NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and...
clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, the department of corrections, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction.
and federal funding guidance for projects that have cross-
organizational or enterprise impact, including information technology
projects that affect organizations within the coalition. The office
of the chief information officer shall maintain a statewide
perspective when collaborating with the coalition to ensure that
projects are planned for in a manner that ensures the efficient use
of state resources, support the adoption of a cohesive technology and
data architecture, and maximize federal financial participation. The
work of the coalition is subject to the conditions, limitations, and
review provided in section 701 of this act.

Upon the lapsing of any moneys under this subsection, the office of

(1) The authority shall submit an application to the centers for medicare and medicaid services to renew the 1115 demonstration waiver for an additional five years as described in subsections (2), (3), and (4) of this section. The authority may not accept or expend any federal funds received under an 1115 demonstration waiver except as described in this section unless the legislature has appropriated the federal funding. To ensure compliance with legislative requirements and terms and conditions of the waiver, the authority shall implement the renewal of the 1115 demonstration waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the renewal of the 1115 demonstration waiver as set forth in subsections (2), (3), and (4) of this section requires sound, consistent, timely, and transparent oversight and analytic review in addition to lack of redundancy with other established measures. The patient must be considered first and foremost in the implementation and execution of
the demonstration waiver. To accomplish these goals, the authority shall develop consistent performance measures that focus on population health and health outcomes. The authority shall limit the number of projects that accountable communities of health may participate in under initiative 1 to a maximum of six and shall seek to develop common performance measures when possible. The joint select committee on health care oversight will evaluate the measures chosen: (a) For effectiveness and appropriateness; and (b) to provide patients and health care providers with significant input into the implementation of the demonstration waiver to promote improved population health and patient health outcomes. In cooperation with the department of social and health services, the authority shall consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget to the joint select committee on health care oversight prior to submitting these waivers for federal approval. Prior to final approval or acceptance of funds by the authority, the authority shall submit the special terms and conditions as submitted to the centers for medicare and medicaid services and the anticipated budget for the duration of the renewed waiver to the governor, the joint select committee on health care, and the fiscal committees of the legislature. By federal standard any programs created or funded by this waiver do not create an entitlement. The demonstration period for the waiver as described in subsections (2), (3), and (4) of this section begins July 1, 2023.

(2)(a) $150,219,000 of the general fund—federal appropriation and $150,219,000 of the general fund—local appropriation are provided solely for accountable communities of health described in initiative 1 of the 1115 demonstration waiver and this is the maximum amount that may be expended for this purpose. In renewing this initiative, the authority shall consider local input regarding community needs and shall limit total local projects to no more than six. To provide transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not supplement the amounts provided in this subsection with any general fund—state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The
director shall report to the fiscal committees of the legislature all expenditures under this subsection and provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(b) $438,515,000 of the general fund—federal appropriation and $179,111,000 of the general fund—private/local appropriation are provided solely for the medicaid quality improvement program and this is the maximum amount that may be expended for this purpose. Medicaid quality improvement program payments do not count against the 1115 demonstration waiver spending limits and are excluded from the waiver's budget neutrality calculation. The authority may provide medicaid quality improvement program payments to apple health managed care organizations and their partnering providers as they meet designated milestones. Partnering providers and apple health managed care organizations must work together to achieve medicaid quality improvement program goals according to the performance period timelines and reporting deadlines as set forth by the authority. The authority may only use the medicaid quality improvement program to support initiatives 1, 2, and 3 as described in the 1115 demonstration waiver and may not pursue its use for other purposes. Any programs created or funded by the medicaid quality improvement program do not constitute an entitlement for clients or providers. The authority shall not supplement the amounts provided in this subsection with any general fund—state, general fund—federal, or general fund—local moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The director shall report to the joint select committee on health care oversight not less than quarterly on financial and health outcomes. The director shall report to the fiscal committees of the legislature all expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(c) In collaboration with the accountable communities of health, the authority will submit a report to the governor and the joint select committee on health care oversight describing how each of the accountable community of health's work aligns with the community needs assessment no later than December 1, 2023.

(d) Performance measures and payments for accountable communities of health shall reflect accountability measures that demonstrate
progress toward transparent, measurable, and meaningful goals that have an impact on improved population health and improved health outcomes, including a path to financial sustainability. While these goals may have variation to account for unique community demographics, measures should be standardized when possible.

(3) $115,713,000 of the general fund—federal appropriation and $115,725,000 of the general fund—local appropriation are provided solely for long-term support services as described in initiative 2 of the 1115 demonstration waiver as well as administrative expenses for initiative 3 and this is the maximum amount that may be expended for this purpose. The authority shall contract with and provide funding to the department of social and health services to administer initiative 2. The director in cooperation with the secretary of the department of social and health services shall report to the office of financial management all of the expenditures of this section and shall provide such fiscal data in the time, manner, and form requested. The authority shall not supplement the amounts provided in this subsection with any general fund—state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section.

(4)(a) $54,912,000 of the general fund—federal appropriation and $30,162,000 of the general fund—local appropriation are provided solely for supported housing and employment services described in initiative 3a and 3b of the 1115 demonstration waiver and this is the maximum amount that may be expended for this purpose. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third-party administrator. The authority and the department, in consultation with the medical assistance expenditure forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not supplement the amounts provided in this subsection with any general fund—state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the
expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(b) The authority and the department shall seek additional flexibilities for housing supports through the centers for medicare and medicaid services and shall coordinate with the office of financial management and the department of commerce to ensure that services are not duplicated.

(c) The director shall report to the joint select committee on health care oversight no less than quarterly on utilization and caseload statistics for both supportive housing and employment services and its progress toward increasing uptake and availability for these services.

(5) $1,432,000 of the general fund—state appropriation for fiscal year 2024 and $3,008,000 of the general fund—state appropriation for fiscal year 2025 are provided solely for supported employment services and $1,478,000 of the general fund—state appropriation for fiscal year 2024 and $3,162,000 of the general fund—state appropriation for fiscal year 2025 are provided solely for supported housing services, similar to the services described in initiatives 3a and 3b of the 1115 demonstration waiver to individuals who are ineligible for medicaid. Under these initiatives, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the authority or its third-party administrator. Before authorizing services, eligibility for initiative 3a or 3b of the 1115 demonstration waiver must first be determined.

(6) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(7) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical
utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(8) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(9) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(10) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(11) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(12) $4,176,000 of the general fund—state appropriation for fiscal year 2024, $4,261,000 of the general fund—state appropriation for fiscal year 2025, and $8,607,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(13) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(14) $7,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset
or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(15) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2023-2025 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2023, and by November 1, 2024, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2024 and fiscal year 2025, hospitals in the program shall be paid and shall retain 100 percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and 100 percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. For the purpose of determining the amount of any state grant under this subsection, payments will include the federal portion of medicaid program supplemental payments received by the hospitals. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital
in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2023-2025 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within 11 months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $237,000 of the general fund—state appropriation for fiscal year 2024 and $218,000 of the general fund—state appropriation for fiscal year 2025 are provided solely for state grants for the participating hospitals.

(16) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide ongoing support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(17) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a
preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(18) The authority shall submit reports to the governor and the legislature by September 15, 2023, and no later than September 15, 2024, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(19) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(20) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

(21) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(22) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.
(23) $90,000 of the general fund—state appropriation for fiscal
year 2024, $90,000 of the general fund—state appropriation for fiscal
year 2025, and $180,000 of the general fund—federal appropriation are
provided solely to continue operation by a nonprofit organization of
a toll-free hotline that assists families to learn about and enroll
in the apple health for kids program.

(24) Within the amounts appropriated in this section, the
authority shall reimburse for primary care services provided by
naturopathic physicians.

(25) Within the amounts appropriated in this section, the
authority shall continue to provide coverage for pregnant teens that
qualify under existing pregnancy medical programs, but whose
eligibility for pregnancy related services would otherwise end due to
the application of the new modified adjusted gross income eligibility
standard.

(26) Sufficient amounts are appropriated in this section to
remove the mental health visit limit and to provide the shingles
vaccine and screening, brief intervention, and referral to treatment
benefits that are available in the medicaid alternative benefit plan
in the classic medicaid benefit plan.

(27) The authority shall use revenue appropriated from the
dedicated cannabis account for contracts with community health
centers under RCW 69.50.540 in lieu of general fund—state payments to
community health centers for services provided to medical assistance
clients, and it is the intent of the legislature that this policy
will be continued in subsequent fiscal biennia.

(28) Beginning no later than July 1, 2018, for any service
eligible under the medicaid state plan for encounter payments,
managed care organizations at the request of a rural health clinic
shall pay the full published encounter rate directly to the clinic.
At no time will a managed care organization be at risk for or have
any right to the supplemental portion of the claim. Payments will be
reconciled on at least an annual basis between the managed care
organization and the authority, with final review and approval by the
authority.

(29) Sufficient amounts are appropriated in this section for the
authority to provide a medicaid equivalent adult dental benefit to
clients enrolled in the medical care service program.
(30) During the 2023-2025 fiscal biennium, sufficient amounts are provided in this section for the authority to provide services identical to those services covered by the Washington state family planning waiver program as of August 2018 to individuals who:

(a) Are 19 years of age;
(b) Are at or below 260 percent of the federal poverty level as established in WAC 182-505-0100;
(c) Are not covered by other public or private insurance; and
(d) Need family planning services and are not currently covered by or eligible for another medical assistance program for family planning.

(31) Sufficient amounts are appropriated within this section for the authority to incorporate the expected outcomes and criteria to measure the performance of managed care organizations that provide services to clients under chapter 74.09 RCW. The authority must:

(a) Contract with an external quality improvement organization to annually analyze the performance of managed care organizations providing services to clients under chapter 74.09 RCW based on seven performance measures. The analysis required under this subsection must:

(i) Measure managed care performance in four common measures across each managed care organization, including:

(A) At least one common measure that must be weighted towards having the potential to impact managed care costs; and
(B) At least one common measure that must be weighted towards population health management, as defined by the measure; and

(ii) Measure managed care performance in an additional three quality focus performance measures specific to a managed care organization. Quality focus performance measures chosen by the authority must:

(A) Be chosen from the statewide common measure set;
(B) Reflect specific measures where a managed care organization has poor performance; and
(C) Be substantive and clinically meaningful in promoting health status.

(b) The authority shall set the four common measures to be analyzed across all managed care organizations.

(c) The authority shall set three quality focus performance measures specific to each managed care organization. The authority must determine performance measures for each managed care
organization based on the criteria established in (a)(ii) of this subsection.

(d) By September 15, 2023, and annually thereafter, the authority shall notify each managed care organization of the performance measures for the organization for the subsequent plan year.

(e) Two percent of the total plan year funding provided to each managed care organization that provides services to clients under chapter 70.320 RCW shall be withheld. At least 75 percent of the withhold shall be held contingent on each managed care organization's performance on the seven performance measures identified in this subsection. Each managed care organization may earn back the annual withhold if the external quality improvement organization finds that the managed care organization:

(i) Made statistically significant improvement in the seven performance measures as compared to the preceding plan year; or

(ii) Scored in the top national medicaid quartile of the performance measures.

(f) The amount of withhold annually paid to each managed care organization shall be proportional to findings of statistically significant improvement or top national medicaid quartile scoring by a managed care organization.

(g) For no more than two of the four quality focus performance measures, the authority may use an alternate methodology to approximate top national medicaid quartile performance where top quartile performance data is unavailable.

(h) For the purposes of this subsection, "external quality improvement organization" means an organization that meets the competence and independence requirements under 42 C.F.R. Sec. 438.354, as it existed on the effective date of this section.

(i) By September 15, 2023, the authority, in collaboration with the medical assistance expenditure forecast work group, shall develop new performance measures for the 2025 plan year. Quality focus performance measures chosen by the authority must, at a minimum:

(A) Be chosen from the statewide common measure set;

(B) Reflect specific measures where a managed care organization has poor performance;

(C) Be substantive and clinically meaningful in promoting health status;

(D) Include ways to improve behavioral health reporting;

(E) Be selected with consideration to health equity;
(F) Ensure that measures that have an impact on funding have a direct relationship to the funding plans receive; and

(G) Include participation from the authority's actuary to ensure that the measures and methods chosen meet required tests for actuarial soundness.

(j) By October 15, 2023, the authority shall provide a report to the governor and fiscal committees of the legislature outlining the measures it has chosen for the 2025 plan year, including the information outlined in (i) of this subsection.

(32)(a) The authority shall ensure that appropriate resources are dedicated to implementing the recommendations of the centers for medicare and medicaid services center for program integrity as provided to the authority in the January 2019 Washington focused program integrity review final report. Additionally, the authority shall:

(i) Work to ensure the efficient operations of the managed care plans, including but not limited to, a deconflicting process for audits with and among the managed care plans and the medicaid fraud division at the attorney general's office, to ensure the authority staff perform central audits of cases that appear across multiple managed care plans, versus the audits performed by the individual managed care plans or the fraud division;

(ii) Remain accountable for operating in an effective and efficient manner, including performing program integrity activities that ensure high value in the medical assistance program in general and in medicaid managed care specifically;

(iii) Work with its contracted actuary and the medical assistance expenditure forecast work group to develop methods and metrics related to managed care program integrity activity that shall be incorporated into annual rate setting; and

(iv) Work with the medical assistance expenditure forecast work group to ensure the results of program integrity activity are incorporated into the rate setting process in a transparent, timely, measurable, quantifiable manner.

(b) $50,000 of the general fund—state appropriation for fiscal year 2024, $50,000 of the general fund—state appropriation for fiscal year 2025, and $100,000 of the general fund—federal appropriation are provided solely for the authority to consider, as part of its program integrity activities, whether it is providing economical, efficient,

The authority may allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (7) of this section. authority to contract with medicaid managed care organizations for
wraparound services to medicaid enrolled individuals that are not
covered under the medicaid program. Within the amounts provided in
this subsection:

(i) Medicaid managed care organizations must provide a 15 percent
rate increase to providers receiving state funding for nonmedicaid
services under this section effective January 1, 2024.

(ii) The authority shall assure that managed care organizations
reimburse the department of social and health services, aging and
long-term support administration for the general fund—state cost of
exceptional behavioral health personal care services for medicaid
enrolled individuals who require these because of a psychiatric
disability. Funding for the federal share of these services is
separately appropriated to the department of social and health
services.

(iii) Pursuant to RCW 41.56.029, during fiscal year 2024, the
authority may work with the office of financial management to
negotiate a tiered rate structure for behavioral health personal care

state plan home and community-based services benefit. The application
shall be developed to allow for the delivery of wraparound supportive
behavioral health services for individuals with mental illnesses who

developed to standardize coverage and administration, improve the
current benefit design, and clarify roles in administration of the
behavioral health personal care services benefit.

(8) The authority is authorized to continue to contract directly,
rather than through contracts with behavioral health entities for

(10) Behavioral health entities may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (7) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(11) $2,291,000 of the general fund—state appropriation for fiscal year 2024 and $2,291,000 of the general fund—state appropriation for fiscal year 2025 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must collect information from the behavioral health entities on their plan for using these funds, the numbers of individuals served, and the types of services provided.

(12) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in T.R. v. Dreyfus and Porter.

(13) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health administrative service organization contracts and include contract language that clearly states the requirements and limitations. The reserve levels must be informed by the types of risk carried by behavioral health administrative service organizations for mandatory services and also consider reasonable levels of operating reserves. The authority must monitor and ensure that behavioral health administrative service organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health administrative service organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its...
reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health administrative service organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan. The authority must submit to the office of financial management and the appropriate committees of the legislature, each December of the biennium, the minimum and maximum reserve levels established in contract for each of the behavioral health administrative service organizations for the prior fiscal year and the actual reserve levels reported at the end of the fiscal year.

(14) During the 2023-2025 fiscal biennium, any amounts provided in this section that are used for case management services for pregnant and parenting women must be contracted directly between the authority and pregnant and parenting women case management providers.

(16) Within the amounts appropriated in this section, the authority may contract with the University of Washington and community-based providers for the provision of the parent-child assistance program or other specialized chemical dependency case management providers for pregnant, postpartum, and parenting women. For all contractors: (a) Service and other outcome data must be provided to the authority by request; and (b) indirect charges for administering the program must not exceed 10 percent of the total contract amount.

(17) Within the amounts provided in this section, behavioral health entities must provide outpatient chemical dependency treatment for offenders enrolled in the medicaid program who are supervised by the department of corrections pursuant to a term of community supervision. Contracts with behavioral health entities must require that behavioral health entities include in their provider network specialized expertise in the provision of manualized, evidence-based chemical dependency treatment services for offenders. The department
of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

(18) The criminal justice treatment account—state appropriation is provided solely for treatment and treatment support services for offenders with a substance use disorder pursuant to RCW 71.24.580. The authority must offer counties the option to administer their share of the distributions provided for under RCW 71.24.580(5)(a). If a county is not interested in administering the funds, the authority shall contract with behavioral health entities to administer these funds consistent with the plans approved by local panels pursuant to RCW 71.24.580(5)(b). Funding from the criminal justice treatment account may be used to provide treatment and support services through the conclusion of an individual's treatment plan to individuals participating in a drug court program as of February 24, 2021, if that individual wishes to continue treatment following dismissal of charges they were facing under RCW 69.50.4013(1). Such participation is voluntary and contingent upon substantial compliance with drug court program requirements. The authority must provide a report to the office of financial management and the appropriate committees of the legislature that identifies the distribution of criminal justice treatment account funds by September 30, 2023.

(19)(a) $11,426,000 of the general fund—state appropriation for fiscal year 2024, $15,501,000 of the general fund—state appropriation for fiscal year 2025, and $21,554,000 of the general fund—federal appropriation are provided solely for crisis triage facilities, crisis relief centers, or crisis stabilization units. Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support, medication management, education, and referral assistance. The authority shall monitor each center's effectiveness at lowering the rate of state psychiatric hospital admissions.
(b) Within these amounts, the health care authority shall convene representatives from medicaid managed care organizations, behavioral health administrative organizations, private insurance carriers, self-insured organizations, crisis providers, and the office of the insurance commissioner to assess gaps in the current funding model for crisis services and recommend options for addressing these gaps including, but not limited to, an alternative funding model for crisis services. When the office of the chief information officer certifies the key deliverables of the gate have been met, a current technology budget is approved; and if applicable to the stage or gate of the project, that the project is putting functioning software into production that addresses user needs, is in compliance with the quality assurance plan, and meets a defined set of industry best practices for code quality that the office of the chief information officer will post to their website by July 1, 2023, it must notify the office of financial management and the fiscal committees of the legislature. (iv) Object and subobject codes of expenditures;

(v) Anticipated deliverables to include software demonstration dates;

(vi) Historical budget and expenditure detail by fiscal year; and

(5)(a) Each project must have a project charter. The charter must include:

(i) An organizational chart of the project management team that identifies team members and their roles and responsibilities, and shows that the project is adequately staffed by state personnel in key functions to ensure success;

(v) An implementation schedule covering activities, critical milestones, and deliverables at each stage of the project for the life of the project at each agency affected by the project;

(vi) Performance measures used to determine that the project is on time, within budget, and meeting expectations for quality of work product;

(vii) Ongoing maintenance and operations cost of the project post implementation and close out delineated by agency staffing, contracted staffing, and service level agreements; and

(viii) Financial budget coding to include at least discrete financial coding for the project.

(b) If required by the office of the chief information officer, a project may also need to have an investment plan. The office of the chief information officer must:

(i) Base the requirement of an agency needing to have an investment plan on the complexity and risk of the project;

(ii) Establish requirements by project risk level in statewide technology policy, and publish the requirements by September 30, 2023; and

(iii) In collaboration with the department of enterprise services, define the circumstances under which the vendor will be terminated or replaced and establish the process by which the agency will transition to a new vendor with a minimal reduction in project productivity.

(6)(a) Projects with estimated costs greater than $100,000,000 from initiation to completion and implementation may be divided into discrete subprojects as determined by the office of the chief information officer, except for the one Washington project which must be divided into the following discrete subprojects: Core financials, expanding financials and procurement, budget, and human resources. Each subproject must have a technology budget as provided in this section.

(b) If the project affects more than one agency:

(i) A separate technology budget and investment plan must be prepared by each agency; and

(ii) There must be a budget roll up that includes each affected agency at the subproject level.

(7) The office of the chief information officer shall maintain a statewide information technology project dashboard that provides updated information each fiscal month on projects subject to this
section. The statewide dashboard must meet the requirements in
section 155 of this act.

(8) For any project that exceeds $2,000,000 in total funds to
complete, requires more than one biennium to complete, or is financed
through financial contracts, bonds, or other indebtedness:

(a) Independent quality assurance services for the project must
report independently to the office of the chief information officer;

(b) The office of the chief information officer, based on project
risk assessments, may require additional quality assurance services
and independent verification and validation services;

(c) The office of the chief information officer must review, and, if
necessary, revise the proposed project to ensure it is flexible
and adaptable to advances in technology;

(d) The technology budget must specifically identify the uses of
any financing proceeds. No more than thirty percent of the financing
proceeds may be used for payroll-related costs for state employees
assigned to project management, installation, testing, or training;

(e) The agency must consult with the office of the state
treasurer during the competitive procurement process to evaluate
early in the process whether products and services to be solicited
and the responsive bids from a solicitation may be financed;

(f) The agency must consult with the contracting division of the
department of enterprise services for a review of all contracts and
agreements related to the project's information technology
procurements;

(g) The agency and project must use an agile development model
holding live demonstrations of functioning software, developed using
incremental user research, held at the end of every two-week sprint;

(h) The project solution must be capable of being continually
updated, as necessary; and

(i) The agency and project must deploy usable functionality into
production for users within 180 days from the date of an executed
procurement contract in response to a competitive request for
proposal.

(9) The office of the chief information officer must evaluate the
project at each stage and certify whether the project is putting
functioning software into production that addresses user needs, is
projected to be completed within budget, is in compliance with the
quality assurance plan, and meets a defined set of industry best
practices for code quality, and whether the project is planned,
managed, and meeting deliverable targets as defined in the project's approved technology budget and investment plan.

(10) The office of the chief information officer may suspend or terminate a project at any time if it determines that the project is not meeting or not expected to meet anticipated performance and technology outcomes. Once suspension or termination occurs, the agency shall unallot any unused funding and shall not make any expenditure for the project without the approval of the office of financial management. The office of the chief information officer must report on December 1 each calendar year any suspension or termination of a project in the previous 12-month period to the legislative fiscal committees.

(11) The office of the chief information officer, in consultation with the office of financial management, may identify additional projects to be subject to this section, including projects that are not separately identified within an agency budget. The office of the chief information officer must report on December 1 each calendar year any additional projects to be subjected to this section that were identified in the previous 12-month period to the legislative fiscal committees.

(12) Any cost to administer or implement this section for projects listed in subsection (1) of this section, must be paid from the information technology investment revolving account. For any other information technology project made subject to the conditions, limitations, and review of this section, the cost to implement this section must be paid from the funds for that project.

(13) The following information technology projects are subject to the conditions, limitations, and review of this section:

(a) The state network firewall replacement of the consolidated technology services agency;
(b) The resident portal of the consolidated technology services agency; and

The appropriations in this section are subject to the following conditions and limitations:
In response to the COVID-19 pandemic, Washington state agencies rapidly implemented telework for employees whose job duties did not require on-site presence. This shift in state government operations has led to agencies' reevaluation of the amount of physical office space they will require as they implement hybrid work environments and adopt expanded telework opportunities. The appropriations in this section reflect adjustments in agency appropriations related to office space reductions to be achieved from hybrid work, telework, and the strategy provided in this section. The office of financial management shall adjust allotments in the amounts specified, and to the state agencies specified, in LEAP omnibus document LSSV-2023, dated April 22, 2023, and adjust appropriation schedules accordingly.

To meet the goal of efficient use of state funds and office space, state agencies, institutions of higher education, and separately elected officials must adhere to the office of financial management's statewide space use policy, data integrity and system access policy, inventory policy, and the human resource management system data validation guide to ensure space use data is complete, accurate, and consistent for reporting and analysis.

State agencies, institutions of higher education, and separately elected officials with leases expiring in fiscal years 2024 and 2025 must work toward reducing leased office space a minimum of 20 percent upon lease renewal or when requesting office relocation. Reductions in lease costs will be reflected in subsequent budgets.

It is the intent of the legislature that state agencies, institutions of higher education, and separately elected officials with leases expiring in fiscal years 2026 and 2027 work to reduce their office space portfolio a minimum of 30 percent upon lease renewal or when requesting office relocation. The reductions in costs will be reflected in subsequent budgets.

State agencies must:

(a) Work with the office of financial management's facilities oversight and planning program and the department of enterprise services to backfill office space and reduce full leases;

(b) Update monthly the office of financial management's facilities portfolio management tool to maximize collocation opportunities and better inform decision making;
(c) Update telework and employee location data monthly in the human resource management system to reflect office space use and needs; and

(d) Maintain a telework policy in accordance with executive order 16-07, building a modern work environment.

(6) The anticipated general fund savings from reduced office space need is $13,759,000 during the 2025-2027 fiscal biennium.

(7) The office of financial management, working collaboratively with the department of enterprise services, must report to the fiscal and appropriate policy committees of the legislature with comparative analysis on the total estimated office space use savings by fiscal year for all impacted state agencies, institutions of higher education, and separately elected offices compared to the actual realized savings achieved by fiscal year. The report must be submitted each January 1st, beginning January 1, 2024, for the prior fiscal year. In addition to this high-level reporting requirement, the office must also report on each lease that was set to expire in the prior fiscal year, starting with fiscal year 2023, to provide actual detail for each lease by impacted state agency, institution of higher education, and separately elected office. The detail must include:

(a) Detail on the lease expiring to include the unique facility identification, the lease number, the address, the total square feet leased, the terms of the lease to include price per square foot, whether the lease is full service or not and what services are included in the rate, and how many workstations and offices will be available;

(b) Detail on the new lease, if applicable, to include the unique facility identification, the lease number, the address, the total square feet leased, the terms of the lease to include price per square foot, whether the lease is full service or not and what is included in the rate, and how many workstations and offices will be available;

(c) The estimated relocation costs for moving furniture and people to the new location;

(d) The estimated cost for new furniture and why existing furniture was not utilized;

(e) If tenant improvement costs are being paid for as one-time costs in the new location, what improvements are being made and at what cost;

Code Rev/KS:1el 637 H-2006.4/23 4th draft
If tenant improvement costs are not being paid for as one-time costs in the new location, whether the costs for the tenant improvements are built into the new lease price per square foot and if so the estimated cost added to the base price per square feet; 

(g) The triple net lease detail, if applicable, for the new space; and

(h) The net fiscal impact to the agency of the new lease and any additional one-time or ongoing new costs, compared to the lease that is expiring.

(b) Projects or activities funded from the account must meet high labor standards, including family sustaining wages, providing benefits including health care and employer-contributed retirement plans, career development opportunities, and maximize access to economic benefits from such projects for local workers and diverse businesses. Each contracting entity's proposal must be reviewed for equity and opportunity improvement efforts, including: (i) Employer paid sick leave programs; (ii) pay practices in relation to living wage indicators such as the federal poverty level; (iii) efforts to evaluate pay equity based on gender identity, race, and other protected status under Washington law; (iv) facilitating career development opportunities, such as apprenticeship programs, internships, job-shadowing, and on-the-job training; and (v) employment assistance and employment barriers for justice affected individuals.

(2) Moneys in the account may be used only for projects and programs that achieve the purposes of the greenhouse gas emissions cap and invest program established under this chapter and for tribal capacity grants under RCW 70A.65.305. Moneys in the account as described in this subsection must first be appropriated for the administration of the requirements of this chapter, in an amount not to exceed five percent of the total receipt of funds from allowance auction proceeds under this chapter. Beginning July 1, 2024, and annually thereafter, the state treasurer shall distribute funds in the account that exceed the amounts appropriated for the purposes of this subsection (2) as follows:
(a) Seventy-five percent of the moneys to the climate commitment account created in RCW 70A.65.260; and

Sec. 941. RCW 71.24.580 and 2022 c 297 s 964 and 2022 c 157 s 18 are each reenacted and amended to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be expended solely for: (a) Substance use disorder treatment and treatment support services for offenders with a substance use disorder that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of substance use disorder treatment services and treatment support services for nonviolent offenders within a drug court program and, during the 2021-2023 and 2023-2025 fiscal biennia, for 180 days following graduation from the drug court program; and (c) the administrative and overhead costs associated with the operation of a drug court. Amounts provided in this subsection must be used for treatment and recovery support services for criminally involved offenders and authorization of these services shall not be subject to determinations of medical necessity. During the 2019-2021 and 2021-2023 fiscal biennia, funding from the criminal justice treatment account may be used to provide treatment and support services through the conclusion of an individual's treatment plan to individuals participating in a drug court program as of February 24, 2021, if that individual wishes to continue treatment following dismissal of...
charges they were facing under RCW 69.50.4013(1). Such participation is voluntary and contingent upon substantial compliance with drug court program requirements. The legislature may appropriate from the account for municipal drug courts and increased treatment options. During the 2019-2021 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the home security fund account created in RCW 43.185C.060. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:
   (a) "Treatment" means services that are critical to a participant's successful completion of his or her substance use disorder treatment program, including but not limited to the recovery support and other programmatic elements outlined in RCW 2.30.030 authorizing therapeutic courts; and
   (b) "Treatment support" includes transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant's ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(4)(a) For the fiscal year beginning July 1, 2005, and each subsequent fiscal year, the state treasurer shall transfer eight million two hundred fifty thousand dollars from the general fund to the criminal justice treatment account, divided into four equal quarterly payments. For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.
   (b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the department for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the authority from the criminal justice treatment account shall be distributed as specified in this subsection. The authority may retain up to three percent of the amount appropriated under subsection (4)(b) of this section for its administrative costs.
(a) Seventy percent of amounts appropriated to the authority from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The authority, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the authority to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the authority from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The authority shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, and substance use disorder treatment providers. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The submitted plan should incorporate current evidence-based practices in substance use disorder treatment. The funds shall be
used solely to provide approved alcohol and substance use disorder treatment pursuant to RCW 71.24.560 and treatment support services. No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) If a region or county uses criminal justice treatment account funds to support a therapeutic court, the therapeutic court must allow the use of all medications approved by the federal food and drug administration for the treatment of opioid use disorder as deemed medically appropriate for a participant by a medical professional. If appropriate medication-assisted treatment resources are not available or accessible within the jurisdiction, the health care authority's designee for assistance must assist the court with acquiring the resource.

(10) Counties must meet the criteria established in RCW 2.30.030(3).

(11) The authority shall annually review and monitor the expenditures made by any county or group of counties that receives appropriated funds distributed under this section. Counties shall repay any funds that are not spent in accordance with the requirements of its contract with the authority.

Sec. 942. RCW 74.46.561 and 2023 c ... s 1903 (section 1903 of this act) are each amended to read as follows:

(1) The legislature adopts a new system for establishing nursing home payment rates beginning July 1, 2016. Any payments to nursing homes for services provided after June 30, 2016, must be based on the new system. The new system must be designed in such a manner as to decrease administrative complexity associated with the payment methodology, reward nursing homes providing care for high acuity residents, incentivize quality care for residents of nursing homes, and establish minimum staffing standards for direct care.
The new system must be based primarily on industry-wide costs, and have three main components: Direct care, indirect care, and capital.

(3)(a) The direct care component must include the direct care and therapy care components of the previous system, along with food, laundry, and dietary services. Except as provided in (b) of this subsection, direct care must be paid at a fixed rate, based on one hundred percent or greater of statewide case mix neutral median costs, but shall be capped so that a nursing home provider's direct care rate does not exceed 118 percent of its base year's direct care allowable costs except if the provider is below the minimum staffing standard established in RCW 74.42.360(2). (The legislature intends to remove the cap on direct care rates by June 30, 2027.) Direct care must be performance-adjusted for acuity every six months, using case mix principles. Direct care must be regionally adjusted using countywide wage index information available through the United States department of labor's bureau of labor statistics. There is no minimum occupancy for direct care. The direct care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(b) Unless a nursing home provider is below the minimum staffing standard established in RCW 74.42.360(2), a provider's direct care rate relative to its base year's direct care allowable costs must be capped as follows:

(i) For fiscal year 2023, the cap must not exceed 165 percent;
(ii) For fiscal year 2024, the cap must not exceed 153 percent; and
(iii) For fiscal year 2025, the cap must not exceed 142 percent.

(4)(a) The indirect care component must include the elements of administrative expenses, maintenance costs, and housekeeping services from the previous system. Except as provided in (b) of this subsection, a minimum occupancy assumption of ninety percent must be applied to indirect care. Indirect care must be paid at a fixed rate, based on ninety percent or greater of statewide median costs. The indirect care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(b) A minimum occupancy assumption must be applied to indirect care as follows:

(i) For fiscal year 2023, the assumption must be 75 percent.
(ii) For fiscal year 2024, the assumption must be 80 percent; and
(iii) For fiscal year 2025, the assumption must be 80 percent.

(5) The capital component must use a fair market rental system to set a price per bed. The capital component must be adjusted for the age of the facility, and must use a minimum occupancy assumption of ninety percent.

(a) Beginning July 1, 2016, the fair rental rate allocation for each facility must be determined by multiplying the allowable nursing home square footage in (c) of this subsection by the RSMeans rental rate in (d) of this subsection and by the number of licensed beds yielding the gross unadjusted building value. An equipment allowance of ten percent must be added to the unadjusted building value. The sum of the unadjusted building value and equipment allowance must then be reduced by the average age of the facility as determined by (e) of this subsection using a depreciation rate of one and one-half percent. The depreciated building and equipment plus land valued at ten percent of the gross unadjusted building value before depreciation must then be multiplied by the rental rate at seven and one-half percent to yield an allowable fair rental value for the land, building, and equipment.

(b) The fair rental value determined in (a) of this subsection must be divided by the greater of the actual total facility census from the prior full calendar year or imputed census based on the number of licensed beds at ninety percent occupancy.

(c) For the rate year beginning July 1, 2016, all facilities must be reimbursed using four hundred square feet. For the rate year beginning July 1, 2017, allowable nursing facility square footage must be determined using the total nursing facility square footage as reported on the medicaid cost reports submitted to the department in compliance with this chapter. The maximum allowable square feet per bed may not exceed four hundred fifty.

(d) Each facility must be paid at eighty-three percent or greater of the median nursing facility RSMeans construction index value per square foot. The department may use updated RSMeans construction index information when more recent square footage data becomes available. The statewide value per square foot must be indexed based on facility zip code by multiplying the statewide value per square foot times the appropriate zip code based index. For the purpose of implementing this section, the value per square foot effective July 1, 2016, must be set so that the weighted average fair rental value
rate is not less than ten dollars and eighty cents per patient day. The capital component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(e) The average age is the actual facility age reduced for significant renovations. Significant renovations are defined as those renovations that exceed two thousand dollars per bed in a calendar year as reported on the annual cost report submitted in accordance with this chapter. For the rate beginning July 1, 2016, the department shall use renovation data back to 1994 as submitted on facility cost reports. Beginning July 1, 2016, facility ages must be reduced in future years if the value of the renovation completed in any year exceeds two thousand dollars times the number of licensed beds. The cost of the renovation must be divided by the accumulated depreciation per bed in the year of the renovation to determine the equivalent number of new replacement beds. The new age for the facility is a weighted average with the replacement bed equivalents reflecting an age of zero and the existing licensed beds, minus the new bed equivalents, reflecting their age in the year of the renovation. At no time may the depreciated age be less than zero or greater than forty-four years.

(f) A nursing facility's capital component rate allocation must be rebased annually, effective July 1, 2016, in accordance with this section and this chapter.

(g) For the purposes of this subsection (5), "RSMeans" means building construction costs data as published by Gordian.

(6) A quality incentive must be offered as a rate enhancement beginning July 1, 2016.

(a) An enhancement no larger than five percent and no less than one percent of the statewide average daily rate must be paid to facilities that meet or exceed the standard established for the quality incentive. All providers must have the opportunity to earn the full quality incentive payment.

(b) The quality incentive component must be determined by calculating an overall facility quality score composed of four to six quality measures. For fiscal year 2017 there shall be four quality measures, and for fiscal year 2018 there shall be six quality measures. Initially, the quality incentive component must be based on minimum data set quality measures for the percentage of long-stay residents who self-report moderate to severe pain, the percentage of...
high-risk long-stay residents with pressure ulcers, the percentage of long-stay residents experiencing one or more falls with major injury, and the percentage of long-stay residents with a urinary tract infection. Quality measures must be reviewed on an annual basis by a stakeholder work group established by the department. Upon review, quality measures may be added or changed. The department may risk adjust individual quality measures as it deems appropriate.

(c) The facility quality score must be point based, using at a minimum the facility's most recent available three-quarter average centers for medicare and medicaid services quality data. Point thresholds for each quality measure must be established using the corresponding statistical values for the quality measure point determinants of eighty quality measure points, sixty quality measure points, forty quality measure points, and twenty quality measure points, identified in the most recent available five-star quality rating system technical user's guide published by the centers for medicare and medicaid services.

(d) Facilities meeting or exceeding the highest performance threshold (top level) for a quality measure receive twenty-five points. Facilities meeting the second highest performance threshold receive twenty points. Facilities meeting the third level of performance threshold receive fifteen points. Facilities in the bottom performance threshold level receive no points. Points from all quality measures must then be summed into a single aggregate quality score for each facility.

(e) Facilities receiving an aggregate quality score of eighty percent of the overall available total score or higher must be placed in the highest tier (tier V), facilities receiving an aggregate score of between seventy and seventy-nine percent of the overall available total score must be placed in the second highest tier (tier IV), facilities receiving an aggregate score of between sixty and sixty-nine percent of the overall available total score must be placed in the third highest tier (tier III), facilities receiving an aggregate score of between fifty and fifty-nine percent of the overall available total score must be placed in the fourth highest tier (tier II), and facilities receiving less than fifty percent of the overall available total score must be placed in the lowest tier (tier I).

(f) The tier system must be used to determine the amount of each facility's per patient day quality incentive component. The per patient day quality incentive component for tier IV is seventy-five
percent of the per patient day quality incentive component for tier V, the per patient day quality incentive component for tier III is fifty percent of the per patient day quality incentive component for tier V, and the per patient day quality incentive component for tier II is twenty-five percent of the per patient day quality incentive component for tier V. Facilities in tier I receive no quality incentive component.

(g) Tier system payments must be set in a manner that ensures that the entire biennial appropriation for the quality incentive program is allocated.

(h) Facilities with insufficient three-quarter average centers for medicare and medicaid services quality data must be assigned to the tier corresponding to their five-star quality rating. Facilities with a five-star quality rating must be assigned to the highest tier (tier V) and facilities with a one-star quality rating must be assigned to the lowest tier (tier I). The use of a facility's five-star quality rating shall only occur in the case of insufficient centers for medicare and medicaid services minimum data set information.

(i) The quality incentive rates must be adjusted semiannually on July 1 and January 1 of each year using, at a minimum, the most recent available three-quarter average centers for medicare and medicaid services quality data.

(j) Beginning July 1, 2017, the percentage of short-stay residents who newly received an antipsychotic medication must be added as a quality measure. The department must determine the quality incentive thresholds for this quality measure in a manner consistent with those outlined in (b) through (h) of this subsection using the centers for medicare and medicaid services quality data.

(k) Beginning July 1, 2017, the percentage of direct care staff turnover must be added as a quality measure using the centers for medicare and medicaid services' payroll-based journal and nursing home facility payroll data. Turnover is defined as an employee departure. The department must determine the quality incentive thresholds for this quality measure using data from the centers for medicare and medicaid services' payroll-based journal, unless such data is not available, in which case the department shall use direct care staffing turnover data from the most recent medicaid cost report.
(7) Reimbursement of the safety net assessment imposed by chapter 74.48 RCW and paid in relation to medicaid residents must be continued.

(8)(a) The direct care and indirect care components must be rebased in even-numbered years, beginning with rates paid on July 1, 2016. Rates paid on July 1, 2016, must be based on the 2014 calendar year cost report. On a percentage basis, after rebasing, the department must confirm that the statewide average daily rate has increased at least as much as the average rate of inflation, as determined by the skilled nursing facility market basket index published by the centers for medicare and medicaid services, or a comparable index. If after rebasing, the percentage increase to the statewide average daily rate is less than the average rate of inflation for the same time period, the department is authorized to increase rates by the difference between the percentage increase after rebasing and the average rate of inflation.

(b) It is the intention of the legislature that direct and indirect care rates paid in fiscal year 2022 will be rebased using the calendar year 2019 cost reports. For fiscal year 2021, in addition to the rates generated by (a) of this subsection, an additional adjustment is provided as established in this subsection (8)(b). Beginning May 1, 2020, and through June 30, 2021, the calendar year costs must be adjusted for inflation by a twenty-four month consumer price index, based on the most recently available monthly index for all urban consumers, as published by the bureau of labor statistics. It is also the intent of the legislature that, starting in fiscal year 2022, a facility-specific rate add-on equal to the inflation adjustment that facilities received solely in fiscal year 2021, must be added to the rate. For fiscal year 2024, the direct care and indirect care components shall be rebased to the 2021 calendar year cost report plus a 4.7 percent adjustment for inflation. For fiscal year 2025, the direct and indirect care components shall be rebased to the 2022 calendar year cost report plus a five percent adjustment for inflation.

(c) To determine the necessity of regular inflationary adjustments to the nursing facility rates, by December 1, 2020, the department shall provide the appropriate policy and fiscal committees of the legislature with a report that provides a review of rates paid in 2017, 2018, and 2019 in comparison to costs incurred by nursing facilities.
(9) The direct care component provided in subsection (3) of this section is subject to the reconciliation and settlement process provided in RCW 74.46.022(6). Beginning July 1, 2016, pursuant to rules established by the department, funds that are received through the reconciliation and settlement process provided in RCW 74.46.022(6) must be used for technical assistance, specialized training, or an increase to the quality enhancement established in subsection (6) of this section. The legislature intends to review the utility of maintaining the reconciliation and settlement process under a price-based payment methodology, and may discontinue the reconciliation and settlement process after the 2017-2019 fiscal biennium.

(10) Compared to the rate in effect June 30, 2016, including all cost components and rate add-ons, no facility may receive a rate reduction of more than one percent on July 1, 2016, more than two percent on July 1, 2017, or more than five percent on July 1, 2018. To ensure that the appropriation for nursing homes remains cost neutral, the department is authorized to cap the rate increase for facilities in fiscal years 2017, 2018, and 2019.

(11) It is the intent of the legislature that a rate add-on be applied to the weighted average nursing facility payment rate referenced in the omnibus operating appropriations act in an amount necessary to ensure that the weighted average nursing facility payment rate for fiscal year 2026 is equal to the weighted average nursing facility payment rate for fiscal year 2025.

Sec. 1201. 2022 c 297 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic...
area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, the department of corrections, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the...
coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that projects are planned for in a manner that ensures the efficient use of state resources, support the adoption of a cohesive technology and data architecture, and maximize federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in section 701 of this act.

(8)(a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, 2023, unless prohibited by this act, the department may transfer general fund—state appropriations for fiscal year 2023 among programs and subprograms after approval by the director of the office of financial management. However, the department may not transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2023 in response to the COVID-19 pandemic or caseload forecasts and utilization assumptions in the long-term care, developmental disabilities, and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose. The department may not transfer funds, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the legislature in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.
(9) The department may not transfer appropriations for the developmental disabilities program to any other program or subprograms of the department of social and health services.

FOR THE STATE HEALTH CARE AUTHORITY

(1)(a) During the 2021-2023 fiscal biennium, the health care authority shall provide support and data as required by the office of
the state actuary in providing the legislature with health care
actuarial analysis, including providing any information in the
possession of the health care authority or available to the health
care authority through contracts with providers, plans, insurers,
consultants, or any other entities contracting with the health care
authority.

(b) Information technology projects or investments and proposed
projects or investments impacting time capture, payroll and payment
processes and systems, eligibility, case management, and
authorization systems within the health care authority are subject to
technical oversight by the office of the chief information officer.

(2) The health care authority shall not initiate any services
that require expenditure of state general fund moneys unless
expressly authorized in this act or other law. The health care
authority may seek, receive, and spend, under RCW 43.79.260 through
43.79.282, federal moneys not anticipated in this act as long as the
federal funding does not require expenditure of state moneys for the
program in excess of amounts anticipated in this act. If the health
care authority receives unanticipated unrestricted federal moneys,
those moneys shall be spent for services authorized in this act or in
any other legislation providing appropriation authority, and an equal
amount of appropriated state general fund moneys shall lapse. Upon
the lapsing of any moneys under this subsection, the office of
financial management shall notify the legislative fiscal committees.
As used in this subsection, "unrestricted federal moneys" includes
block grants and other funds that federal law does not require to be
spent on specifically defined projects or matched on a formula basis
by state funds.

(3)(a) The health care authority, the health benefit exchange,
the department of social and health services, the department of
health, the department of corrections, and the department of
children, youth, and families shall work together within existing
resources to establish the health and human services enterprise
coaition (the coalitio). The coalition, led by the health care
authority, must be a multi-organization collaborative that provides
strategic direction and federal funding guidance for projects that
have cross-organizational or enterprise impact, including information
technology projects that affect organizations within the coalition.
The office of the chief information officer shall maintain a
statewide perspective when collaborating with the coalition to ensure
that projects are planned for in a manner that ensures the efficient use of state resources, supports the adoption of a cohesive technology and data architecture, and maximizes federal financial participation. The work of the coalition and any project identified as a coalition project is subject to the conditions, limitations, and review provided in section 701 of this act.

(b) The health care authority must submit a report on November 1, 2021, and annually thereafter, to the fiscal committees of the legislature. The report must include, at a minimum:

(i) A list of active coalition projects as of July 1st of the fiscal year. This must include all current and ongoing coalition projects, which coalition agencies are involved in these projects, and the funding being expended on each project, including in-kind funding. For each project, the report must include which federal requirements each coalition project is working to satisfy, and when each project is anticipated to satisfy those requirements; and

(ii) A list of coalition projects that are planned in the current and following fiscal year. This must include which coalition agencies are involved in these projects, including the anticipated in-kind funding by agency, and if a budget request will be submitted for funding. This must reflect all funding required by fiscal year and by fund source and include the budget outlook period.

(4) The appropriations to the health care authority in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2023, unless prohibited by this act, the authority may transfer general fund—state appropriations for fiscal year 2022 among programs after approval by the director of the office of financial management. The authority must notify the fiscal committees of the legislature prior to receiving approval from the director of the office of financial management. To the extent that appropriations in sections 211 through 215 of this act are insufficient to fund actual expenditures in excess of caseload forecast and utilization assumptions or for expenses in response to the COVID-19 pandemic, the authority may transfer general fund—state appropriations for fiscal year (2023) that are provided solely for a specified purpose. The authority may not transfer funds, including for expenses in response to the COVID-19 pandemic in fiscal year (2023), and the director of the office of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving,
to the maximum extent possible, the expenditure of state funds. The
director of the office of financial management shall notify the
appropriate fiscal committees of the legislature in writing seven
days prior to approving any allotment modifications or transfers
under this section. The written notification must include a narrative

The appropriations in this section are subject to the following
conditions and limitations:
The authority shall not accept or expend any federal funds received under a medicaid transformation waiver under healthier Washington except as described in subsections (2), (3), and (4) of this section until specifically approved and appropriated by the legislature. To ensure compliance with legislative directive budget requirements and terms and conditions of the waiver, the authority shall implement the waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall:

(a) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness;

(b) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings;

(c) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and

(d) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval. The authority shall submit an application to the centers for medicaid and medicare services to extend the duration of the medicaid transformation waiver under healthier Washington as described in subsections (2), (3), and (4) of this section by one year. If not extended, by federal standard, the medicaid transformation demonstration waiver shall not exceed the duration originally granted by the centers for medicare and medicaid services and any programs created or funded by this waiver do not create an entitlement. The demonstration period for the
waiver as described in subsections (2), (3), and (4) of this section concludes (December 31, 2022) June 30, 2023.

(2)(a) No more than (($78,409,000)) $93,107,000 of the general fund—federal appropriation and no more than (($66,264,000)) $88,826,000 of the general fund—local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration waiver under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. Under this initiative, the authority shall take into account local input regarding community needs. In order to ensure transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not increase general fund—state expenditures under this initiative. The director shall also report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(b) No more than (($198,909,000)) $315,678,000 of the general fund—federal appropriation and no more than (($81,245,000)) $128,939,000 of the general fund—private/local appropriation may be expended for the medicaid quality improvement program. Under federal regulations, the medicaid quality improvement program is authorized and allows states to design quality improvement programs for the medicaid population in ways that support the state's quality goals. Medicaid quality improvement program payments will not count against the medicaid transformation demonstration waiver spending limits and are excluded from the waiver's budget neutrality calculation. Apple health managed care organizations and their partnering providers will receive medicaid quality improvement program payments as they meet designated milestones. Partnering providers and apple health managed care organizations will work together to achieve medicaid quality improvement program goals according to the performance period timelines and reporting deadlines as set forth by the authority. The authority shall only utilize the medicaid quality improvement program to support the transformation waiver and shall not pursue its use for other purposes. Any programs created or funded by the medicaid
quality improvement program does not create an entitlement. The authority shall not increase general fund—state, federal, or private/local expenditures under this program. The director shall report to the joint select committee on health care oversight not less than quarterly on financial and health outcomes. The director shall report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

federal funding. To ensure compliance with legislative requirements
and terms and conditions of the waiver, the authority shall implement

The legislature finds that appropriate management of the renewal of
the 1115 demonstration waiver ((as set forth in subsections (6), (7),

redundancy with other established measures. The patient must be
considered first and foremost in the implementation and execution of
the demonstration waiver. To accomplish these goals, the authority
shall develop consistent performance measures that focus on
population health and health outcomes. The authority shall limit the
number of projects that accountable communities of health may
participate in under initiative 1 to a maximum of six and shall seek
to develop common performance measures when possible. The joint
select committee on health care oversight will evaluate the measures
chosen: (a) For effectiveness and appropriateness; and (b) to provide
patients and health care providers with significant input into the
implementation of the demonstration waiver to promote improved
population health and patient health outcomes. In cooperation with
the department of social and health services, the authority shall
consult with and provide notification of work on applications for
federal waivers, including details on waiver duration, financial
implications, and potential future impacts on the state budget to the
joint select committee on health care oversight prior to submitting
these waivers for federal approval. Prior to final approval or
acceptance of funds by the authority, the authority shall submit the
special terms and conditions as submitted to the centers for medicare
and medicaid services and the anticipated budget for the duration of

Sufficient amounts are appropriated in this subsection to implement the Medicaid expansion as defined in the Social Security Act, section 1902(a)(10)(A)(i)(VIII).

The legislature finds that Medicaid payment rates, as calculated by the Health Care Authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

Based on quarterly expenditure reports and caseload forecasts, if the Health Care Authority estimates that expenditures for the medical assistance program will exceed the appropriations, the Health Care Authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

In determining financial eligibility for Medicaid-funded services, the Health Care Authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

The legislature affirms that it is in the state's interest for Harborview Medical Center to remain an economically viable component of the state's health care system.

When a person is ineligible for Medicaid solely by reason of residence in an institution for mental diseases, the Health Care Authority shall provide the person with the same benefits as he
or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(15) $3,733,000 of the general fund—state appropriation for fiscal year 2022, ($4,261,000) $3,785,000 of the general fund—state appropriation for fiscal year 2023, and ($9,050,000) $9,553,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(16) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(17) $7,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(18) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2021-2023 fiscal biennium. The program shall apply to all public
hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2021, and by November 1, 2022, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2022 and fiscal year 2023, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. For the purpose of determining the amount of any state grant under this subsection, payments will include the federal portion of medicaid program supplemental payments received by the hospitals. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2021-2023 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during
the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $425,000 of the general fund—state appropriation for fiscal year 2022 and ((($391,000)) $273,000 of the general fund—state appropriation for fiscal year 2023 are provided solely for state grants for the participating hospitals.

The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT)

The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(g) For no more than two of the four quality focus performance measures, the authority may use an alternate methodology to approximate top national medicaid quartile performance where top quartile performance data is unavailable.

(h) For the purposes of this subsection, "external quality improvement organization" means an organization that meets the competence and independence requirements under 42 C.F.R. Sec. 438.354, as it existed on the effective date of this section.

The authority must include language in contracts that requires regional behavioral health entities to develop and implement plans for improving access to timely and appropriate treatment for individuals with behavioral health needs and current or prior criminal justice involvement who are eligible for services under these contracts.

(3) $23,271,000 of the general fund—state appropriation for fiscal year 2022, $30,514,000 of the general fund—state appropriation for fiscal year 2023, and $11,503,000 of the general fund—federal appropriation are provided solely to continue the phase-in of the settlement agreement under Trueblood, et al. v. The authority may allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (7) of this section. Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (7) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(11) $2,291,000 of the general fund—state appropriation for fiscal year 2022 and $2,291,000 of the general fund—state appropriation for fiscal year 2023 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. Sec. 1901. RCW 28B.76.526 and 2020 c 357 s 911 are each amended to read as follows:

The Washington opportunity pathways account is created in the state treasury. Expenditures from the account may be used only for programs in chapter 28A.710 RCW (charter schools), chapter 28B.12 RCW (state work-study), chapter 28B.50 RCW (opportunity grant), RCW 28B.76.660 (Washington scholars award), RCW 28B.76.670 (Washington award for vocational excellence), chapter 28B.92 RCW (Washington college grant program), chapter 28B.105 RCW (GET ready for math and science scholarship), chapter 28B.117 RCW (passport to careers), chapter 28B.118 RCW (college bound scholarship), and chapter 43.216 RCW (early childhood education and assistance program). During the 2019-2021 and 2021-2023 fiscal biennia, the account may also be appropriated for public schools funded under chapters 28A.150 and 28A.715 RCW.

Sec. 1902. RCW 70A.65.030 and 2022 c 182 s 104 and 2022 c 181 s 13 are each reenacted and amended to read as follows:

(1) Each year or biennium, as appropriate, when allocating funds from the carbon emissions reduction account created in RCW 70A.65.240, the climate commitment account created in RCW 70A.65.260, the natural climate solutions account created in RCW 70A.65.270, the climate investment account created in RCW 70A.65.250, the air quality and health disparities improvement account created in RCW 70A.65.280, the climate transit programs account created in RCW 46.68.500, or the climate active transportation account created in RCW 46.68.490, or administering grants or programs funded by the accounts, agencies shall conduct an environmental justice assessment consistent with the requirements of RCW 70A.02.060 and establish a minimum of not less than 35 percent and a goal of 40 percent of total investments that provide direct and meaningful benefits to vulnerable populations within the boundaries of overburdened communities through: (a) The direct reduction of environmental burdens in overburdened communities; (b) the reduction of disproportionate, cumulative risk from environmental burdens, including those associated with climate change; (c) the support of community led project development,
planning, and participation costs; or (d) meeting a community need identified by the community that is consistent with the intent of this chapter or RCW 70A.02.010.

(2) The allocation of funding under subsection (1) of this section must adhere to the following principles, additional to the requirements of RCW 70A.02.080: (a) Benefits and programs should be directed to areas and targeted to vulnerable populations and overburdened communities to reduce statewide disparities; (b) investments and benefits should be made roughly proportional to the health disparities that a specific community experiences, with a goal of eliminating the disparities; (c) investments and programs should focus on creating environmental benefits, including eliminating health burdens, creating community and population resilience, and raising the quality of life of those in the community; and (d) efforts should be made to balance investments and benefits across the state and within counties, local jurisdictions, and unincorporated areas as appropriate to reduce disparities by location and to ensure efforts contribute to a reduction in disparities that exist based on race or ethnicity, socioeconomic status, or other factors.

(3) Except as provided in subsection (4) of this section, state agencies allocating funds or administering grants or programs from the carbon emissions reduction account created in RCW 70A.65.240, the climate commitment account created in RCW 70A.65.260, the natural climate solutions account created in RCW 70A.65.270, the climate investment account created in RCW 70A.65.250, the air quality and health disparities improvement account created in RCW 70A.65.280, the climate transit programs account created in RCW 46.68.500, or the climate active transportation account created in RCW 46.68.490, must:

(a) Report annually to the environmental justice council created in RCW 70A.02.110 regarding progress toward meeting environmental justice and environmental health goals;

(b) Consider recommendations by the environmental justice council; and

(c)(i) If the agency is not a covered agency subject to the requirements of chapter 70A.02 RCW, create and adopt a community engagement plan to describe how it will engage with overburdened communities and vulnerable populations in allocating funds or administering grants or programs from the climate investment account.
(ii) The plan must include methods for outreach and communication with those who face barriers, language or otherwise, to participation.

(4) During the 2021-2023 fiscal biennium, the requirements of subsection (3)(c) of this section for agencies other than covered agencies to create and adopt community engagement plans apply only to executive branch agencies and institutions of higher education, as defined in RCW 28B.10.016, receiving total appropriations of more than $2,000,000 for the 2021-2023 fiscal biennium from the accounts listed in subsection (1) of this section.

Sec. 1903. RCW 74.46.561 and 2022 c 297 s 966 are each amended to read as follows:

(1) The legislature adopts a new system for establishing nursing home payment rates beginning July 1, 2016. Any payments to nursing homes for services provided after June 30, 2016, must be based on the new system. The new system must be designed in such a manner as to decrease administrative complexity associated with the payment methodology, reward nursing homes providing care for high acuity residents, incentivize quality care for residents of nursing homes, and establish minimum staffing standards for direct care.

(2) The new system must be based primarily on industry-wide costs, and have three main components: Direct care, indirect care, and capital.

(3)(a) The direct care component must include the direct care and therapy care components of the previous system, along with food, laundry, and dietary services. **Except as provided in (b) of this subsection, direct care must be paid at a fixed rate, based on one hundred percent or greater of statewide case mix neutral median costs, but** (**for fiscal year 2023**) shall be capped so that a nursing home provider's direct care rate does not exceed **118 percent of its base year's direct care allowable costs except if the provider is below the minimum staffing standard established in RCW 74.42.360(2). The legislature intends to remove the cap on direct care rates by June 30, 2027. Direct care must be performance-adjusted for acuity every six months, using case mix principles. Direct care must be regionally adjusted using countywide wage index information available through the United States department of labor's bureau of labor statistics. There is no minimum occupancy for direct care. The direct care component rate allocations calculated in accordance with...
this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(b) Unless a nursing home provider is below the minimum staffing standard established in RCW 74.42.360(2), a provider's direct care rate relative to its base year's direct care allowable costs must be capped as follows: For fiscal year 2023, the cap must not exceed 165 percent.

(4)(a) The indirect care component must include the elements of administrative expenses, maintenance costs, and housekeeping services from the previous system. (A) Except as provided in (b) of this subsection, a minimum occupancy assumption of ninety percent must be applied to indirect care (except during fiscal year 2023 when the minimum occupancy assumption must be 75 percent). Indirect care must be paid at a fixed rate, based on ninety percent or greater of statewide median costs. The indirect care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(b) A minimum occupancy assumption must be applied to indirect care as follows: For fiscal year 2023, the assumption must be 75 percent.

(5) The capital component must use a fair market rental system to set a price per bed. The capital component must be adjusted for the age of the facility, and must use a minimum occupancy assumption of ninety percent.

(a) Beginning July 1, 2016, the fair rental rate allocation for each facility must be determined by multiplying the allowable nursing home square footage in (c) of this subsection by the RSMeans rental rate in (d) of this subsection and by the number of licensed beds yielding the gross unadjusted building value. An equipment allowance of ten percent must be added to the unadjusted building value. The sum of the unadjusted building value and equipment allowance must then be reduced by the average age of the facility as determined by (e) of this subsection using a depreciation rate of one and one-half percent. The depreciated building and equipment plus land valued at ten percent of the gross unadjusted building value before depreciation must then be multiplied by the rental rate at seven and one-half percent to yield an allowable fair rental value for the land, building, and equipment.

(b) The fair rental value determined in (a) of this subsection must be divided by the greater of the actual total facility census Code Rev/KS:lel 1391 H-2006.4/23 4th draft
from the prior full calendar year or imputed census based on the number of licensed beds at ninety percent occupancy.

(c) For the rate year beginning July 1, 2016, all facilities must be reimbursed using four hundred square feet. For the rate year beginning July 1, 2017, allowable nursing facility square footage must be determined using the total nursing facility square footage as reported on the medicaid cost reports submitted to the department in compliance with this chapter. The maximum allowable square feet per bed may not exceed four hundred fifty.

(d) Each facility must be paid at eighty-three percent or greater of the median nursing facility RSMeans construction index value per square foot. The department may use updated RSMeans construction index information when more recent square footage data becomes available. The statewide value per square foot must be indexed based on facility zip code by multiplying the statewide value per square foot times the appropriate zip code based index. For the purpose of implementing this section, the value per square foot effective July 1, 2016, must be set so that the weighted average fair rental value rate is not less than ten dollars and eighty cents per patient day. The capital component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(e) The average age is the actual facility age reduced for significant renovations. Significant renovations are defined as those renovations that exceed two thousand dollars per bed in a calendar year as reported on the annual cost report submitted in accordance with this chapter. For the rate beginning July 1, 2016, the department shall use renovation data back to 1994 as submitted on facility cost reports. Beginning July 1, 2016, facility ages must be reduced in future years if the value of the renovation completed in any year exceeds two thousand dollars times the number of licensed beds. The cost of the renovation must be divided by the accumulated depreciation per bed in the year of the renovation to determine the equivalent number of new replacement beds. The new age for the facility is a weighted average with the replacement bed equivalents reflecting an age of zero and the existing licensed beds, minus the new bed equivalents, reflecting their age in the year of the renovation. At no time may the depreciated age be less than zero or greater than forty-four years.
(f) A nursing facility's capital component rate allocation must be rebased annually, effective July 1, 2016, in accordance with this section and this chapter.

(g) For the purposes of this subsection (5), "RSMeans" means building construction costs data as published by Gordian.

(6) A quality incentive must be offered as a rate enhancement beginning July 1, 2016.

(a) An enhancement no larger than five percent and no less than one percent of the statewide average daily rate must be paid to facilities that meet or exceed the standard established for the quality incentive. All providers must have the opportunity to earn the full quality incentive payment.

(b) The quality incentive component must be determined by calculating an overall facility quality score composed of four to six quality measures. For fiscal year 2017 there shall be four quality measures, and for fiscal year 2018 there shall be six quality measures. Initially, the quality incentive component must be based on minimum data set quality measures for the percentage of long-stay residents who self-report moderate to severe pain, the percentage of high-risk long-stay residents with pressure ulcers, the percentage of long-stay residents experiencing one or more falls with major injury, and the percentage of long-stay residents with a urinary tract infection. Quality measures must be reviewed on an annual basis by a stakeholder work group established by the department. Upon review, quality measures may be added or changed. The department may risk adjust individual quality measures as it deems appropriate.

(c) The facility quality score must be point based, using at a minimum the facility's most recent available three-quarter average centers for medicare and medicaid services quality data. Point thresholds for each quality measure must be established using the corresponding statistical values for the quality measure point determinants of eighty quality measure points, sixty quality measure points, forty quality measure points, and twenty quality measure points, identified in the most recent available five-star quality rating system technical user's guide published by the centers for medicare and medicaid services.

(d) Facilities meeting or exceeding the highest performance threshold (top level) for a quality measure receive twenty-five points. Facilities meeting the second highest performance threshold receive twenty points. Facilities meeting the third level of Code Rev/KS:1el 1393 H-2006.4/23 4th draft
performance threshold receive fifteen points. Facilities in the bottom performance threshold level receive no points. Points from all quality measures must then be summed into a single aggregate quality score for each facility.

(e) Facilities receiving an aggregate quality score of eighty percent of the overall available total score or higher must be placed in the highest tier (tier V), facilities receiving an aggregate score of between seventy and seventy-nine percent of the overall available total score must be placed in the second highest tier (tier IV), facilities receiving an aggregate score of between sixty and sixty-nine percent of the overall available total score must be placed in the third highest tier (tier III), facilities receiving an aggregate score of between fifty and fifty-nine percent of the overall available total score must be placed in the fourth highest tier (tier II), and facilities receiving less than fifty percent of the overall available total score must be placed in the lowest tier (tier I).

(f) The tier system must be used to determine the amount of each facility's per patient day quality incentive component. The per patient day quality incentive component for tier IV is seventy-five percent of the per patient day quality incentive component for tier V, the per patient day quality incentive component for tier III is fifty percent of the per patient day quality incentive component for tier V, and the per patient day quality incentive component for tier II is twenty-five percent of the per patient day quality incentive component for tier V. Facilities in tier I receive no quality incentive component.

(g) Tier system payments must be set in a manner that ensures that the entire biennial appropriation for the quality incentive program is allocated.

(h) Facilities with insufficient three-quarter average centers for medicare and medicaid services quality data must be assigned to the tier corresponding to their five-star quality rating. Facilities with a five-star quality rating must be assigned to the highest tier (tier V) and facilities with a one-star quality rating must be assigned to the lowest tier (tier I). The use of a facility's five-star quality rating shall only occur in the case of insufficient centers for medicare and medicaid services minimum data set information.

(i) The quality incentive rates must be adjusted semiannually on July 1 and January 1 of each year using, at a minimum, the most
recent available three-quarter average centers for medicare and medicaid services quality data.

(j) Beginning July 1, 2017, the percentage of short-stay residents who newly received an antipsychotic medication must be added as a quality measure. The department must determine the quality incentive thresholds for this quality measure in a manner consistent with those outlined in (b) through (h) of this subsection using the centers for medicare and medicaid services quality data.

(k) Beginning July 1, 2017, the percentage of direct care staff turnover must be added as a quality measure using the centers for medicare and medicaid services' payroll-based journal and nursing home facility payroll data. Turnover is defined as an employee departure. The department must determine the quality incentive thresholds for this quality measure using data from the centers for medicare and medicaid services' payroll-based journal, unless such data is not available, in which case the department shall use direct care staffing turnover data from the most recent medicaid cost report.

(7) Reimbursement of the safety net assessment imposed by chapter 74.48 RCW and paid in relation to medicaid residents must be continued.

(8)(a) The direct care and indirect care components must be rebased in even-numbered years, beginning with rates paid on July 1, 2016. Rates paid on July 1, 2016, must be based on the 2014 calendar year cost report. On a percentage basis, after rebasing, the department must confirm that the statewide average daily rate has increased at least as much as the average rate of inflation, as determined by the skilled nursing facility market basket index published by the centers for medicare and medicaid services, or a comparable index. If after rebasing, the percentage increase to the statewide average daily rate is less than the average rate of inflation for the same time period, the department is authorized to increase rates by the difference between the percentage increase after rebasing and the average rate of inflation.

(b) It is the intention of the legislature that direct and indirect care rates paid in fiscal year 2022 will be rebased using the calendar year 2019 cost reports. For fiscal year 2021, in addition to the rates generated by (a) of this subsection, an additional adjustment is provided as established in this subsection (8)(b). Beginning May 1, 2020, and through June 30, 2021,
calendar year costs must be adjusted for inflation by a twenty-four month consumer price index, based on the most recently available monthly index for all urban consumers, as published by the bureau of labor statistics. It is also the intent of the legislature that, starting in fiscal year 2022, a facility-specific rate add-on equal to the inflation adjustment that facilities received solely in fiscal year 2021, must be added to the rate.

(c) To determine the necessity of regular inflationary adjustments to the nursing facility rates, by December 1, 2020, the department shall provide the appropriate policy and fiscal committees of the legislature with a report that provides a review of rates paid in 2017, 2018, and 2019 in comparison to costs incurred by nursing facilities.

(9) The direct care component provided in subsection (3) of this section is subject to the reconciliation and settlement process provided in RCW 74.46.022(6). Beginning July 1, 2016, pursuant to rules established by the department, funds that are received through the reconciliation and settlement process provided in RCW 74.46.022(6) must be used for technical assistance, specialized training, or an increase to the quality enhancement established in subsection (6) of this section. The legislature intends to review the utility of maintaining the reconciliation and settlement process under a price-based payment methodology, and may discontinue the reconciliation and settlement process after the 2017-2019 fiscal biennium.

(10) Compared to the rate in effect June 30, 2016, including all cost components and rate add-ons, no facility may receive a rate reduction of more than one percent on July 1, 2016, more than two percent on July 1, 2017, or more than five percent on July 1, 2018. To ensure that the appropriation for nursing homes remains cost neutral, the department is authorized to cap the rate increase for facilities in fiscal years 2017, 2018, and 2019.

NEW SECTION. Sec. 1904. 2021 c 334 s 984 is repealed.

NEW SECTION. Sec. 1905. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.
NEW SECTION. Sec. 1906. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."
