**Comments:**

**1. Healthier WA Savings Restoration**

Healthier Washington is a project that allows the Health Care Authority and the Department of Social and Health Services to establish integrated clinical models of physical and behavioral health care, thereby improving the effectiveness of health care purchasing and transforming the health care delivery system. As a result of delayed efforts to integrate these clinical models, savings assumed in the current budget will not be realized this biennium. Funding is provided to restore a portion of the assumed savings. (General Fund-State; General Fund-Medicaid)

**2. Pharmacy Savings Restoration**

The Health Care Authority has implemented a single Medicaid preferred drug list. The savings assumptions in the current budget will not be achieved at the level or within the timeline originally anticipated. Funding is provided to restore a portion of the assumed savings. (General Fund-State; General Fund-Medicaid)

---

**3. Dental Savings Restoration**

The Health Care Authority has named apparently successful bidders to transition dental services from fee for service to managed care. Savings from reduced emergency department utilization as a result were assumed in the current budget; however, the savings assumptions in the current budget will not be achieved at the level or within the timeline originally anticipated. Funding is provided to restore the assumed savings for fiscal year 2019. (General Fund-State; General Fund-Medicaid)

**4. PEBB Administrative Fees**

This provides additional spending authority to cover projected costs in Flexible Spending Arrangement (FSA) and Dependent Care Assistance Program (DCAP) administration fees. These third party administrator costs would exceed authorized levels without the increase. (Flexible Spending Administrative Account-Non-Appr)

**5. Low Income Health Care/I-502**

Initiative 502 directed a portion of the revenue from taxes on the sale of marijuana into the Basic Health Trust Account. Those dollars are used in lieu of General Fund-State dollars for capitation payments for Medicaid clients enrolled in managed care plans. Funding is adjusted to reflect updated estimates of marijuana-related revenue. (General Fund-State; Basic Health Plan Trust Account-Non-Appr)

**6. Community Health Centers/I-502**

Initiative 502, passed by voters in 2012, authorizes the regulation, sale, and taxation of marijuana for adults over the age of 21. The initiative directed a portion of the tax revenue to fund primary, dental, migrant, and maternity health care services through contracts with community health centers. The Health Care Authority (HCA) will use the tax revenue in lieu of state general fund payments to community health centers for services provided to medical assistance clients. (General Fund-State; Dedicated Marijuana Account-State)

**7. Behavioral Health Grants**

Federal expenditure authority is provided for multiple federal grant awards to address and combat substance use disorder (General Fund-Federal)

**8. Family Planning Clinic Rates**

Funding is provided to increase reimbursement rates for reproductive health services ineligible for federal matching funds. (General Fund-State)

**9. BHO Reserves Savings**

Effective January 1, 2020, all regions of the state are required to transition to fully integrated physical and behavioral health care, meaning funding for these services will shift from Behavioral Health Organizations (BHOs) to fully integrated managed care contracts. The current BHOs are required to return state and federal Medicaid reserves remaining after termination of their contract, resulting in a one-time savings.
