**2. Lake Roosevelt Adjudication**

The Lake Roosevelt water right adjudication requires agreement with federal entities on the scope and water rights included in this action. While the Department of Ecology (ECY) continues to implement pre-adjudication activities to prepare for a possible court case filing in Superior Court in the 2025–27 biennium, savings are achieved for funding provided for FY 2025 that is not anticipated to be spent. (General Fund-State) (One-Time)

**3. Tribal Capacity Grant Adjustment**

In the 2024 supplemental budget, an additional \$5.0 million was provided for tribal capacity grants, beginning in January 2025. In order to give more time for tribes to spend this funding, \$3.0 million is removed from FY 2025 and instead provided in the 2025-27 biennial budget in a separate item. (Climate Investment Account-State) (One-Time)

**4. Water Use for Irrigation Analysis**

In the 2023–2025 biennium, ECY's Office of Columbia River received funding to support the U.S. Bureau of Reclamation's (USBR) irrigation analysis work in the Snake River. The USBR requested and used the funding provided in FY 2024, but has not requested the FY 2025 portion of the funding. The FY 2025 funding is reduced, as ECY has an existing capital budget appropriation that could be used to provide the remainder of the intended funding if requested by USBR.
