collaborate on development and implementation of strategies to expand
34 the behavioral health workforce in the region. At a minimum, the
35 agreement must include strategies for increasing recruitment of
36 health professionals required to staff psychiatric inpatient
37 facilities, including psychiatrists, psychologists, nurses and other
38 health care professionals. The agreement must also identify
39 opportunities for coordination between the parties to expand access
40 to clinical skill development and training opportunities in the

1 region and strategies for collaborative service delivery between the
2 parties when possible. To objectively evaluate the efficacy of the
3 strategies implemented to achieve the desired outcomes of the
4 agreement, performance measures and targets must be established to
5 include:

6 (a) MultiCare-Franciscan and the department of social and health
7 services must work collaboratively to decrease vacancy rates for
8 hard-to-recruit health care professionals employed by each facility.
9 The parties must develop strategies to attract more qualified health
10 care professionals to the area and ensure comparable exposure to the
11 benefits of working for each organization. The parties must measure
12 the success of these strategies by the decrease in vacancy rate for
13 health care professionals necessary to provide safe, quality
14 inpatient psychiatric care in MultiCare-Franciscan and department
15 facilities following the first year as the baseline of the
16 partnership/consortium and with updated goals for each subsequent
17 year. MultiCare-Franciscan and the department of social and health
18 services must work to increase the competency and skills of health
19 care professionals across both facilities by establishing organized
20 joint- and cross-training programs. The parties must measure the
21 success of this strategy by the number of health care professionals
22 in total and by discipline complete cross-training activities and by
23 the number and hours of cross-training opportunities offered under
24 the agreement.

25 (6) The department of commerce shall notify all applicants that
26 they may be required to have a construction review performed by the
27 department of health.

28 (7) To accommodate the emergent need for behavioral health
29 services, the department of health and the department of commerce, in
30 collaboration with the health care authority and the department of
31 social and health services, shall establish a concurrent and
32 expedited process to assist grant applicants in meeting any
33 applicable regulatory requirements necessary to operate inpatient
34 psychiatric beds, free-standing evaluation and treatment facilities,
35 enhanced services facilities, triage facilities, crisis stabilization
36 facilities, detox, or secure detox.

3 **NEW SECTION. Sec. 1021. FOR THE DEPARTMENT OF COMMERCE**
4 CERB Administered Broadband Infrastructure (91000943)

5 The appropriation in this section is subject to the following
6 conditions and limitations: During the 2017-2019 fiscal biennium, the
7 community economic revitalization board may make grants and loans to
8 local governments and federally recognized tribes to build
9 infrastructure to provide high-speed, open-access broadband service,
10 with a minimum of 25 megabits per second download speed, to rural and
11 underserved communities, for the purpose of economic development.

12 (1) "Local governments" means cities, towns, counties, municipal
13 corporations, public port districts, quasi-municipal corporations,
14 and special purpose districts.

15 (2) "Broadband" means networks of deployed telecommunications
16 equipment and technologies necessary to provide high-speed Internet
17 access and other advanced telecommunications services.

18 (3) The board is authorized to make rural broadband loans to
19 local governments and to federally recognized Indian tribes for the
20 purposes of financing the cost to build infrastructure to provide
21 high-speed, open-access broadband service, to rural and underserved
22 communities, for the purpose of economic development. Grants may also
23 be authorized for purposes designated in this chapter, but only when,
24 and to the extent that, a loan is not reasonably possible, given the
25 limited resources of the local government or the federally recognized
26 Indian tribe, and subject to a finding by the board that financial
27 circumstances require grant assistance to enable the project to move
28 forward. However, no more than 25 percent of all financial assistance
29 approved by the board in any biennium may consist of grants to local
30 governments and federally recognized Indian tribes.

31 (4) Application for funding must be made in the form and manner
32 as the board may prescribe. In making grants or loans the board must
33 conform to the following requirements:

- 34 (a) The board may not provide financial assistance:
 - 35 (i) For a project the primary purpose of which is to facilitate
 - 36 or promote a retail shopping development or expansion.

1 (ii) For any project that evidence exists would result in a
2 development or expansion that would displace existing jobs in any
3 other community in the state.

4 (iii) For a project the primary purpose of which is to facilitate
5 or promote gambling.

6 (iv) For a project located outside the jurisdiction of the
7 applicant local government or federally recognized Indian tribe.

8 (v) For equipment or facilities which would enable a public
9 entity to provide retail telecommunications services or services that
10 the entity is not authorized by statute to provide.

11 (vi) For the deployment of publicly-owned telecommunication
12 network infrastructure ("backbone") solely for the sake of creating
13 competitive, publicly-owned telecommunication network infrastructure.

14 (b) The board may provide financial assistance only:

15 (i) For projects demonstrating convincing evidence that a
16 specific private development or expansion is ready to occur and will
17 occur only if the public facility improvement is made that:

18 (A) Results in the creation of significant private sector jobs or
19 significant private sector capital investment as determined by the
20 board;

21 (B) Will improve the opportunities for the successful
22 maintenance, establishment, or expansion of industrial or commercial
23 plants or will otherwise assist in the creation or retention of long-
24 term economic opportunities; and

25 (C) Is located in a rural community as defined by the board, or a
26 rural county; or

27 (ii) For a project that does not meet the requirements of (b)(i)
28 of this subsection but is a project that:

29 (A) Results in the creation of significant private sector jobs or
30 significant private sector capital investment as determined by the
31 board;

32 (B) Is part of a local economic development plan consistent with
33 applicable state planning requirements;

34 (C) Can demonstrate project feasibility using standard economic
35 principles; and

36 (D) Is located in a rural community as defined by the board, or a
37 rural county;

38 (c) The board must develop guidelines for local participation and
39 allowable match and activities.

1 (d) An application must demonstrate local match and local
2 participation, in accordance with guidelines developed by the board.

3 (e) An application must be approved by the local government and
4 supported by the local associate development organization or local
5 workforce development council or approved by the governing body of
6 the federally recognized Indian tribe.

7 (f) The board may allow de minimis general system improvements to
8 be funded if they are critically linked to the viability of the
9 project.

10 (g) An application must demonstrate convincing evidence that the
11 median hourly wage of the private sector jobs created after the
12 project is completed will exceed the countywide median hourly wage.

13 (h) The board must prioritize each proposed project according to:

14 (i) The relative benefits provided to the community by the jobs
15 the project would create, not just the total number of jobs it would
16 create after the project is completed, but also giving consideration
17 to the unemployment rate in the area in which the jobs would be
18 located;

19 (ii) The rate of return of the state's investment, including, but
20 not limited to, the leveraging of private sector investment,
21 anticipated job creation and retention, and expected increases in
22 state and local tax revenues associated with the project;

23 (iii) Whether the proposed project offers a health insurance plan
24 for employees that includes an option for dependents of employees;

25 (iv) Whether the public facility investment will increase
26 existing capacity necessary to accommodate projected population and
27 employment growth in a manner that supports infill and redevelopment
28 of existing urban or industrial areas that are served by adequate
29 public facilities. Projects should maximize the use of existing
30 infrastructure and provide for adequate funding of necessary
31 transportation improvements;

32 (v) Whether the applicant's permitting process has been certified
33 as streamlined by the office of regulatory assistance; and

34 (vi) Whether the applicant has developed and adhered to
35 guidelines regarding its permitting process for those applying for
36 development permits consistent with section 1(2), chapter 231, Laws
37 of 2007.

38 (i) A responsible official of the local government or the
39 federally recognized Indian tribe must be present during board
40 deliberations and provide information that the board requests.

(5) Before any financial assistance application is approved, the local government or the federally recognized Indian tribe seeking the assistance must demonstrate to the community economic revitalization board that no other timely source of funding is available to it at costs reasonably similar to financing available from the community economic revitalization board.

2 Water Irrigation Efficiencies Program (30000740)

3 The appropriation in this section is subject to the following
4 conditions and limitations:

5 (1) The appropriation is provided solely for technical assistance
6 and grants to conservation districts for the purpose of implementing
7 water conservation measures and irrigation efficiencies. The
8 department and the state conservation commission shall give
9 preference to projects located in the 16 fish critical basins, other

12 the basins described in this subsection are also eligible to receive
13 funding.

14 (2) Conservation districts statewide are eligible for grants
15 listed in subsection (1) of this section. A conservation district
16 receiving funds shall manage each grant to ensure that a portion of
17 the water saved by the water conservation measure or irrigation
18 efficiency will be placed as a purchase or a lease in the trust water
19 rights program to enhance instream flows. The proportion of saved
20 water placed in the trust water rights program must be equal to the
21 percentage of the public investment in the conservation measure or
22 irrigation efficiency. The percentage of the public investment may
23 not exceed eighty-five percent of the total cost of the conservation
24 measure or irrigation efficiency.

25 (3) Up to \$300,000 of the appropriation in this section may be

3 VW Settlement Funded Projects (40000018)

4 The appropriation in this section is subject to the following
5 conditions and limitations:

6 (1) The legislature finds that it is appropriate to provide a
7 framework for the administration of mitigation funds provided to the
8 state as a beneficiary under the terms of the consent decrees entered
9 into by the United States, Volkswagen AG, and other participating
10 parties that settle emissions-related claims for 2.0 and 3.0 liter
11 diesel vehicles of certain models and years. The legislature deems
12 the department of ecology the responsible agency for the
13 administration and expenditure of funds provided by the trustee under
14 the terms of the consent decrees, including the development of a
15 mitigation plan to guide the use of the funds, whether or not the
16 department receives funds directly for projects included in the plan.

17 (2)(a) The department of ecology shall develop the mitigation
18 plan through an open, transparent public process consistent with
19 direction in the consent decrees. The department shall provide ample
20 opportunity using a variety of engagement options, as appropriate,
21 for stakeholders and the public to shape, review, and comment
22 throughout the development of the mitigation plan, including at least
23 two meetings of the legislative advisory group as described in (c) of
24 this subsection.

25 (b) The department of ecology shall work collaboratively with
26 other agencies to develop and implement the elements of the
27 mitigation plan that address categories of projects for which other
28 agencies have already developed programs or expertise. In doing so,
29 the department of ecology must consider and utilize, where
30 appropriate and to the extent possible, the following existing
31 programs for alternative fuels and zero emission vehicles:

32 (i) The department of transportation's electric vehicle
33 infrastructure bank program;

34 (ii) The state alternative fuel commercial vehicle tax credit;

35 (iii) The state sales and use tax exemption for clean vehicles;

36 and

37 (iv) Public transportation grant programs administered by the
38 department of transportation.

1 (c)(i) For the purposes of providing legislative input and
2 gathering public feedback on the development of the mitigation plan,
3 a legislative advisory group is established. The advisory group is
4 comprised of eight legislators, including the chairs and ranking
5 members, or designees of the chairs and ranking members, of the
6 transportation and capital budget committees in the House and in the
7 Senate; the director of the department of ecology; and the secretary
8 of the department of transportation.

9 (ii) The advisory group must select a chair from among its
10 membership. Meetings of the advisory group must be open to the public
11 and allow for public comment.

12 (iii) The advisory group must meet at least twice, once
13 immediately prior to the date that the draft mitigation plan is
14 released publicly, and again after public comment has been
15 incorporated but before the department submits the plan to the
16 trustee.

17 (iv) The office of program research and the senate committee
18 services must provide staff support to the advisory group. The
19 department of ecology staff must provide technical support, as
20 needed. Legislative members of the advisory group are reimbursed for
21 travel expenses in accordance with RCW 44.04.120. Nonlegislative
22 members are not entitled to be reimbursed for travel expenses if they
23 are elected officials or are participating on behalf of an employer,
24 government entity, or other organization. Any reimbursement for other
25 nonlegislative members is subject to chapter 43.03 RCW. Advisory
26 group expenditures are subject to approval by the senate facilities
27 and operations committee and the house of representatives executive
28 rules committee, or their successor committees.

29 (3) The mitigation plan and the stewardship of project
30 implementation must adhere to the following principles:

31 (a) Maximize air quality and public health benefits relating to
32 the reduction of nitrogen oxides emissions;

33 (b) Give priority to projects that improve air quality relating
34 to the reduction of nitrogen oxides emissions in areas that bear a
35 disproportionate share of the burden from nitrogen oxides emissions;

36 (c) Achieve substantial additional air quality benefits relating
37 to the reduction of nitrogen oxides emissions beyond that which would
38 already occur, absent trust funding;

39 (d) Investments in clean vehicles or investments in clean engine
40 replacements must be shown to be cost-effective. For the purposes of

1 leveraging funding, investments in clean vehicles may not exceed the
2 incremental cost of the clean vehicle, relative to the cost of a
3 similar conventionally fueled vehicle. To incentivize the replacement
4 of standard engines, investments may be made up to the full cost of
5 the clean engine replacement;

6 (e) Consideration must be given to investments across a range of
7 fueling technologies and emissions reduction technologies; and

8 (f) Priority must be given to projects that have the highest
9 benefit-cost ratios, in terms of the amount of nitrogen oxides
10 emissions reduced per dollar invested.

11 (4) Funding must be allocated to eligible projects under the
12 terms of the consent decrees in the following manner:

13 (a)(i) No more than thirty percent of funding provided during the
14 2017-2019 biennium for commercial vehicle class four through eight
15 transit buses, shuttle buses, and school buses;

16 (ii) No more than thirty percent of funding provided during the
17 2017-2019 biennium for commercial vehicle class eight local freight
18 trucks and port drayage trucks;

19 (iii) No more than twenty percent of funding provided during the
20 2017-2019 biennium for commercial vehicle class four through seven
21 local freight trucks;

22 (iv) No more than twenty percent of funding provided during the
23 2017-2019 biennium for airport ground support equipment;

24 (v) No more than twenty percent of funding provided during the
25 2017-2019 biennium for ocean-going vessels' shore power;

26 (vi) No more than fifteen percent of funding provided during the
27 2017-2019 biennium for light duty, zero emission vehicle supply
28 equipment;

29 (vii) No more than twenty percent of funding provided during the
30 2017-2019 biennium for nonfederal matching funds for projects
31 eligible under the diesel emission reduction act option; and

32 (viii) For each of the other categories of mitigation actions
33 that are eligible under the consent decrees but not otherwise
34 specified under this subsection (4)(a), no more than ten percent of
35 funding provided during the 2017-2019 biennium.

36 (b) Projects that receive funding under subsection (4)(a)(ii) and
37 (iii) of this section and ocean-going vessels shorepower projects
38 that receive funding under subsection (4)(a)(viii) of this section
39 must include electric technologies, if practicable.

1 (5) To the extent this section conflicts with the consent
2 decrees, the consent decrees supersede it.

3 (6) The department of ecology may modify the mitigation plan as
4 needed to comply with trustee requirements, including to the extent
5 these modifications conflict with this section. In making any
6 adjustments, the department of ecology shall consult with the
7 department of transportation and the office of the superintendent of
8 public instruction and provide notice to the steering committee of
9 any significant changes to the plan submitted.

10 (7) The department of ecology shall provide a report to the
11 governor and the appropriate committees of the legislature by January
12 1, 2018, and each year thereafter, on any plans or efforts to change
13 the mitigation plan, its progress in implementing the mitigation
14 plan, and the specific projects funded through these mitigation funds
15 for the previous fiscal year.

16 (8) For the purposes of this section:

17 (a) "Project" means an eligible mitigation action under the terms
18 of the consent decrees entered into by the United States, Volkswagen
19 AG, and other participating parties that settle emissions-related
20 claims for 2.0 and 3.0 liter diesel vehicles of certain models and
21 years.

22 (b) "Trustee" means the entity selected under the terms of the
23 consent decrees to administer the disbursement of funds to eligible
24 projects for the purposes of mitigating nitrogen oxides emission
25 pollution.

 26 Trust Land Transfer Program (30000269)

27 The appropriation in this section is subject to the following
 28 conditions and limitations:

29 (1) The appropriation is provided solely to the department of
 30 natural resources to transfer from trust status certain trust lands
 31 of statewide significance deemed appropriate for state parks, fish
 32 and wildlife habitats, natural area preserves, natural resources
 33 conservation areas, department of natural resources community forest
 34 open spaces, or recreation purposes. The approved property for

1 transfer is identified in the LEAP capital document no. 2017-2H,
2 developed June 30, 2017.

3 (2) Property transferred under this section must be appraised and
4 transferred at fair market value. By September 30, 2018, the
5 department must deposit in the common school construction account the
6 portion of the appropriation in this section that represents the
7 estimated value of the timber on the transferred properties. This
8 transfer must be made in the same manner as timber revenues from
9 other common school trust lands. No deduction may be made for the
10 resource management cost account under RCW 79.64.040. The portion of
11 the appropriation in this section that represents the value of the
12 land transferred must be deposited in the natural resources real
13 property replacement account.

14 (3) All reasonable costs incurred by the department to implement
15 this section are authorized to be paid out of the appropriations.
16 Authorized costs include the actual cost of appraisals, staff time,
17 environmental reviews, surveys, and other similar costs, and may not
18 exceed one and nine-tenths percent of the appropriation.

19 (4) By June 30, 2018, land within the common school trust shall
20 be exchanged for land of equal value held for other trust
21 beneficiaries of the property identified in subsection (1) of this
22 section.

23 (5) Prior to or concurrent with conveyance of these properties,
24 the department shall execute and record a real property instrument
25 that dedicates the transferred properties to the purposes identified
26 in subsection (1) of this section. Fee transfer agreements for
27 properties identified in subsection (1) of this section must include
28 terms that perpetually restrict the use of the property to the
29 intended purpose. Transfer agreements may include provisions for
30 receiving agencies to request alternative uses of the property,
31 provided the alternative uses are compatible with the originally
32 intended public purpose and the department and legislature approves
33 such uses.

34 (6) The department shall work in good faith to carry out the
35 intent of this section.

36 (7) By June 30, 2019, the state treasurer shall transfer to the
37 common school construction account any unexpended balance of the
38 appropriation in this section.

2	Prior Biennia (Expenditures).	\$0
3	Future Biennia (Projected Costs).	\$0
4	TOTAL.	\$10,000,000

6 State Forest Land Replacement (30000277)

7 The appropriation in this section is subject to the following
8 conditions and limitations:

9 (1) \$60,000 of the appropriation is provided solely for the
10 department to assess options to replace timber trust revenues for
11 counties with populations of twenty-five thousand or fewer that are
12 subject to timber harvest deferrals greater than thirty years due to
13 the presence of wildlife species listed as endangered or threatened
14 under the federal endangered species act. The department must consult
15 with the qualifying counties and other stakeholders in conducting the
16 assessment. The department shall report the findings of its
17 assessment, including recommendations for addressing decreased
18 revenues from state forestlands and improving the forest products
19 economy in the qualifying counties, by December 15, 2017.

20 (2)(a) The remaining portion of the appropriation is provided
21 solely to the department to transfer from state forestland status to
22 natural resources conservation area status certain state forestlands
23 in counties:

- 24 (i) With a population of twenty-five thousand or fewer; and
- 25 (ii) With risks of timber harvest deferrals greater than thirty
26 years due to the presence of wildlife species listed as endangered or
27 threatened under the federal endangered species act.

28 (b) This appropriation must be used equally for the transfer of
29 qualifying state forestlands in the qualifying counties.

30 (3) Property transferred under this section must be appraised and
31 transferred at fair market value, without consideration of management
32 or regulatory encumbrances associated with wildlife species listed
33 under the federal endangered species act. The value of the timber and
34 other valuable materials transferred must be distributed as provided
35 in RCW 79.64.110. The value of the land transferred must be deposited
36 in the park land trust revolving account and be used solely to buy
37 replacement state forestland, consistent with RCW 79.22.060.

1 (4) Prior to or concurrent with conveyance of these properties,
2 the department shall execute and record a real property instrument
3 that dedicates the transferred properties to the purposes identified
4 in subsection (2) of this section. Transfer agreements for properties
5 identified in subsection (2) of this section must include terms that
6 restrict the use of the property to the intended purpose.

7 (5) The department and applicable counties shall work in good
8 faith to carry out the intent of this section. The department will
9 identify eligible properties for transfer, consistent with
10 subsections (2) and (3) of this section, in consultation with the
11 applicable counties, and will not execute any property transfers that
12 are not in the statewide interest of either the state forest trust or
13 the natural resources conservation area program.

Aviation Revitalization Loans (92000003)

The appropriation in this section is subject to the following conditions and limitations:

(1) This appropriation is provided solely for deposit into the public use general aviation airport loan revolving account created in section 7028 of this act for direct loans to political subdivisions of the state and privately owned airports for the purpose of improvements at public use airports that primarily support general aviation activities.

(2) The department must convene a community aviation revitalization board to develop criteria for selecting loan recipients, to develop a process for evaluating applications, and to make decisions. The board must consist of the capital budget chair and ranking minority member of the capital budget committee of the house of representatives and the senate ways and means committee, and a representative from both the department of transportation's aviation division and the department of commerce. The board must also consist of the following members appointed by the secretary of transportation: One port district official, one county official, one city official, one representative of airport managers, and one representative of pilots. The chair of the board must be selected by the secretary of transportation. The members of the board must elect one of their members to serve as vice chair. The director of commerce and the secretary of transportation must serve as nonvoting advisory members of the board.

(3) The board may provide loans to privately owned airports for the purpose of airport improvements only if the state is receiving

1 commensurate public benefit, such as guaranteed long-term public
2 access to the airport as a condition of the loan. For purposes of
3 this subsection, "public use airports that primarily support general
4 aviation activities" means all public use airports not listed as
5 having more than fifty thousand annual commercial air service
6 passenger enplanements as published by the federal aviation
7 administration.

8 (4) An application for loan funds under this section must be made
9 in the form and manner as the board may prescribe. When evaluating
10 loan applications, the board must prioritize applications that
11 provide conclusive justification that completion of the loan
12 application project will create revenue-generating opportunities. The
13 board is not limited to, but must also use, the following expected
14 outcome conditions when evaluating loan applications:

15 (a) A specific private development or expansion is ready to occur
16 and will occur only if the aviation facility improvement is made;

17 (b) The loan application project results in the creation of jobs
18 or private sector capital investment as determined by the board;

19 (c) The loan application project improves opportunities for the
20 successful maintenance, operation, or expansion of an airport or
21 adjacent airport business park;

22 (d) The loan application project results in the creation or
23 retention of long-term economic opportunities; and

24 (e) The loan application project results in leveraging additional
25 federal funding for an airport.

26 (5) The repayment of any loan made from the public use general
27 aviation airport loan revolving account under the contracts for
28 aviation loans must be paid into the public use general aviation
29 airport loan revolving account.

Emergency Repairs and Equal Access Grants for K-12 Public Schools
(30000182)

The appropriations in this section are subject to the following conditions and limitations:

(1) \$2,000,000 of the common school construction account—state appropriation is provided solely for emergency repair grants to address unexpected and imminent health and safety hazards at K-12 public schools, including skill centers, that will impact the day-to-day operations of the school facility, and this is the maximum amount that may be spent for this purpose. For emergency repair grants only, an emergency declaration must be signed by the school district board of directors and submitted to the superintendent of public instruction for consideration. The emergency declaration must include a description of the imminent health and safety hazard, the possible cause, the proposed scope of emergency repair work and related cost estimate, and identification of local funding to be applied to the project. Grants of emergency repair moneys must be conditioned upon the written commitment and plan of the school district board of directors to repay the grant with any insurance payments or other judgments that may be awarded, if applicable.

(2) \$3,000,000 of the state building construction account—state appropriation is provided solely for urgent repair grants to address non-reoccurring urgent small repair projects at K-12 public schools, excluding skill centers, that could impact the health and safety of students and staff if not completed, and this is the maximum amount that may be spent for this purpose. The office of the superintendent of public instruction, after consulting with maintenance and operations administrators of school districts, shall develop criteria and assurances for providing funding for specific projects through a competitive grant program. The criteria and assurances must include, but are not limited to, the following: (a) Limiting school districts to one grant, not to exceed \$200,000, per three-year period; (b) prioritizing applications based on limited school district financial resources for the project; and (c) requiring any district receiving

1 funding provided in this section to demonstrate a consistent
2 commitment to addressing school facility needs. The grant
3 applications must include a comprehensive description of the health
4 and safety issues to be addressed, a detailed description of the
5 remedy including a detailed cost estimate of the repair or
6 replacement work to be performed, and identification of local
7 funding, if any, which will be applied to the project. Grants may be
8 used for, but are not limited to: Repair or replacement of failing
9 building systems; abatement of potentially hazardous materials; and
10 safety-related structural improvements.

11 (3) \$1,000,000 of the state building construction account—state
12 appropriation is provided solely for equal access grants for facility
13 repairs and alterations at K-12 public schools, including skills
14 centers, to improve compliance with the Americans with disabilities
15 act and individuals with disabilities education act, and this is the
16 maximum amount that may be spent for this purpose. The superintendent
17 of public instruction shall develop criteria and assurances for
18 providing funding for specific projects through a competitive grant
19 program. The criteria and assurances must include, but are not
20 limited to, the following: (a) Limiting districts to one grant, not
21 to exceed \$100,000, per three-year period; (b) prioritizing
22 applications based on limited school district financial resources for
23 the project; and (c) requiring recipient districts to demonstrate a
24 consistent commitment to addressing school facility needs. The grant
25 applications must include a description of the Americans with
26 disabilities act or individuals with disabilities education act
27 compliance deficiency, a comprehensive description of the facility
28 accessibility issues to be addressed, a detailed description of the
29 remedy including a detailed cost estimate of the repair or
30 replacement work to be performed, and identification of local
31 funding, if any, which will be applied to the project. Priority for
32 grant funding must be given to school districts that demonstrate a
33 lack of capital resources to address the compliance deficiencies
34 outlined in the grant application.

35 (4) The superintendent of public instruction must notify the
36 office of financial management, the legislative evaluation and
37 accountability program committee, the house capital budget committee,
38 and the senate ways and means committee as projects described in
39 subsection (1) of this section are approved for funding.

31 (b) Priority for applicants with a high percentage of students
32 who are eligible and enrolled in the free and reduced-price meals
33 program;

8 (i) A demonstration that existing STEM faculty are in place and
9 are qualified to deliver an interactive, project-based STEM
10 curriculum in the proposed specialized STEM facilities; or

11 (ii) A plan and budget in place to recruit or train such STEM
12 faculty.

13 (6) For purposes of grant applications made in the 2017-2019

19 district board of directors; or

20 (b) The date of the final review of the latest study and survey
21 of the affected school district following acceptance of the project
22 by the school district board of directors.

4 of the estimated debt service costs associated with new capital bond
5 appropriations. The estimated debt service costs for the
6 appropriations contained in this act are forty-three million five
7 hundred ninety-three thousand dollars for the 2017-2019 biennium, two
8 hundred seventy-four million nine hundred ninety-two thousand dollars
9 for the 2019-2021 biennium, and three hundred eighty-four million
10 four hundred seventy-five thousand dollars for the 2021-2023
11 biennium.

12 NEW SECTION. **Sec. 7002.** ACQUISITION OF PROPERTIES AND
13 FACILITIES THROUGH FINANCIAL CONTRACTS. (1) The following agencies
14 may enter into financial contracts, paid from any funds of an agency,
15 appropriated or nonappropriated, for the purposes indicated and in
16 not more than the principal amounts indicated, plus financing
17 expenses and required reserves pursuant to chapter 39.94 RCW. When
18 securing properties under this section, agencies shall use the most
19 economical financial contract option available, including long-term
20 leases, lease-purchase agreements, lease-development with option to
21 purchase agreements or financial contracts using certificates of
22 participation. Expenditures made by an agency for one of the
23 indicated purposes before the issue date of the authorized financial
24 contract and any certificates of participation therein are intended
25 to be reimbursed from proceeds of the financial contract and any
26 certificates of participation therein to the extent provided in the
27 agency's financing plan approved by the state finance committee.

28 (2) Those noninstructional facilities of higher education
29 institutions authorized in this section to enter into financial
30 contracts are not eligible for state funded maintenance and

32 scheduled classes for academic transfer, basic skills, and workforce
33 training programs may be eligible for state funded maintenance and
34 operations.

1 NEW SECTION. **Sec. 7003.** To ensure that major construction
2 projects are carried out in accordance with legislative and executive
3 intent, appropriations in this act in excess of \$5,000,000, or
4 \$10,000,000 for higher education institutions, may not be expended or
5 encumbered until the office of financial management has reviewed and
6 approved the agency's predesign. The predesign document must include,
7 but not be limited to, program, site, and cost analysis, and an
8 analysis of the life-cycle costs of the alternatives explored, in
9 accordance with the predesign manual adopted by the office of
10 financial management. The results of life-cycle cost analysis must be
11 a primary consideration in the selection of a building design.
12 Construction may proceed only upon providing to the office of
13 financial management the life-cycle costs. To improve monitoring of
14 major construction projects, progress reports must be submitted by
15 the agency administering the project to the office of financial
16 management and to the fiscal committees of the house of
17 representatives and senate. Reports must be submitted on July 1st and
18 December 31st each year in a format to be developed by the office of
19 financial management.

20 NEW SECTION. **Sec. 7004.** (1) The legislature finds that use of
21 life-cycle cost analysis will aid public entities, architects,
22 engineers, and contractors in making design and construction
23 decisions that positively impact both the initial construction cost
24 and the ongoing operating and maintenance cost of a project. To
25 ensure that the total cost of a project is accounted for and the most
26 reasonable and cost efficient design is used, agencies shall develop
27 life-cycle costs for any construction project over \$10,000,000. The
28 life-cycle costs must represent the present value sum of capital
29 costs, installation costs, operating costs, and maintenance costs
30 over the life expectancy of the project. The legislature further
31 finds the most effective approach to the life-cycle cost analysis is
32 to integrate it into the early part of the design process.

33 (2) Agencies shall develop a minimum of three project
34 alternatives for use in the life-cycle cost analysis. These
35 alternatives must be both distinctly different and viable solutions
36 to the issue being addressed. The chosen alternative must be the most
37 reasonable and cost-effective solution. A brief description of each
38 project alternative and why it was chosen must be included in the
39 life-cycle cost analysis section of the predesign.

1 (3) The office of financial management shall: (a) Make available
2 a life-cycle cost model to be used for analysis; (b) in consultation
3 with the department of enterprise services, provide assistance in
4 using the life-cycle cost model; and (c) update the life-cycle cost
5 model annually including assumptions for inflation rates, discount
6 rates, and energy rates.

7 (4) Agencies shall consider architectural and engineering firms'
8 and general contractors' experience using life-cycle costs, operating
9 costs, and energy efficiency measures when selecting an architectural
10 and engineering firm, or when selecting contractors using alternative
11 contracting methods.

12 NEW SECTION. **Sec. 7005.** To improve monitoring of major
13 construction projects, progress reports must be submitted by the
14 agency administering the project to the office of financial
15 management and to the fiscal committees of the house of
16 representatives and senate. Reports must be submitted on July 1st and
17 December 31st each year in a format to be determined by the office of
18 financial management.

19 NEW SECTION. **Sec. 7006.** (1) Allotments for appropriations in
20 this act shall be provided in accordance with the capital project
21 review requirements adopted by the office of financial management and
22 in compliance with RCW 43.88.110. Projects that will be employing
23 alternative public works construction procedures under chapter 39.10
24 RCW are subject to the allotment procedures defined in this section
25 and RCW 43.88.110.

26 (2) Each project is defined as proposed in the legislative budget
27 notes or in the governor's budget document.

28 NEW SECTION. **Sec. 7007.** (1) The office of financial management
29 may authorize a transfer of appropriation authority provided for a
30 capital project that is in excess of the amount required for the
31 completion of such project to another capital project for which the
32 appropriation is insufficient. No such transfer may be used to expand
33 the capacity of any facility beyond that intended in making the
34 appropriation. Such transfers may be effected only between capital
35 appropriations to a specific department, commission, agency, or
36 institution of higher education and only between capital projects
37 that are funded from the same fund or account. No transfers may occur

1 between projects to local government agencies except where the grants
2 are provided within a single omnibus appropriation and where such
3 transfers are specifically authorized by the implementing statutes
4 that govern the grants.

5 (2) The office of financial management may find that an amount is
6 in excess of the amount required for the completion of a project only
7 if: (a) The project as defined in the notes to the budget document is
8 substantially complete and there are funds remaining; or (b) bids
9 have been let on a project and it appears to a substantial certainty
10 that the project as defined in the notes to the budget document can
11 be completed within the biennium for less than the amount
12 appropriated in this act.

13 (3) For the purposes of this section, the intent is that each
14 project be defined as proposed to the legislature in the governor's
15 budget document, unless it clearly appears from the legislative
16 history that the legislature intended to define the scope of a
17 project in a different way.

18 (4) A report of any transfer effected under this section, except
19 emergency projects or any transfer under \$250,000, shall be filed
20 with the legislative fiscal committees of the senate and house of
21 representatives by the office of financial management at least thirty
22 days before the date the transfer is effected. The office of
23 financial management shall report all emergency or smaller transfers
24 within thirty days from the date of transfer.

25 (5) The transfer authority granted in this section does not apply
26 to appropriations for projects for the state parks and recreation
27 commission. Appropriations for commission projects may be spent only
28 for the specified projects, and funding may not be transferred from
29 one commission project to another or from other sources to a
30 commission project.

31 NEW SECTION. **Sec. 7008.** (1) It is expected that projects be
32 ready to proceed in a timely manner depending on the type or phase of
33 the project or program that is the subject of the appropriation in
34 this act. Except for major projects that customarily may take more
35 than two biennia to complete from predesign to the end of
36 construction, or large infrastructure grant or loan programs
37 supporting projects that often take more than two biennia to
38 complete, the legislature generally does not intend to reappropriate

1 funds more than once, particularly for smaller grant programs, local/
2 community projects, and minor works.

3 (2) Agencies shall expedite the expenditure of reappropriations
4 and appropriations in this act in order to: (a) Rehabilitate
5 infrastructure resources; (b) accelerate environmental rehabilitation
6 and restoration projects for the improvement of the state's natural
7 environment; (c) reduce additional costs associated with acquisition
8 and construction inflationary pressures; and (d) provide additional
9 employment opportunities associated with capital expenditures.

10 (3) To the extent feasible, agencies are directed to accelerate
11 expenditure rates at their current level of permanent employees and
12 shall use contracted design and construction services wherever
13 necessary to meet the goals of this section.

14 NEW SECTION. **Sec. 7009.** (1) Any building project that receives
15 over \$10,000,000 in funding from the capital budget must be built to
16 sustainable standards. "Sustainable building" means a building that
17 integrates and optimizes all major high-performance building
18 attributes, including energy efficiency, durability, life-cycle
19 performance, and occupant productivity. The following design and
20 construction attributes must be integrated into the building project:

21 (a) **Employ integrated design principles:** Use a collaborative,
22 integrated planning and design process that initiates and maintains
23 an integrated project team in all stages of a project's planning and
24 delivery. Establish performance goals for siting, energy, water,
25 materials, and indoor environmental quality along with other
26 comprehensive design goals and ensures incorporation of these goals
27 throughout the design and life-cycle of the building. Considers all
28 stages of the building's life-cycle, including deconstruction.

29 (b) **Commissioning:** Employ commissioning practices tailored to the
30 size and complexity of the building and its system components in
31 order to verify performance of building components and systems and
32 help ensure that design requirements are met. This should include an
33 experienced commissioning provider, inclusion of commissioning
34 requirements in construction documents, a commissioning plan,
35 verification of the installation and performance of systems to be
36 commissioned, and a commissioning report.

37 (c) **Optimize energy performance:** Establish a whole building
38 performance target that takes into account the intended use,
39 occupancy, operations, plug loads, other energy demands, and design

1 to earn the ENERGY STAR targets for new construction and major
2 renovation where applicable. For new construction target low energy
3 use index. For major renovations, reduce the energy use by fifty
4 percent below prerenovations baseline.

5 (d) On-site renewable energy: Meet at least thirty percent of the
6 hot water demand through the installation of solar hot water heaters,
7 when life-cycle cost effective. Implement renewable energy generation
8 projects on agency property for agency use, when life-cycle cost
9 effective.

10 (e) Measurement and verification: Install building level
11 electricity meters in new major construction and renovation projects
12 to track and continuously optimize performance. Include equivalent
13 meters for natural gas and steam, where natural gas and steam are
14 used. Install dashboards inside buildings to display and incentivize
15 occupants on energy use.

16 (f) Benchmarking: Compare actual performance data from the first
17 year of operation with the energy design target. Verify that the
18 building performance meets or exceeds the design target. For other
19 building and space types, use an equivalent benchmarking tool for
20 laboratory buildings. Web-based data collection and dashboards must
21 also be provided.

22 NEW SECTION. **Sec. 7010.** State agencies, including institutions
23 of higher education, shall allot and report full-time equivalent
24 staff for capital projects in a manner comparable to staff reporting
25 for operating expenditures.

26 NEW SECTION. **Sec. 7011.** Executive Order No. 05-05,
27 archaeological and cultural resources, was issued effective November
28 10, 2005. Agencies shall comply with the requirements set forth in
29 this executive order.

30 NEW SECTION. **Sec. 7012.** FOR THE ARTS COMMISSION—ART WORK
31 ALLOWANCE. (1) One-half of one percent of moneys appropriated in this
32 act for original construction of school plant facilities is provided
33 solely for the purposes of RCW 28A.335.210.

34 (2) One-half of one percent of moneys appropriated in this act
35 for original construction or any major renovation or remodel work
36 exceeding \$200,000 by colleges or universities is provided solely for
37 the purposes of RCW 28B.10.027.

1 (3) One-half of one percent of moneys appropriated in this act
2 for original construction of any public building by a state agency
3 identified in RCW 43.17.020 is provided solely for the purposes of
4 RCW 43.17.200.

5 (4) At least eighty-five percent of the moneys spent by the
6 Washington state arts commission during the 2017-2019 biennium for
7 the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be
8 expended solely for direct acquisition of works of art. Art
9 allocations not expended within the ensuing two biennia will lapse.
10 The commission may use up to \$150,000 of this amount to conserve or
11 maintain existing pieces in the state art collection pursuant to RCW
12 28A.335.210.

13 (5) The executive director of the arts commission shall appoint a
14 study group to review the operations of the one-half of one percent
15 for works of art purchased or commissioned as required by RCW
16 28A.335.210, 28B.10.027, and 43.17.200. The findings of the review
17 must be reported annually to the office of financial management and
18 the fiscal committees of the legislature by September 15th. The
19 review must include, but is not limited to, the following: (a)
20 Projects purchased or commissioned per biennium; (b) partner
