16 with one or more health care entities that provide behavioral health
17 care services to individuals eligible for the housing provided under
18 this subsection;

22 least a forty-year period;

23 (iii) Readiness to begin structural modifications or construction
24 resulting in a fast project completion;

25 (iv) Program requirements that adhere to the key elements of

27 living arrangements, functional separation of housing and services,
28 community integration, rights of tenancy, and voluntary recovery-

36 solely for competitive grant awards for modular housing which
37 includes high quality affordable housing projects that will quickly

39 significantly less expensive to construct than traditional housing.

1 These funds must be awarded to projects with a total project
2 development cost per housing unit of less than \$125,000, excluding

22 department must require a capital needs assessment to be provided
23 prior to contract execution. Funds may not be used to add or expand
24 the capacity of the property.

25 (iii) To allocate preservation funds, the department must review
26 applications and evaluate projects based on the following criteria:

28 that are more than fifteen years old;

7 use after housing is fully occupied or designed to achieve the most
8 recent building standard of the passive house institute US as of the

15 achieve the most recent building standard of the passive house
16 institute US as of the effective date of this section;

17 (B) The life-cycle cost of the project;

18 (C) That the project demonstrates a design, use of materials, and
19 construction process that can be replicated by the Washington

10 must contain insulation, electricity, overhead lights, and heating.
11 Kitchens and bathrooms may be contained within the individual

4 a separate application form for applications to provide homeownership
5 opportunities and evaluate homeownership project applications as
6 allowed under chapter 43.185A RCW.

7 (C) In addition to the definition of "first-time home buyer" in
8 RCW 43.185A.010, for the purposes of awarding homeownership projects
9 during the 2019-2021 fiscal biennium "first time home buyer" also

26 (3) (a) The department must strive to allocate all of the amounts
27 appropriated in this section within the 2019-2021 fiscal biennium in
28 the manner prescribed in subsection (1) of this section. However, if
29 upon review of applications the department determines there are not
30 adequate suitable projects in a category, the department may allocate
31 funds to projects serving other low-income and special needs
32 populations, provided those projects are located in an area with an
33 identified need for the type of housing proposed.

34 (b) By June 30, 2021, the department must report on its web site
35 the following for every previous funding cycle: The number of
36 homeownership and multifamily rental projects funded by housing trust
37 fund moneys; the percentage of housing trust fund investments made to
38 homeownership and multifamily rental projects; and the total number
39 of households being served at up to eighty percent of the area median
40 income, up to fifty percent of the area median income, and up to

1 thirty percent of the area median income, for both homeownership and

3 (4) (a) The department, in cooperation with the housing finance
4 commission, must develop and implement a process for the collection
5 of certified final development cost data from each grant or loan
6 recipient under this section. The department must use this data as
7 part of its cost containment policy.

8 (b) Beginning December 1, 2019, and continuing annually, the
9 department must provide the legislature with a report of its final
10 cost data for each project under this section. Such cost data must,
11 at a minimum, include total development cost per unit for each
12 project completed within the past year, descriptive statistics such
13 as average and median per unit costs, regional cost variation, and
14 other costs that the department deems necessary to improve cost
15 controls and enhance understanding of development costs. The
16 department must coordinate with the housing finance commission to
17 identify relevant development costs data and ensure that the measures
18 are consistent across relevant agencies.

19 (5) \$15,000,000 of the Washington housing trust account—state
20 appropriation is provided solely for the preservation of affordable
21 multifamily housing at risk of losing affordability due to expiration

24 multifamily housing.

25 (a) Within the amount provided in this subsection (5), the
26 department must implement necessary procedures no later than July 1,
27 2020, to enable rapid commitment of funds on a first-come, first-
28 served basis to qualifying project proposals that satisfy the goal of
29 long-term preservation of Washington's affordable multifamily housing
30 stock, particularly in rural areas of the state.

31 (b) The department must adhere to the following award terms and
32 procedures for the rapid response program created under (a) of this

35 periods in RCW 43.185.070 or 43.185A.050.

36 (ii) Awards must be in the form of a recoverable grant with a
37 forty-year low income housing covenant on the land.

38 (iii) If a capital needs assessment is required, the department
39 must work with the applicant to ensure that this does not create an
40 unnecessary impediment to rapidly accessing these funds.

1 (iv) Awards may be used for acquisition or for acquisition and
2 rehabilitation of properties to preserve the affordable housing units
3 beyond existing use restrictions and keep them in Washington's
4 housing portfolio.

5 (v) No single award may exceed \$2,500,000, although the
6 department must consider waivers of this award cap if an applicant
7 demonstrates sufficient need.

8 (vi) The award limit in (v) of this subsection (5) may only be
9 applied to the use of awards provided under this subsection (5). The
10 amount awarded under this subsection (5) may not be calculated in
11 award limitations for other housing trust fund awards.

12 (vii) If the department receives simultaneous applications for
13 funding under this program, proposals that reach the greatest public
14 benefit, as defined by the department, must be prioritized. For
15 purposes of this subsection, "greatest public benefit" includes, but
16 is not limited to:

17 (A) The greatest number of units that will be preserved;

18 (B) Whether the project has federally funded rental assistance
19 tied to it;

20 (C) The scarcity of the affordable housing applied for compared
21 to the number of available affordable housing units in the same
22 geographic location; and

23 (D) The program's established funding priorities under RCW
24 43.185.070(5).

31 NEW SECTION. **Sec. 3062.** A new section is added to 2019 c 413
 32 (uncodified) to read as follows:

33 **FOR THE DEPARTMENT OF FISH AND WILDLIFE**

1 (1) Nothing in this section alters the obligation set forth in
2 the permanent injunction, including the compliance deadline, entered
3 on March 29, 2013, in *United States v. Washington*, sub-proceeding
4 01-1 (Culverts), or the guidelines for compliance within the
5 specified timeline with the permanent injunction as developed by the
6 state agencies during the implementation process.

7 (2) Nothing in this section creates an obligation on the part of
8 the state to provide funding for corrections for nonstate-owned
9 culverts. Nothing in this section precludes the state from providing
10 funding for corrections for nonstate-owned culverts.

11 (3) In order to provide recommendations, the Brian Abbott fish
12 barrier removal board must develop a comprehensive statewide culvert
13 remediation plan that works in conjunction with the state approach
14 and that fully satisfies the requirements of the *United States v.*
15 *Washington* permanent injunction and makes both local and state
16 funding recommendations for additional nonstate barrier corrections
17 across state culvert correction programs that maximize the fisheries
18 habitat gain and other benefits to prey available for southern
19 resident killer whale and salmon recovery.

20 (4) The comprehensive statewide culvert remediation plan must be
21 consistent with the principles and requirements of the *United States*
22 *v. Washington* permanent injunction and RCW 77.95.180 and must achieve
23 coordinated investment strategy goals of permanent injunction
24 compliance and the following additional resource benefits. The
25 Brian Abbott fish barrier removal board chair, representing the board
26 and the appropriate department of fish and wildlife executive
27 management, shall consult with tribes to develop a watershed
28 approach. Provided it is consistent with the *United States v.*
29 *Washington* permanent injunction, prioritization of barrier
30 corrections must be developed on a watershed basis and must maximize
31 the following resource priorities:

32 (a) Stocks that are listed as threatened or endangered under the
33 federal endangered species act;

34 (b) Stocks that contribute to protection and recovery of southern
35 resident orca whales;

36 (c) Critical stocks of anadromous fish that limit or prevent
37 harvest of anadromous fish, as identified in the Pacific salmon
38 treaty; and

39 (d) Weak stocks of anadromous fish that limit or prevent harvest
40 of anadromous fish, as determined in North of Cape Falcon process.

1 (5) The comprehensive statewide culvert remediation plan must
2 include recommendations on methods and procedures for state agencies
3 and local governments to complete and maintain accurate barrier
4 inventories. This plan must also allow for efficient bundling of
5 projects to minimize disruption to the public due to construction as
6 well as adjustments in response to obstacles and opportunities
7 encountered during delivery.

8 (6) The Brian Abbott fish barrier removal board must also:

9 (a) Provide to the office of financial management and the fiscal
10 committees of the legislature its recommendation as to statutory or
11 policy changes, or budget needs for the board or state capital budget
12 programs, for better implementation and coordination among the
13 state's culvert correction programs by January 15, 2021; and

14 (b) Develop a plan to seek and maximize the chances of success of
15 significant federal investment in the comprehensive statewide culvert
16 remediation plan.

17 (7) It is the intent of the legislature that, in developing
18 future budgets, state agencies administering state culvert correction
19 programs will recommend, to the maximum extent possible, funding in
20 their culvert correction programs for correction of barriers that are
21 part of the comprehensive statewide culvert remediation plan
22 developed by the Brian Abbott fish barrier removal board under this
23 section.

24 (8) By November 1, 2020, and March 1, 2021, the Brian Abbott fish
25 barrier removal board and the department of transportation must
26 provide updates on the development of the statewide culvert
27 remediation plan to the office of financial management and the
28 legislative fiscal committees. The first update must include a
29 project timeline and plan to ensure that all agencies with culvert
30 correction programs are involved in the creation of the comprehensive
31 plan.

32 (9) Prior to presenting the comprehensive statewide culvert
33 remediation plan, the Brian Abbott fish barrier removal board must
34 present the status of the plan to the annual Washington state and
35 Western Washington treaty tribes fish passage barrier repair progress

4 2019-21 Small District Modernization Grants (92000139)

5 The appropriation in this section is subject to the following
6 conditions and limitations:

7 (1) The legislature finds that small school districts with total
8 enrollments of one thousand students or less may have school
9 facilities with significant building systems deficiencies and low
10 property values, and that raising enough funds to participate in the
11 school construction assistance program to replace or modernize their
12 school facilities would present an extraordinary tax burden on
13 property owners or would exceed allowable debt.

14 (2) \$200,000 of the appropriation is provided solely for the
15 office of the superintendent of public instruction to administer the
16 grant program and provide technical assistance to small school
17 districts seeking grants funded in this section.

18 (3) \$1,000,000 of the appropriation is provided solely for
19 planning grants for small school districts interested in seeking
20 modernization grants in subsection (4) of this section. The
21 superintendent may prioritize planning grants for school districts
22 with the most serious building deficiencies and the most limited
23 financial capacity. Planning grants may not exceed \$50,000 per
24 district.

25 (4) The remaining portion of the appropriation is provided solely
26 for modernization grants for small school districts with significant
27 building system deficiencies and limited financial capacity with the
28 following conditions:

29 (a) The superintendent of public instruction must appoint an
30 advisory committee whose members have experience in financing and
31 managing school facilities in small school districts to assist the
32 office in designing the grant application process, developing the
33 prioritization criteria, and evaluating the grant applications.
34 Advisory committee members may not be involved in developing projects
35 or applying for grants funded in this section.

36 (b) In addition to prioritization criteria developed by the
37 office of the superintendent of public instruction and the advisory
38 committee pursuant to (4)(a) of this section, the office and the
39 advisory committee must also prioritize projects that: (i) Improve

1 student health, safety, and academic performance for the largest
2 number of students; (ii) provide the most available school district
3 resources, including in-kind resources; and (iii) make use of mass-
4 timber products, including cross-laminated timber, or aggregates and
5 concretes materials.

6 (c) The superintendent must submit a list of small school
7 district modernization projects, as prioritized by the advisory
8 committee, to the legislature by January 15, 2020. The list must
9 include: (i) A description of the project; (ii) the proposed state
10 funding level, not to exceed \$5,000,000; (iii) estimated total
11 project costs; and (iv) local funding resources. The appropriated
12 funds in this subsection may be awarded only ~~((after the legislature
13 approves the list))~~ to projects approved by the legislature, as
14 identified in LEAP capital document No. 2020-350-HA, developed
15 February 12, 2020.

16 (5) For projects in this section that are also eligible for
17 funding through the school construction assistance program, the
18 office of the superintendent of public instruction must expedite and
19 streamline the administrative requirements, timelines, and matching
20 requirements for the funds provided in this section to be used
21 promptly. Funds provided in this section plus state funds provided in
22 the school construction assistance program grant must not exceed
23 total project costs minus available local resources.

33 The reappropriation in this section is subject to the following
34 conditions and limitations: ~~((The))~~

35 (1) Except as provided for under subsection (2) of this section,

17 solely for classroom additions and other modernizations at Leschi

26 for competitive grants for modular classrooms (~~made with mass timber~~
27 ~~products, including cross-laminated timber,~~) for the purpose of
28 replacing portables in school districts with space challenges due to
29 unavailable land for new school facilities to accommodate enrollment
30 growth or with an overdependent use of portables to provide classroom
31 space. The grants are subject to the following conditions and
32 limitations:

33 (a) School districts are responsible for the costs of site
34 preparation; required permits; delivery and installation of the
35 modular classrooms; furnishings, fixtures, and equipment; utility
36 connections; and any other infrastructure costs related to the
37 modular classrooms;

1 (b) The office of the superintendent of public instruction must
2 prioritize projects based on the following criteria in the following
3 order:

4 (i) School districts with high ratios of portable classrooms to

13 (5) \$100,000 of the appropriation in this section is provided
14 solely for the Republic school district for predesign and scoping
15 work related to the replacement of a school facility. It is the
16 intent of the legislature to appropriate \$9,000,000 for the Republic
17 school district in the 2021-23 fiscal biennium for the demolition of
18 an existing school facility and for the design and construction of a
19 new school, subject to the Republic school district securing a local
20 match equal to not less than \$4,500,000.

21 (6) School districts that receive funding in this section may use
22 that funding for the local share of project cost requirements for
23 projects also eligible for funding through the school construction
24 assistance program.

2 **2017-2019 BIENNIUM PROVISIONS**

3 **Sec. 6001.** 2019 c 413 s 6006 (uncodified) is amended to read as
4 follows:

5 **FOR THE DEPARTMENT OF COMMERCE**

6 Clean Energy Funds 3 (30000881)

7 The appropriations in this section are subject to the following
8 conditions and limitations:

9 (1) The appropriations are provided solely for projects that
10 provide a benefit to the public through development, demonstration,
11 and deployment of clean energy technologies that save energy and
12 reduce energy costs, reduce harmful air emissions, or increase energy
13 independence for the state.

14 (2) In soliciting and evaluating proposals, awarding contracts,
15 and monitoring projects under this section, the department must:

16 (a) Ensure that competitive processes, rather than sole source
17 contracting processes, are used to select all projects, except as
18 otherwise noted in this section; and

19 (b) Conduct due diligence activities associated with the use of
20 public funds including, but not limited to, oversight of the project
21 selection process, project monitoring and ensuring that all
22 applications and contracts fully comply with all applicable laws
23 including disclosure and conflict of interest statutes.

24 (3)(a) Pursuant to chapter 42.52 RCW, the ethics in public
25 service act, the department must require a project applicant to
26 identify in application materials any state of Washington employees
27 or former state employees employed by the firm or on the firm's
28 governing board during the past twenty-four months. Application
29 materials must identify the individual by name, the agency previously
30 or currently employing the individual, job title or position held,
31 and separation date. If it is determined by the department that a
32 conflict of interest exists, the applicant may be disqualified from
33 further consideration for award of funding.

34 (b) If the department finds, after due notice and examination,
35 that there is a violation of chapter 42.52 RCW, or any similar
36 statute involving a grantee who received funding under this section,
37 either in procuring or performing under the grant, the department in
38 its sole discretion may terminate the funding grant by written

1 notice. If the grant is terminated, the department must reserve its
2 right to pursue all available remedies under law to address the
3 violation.

4 (4) The requirements in subsections (2) and (3) of this section
5 must be specified in funding agreements issued by the department.

6 (5) \$11,000,000 of the state building construction account, is
7 provided solely for grid modernization grants for projects that
8 advance clean and renewable energy technologies, and transmission and
9 distribution control systems; that support integration of renewable
10 energy sources, deployment of distributed energy resources, and
11 sustainable microgrids; and that increase utility customer options
12 for energy sources, energy efficiency, energy equipment, and utility
13 services.

14 (a) Projects must be implemented by public and private electrical
15 utilities that serve retail customers in the state. Eligible
16 utilities may partner with other public and private sector research
17 organizations and businesses in applying for funding.

18 (b) The department shall develop a grant application process to
19 competitively select projects for grant awards, to include scoring
20 conducted by a group of qualified experts with application of
21 criteria specified by the department. In development of the
22 application criteria, the department shall, to the extent possible,
23 allow smaller utilities or consortia of small utilities to apply for
24 funding.

25 (c) Applications for grants must disclose all sources of public
26 funds invested in a project.

27 (6) \$7,900,000 of the state building construction account and
28 \$3,100,000 of the energy efficiency account are provided solely for
29 grants to demonstrate new approaches to electrification of
30 transportation systems.

31 (a) Projects must be implemented by local governments, federally
32 recognized tribal governments, or by public and private electrical
33 utilities that serve retail customers in the state. Eligible parties
34 may partner with other public and private sector research
35 organizations and businesses in applying for funding. The department
36 of commerce must coordinate with other electrification programs,
37 including projects the department of transportation is developing and
38 projects funded by the Volkswagen consent decree, to determine the
39 most effective distribution of the systems.

1 (b) Priorities must be given to eligible technologies that reduce
2 the top two hundred hours of demand and the demand side.

3 (c) Eligible technologies for these projects include, but are not
4 limited to:

5 (i) Electric vehicle and transportation system charging and open
6 source control infrastructure, including inductive charging systems;

7 (ii) Electric vehicle sharing in low-income, multi-unit housing
8 communities in urban areas;

9 (iii) Grid-related vehicle electrification, connecting vehicle
10 fleets to grid operations, including school and transit buses;

11 (iv) Electric vehicle fleet management tools with open source
12 software;

13 (v) Maritime electrification, such as electric ferries, water
14 taxis, and shore power infrastructure.

15 (7) (a) \$8,600,000 of the state building construction account is
16 provided solely for strategic research and development for new and
17 emerging clean energy technologies, as needed to match federal or
18 other nonstate funds to research, develop, and demonstrate clean
19 energy technologies.

20 (b) The department shall consult and coordinate with the
21 University of Washington, Washington State University, the Pacific
22 Northwest national laboratory and other clean energy organizations to
23 design the grant program unless the organization prefers to compete
24 for the grants. If the organization prefers to receive grants from
25 the program they may not participate in the consultant process
26 determining how the grant process is structured. The program shall
27 offer matching funds for competitively selected clean energy
28 projects, including but not limited to: Solar technologies, advanced
29 bioenergy and biofuels, development of new earth abundant materials
30 or lightweight materials, advanced energy storage, battery components
31 recycling, and new renewable energy and energy efficiency
32 technologies. Criteria for the grant program must include life cycle
33 cost analysis for projects that are part of the competitive process.

34 (c) \$750,000 of this subsection (7) is provided solely for the
35 state efficiency and environmental program.

36 (8) \$8,000,000 of the state taxable construction account is
37 provided solely for scientific instruments to help accelerate
38 research in advanced materials at the proposed science laboratories
39 infrastructure facility at the Pacific Northwest national laboratory.
40 These state funds are contingent on securing federal funds for the

1 new facility, and are provided as match to the federal funding. The
2 instruments will support researchers at the bioproducts sciences and
3 engineering laboratory, the joint center for deployment research in
4 earth abundant materials, the center for advanced materials and clean
5 energy technology, and other energy and materials collaborations with
6 the University of Washington and Washington State University.

7 (9) \$1,600,000 of the state building construction account and
8 \$2,400,000 of the energy efficiency account are provided solely for
9 grants to be awarded in competitive rounds for the deployment of
10 solar projects located in Washington state.

11 (a) Priority must be given to distribution side projects that
12 reduce peak electricity demand.

13 (b) Projects must be capable of generating more than one hundred
14 kilowatts of direct current generating capacity.

15 (c) Except as provided in (d) of this subsection, grants shall
16 not exceed \$200,000 per megawatt of direct current generating
17 capacity and total grant funds per project shall not exceed
18 \$1,000,000 per applicant. Applicants may not use other state grants.

19 (d) At least 35 percent of the total allocation of a project must
20 be for community solar projects that provide solar electricity to
21 low-income households, low-income tribal housing programs, affordable
22 housing providers, and nonprofit organizations providing services to
23 low-income communities. The provisions of (c) of this subsection do
24 not apply to projects funded under this subsection (9)(d).

25 (e) Priority must be given to major components made in
26 Washington.

27 (f) The department must attempt to prioritize an equitable
28 geographic distribution and a diversity of project sizes.

29 (10) \$2,400,000 of the state building construction account is
30 provided solely for the first phase of a project which, when fully
31 deployed, will reduce emissions of greenhouse gases by a minimum of
32 seven hundred fifty thousand tons per year, increase energy
33 efficiency, and protect or create aluminum manufacturing jobs located
34 in Whatcom county.

35 (11) \$1,100,000 of the state building construction account—state
36 appropriation is provided solely for a grant to the public utility
37 district no. 1 of Klickitat county for the remediation, survey, and
38 evaluation of a closed-loop pump storage hydropower project at the
39 John Day pool.

28 **Sec. 7003.** 2019 c 413 s 7003 (uncodified) is amended to read as
29 follows:

30 (1) To ensure that major construction projects are carried out in
31 accordance with legislative and executive intent, agencies must
32 complete a predesign for state construction projects with a total
33 anticipated cost in excess of (~~(\$5,000,000, or)~~) \$10,000,000 (~~(for~~
34 ~~higher education institutions)~~). "Total anticipated cost" means the
35 sum of the anticipated cost of the predesign, design, and
36 construction phases of the project.

37 (2) Appropriations for design may not be expended or encumbered
38 until the office of financial management has reviewed and approved
39 the agency's predesign.

1 (3) The predesign must explore at least three project
2 alternatives. These alternatives must be both distinctly different
3 and viable solutions to the issue being addressed. The chosen
4 alternative should be the most reasonable and cost-effective
5 solution. The predesign document must include, but not be limited to,
6 program, site, and cost analysis, and an analysis of the life-cycle
7 costs of the alternatives explored, in accordance with the predesign
8 manual adopted by the office of financial management.

9 (4) The office of financial management may make an exception to
10 some or all of the predesign requirements in this section ((after
11 notifying the legislative fiscal committees and waiting ten days for
12 comment by the legislature regarding the proposed exception)). The
13 office of financial management shall report any exception to the
14 fiscal committees of the legislature and include: (a) A description
15 of the major capital project for which the predesign waiver is made;
16 (b) an explanation of the reason for the waiver; and (c) a rough
17 order of magnitude cost estimate for the project's design and
18 construction.

19 (5) In deliberations related to submitting an exception under
20 this section, the office of financial management shall consider the
21 following factors:

22 (a) Whether there is any determination to be made regarding the
23 site of the project;

24 (b) Whether there is any determination to be made regarding
25 whether the project will involve renovation, new construction, or
26 both;

27 (c) Whether, within six years of submitting the request for
28 funding, the agency has completed, or initiated the construction of,
29 a substantially similar project;

30 (d) Whether there is any anticipated change to the project's
31 program or the services to be delivered at the facility;

32 (e) Whether the requesting agency indicates that the project may
33 not require some or all of the predesign requirements in this section
34 due to a lack of complexity; and

35 (f) Whether any other factors related to project complexity or
36 risk, as determined by the office of financial management, could
37 reduce the need for, or scope of, a predesign.

38 (6) If under this section some or all predesign requirements are
39 waived, the office of financial management may instead propose a

1 professional project cost estimate instead of a request for predesign
2 funding.

3 NEW SECTION. **Sec. 7004.** If Substitute House Bill No. 2936
4 (predesign) is not enacted by June 30, 2020, section 7003 of this act
5 is null and void.

6 **Sec. 7005.** RCW 43.19.501 and 2018 c 2 s 7027 are each amended to
7 read as follows:

8 The Thurston county capital facilities account is created in the
9 state treasury. The account is subject to the appropriation and
10 allotment procedures under chapter 43.88 RCW. Moneys in the account
11 may be expended for capital projects in facilities owned and managed
12 by the department in Thurston county. (~~For the 2015-2017 biennium,~~
13 ~~moneys in the account may be used for studies related to real~~
14 ~~estate.~~)

15 During the ((2017-2019)) 2019-2021 fiscal biennium, the Thurston
16 county capital facilities account may be appropriated for costs
17 associated with staffing to support capital budget and project
18 activities and lease and facility oversight activities.

19 NEW SECTION. **Sec. 7006.** A new section is added to 2019 c 413
20 (uncodified) to read as follows:

21 The department of natural resources after consultation with the
22 department of social and health services may enter into long-term,
23 revenue generating opportunities for underutilized portions of the
24 Fircrest Residential Habilitation Center bounded by 15th Ave NE and
25 NE 150th Street to benefit the charitable, educational, penal, and
26 reformatory trust. Long-term, revenue generating opportunities may
27 include, but are not limited to, land leases, land sales, and land
28 swaps. It is the intent of the legislature that any revenue obtained
29 from these opportunities be utilized by the department of social and
30 health services for services benefiting those with developmental
