13 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

14 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted
15 and, subject to the provisions set forth in this act, the several
16 dollar amounts hereinafter specified, or so much thereof as shall be
17 sufficient to accomplish the purposes designated, are hereby
18 appropriated and authorized to be incurred for capital projects
19 during the period beginning with the effective date of this act and
20 ending June 30, 2023, out of the several funds specified in this act.

1 (2) The definitions in this subsection apply throughout this act
2 unless the context clearly requires otherwise.

3 (a) "Fiscal year 2022" or "FY 2022" means the period beginning
4 July 1, 2021, and ending June 30, 2022.

5 (b) "Fiscal year 2023" or "FY 2023" means the period beginning
6 July 1, 2022, and ending June 30, 2023.

7 (c) "Lapse" or "revert" means the amount shall return to an
8 unappropriated status.

9 (d) "Provided solely" means the specified amount may be spent
10 only for the specified purpose.

11 (3) Unless otherwise specifically authorized in this act, any
12 portion of an amount provided solely for a specified purpose that is
13 not expended subject to the specified conditions and limitations to
14 fulfill the specified purpose shall lapse.

15 (4) The amounts shown under the headings "Prior Biennia," "Future
16 Biennia," and "Total" in this act are for informational purposes only
17 and do not constitute legislative approval of these amounts. "Prior
18 biennia" typically refers to the immediate prior biennium for
19 reappropriations, but may refer to multiple biennia in the case of
20 specific projects. A "future biennia" amount is an estimate of what
21 may be appropriated for the project or program in the 2023-2025
22 biennium and the following three biennia; an amount of zero does not
23 necessarily constitute legislative intent to not provide funding for
24 the project or program in the future.

25 (5) "Reappropriations" in this act are appropriations and, unless
26 the context clearly provides otherwise, are subject to the relevant
27 conditions and limitations applicable to appropriations.
28 Reappropriations shall be limited to the unexpended balances
29 remaining on June 30, 2021, from the 2019-2021 biennial
30 appropriations for each project.

14 conflict of interest exists, the applicant may be disqualified from
15 further consideration for award of funding.

16 (b) If the department finds, after due notice and examination,
17 that there is a violation of chapter 42.52 RCW, or any similar

24 (6) The requirements in subsections (4) and (5) of this section
25 must be specified in funding agreements issued by the department.

26 (7)(a) \$11,000,000 of the state building construction account—

33 transformation act, including requirements placed upon retail
34 electric utilities.

35 (b) Projects must be implemented by community organizations,
36 local governments, federally recognized tribal governments, or by
37 public and private electrical utilities that serve retail customers
38 in the state (retail electric utilities). Projects submitted by
39 applicants other than retail electric utilities must demonstrate

1 partnership with their load serving entity to apply. Priority must be
2 given to:

3 (i) Projects that benefit vulnerable populations, including

5 (ii) Projects that demonstrate partnerships between eligible
6 applicants in applying for funding, including utilities, public and
7 private sector research organizations, businesses, tribes, and
8 nonprofit organizations.

9 (c) The department shall develop a grant application process to
10 competitively select projects for grant awards, to include scoring
11 conducted by a group of qualified experts with application of
12 criteria specified by the department. In development of the
13 application criteria, the department shall, to the extent possible,
14 develop program guidelines that encourage smaller utilities or
15 consortia of small utilities to apply for funding. Where suitable,
16 this may include funding for projects consisting solely of planning,
17 predesign and/or predevelopment activities.

18 (d) Applications for grants must disclose all sources of public
19 funds invested in a project.

21 state appropriation is provided solely for competitive grants for
22 strategic research and development for new and emerging clean energy
23 technologies. These grants must be used to match federal or other
24 nonstate funds to research, develop, and demonstrate clean energy
25 technologies, focusing on areas that help develop technologies to
26 meet the state's climate goals, offer opportunities for economic and
27 job growth, and strengthen technology supply chains.

28 (b) The program may include, but is not limited to: Solar
29 technologies, advanced bioenergy and biofuels, development of new
30 earth abundant materials or lightweight materials, advanced energy
31 storage, recycling energy system components, and new renewable energy
32 and energy efficiency technologies.

34 state appropriation is provided solely for the purpose of building
35 electrification projects that advance the goals of the 2021 state
36 energy strategy to demonstrate grid-enabled, high-efficiency, all
37 electric buildings.

38 (b) The program may include, but is not limited to: Shifting from
39 fossil fuels to high-efficiency electric heat pumps and other
40 electric equipment, control systems that enable grid integration or

1 demand control, and on-site renewable generation and efficiency
2 measures that significantly reduce building energy loads.

3 (c) Preference must be given to projects based on total
4 greenhouse gas emissions reductions, accelerating the path to zero-
5 energy, or that demonstrate early adoption of grid integration
6 technology.

7 (d) Program funding may be administered to entities also
8 receiving incentives provided according to RCW 19.27A.220 for
9 buildings covered by the state energy performance standard, RCW

16 support demonstrations of various maritime electrification projects
17 and must encourage partnership efforts from applicants.

18 (b) Fuel can be electricity or hydrogen, where the latter must be
19 either entirely renewably generated or demonstrate a net zero
20 greenhouse gas emission profile.

21 (c) Projects must be implemented by local governments including,
22 but not limited to, port authorities and county public works
23 departments, state agencies, federally recognized tribal governments,
24 nonprofits or by public and private electrical utilities that serve
25 retail customers in the state. Eligible parties may partner with
26 other public and private sector research organizations and businesses
27 in applying for funding. The department must coordinate with other
28 state agencies that have other electrification programs, in order to
29 determine to optimally accomplish each agency's respective policy and
30 program goals.

31 (11) \$2,000,000 of the state building construction account—state
32 appropriation is provided solely for grants that enhance the
33 viability of dairy digester bioenergy projects through advanced
34 resource recovery systems that produce renewable natural gas and
35 value-added biofertilizers, reduce greenhouse gas emissions, and
36 improve soil health and air and water quality. Grants target
37 digesters in rural communities across Washington and must include at
38 least one project east of the Cascades and one project west of the
39 Cascades. State agencies must promote and demonstrate the use of such

24 income people;

25 (b) Whether the project has federally funded rental assistance
26 tied to it;

27 (c) The scarcity of the affordable housing applied for compared
28 to the number of available affordable housing units in the same
29 geographic location; and

30 (d) The program's established funding priorities under RCW

38 acquired using other short term acquisition sources. To expand
39 availability of permanent housing, financing of acquisition of
40 unoccupied multifamily housing is a priority. Funds shall also be

1 provided specifically for the city of Seattle to move people
2 experiencing unsheltered homelessness into safe spaces, including,
3 but not limited to, tiny homes, hotels, enhanced emergency shelters,

1 2022 Local & Community Projects (40000230)

2 The appropriation in this section is subject to the following
3 conditions and limitations:

4 (1) The department may not expend the appropriation in this
5 section unless and until the nonstate share of project costs have
6 been either expended or firmly committed, or both, in an amount
7 sufficient to complete the project or a distinct phase of the project
8 that is useable to the public for the purpose intended by the
9 legislature. This requirement does not apply to projects where a
10 share of the appropriation is for design costs only.

11 (2) Prior to receiving funds, project recipients must demonstrate
12 that the project site is under control for a minimum of 10 years,
13 either through ownership or a long-term lease. This requirement does
14 not apply to appropriations for preconstruction activities or
15 appropriations in which the sole purpose is to purchase real property
16 that does not include a construction or renovation component.

17 (3) Projects funded in this section may be required to comply
18 with Washington's high performance building standards as required by
19 chapter 39.35D RCW.

20 (4) Project funds are available on a reimbursement basis only,
21 and may not be advanced under any circumstances.

22 (5) In contracts for grants authorized under this section, the
23 department must include provisions that require that capital
24 improvements be held by the grantee for a specified period of time
25 appropriate to the amount of the grant and that facilities be used
26 for the express purpose of the grant. If the grantee is found to be
27 out of compliance with provisions of the contract, the grantee shall
28 repay to the state general fund the principal amount of the grant
29 plus interest calculated at the rate of interest on state of
30 Washington general obligation bonds issued most closely to the date
31 of authorization of the grant.

32 (6) Projects funded in this section, including those that are
33 owned and operated by nonprofit organizations, are generally required
34 to pay state prevailing wages.

35 (7) The department must comply with the requirements set forth in
36 executive order 05-05 and must consult with the department of
37 archaeology and historic preservation and affected tribes on the
38 potential effects of these projects on cultural resources and
39 historic properties. Consultation with the department of archaeology

1 and historic preservation and affected tribes must be initiated
2 before project funds are made available.

 9 subsection (2) of this section.

10 (2) (a) \$3,250,000 of the reappropriation in this section is
 11 provided solely for the acquisition of real property in lower
 12 Kittitas county known as the Eaton Ranch property by the state
 13 through the department of enterprise services on behalf of the
 14 department of ecology. This reappropriation is provided to fund the
 15 closing, project, and transaction costs related to the acquisition of
 16 the property. The departments must expedite the review and execution
 17 of the transaction by June 30, 2022. It is the intent of the
 18 legislature that the state hold the property until a transfer to the
 19 United States bureau of reclamation for the purposes of construction
 20 of a water supply reservoir in accordance with the Yakima Basin
 21 integrated plan, or until such purpose is declared by the bureau no
 22 longer feasible.

23 (b) The legislature recognizes and declares that the acquisition
 24 of a portion of the Eaton Ranch for the construction of a water
 25 supply reservoir in accordance with the goals and objectives of the
 26 Yakima Basin integrated plan is a unique circumstance and the Eaton
 27 Ranch property offers special and essential features that are
 28 expected to yield broad public benefit to the state. It is the intent
 29 of the legislature that the department of ecology provide the
 30 necessary funding through subsequent funding requests to maintain and
 31 principally operate the land for grazing of livestock with the local
 32 conservation district, or an equivalent organization, until a
 33 transfer of the property to the United States bureau of reclamation.

3 (a) \$35,000,000 of the appropriation is provided solely for
4 housing projects that provide supportive housing and case-management
5 services to persons with chronic mental illness. When evaluating
6 applications for this population, the department must prioritize low-
7 income supportive housing unit proposals that show:

8 (i) Evidence that the application was developed in collaboration
9 with one or more health care entities that provide behavioral health
10 care services to individuals eligible for the housing provided under
11 this subsection;

12 (ii) A commitment by the applicant to provide, directly or
13 through a formal partnership, necessary treatment and supportive

15 least a forty-year period;

16 (iii) Readiness to begin structural modifications or construction
17 resulting in a fast project completion;

18 (iv) Program requirements that adhere to the key elements of
19 permanent supportive housing programs including choice in housing and
20 living arrangements, functional separation of housing and services,
21 community integration, rights of tenancy, and voluntary recovery-

27 in rural, unserved communities.

28 (b) \$10,000,000 of the appropriation in this section is provided
29 solely for competitive grant awards for modular housing which
30 includes high quality affordable housing projects that will quickly
31 move people from homelessness into secure housing and are
32 significantly less expensive to construct than traditional housing.

14 department must require a capital needs assessment to be provided
15 prior to contract execution. Funds may not be used to add or expand
16 the capacity of the property.

18 applications and evaluate projects based on the following criteria:

25 improvements will result in a reduction of operating or utilities
26 costs, or both;

37 use after housing is fully occupied or designed to achieve the most
38 recent building standard of the passive house institute US as of the

1 (iii) The department must consider, at a minimum and in any
2 order, the following factors in assigning a numerical ranking to a
3 project:

5 will achieve either net-zero energy use when fully occupied or will
6 achieve the most recent building standard of the passive house
7 institute US as of the effective date of this section;

8 (B) The life-cycle cost of the project;

9 (C) That the project demonstrates a design, use of materials, and
10 construction process that can be replicated by the Washington
11 building industry;

12 (D) The extent to which the project leverages nonstate funds;

7 appropriated in this section within the 2019-2021 fiscal biennium in
8 the manner prescribed in subsection (1) of this section. However, if
9 upon review of applications the department determines there are not
10 adequate suitable projects in a category, the department may allocate
11 funds to projects serving other low-income and special needs
12 populations, provided those projects are located in an area with an
13 identified need for the type of housing proposed.

14 (b) By June 30, 2021, the department must report on its web site
15 the following for every previous funding cycle: The number of
16 homeownership and multifamily rental projects funded by housing trust
17 fund moneys; the percentage of housing trust fund investments made to
18 homeownership and multifamily rental projects; and the total number
19 of households being served at up to eighty percent of the area median
20 income, up to fifty percent of the area median income, and up to
21 thirty percent of the area median income, for both homeownership and
22 multifamily rental projects.

23 (4)(a) The department, in cooperation with the housing finance
24 commission, must develop and implement a process for the collection
25 of certified final development cost data from each grant or loan
26 recipient under this section. The department must use this data as
27 part of its cost containment policy.

28 (b) Beginning December 1, 2019, and continuing annually, the
29 department must provide the legislature with a report of its final
30 cost data for each project under this section. Such cost data must,
31 at a minimum, include total development cost per unit for each
32 project completed within the past year, descriptive statistics such
33 as average and median per unit costs, regional cost variation, and
34 other costs that the department deems necessary to improve cost
35 controls and enhance understanding of development costs. The
36 department must coordinate with the housing finance commission to
37 identify relevant development costs data and ensure that the measures
38 are consistent across relevant agencies.

32 follows:

33 **FOR THE DEPARTMENT OF COMMERCE**

34 2020 Local and Community Projects (40000116)

35 The appropriation in this section is subject to the following
36 conditions and limitations:

1 (1) The department shall not expend the appropriation in this
2 section unless and until the nonstate share of project costs have
3 been either expended or firmly committed, or both, in an amount
4 sufficient to complete the project or a distinct phase of the project
5 that is useable to the public for the purpose intended by the
6 legislature. This requirement does not apply to projects where a
7 share of the appropriation is for design costs only.

8 (2) Prior to receiving funds, project recipients must demonstrate
9 that the project site is under control for a minimum of ten years,
10 either through ownership or a long-term lease. This requirement does
11 not apply to appropriations for preconstruction activities or
12 appropriations in which the sole purpose is to purchase real property
13 that does not include a construction or renovation component.

14 (3) Projects funded in this section may be required to comply
15 with Washington's high performance building standards as required by
16 chapter 39.35D RCW.

17 (4) Project funds are available on a reimbursement basis only,
18 and shall not be advanced under any circumstances.

19 (5) In contracts for grants authorized under this section the
20 department shall include provisions which require that capital
21 improvements be held by the grantee for a specified period of time
22 appropriate to the amount of the grant and that facilities be used
23 for the express purpose of the grant. If the grantee is found to be
24 out of compliance with provisions of the contract, the grantee shall
25 repay to the state general fund the principal amount of the grant
26 plus interest calculated at the rate of interest on state of
27 Washington general obligation bonds issued most closely to the date
28 of authorization of the grant.

23 certificates of participation therein to the extent provided in the
24 agency's financing plan approved by the state finance committee.

25 (2) Those noninstructional facilities of higher education
26 institutions authorized in this section to enter into financial
27 contracts are not eligible for state funded maintenance and
28 operations. Instructional space that is available for regularly
29 scheduled classes for academic transfer, basic skills, and workforce
30 training programs may be eligible for state funded maintenance and
31 operations.

32 (3) Secretary of state: Enter into a financing contract for up to
33 \$103,143,000 plus financing expenses and required reserves pursuant
34 to chapter 39.94 RCW to construct a new library-archives building.

35 (4) Washington state patrol: Enter into a financing contract for
36 up to \$7,706,000 plus financing expenses and required reserves
37 pursuant to chapter 39.94 RCW to construct a burn building for live
38 fire training.

1 (5) Department of social and health services: Enter into a
2 financing contract for up to \$110,637,000 plus costs and financing
3 expenses and required reserves pursuant to chapter 39.94 RCW to
4 construct a nursing facility on the fircrest residential habilitation
5 center campus. The department may contract to lease develop or lease
6 purchase the facility. Before entering into a contract, the
7 department must consult with the office of financial management and
8 the office of the state treasurer. Should the department of social
9 and health services choose to use a financing contract that does not
10 provide for the issuance of certificates of participation, the
11 financing contract shall be subject to approval by the state finance
12 committee as required by RCW 39.94.010. In approving a financing
13 contract not providing for the use of certificates of participation,
14 the state finance committee should be reasonably certain that the
15 contract is excluded from the computation of indebtedness,
16 particularly that the contract is not backed by the full faith and
17 credit of the state and the legislature is expressly not obligated to
18 appropriate funds to make payments. For purposes of this subsection,
19 "financing contract" includes but is not limited to a certificate of
20 participation and tax exempt financing similar to that authorized in
21 RCW 47.79.140.

22 (6) Community and technical colleges:

23 (a) Enter into a financing contract on behalf of Grays Harbor
24 College for up to \$3,200,000 plus financing expenses and required
25 reserves pursuant to chapter 39.94 RCW to construct a student
26 services and instructional building.

27 (b) Enter into a financing contract on behalf of Shoreline
28 Community College for up to \$3,128,000 plus financing expenses and
29 required reserves pursuant to chapter 39.94 RCW to construct an
30 allied health, science, and manufacturing replacement building.

31 (c) Enter into a financing contract on behalf of South Puget
32 Sound Community College for up to \$5,000,000 plus financing expenses
33 and required reserves pursuant to chapter 39.94 RCW to renovate a
34 health education building.

35 (d) Enter into a financing contract on behalf of Bates Technical
36 College for up to \$1,350,000 plus financing expenses and required
37 reserves pursuant to chapter 39.94 RCW to purchase land and
38 facilities.

1 NEW SECTION. **Sec. 7003.** (1) To ensure that major construction
2 projects are carried out in accordance with legislative and executive
3 intent, agencies must complete a predesign for state construction
4 projects with a total anticipated cost in excess of \$5,000,000, or
5 \$10,000,000 for higher education institutions. "Total anticipated
6 cost" means the sum of the anticipated cost of the predesign, design,
7 and construction phases of the project.

8 (2) Appropriations for design may not be expended or encumbered
9 until the office of financial management has reviewed and approved
10 the agency's predesign.

11 (3) The predesign must explore at least three project
12 alternatives. These alternatives must be both distinctly different
13 and viable solutions to the issue being addressed. The chosen
14 alternative should be the most reasonable and cost-effective
15 solution. The predesign document must include, but not be limited to,
16 program, site, and cost analysis, and an analysis of the life-cycle
17 costs of the alternatives explored, in accordance with the predesign
18 manual adopted by the office of financial management.

19 (4) The office of financial management may make an exception to
20 the predesign requirements in this section after notifying the
21 legislative fiscal committees and waiting ten days for comment by the
22 legislature regarding the proposed exception.

23 NEW SECTION. **Sec. 7004.** (1) The legislature finds that use of
24 life-cycle cost analysis will aid public entities, architects,
25 engineers, and contractors in making design and construction
26 decisions that positively impact both the initial construction cost
27 and the ongoing operating and maintenance cost of a project. To
28 ensure that the total cost of a project is accounted for and the most
29 reasonable and cost efficient design is used, agencies shall develop
30 life-cycle costs for any construction project over \$10,000,000. The
31 life-cycle costs must represent the present value sum of capital
32 costs, installation costs, operating costs, and maintenance costs
33 over the life expectancy of the project. The legislature further
34 finds the most effective approach to the life-cycle cost analysis is
35 to integrate it into the early part of the design process.

36 (2) Agencies must develop a minimum of three project alternatives
37 for use in the life-cycle cost analysis. These alternatives must be
38 both distinctly different and viable solutions to the issue being
39 addressed. Agencies must choose the most reasonable and cost-

1 effective solution, as supported by the life-cycle cost analysis. A
2 brief description of each project alternative and why it was chosen
3 must be included in the life-cycle cost analysis section of the
4 predesign.

5 (3) The office of financial management shall: (a) Make available
6 a life-cycle cost model to be used for analysis; (b) in consultation
7 with the department of enterprise services, provide assistance in
8 using the life-cycle cost model; and (c) update the life-cycle cost
9 model annually including assumptions for inflation rates, discount
10 rates, and energy rates.

11 (4) Agencies shall consider architectural and engineering firms'
12 and general contractors' experience using life-cycle costs, operating
13 costs, and energy efficiency measures when selecting an architectural
14 and engineering firm, or when selecting contractors using alternative
15 contracting methods.

16 NEW SECTION. **Sec. 7005.** Agencies administering construction
17 projects with a total anticipated cost in excess of \$5,000,000, or
18 \$10,000,000 for higher education institutions, must submit progress
19 reports to the office of financial management and to the fiscal
20 committees of the house of representatives and senate. "Total
21 anticipated cost" means the sum of the anticipated cost of the
22 predesign, design, and construction phases of the project. Reports
23 must be submitted on July 1st and December 31st of each year in a
24 format determined by the office of financial management. After the
25 project is completed, agencies must also submit a closeout report
26 that identifies the total project cost and any unspent
27 appropriations.

28 NEW SECTION. **Sec. 7006.** (1) Allotments for appropriations in
29 this act shall be provided in accordance with the capital project
30 review requirements adopted by the office of financial management and
31 in compliance with RCW 43.88.110. Projects that will be employing
32 alternative public works construction procedures under chapter 39.10
33 RCW are subject to the allotment procedures defined in this section
34 and RCW 43.88.110.

35 (2) Each project is defined as proposed in the legislative budget
36 notes or in the governor's budget document.

1 NEW SECTION. **Sec. 7007.** (1) The office of financial management
2 may authorize a transfer of appropriation authority provided for a
3 capital project that is in excess of the amount required for the
4 completion of such project to another capital project for which the
5 appropriation is insufficient. No such transfer may be used to expand
6 the capacity of any facility beyond that intended in making the
7 appropriation. Such transfers may be effected only between capital
8 appropriations to a specific department, commission, agency, or
9 institution of higher education and only between capital projects
10 that are funded from the same fund or account. No transfers may occur
11 between projects to local government agencies except where the grants
12 are provided within a single omnibus appropriation and where such
13 transfers are specifically authorized by the implementing statutes
14 that govern the grants.

15 (2) The office of financial management may find that an amount is
16 in excess of the amount required for the completion of a project only
17 if: (a) The project as defined in the notes to the budget document is
18 substantially complete and there are funds remaining; or (b) bids
19 have been let on a project and it appears to a substantial certainty
20 that the project as defined in the notes to the budget document can
21 be completed within the biennium for less than the amount
22 appropriated in this act.

23 (3) For the purposes of this section, the intent is that each
24 project be defined as proposed to the legislature in the governor's
25 budget document, unless it clearly appears from the legislative
26 history that the legislature intended to define the scope of a
27 project in a different way.

28 (4) A report of any transfer effected under this section, except
29 emergency projects or any transfer under \$250,000, shall be filed
30 with the legislative fiscal committees of the senate and house of
31 representatives by the office of financial management at least thirty
32 days before the date the transfer is effected. The office of
33 financial management shall report all emergency or smaller transfers
34 within thirty days from the date of transfer.

35 NEW SECTION. **Sec. 7008.** (1) It is expected that projects be
36 ready to proceed in a timely manner depending on the type or phase of
37 the project or program that is the subject of the appropriation in
38 this act. Except for major projects that customarily may take more
39 than two biennia to complete from predesign to the end of

1 construction, or large infrastructure grant or loan programs
2 supporting projects that often take more than two biennia to
3 complete, the legislature generally does not intend to reappropriate
4 funds more than once, particularly for smaller grant programs, local/
5 community projects, and minor works.

6 (2) Agencies shall expedite the expenditure of reappropriations
7 and appropriations in this act in order to: (a) Rehabilitate
8 infrastructure resources; (b) accelerate environmental rehabilitation
9 and restoration projects for the improvement of the state's natural
10 environment; (c) reduce additional costs associated with acquisition
11 and construction inflationary pressures; and (d) provide additional
12 employment opportunities associated with capital expenditures.

13 (3) To the extent feasible, agencies are directed to accelerate
14 expenditure rates at their current level of permanent employees and
15 shall use contracted design and construction services wherever
16 necessary to meet the goals of this section.

17 NEW SECTION. **Sec. 7009.** (1) Any building project that receives
18 over \$10,000,000 in funding from the capital budget must be built to
19 sustainable standards. "Sustainable building" means a building that
20 integrates and optimizes all major high-performance building
21 attributes, including energy efficiency, durability, life-cycle
22 performance, and occupant productivity, and minimizes greenhouse gas
23 emissions. The following design and construction attributes must be
24 integrated into the building project:

25 (a) **Employ integrated design principles:** Use a collaborative,
26 integrated planning and design process that initiates and maintains
27 an integrated project team in all stages of a project's planning and
28 delivery. Establish performance goals for siting, energy, water,
29 materials, and indoor environmental quality along with other
30 comprehensive design goals and ensures incorporation of these goals
31 throughout the design and life-cycle of the building. Consider all
32 stages of the building's life-cycle, including deconstruction.

33 (b) **Commissioning:** Employ commissioning practices tailored to the
34 size and complexity of the building and its system components in
35 order to verify performance of building components and systems and
36 help ensure that design requirements are met. This should include an
37 experienced commissioning provider, inclusion of commissioning
38 requirements in construction documents, a commissioning plan,

1 verification of the installation and performance of systems to be
2 commissioned, and a commissioning report.

3 (c) Optimize energy performance: Establish a whole building
4 performance target that takes into account the intended use,
5 occupancy, operations, plug loads, other energy demands, and design
6 to earn the ENERGY STAR targets for new construction and major
7 renovation where applicable. For new construction target low energy
8 use index. For major renovations, target reducing energy use by fifty
9 percent below prerenovations baseline.

10 (d) On-site renewable energy: Implement renewable energy
11 generation projects on agency property for agency use, when life-
12 cycle cost effective.

13 (e) High-efficiency electric equipment: Use only high-efficiency
14 electric equipment for water and space heating needs not met through
15 on-site renewable energy, when life-cycle cost effective.

16 (f) Measurement and verification: For buildings over 50,000
17 square feet, install building level electricity meters in new major
18 construction and renovation projects to track and continuously
19 optimize performance. Include equivalent meters for natural gas and
20 steam, where natural gas and steam are used. Where appropriate,
21 install dashboards inside buildings to display and incentivize
22 occupants on energy use.

23 (g) Benchmarking: Compare performance data from the first year of
24 operation with the energy design target. Verify that the building
25 performance meets or exceeds the design target. For other building
26 and space types, use an equivalent benchmarking tool.

27 NEW SECTION. **Sec. 7010.** State agencies, including institutions
28 of higher education, shall allot and report full-time equivalent
29 staff for capital projects in a manner comparable to staff reporting
30 for operating expenditures.

31 NEW SECTION. **Sec. 7011.** Executive Order No. 05-05,
32 archaeological and cultural resources, was issued effective November
33 10, 2005. Agencies shall comply with the requirements set forth in
34 this executive order and must consult with the department of
35 archaeology and historic preservation and affected tribes on the
36 potential effects of projects on cultural resources and historic
37 properties proposed in state-funded construction or acquisition
38 projects, including grant or pass-through funding that culminates in

1 construction or land acquisitions. Consultation with the department
2 of archaeology and historic preservation and affected tribes must be
3 initiated early in the project planning process, prior to
4 construction or taking title.

5 **Sec. 7012.** RCW 43.19.501 and 2020 c 356 s 7005 are each amended
6 to read as follows:

7 The Thurston county capital facilities account is created in the
8 state treasury. The account is subject to the appropriation and
9 allotment procedures under chapter 43.88 RCW. Moneys in the account
10 may be expended for capital projects in facilities owned and managed
11 by the department in Thurston county.

12 During the 2019-2021 and 2021-2023 fiscal (~~biennium~~) biennia,
13 the Thurston county capital facilities account may be appropriated
14 for costs associated with staffing to support capital budget and
15 project activities and lease and facility oversight activities.

16 NEW SECTION. **Sec. 7013.** FOR THE ARTS COMMISSION—ART WORK
17 ALLOWANCE. (1) One-half of one percent of moneys appropriated in this
18 act for original construction of school plant facilities is provided
19 solely for the purposes of RCW 28A.335.210.

20 (2) One-half of one percent of moneys appropriated in this act
21 for original construction or any major renovation or remodel work
22 exceeding \$200,000 by colleges or universities is provided solely for
23 the purposes of RCW 28B.10.027.

24 (3) One-half of one percent of moneys appropriated in this act
25 for original construction of any public building by a state agency
26 identified in RCW 43.17.200 is provided solely for the purposes of
27 RCW 43.17.200.

28 (4) At least eighty percent of the moneys spent by the Washington
29 state arts commission during the 2021-2023 biennium for the purposes
30 of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended solely
31 for direct acquisition of works of art. Except for art allocations
32 made under K-3 class size reduction grants under section 5023 of this
33 act, art allocations not expended within the ensuing two biennia will
34 lapse. The commission may use up to \$200,000 of this amount to
35 conserve or maintain existing pieces in the state art collection.

1 NEW SECTION. **Sec. 7014.** To carry out the provisions of this
2 act, the governor may assign responsibility for predesign, design,
3 construction, and other related activities to any appropriate agency.

4 NEW SECTION. **Sec. 7015.** If any federal moneys appropriated by
5 this act for capital projects are not received by the state, the
6 department or agency to which the moneys were appropriated may
7 replace the federal moneys with funds available from private or local
8 sources. No replacement may occur under this section without the
9 prior approval of the director of financial management in
10 consultation with the senate ways and means committee and the house
11 of representatives capital budget committee.

12 NEW SECTION. **Sec. 7016.** (1) Unless otherwise stated, for all
13 appropriations under this act that require a match of nonstate money
14 or in-kind contributions, the following requirement, consistent with
15 RCW 43.88.150, shall apply: Expenditures of state money shall be
16 timed so that the state share of project expenditures never exceeds
17 the intended state share of total project costs.

18 (2) Provision of the full amount of required matching funds is
19 not required to permit the expenditure of capital budget
20 appropriations for phased projects if a proportional amount of the
21 required matching funds is provided for each distinct, identifiable
22 phase of the project.

23 NEW SECTION. **Sec. 7017.** NONTAXABLE AND TAXABLE BOND PROCEEDS.
24 Portions of the appropriation authority granted by this act from the
25 state building construction account, or any other account receiving
26 bond proceeds, may be transferred to the state taxable building
27 construction account as deemed necessary by the state finance
28 committee to comply with the federal internal revenue service rules
29 and regulations pertaining to the use of nontaxable bond proceeds.
30 Portions of the general obligation bond proceeds authorized by
31 chapter . . ., Laws of 2021, (Z-0106/21 (State General Bonds and
32 General Accounts)) for deposit into the state taxable building
33 construction account that are in excess of amounts required to comply
34 with the federal internal revenue service rules and regulations shall
35 be deposited into the state building construction account. The state
36 treasurer shall submit written notification to the director of
37 financial management if it is determined that a shift of

1 appropriation authority between the state building construction
2 account, or any other account receiving bond proceeds, and the state
3 taxable building construction account is necessary, or that a shift
4 of appropriation authority from the state taxable building
5 construction account to the state building construction account may
6 be made.

7 NEW SECTION. **Sec. 7018.** (1) Minor works project lists are
8 single line appropriations that include multiple projects of a
9 similar nature and that are valued between \$25,000 and \$1,000,000
10 each, with the exception of higher education minor works projects
11 that may be valued up to \$2,000,000. Funds appropriated in this act
12 for minor works may not be initially allotted until agencies submit
13 project lists to the office of financial management for review and
14 approval.

15 (2) Revisions to the project lists, including the addition of
16 projects and the transfer of funds between projects, are allowed but
17 must be submitted to the office of financial management, the house of
18 representatives capital budget committee, and the senate ways and
19 means committee for review and comment, and must include an
20 explanation of variances from prior approved lists. Any project list
21 revisions must be approved by the office of financial management
22 before funds may be expended from the minor works appropriation.

23 (3) (a) All minor works projects should be completed within two
24 years of the appropriation with the funding provided.

25 (b) Agencies are prohibited from including projects on their
26 minor works lists that are a phase of a larger project, and that if
27 combined over a continuous period of time, would exceed \$1,000,000,
28 or \$2,000,000 for higher education minor works projects.

29 (c) Minor works appropriations may not be used for the following:
30 Studies, except for technical or engineering reviews or designs that
31 lead directly to and support a project on the same minor works list;
32 planning; design outside the scope of work on a minor works list;
33 movable, temporary, and traditionally funded operating equipment not
34 in compliance with the equipment criteria established by the office
35 of financial management; software not dedicated to control of a
36 specialized system; moving expenses; land or facility acquisition;
37 rolling stock; computers; or to supplement funding for projects with
38 funding shortfalls unless expressly authorized. The office of
39 financial management may make an exception to the limitations

1 described in this subsection (3)(c) for exigent circumstances after
2 notifying the legislative fiscal committees and waiting ten days for
3 comments by the legislature regarding the proposed exception.

4 (d) Minor works preservation projects may include program
5 improvements of no more than twenty-five percent of the individual
6 minor works preservation project cost.

7 (e) Improvements for accessibility in compliance with the
8 Americans with disabilities act may be included in any of the minor
9 works categories.

10 NEW SECTION. **Sec. 7019. FOR THE STATE TREASURER—TRANSFERS**

11 (1) Public Works Assistance Account: For transfer
12 to the drinking water assistance account, up to
13 \$5,500,000 for fiscal year 2022 and up to \$5,500,000 for
14 fiscal year 2023 \$11,000,000

15 (2) Public Works Assistance Account: For transfer
16 to the statewide broadband account, \$20,000,000 for fiscal
17 year 2022 and \$20,000,000 for fiscal year 2023. \$40,000,000

18 (3) Public Works Assistance Account: For
19 transfer to the water pollution control revolving
20 account, up to \$6,000,000 for fiscal year 2022 and
21 up to \$6,000,000 for fiscal year 2023. \$12,000,000

22 NEW SECTION. **Sec. 7020.** To the extent that any appropriation
23 authorizes expenditures of state funds from the state building
24 construction account, or from any other capital project account in
25 the state treasury, for a capital project or program that is
26 specified to be funded with proceeds from the sale of bonds, the
27 legislature declares that any such expenditures for that project or
28 program made prior to the issue date of the applicable bonds are
29 intended to be reimbursed from proceeds of those bonds in a maximum
30 amount equal to the amount of such appropriation.

31 NEW SECTION. **Sec. 7021.** In order to accelerate the reduction of
32 embodied carbon and improve the environmental performance of
33 construction materials, agencies shall, whenever possible, review and
34 consider embodied carbon reported in environmental product
35 declarations when evaluating proposed structural materials for
36 construction projects.

1 NEW SECTION. **Sec. 7022.** Consistent with Z-0136/21 (Wage Freeze
2 and Furlough), agencies must track and manage any savings resulting
3 from furloughs and nonimplementation of wage increases. Agencies must
4 report all such program and project savings for fiscal year 2022 to
5 the office of financial management by September 1, 2020, and must
6 report actual and projected program and project savings for fiscal
7 year 2023 to the office of financial management by June 30, 2023. If
8 the bill is not enacted by June 30, 2021, this section is void.

9 NEW SECTION. **Sec. 7023.** The joint legislative task force
10 created in 2018 c 298 s 7011 (uncodified) is hereby reauthorized
11 through June 30, 2023, subject to the requirements that studies and
12 selection of scientists or organizations to implement the studies
13 must be made by a sixty percent majority of the members of the task
14 force and that if a member has not been designated for a position set
15 forth in subsection (2) of 2018 c 298 s 7011 (uncodified), that
16 position may not be counted for purposes of determining a quorum.

17 **Sec. 7024.** RCW 28B.15.210 and 2019 c 413 s 7023 are each amended
18 to read as follows:

19 Within thirty-five days from the date of collection thereof, all
20 building fees at the University of Washington, including building
21 fees to be charged students registering in the schools of medicine
22 and dentistry, shall be paid into the state treasury and credited as
23 follows:

24 One-half or such larger portion as may be necessary to prevent a
25 default in the payments required to be made out of the bond
26 retirement fund to the "University of Washington bond retirement
27 fund" and the remainder thereof to the "University of Washington
28 building account." The sum so credited to the University of
29 Washington building account shall be used exclusively for the purpose
30 of erecting, altering, maintaining, equipping, or furnishing
31 buildings, and for certificates of participation under chapter 39.94
32 RCW, except for any sums transferred as authorized in RCW
33 28B.20.725(3). The sum so credited to the University of Washington
34 bond retirement fund shall be used for the payment of principal of
35 and interest on bonds outstanding as provided by chapter 28B.20 RCW
36 except for any sums transferred as authorized in RCW 28B.20.725(5).
37 (~~During the 2017-2019 biennium, sums credited to the University of~~
38 ~~Washington building account may also be used for routine facility~~

1 ~~maintenance, utility costs, and facility condition assessments.))~~
2 During the 2019-2021 biennium, sums credited to the University of
3 Washington building account may also be used for routine facility
4 maintenance, utility costs, and facility condition assessments.
5 During the 2021-2023 biennium, sums credited to the University of
6 Washington building account may also be used for routine facility
7 maintenance, utility costs, and facility condition assessments.

8 **Sec. 7025.** RCW 28B.15.310 and 2019 c 413 s 7024 are each amended
9 to read as follows:

10 Within thirty-five days from the date of collection thereof, all
11 building fees shall be paid and credited as follows: To the
12 Washington State University bond retirement fund, one-half or such
13 larger portion as may be necessary to prevent a default in the
14 payments required to be made out of such bond retirement fund; and
15 the remainder thereof to the Washington State University building
16 account.

17 The sum so credited to the Washington State University building
18 account shall be expended by the board of regents for buildings,
19 equipment, or maintenance on the campus of Washington State
20 University as may be deemed most advisable and for the best interests
21 of the university, and for certificates of participation under
22 chapter 39.94 RCW, except for any sums transferred as authorized by
23 law. (~~During the 2017-2019 biennium, sums credited to the Washington~~
24 ~~State University building account may also be used for routine~~
25 ~~facility maintenance, utility costs, and facility condition~~
26 ~~assessments.)) During the 2019-2021 biennium, sums credited to the~~
27 Washington State University building account may also be used for
28 routine facility maintenance, utility costs, and facility condition
29 assessments. During the 2021-2023 biennium, sums credited to the
30 Washington State University building account may also be used for
31 routine facility maintenance, utility costs, and facility condition
32 assessments. Expenditures so made shall be accounted for in
33 accordance with existing law and shall not be expended until
34 appropriated by the legislature.

35 The sum so credited to the Washington State University bond
36 retirement fund shall be used to pay and secure the payment of the

14 **Sec. 7030.** RCW 28B.77.070 and 2019 c 413 s 7029 are each amended
15 to read as follows:

16 (1) The council shall identify budget priorities and levels of
17 funding for higher education, including the two and four-year
18 institutions of higher education and state financial aid programs. It
19 is the intent of the legislature for the council to make budget
20 recommendations for allocations for major policy changes in
21 accordance with priorities set forth in the ten-year plan, but the
22 legislature does not intend for the council to review and make
23 recommendations on individual institutional budgets. It is the intent
24 of the legislature that recommendations from the council prioritize
25 funding needs for the overall system of higher education in
26 accordance with priorities set forth in the ten-year plan. It is also
27 the intent of the legislature that the council's recommendations take
28 into consideration the total per-student funding at similar public
29 institutions of higher education in the global challenge states.

30 (2) By December of each odd-numbered year, the council shall
31 outline the council's fiscal priorities under the ten-year plan that
32 it must distribute to the institutions, the state board for community
33 and technical colleges, the office of financial management, and the
34 joint higher education committee.

35 (a) Capital budget outlines for the two-year institutions shall
36 be submitted to the office of financial management by August 15th of
37 each even-numbered year, and shall include the prioritized ranking of
38 the capital projects being requested, a description of each capital
39 project, and the amount and fund source being requested.

1 (b) Capital budget outlines for the four-year institutions must
2 be submitted to the office of financial management by August 15th of
3 each even-numbered year, and must include: The institutions' priority
4 ranking of the project; the capital budget category within which the
5 project will be submitted to the office of financial management in
6 accordance with RCW 43.88D.010; a description of each capital
7 project; and the amount and fund source being requested.

8 (c) The office of financial management shall reference these
9 reporting requirements in its budget instructions.

10 (3) The council shall submit recommendations on the operating
11 budget priorities to support the ten-year plan to the office of
12 financial management by October 1st each year, and to the legislature
13 by January 1st each year.

14 (4)(a) The office of financial management shall develop one
15 prioritized list of capital projects for the legislature to consider
16 that includes all of the projects requested by the four-year
17 institutions of higher education that were scored by the office of
18 financial management pursuant to chapter 43.88D RCW, including
19 projects that were previously scored but not funded. The prioritized
20 list of capital projects shall be based on the following priorities
21 in the following order:

22 (i) Office of financial management scores pursuant to chapter
23 43.88D RCW;

24 (ii) Preserving assets;

25 (iii) Degree production; and

26 (iv) Maximizing efficient use of instructional space.

27 (b) The office of financial management shall include all of the
28 capital projects requested by the four-year institutions of higher
29 education, except for the minor works projects, in the prioritized
30 list of capital projects provided to the legislature.

31 (c) The form of the prioritized list for capital projects
32 requested by the four-year institutions of higher education shall be
33 provided as one list, ranked in priority order with the highest
34 priority project ranked number "1" through the lowest priority
35 project numbered last. The ranking for the prioritized list of
36 capital projects may not:

37 (i) Include subpriorities;

38 (ii) Be organized by category;

39 (iii) Assume any state bond or building account biennial funding
40 level to prioritize the list; or

1 (iv) Assume any specific share of projects by institution in the
2 priority list.

3 (5) Institutions and the state board for community and technical
4 colleges shall submit any supplemental capital budget requests and
5 revisions to the office of financial management by November 1st and
6 to the legislature by January 1st.

7 (6) For the (~~2017-2019 fiscal biennium and the~~) 2019-2021
8 fiscal biennium and the 2021-2023 fiscal biennium, pursuant to
9 subsection (4) of this section, the office of financial management
10 may, but is not obligated to, develop one prioritized list of capital
11 projects for the legislature to consider that includes all of the
12 projects requested by the four-year institutions of higher education
13 that were scored by the office of financial management pursuant to
14 chapter 43.88D RCW, including projects that were previously scored
15 but not funded.

16 **Sec. 7031.** RCW 43.63A.750 and 2020 c 356 s 7008 are each amended
17 to read as follows:

18 (1) A competitive grant program to assist nonprofit organizations
19 in acquiring, constructing, or rehabilitating performing arts, art
20 museums, and cultural facilities is created.

21 (2)(a) The department shall submit a list of recommended
22 performing arts, art museum projects, and cultural organization
23 projects eligible for funding to the governor and the legislature in
24 the department's biennial capital budget request beginning with the
25 2001-2003 biennium and thereafter. The list, in priority order, shall
26 include a description of each project, the amount of recommended
27 state funding, and documentation of nonstate funds to be used for the
28 project. The total amount of recommended state funding for projects
29 on a biennial project list shall not exceed twelve million dollars,
30 except that lists submitted during the 2019-2021 and 2021-2023 fiscal
31 (~~biennium~~) biennia may not exceed sixteen million dollars.

32 (b) The department shall establish a competitive process to
33 prioritize applications for state assistance as follows:

34 (i) The department shall conduct a statewide solicitation of
35 project applications from nonprofit organizations, local governments,
36 and other entities, as determined by the department. The department
37 shall evaluate and rank applications in consultation with a citizen
38 advisory committee, including a representative from the state arts
39 commission, using objective criteria. The evaluation and ranking

1 process shall also consider local community support for projects and
2 an examination of existing assets that applicants may apply to
3 projects.

4 (ii) The department may establish the amount of state grant
5 assistance for individual project applications but the amount shall
6 not exceed twenty percent, or thirty-three and one-third percent for
7 lists submitted during the 2019-2021 fiscal biennium, of the
8 estimated total capital cost or actual cost of a project, whichever
9 is less. The remaining portions of the project capital cost shall be
10 a match from nonstate sources. The nonstate match may include cash,
11 the value of real property when acquired solely for the purpose of
12 the project, and in-kind contributions. The department is authorized
13 to set matching requirements for individual projects. State
14 assistance may be used to fund separate definable phases of a project
15 if the project demonstrates adequate progress and has secured the
16 necessary match funding.

17 (iii) The department shall not sign contracts or otherwise
18 financially obligate funds under this section until the legislature
19 has approved a specific list of projects. In contracts for grants
20 authorized under this section, the department shall include
21 provisions requiring that capital improvements be held by the grantee
22 for a specified period of time appropriate to the amount of the grant
23 and that facilities be used for the express purpose of the grant. If
24 the grantee is found to be out of compliance with provisions of the
25 contract, the grantee shall repay to the state general fund the
26 principal amount of the grant plus interest calculated at the rate of
27 interest on state of Washington general obligation bonds issued most
28 closely to the date of authorization of the grant.

29 **Sec. 7032.** RCW 39.35D.030 and 2011 c 99 s 1 are each amended to
30 read as follows:

31 (1) All major facility projects of public agencies receiving any
32 funding in a state capital budget, or projects financed through a
33 financing contract as defined in RCW 39.94.020, must be designed,
34 constructed, and certified to at least the LEED silver standard. This
35 subsection applies to major facility projects that have not entered
36 the design phase prior to July 24, 2005, and to the extent
37 appropriate LEED silver standards exist for that type of building or
38 facility. During the 2021-2023 fiscal biennium, high-performance
39 building certifications other than LEED silver standard are allowed

1 where the legislature determines that the certification is at least
2 equivalent to the LEED silver standard.

3 (2) All major facility projects of any entity other than a public
4 agency or public school district receiving any funding in a state
5 capital budget must be designed, constructed, and certified to at
6 least the LEED silver standard. This subsection applies to major
7 facility projects that have not entered the grant application process
8 prior to July 24, 2005, and to the extent appropriate LEED silver
9 standards exist for that type of building or facility.

10 (3) (a) Public agencies, under this section, shall monitor and
11 document ongoing operating savings resulting from major facility
12 projects designed, constructed, and certified as required under this
13 section.

14 (b) Public agencies, under this section, shall report annually to
15 the department on major facility projects and operating savings.

16 (4) The department shall consolidate the reports required in
17 subsection (3) of this section into one report and report to the
18 governor and legislature by September 1st of each even-numbered year
19 beginning in 2006 and ending in 2016. In its report, the department
20 shall also report on the implementation of this chapter, including
21 reasons why the LEED standard was not used as required by RCW
22 39.35D.020(5)(b). The department shall make recommendations regarding
23 the ongoing implementation of this chapter, including a discussion of
24 incentives and disincentives related to implementing this chapter.

25 (5) For the purposes of determining compliance with the
26 requirement for a project to be designed, constructed, and certified
27 to at least the LEED silver standard, the department must credit one
28 additional point for a project that uses wood products with a
29 credible third-party sustainable forest certification or from forests
30 regulated under chapter 76.09 RCW, the Washington forest practices
31 act. For projects that qualify for this additional point, and for
32 which an additional point would have resulted in formal certification
33 under the LEED silver standard, the project must be deemed to meet
34 the standard under this section.

35 **Sec. 7033.** RCW 43.88D.010 and 2019 c 413 s 7032 are each amended
36 to read as follows:

37 (1) By October 1st of each even-numbered year, the office of
38 financial management shall complete an objective analysis and scoring
39 of all capital budget projects proposed by the public four-year

1 institutions of higher education and submit the results of the
2 scoring process to the legislative fiscal committees and the four-
3 year institutions. Each project must be reviewed and scored within
4 one of the following categories, according to the project's principal
5 purpose. Each project may be scored in only one category. The
6 categories are:

7 (a) Access-related projects to accommodate enrollment growth at
8 all campuses, at existing or new university centers, or through
9 distance learning. Growth projects should provide significant
10 additional student capacity. Proposed projects must demonstrate that
11 they are based on solid enrollment demand projections, more
12 cost-effectively provide enrollment access than alternatives such as
13 university centers and distance learning, and make cost-effective use
14 of existing and proposed new space;

15 (b) Projects that replace failing permanent buildings. Facilities
16 that cannot be economically renovated are considered replacement
17 projects. New space may be programmed for the same or a different use
18 than the space being replaced and may include additions to improve
19 access and enhance the relationship of program or support space;

20 (c) Projects that renovate facilities to restore building life
21 and upgrade space to meet current program requirements. Renovation
22 projects should represent a complete renovation of a total facility
23 or an isolated wing of a facility. A reasonable renovation project
24 should cost between sixty to eighty percent of current replacement
25 value and restore the renovated area to at least twenty-five years of
26 useful life. New space may be programmed for the same or a different
27 use than the space being renovated and may include additions to
28 improve access and enhance the relationship of program or support
29 space;

30 (d) Major stand-alone campus infrastructure projects;

31 (e) Projects that promote economic growth and innovation through
32 expanded research activity. The acquisition and installation of
33 specialized equipment is authorized under this category; and

34 (f) Other project categories as determined by the office of
35 financial management in consultation with the legislative fiscal
36 committees.

37 (2) The office of financial management, in consultation with the
38 legislative fiscal committees, shall establish a scoring system and
39 process for each four-year project category that is based on the
40 framework used in the community and technical college system of

1 prioritization. Staff from the state board for community and
2 technical colleges and the four-year institutions shall provide
3 technical assistance on the development of a scoring system and
4 process.

5 (3) The office of financial management shall consult with the
6 legislative fiscal committees in the scoring of four-year institution
7 project proposals, and may also solicit participation by independent
8 experts.

9 (a) For each four-year project category, the scoring system must,
10 at a minimum, include an evaluation of enrollment trends,
11 reasonableness of cost, the ability of the project to enhance
12 specific strategic master plan goals, age and condition of the
13 facility if applicable, and impact on space utilization.

14 (b) Each four-year project category may include projects at the
15 predesign, design, or construction funding phase.

16 (c) To the extent possible, the objective analysis and scoring
17 system of all capital budget projects shall occur within the context
18 of any and all performance agreements between the office of financial
19 management and the governing board of a public, four-year institution
20 of higher education that aligns goals, priorities, desired outcomes,
21 flexibility, institutional mission, accountability, and levels of
22 resources.

23 (4) In evaluating and scoring four-year institution projects, the
24 office of financial management shall take into consideration project
25 schedules that result in realistic, balanced, and predictable
26 expenditure patterns over the ensuing three biennia.

27 (5) The office of financial management shall distribute common
28 definitions, the scoring system, and other information required for
29 the project proposal and scoring process as part of its biennial
30 budget instructions. The office of financial management, in
31 consultation with the legislative fiscal committees, shall develop
32 common definitions that four-year institutions must use in developing
33 their project proposals and lists under this section.

34 (6) In developing any scoring system for capital projects
35 proposed by the four-year institutions, the office of financial
36 management:

37 (a) Shall be provided with all required information by the four-
38 year institutions as deemed necessary by the office of financial
39 management;

1 (b) May utilize independent services to verify, sample, or
2 evaluate information provided to the office of financial management
3 by the four-year institutions; and

4 (c) Shall have full access to all data maintained by the joint
5 legislative audit and review committee concerning the condition of
6 higher education facilities.

7 (7) By August 1st of each even-numbered year each public four-
8 year higher education institution shall prepare and submit
9 prioritized lists of the individual projects proposed by the
10 institution for the ensuing six-year period in each category. The
11 lists must be submitted to the office of financial management and the
12 legislative fiscal committees. The four-year institutions may
13 aggregate minor works project proposals by primary purpose for
14 ranking purposes. Proposed minor works projects must be prioritized
15 within the aggregated proposal, and supporting documentation,
16 including project descriptions and cost estimates, must be provided
17 to the office of financial management and the legislative fiscal
18 committees.

19 (8) For the ((2017-2019 fiscal biennium and the)) 2019-2021
20 fiscal biennium and the 2021-2023 fiscal biennium, pursuant to
21 subsection (1) of this section, by November 1, ((2020)) 2022, the
22 office of financial management must score higher education capital
23 project criteria with a rating scale that assesses how well a
24 particular project satisfies those criteria. The office of financial
25 management may not use a rating scale that weighs the importance of
26 those criteria.

27 (9) For the ((2017-2019 fiscal biennium and the)) 2019-2021
28 fiscal biennium and the 2021-2023 fiscal biennium, pursuant to
29 subsection (6)(a) of this section and in lieu of the requirements of
30 subsection (7) of this section, by August 15, ((2020)) 2022, the
31 institutions of higher education shall prepare and submit or resubmit
32 to the office of financial management and the legislative fiscal
33 committees:

34 (a) Individual project proposals developed pursuant to subsection
35 (1) of this section;

36 (b) Individual project proposals scored in prior biennia pursuant
37 to subsection (1) of this section; and

38 (c) A prioritized list of up to five project proposals submitted
39 pursuant to (a) and (b) of this subsection.

1 **Sec. 7034.** RCW 43.155.050 and 2019 c 415 s 972 and 2019 c 413 s
2 7033 are each reenacted and amended to read as follows:

4 state treasury. Money may be placed in the public works assistance
5 account from the proceeds of bonds when authorized by the legislature

8 guarantees to local governments for public works projects. Moneys in
9 the account may also be appropriated or transferred to the water
10 pollution control revolving fund and the drinking water assistance
11 account to provide for state match requirements under federal law.
12 Not more than twenty percent of the biennial capital budget
13 appropriation to the public works board from this account may be
14 expended or obligated for preconstruction loans and grants, emergency
15 loans and grants, or loans and grants for capital facility planning
16 under this chapter. Not more than ten percent of the biennial capital
17 budget appropriation to the public works board from this account may
18 be expended or obligated as grants for preconstruction, emergency,
19 capital facility planning, and construction projects. During the
20 2017-2019 and 2019-2021 fiscal biennia, the legislature may
21 appropriate moneys from the account for activities related to rural
22 economic development, the growth management act, the aviation
23 revitalization loan program, the community economic revitalization
24 board broadband program, and the voluntary stewardship program.
25 During the 2021-2023 biennium, the legislature may appropriate moneys
26 from the account for activities related to the aviation
27 revitalization board. During the 2017-2019 and 2019-2021 fiscal
28 biennia, the legislature may direct the state treasurer to make
29 transfers of moneys in the public works assistance account to the
30 education legacy trust account. It is the intent of the legislature
31 that this policy will be continued in subsequent fiscal biennia. (~~¶~~

38 **Sec. 7035.** RCW 43.185.050 and 2018 c 223 s 4 are each amended to
39 read as follows:

1 (1) The department must use moneys from the housing trust fund

6 metropolitan statistical area where the project is located. At least
7 thirty percent of these moneys used in any given funding cycle must
8 be for the benefit of projects located in rural areas of the state as
9 defined by the department. If the department determines that it has
10 not received an adequate number of suitable applications for rural
11 projects during any given funding cycle, the department may allocate
12 unused moneys for projects in nonrural areas of the state.

13 (2) Activities eligible for assistance from the housing trust
14 fund and other legislative appropriations include, but are not
15 limited to:

16 (a) New construction, rehabilitation, or acquisition of low and

21 (d) Technical assistance, design and finance services and
22 consultation, and administrative costs for eligible nonprofit
23 community or neighborhood-based organizations;

24 (e) Administrative costs for housing assistance groups or
25 organizations when such grant or loan will substantially increase the
26 recipient's access to housing funds other than those available under
27 this chapter;

28 (f) Shelters and related services for the homeless, including
29 emergency shelters and overnight youth shelters;

30 (g) Mortgage subsidies, including temporary rental and mortgage
31 payment subsidies to prevent homelessness;

32 (h) Mortgage insurance guarantee or payments for eligible
33 projects;

34 (i) Down payment or closing cost assistance for eligible first-
35 time home buyers;

36 (j) Acquisition of housing units for the purpose of preservation
37 as low-income or very low-income housing;

38 (k) Projects making housing more accessible to families with
39 members who have disabilities; and

1 (1) Remodeling and improvements as required to meet building
2 code, licensing requirements, or legal operations to residential
3 properties owned and operated by an entity eligible under RCW
4 43.185A.040, which were transferred as described in RCW
5 82.45.010(3)(t) by the parent of a child with developmental
6 disabilities.

7 (3) Preference must be given for projects that include an early
8 learning facility.

9 (4) Legislative appropriations from capital bond proceeds may be
10 used only for the costs of projects authorized under subsection
11 (2)(a), (i), and (j) of this section, and not for the administrative
12 costs of the department, except that during the 2021-2023 fiscal
13 biennium, the department may use up to three percent of the
14 appropriations from capital bond proceeds for administrative costs
15 associated with application, distribution, and project development
16 activities of the housing assistance program.

17 (5) Moneys from repayment of loans from appropriations from
18 capital bond proceeds may be used for all activities necessary for
19 the proper functioning of the housing assistance program except for
20 activities authorized under subsection (2)(b) and (c) of this
21 section.

22 (6) Administrative costs associated with application,
23 distribution, and project development activities of the department
24 may not exceed three percent of the annual funds available for the
25 housing assistance program. Reappropriations must not be included in
26 the calculation of the annual funds available for determining the
27 administrative costs.

28 (7) Administrative costs associated with compliance and
29 monitoring activities of the department may not exceed one-quarter of
30 one percent annually of the contracted amount of state investment in
31 the housing assistance program.

32 NEW SECTION. Sec. 7036. The public use general aviation airport
33 loan revolving account is created in the custody of the state
34 treasurer. All receipts from moneys directed by law to the account
35 must be deposited into the account. Expenditures from the account may
36 be used only for the purposes described in section 7037 of this act.
37 Only the community aviation revitalization board or the board's
38 designee may authorize expenditures from the account. The account is

1 subject to allotment procedures under chapter 43.88 RCW, but an
2 appropriation is not required for expenditures.

3 NEW SECTION. **Sec. 7037.** (1)(a) The community aviation
4 revitalization board is established to exercise the powers granted
5 under this section.

6 (b) The board must consist of a representative from the
7 department of transportation's aviation division, the public works
8 board, and a nonlegislative member of the community economic
9 revitalization board. The board must also consist of the following
10 members appointed by the secretary of transportation: One port
11 district official, one county official, one city official, one
12 representative of airport managers, and one representative of a
13 general aviation pilots organization within Washington that has an
14 active membership and established location, chapter, or appointed
15 representative within Washington. The appointive members must
16 initially be appointed to terms as follows: Two members for two-year
17 terms, and three members for three-year terms that must include the
18 chair. Thereafter, each succeeding term must be for three years. The
19 secretary of transportation must select the chair of the board. The
20 members of the board must elect one of their members to serve as vice
21 chair.

22 (c) The department of transportation must provide management
23 services, including fiscal and contract services, to assist the board
24 in implementing this section.

25 (d) If a vacancy occurs by death, resignation, or otherwise of
26 appointive members of the board, the secretary of transportation must
27 fill the vacancy for the unexpired term. Members of the board may be
28 removed for malfeasance or misfeasance in office, upon specific
29 written charges by the secretary of transportation, under chapter
30 34.05 RCW.

31 (e) A member appointed by the secretary of transportation may not
32 be absent from more than 50 percent of the regularly scheduled
33 meetings in any one calendar year. Any member who exceeds this
34 absence limitation has withdrawn from the board and may be replaced
35 by the secretary of transportation.

36 (f) A majority of members currently appointed constitutes a
37 quorum.

38 (g) The board must meet three times a year or as deemed necessary
39 by the department of transportation.

1 (h) The department of transportation must provide staff support
2 as needed.

3 (2) In addition to other applicable provisions of law pertaining
4 to conflicts of interest of public officials, any community aviation
5 revitalization board member, appointive or otherwise, may not
6 participate in any decision on any board contract in which the board
7 member has any interests, direct or indirect, with any firm,
8 partnership, corporation, or association that would be the recipient
9 of any aid under this section. If such participation occurs, the
10 board must void the transaction and the involved member is subject to
11 further sanctions as provided by law. The board must adopt a code of
12 ethics for its members, which must be designed to protect the state
13 and its citizens from any unethical conduct by the board.

14 (3) The community aviation revitalization board may:

15 (a) Adopt bylaws for the regulation of its affairs and the
16 conduct of its business;

17 (b) Adopt an official seal and alter the seal at its pleasure;

18 (c) Use the services of other governmental agencies;

19 (d) Accept from any federal agency loans or grants for the
20 planning or financing of any project and enter into an agreement with
21 the agency respecting the loans or grants;

22 (e) Conduct examinations and investigations and take testimony at
23 public hearings of any matter material for its information that will
24 assist in determinations related to the exercise of the board's
25 lawful powers;

26 (f) Accept any gifts, grants, loans of funds, property, or
27 financial or other aid in any form from any other source on any terms
28 and conditions that are not in conflict with this section;

29 (g) Enter into agreements or other transactions with and accept
30 grants and cooperation from any governmental agency in furtherance of
31 this section;

32 (h) Adopt rules under chapter 34.05 RCW as necessary to carry out
33 the purposes of this section; and

34 (i) Perform all acts and things necessary or convenient to carry
35 out the powers expressly granted or implied under this section.

36 (4) (a) (i) The community aviation revitalization board may make
37 direct loans to airport sponsors of public use airports in the state
38 for the purpose of airport improvements that primarily support
39 general aviation activities. The board may provide loans for the
40 purpose of airport improvements only if the state is receiving

1 commensurate public benefit, which must include, as a condition of
2 the loan, a commitment to provide public access to the airport for a
3 period of time equivalent to one and one-half times the term of the
4 loan.

5 (ii) For purposes of this subsection (4)(a), "public use
6 airports" means all public use airports not listed as having more
7 than \$75,000 annual commercial air service passenger enplanements as
8 published by the federal aviation administration.

9 (b) An application for loan funds under this section must be made
10 in the form and manner that the board prescribes. When evaluating
11 loan applications, the board must prioritize applications that
12 provide conclusive justification that completion of the loan
13 application project will create revenue-generating opportunities. The
14 board is not limited to, but must also use, the following expected
15 outcome conditions when evaluating loan applications:

16 (i) A specific private development or expansion is ready to occur
17 and will occur only if the aviation facility improvement is made;

18 (ii) The loan application project results in the creation of jobs
19 or private sector capital investment as determined by the board;

20 (iii) The loan application project improves opportunities for the
21 successful maintenance, operation, or expansion of an airport or
22 adjacent airport business park;

23 (iv) The loan application project results in the creation or
24 retention of long-term economic opportunities; and

25 (v) The loan application project results in leveraging additional
26 federal funding for an airport.

27 (c)(i) If the board chooses to require a local match, the board
28 must develop guidelines for local participation and allowable match
29 and activities.

30 (ii) An application must:

31 (A) Be supported by the port district, city, or county in which
32 the project is located; or

33 (B) Clearly identify the source of funds intended to repay the
34 loan.

35 (5) The public use general aviation airport loan program, when
36 authorized by the community aviation revitalization board, is subject
37 to the following conditions:

38 (a) The moneys in the public use general aviation airport loan
39 revolving account created in section 7036 of this act must be used
40 only to fulfill commitments arising from loans authorized in this

1 section. The total outstanding amount that the board must dispense at
2 any time pursuant to this section must not exceed the moneys
3 available from the account.

4 (b) On contracts made for public use general aviation airport
5 loans, the board must determine the interest rate that loans must
6 bear. The interest rate must not exceed the amount needed to cover
7 the administrative expenses of the board and the loan program. The
8 board may provide reasonable terms and conditions for the repayment
9 of loans, with the repayment of a loan to begin no later than three
10 years after the award date of the loan. The loans must not exceed 20
11 years in duration.

12 (c) The repayment of any loan made from the public use general
13 aviation airport loan revolving account under the contracts for
14 aviation loans must be paid into the public use general aviation
15 airport loan revolving account.

16 (6) All receipts from moneys collected under this section must be
17 deposited into the public use general aviation airport loan revolving
18 account.

19 NEW SECTION. **Sec. 7038.** The legislature intends to consider
20 predesign funding for the Washington state patrol crime laboratory
21 I-5 consolidated facility in the 2022 supplemental capital budget. By
22 December 1, 2021, the Washington state patrol must provide data to
23 support the request for a consolidated crime lab. The agency must
24 provide legislative fiscal staff with operating budget financial
25 information including, but not limited to, a list of each leased
26 facility that will be vacated when the consolidated lab is completed.
27 For each facility, the Washington state patrol must provide at least
28 the:

- 29 (1) Lease contract number;
- 30 (2) Lease contract term;
- 31 (3) Lease facility street address;
- 32 (4) Lease facility cost, by fund and by state fiscal year for
33 fiscal years 2020, 2021, 2022, and 2023;
- 34 (5) Lease facility and maintenance staffing levels and funding by
35 state fiscal year for fiscal years 2020, 2021, 2022, and 2023;
- 36 (6) The most current six year facilities plan;
- 37 (7) An estimated certificate of participation payback schedule;
- 38 and

1 (8) A summary of how the operating costs from subsection (1) of
2 this section will offset the certification of participation costs
3 from subsection (3) of this section by state fiscal year.

4 NEW SECTION. **Sec. 7039.** The department of social and health
5 services and the department of natural resources shall enter into
6 long-term, revenue generating opportunities for underused portions of
7 the Fircrest Residential Habilitation Center bounded by 15th Ave NE
8 and NE 150th Street to benefit the charitable, educational, penal,
9 and reformatory institutions account. Long-term, revenue generating
10 opportunities may include, but are not limited to, land leases, land
11 sales, and land swaps. It is the intent of the legislature that any
12 revenue obtained from these opportunities be used for services for
13 those with developmental disabilities. The department of social and
14 health services and the department of natural resources must amend
15 their lease if necessary to conform with this section.

16 NEW SECTION. **Sec. 7040.** (1) The department of natural resources
17 shall convene a work group of trust land beneficiaries and
18 stakeholders to develop a recommended process for the way trust land
19 transfer proposals are developed and implemented. Consideration
20 should be made for increasing the income value of the trusts,
21 limiting impacts to trust lands not being considered for transfer,
22 conservation value of lands that are a potential candidate for
23 transfer, and use of the land bank for securing repositioned land
24 that would result from any transferred projects, and any other items
25 necessary for a well-supported program. The department of natural
26 resources must report and make recommendations for the establishment
27 of a new trust land transfer program, in the form of proposed
28 legislation, to the fiscal committees of the legislature, by December
29 1, 2021.

30 (2) For the 2021-2023 fiscal biennium, the department of natural
31 resources may not trade, transfer, or sell any valuable material from
32 the four parcels that comprised the proposed trust land transfer
33 parcels in the 2019-2021 fiscal biennium, known as blakely island,
34 devils lake, eglon, and morning star.

35 NEW SECTION. **Sec. 7041.** (1) The department of enterprise
36 services shall convene a construction industry work group to
37 recommend how to apply successful carbon reduction strategies,

1 incorporate necessary parameters of design and construction
2 considerations, and allow for efficient and cost effective state
3 construction projects. The work group must be comprised of
4 construction industry professionals as recommended by a leading
5 association on Washington business in design, specification,
6 construction, and material supply and construction professionals that
7 have successfully realized real and measurable results. The work
8 group must also include a representative from the department of
9 enterprise services, representatives from environmental groups, and
10 someone of applicable expertise from the Washington academy of
11 sciences.

12 (2) The work group shall identify and recommend carbon reduction
13 strategies and environmental product declaration principles to
14 successfully apply in state construction projects and:

15 (a) Clarify the definition of environmental product declaration
16 to ensure that environmental product declarations (EPD) are applied
17 properly, consistently, and as intended and provide a baseline of
18 understanding based on accepted metrics to obtain measurable results
19 for state construction projects;

20 (b) Suggest a pilot project or project review to apply
21 construction industry recommendations and create an education and
22 standards brief that accompanies the report required under subsection
23 (3) of this section;

24 (c) Outline the environmental project review data collection
25 process in functional detail and use existing data gathering
26 resources such as EC3; and

27 (d) Identify measurable outcome criteria to establish a project
28 baseline summary for use during design from estimated project
29 material quantities using industry average environmental product
30 declarations.

31 (3) The work group shall provide their recommendations in a
32 report to the fiscal committees of the legislature by January 1,
33 2022.

34 NEW SECTION. **Sec. 7042.** The office of financial management must
35 compile a list of 2021-2023 fiscal biennium capital budget grant
36 programs managed by state agencies and the direct and indirect
37 administrative fee percentages charged for each. For the purposes of
38 this section, "administrative fee percentages" means rates charged by
39 state agencies and the rates grant recipients are allowed to charge

1 for direct and/or indirect administrative costs. The office of
2 financial management must submit the list of capital budget grant
3 programs and their associated administrative fee percentages to the
4 house capital budget committee and the senate ways and means
5 committee by October 1, 2021.

6 NEW SECTION. **Sec. 7043.** If any provision of this act or its
7 application to any person or circumstance is held invalid, the
8 remainder of the act or the application of the provision to other
9 persons or circumstances is not affected.

10 NEW SECTION. **Sec. 7044.** This act is necessary for the immediate
11 preservation of the public peace, health, or safety, or support of
12 the state government and its existing public institutions, and takes
13 effect immediately.
