2019–21 Capital Budget Summary

HIGHLIGHTS FOR SHB 1102 as Passed Committee 2019–21 CAPITAL BUDGET

DEBT LIMIT, BOND CAPACITY, AND TOTAL APPROPRIATIONS

Debt Limit

Washington State has a constitutional debt limit. The State Treasurer may not issue any bonds that would cause the debt service (principal and interest payments) on any new and existing bonds to exceed this limit. Under a constitutional amendment approved by the voters in 2012, the state debt limit is currently 8.25 percent of the average of the prior six years' general state revenues, defined as all unrestricted state tax revenues. This limit is reduced to 8 percent beginning on July 1, 2034.

Bond Capacity

A model administered by the State Treasurer's Office is used to calculate the available bond capacity for the current budgeting period and for future biennial planning purposes. The model calculates the actual debt service on outstanding bonds and is used to estimate future debt service based on certain assumptions including revenue growth, interest rates, rate of repayment, rate of bond issuance, and other factors.

For the 2019–21 biennium, projected bond capacity is \$3.2 billion. This bond capacity incorporates the 2019 March Economic and Revenue forecast, which includes changes in general state revenues related to the changes included in Chapter 8, Laws of 2019 (SSB 5581). In addition, there is debt limit bond capacity remaining from bonds previously authorized, such as for the Streamflow Restoration program, capacity after the 2018 Supplemental Capital Budget, and from adjusting funding in the 2019 supplemental capital budget.

Appropriations for 2019–21 and 2019 Supplemental Budget

After the enacted 2018 supplemental capital budget, there was \$10.8 million in bond capacity remaining. The supplemental budget reduces reappropriations and appropriations by \$49.28 million.

The 2019–21 biennial budget includes reappropriations totaling \$3.9 billion for prior authorized, but not-yet completed projects, of which \$2.5 billion are funded with bonds.

The proposed capital budget appropriates a total of \$4.6 billion. Of this amount, \$3.1 billion in general obligation bonds is appropriated for the 2019–21 fiscal biennium. \$3 billion requires passage of a new bond authorization bill (PSHB 1101) and \$100 million is from existing bond authority. A total of \$1.29 billion is appropriated from other funding and \$200 million is authorized in alternative financing.

Approximately \$200 million in bond capacity is reserved for a supplemental capital budget.
