

SHB 2395 (H-5060.1)

By Representatives Tharinger and DeBolt

Summary

February 26, 2018

Office of Program Research

OVERVIEW

NEW APPROPRIATIONS AND AUTHORIZATIONS

The enacted 2017-19 capital budget (Laws of 2018, Chapter 2; SSB 6090) appropriated \$2.72 billion in state bond proceeds. A total of \$2.93 billion in bond proceeds was authorized for the 2017-19 biennium (Laws of 2018, Chapter 3, E2SHB 1080).

SHB 2395 appropriates \$208 million in general obligation bonds and \$104 million from dedicated accounts for projects during the 2017-19 biennium. In addition, SHB 2395 authorizes \$64.6 million in alternatively financed projects.

RESERVED BOND CAPACITY

Of the \$211.4 million in remaining bond capacity available under the 2017-19 bond authorization, SHB 2395 appropriates \$208 million, leaving approximately \$3.4 in bond capacity reserved for the 2019 second supplemental budget.

MAJOR PROJECT SUMMARIES

LOCAL AND COMMUNITY PROJECTS

The Department of Commerce is appropriated \$52.2 million for a variety of projects and programs including:

- \$5 million in bonds for the Community Economic Revitalization Board (CERB);
- \$5 million in bonds for the CERB administered broadband program;
- \$20.8 million in bonds for 53 local and community projects;
- \$4 million in bonds for four housing projects; and
- \$2.5 million in bonds for weatherization.

BEHAVIORAL HEALTH FACILITIES

The Department of Social and Health Services (DSHS) is appropriated \$17.8 for the following:

- \$2.9 million in bonds for projects to address the System Improvement Agreement with the Centers for Medical Services;
- \$9 million in bonds for the conversion of 60 civil beds into forensic beds at Western State Hospital;
- \$3.5 million in bonds for 25 forensic beds at Eastern State Hospital; and
- \$2.4 million in bonds for an Eastern State Hospital heating, ventilation, and air conditioning (HVAC) control project.

The Department of Commerce is appropriated \$11.3 million for five community based behavioral health facilities.

STATE FACILITIES

A total of \$24.7 million is provided for projects across state facilities. These projects include:

- \$5.1 million in bonds for projects at Department of Corrections facilities;
- \$3.2 million in bonds for predesign and design of two Skilled Nursing Facilities;
- \$2.4 million for cost escalation for various projects at state facilities;
- \$1.4 million for predesign and design for Pine Lodge for Behavioral Rehabilitation Services; and
- \$750,000 in bonds for the renovation design of Retsil Building 10 for a Geriatric-Psychiatric Center.

- \$1.1 million for Engineering and Architectural Services through the Department of Enterprise Services;
- \$3.4 million in bonds for exterior preservation and cleaning of the Legislative dome; and
- \$1.5 million in bonds in additional funding for the Capitol Lake long-term management planning.

NATURAL RESOURCES

A total of \$165 million is provided for various natural resource projects including:

- \$28.4 million from the Air Pollution Control Account from Volkswagen penalties for projects that replace older, high polluting vehicles;
- \$92 million in additional spending authority from the Volkswagen settlement;
- \$20.9 million in Model Toxics Control Act (MTCA) funds for cleanup and stormwater projects;
- An additional \$8.15 million in MTCA funds to begin loan repayment to the Cleanup Settlement Account;
- A total of \$4.85 million in bonds for State Parks and Recreation Commission projects. (SHB 2395 eliminates the OFM-administered contingency pool for State Parks projects and appropriates the funding directly to State Parks for projects);
- \$1.3 million in bonds for the Scatter Creek Wildlife Area for repairs due to the fire;
- \$10.7 million in bonds for 22 additional Aquatic Lands Enhancement projects;
- \$2 million in bonds for state match for projects that received federal funding through the federal Regional Conservation Partnership Program;
- \$7.3 million of authority is reduced from the Pollution Underground Storage Tank Revolving Account to reflect revised estimated revenues available; and
- \$9.3 million is loaned to the Department of Natural Resources for the first phase of installing a pipeline and irrigation delivery system, known as the Paterson Pipeline, to bring water to land allowed under a water rights permit owned by the DNR for the development of approximately 4,400 acres of agricultural lands to be irrigated with water from the Columbia River. The revenues from the leased irrigated acreage will repay the loan with interest.

K-12 AND OTHER EDUCATION CONSTRUCTION

- An additional \$74.5 million in bonds are provided for school construction assistance. Common school cash appropriations are reduced by \$31.6 million for a net increase of \$42.9 million for the School Construction Assistance Program. The increased amounts reflect the state match needed for the list of school projects released by the Office of Superintendent of Public Instruction (OSPI) in July, 2017 and the anticipated list of school projects to be released by the OSPI in July, 2018. The increased amount also provides additional funding for nine school projects for escalated costs due to delays in school construction in fiscal year 2018.
- A total of \$14 million is provided to two school districts for Distressed School grants. \$10 million is for the Toledo School District to construct a new high school and modernize the existing high school gym. The Toledo School District must provide a local match equivalent to a minimum of \$7 million to access the appropriation. The remaining \$4 million is for the Frantz H. Coe Elementary School in Seattle Public Schools.
- \$1 million is provided to the Center for Childhood Deafness and Hearing Loss for pre-design and design of an Academic and Physical Education Building.

HIGHER EDUCATION FACILITIES

- \$3 million additional funding from the University of Washington (UW) Building Account for seismic improvements to address life safety and building structural issues at UW.
- \$504 thousand in bonds for The Evergreen State College (TESC) for structural repairs of the Historic Lord Mansion entry porch. Responsibility for maintaining and operating the mansion must be transferred from the Washington State Historical Society to TESC by July 1, 2018.
- \$23.5 million of minor works projects, roof repairs, and facility repairs are reduced from a combination of bonds and the Community and Technical College Building account for the State Board of Community and Technical Colleges (SBCTC).
- \$4.2 million in bonds along with building account savings provide escalated cost adjustments for thirteen delayed design and construction projects for the SBCTC, as well as five additional design projects for new construction or renovations at Cascadia, Everett, Grays Harbor, North Seattle, and Walla Walla Community Colleges.

MISCELLANEOUS PROVISIONS

- Establishes a Joint Legislative Task Force on Water Supply to review surface water and ground water uses as they relate to agricultural uses, domestic potable water uses, instream flows, fish habitat, and to develop and recommend projects that would increase total water supply.
