Overview

Proposed Substitute House Bill (PSHB) 2089 appropriates \$1.3 billion in total funds, of which \$101.5 million is from debt limit bonds and \$1.2 billion is from other state and federal accounts.

Bond Capacity

The 2023-25 Capital Budget appropriated \$4.7 billion in bonds pursuant to Chapter 474, Laws of 2023 (ESSB 5200). The total available bond capacity for the 2024 Supplemental Capital Budget is \$121.1 million, which is comprised of \$99.6 million in remaining bond capacity from the 2023 session and \$21.4 million in adjustments to projects that were completed in the 2021-23 biennium and spent below their bond authorization. PSHB 2089 appropriates \$101.5 million in bonds, leaving \$19.6 million in remaining bond capacity.

In addition to these resources, the estimated demand for School Construction Assistance Program (SCAP) funding in the 2023-25 biennium declined by \$294.5 million. This decline reflects the relatively low number of capital bonds approved by school district voters over the past several years. The reduced SCAP demand allows the use of bonds that were previously appropriated for this program to be used for other capital budget purposes in PSHB 2089.

Other Funding Sources

In addition to \$101.5 million in bonds, PSHB 2089 authorizes \$1.2 billion from the following fund sources:

- \$669.6 million from Climate Commitment Act accounts;
- \$312.5 million from the Common School Construction Fund;
- \$123.6 million from federal funds;
- \$15.5 million from Model Toxics Control Act accounts;
- \$11.3 million in alternative financing authorizations;
- \$8.5 million from the Washington Housing Trust Fund Account;
- \$7.5 million from the Public Works Assistance Account; and
- \$25.1 million from other state accounts.

Initiative 2117 (carbon tax credit trading) proposes to repeal the Climate Commitment Act (CCA) and certain accounts associated with the Act. The majority of the 2024 Supplemental Capital Budget appropriations from the CCA accounts are assumed to be effective January 1, 2025, and would lapse if the accounts were repealed. Initiative 2109 (taxes on long-term capital assets) proposes to repeal the tax on capital gains. PSHB 2089 does not appropriate the projected Common School Construction Fund revenue from the tax on capital gains beyond November 2024.

A summary of the spending authorized by PSHB 2089 follows on the next page.
