23 2017-19 Housing Trust Fund Program (30000872)

24 The (~~reappropriations~~) appropriations in this section are
25 subject to the following conditions and limitations: The
26 (~~reappropriations~~) appropriations are subject to the provisions of
27 section 6001, chapter 356, Laws of 2020. Section 6001, chapter 356,
28 Laws of 2020 is set forth in full below, except that new language is
29 added to subsection (1)(f)(x) of this section, which supersedes the
30 requirements of subsection (1)(f)(x) in section 6001, chapter 356,
31 Laws of 2020.

32 (1) \$83,500,000 of the state taxable building construction
33 account—state appropriation, \$19,631,000 of the state building
34 construction account—state appropriation, and \$8,658,000 of the
35 Washington housing trust account—state appropriation are provided

1 solely for affordable housing and preservation of affordable housing.
2 Of the amounts in this subsection:

3 (a) \$24,370,000 is provided solely for housing projects that
4 provide supportive housing and case-management services to persons
5 with chronic mental illness. The department must prioritize low-
6 income supportive housing unit proposals that provide services or
7 include a partner community behavioral health treatment provider;

8 (b) \$10,000,000 is provided solely for housing preservation
9 grants or loans to be awarded competitively. The grants may be
10 provided for major building improvements, preservation, and system
11 replacements necessary for the existing housing trust fund portfolio
12 to maintain long-term viability. The department must require that a
13 capital needs assessment is performed to estimate the cost of the
14 preservation project at contract execution. Funds may not be used to
15 add or expand the capacity of the property. To receive grants,
16 housing projects must meet the following requirements:

17 (i) The property is more than 15 years old;

18 (ii) At least 50 percent of the housing units are occupied by
19 families and individuals at or below 30 percent area median income;

20 (iii) The improvements will result in reduction of operating or
21 utilities costs, or both; and

22 (iv) Other criteria that the department considers necessary to
23 achieve the purpose of this program.

24 (c) \$5,000,000 is provided solely for housing projects that
25 benefit people at or below 80 percent of the area median income who
26 have been displaced by a natural disaster declared by the governor,
27 including people who have been displaced within the last two biennia.

28 (d) \$1,000,000 of the Washington housing trust account—state
29 appropriation is provided solely for the department to work with the
30 communities of concern commission to focus on creating capital assets
31 that will help reduce poverty and build stronger and more sustainable
32 communities using the communities' cultural understanding and vision.
33 The funding must be used for predevelopment costs for capital
34 projects identified by the commission and for other activities to
35 assist communities in developing capacity to create community-owned
36 capital assets.

37 (e) \$1,000,000 of the Washington housing trust account—state
38 appropriation and \$1,500,000 of the state taxable building
39 construction account—state appropriation are provided solely for the

1 department to contract directly with YouthCare Service Center to
2 purchase the 1534 Broadway site from Capitol Hill Housing in order
3 for YouthCare Service Center to develop a youth community center.

4 (f) \$25,506,000 is provided solely for the following list of
5 housing projects:

14 (ix) \$2,000,000 is provided solely for homeownership assistance
15 for low-income households displaced from their manufactured/mobile
16 homes due the closure or conversion of a mobile home park or
17 manufactured housing community in south King county. \$1,500,000 of
18 this amount in this subsection is provided solely for low-income
19 residents displaced from the Firs Mobile Home Park located in SeaTac.

20 (x) \$7,500,000 is provided solely for grants for high quality
21 low-income housing projects that will quickly move people from
22 homelessness into secure housing and are significantly less expensive
23 to construct than traditional housing. It is the intent of the
24 legislature that these grants serve projects with a total project
25 development cost per housing unit of less than \$200,000, excluding
26 the value of land, and with a commitment by the applicant to maintain
27 the housing units for at least a 25 year period. Amounts provided
28 that are subject to this subsection (1)(f)(x) must be used to plan,
29 predesign, design, provide technical assistance and financial
30 services, purchase land for, and build innovative low-income housing
31 units. \$4,500,000 of the appropriation that is subject to this
32 subsection is provided solely for innovative affordable housing in

1 Orting can be released for purchase of land, planning, or predesign
2 services before the project is fully funded.

3 (xi) \$7,290,000 is provided solely for grants to the following
4 organizations using innovative methods to address homelessness:
5 \$4,290,000 for THA Arlington drive youth campus in Tacoma and
6 \$3,000,000 for a King county housing project.

7 (xii) \$1,500,000 is provided solely for Valley Cities modular
8 housing project in Auburn.

9 (g) Of the amounts appropriated remaining after (a) through (f)
10 of this subsection, the department must allocate the funds as
11 follows:

12 (i) Ten percent is provided solely for housing projects that
13 benefit veterans;

14 (ii) Ten percent is provided solely for housing projects that
15 benefit homeownership;

16 (iii) Five percent is provided solely for housing projects that
17 benefit people with developmental disabilities; and

18 (iv) The remaining amount is provided solely for projects that
19 serve low-income and special needs populations in need of housing,
20 including, but not limited to, homeless families with children,
21 homeless youth, farmworkers, and seniors.

22 (2) In evaluating projects in this section, the department must
23 give preference for applications based on some or all of the criteria
24 in RCW 43.185.070(5).

25 (3) The department must strive to allocate all of the amounts
26 appropriated in this section within the 2017-2019 fiscal biennium in
27 the manner prescribed in subsection (1) of this section. However, if
28 upon review of applications the department determines there are not
29 adequate suitable projects in a category, the department may allocate
30 funds to projects serving other low-income and special needs
31 populations, provided those projects are located in an area with an
32 identified need for the type of housing proposed.

23 rural and underserved communities, for the purpose of economic
24 development.

25 (1) The board is authorized to make rural broadband loans to
26 local governments and to federally recognized Indian tribes for the
27 purposes of financing the cost to build infrastructure to provide
28 high-speed, open-access broadband service, to rural and underserved
29 communities, for the purpose of economic development. Grants may also
30 be authorized for purposes designated in this section, but only when,
31 and to the extent that, a loan is not reasonably possible, given the

33 Indian tribe, and subject to a finding by the board that financial
34 circumstances require grant assistance to enable the project to move
35 forward. However, no more than 25 percent of all financial assistance
36 approved by the board in any biennium may consist of grants to local
37 governments and federally recognized Indian tribes.

1 (2) Application for funding must be made in the form and manner
2 as the board may prescribe. In making grants or loans the board must
3 conform to the following requirements:

8 development or expansion that would displace existing jobs in any
9 other community in the state;

10 (iii) For a project the primary purpose of which is to facilitate

12 (iv) For a project located outside the jurisdiction of the
13 applicant local government or federally recognized Indian tribe; or

14 (v) For the deployment of publicly-owned telecommunication
15 network infrastructure ("backbone") solely for the sake of creating
16 competitive, publicly-owned telecommunication network infrastructure;

17 (b) The board may provide financial assistance only:

18 (i) For projects demonstrating convincing evidence that a
19 specific private development or expansion is ready to occur and will
20 occur only if the public facility improvement is made that:

21 (A) Results in the creation of significant private sector jobs or
22 significant private sector capital investment as determined by the
23 board;

24 (B) Will improve the opportunities for the successful
25 maintenance, establishment, or expansion of industrial or commercial
26 plants or will otherwise assist in the creation or retention of long-
27 term economic opportunities; and

28 (C) Is located in a rural community as defined by the board, or a
29 rural county; or

30 (ii) For a project that does not meet the requirements of (b) (i)
31 of this subsection but is a project that:

32 (A) Results in the creation of significant private sector jobs or
33 significant private sector capital investment as determined by the
34 board;

35 (B) Is part of a local economic development plan consistent with
36 applicable state planning requirements;

37 (C) Can demonstrate project feasibility using standard economic
38 principles; and

39 (D) Is located in a rural community as defined by the board, or a
40 rural county;

1 (c) The board must develop guidelines for local participation and
2 allowable match and activities.

3 (d) An application must demonstrate local match and local
4 participation, in accordance with guidelines developed by the board.

5 (e) An application must be approved by the local government and
6 supported by the local associate development organization or local
7 workforce development council or approved by the governing body of
8 the federally recognized Indian tribe.

9 (f) The board may allow de minimis general system improvements to
10 be funded if they are critically linked to the viability of the
11 project.

12 (g) An application must demonstrate convincing evidence that the
13 median hourly wage of the private sector jobs created after the
14 project is completed will exceed the countywide median hourly wage.

15 (h) The board must prioritize each proposed project according to:

16 (i) The relative benefits provided to the community by the jobs
17 the project would create, not just the total number of jobs it would
18 create after the project is completed, but also giving consideration
19 to the unemployment rate in the area in which the jobs would be
20 located;

21 (ii) The rate of return of the state's investment, including, but
22 not limited to, the leveraging of private sector investment,
23 anticipated job creation and retention, and expected increases in
24 state and local tax revenues associated with the project;

25 (iii) Whether the proposed project offers a health insurance plan
26 for employees that includes an option for dependents of employees;

27 (iv) Whether the public facility investment will increase
28 existing capacity necessary to accommodate projected population and
29 employment growth in a manner that supports infill and redevelopment
30 of existing urban or industrial areas that are served by adequate
31 public facilities. Projects should maximize the use of existing
32 infrastructure and provide for adequate funding of necessary
33 transportation improvements;

34 (v) Whether the applicant's permitting process has been certified
35 as streamlined by the office of regulatory assistance; and

36 (vi) Whether the applicant has developed and adhered to
37 guidelines regarding its permitting process for those applying for
38 development permits consistent with section 1(2), chapter 231, Laws
39 of 2007.

1 (i) A responsible official of the local government or the
2 federally recognized Indian tribe must be present during board
3 deliberations and provide information that the board requests.

4 (3) Before any financial assistance application is approved, the
5 local government or the federally recognized Indian tribe seeking the
6 assistance must demonstrate to the community economic revitalization
7 board that no other timely source of funding is available to it at
8 costs reasonably similar to financing available from the community
9 economic revitalization board.

10 (4) The appropriations must be used for projects that use a
11 technology-neutral approach in order to expand access at the lowest
12 cost to the most unserved or underserved residents.

13 (5) \$25,000,000 of the general fund—federal appropriation in this
14 section is provided solely as expenditure authority for grant funding
15 received by the department for the broadband equity, access, and
16 deployment state grants program in section 60102 of P.L. 117-58
17 (infrastructure investment and jobs act), not to exceed the actual
18 amount of grant funding awarded. Expenditure of the amount in this
19 subsection is contingent on the receipt of this grant funding. If the
20 department does not receive the grant funding by June 30, 2023, the
21 expenditure authority in this section shall lapse.

36 (2) The department must establish a competitive process to
37 solicit proposals for and prioritize projects whose primary objective
38 is to assist libraries operated by governmental units, as defined in

1 RCW 27.12.010, in acquiring, constructing, repairing, or
2 rehabilitating facilities.

3 (3) The department must establish a committee to develop the
4 grant program criteria and review proposals. The committee must be
5 composed of five members as provided in this subsection. The
6 committee must include: (a) A representative from the department of
7 commerce; (b) a representative from the department of archaeology and
8 historic preservation; (c) the state librarian; (d) a representative
9 from a library district; and (e) a representative from a municipal
10 library.

11 (4) The department must conduct a statewide solicitation of
12 project applications. The department must evaluate and rank
13 applications in consultation with the committee established in
14 subsection (3) of this section, using objective criteria. The ranking
15 of projects must prioritize library district facilities listed on a
16 local, state, or federal register of historic places and those
17 located in distressed or rural counties. The evaluation and ranking
18 process must also include an examination of existing assets that
19 applicants propose to apply to projects. Grant assistance under this
20 section may not exceed 50 percent of the total cost of the project.
21 The nonstate portion of the total project cost may include cash, the

32 (6) In contracts for grants authorized under this section, the
33 department must include provisions that require that capital
34 improvements be held by the grantee for a specified period of time
35 appropriate to the amount of the grant and that facilities be used
36 for the express purpose of the grant. If the grantee is found to be
37 out of compliance with provisions of the contract, the grantee must
38 repay to the state general fund the principal amount of the grant
39 plus interest calculated at the rate of interest on state of

1 Washington general obligation bonds issued on the date most close in
2 time to the date of authorization of the grant.

3 (7) The department must assist grant recipients under this
4 section to apply for applicable competitive federal grant funding

17 **FOR THE DEPARTMENT OF COMMERCE**

18 2021-23 Clean Energy V - Investing in Washington's Clean Energy
19 (40000148)

20 The appropriations in this section are subject to the following
21 conditions and limitations:

22 (1) The appropriations in this section are provided solely for
23 projects that provide a benefit to the public through development,
24 demonstration, and deployment of clean energy technologies that save
25 energy and reduce energy costs, reduce harmful air emissions, or
26 increase energy independence for the state. Priority must be given to
27 projects that benefit vulnerable populations and overburdened
28 communities, including tribes and communities with high environmental
29 or energy burdens.

30 (2) The 2021 state energy strategy must guide the department in
31 the design of programs under this section, using an equity and
32 environmental justice lens for program structure and participation.
33 To the extent practicable, the department must prioritize projects
34 that build upon Washington's existing strengths in communities,
35 aerospace, maritime, information and communications technology
36 (particularly data center infrastructure, artificial intelligence and
37 machine learning), grid modernization, advanced materials, and
38 decarbonizing the built environment.

1 (3) Subject to the availability of funds, the department must
2 reconvene an advisory committee to support involvement of a broad
3 range of stakeholders in the design and implementation of programs
4 implemented under this section to encourage collaboration, leverage
5 partners, and engage communities and organizations in improving the
6 equitable distribution of benefits from the program.

7 (4) In soliciting and evaluating proposals, awarding contracts,
8 and monitoring projects under this section, the department must:

9 (a) Ensure that competitive processes, rather than sole source
10 contracting processes, are used to select all projects, except as
11 otherwise noted in this section; and

12 (b) Conduct due diligence activities associated with the use of
13 public funds including, but not limited to, oversight of the project
14 selection process, project monitoring, and ensuring that all
15 applications and contracts fully comply with all applicable laws
16 including disclosure and conflict of interest statutes.

17 (5) During project solicitation periods for grants funded with
18 this appropriation, the department must maintain a list of applicants
19 by grant program that scored competitively but did not receive a
20 grant award due to lack of available funding. These applicants must
21 be considered for funding during future grant award cycles. If the
22 department submits a 2022 supplemental budget request for this
23 program, the request must include a list of prioritized projects by
24 grant type.

25 (6) (a) Pursuant to chapter 42.52 RCW, the ethics in public
26 service act, the department must require a project applicant to
27 identify in application materials any state of Washington employees
28 or former state employees employed by the firm or on the firm's
29 governing board during the past 24 months. Application materials must
30 identify the individual by name, the agency previously or currently
31 employing the individual, job title or position held, and separation
32 date. If it is determined by the department that a conflict of
33 interest exists, the applicant may be disqualified from further
34 consideration for award of funding.

35 (b) If the department finds, after due notice and examination,
36 that there is a violation of chapter 42.52 RCW, or any similar
37 statute involving a grantee who received funding under this section,
38 either in procuring or performing under the grant, the department in
39 its sole discretion may terminate the funding grant by written
40 notice. If the grant is terminated, the department must reserve its

1 right to pursue all available remedies under law to address the
2 violation.

3 (7) The requirements in subsections (4) and (6) of this section
4 must be specified in funding agreements issued by the department.

12 pursuant to the clean energy transformation act, including
13 requirements placed upon retail electric utilities.

14 (ii) Projects must be implemented by community organizations,
15 local governments, federally recognized tribal governments, or by
16 public and private electrical utilities that serve retail customers
17 in the state (retail electric utilities). Projects submitted by
18 applicants other than retail electric utilities must demonstrate
19 partnership with their load serving entity to apply. Priority must be
20 given to:

21 (A) Projects that benefit vulnerable populations, including
22 tribes and communities with high environmental or energy burden; and

23 (B) Projects that demonstrate partnerships between eligible
24 applicants in applying for funding, including utilities, public and
25 private sector research organizations, businesses, tribes, and
26 nonprofit organizations.

27 (iii) The department shall develop a grant application process to
28 competitively select projects for grant awards, to include scoring
29 conducted by a group of qualified experts with application of
30 criteria specified by the department. In development of the
31 application criteria, the department shall, to the extent possible,
32 develop program guidelines that encourage smaller utilities or
33 consortia of small utilities to apply for funding. Where suitable,
34 this may include funding for projects consisting solely of planning,
35 predesign and/or predevelopment activities.

36 (iv) Applications for grants must disclose all sources of public
37 funds invested in a project.

31 account—state appropriation is provided solely as grants to nonprofit
32 lenders to create a revolving loan fund to support the widespread use
33 of proven energy efficiency and renewable energy technologies by
34 households, or for the benefit of households, with high energy burden
35 or environmental health risk now inhibited by lack of access to
36 capital.

37 (b) The department shall provide grant funds to one or more
38 competitively selected nonprofit lenders that must provide matching
39 private capital and administer the loan fund. The department shall
40 select the loan fund administrator or administrators through a

1 competitive process, with scoring conducted by a group of qualified
2 experts, applying criteria specified by the department.

3 (c) The department must establish guidelines that specify
4 applicant eligibility, the screening process, and evaluation and
5 selection criteria. The guidelines must be used by the nonprofit
6 lenders.

25 utilities that serve retail customers in the state, or state
26 agencies. Eligible parties may partner with other public and private
27 sector research organizations and businesses in applying for funding.
28 The department shall consult and coordinate with the Washington state
29 department of transportation on project selection and implementation.
30 The department shall also coordinate with other state agencies that
31 have other electrification programs, in order to determine to
32 optimally accomplish each agency's respective policy and program
33 goals.

34 (iii) Projects must be related to on-road end-uses and
35 nonmaritime off-road uses.

36 (iv) Eligible technologies for these projects include, but are
37 not limited to:

26 report recommendations and findings from the rural energy work group
27 to the office of financial management, the governor, and the

29 state rural clean energy investment.

30 (b) \$4,750,000 of the appropriation is provided solely for rural
31 clean energy innovation grants.

32 (i) The department must award at least 40 percent of the funding
33 to projects that enhance the viability of dairy digester bioenergy
34 projects through advanced resource recovery systems that produce
35 renewable natural gas and value-added biofertilizers, reduce
36 greenhouse gas emissions, and improve soil health and air and water
37 quality.

38 (ii) Grants may also be awarded to other clean energy innovation
39 projects in rural communities, including, but not limited to,
40 projects that enhance energy efficiency, demand response, energy

1 storage, renewable energy, beneficial electrification, resilience,
2 organic waste management, and biological carbon sequestration.

3 (iii) Grants may fund project predevelopment, research, and
4 development, pilot projects, strategic implementation, field trials,
5 and data dashboards and tools to inform rural project development.

6 (c) The department is encouraged to make 20 percent of the funds
7 under (b) of this subsection (14) to tribal governments, designated

15 reduce emissions of greenhouse gases by a minimum of 750,000 tons per
16 year, increase energy efficiency, and protect or create aluminum
17 manufacturing jobs located in Whatcom county. It is the intent of the
18 legislature that if the appropriation in this subsection is not spent
19 by June 30, 2025, the funding provided in this subsection shall not

27 solar manufacturer indicating the manufacturer's intent to develop
28 the site in central Washington by December 31, 2025, the funding

10 appropriation in this section is provided solely for grants for the
11 Washington State University energy extension community energy

22 department shall report the recommendations to the appropriate
23 committees of the legislature and the governor by November 1, 2022.
24 The recommendations must include strategies to:

25 (a) Recruit community energy efficiency program sponsors that are

27 state that have not received funding for low-income weatherization
28 programs, targeting hard to reach market segments;

29 (b) Leverage funding from community energy efficiency program
30 sponsors in an amount greater than or equal to the amount provided by
31 the state through the weatherization program;

32 (c) Ensure that community energy efficiency program utility

10 Expenditure of the amount in this subsection is contingent on the

5 (a) In addition to the definition of "first-time home buyer" in
6 RCW 43.185A.010, for the purposes of awarding homeownership projects
7 during the 2021-2023 fiscal biennium "first-time home buyer" also
8 includes:

28 awarded competitively.

29 (ii) The funds may be provided for major building improvements,
30 preservation, and system replacements, necessary for the existing
31 housing trust fund portfolio to maintain long-term viability. The
32 department must require a capital needs assessment be provided prior
33 to contract execution. Funds may not be used to add or expand the
34 capacity of the property.

35 (iii) To allocate preservation funds, the department must review
36 applications and evaluate projects based on the following criteria:

37 (A) The age of the property, with priority given to buildings
38 that are more than 15 years old;

1 (B) The population served, with priority given to projects with
2 at least 50 percent of the housing units being occupied by families

10 achieve the purpose of this program.

18 individual structures in the same location. Individual structures
19 must contain insulation, electricity, overhead lights, and heating.
20 Kitchens and bathrooms may be contained within the individual
21 structures or offered as a separate facility that is shared with the
22 community. When evaluating applications for this grant program, the
23 department must prioritize projects that demonstrate:

- 24 (i) The availability of land to locate the community;
- 25 (ii) A strong readiness to proceed to construction;
- 26 (iii) A longer term of commitment to maintain the community;
- 27 (iv) A commitment by the applicant to provide, directly or
28 through a formal partnership, case management and employment support
29 services to the tenants;
- 30 (v) Access to employment centers, health care providers, and

6 appropriation is provided solely for the following list of projects:

7	Habitat for Humanity (North Bend)	\$250,000
8	Manette Affordable Housing Project (Bremerton)	\$515,000
9	OlyCAP Port Townsend Affordable Housing and Child	
10	(Port Townsend)	\$412,000
11	Shelton Young Adult Transitional Housing (Shelton)	\$515,000
12	Willapa Center (Raymond)	\$1,805,000

13 (4) In evaluating projects in this section, the department must
14 give preference for applications based on some or all of the criteria
15 in RCW 43.185.070(5).

16 (5) The appropriations in this section are subject to the
17 following reporting requirements:

18 (a) By June 30, 2023, the department must report on its website
19 the following for every previous funding cycle: The number of
20 homeownership and multifamily rental projects funded by housing trust
21 fund moneys; the percentage of housing trust fund investments made to
22 homeownership and multifamily rental projects; and the total number
23 of households being served at up to 80 percent of the area median
24 income, up to 50 percent of the area median income, and up to 30
25 percent of the area median income, for both homeownership and
26 multifamily rental projects.

27 (b) Beginning December 1, 2021, and continuing annually, the
28 department must provide the legislature with a report of its final
29 cost data for each project under this section. Such cost data must,
30 at a minimum, include total development cost per unit for each
31 project completed within the past year, descriptive statistics such
32 as average and median per unit costs, regional cost variation, and
33 other costs that the department deems necessary to improve cost
34 controls and enhance understanding of development costs. The
35 department must coordinate with the housing finance commission to
36 identify relevant development costs data and ensure that the measures
37 are consistent across relevant agencies.

38 (6) \$100,000 of the state building construction account—state
39 appropriation is provided solely for the department of social and
40 health services to complete a study of the community-based housing

1 needs of adults with intellectual and developmental disabilities. The
2 department of social and health services shall collaborate with

8 adults with intellectual and developmental disabilities who are
9 facing housing insecurity;

10 (c) Make recommendations for how to increase the capacity of
11 developers to support increasing the supply of housing that meets the
12 needs of the intellectual and developmental disabilities population;
13 and

14 (d) Be submitted to the appropriate committees of the legislature
15 no later than December 1, 2022.

16 (7) The legislature finds that there are insufficient data
17 sources to identify adults with intellectual and developmental
18 disabilities facing housing insecurity in Washington state and that
19 the absence of reliable data limits the ability for the legislature
20 to make informed decisions that will improve the outcomes of these
21 individuals. The legislature further finds that reliable, current
22 information about the unmet housing needs of this population will
23 position Washington state to leverage community-based partnerships
24 and funding to establish greater housing choice and increased
25 community integration of individuals with intellectual and
26 developmental disabilities.

38 follows:

1 **FOR THE DEPARTMENT OF COMMERCE**

2 2021-23 Rapid Capital Housing Acquisition (40000222)

3 The appropriations in this section (~~(is)~~) are subject to the
4 following conditions and limitations:

5 (1) Except as provided in subsections (7) through (9) of this
6 section, the appropriations in this section (~~(is)~~) are provided
7 solely for the department to issue competitive financial assistance
8 to eligible organizations under RCW 43.185A.040 to acquire or rent
9 real property for a rapid conversion into enhanced emergency
10 shelters, permanent supportive housing, transitional housing,
11 permanent housing, youth housing, drop-in center, or shelter for
12 extremely low-income people, as well as individuals, families,
13 unaccompanied youth, and young people experiencing sheltered and
14 unsheltered homelessness. Amounts provided in this section may be
15 also used for renovation and building update costs associated with
16 establishment of the acquired or rented facilities. For youth
17 housing, drop-in centers, and shelter projects, renovation of
18 existing properties is an allowable activity. The department may only
19 approve funding for projects resulting in increased shelter or
20 housing capacity. Amounts provided in this section may not be used
21 for operating or maintenance costs associated with providing housing,
22 supportive services, or debt service.

23 (2) Funds may also be used for permanent financing for real
24 estate acquired using other short term acquisition sources. To expand
25 availability of permanent housing, financing of acquisition of
26 unoccupied multifamily housing is a priority. Funds must also be
27 provided specifically for the city of Seattle to move people
28 experiencing unsheltered homelessness into safe spaces, including,
29 but not limited to, tiny homes, hotels, enhanced emergency shelters,
30 or other rapid housing alternatives.

31 (3) While emphasizing the rapid deployment of the amounts
32 appropriated under this section to alleviate the immediate crisis of
33 homelessness throughout the state, the department shall establish
34 criteria for the issuance of the grants, which may include provisions
35 that require that capital improvements be held by the grantee for a
36 specified period of time appropriate to the amount of the grant,
37 during which time the property must be used for the express purpose
38 of the grant. If the grantee is found to be out of compliance with
39 provisions of the contract, the grantee shall repay to the state

1 general fund the principal amount of the grant plus interest
2 calculated at the rate of interest on state of Washington general
3 obligation bonds issued on the date most close in time to the date of
4 authorization of the grant. The criteria must include:

5 (a) The date upon which structural modifications or construction
6 would begin and the anticipated date of completion of the project;

7 (b) A detailed estimate of the costs associated with the
8 acquisition and any updates or improvements necessary to make the
9 property habitable for its intended use;

10 (c) A detailed estimate of the costs associated with opening the
11 beds or units; and

12 (d) A financial plan demonstrating the ability to maintain and
13 operate the property and support its intended tenants throughout the
14 end of the grant contract.

15 (4) The department must provide a progress report on its website
16 by December 1, 2022. The report must include:

17 (a) The total number of applications and amount of funding
18 requested; and

19 (b) A list and description of the projects approved for funding
20 including state funding, total project cost, services anticipated to
21 be provided, housing units, and anticipated completion date.

22 (5) The funding provided under this section is not subject to the
23 90-day application periods in RCW 43.185.070 or 43.185A.050. The
24 department of commerce shall dispense funds to the city of Seattle
25 and other qualifying applicants within 45 days of receipt of
26 documentation from the applicant for qualifying uses and execution of
27 any necessary contracts with the department in order to effect the
28 purpose of rapid deployment of funds under this section.

29 (6) If the department receives simultaneous applications for
30 funding under this program, proposals that reach the greatest public
31 benefit, as defined by the department, must be prioritized. For
32 purposes of this subsection (6), "greatest public benefit" must
33 include, but is not limited to:

34 (a) The greatest number of accommodations or increased shelter
35 capacity that will benefit extremely low-income people, as well as
36 individuals, families, and youth experiencing homelessness.

37 (b) Whether the project has federally funded rental assistance
38 tied to it;

1 (c) The scarcity of the affordable housing or shelter capacity
2 applied for compared to the number of available affordable housing
3 units or shelter capacity in the same geographic location; and

4 (d) The program's established funding priorities under RCW
5 43.185.070(5).

6 (7) \$900,000 of the state building construction account—state
7 appropriation in this section is provided solely for the public
8 building conversion pilot program. The pilot program must be
9 implemented in Grays Harbor county in collaboration with Community
10 House on Broadway, in partnership with CORE Health.

11 (a) The appropriation may be used only for costs related to
12 rehabilitation, retrofitting, and conversion of the publicly owned
13 building for use as housing for homeless persons.

14 (b) The appropriation may not be used for staffing or maintaining
15 buildings converted to housing for homeless persons. Costs for
16 staffing and maintenance must be borne by the county or the
17 contractor.

18 (c) In the contract for the pilot program, the department shall
19 include provisions that require that capital improvements be held by
20 the grantee for a specified period of time appropriate to the amount
21 of the grant and that facilities be used for the express purpose of
22 the grant. If the grantee is found to be out of compliance with
23 provisions of the contract, the grantee shall repay to the state
24 general fund the principal amount of the grant plus interest
25 calculated at the rate of interest on state of Washington general
26 obligation bonds issued most closely to the date of authorization of
27 the grant.

28 (d) The pilot program should help inform the development of a
29 public building conversion grant program to encourage counties to
30 convert unused, publicly owned buildings into housing for homeless
31 persons. The department must report to the office of financial
32 management and fiscal committees of the legislature by November 1,
33 2022, regarding the establishment of the pilot program and any
34 recommendations related to implementation of a public building
35 conversion grant program.

36 (8) \$17,800,000 of the state building construction account—state
37 appropriation is provided solely for the following list of projects:

38 \$5,000,000 for the Tacoma Housing Authority affordable housing
39 acquisition;

40 \$4,000,000 for the Keiro nursing home acquisition in Seattle;

1 \$1,500,000 for the Parkland/Spanaway homeless shelter;
 2 \$300,000 for the Concord apartments acquisition in Seattle;
 3 \$2,000,000 for the (~~Eastgate supportive~~) Illahee affordable
 4 housing in Bellevue; and
 5 \$5,000,000 for the City of Seattle for the acquisition of the
 6 Clay Apartments in partnership with a low-income housing provider.

7 (9) (a) (~~(\$7,903,000 of the coronavirus capital projects account—~~
 8 ~~federal)~~) \$6,565,000 of the coronavirus state fiscal recovery account
 9 —federal appropriation and \$1,338,000 of the state building
 10 construction account—state appropriation (~~is~~) are provided solely
 11 for the following list of youth housing projects identified by the
 12 office of homeless youth protection and prevention programs:

13 FYRE's Village: Housing Stability for Young Adults

14 (Omak)	\$3,350,000
15 NWYS Young Adult Shelter Services (Bellingham)	\$438,000

18 Shelton Young Adult Transitional Housing (Shelton)	\$773,000
19 Volunteers of America Crosswalk 2.0 (Spokane)	\$2,200,000

20 (b) If funding provided in (a) of this subsection needs to be
 21 reallocated, the department shall consult with the office of homeless
 22 youth prevention and protection programs to identify other eligible
 23 youth housing projects.

24 (10) The department must ensure compliance with conditions of the
 25 federal coronavirus state fiscal recovery fund. All expenditures from
 26 the coronavirus state fiscal recovery account—federal appropriation
 27 in this section must be obligated by December 31, 2024.

2 follows:

3 **FOR THE DEPARTMENT OF COMMERCE**

4 2022 Local & Community Projects (40000230)

5 The appropriation in this section is subject to the following
6 conditions and limitations:

7 (1) The department may not expend the appropriation in this
8 section unless and until the nonstate share of project costs have
9 been either expended or firmly committed, or both, in an amount
10 sufficient to complete the project or a distinct phase of the project
11 that is useable to the public for the purpose intended by the
12 legislature. This requirement does not apply to projects where a
13 share of the appropriation is for design costs only.

14 (2) Prior to receiving funds, project recipients must demonstrate
15 that the project site is under control for a minimum of 10 years,
16 either through ownership or a long-term lease. This requirement does
17 not apply to appropriations for preconstruction activities or
18 appropriations in which the sole purpose is to purchase real property
19 that does not include a construction or renovation component.

20 (3) Projects funded in this section may be required to comply
21 with Washington's high-performance building standards as required by
22 chapter 39.35D RCW.

23 (4) Project funds are available on a reimbursement basis only,
24 and may not be advanced under any circumstances.

25 (5) In contracts for grants authorized under this section, the
26 department must include provisions that require that capital
27 improvements be held by the grantee for a specified period of time
28 appropriate to the amount of the grant and that facilities be used
29 for the express purpose of the grant. If the grantee is found to be
30 out of compliance with provisions of the contract, the grantee shall
31 repay to the state general fund the principal amount of the grant
32 plus interest calculated at the rate of interest on state of
33 Washington general obligation bonds issued most closely to the date
34 of authorization of the grant.

35 (6) Projects funded in this section, including those that are

33 public right of way, or public spaces into safe and habitable spaces,
34 including, but not limited to, permanent housing, permanent
35 supportive housing, tiny homes, hotels, enhanced emergency shelters,
36 or other rapid housing alternatives. New construction of high-quality
37 low-income housing projects that are significantly less expensive to

1 construct than traditional housing, and that fits the federal funding
2 timeline is an eligible activity.

3 (b) \$100,000,000 of the apple health and homes account—state
4 appropriation in this section is provided solely for the rapid
5 permanent supportive housing program created under chapter (. . .),
6 Laws of 2022 (Engrossed Substitute House Bill No. 1866).

7 (c) When selecting projects, the department shall balance the
8 state's interest in quickly approving and financing projects, the
9 degree to which the project will leverage other funds, the extent to
10 which the project promotes racial equity, and the extent to which the
11 project will promote priorities on a statewide basis, including in
12 rural areas and in geographically diverse parts of the state.

13 (2) \$2,000,000 of the capital community assistance account—state
14 appropriation in this section is provided solely for the Woodley
15 Place by Bayside Housing and Services project in Port Hadlock.

16 (3) Amounts appropriated under this section may also be used for
17 permanent financing for real estate acquired using other short-term
18 acquisition sources. To expand availability of permanent housing,
19 financing of acquisition of unoccupied multifamily housing is a
20 priority.

21 (4) While emphasizing the rapid deployment of the amounts
22 appropriated under this section to alleviate the immediate crisis of
23 homelessness throughout the state, the department shall establish
24 criteria for the issuance of the funds using the best practices in
25 affordable housing such as those practiced by the housing trust fund
26 created in RCW 43.185.030, which may include provisions that require
27 that capital improvements be held by the recipient for a specified
28 period of time appropriate to the amount of the award, during which
29 time the property must be used for the express purpose of the award.
30 If the recipient is found to be out of compliance with provisions of
31 the contract, the recipient shall repay to the state general fund the
32 principal amount of the award plus interest calculated at the rate of
33 interest on state of Washington general obligation bonds issued on
34 the date most close in time to the date of authorization of the
35 award. The criteria must include:

36 (a) The date upon which the units can be placed in service and
37 occupied by the intended population, or the date any necessary
38 structural modifications would begin and the anticipated date of
39 completion of the project;

1 (b) A detailed estimate of the costs associated with the
2 acquisition and any updates or improvements necessary to make the
3 property habitable for its intended use;

4 (c) A detailed estimate of the costs associated with placing the
5 beds or units in service; and

6 (d) A financial plan demonstrating the ability to maintain and
7 operate the property and support its intended tenants throughout the
8 end of the contract.

9 (5) The department must provide a progress report on its website
10 by June 30, 2023. The report must include:

11 (a) The total number of applications and amount of funding
12 requested; and

13 (b) A list and description of the projects approved for funding
14 including state funding, total project cost, services anticipated to
15 be provided, housing units, and anticipated completion date.

16 (6) The funding provided under this section is not subject to the
17 90-day application periods in RCW 43.185.070 or 43.185A.050.

18 (7) The department shall prioritize proposals that reach the
19 greatest public benefit, as defined by the department. For purposes
20 of this subsection, "greatest public benefit" must include, but is
21 not limited to:

22 (a) The greatest number of accommodations or increased shelter
23 capacity that will benefit extremely low-income people, as well as
24 individuals, families, and youth experiencing homelessness;

25 (b) Whether the project has local funding commitments and rental
26 assistance;

27 (c) The scarcity of the affordable housing or shelter capacity
28 applied for compared to the number of available affordable housing
29 units or shelter capacity in the same geographic location; and

30 (d) The program's established funding priorities under RCW
31 43.185.070(5).

32 (8) The department must strive to allocate all of the amounts
33 appropriated in this section within the 2021-2023 fiscal biennium in
34 the manner prescribed in this section. However, if upon review of
35 applications the department determines there are not adequate
36 suitable projects in a category, the department may allocate funds to
37 projects serving other low-income and special needs populations,
38 provided those projects are located in an area with an identified
39 need for the type of housing proposed.

16 (6) The appropriations in this section are subject to the
17 following reporting requirements:

18 (a) By June 30, 2023, the department must report on its website

36 across relevant agencies.

37 (7) The department must strive to allocate all of the amounts

9 The appropriation in this section is subject to the following
10 conditions and limitations:

11 (1) The department may not expend the appropriation provided in
12 this section unless and until the nonstate share of project costs
13 have been either expended or firmly committed, or both, in an amount

34 **FOR THE DEPARTMENT OF COMMERCE**

1 Local & Community Projects 2016 (92000369)

2 The reappropriation in this section is subject to the following
3 conditions and limitations: The reappropriation is subject to the
4 provisions of section 6009, chapter 413, Laws of 2019. Section 6009,
5 chapter 298, Laws of 2019 is set forth in full below, except that new
6 language is added to subsection (7), which supersedes the
7 requirements of subsection (7) in section 6009, chapter 413, Laws of
8 2019.

9 (1) Except as directed otherwise prior to the effective date of
10 this section, the department may not expend the appropriation in this
11 section unless and until the nonstate share of project costs have
12 been either expended, or firmly committed, or both, in an amount
13 sufficient to complete the project or a distinct phase of the project
14 that is useable to the public for the purpose intended by the
15 legislature. This requirement does not apply to projects where a
16 share of the appropriation is released for design costs only.

17 (2) Prior to receiving funds, project recipients must demonstrate
18 that the project site is under control for a minimum of ten years,
19 either through ownership or a long-term lease. This requirement does
20 not apply to appropriations for preconstruction activities or
21 appropriations whose sole purpose is to purchase real property that
22 does not include a construction or renovation component.

23 (3) Projects funded in this section may be required to comply
24 with Washington's high performance building standards as required by
25 chapter 39.35D RCW.

26 (4) Project funds are available on a reimbursement basis only,
27 and shall not be advanced under any circumstances.

28 (5) Projects funded in this section must be held by the recipient
29 for a minimum of ten years and used for the same purpose or purposes
30 intended by the legislature as required in RCW 43.63A.125(6).

31 (6) Projects funded in this section, including those that are
32 owned and operated by nonprofit organizations, are generally required
33 to pay state prevailing wages.

34 (7) \$2,209,000 of the appropriation in this section is provided
35 solely for the Fairchild air force base protection and community
36 empowerment project, including the purchase of twenty acres of land
37 by Spokane county or the city of Airway Heights for development of
38 affordable housing, the purchase of mobile home parks or mobile homes
39 by Spokane county or the city of Airway Heights in order to reduce

1 the use of the accident potential zone for residential purposes, and
2 \$70,000 for a pilot project. The pilot project shall include payment
3 of moving costs and down payment or closing costs of up to \$7,000 for
4 10 individuals or families living in mobile homes located in the
5 accidental potential zone whose mobile homes are purchased and who
6 relocate to affordable housing constructed on the 20 acres of land
7 purchased by Spokane county or the city of Airway Heights through the
8 appropriation in this subsection. There shall be no limitations on
9 the sequence of the purchase of mobile home parks or mobile homes. If
10 Spokane county or the city of Airway Heights subsequently rezones,
11 develops, and leases the mobile home park property for commercial or
12 industrial uses contrary to the allowed uses in the accident
13 potential zone, Spokane county or the city of Airway Heights must
14 repay to the state the amount spent on the purchase of mobile home
15 parks in its entirety within ten years. Mobile home parks purchased
16 under the provisions of this subsection may be sold by Spokane county
17 or the city of Airway Heights, provided that the uses of the mobile
18 home park property are not contrary to the allowed uses in the
19 accident potential zone. Any moneys from this sale must be used to
20 purchase other mobile home parks or mobile homes in the Fairchild air
21 force base protection and community empowerment project. The twenty
22 acres of land purchased under this subsection for development as
23 affordable housing may be sold, in whole or in part, by the
24 recipient, provided the property sold is used for affordable housing
25 as required in the Fairchild air force base protection and community
26 empowerment project. Recipients of funds provided under this
27 subsection are not required to demonstrate that the project site is
28 under their control for a minimum of ten years but they must
29 demonstrate that the project site is under their control through
30 ownership or long-term lease. Projects funded under this subsection
31 are not required to meet the provisions of RCW 43.63A.125(6) and
32 subsection (5) of this section.

33 (8) \$850,000 of the appropriation in this section is provided
34 solely for the White River restoration project. Design solutions for
35 flooding reductions in the lower White River must include a
36 floodplain habitat design that both reduces flood risks and restores
37 salmon habitat by reconnecting the river with its floodplain and a
38 sustainable riparian corridor. Project designs and plans must also
39 identify lands for acquisition needed for floodplain reconnection
40 where pending or existing development eliminates the potential for

1 riparian and aquatic habitat restoration. The city shall work
2 cooperatively with the Muckleshoot Indian Tribe and the Puyallup
3 Tribe of Indians, and develop a plan collaboratively to achieve both
4 flood reduction and habitat restoration.

5 (9) Up to \$300,000 of the appropriation in this section for the
6 veterans helping veterans: Emergency transition shelter project may
7 be spent on preconstruction or preacquisition activities, including,
8 but not limited to, building inspections, design of necessary
9 renovations, cost estimation, and other activities necessary to
10 identify and select a facility appropriate for the program. The
11 remainder of the appropriation must be used for eventual acquisition
12 and renovations of a facility.

13 (10) \$2,500,000 of the appropriation in this section is provided
14 solely for the mercy housing and health care center at Sand Point.
15 During the 2015-2017 fiscal biennium, the center may not house any
16 community health care training organization that has been
17 investigated by and has paid settlement fees to the attorney
18 general's office for alleged medicaid fraud.

19 (11) The Lake Chelan land use plan must be developed without
20 adverse impacts on agricultural operations.

21 (12) \$1,300,000 of the appropriation in this section is provided
22 solely for phase one of the main street revitalization project in the
23 city of Mountlake Terrace.

24 (13) \$300,000 of the appropriation in this section is provided
25 solely for the city of Stanwood to acquire property for a new city
26 hall/public safety facility.

27 (14) Up to 30 percent of the funding for the Kennewick boys and
28 girls club may be used for land acquisition.

6 promote community and ecosystem resilience. Examples of innovative
7 project types that should be addressed by the program include water
8 reuse or reclaimed water systems, projects that integrate energy

37 follows:

1 (1) The department of enterprise services shall convene a
2 construction industry work group to recommend how to apply successful
3 carbon reduction strategies, incorporate necessary parameters of
4 design and construction considerations, and allow for efficient and
5 cost effective state construction projects. The work group must be
6 comprised of construction industry professionals as recommended by a
7 leading association on Washington business in design, specification,
8 construction, and material supply and construction professionals that
9 have successfully realized real and measurable results. The work
10 group must also include a representative from the department of
11 enterprise services, representatives from environmental groups, and
12 someone of applicable expertise from the Washington academy of
13 sciences.

14 (2) The work group shall identify and recommend carbon reduction
15 strategies and environmental product declaration principles to
16 successfully apply in state construction projects and:

17 (a) Clarify the definition of environmental product declaration
18 to ensure that environmental product declarations (EPD) are applied
19 properly, consistently, and as intended and provide a baseline of
20 understanding based on accepted metrics to obtain measurable results
21 for state construction projects;

22 (b) Suggest a pilot project or project review to apply
23 construction industry recommendations and create an education and
24 standards brief that accompanies the report required under subsection

31 material quantities using industry average environmental product
32 declarations.

33 (3) The work group shall provide their recommendations in a
34 report to the fiscal committees of the legislature by (~~January 1,~~

8 sustainability goals and reaffirms its determination that recyclable
9 construction aggregate and recycled concrete materials are too
10 valuable to be wasted and landfilled. The legislature further finds
11 that the reuse of construction aggregate and recycled concrete
12 materials into construction projects is known to:

13 (i) Reduce the need for consumption of new construction aggregate
14 materials and conserves existing aggregate resources;

15 (ii) Encourages reuse and recycling, reduces waste, and
16 discourages landfilling of readily available natural resources;

17 (iii) Reduces truck trips and related transportation emissions;
18 and

19 (iv) Reduces greenhouse gases related to the construction of
20 state funded construction projects, reduce embodied energy, and
21 improve and advance the sustainable principles and practices of
22 Washington state.

23 (b) These recyclable materials have well established markets, are
24 substantially a primary or secondary product of necessary
25 construction processes and production, as a commodity substantially
