16 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

17 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted
18 and, subject to the provisions set forth in this act, the several
19 dollar amounts hereinafter specified, or so much thereof as shall be
20 sufficient to accomplish the purposes designated, are hereby
21 appropriated and authorized to be incurred for capital projects

1 during the period beginning with the effective date of this act and
2 ending June 30, 2027, out of the several funds specified in this act.

3 (2) The definitions in this subsection apply throughout this act
4 unless the context clearly requires otherwise.

5 (a) "Fiscal year 2026" or "FY 2026" means the period beginning
6 July 1, 2025, and ending June 30, 2026.

7 (b) "Fiscal year 2027" or "FY 2027" means the period beginning
8 July 1, 2026, and ending June 30, 2027.

9 (c) "Lapse" or "revert" means the amount shall return to an
10 unappropriated status.

11 (d) "Provided solely" means the specified amount may be spent
12 only for the specified purpose.

13 (3) Unless otherwise specifically authorized in this act, any
14 portion of an amount provided solely for a specified purpose that is
15 not expended subject to the specified conditions and limitations to
16 fulfill the specified purpose shall lapse.

17 (4) The amounts shown under the headings "Prior Biennia," "Future
18 Biennia," and "Total" in this act are for informational purposes only
19 and do not constitute legislative approval of these amounts. "Prior
20 biennia" typically refers to the immediate prior biennium for
21 reappropriations, but may refer to multiple biennia in the case of
22 specific projects. A "future biennia" amount is an estimate of what
23 may be appropriated for the project or program in the 2027-2029
24 biennium and the following three biennia; an amount of zero does not
25 necessarily constitute legislative intent to not provide funding for
26 the project or program in the future.

27 (5) "Reappropriations" in this act are appropriations and, unless
28 the context clearly provides otherwise, are subject to the relevant
29 conditions and limitations applicable to appropriations.
30 Reappropriations shall be limited to the unexpended balances
31 remaining on June 30, 2025, from the 2023-2025 biennial
32 appropriations for each project.

20 (b) Eligible uses of grant funds include, but are not limited to,
21 planning for sustainable communities and predesign work, energy

18 appropriation is provided solely for the department to administer
19 grants to eligible third-party administrators for heat pump and other
20 high-efficiency electric equipment rebates, with a focus on low/
21 moderate income households and small businesses. State incentives and
22 rebates for installation of high-efficiency electric equipment,
23 including electrical panel upgrades, provide a benefit to the public
24 consistent with the state's energy strategy and climate mandates by
25 reducing greenhouse gas emissions from the built environment.

26 (b) \$5,000,000 of the climate commitment account—state
27 appropriation is provided solely for the department to administer

29 adult family homes.

30 (2) The department shall implement a statewide high-efficiency
31 electric equipment program consistent with the following:

32 (a) Aid the transition of residential and commercial buildings
33 away from fossil fuels by providing education and outreach resources
34 for the installation of high-efficiency electric heat pumps and other
35 high-efficiency electric equipment;

17 NEW SECTION. **Sec. 1014. FOR THE DEPARTMENT OF COMMERCE**

18 2025-27 Behavioral Health Facilities (40000667)

19 The appropriation in this section is subject to the following
20 conditions and limitations:

21 (1) The appropriation in this section is provided solely for the
22 department to issue grants to community hospitals or other community
23 providers to expand and establish new and preserve existing capacity
24 for behavioral health services in communities. The department must
25 consult an advisory group consisting of representatives from the
26 department of social and health services, the health care authority,
27 one representative from a managed care organization, one
28 representative from an accountable care organization, and one
29 representative from the association of county human services. The
30 amounts provided in this section may be used for construction and
31 equipment costs associated with establishment or preservation of the
32 facilities. The department may approve funding for the acquisition of
33 a facility if the project will result in increased behavioral health
34 capacity. Amounts provided in this section may not be used for
35 operating costs associated with the treatment of patients using these
36 services.

37 (2) The department must establish criteria for the issuance of
38 the grants, which must include:

1 (a) Evidence that the application was developed in collaboration
2 with one or more regional behavioral health entities that administer
3 the purchasing of services;

4 (b) Evidence that the applicant has assessed and would meet gaps
5 in the geographical availability and service needs of behavioral
6 health services in their region;

7 (c) Evidence that the applicant is able to meet applicable
8 licensing and certification requirements in the facility that will be
9 used to provide services;

10 (d) A commitment by applicants to serve persons who are publicly
11 funded and persons detained for involuntary commitment under chapter
12 71.05 RCW;

13 (e) A commitment by the applicant to maintain and operate the
14 beds or facility for a time period commensurate to the state
15 investment, but for at least a 10-year period;

16 (f) The date upon which structural modifications or construction
17 would begin and the anticipated date of completion of the project;

18 (g) A detailed estimate of the costs associated with opening the
19 beds;

20 (h) A financial plan demonstrating the applicant's ability to
21 maintain and operate the facility; and

22 (i) The applicant's commitment to work with local courts and
23 prosecutors to ensure that prosecutors and courts in the area served
24 by the hospital or facility will be available to conduct involuntary
25 commitment hearings and proceedings under chapter 71.05 RCW.

26 (3) In awarding funding for projects in subsection (6) of this
27 section, the department, in consultation with the advisory group
28 established in subsection (1) of this section, must strive for
29 geographic distribution and to allocate funding based on population
30 and service needs of an area. The department must consider current
31 services available, anticipated services available based on projects
32 underway, and the service delivery needs of an area.

33 (4) The department must prioritize projects that increase
34 capacity in unserved and underserved areas of the state.

35 (5) \$10,000,000 of the state building construction account—state
36 appropriation in this section is provided solely for one crisis
37 stabilization facility in the King county region consistent with the
38 settlement agreement in *A.B, by and through Trueblood, et al., v.*
39 *DSHS, et al.*, No. 15-35462, and that are not subject to federal
40 funding restrictions that apply to institutions of mental disease. In

1 awarding this funding, the department must coordinate with the health
2 care authority and the King county BHASO and must only select a
3 facility that has been selected by King county's crisis care centers
4 initiative as the crisis care center for the south King county
5 region.

6 (6) \$65,000,000 of the state building construction account—state
7 appropriation in this section is provided solely for competitive
8 community behavioral health grants to expand and establish new
9 capacity and address the regional needs listed and is subject to the
10 criteria in subsections (1), (2), (3), and (4) of this section:

11 (a) Crisis relief centers and stabilization facilities that offer
12 access to mental health and substance use care for no more than 23
13 hours and 59 minutes per patient, at a time, and are not subject to
14 federal funding restrictions that apply to institutions of mental
15 diseases;

16 (b) Mental health peer respite centers that are not subject to
17 federal funding restrictions that apply to institutions of mental
18 diseases. No more than one mental health peer respite center should
19 be funded in each of the 10 regions;

20 (c) Grants to community providers to increase long-term intensive
21 inpatient psychiatric treatment services and capacity for children
22 and minor youth including, but not limited to, services for substance
23 use disorder treatment, sexual assault and traumatic stress, anxiety,
24 or depression, and interventions for children exhibiting aggressive
25 or depressive behaviors in facilities that are not subject to federal
26 funding restrictions;

27 (d) Grants to community hospitals, freestanding evaluation and
28 treatment providers, or freestanding psychiatric hospitals to develop
29 capacity for beds to serve individuals on 90-day or 180-day civil
30 commitments as an alternative to treatment in the state hospitals. In
31 awarding this funding, the department must coordinate with the
32 department of social and health services, the health care authority,
33 and the department of health and must only select facilities that
34 meet the following conditions:

35 (i) The funding must be used to increase capacity related to
36 serving individuals who will be transitioned from or diverted from
37 the state hospitals;

38 (ii) The facility is not subject to federal funding restrictions
39 that apply to institutions of mental diseases;

1 (iii) The provider has submitted a proposal for operating the
2 facility to the health care authority;

3 (iv) The provider has demonstrated to the department of health
4 and the health care authority that it is able to meet the applicable
5 licensing and certification requirements for the facility that will
6 be used to provide services; and

7 (v) The health care authority has confirmed that it intends to
8 contract with the facility for operating costs within funds provided
9 in the operating budget for these purposes;

10 (e) Enhanced adult residential care facilities for long-term
11 dementia placements discharged or diverted from the state psychiatric
12 hospitals and are not subject to federal funding restrictions that
13 apply to institutions of mental diseases;

14 (f) Facilities that provide substance use disorder intervention,
15 assessment, and treatment services with secure withdrawal management
16 and stabilization treatment beds that are not subject to federal
17 funding restrictions that apply to institutions of mental diseases;
18 and

19 (g) Facilities where behavioral health supportive services, such
20 as harm reduction and physical health services, are offered within
21 the same facility as behavioral health services and that are not
22 subject to federal funding restrictions that apply to institutions of
23 mental diseases.

24 (7) The amounts provided in this subsection are subject to the
25 criteria in subsection (1) of this section. \$15,000,000 of the state
26 building construction account—state appropriation in this section is
27 provided solely for grants to community providers to prevent the
28 closure of existing behavioral health facilities. For purposes of
29 this subsection (7), the department must implement necessary
30 procedures to enable rapid commitment of funds on a first-come,
31 first-served basis to qualifying project proposals that satisfy the
32 goal of long-term preservation of behavioral health facilities.

33 (8) \$40,818,000 of the appropriation in this section is provided
34 solely for the following list of projects:

35	7 Nations Healing Lodge.	\$5,050,000

4 (9) The department shall notify all applicants that they may be
5 required to have a construction review performed by the department of
6 health.

7 (10) To accommodate the emergent need for behavioral health
8 services, the department and the department of health, in
9 collaboration with the health care authority and the department of
10 social and health services, must establish a concurrent and expedited
11 process to assist grant applicants in meeting any applicable
12 regulatory requirements necessary to operate inpatient psychiatric
13 beds, freestanding evaluation and treatment facilities, enhanced
14 services facilities, triage facilities, crisis stabilization
15 facilities, or secure detoxification/secure withdrawal management and
16 stabilization facilities.

17 (11) The department must strive to allocate all of the amounts
18 provided in this section in the manner prescribed in each subsection.
19 However, if upon review of applications, the department determines,
20 in consultation with the advisory group established in subsection (1)
21 of this section, that there are not adequate suitable projects in a
22 category, the department may allocate funding to other project
23 categories listed in this section, prioritizing projects that support
24 serving individuals who will be transitioned from or diverted from
25 the state hospitals. Underserved areas of the state may also be
26 considered.

27 (12) In contracts for grants authorized under this section, the
28 department must include provisions that require that the grantee or
29 successor hold the capital improvements for at least a 10-year
30 period. The provisions must require the facility to be used for
31 behavioral health services, but may allow the facility to change
32 ownership or facility type during the commitment period. The
33 department shall monitor the activities of recipients of grants under
34 this program to determine compliance with the terms and conditions
35 set forth in its contract.

36 (13) The department must provide a progress report to the

38 report must include:

3 be provided, bed capacity, and anticipated completion date;

4 (c) A statewide map of new capacity since 2018, including
5 projected bed capacity and opening dates;

6 (d) A status report of projects that received funding in prior
7 funding rounds, including details about the project completion and
8 the date the facility began providing services; and

9 (e) Recommendations for statutory language that would codify the
10 grant program on an ongoing basis including:

11 (i) Evaluation and prioritization criteria;

12 (ii) Monitoring and compliance requirements;

25 due date established by the office of financial management.
26 Associated state budget operating costs must also be identified and
27 requested.

28 (16) During the 2025-2027 fiscal biennium, where the department
29 has awarded a grant pursuant to an appropriation in the 2017-2019
30 fiscal biennium for the operation of a crisis diversion or
31 stabilization facility located in Pierce county, the department may
32 amend the contract associated with the grant in order to authorize
33 the facility to be used for any community development block grant
34 (CDBG) national objective.

22 homeownership projects affordable to first-time low-income
23 households. Projects serving homebuyers whose income is up to 80
24 percent of the area median income, adjusted for household size for
25 the county where the property is located are eligible to apply,
26 except that projects located in rural areas of the state, as defined
27 by the department, serving homebuyers whose income is up to 100

39 to acquire mobile and manufactured home communities for the purpose

1 of avoiding household displacement due to sale or other transactions

18 extremely low-income people, families, unaccompanied youth, and young
19 people experiencing sheltered and unsheltered homelessness. The
20 department may only approve funding for projects that result in
21 increased shelter or housing capacity for extremely low-income people
22 and households. Acquisition of multifamily housing units is a
23 priority, and the department shall prioritize housing projects that
24 rapidly move people experiencing unsheltered homelessness into
25 housing, including, but not limited to, individuals living in
26 unsanctioned encampments, the public rights-of-way, or other public

35 (i) Projects preserving and extending the affordability
36 commitment period for projects in the housing trust fund portfolio.
37 The funds may be provided for major building improvements,
38 preservation, and system replacements, necessary for the existing
39 housing trust fund portfolio to maintain its long-term viability. The

1 department must require a capital needs assessment be provided before
2 contract execution. Funds may not be used to add or expand the
3 capacity of the property. When allocating funds, the department must
4 prioritize buildings that are older than 15 years and that serve very
5 low-income and extremely low-income populations.

6 (ii) Projects preserving affordable multifamily housing at risk
7 of losing its affordability due to expiration of use restrictions
8 that otherwise require affordability including, but not limited to,

10 The department must prioritize projects that satisfy the goal of
11 long-term preservation of Washington's affordable multifamily housing
12 stock, particularly in rural areas of the state. Funds may be used
13 for acquisition or for acquisition and rehabilitation of properties
14 to preserve the affordable housing units beyond their existing use
15 restrictions and place them in Washington's housing trust fund
16 portfolio for a minimum of 40 years. If a capital needs assessment is
17 required, the department must work with the applicant to ensure the
18 assessment does not create an unnecessary impediment to rapidly
19 accessing these funds.

20 (h) \$10,000,000 of the state taxable building construction
21 account—state appropriation in this section is provided solely for
22 facilities housing low-income migrant, seasonal, or temporary

28 the appropriation provided under (a) and (d) of this subsection (1)
29 for either affordable multifamily rental housing or homeownership
30 projects, or both, benefiting low-income households in federally
31 recognized Indian tribes in the state of Washington. The department
32 must conduct a separate application process and use separate
33 evaluation criteria to solicit tribal housing projects and prioritize
34 projects to tribal communities of highest need.

35 (2) \$3,000,000 of the state building construction account—state
36 appropriation is provided solely for the department to provide
37 preconstruction and technical assistance awards in accordance with
38 RCW 43.185A.170.

1 (3) (a) \$5,000,000 of the state building construction account—
2 state appropriation in this section is provided solely for affordable

4 Funding is not subject to the 60-day notification requirement in RCW
5 43.185A.150. The funding may be provided to address nonrecurring
6 repair projects including repair of units or buildings, abatement of
7 potentially hazardous materials, and safety-related structural
8 improvements of affordable housing. Each repair grant award may not
9 exceed \$200,000 per award. However, the department may not limit the
10 number of awards or amount received per organization.

11 (b) For purposes of this subsection (3), "affordable housing"
12 means:

13 (i) Permanent supportive housing as defined in RCW 36.70A.030;
14 and

15 (ii) Multifamily affordable housing projects in the housing trust
16 fund portfolio.

17 (c) If the department receives application requests that exceed
18 the appropriation level in this subsection (3), the department must
19 prioritize projects under (b) (i) of this subsection.

31 **NEW SECTION. Sec. 1026. FOR THE DEPARTMENT OF COMMERCE**
 32 2026 Local and Community Projects (40000709)

33 The appropriations in this section are subject to the following
 34 conditions and limitations:

1 (1) The department may not expend the appropriation in this
2 section unless and until the nonstate share of project costs have
3 been either expended or firmly committed, or both, in an amount
4 sufficient to complete the project or a distinct phase of the project
5 that is useable to the public for the purpose intended by the
6 legislature. This requirement does not apply to projects where a
7 share of the appropriation is for design costs only.

8 (2) Before receiving funds, project recipients must demonstrate
9 that the project site is under control for a minimum of 10 years,
10 either through ownership or a long-term lease. This requirement does
11 not apply to appropriations for preconstruction activities or
12 appropriations in which the sole purpose is to purchase real property
13 that does not include a construction or renovation component.

14 (3) Projects funded in this section may be required to comply
15 with Washington's high performance building standards under chapter
16 39.35D RCW.

17 (4) Project funds are available on a reimbursement basis only and
18 may not be advanced under any circumstances.

19 (5) In contracts for grants authorized under this section, the
20 department shall include provisions that require that capital
21 improvements be held by the grantee for a specified period of time
22 appropriate to the amount of the grant and that facilities be used
23 for the express purpose of the grant. If the grantee is found to be
24 out of compliance with provisions of the contract, the grantee shall
25 repay to the state general fund the principal amount of the grant
26 plus interest calculated at the rate of interest on state of
27 Washington general obligation bonds issued most closely to the date
28 of authorization of the grant.

29 (6) Projects funded in this section, including those that are
30 owned and operated by nonprofit organizations, are generally required
31 to pay state prevailing wages.

32 (7) The department must comply with the requirements set forth in
33 executive order 21-02 and must consult with the department of
34 archaeology and historic preservation and affected tribes on the
35 potential effects of these projects on cultural resources and
36 historic properties. Consultation with the department of archaeology
37 and historic preservation and affected tribes must be initiated
38 before project funds are made available.

1 project owners to discuss the grant program before soliciting new
2 projects.

18 Capitol Lake Rehabilitation and Recovery (92000219)

19 The appropriation in this section is subject to the following
20 conditions and limitations:

21 (1) The legislature finds that the portion of the capitol campus
22 known as Capitol Lake is an important ecological resource for the
23 community. Due to a lack of routine management over the last 25 to 50
24 years, the lake ecosystem is degraded, resulting in poor water
25 quality, excessive algae growth, and invasive species proliferation.

26 (2) The appropriation in this section is provided solely for the
27 department to develop and implement a lake management plan to restore
28 the health of Capitol Lake and develop a strategy for the plan's
29 implementation.

30 (3) The lake management plan must be developed with the goals of
31 improving water quality and enhancing ecosystem structure and
32 function. The plan must include lake management strategies that:
33 Reduce the presence of algae; remove aquatic invasive species;
34 mitigate decades of sediment accumulation; manage internal and
35 external nutrient inputs, including those contributing to the
36 impairment of dissolved oxygen levels in Budd Inlet; improve sediment

1 quality by removing the accumulation of toxic contaminants and
2 bioavailable phosphorous; and increase acreage of freshwater
3 wetlands, restored shoreline, and native emergent vegetation. The
4 plan must incorporate water quality data, bathymetric surveys, and
5 other sampling and modeling data already collected as part of
6 prior Capitol Lake and Deschutes Estuary studies.

7 (4) Management strategies identified to achieve the goals must be
8 innovative and include, but not be limited to: The use of thermal
9 treatments and saltwater backflushing for invasive species removal,
10 direct algae control methods, circulation and aeration techniques,
11 dredging, phosphorus sequestration, and other methods determined to
12 be effective. The plan must also include a detailed implementation
13 framework with cost estimates and specific milestones to be achieved
14 over a five-year period or until another cost-effective and
15 ecologically beneficial management option is identified.

16 (5) The department must submit the lake management plan to the
17 governor and the capital budget committee chairs and ranking members
18 of the legislature no later than September 1, 2026.

32 2025-2027 Voluntary Riparian Grant Program (40000049)

33 The appropriation in this section is subject to the following
34 conditions and limitations:

1 (1) The appropriation in this section is provided solely for the
2 state conservation commission to provide grants for riparian
3 restoration projects with landowners.

4 (2)(a) Within funds appropriated in this section, the commission
5 shall develop and implement the voluntary riparian grant program to
6 fund protection and restoration of critical riparian management
7 zones. The commission is responsible for developing the voluntary
8 grant program criteria to achieve optimal restoration of functioning
9 riparian ecosystems in priority critical riparian management zones.

10 (b) In adopting program criteria, the commission shall:

11 (i) Invite federally recognized tribes to be full participants;

12 (ii) Coordinate with private landowners and other interested
13 stakeholders;

14 (iii) Coordinate with the department of ecology, the department
15 of fish and wildlife, conservation districts, and the department of
16 agriculture; and

17 (iv) Consider the best available, locally applicable science that
18 is specific to each region of the state where the program criteria
19 will be applied.

20 (3) The commission shall prioritize critical riparian management
21 zones at the watershed or subbasin scale where grant funding under
22 the program would be primarily targeted. The prioritization must be
23 informed by, consistent with, and aligned with one or more of the
24 following: Watershed plans developed pursuant to chapter 90.82 RCW;
25 the action agenda developed under RCW 90.71.260; regional recovery
26 plans created under RCW 77.85.090; the habitat project lists
27 developed pursuant to RCW 77.85.050; the prioritization process
28 developed under RCW 77.95.160; and priority projects identified for
29 salmon recovery through agency grant programs.

30 (4) Conditions for awarding funding for projects under this
31 program include, but are not limited to:

32 (a) Consistency with the program criteria established under
33 subsection (2) of this section;

34 (b) Tiered incentive rates tied to improving functionality for
35 riparian areas; and

36 (c) Other requirements as determined by the commission.

37 (5) The commission must distribute riparian grant program funding
38 equitably throughout the state, consistent with received grant
39 applications and benefit to salmon habitat. The legislature intends
40 for funding to be primarily for projects located in salmon recovery

1 regions, as defined in RCW 77.85.010, but funding may also be
2 distributed to a project not located in a salmon recovery region upon
3 a determination by the commission that the project will provide a
4 unique benefit to salmon habitat.

5 (6) Allowable expenses to a grantee receiving funds under this
6 section include, but are not limited to, labor, equipment, fencing,
7 mulch, seed, seedling trees, manual weed control, and yearly
8 maintenance costs for up to 10 years.

9 (7) Any native woody trees and shrubs planted with funding
10 provided under this section must be maintained for a minimum of five
11 years or as otherwise set by the commission for each grantee.
12 Vegetation must be chosen to prevent invasive weed populations and
13 ensure survival and successful establishment of plantings.

14 (8) The commission shall determine appropriate recordkeeping and
15 data collection procedures required for program implementation and
16 shall establish a data management system that allows for coordination
17 between the commission and other state agencies. Any data collected
18 or shared under this section may be used only to assess the success
19 of the riparian grant program in improving the functions of critical
20 riparian habitat.

21 (9) The commission shall develop and implement a framework that
22 includes monitoring, adaptive management, and metrics in order to
23 ensure consistency with the requirements of the riparian grant
24 program. The monitoring and adaptive management framework may
25 include, but is not limited to, consideration of:

26 (a) Acres identified as eligible for restoration within a
27 watershed;

28 (b) Acres planned to be restored;

29 (c) Acres actually planted and maintained;

30 (d) Success in targeting and achieving aggregated project
31 implementation resulting in an increase in linear miles restored;

32 (e) Plan review criteria; and

33 (f) Other similar factors as identified by the commission.

34 (10) The commission may use up to two percent of any amounts
35 appropriated in this section for targeted outreach activities that
36 focus on critically identified geographic locations for listed salmon
37 species.

38 (11) The commission may use up to four percent of amounts
39 appropriated in this section for administrative expenses.

1 (12) For the purposes of this section, "critical riparian
2 management zone" means the area adjacent to freshwaters, wetlands,
3 and marine waters that has been locally or regionally identified as
4 an area where salmon recovery efforts would significantly benefit
5 from enhanced protection or restoration.

22 The appropriations in this section (~~(is)~~) are subject to the
23 following conditions and limitations:

24 (1) The appropriations in this section (~~(is)~~) are provided solely
25 for the department to issue grants to community hospitals or other
26 community providers to expand and establish new capacity for
27 behavioral health services in communities. The department must
28 consult an advisory group consisting of representatives from the
29 department of social and health services, the health care authority,
30 one representative from a managed care organization, one
31 representative from an accountable care organization, and one
32 representative from the association of county human services. Amounts
33 provided in this section may be used for construction and equipment
34 costs associated with establishment or preservation of the
35 facilities. The department may approve funding for the acquisition of
36 a facility if the project will result in increased behavioral health
37 capacity. Amounts provided in this section may not be used for

2 services.

3 (2) In awarding funding for projects in subsection (5) of this
4 section, the department must establish criteria for the issuance of
5 the grants, which must include:

6 (a) Evidence that the application was developed in collaboration

8 the purchasing of services;

9 (b) Evidence that the applicant has assessed and would meet gaps
10 in geographical availability of behavioral health services in their
11 region;

13 licensing and certification requirements in the facility that will be
14 used to provide services;

20 investment, but for at least a 10-year period;

21 (f) The date upon which structural modifications or construction
22 would begin and the anticipated date of completion of the project;

23 (g) A detailed estimate of the costs associated with opening the
24 beds;

25 (h) A financial plan demonstrating the applicant's ability to
26 maintain and operate the facility; and

27 (i) The applicant's commitment to work with local courts and
28 prosecutors to ensure that prosecutors and courts in the area served

32 section, the department, in consultation with the advisory group
33 established in subsection (1) of this section, must strive for

13 development account—state appropriation in this section is provided

16 learning facilities development account—state and \$6,720,000 of the
17 Ruth LeCocq Kagi early learning facilities revolving account—state
18 appropriations in this section (~~(is)~~) are provided solely for the
19 early learning facility grant and loan program, subject to the
20 provisions of RCW 43.31.573 through 43.31.583 and 43.84.092, to
21 provide state assistance for designing, constructing, purchasing,
22 expanding, or modernizing public or private early learning education
23 facilities for eligible organizations. Up to four percent of the
24 funding in this subsection may be used by the department of children,
25 youth, and families to provide technical assistance to early learning
26 providers interested in applying for the early learning facility
27 grant or loan program.

28 (3) The department of children, youth, and families must develop
29 methodology to identify, at the school district boundary level, the
30 geographic locations of where early childhood education and
31 assistance program slots are needed to meet the entitlement specified
32 in RCW 43.216.556. This methodology must be linked to the caseload
33 forecast produced by the caseload forecast council and must include
34 estimates of the number of slots needed at each school district. This
35 methodology must inform any early learning facilities needs
36 assessment conducted by the department and the department of
37 children, youth, and families. This methodology must be included as
38 part of the budget submittal documentation required by RCW 43.88.030.

2 childhood education and assistance program slots, the committee of
3 early learning experts convened by the department pursuant to RCW
4 43.31.581 must first consider those areas at risk of not meeting the
5 entitlement specified in RCW 43.216.556.

6 (5) The department must track the number of slots being renovated
7 separately from the number of slots being constructed and, within
8 these categories, must track the number of slots separately by
9 program for the working connections child care program and the early
10 childhood education and assistance program.

11 (6) When prioritizing applications for projects pursuant to RCW
12 43.31.581, the department must award priority points to applications
13 from a rural county or from extreme child care deserts as defined by
14 the department of children, youth, and families.

15 (7) For early learning facilities collocated with affordable or
16 supportive housing developments, the department may remit state
17 funding on a reimbursement basis for 100 percent of eligible project
18 costs, regardless of the project's match amount, once the nonstate
19 share of project costs have been either expended or firmly committed
20 in an amount sufficient to complete the entire project or a distinct
21 phase of the project that is useable to the public as an early
22 learning facility. These projects are not subject to section 8015 of
23 this act or RCW 43.88.150.

24 (8) It is the intent of the legislature to reappropriate funding
25 in the 2023-2025 omnibus capital appropriations act for early
26 learning facilities appropriated in this section.

5 follows:

6 **FOR THE DEPARTMENT OF COMMERCE**

7 2024 Local and Community Projects (40000301)

8 The appropriations in this section are subject to the following
9 conditions and limitations:

10 (1) The department shall not expend the appropriation in this
11 section unless and until the nonstate share of project costs have
12 been either expended or firmly committed, or both, in an amount
13 sufficient to complete the project or a distinct phase of the project
14 that is useable to the public for the purpose intended by the
15 legislature. This requirement does not apply to projects where a
16 share of the appropriation is for design costs only.

17 (2) Prior to receiving funds, project recipients must demonstrate
18 that the project site is under control for a minimum of 10 years,

29 department shall include provisions that require that capital
30 improvements be held by the grantee for a specified period of time
31 appropriate to the amount of the grant and that facilities be used
32 for the express purpose of the grant. If the grantee is found to be
33 out of compliance with provisions of the contract, the grantee shall
34 repay to the state general fund the principal amount of the grant
35 plus interest calculated at the rate of interest on state of
36 Washington general obligation bonds issued most closely to the date
37 of authorization of the grant.

7 The appropriation in this section is subject to the following
8 conditions and limitations:

9 ~~(1) ((a) \$21,450,000 of the appropriation in this section is~~
10 ~~provided solely for grants to projects that demonstrate high-wage,~~

4 plus interest calculated at the rate of interest on state of
5 Washington general obligation bonds issued most closely to the date
6 of authorization of the grant.

2 **MISCELLANEOUS PROVISIONS**

3 NEW SECTION. **Sec. 8001.** RCW 43.88.031 requires the disclosure
4 of the estimated debt service costs associated with new capital bond
5 appropriations. The estimated debt service costs for the
6 appropriations contained in this act are \$76,597,763 for the
7 2025-2027 biennium, \$428,753,156 for the 2027-2029 biennium, and
8 \$659,947,312 for the 2029-2031 biennium.

9 NEW SECTION. **Sec. 8002.** ACQUISITION OF PROPERTIES AND
10 FACILITIES THROUGH FINANCIAL CONTRACTS. (1) The following agencies
11 may enter into financial contracts, paid from any funds of an agency,
12 appropriated or nonappropriated, for the purposes indicated and in
13 not more than the principal amounts indicated, plus financing
14 expenses and required reserves pursuant to chapter 39.94 RCW. When
15 securing properties under this section, agencies shall use the most
16 economical financial contract option available, including long-term
17 leases, lease-purchase agreements, lease-development with option to
18 purchase agreements or financial contracts using certificates of
19 participation. Expenditures made by an agency for one of the
20 indicated purposes before the issue date of the authorized financial
21 contract and any certificates of participation therein are intended
22 to be reimbursed from proceeds of the financial contract and any
23 certificates of participation therein to the extent provided in the
24 agency's financing plan approved by the state finance committee.

25 (2) Those noninstructional facilities of higher education
26 institutions authorized in this section to enter into financial
27 contracts are not eligible for state funded maintenance and
28 operations. Instructional space that is available for regularly
29 scheduled classes for academic transfer, basic skills, and workforce
30 training programs may be eligible for state funded maintenance and
31 operations.

32 (3) Western Washington University: Enter into a financing
33 contract for up to \$3,000,000 plus financing expenses, required
34 reserves, and capitalized interest pursuant to chapter 39.94 RCW to
35 construct a parking lot replacement.

36 (4) Community and technical colleges:

37 (a) Enter into a financing contract on behalf of Columbia Basin
38 College for up to \$18,000,000 plus financing expenses, required

1 reserves, and capitalized interest pursuant to chapter 39.94 RCW to
2 construct student housing.

3 (b) Enter into a financing contract on behalf of Edmonds College
4 for up to \$9,000,000 plus financing expenses, required reserves, and
5 capitalized interest pursuant to chapter 39.94 RCW to construct
6 student housing.

7 (c) Enter into a financing contract on behalf of Clover Park
8 Technical College for up to \$15,000,000 plus financing expenses,
9 required reserves, and capitalized interest pursuant to chapter 39.94
10 RCW to construct an eastside training facility.

11 (5) Washington State University: Enter into a financing contract
12 for up to \$5,000,000 plus financing expenses, required reserves, and
13 capitalized interest pursuant to chapter 39.94 RCW to purchase the
14 ignite building in Spokane.

15 NEW SECTION. **Sec. 8003.** (1) To ensure that major construction
16 projects are carried out in accordance with legislative and executive
17 intent, agencies must complete a predesign for state construction
18 projects with a total anticipated cost in excess of \$10,000,000. For
19 purposes of this section, "total anticipated cost" means the sum of
20 the anticipated cost of the predesign, design, and construction
21 phases of the project.

22 (2) Appropriations for design may not be expended or encumbered
23 until the office of financial management has reviewed and approved
24 the agency's predesign.

25 (3) The predesign must explore at least three project
26 alternatives. These alternatives must be both distinctly different
27 and viable solutions to the issue being addressed. The chosen
28 alternative should be the most reasonable and cost-effective
29 solution. The predesign document must include, but not be limited to,
30 program, site, and cost analysis, and an analysis of the life-cycle
31 costs of the alternatives explored, in accordance with the predesign
32 manual adopted by the office of financial management.

33 (4) For projects exceeding the \$10,000,000 predesign threshold
34 established in this section, the office of financial management may
35 make an exception to some or all of the predesign requirements in
36 this section. The office of financial management shall report any
37 exception to the fiscal committees of the legislature:

38 (a) A description of the major capital project for which the
39 predesign waiver is made;

1 (b) An explanation of the reason for the waiver; and

2 (c) A rough order of magnitude cost estimate for the project's
3 design and construction.

4 (5) In deliberations related to submitting an exception under
5 this section, the office of financial management shall consider the
6 following factors:

7 (a) Whether there is any determination to be made regarding the
8 site of the project;

9 (b) Whether there is any determination to be made regarding
10 whether the project will involve renovation, new construction, or
11 both;

12 (c) Whether, within six years of submitting the request for
13 funding, the agency has completed, or initiated the construction of,
14 a substantially similar project;

15 (d) Whether there is any anticipated change to the project's
16 program or the services to be delivered at the facility;

17 (e) Whether the requesting agency indicates that the project may
18 not require some or all of the predesign requirements in this section
19 due to a lack of complexity; and

20 (f) Whether any other factors related to project complexity or
21 risk, as determined by the office of financial management, could
22 reduce the need for, or scope of, a predesign.

23 (6) If under this section, some or all predesign requirements are
24 waived, the office of financial management may instead propose a
25 professional project cost estimate instead of a request for predesign
26 funding.

27 NEW SECTION. **Sec. 8004.** (1) The legislature finds that use of
28 life-cycle cost analysis will aid public entities, architects,
29 engineers, and contractors in making design and construction
30 decisions that positively impact both the initial construction cost
31 and the ongoing operating and maintenance cost of a project. To
32 ensure that the total cost of a project is accounted for and the most
33 reasonable and cost efficient design is used, agencies shall develop
34 life-cycle costs for any construction project over \$10,000,000. The
35 life-cycle costs must represent the present value sum of capital
36 costs, installation costs, operating costs, and maintenance costs
37 over the life expectancy of the project. The legislature further
38 finds the most effective approach to the life-cycle cost analysis is
39 to integrate it into the early part of the design process.

1 (2) Agencies must develop a minimum of three project alternatives
2 for use in the life-cycle cost analysis. These alternatives must be
3 both distinctly different and viable solutions to the issue being
4 addressed. Agencies must choose the most reasonable and cost-
5 effective solution, as supported by the life-cycle cost analysis. A
6 brief description of each project alternative and why it was chosen
7 must be included in the life-cycle cost analysis section of the
8 predesign.

9 (3) The office of financial management shall: (a) Make available
10 a life-cycle cost model to be used for analysis; (b) in consultation
11 with the department of enterprise services, provide assistance in
12 using the life-cycle cost model; and (c) update the life-cycle cost
13 model annually including assumptions for inflation rates, discount
14 rates, and energy rates.

15 (4) Agencies shall consider architectural and engineering firms'
16 and general contractors' experience using life-cycle costs, operating
17 costs, and energy efficiency measures when selecting an architectural
18 and engineering firm, or when selecting contractors using alternative
19 contracting methods.

20 NEW SECTION. **Sec. 8005.** Agencies administering construction
21 projects with a total anticipated cost in excess of \$10,000,000 must
22 submit progress reports to the office of financial management and to
23 the fiscal committees of the house of representatives and senate.
24 "Total anticipated cost" means the sum of the anticipated cost of the
25 predesign, design, and construction phases of the project. Reports
26 must be submitted on July 1st and December 31st of each year in a
27 format determined by the office of financial management. After the
28 project is completed, agencies must also submit a closeout report
29 that identifies the total project cost and any unspent
30 appropriations.

31 NEW SECTION. **Sec. 8006.** (1) Allotments for appropriations in
32 this act shall be provided in accordance with the capital project
33 review requirements adopted by the office of financial management and
34 in compliance with RCW 43.88.110. Projects that will be employing
35 alternative public works construction procedures under chapter 39.10
36 RCW are subject to the allotment procedures defined in this section
37 and RCW 43.88.110.

1 (2) Each project is defined as proposed in the legislative budget
2 notes or in the governor's budget document.

3 NEW SECTION. **Sec. 8007.** (1) The office of financial management
4 may authorize a transfer of appropriation authority provided for a
5 capital project that is in excess of the amount required for the
6 completion of such project to another capital project for which the
7 appropriation is insufficient. No such transfer may be used to expand
8 the capacity of any facility beyond that intended in making the
9 appropriation. Such transfers may be effected only between capital
10 appropriations to a specific department, commission, agency, or
11 institution of higher education and only between capital projects
12 that are funded from the same fund or account. No transfers may occur
13 between projects to local government agencies except where the grants
14 are provided within a single omnibus appropriation and where such
15 transfers are specifically authorized by the implementing statutes
16 that govern the grants.

17 (2) The office of financial management may find that an amount is
18 in excess of the amount required for the completion of a project only
19 if: (a) The project as defined in the notes to the budget document is
20 substantially complete and there are funds remaining; or (b) bids
21 have been let on a project and it appears to a substantial certainty
22 that the project as defined in the notes to the budget document can
23 be completed within the biennium for less than the amount
24 appropriated in this act.

25 (3) For the purposes of this section, the intent is that each
26 project be defined as proposed to the legislature in the governor's
27 budget document, unless it clearly appears from the legislative
28 history that the legislature intended to define the scope of a
29 project in a different way.

30 (4) A report of any transfer effected under this section, except
31 emergency projects or any transfer under \$250,000, shall be filed
32 with the fiscal committees of the legislature by the office of
33 financial management at least 30 days before the date the transfer is
34 effected. The office of financial management shall report all
35 emergency or smaller transfers within 30 days from the date of
36 transfer.

37 NEW SECTION. **Sec. 8008.** Any building project that receives over
38 \$10,000,000 in funding from the capital budget must be built to

1 sustainable standards. "Sustainable building" means a building that
2 integrates and optimizes all major high-performance building
3 attributes, including energy efficiency, durability, life-cycle
4 performance, and occupant productivity, and minimizes greenhouse gas
5 emissions. The following design and construction attributes must be
6 integrated into the building project:

7 (1) Employ integrated design principles: Use a collaborative,
8 integrated planning and design process that initiates and maintains
9 an integrated project team in all stages of a project's planning and
10 delivery. Establish performance goals for siting, energy, water,
11 materials, and indoor environmental quality along with other
12 comprehensive design goals and ensures incorporation of these goals
13 throughout the design and life-cycle of the building. Consider all
14 stages of the building's life-cycle, including deconstruction.

15 (2) Commissioning: Employ commissioning practices tailored to the
16 size and complexity of the building and its system components in
17 order to verify performance of building components and systems and
18 help ensure that design requirements are met. This should include an
19 experienced commissioning provider, inclusion of commissioning
20 requirements in construction documents, a commissioning plan,
21 verification of the installation and performance of systems to be
22 commissioned, and a commissioning report.

23 (3) Optimize energy performance: Establish a whole building
24 performance target that takes into account the intended use,
25 occupancy, operations, plug loads, other energy demands, and design
26 to earn the ENERGY STAR targets for new construction and major
27 renovation where applicable. For new construction target low energy
28 use index. For major renovations, target reducing energy use by 50
29 percent below preretrofit baseline.

30 (4) On-site renewable energy: Implement renewable energy
31 generation projects on agency property for agency use, when life-
32 cycle cost effective.

33 (5) High-efficiency electric equipment: Use only high-efficiency
34 electric equipment for water and space heating needs not met through
35 on-site renewable energy, when life-cycle cost effective.

36 (6) Measurement and verification: For buildings over 50,000
37 square feet, install building level electricity meters in new major
38 construction and renovation projects to track and continuously
39 optimize performance. Include equivalent meters for natural gas and
40 steam, where natural gas and steam are used. Where appropriate,

1 install dashboards inside buildings to display and incentivize
2 occupants on energy use.

3 (7) Benchmarking: Compare performance data from the first year of
4 operation with the energy design target. Verify that the building
5 performance meets or exceeds the design target. For other building
6 and space types, use an equivalent benchmarking tool.

7 NEW SECTION. **Sec. 8009.** State agencies, including institutions
8 of higher education, shall allot and report full-time equivalent
9 staff for capital projects in a manner comparable to staff reporting
10 for operating expenditures.

11 NEW SECTION. **Sec. 8010.** Executive Order No. 21-02,
12 archaeological and cultural resources, was issued effective April 7,
13 2021. Agencies shall comply with the requirements set forth in this
14 executive order and must consult with the department of archaeology
15 and historic preservation and affected tribes on the potential
16 effects of projects on cultural resources and historic properties
17 proposed in state-funded construction or acquisition projects,
18 including grant or pass-through funding that culminates in
19 construction or land acquisitions. Consultation with the department
20 of archaeology and historic preservation and affected tribes must be
21 initiated early in the project planning process, prior to
22 construction or taking title.

23 NEW SECTION. **Sec. 8011.** FOR THE ARTS COMMISSION—ART WORK

25 act for original construction of school plant facilities is provided
26 solely for the purposes of RCW 28A.335.210.

27 (2) One-half of one percent of moneys appropriated in this act
28 for original construction or any major renovation or remodel work
29 exceeding \$200,000 by colleges or universities is provided solely for

7 NEW SECTION. **Sec. 8012.** To carry out the provisions of this
8 act, the governor may assign responsibility for predesign, design,
9 construction, and other related activities to any appropriate agency.

10 NEW SECTION. **Sec. 8013.** If any federal moneys appropriated by
11 this act for capital projects are not received by the state, the
12 department or agency to which the moneys were appropriated may
13 replace the federal moneys with funds available from private or local
14 sources. No replacement may occur under this section without the
15 prior approval of the director of financial management in
16 consultation with the senate ways and means committee and the house
17 of representatives capital budget committee.

18 NEW SECTION. **Sec. 8014.** (1) Unless otherwise stated, for all
19 appropriations under this act that require a match of nonstate money
20 or in-kind contributions, the following requirement, consistent with
21 RCW 43.88.150, shall apply: Expenditures of state money shall be
22 timed so that the state share of project expenditures never exceeds
23 the intended state share of total project costs.

24 (2) Provision of the full amount of required matching funds is
25 not required to permit the expenditure of capital budget
26 appropriations for phased projects if a proportional amount of the
27 required matching funds is provided for each distinct, identifiable
28 phase of the project.

29 NEW SECTION. **Sec. 8015.** NONTAXABLE AND TAXABLE BOND PROCEEDS.
30 Portions of the appropriation authority granted by this act from the
31 state building construction account, or any other account receiving
32 bond proceeds, may be transferred to the state taxable building
33 construction account as deemed necessary by the state treasurer, on
34 behalf of the state finance committee, to comply with the federal
35 internal revenue service rules and regulations pertaining to the use
36 of nontaxable bond proceeds. Portions of the general obligation bond

1 proceeds authorized by chapter . . ., Laws of 2025 ((Z-0218/25) state
2 general obligation bonds and related accounts) for deposit into the
3 state taxable building construction account that are in excess of
4 amounts required to comply with the federal internal revenue service
5 rules and regulations shall be deposited into the state building
6 construction account. The state treasurer shall submit written
7 notification to the director of financial management and the
8 legislative evaluation and accountability program committee if it is
9 determined that a shift of appropriation authority between the state
10 building construction account, or any other account receiving bond
11 proceeds, and the state taxable building construction account is
12 necessary, or that a shift of appropriation authority from the state
13 taxable building construction account, or any other account receiving
14 taxable bond proceeds, to the state building construction account may
15 be made.

16 NEW SECTION. **Sec. 8016.** (1) For the 2025-2027 fiscal biennium,
17 unless otherwise specified for a single purpose, agencies are
18 appropriated one lump sum for minor works projects. It is the intent
19 of the legislature that appropriated funds be spent in the biennium
20 for which they are appropriated.

21 (2) Minor works projects may not exceed \$4,000,000 for
22 institutions of higher education and \$2,000,000 for all other
23 agencies. Administrative fees may not exceed four percent for each
24 project.

25 (3) Except as provided by the legislature, agencies are
26 encouraged to prioritize minor works projects based on:

- 27 (a) Health and safety of employees or clients served;
28 (b) The amount of use of a given facility or system;
29 (c) The avoidance of future increased costs of repair or
30 maintenance; and
31 (d) The avoidance of increased operating costs.

32 (4) Minor works appropriations may not be used for:

34 combined over a continuous period of time, would exceed the amounts
35 provided in subsection (2) of this section;

- 36 (b) Studies, planning, or design, except for technical or
37 engineering reviews or designs that lead directly to and support a
38 minor works project;

1 (c) Movable, temporary, and traditionally funded operating
2 equipment not in compliance with the equipment criteria established
3 by the office of financial management, including rolling stock and
4 computers;

5 (d) Software not dedicated to control of a specialized system;

11 (5) If a minor works appropriation does not specify it is to be
12 used for preservation or program improvements, up to 25 percent of
13 the appropriation may be used for program improvements. Improvements
14 for accessibility in compliance with the Americans with disabilities
15 act qualify as preservation improvements.

16 (6) Agencies must use reappropriations before newly appropriated
17 amounts without regard to lists or projects that were submitted at
18 the time the funds were appropriated.

19 (7) No later than December 15th of each even numbered year,
20 agencies must submit to the governor, house capital budget committee,
21 and senate ways and means committee, a list of minor works projects
22 completed or in progress for the current biennium including: Project
23 status, project cost, amount expended, and amount encumbered for
24 projects not yet complete.

25 (8) Requests for minor works appropriations for the next biennium
26 must take into account minor works amounts to be reappropriated and
27 the amount of minor works projects that can reasonably be completed
28 in the next biennium.

29 NEW SECTION. **Sec. 8017.** To the extent that any appropriation
30 authorizes expenditures of state funds from the state building
31 construction account, or from any other capital project account in
32 the state treasury, for a capital project or program that is
33 specified to be funded with proceeds from the sale of bonds, the
34 legislature declares that any such expenditures for that project or
35 program made prior to the issue date of the applicable bonds are
36 intended to be reimbursed from proceeds of those bonds in a maximum
37 amount equal to the amount of such appropriation.

38 NEW SECTION. **Sec. 8018. FOR THE STATE TREASURER—TRANSFERS**

4 for fiscal year 2027. \$41,000,000
5 (2) Public Works Assistance Account: For transfer
6 to the drinking water assistance account—state, up to
7 \$12,500,000 for fiscal year 2026 and up to \$12,500,000
8 for fiscal year 2027. \$25,000,000

9 NEW SECTION. **Sec. 8019.** The department of natural resources
10 must coordinate with the department of social and health services on
11 any long-term, revenue-generating opportunities it pursues on the
12 Fircrest campus to ensure that the clients served by the residential
13 habilitation center and its daily operations will not be negatively
14 impacted.

15 NEW SECTION. **Sec. 8020.** In order to accelerate the reduction of
16 embodied carbon and improve the environmental performance of
17 construction materials, agencies shall, whenever possible, review and
18 consider embodied carbon reported in environmental product
19 declarations when evaluating proposed structural materials for
20 construction projects.

21 NEW SECTION. **Sec. 8021.** Any agency receiving appropriations in
22 this act from climate commitment act accounts created in RCW
23 70A.65.240 through 70A.65.280 must report to and coordinate with the
24 department of ecology to track expenditures as described in RCW
25 70A.65.300 and chapter 173-446B WAC.

26 NEW SECTION. **Sec. 8022.** The legislature intends that
27 appropriations for grant programs and community projects be spent in
28 a timely manner in order to accomplish the goal for which they were
29 appropriated. In furtherance of this goal, the legislature does not
30 intend to reappropriate moneys for projects for which a contract has
31 not been executed within four years from the date of appropriation or
32 for which appropriations have not been spent within six years of
33 appropriation. Nothing in this section or this act that contains
34 lapsing language operates as a guarantee of reappropriation.

1 **Sec. 8023.** RCW 79A.25.210 and 2024 c 375 s 8007 are each amended
2 to read as follows:

3 The firearms range account is hereby created in the state general
4 fund. Moneys in the account shall be subject to legislative
5 appropriation and shall be used for purchase and development of land,
6 construction or improvement of range facilities, including fixed
7 structure construction or remodeling, equipment purchase, safety or
8 environmental improvements, noise abatement, and liability protection
9 for public and nonprofit firearm range training and practice
10 facilities.

11 Grant funds shall not be used for expendable shooting supplies,
12 or normal operating expenses. In making grants, the board shall give
13 priority to projects for noise abatement or safety improvement. Grant
14 funds shall not supplant funds for other organization programs.

15 The funds will be available to nonprofit shooting organizations,
16 school districts, and state, county, or local governments on a match
17 basis. All entities receiving matching funds must be open on a
18 regular basis and usable by law enforcement personnel or the general
19 public who possess Washington concealed pistol licenses or Washington
20 hunting licenses or who are enrolled in a firearm safety class.

21 Applicants for a grant from the firearms range account shall
22 provide matching funds in either cash or in-kind contributions. The
23 match must represent one dollar in value for each one dollar of the
24 grant except that in the case of a grant for noise abatement or
25 safety improvements the match must represent one dollar in value for
26 each two dollars of the grant. In-kind contributions include but are
27 not limited to labor, materials, and new property. Existing assets
28 and existing development may not apply to the match.

29 Applicants other than school districts or local or state
30 government must be registered as a nonprofit or not-for-profit
31 organization with the Washington secretary of state. The
32 organization's articles of incorporation must contain provisions for
33 the organization's structure, officers, legal address, and registered
34 agent.

35 Organizations requesting grants must provide the hours of range
36 availability for public and law enforcement use. The fee structure
37 will be submitted with the grant application.

38 Any nonprofit organization or agency accepting a grant under this
39 program will be required to pay back the entire grant amount to the

1 firearms range account if the use of the range facility is
2 discontinued less than ten years after the grant is accepted.

3 Entities receiving grants must make the facilities for which
4 grant funding is received open for hunter safety education classes
5 and firearm safety classes on a regular basis for no fee.

6 Government units or school districts applying for grants must
7 open their range facility on a regular basis for hunter safety
8 education classes and firearm safety classes.

9 The board shall adopt rules to implement chapter 195, Laws of
10 1990, pursuant to chapter 34.05 RCW. During the 2017-2019 and
11 2019-2021 fiscal biennia, expenditures from the firearms range
12 account may be used to implement chapter 74, Laws of 2017 (SHB 1100)
13 (concealed pistol licenses) and chapter 282, Laws of 2017 (SB 5268)
14 (concealed pistol license notices). During the 2021-2023 and
15 2023-2025 fiscal biennia, expenditures from the firearms range
16 account may be used to implement chapter 74, Laws of 2017 (SHB 1100)
17 (concealed pistol licenses).

18 During the 2023-2025 and 2025-2027 fiscal (~~(biennium)~~) biennia,
19 the legislature may also appropriate moneys in the firearms range
20 account to the department of natural resources for recreational
21 target shooting pilot sites as provided in section 3032, chapter 375,
22 Laws of 2024.

23 During the 2023-2025 and 2025-2027 fiscal (~~(biennium)~~) biennia,
24 the application and matching funds requirements of this section do
25 not apply to the recreational target shooting pilot sites in section
26 3032, chapter 375, Laws of 2024.

27 **Sec. 8024.** RCW 28A.525.159 and 2020 c 299 s 1 are each amended
28 to read as follows:

29 (1) School construction assistance program grants for small
30 school districts and state-tribal education compact schools must be
31 determined in accordance with this section.

32 (2) Eligibility. School districts and state-tribal education
33 compact schools with enrollments that are less than or equal to (~~one~~
34 ~~thousand~~) 1,000 students are eligible for small school district
35 modernization grants. The advisory committee specified in subsection
36 (4)(a) of this section may recommend amendments to the eligibility
37 threshold as they learn more about the characteristics of school
38 districts and state-tribal education compact schools that are unable
39 to modernize their aging school facilities. Districts with incomplete

1 information in the inventory and condition of schools data system are
2 not eligible to apply for construction grants but may apply for
3 planning grants.

4 (3) The office of the superintendent of public instruction must
5 assist eligible school districts and state-tribal education compact
6 schools that are interested in applying for a small school district
7 modernization grant under this section by providing technical
8 assistance and planning grants within appropriations for this
9 purpose. Districts and state-tribal education compact schools seeking
10 planning grants must provide a brief statement of the school
11 condition, its deficiencies, student enrollment, student achievement
12 measures, and financial limitations of the district or state-tribal
13 education compact school. If applications for planning grants exceed
14 funds available, the office of the superintendent of public
15 instruction may prioritize the recipients of planning grants in order
16 to help districts and state-tribal education compact schools with the
17 most serious apparent building deficiencies, and the most limited
18 financial capacity.

19 (4) Prioritized construction grants and advisory committee.

20 (a) The superintendent of public instruction must propose a list
21 of prioritized grants to the governor by September 1st of even-
22 numbered years. The superintendent of public instruction must appoint
23 an advisory committee to prioritize applications from small school
24 districts and state-tribal education compact schools. Committee
25 members must have experience in financing, managing, repairing, and
26 improving school facilities in small school districts or state-tribal
27 education compact schools but must not be involved in a small school
28 district modernization program grant request for the biennium under
29 consideration. The office of the superintendent of public instruction
30 must provide administrative and staff support to the (~~(advisory)~~)
31 advisory committee. The office of the superintendent of public
32 instruction in consultation with the advisory committee must design a
33 grant application process with specific criteria for prioritizing
34 grant requests.

35 (b) The advisory committee created in (a) of this subsection must
36 evaluate final applications from eligible school districts and state-
37 tribal education compact schools. The advisory committee must submit
38 a prioritized list of grants to the superintendent of public
39 instruction. The list must prioritize applications to achieve the
40 greatest improvement of school facilities, in the districts and

1 state-tribal education compact schools with the most limited
2 financial capacity, for projects that are likely to improve student
3 health, safety, and academic performance for the largest number of
4 students for the amount of state grant support. The advisory
5 committee must develop specific criteria to achieve the
6 prioritization. The submitted prioritized list must describe the
7 project, the proposed state funding level, and the estimated total
8 project cost including other funding and in-kind resources. The list
9 must also indicate student achievement measures that will be used to
10 evaluate the benefits of the project. The superintendent of public
11 instruction and the governor may determine the level of funding in
12 their omnibus capital appropriations act requests to support small
13 school district modernization grants, but their funding requests must
14 follow the prioritized list prepared by the advisory committee unless
15 new information determines that a specific project is no longer
16 viable as proposed.

17 (5) Coordination with the school construction assistance program.

18 (a) The full administrative and procedural process of school
19 construction assistance program funding under RCW 28A.525.162 through
20 28A.525.180 may be streamlined by the office of the superintendent of
21 public instruction in order to coordinate eligible school
22 construction assistance program funding with the small school
23 district modernization grants. Such coordination must ensure that
24 total state funding from both grants does not exceed total project
25 costs minus available local resources.

26 (b) Projects seeking small school district modernization grants
27 must meet the requirements for a school construction assistance
28 program grant except for the following: (i) The estimated cost of the
29 project may be less than (~~forty~~) 40 percent of the estimated
30 replacement value of the facility, and (ii) local funding assistance
31 percentage requirements of the school construction assistance program
32 do not apply. However, available district and state-tribal education
33 compact school resources are considered in prioritizing small school
34 district modernization grants.

35 (6) Disbursement of grant funds and reporting requirements. The
36 office of the superintendent of public instruction must award grants
37 to school districts and state-tribal education compact schools. The
38 grant must not be awarded until the district or state-tribal
39 education compact school has identified available local and other
40 resources sufficient to complete the approved project considering the

1 amount of the state grant. The grant must specify reporting
2 requirements from the district or state-tribal education compact
3 school, which must include updating all pertinent information in the
4 inventory and condition of schools data system and submitting a final
5 project report as specified by the office of the superintendent of
6 public instruction in consultation with the school facilities
7 citizen(~~s~~[citizen]) advisory panel specified in RCW 28A.525.025.

8 (7) During the 2025-2027 fiscal biennium, grant awards may not be
9 used to supplant local funds for purposes of qualifying for school
10 construction assistance grants under RCW 28A.525.162.

11 **Sec. 8025.** RCW 28B.20.725 and 2023 c 474 s 8023 are each amended
12 to read as follows:

13 The board is hereby empowered:

14 (1) To reserve the right to issue bonds later on a parity with
15 any bonds being issued;

16 (2) To authorize the investing of moneys in the bond retirement
17 fund and any reserve account therein;

18 (3) To authorize the transfer of money from the University of
19 Washington building account to the bond retirement fund when
20 necessary to prevent a default in the payments required to be made
21 out of such fund;

22 (4) To create a reserve account or accounts in the bond
23 retirement fund to secure the payment of the principal of and
24 interest on any bonds;

25 (5) To authorize the transfer to the University of Washington
26 building account of any money on deposit in the bond retirement fund
27 in excess of debt service for a period of three years from the date
28 of such transfer on all outstanding bonds payable out of such fund.

29 (~~However, during the 2021-2023 fiscal biennium, the legislature may~~
30 ~~transfer to the University of Washington building account moneys that~~
31 ~~are in excess of the debt service due within the 2021-2023 fiscal~~
32 ~~biennium from the date of such transfer on all outstanding bonds~~
33 ~~payable out of the bond retirement fund.)) However, during the~~

34 2023-2025 and 2025-2027 fiscal (~~biennium~~) biennia, the legislature
35 may transfer to the University of Washington building account moneys
36 that are in excess of the debt service due within the (~~2023-2025~~)
37 respective fiscal biennium from the date of such transfer on all
38 outstanding bonds payable out of the bond retirement fund.

1 **Sec. 8026.** RCW 28B.15.210 and 2023 c 474 s 8024 are each amended
2 to read as follows:

3 Within 35 days from the date of collection thereof, all building
4 fees at the University of Washington, including building fees to be
5 charged students registering in the schools of medicine and
6 dentistry, shall be paid into the state treasury and credited as
7 follows:

8 One-half or such larger portion as may be necessary to prevent a
9 default in the payments required to be made out of the bond
10 retirement fund to the "University of Washington bond retirement

9 costs, and facility condition assessments. Expenditures so made shall
10 be accounted for in accordance with existing law and shall not be
11 expended until appropriated by the legislature.

12 The sum so credited to the Washington State University bond

8 to read as follows:

9 Within 35 days from the date of collection thereof all building

17 school fund revenues, shall certify to the state treasurer the
18 amounts required in the ensuing 12 months to pay and secure the
19 payment of the principal of and interest on such bonds. The amounts
20 so certified by each regional university and The Evergreen State
21 College shall be a prior lien and charge against all building fees
22 and above described normal school fund revenues of such institution.
23 The state treasurer shall thereupon deposit the amounts so certified
24 in the Eastern Washington University capital projects account, the
25 Central Washington University capital projects account, the Western
26 Washington University capital projects account, or The Evergreen
27 State College capital projects account respectively, which accounts
28 are hereby created in the state treasury. The amounts deposited in
29 the respective capital projects accounts shall be used to pay and
30 secure the payment of the principal of and interest on the building
31 bonds issued by such regional universities and The Evergreen State
32 College as authorized by law. If in any 12-month period it shall
33 appear that the amount certified by any such board of trustees is
34 insufficient to pay and secure the payment of the principal of and
35 interest on the outstanding building and above described normal
36 school fund revenue bonds of its institution, the state treasurer
37 shall notify the board of trustees and such board shall adjust its
38 certificate so that all requirements of moneys to pay and secure the

1 payment of the principal of and interest on all such bonds then
2 outstanding shall be fully met at all times.

3 (2) All normal school fund revenue pursuant to RCW 28B.35.751
4 shall be deposited in the Eastern Washington University capital
5 projects account, the Central Washington University capital projects
6 account, the Western Washington University capital projects account,

11 principal of and interest on bonds payable out of the building fees
12 and normal school revenue and for the construction, reconstruction,
13 erection, equipping, maintenance, demolition and major alteration of
14 buildings and other capital assets, and the acquisition of sites,
15 rights-of-way, easements, improvements or appurtenances in relation
16 thereto except for any sums transferred therefrom as authorized by
17 law. (~~During the 2021-2023 biennium, sums in the respective capital~~
18 ~~accounts may also be used for routine facility maintenance, utility~~
19 ~~costs, and facility condition assessments.)) During the 2023-2025
20 ((~~biennium~~)) and 2025-2027 fiscal biennia, sums in the respective
21 capital accounts may also be used for routine facility maintenance,
22 utility costs, and facility condition assessments.~~

23 (3) Funds available in the respective capital projects accounts
24 may also be used for certificates of participation under chapter
25 39.94 RCW.

26 **Sec. 8030.** RCW 28B.50.360 and 2023 c 474 s 8028 are each amended
27 to read as follows:

28 Within 35 days from the date of start of each quarter all
29 collected building fees of each such community and technical college
30 shall be paid into the state treasury, and shall be credited as
31 follows:

32 (1) On or before June 30th of each year the college board, if
33 issuing bonds payable out of building fees, shall certify to the
34 state treasurer the amounts required in the ensuing 12-month period
35 to pay and secure the payment of the principal of and interest on
36 such bonds. The state treasurer shall thereupon deposit the amounts
37 so certified in the community and technical college capital projects
38 account. Such amounts of the funds deposited in the community and
39 technical college capital projects account as are necessary to pay

1 and secure the payment of the principal of and interest on the
2 building bonds issued by the college board as authorized by this
3 chapter shall be devoted to that purpose. If in any 12-month period
4 it shall appear that the amount certified by the college board is
5 insufficient to pay and secure the payment of the principal of and
6 interest on the outstanding building bonds, the state treasurer shall
7 notify the college board and such board shall adjust its certificate
8 so that all requirements of moneys to pay and secure the payment of
9 the principal and interest on all such bonds then outstanding shall
10 be fully met at all times.

11 (2) The community and technical college capital projects account
12 is hereby created in the state treasury. The sums deposited in the
13 capital projects account shall be appropriated and expended to pay
14 and secure the payment of the principal of and interest on bonds
15 payable out of the building fees and for the construction,
16 reconstruction, erection, equipping, maintenance, demolition and
17 major alteration of buildings and other capital assets owned by the
18 state board for community and technical colleges in the name of the
19 state of Washington, and the acquisition of sites, rights-of-way,
20 easements, improvements or appurtenances in relation thereto,
21 engineering and architectural services provided by the department of
22 enterprise services, and for the payment of principal of and interest
23 on any bonds issued for such purposes. (~~During the 2021-2023~~
24 ~~biennium, sums in the capital projects account may also be used for~~
25 ~~routine facility maintenance and utility costs.~~) During the
26 2023-2025 (~~biennium~~) and 2025-2027 fiscal biennia, sums in the
27 capital projects account may also be used for routine facility
28 maintenance and utility costs.

29 (3) Funds available in the community and technical college
30 capital projects account may also be used for certificates of
31 participation under chapter 39.94 RCW.

32 **Sec. 8031.** RCW 39.35D.030 and 2023 c 474 s 8029 are each amended
33 to read as follows:

34 (1) All major facility projects of public agencies receiving any
35 funding in a state capital budget, or projects financed through a
36 financing contract as defined in RCW 39.94.020, must be designed,
37 constructed, and certified to at least the LEED silver standard. This
38 subsection applies to major facility projects that have not entered
39 the design phase prior to July 24, 2005, and to the extent

1 appropriate LEED silver standards exist for that type of building or
2 facility.

3 (2) All major facility projects of any entity other than a public
4 agency or public school district receiving any funding in a state
5 capital budget must be designed, constructed, and certified to at
6 least the LEED silver standard. This subsection applies to major
7 facility projects that have not entered the grant application process
8 prior to July 24, 2005, and to the extent appropriate LEED silver
9 standards exist for that type of building or facility.

10 (3) (a) Public agencies, under this section, shall monitor and
11 document ongoing operating savings resulting from major facility
12 projects designed, constructed, and certified as required under this
13 section.

14 (b) Public agencies, under this section, shall report annually to
15 the department on major facility projects and operating savings.

16 (4) The department shall consolidate the reports required in
17 subsection (3) of this section into one report and report to the
18 governor and legislature by September 1st of each even-numbered year
19 beginning in 2006 and ending in 2016. In its report, the department
20 shall also report on the implementation of this chapter, including
21 reasons why the LEED standard was not used as required by RCW
22 39.35D.020(5)(b). The department shall make recommendations regarding
23 the ongoing implementation of this chapter, including a discussion of
24 incentives and disincentives related to implementing this chapter.

25 (5) For the purposes of determining compliance with the
26 requirement for a project to be designed, constructed, and certified
27 to at least the LEED silver standard, the department must credit one
28 additional point for a project that uses wood products with a
29 credible third-party sustainable forest certification or from forests
30 regulated under chapter 76.09 RCW, the Washington forest practices
31 act. For projects that qualify for this additional point, and for
32 which an additional point would have resulted in formal certification
33 under the LEED silver standard, the project must be deemed to meet
34 the standard under this section.

35 (6) During the (~~(2021-2023 and)~~) 2023-2025 and 2025-2027 fiscal
36 biennia, an alternative high-performance building certification, as
37 determined by the legislature, may be used instead of the LEED silver
38 building design, construction, and certification standard required by
39 this section.

1 **Sec. 8032.** RCW 43.19.125 and 2024 c 375 s 8010 are each amended
2 to read as follows:

3 (1) The director of enterprise services shall have custody and
4 control of the capitol buildings and grounds, supervise and direct

8 (2) During the 2023-2025 and 2025-2027 fiscal (~~biennium~~)
9 biennia, the director must give legislative members reasonable access
10 to reserve and utilize the reception room in the state legislative
11 building when not otherwise booked.

12 (3) During the 2025-2027 fiscal biennium, the director must
13 provide an annual guided tour to the top of the legislative dome for

17 **Sec. 8033.** RCW 43.63A.125 and 2022 c 296 s 7005 are each amended
18 to read as follows:

19 (1) The department shall establish the building communities fund
20 program. Under the program, capital and technical assistance grants
21 may be made to nonprofit organizations for acquiring, constructing,
22 or rehabilitating facilities used for the delivery of nonresidential

26 or serve a substantial number of low-income or disadvantaged persons.

27 (2) The department shall establish a competitive process to
28 solicit, evaluate, and rank applications for the building communities
29 fund program as follows:

30 (a) The department shall conduct a statewide solicitation of
31 project applications from nonprofit organizations.

32 (b) The department shall evaluate and rank applications in
33 consultation with a citizen advisory committee using objective
34 criteria. To be considered qualified, applicants must demonstrate
35 that the proposed project:

36 (i) Will increase the range, efficiency, or quality of the
37 services provided to citizens;

38 (ii) Will be located in a distressed community or will serve a
39 substantial number of low-income or disadvantaged persons;

1 (iii) Will offer three or more distinct activities that meet a
2 single community service objective or offer a diverse set of
3 activities that meet multiple community service objectives, including
4 but not limited to: Providing social services; expanding employment
5 opportunities for or increasing the employability of community
6 residents; or offering educational or recreational opportunities
7 separate from the public school system or private schools, as long as
8 recreation is not the sole purpose of the facility;

9 (iv) Reflects a long-term vision for the development of the
10 community, shared by residents, businesses, leaders, and partners;

11 (v) Requires state funding to accomplish a discrete, usable phase
12 of the project;

13 (vi) Is ready to proceed and will make timely use of the funds;

14 (vii) Is sponsored by one or more entities that have the
15 organizational and financial capacity to fulfill the terms of the
16 grant agreement and to maintain the project into the future;

17 (viii) Fills an unmet need for community services;

18 (ix) Will achieve its stated objectives; and

19 (x) Is a community priority as shown through tangible commitments
20 of existing or future assets made to the project by community
21 residents, leaders, businesses, and government partners.

22 (c) (i) The evaluation and ranking process shall also include an
23 examination of existing assets that applicants may apply to projects.
24 Grant assistance under this section shall not exceed 25 percent of
25 the total cost of the project, except as provided in (c) (ii) (~~and~~
26 ~~(iii)~~) of this subsection (2).

27 ~~(ii) ((For project lists submitted during the 2021-2023 fiscal~~
28 ~~biennium, grant assistance under this section may not exceed:~~

29 ~~(A) One hundred percent of the total cost for projects up to~~
30 ~~\$100,000;~~

31 ~~(B) Seventy-five percent of the total cost for projects that~~
32 ~~exceed \$100,000, up to \$250,000;~~

33 ~~(C) Fifty percent of the total cost for projects that exceed~~
34 ~~\$250,000, up to \$500,000.~~

35 ~~(iii))~~ Under exceptional circumstances, the department may
36 reduce the amount of nonstate match required. (~~However, during the~~
37 ~~2019-2021 biennium, the legislature may waive the match required for~~
38 ~~the projects specified in section 1009, chapter 413, Laws of 2019.))
39 No more than 10 percent of the total granted amount may be awarded to
40 qualified eligible projects that meet the definition of exceptional~~

1 circumstances defined in this subsection. (~~For project lists~~
2 ~~submitted during the 2021-2023 fiscal biennium, there is no limit to~~
3 ~~the total granted amount awarded to qualified eligible projects that~~
4 ~~meet the definition of exceptional circumstances defined in this~~
5 ~~subsection.~~) For purposes of this subsection, exceptional
6 circumstances include but are not limited to: Natural disasters
7 affecting projects; emergencies beyond an applicant's control, such
8 as a fire or an unanticipated loss of a lease where services are
9 currently provided; or a delay that could result in a threat to
10 public health or safety. The nonstate portion of the total project
11 cost may include cash, the value of real property when acquired
12 solely for the purpose of the project, and in-kind contributions.

13 (d) The department may not set a monetary limit to funding
14 requests.

15 (3) The department shall submit biennially to the governor and
16 the legislature in the department's capital budget request a ranked
17 list of the qualified eligible projects for which applications were
18 received. The list must include a description of each project, its
19 total cost, and the amount of state funding requested. For the list
20 submitted for funding in the 2027-2029 fiscal biennium, the total
21 amount of recommended state funding shall not exceed \$35,000,000. The
22 appropriate fiscal committees of the legislature shall use this list
23 to determine building communities fund projects that may receive
24 funding in the capital budget. The total amount of state capital
25 funding available for all projects on the biennial list shall be
26 determined by the capital budget beginning with the 2009-2011
27 biennium and thereafter. In addition, if cash funds have been
28 appropriated, up to \$3,000,000 may be used for technical assistance
29 grants. The department shall not sign contracts or otherwise
30 financially obligate funds under this section until the legislature
31 has approved a specific list of projects.

32 (4) In addition to the list of ranked qualified eligible
33 projects, the department shall submit to the appropriate fiscal
34 committees of the legislature a summary report that describes the
35 solicitation and evaluation processes, including but not limited to
36 the number of applications received, the total amount of funding
37 requested, issues encountered, if any, and any recommendations for
38 process improvements.

39 (5) After the legislature has approved a specific list of
40 projects in law, the department shall develop and manage appropriate

1 contracts with the selected applicants; monitor project expenditures
2 and grantee performance; report project and contract information; and
3 exercise due diligence and other contract management responsibilities
4 as required.

5 (6) In contracts for grants authorized under this section the
6 department shall include provisions which require that capital
7 improvements shall be held by the grantee for a specified period of
8 time appropriate to the amount of the grant and that facilities shall
9 be used for the express purpose of the grant. If the grantee is found
10 to be out of compliance with provisions of the contract, the grantee
11 shall repay to the state general fund the principal amount of the
12 grant plus interest calculated at the rate of interest on state of
13 Washington general obligation bonds issued most closely to the date
14 of authorization of the grant.

15 **Sec. 8034.** RCW 43.63A.750 and 2024 c 375 s 8014 are each amended
16 to read as follows:

17 (1) A competitive grant program to assist nonprofit organizations
18 in acquiring, constructing, or rehabilitating performing arts, art
19 museums, and cultural facilities is created.

20 (2)(a) The department shall submit a list of recommended
21 performing arts, art museum projects, and cultural organization
22 projects eligible for funding to the governor and the legislature in
23 the department's biennial capital budget request beginning with the
24 2001-2003 biennium and thereafter. The list, in priority order, shall
25 include a description of each project, the amount of recommended
26 state funding, and documentation of nonstate funds to be used for the
27 project. The total amount of recommended state funding for projects
28 on a biennial project list shall not exceed \$18,000,000.

29 (b) The department shall establish a competitive process to
30 prioritize applications for state assistance as follows:

31 (i) The department shall conduct a statewide solicitation of
32 project applications from nonprofit organizations, local governments,
33 and other entities, as determined by the department. For applications
34 submitted during the 2023-2025 and 2025-2027 fiscal (~~(biennium)~~)
35 biennia, nonprofit organizations that are certified by the
36 association of zoos and aquariums and that have long-term operating
37 or management agreements are eligible to apply. The department shall
38 evaluate and rank applications in consultation with a citizen
39 advisory committee, including a representative from the state arts

1 commission, using objective criteria. The evaluation and ranking
2 process shall also consider local community support for projects and
3 an examination of existing assets that applicants may apply to
4 projects.

5 (ii) The department may establish the amount of state grant
6 assistance for individual project applications but the amount shall
7 not exceed (~~(thirty-three and one-third)~~) 33.33 percent of the
8 estimated total capital cost or actual cost of a project, whichever
9 is less. The remaining portions of the project capital cost shall be
10 a match from nonstate sources. The nonstate match may include cash,
11 the value of real property when acquired solely for the purpose of
12 the project, and in-kind contributions. The department is authorized
13 to set matching requirements for individual projects. State
14 assistance may be used to fund separate definable phases of a project
15 if the project demonstrates adequate progress and has secured the
16 necessary match funding.

17 (iii) The department shall not sign contracts or otherwise
18 financially obligate funds under this section until the legislature
19 has approved a specific list of projects. In contracts for grants
20 authorized under this section, the department shall include
21 provisions requiring that capital improvements be held by the grantee
22 for a specified period of time appropriate to the amount of the grant
23 and that facilities be used for the express purpose of the grant. If
24 the grantee is found to be out of compliance with provisions of the
25 contract, the grantee shall repay to the state general fund the
26 principal amount of the grant plus interest calculated at the rate of
27 interest on state of Washington general obligation bonds issued most
28 closely to the date of authorization of the grant.

29 **Sec. 8035.** RCW 43.88.030 and 2023 c 474 s 8035 are each amended
30 to read as follows:

31 (1) The director of financial management shall provide all
32 agencies with a complete set of instructions for submitting biennial
33 budget requests to the director at least three months before agency
34 budget documents are due into the office of financial management. The
35 budget document or documents shall consist of the governor's budget
36 message which shall be explanatory of the budget and shall contain an
37 outline of the proposed financial policies of the state for the
38 ensuing fiscal period, as well as an outline of the proposed six-year
39 financial policies where applicable, and shall describe in connection

1 therewith the important features of the budget. The biennial budget
2 document or documents shall also describe performance indicators that
3 demonstrate measurable progress towards priority results. The message
4 shall set forth the reasons for salient changes from the previous
5 fiscal period in expenditure and revenue items and shall explain any
6 major changes in financial policy. Attached to the budget message
7 shall be such supporting schedules, exhibits and other explanatory
8 material in respect to both current operations and capital
9 improvements as the governor shall deem to be useful to the
10 legislature. The budget document or documents shall set forth a
11 proposal for expenditures in the ensuing fiscal period, or six-year
12 period where applicable, based upon the estimated revenues and
13 caseloads as approved by the economic and revenue forecast council
14 and caseload forecast council or upon the estimated revenues and
15 caseloads of the office of financial management for those funds,
16 accounts, sources, and programs for which the forecast councils do
17 not prepare an official forecast. Revenues shall be estimated for
18 such fiscal period from the source and at the rates existing by law
19 at the time of submission of the budget document, including the
20 supplemental budgets submitted in the even-numbered years of a
21 biennium. However, the estimated revenues and caseloads for use in
22 the governor's budget document may be adjusted to reflect budgetary
23 revenue transfers and revenue and caseload estimates dependent upon
24 budgetary assumptions of enrollments, workloads, and caseloads. All
25 adjustments to the approved estimated revenues and caseloads must be
26 set forth in the budget document. The governor may additionally
27 submit, as an appendix to each supplemental, biennial, or six-year
28 agency budget or to the budget document or documents, a proposal for
29 expenditures in the ensuing fiscal period from revenue sources
30 derived from proposed changes in existing statutes.

31 The budget document or documents shall also contain:

32 (a) Revenues classified by fund and source for the immediately
33 past fiscal period, those received or anticipated for the current
34 fiscal period, and those anticipated for the ensuing biennium;

38 direct by law or concurrent resolution;

1 (d) Such additional information dealing with revenues and
2 expenditures as the governor shall deem pertinent and useful to the
3 legislature;

4 (e) Tabulations showing expenditures classified by fund,
5 function, and agency;

6 (f) The expenditures that include nonbudgeted, nonappropriated
7 accounts outside the state treasury;

8 (g) Identification of all proposed direct expenditures to
9 implement the Puget Sound water quality plan under chapter 90.71 RCW,
10 shown by agency and in total; and

11 (h) Tabulations showing each postretirement adjustment by
12 retirement system established after fiscal year 1991, to include, but
13 not be limited to, estimated total payments made to the end of the
14 previous biennial period, estimated payments for the present
15 biennium, and estimated payments for the ensuing biennium.

16 (2) The budget document or documents shall include detailed
17 estimates of all anticipated revenues applicable to proposed
18 operating or capital expenditures and shall also include all proposed
19 operating or capital expenditures. The total of beginning
20 undesignated fund balance and estimated revenues less working capital
21 and other reserves shall equal or exceed the total of proposed
22 applicable expenditures. The budget document or documents shall
23 further include:

24 (a) Interest, amortization and redemption charges on the state
25 debt;

26 (b) Payments of all reliefs, judgments, and claims;

27 (c) Other statutory expenditures;

28 (d) Expenditures incident to the operation for each agency;

29 (e) Revenues derived from agency operations;

30 (f) Expenditures and revenues shall be given in comparative form

36 that otherwise would have been available for appropriation;

37 (h) Common school expenditures on a fiscal-year basis;

38 (i) A showing, by agency, of the value and purpose of financing
39 contracts for the lease/purchase or acquisition of personal or real
40 property for the current and ensuing fiscal periods; and

1 (j) A showing and explanation of anticipated amounts of general
2 fund and other funds required to amortize the unfunded actuarial
3 accrued liability of the retirement system specified under chapter
4 41.45 RCW, and the contributions to meet such amortization, stated in
5 total dollars and as a level percentage of total compensation.

6 (3) The governor's operating budget document or documents shall
7 reflect the statewide priorities as required by RCW 43.88.090.

8 (4) The governor's operating budget document or documents shall
9 identify activities that are not addressing the statewide priorities.

10 (5) (a) Beginning in the 2021-2023 fiscal biennium, the governor's
11 operating budget document or documents submitted to the legislature
12 must leave, in total, a positive ending fund balance in the general
13 fund and related funds.

14 (b) Beginning in the 2021-2023 fiscal biennium, the projected
15 maintenance level of the governor's operating budget document or
16 documents submitted to the legislature must not exceed the available

18 (c) For purposes of this subsection:

19 (i) "Available fiscal resources" means the beginning general fund
20 and related funds balances and any fiscal resources estimated for the
21 general fund and related funds, adjusted for proposed revenue
22 legislation, and with forecasted revenues adjusted to the greater of
23 (A) the official general fund and related funds revenue forecast for
24 the ensuing biennium, or (B) the official general fund and related
25 funds forecast for the second fiscal year of the current fiscal
26 biennium, increased by 4.5 percent for each fiscal year of the
27 ensuing biennium.

28 (ii) "Projected maintenance level" means estimated appropriations
29 necessary to maintain the continuing costs of program and service
30 levels either funded in the governor's budget document or documents
31 submitted to the legislature or mandated by other state or federal
32 law, adjusted by the estimated cost of proposed executive branch
33 legislation, and the amount of any general fund moneys projected to
34 be transferred to the budget stabilization account pursuant to
35 Article VII, section 12 of the state Constitution. Proposed executive
36 branch legislation does not include proposals by institutions of
37 higher education, other separately elected officials, or other
38 boards, commissions, and offices not under the authority of the
39 governor that are not funded or assumed in the governor's budget
40 document or documents submitted to the legislature.

1 (iii) "Related funds" has the meaning defined in RCW 43.88.055.

2 (d) (b) of this subsection (5) does not apply:

3 (i) To any governor-proposed legislation submitted to the
4 legislature that makes net reductions in general fund and related
5 funds appropriations to prevent the governor from making across-the-
6 board reductions in allotments for these particular funds as provided
7 in RCW 43.88.110(10); or

8 (ii) In a fiscal biennium for which the governor proposes
9 appropriations from the budget stabilization account pursuant to
10 Article VII, section 12(d)(ii) of the state Constitution.

11 (6) A separate capital budget document or schedule shall be
12 submitted that will contain the following:

13 (a) A statement setting forth a long-range facilities plan for
14 the state that identifies and includes the highest priority needs
15 within affordable spending levels;

16 (b) A capital program consisting of proposed capital projects for
17 the next biennium and the two biennia succeeding the next biennium
18 consistent with the long-range facilities plan. Inasmuch as is
19 practical, and recognizing emergent needs, the capital program shall
20 reflect the priorities, projects, and spending levels proposed in
21 previously submitted capital budget documents in order to provide a
22 reliable long-range planning tool for the legislature and state
23 agencies;

24 (c) A capital plan consisting of proposed capital spending for at

30 **Sec. 8036.** RCW 43.88D.010 and 2023 c 474 s 8034 are each amended
31 to read as follows:

32 (1) By October 1st of each even-numbered year, the office of
33 financial management shall complete an objective analysis and scoring
34 of all capital budget projects proposed by the public four-year
35 institutions of higher education and submit the results of the
36 scoring process to the legislative fiscal committees and the four-
37 year institutions. Each project must be reviewed and scored within
38 one of the following categories, according to the project's principal

1 purpose. Each project may be scored in only one category. The
2 categories are:

3 (a) Access-related projects to accommodate enrollment growth at
4 all campuses, at existing or new university centers, or through
5 distance learning. Growth projects should provide significant
6 additional student capacity. Proposed projects must demonstrate that
7 they are based on solid enrollment demand projections, more
8 cost-effectively provide enrollment access than alternatives such as
9 university centers and distance learning, and make cost-effective use
10 of existing and proposed new space;

11 (b) Projects that replace failing permanent buildings. Facilities
12 that cannot be economically renovated are considered replacement
13 projects. New space may be programmed for the same or a different use
14 than the space being replaced and may include additions to improve
15 access and enhance the relationship of program or support space;

16 (c) Projects that renovate facilities to restore building life
17 and upgrade space to meet current program requirements. Renovation
18 projects should represent a complete renovation of a total facility
19 or an isolated wing of a facility. A reasonable renovation project
20 should cost between sixty to eighty percent of current replacement
21 value and restore the renovated area to at least twenty-five years of
22 useful life. New space may be programmed for the same or a different
23 use than the space being renovated and may include additions to
24 improve access and enhance the relationship of program or support
25 space;

26 (d) Major stand-alone campus infrastructure projects;

27 (e) Projects that promote economic growth and innovation through
28 expanded research activity. The acquisition and installation of
29 specialized equipment is authorized under this category; and

30 (f) Other project categories as determined by the office of
31 financial management in consultation with the legislative fiscal
32 committees.

33 (2) The office of financial management, in consultation with the
34 legislative fiscal committees, shall establish a scoring system and
35 process for each four-year project category that is based on the
36 framework used in the community and technical college system of
37 prioritization. Staff from the state board for community and
38 technical colleges and the four-year institutions shall provide
39 technical assistance on the development of a scoring system and
40 process.

1 (3) The office of financial management shall consult with the
2 legislative fiscal committees in the scoring of four-year institution
3 project proposals, and may also solicit participation by independent
4 experts.

5 (a) For each four-year project category, the scoring system must,
6 at a minimum, include an evaluation of enrollment trends,
7 reasonableness of cost, the ability of the project to enhance
8 specific strategic master plan goals, age and condition of the
9 facility if applicable, and impact on space utilization.

10 (b) Each four-year project category may include projects at the
11 predesign, design, or construction funding phase.

12 (c) To the extent possible, the objective analysis and scoring
13 system of all capital budget projects shall occur within the context
14 of any and all performance agreements between the office of financial
15 management and the governing board of a public, four-year institution
16 of higher education that aligns goals, priorities, desired outcomes,
17 flexibility, institutional mission, accountability, and levels of
18 resources.

19 (4) In evaluating and scoring four-year institution projects, the
20 office of financial management shall take into consideration project
21 schedules that result in realistic, balanced, and predictable
22 expenditure patterns over the ensuing three biennia.

23 (5) The office of financial management shall distribute common
24 definitions, the scoring system, and other information required for
25 the project proposal and scoring process as part of its biennial
26 budget instructions. The office of financial management, in
27 consultation with the legislative fiscal committees, shall develop
28 common definitions that four-year institutions must use in developing
29 their project proposals and lists under this section.

30 (6) In developing any scoring system for capital projects
31 proposed by the four-year institutions, the office of financial
32 management:

33 (a) Shall be provided with all required information by the four-
34 year institutions as deemed necessary by the office of financial
35 management;

36 (b) May utilize independent services to verify, sample, or
37 evaluate information provided to the office of financial management
38 by the four-year institutions; and

1 (c) Shall have full access to all data maintained by the joint
2 legislative audit and review committee concerning the condition of
3 higher education facilities.

4 (7) By August 1st of each even-numbered year each public four-
5 year higher education institution shall prepare and submit
6 prioritized lists of the individual projects proposed by the
7 institution for the ensuing six-year period in each category. The
8 lists must be submitted to the office of financial management and the
9 legislative fiscal committees. The four-year institutions may
10 aggregate minor works project proposals by primary purpose for
11 ranking purposes. Proposed minor works projects must be prioritized
12 within the aggregated proposal, and supporting documentation,
13 including project descriptions and cost estimates, must be provided
14 to the office of financial management and the legislative fiscal
15 committees.

16 (8) For the 2021-2023 fiscal biennium, pursuant to subsection (1)
17 of this section, by November 1, 2022, the office of financial
18 management must score higher education capital project criteria with
19 a rating scale that assesses how well a particular project satisfies
20 those criteria. The office of financial management may not use a
21 rating scale that weighs the importance of those criteria.

22 (9) For the 2021-2023 fiscal biennium, pursuant to subsection
23 (6)(a) of this section and in lieu of the requirements of subsection
24 (7) of this section, by August 15, 2022, the institutions of higher
25 education shall prepare and submit or resubmit to the office of
26 financial management and the legislative fiscal committees:

27 (a) Individual project proposals developed pursuant to subsection
28 (1) of this section;

29 (b) Individual project proposals scored in prior biennia pursuant
30 to subsection (1) of this section; and

31 (c) A prioritized list of up to five project proposals submitted
32 pursuant to (a) and (b) of this subsection.

33 (10) The requirements of this section are suspended during the
34 2023-2025 and 2025-2027 fiscal ~~((biennium))~~ biennia. ~~((However,~~
35 ~~instead of these requirements, the public four-year institutions of~~
36 ~~higher education must submit additional supporting information for~~
37 ~~major project funding requests for the 2025-2027 fiscal biennium that~~
38 ~~is equivalent to the information produced for the 2022 higher~~
39 ~~education scoring process under subsection (9) of this section.~~
40 ~~Examples of the information required under this subsection include,~~

1 ~~but are not limited to, measures of: (a) Space efficiency, (b)~~
2 ~~reasonableness of project cost, (c) facility condition, and (d)~~
3 ~~anticipated impacts of the requested major projects on projected~~
4 ~~degree totals. The public four-year institutions of higher education~~
5 ~~shall consult with the office of financial management and legislative~~
6 ~~fiscal staff regarding the implementation of this requirement and the~~
7 ~~content of the additional information.)~~)

8 **Sec. 8037.** RCW 43.83B.430 and 2023 c 474 s 8033 and 2023 c 287 s

14 the account may be used for drought planning and preparedness
15 activities under this chapter, including grants issued under RCW

21 to read as follows:

22 (1) The stadium and exhibition center account is created in the
23 custody of the state treasurer. All receipts from the taxes imposed
24 under RCW 82.14.0494 and distributions under RCW 67.70.240(1)(d)
25 shall be deposited into the account. Only the director of the office
26 of financial management or the director's designee may authorize
27 expenditures from the account. The account is subject to allotment
28 procedures under chapter 43.88 RCW. An appropriation is not required
29 for expenditures from this account.

30 (2) Until bonds are issued under RCW 43.99N.020, up to \$5,000,000
31 per year beginning January 1, 1999, shall be used for the purposes of
32 subsection (3)(b) of this section, all remaining moneys in the
33 account shall be transferred to the public stadium authority, created
34 under RCW 36.102.020, to be used for public stadium authority
35 operations and development of the stadium and exhibition center.

36 (3) After bonds are issued under RCW 43.99N.020, all moneys in
37 the stadium and exhibition center account shall be used exclusively
38 for the following purposes in the following priority:

1 (a) On or before June 30th of each year, the office of financial
2 management shall accumulate in the stadium and exhibition center
3 account an amount at least equal to the amount required in the next
4 succeeding twelve months for the payment of principal of and interest
5 on the bonds issued under RCW 43.99N.020;

13 requirements of (a) of this subsection; and

14 (c) The balance, if any, shall be transferred to the youth
15 athletic facility account under subsection (4) of this section.

16 Any revenues derived from the taxes authorized by RCW
17 36.38.010(5) and 36.38.040 or other amounts that if used as provided
18 under (a) and (b) of this subsection would cause the loss of any tax
19 exemption under federal law for interest on bonds issued under RCW
20 43.99N.020 shall be deposited in and used exclusively for the
21 purposes of the youth athletic facility account and shall not be
22 used, directly or indirectly, as a source of payment of principal of
23 or interest on bonds issued under RCW 43.99N.020, or to replace or
24 reimburse other funds used for that purpose.

25 (4) Any moneys in the stadium and exhibition center account not
26 required or permitted to be used for the purposes described in
27 subsection (3)(a) and (b) of this section shall be deposited in the
28 youth athletic facility account hereby created in the state treasury.
29 Expenditures from the account may be used only for purposes of grants
30 or loans to cities, counties, and qualified nonprofit organizations
31 for community outdoor athletic facilities. Only the director of the
32 recreation and conservation office or the director's designee may
33 authorize expenditures from the account. The account is subject to
34 allotment procedures under chapter 43.88 RCW, but an appropriation is
35 not required for expenditures. The athletic facility grants or loans
36 may be used for acquiring, developing, equipping, maintaining, and
37 improving community outdoor athletic facilities. Funds shall be
38 divided equally between the development of new community outdoor
39 athletic facilities, the improvement of existing community outdoor
40 athletic facilities, and the maintenance of existing community

1 outdoor athletic facilities. Cities, counties, and qualified
2 nonprofit organizations must submit proposals for grants or loans
3 from the account. To the extent that funds are available, cities,
4 counties, and qualified nonprofit organizations must meet eligibility
5 criteria as established by the director of the recreation and
6 conservation office. The grants and loans shall be awarded on a
7 competitive application process and the amount of the grant or loan
8 shall be in proportion to the population of the city or county for
9 where the community outdoor athletic facility is located. Grants or
10 loans awarded in any one year need not be distributed in that year.
11 The director of the recreation and conservation office may expend up
12 to one and one-half percent of the moneys deposited in the account
13 created in this subsection for administrative purposes. During the
14 2021-2023 fiscal biennium, the legislature may appropriate moneys
15 from the youth athletic facility account to support a task force to
16 consider ways to improve equitable access to K-12 schools' fields and
17 athletic facilities and local parks agency facilities with the goal
18 of increasing physical activity for youth and families. A portion of
19 the appropriation must be used to inventory K-12 school fields and

27 appropriations made from the youth athletic facility account for
28 grants and loans to political subdivisions of the state other than
29 cities and counties as well as federally recognized Indian tribes for
30 community outdoor athletic facilities. The office is not required to
31 divide the expenditures equally between development, improvement, and
32 maintenance of facilities. The office's authority to retain 1.5
33 percent of amounts deposited in the account for administration is
34 suspended, and the office's administrative overhead is instead
35 specified in the appropriations for this purpose.

20 property for development of affordable housing;

21 (v) Public funding to assist potentially liable persons to pay
22 for the costs of remedial action in compliance with clean-up
23 standards under RCW 70A.305.030(2)(e) if:

24 (A) The amount and terms of the funding are established under a
25 settlement agreement under RCW 70A.305.040(4); and

26 (B) The director has found that the funding will achieve both a
27 substantially more expeditious or enhanced cleanup than would
28 otherwise occur, and the prevention or mitigation of unfair economic
29 hardship;

30 (vi) Public funding to assist prospective purchasers to pay for
31 the costs of remedial action in compliance with clean-up standards
32 under RCW 70A.305.030(2)(e) if:

33 (A) The facility is located within a redevelopment opportunity
34 zone designated under RCW 70A.305.150;

35 (B) The amount and terms of the funding are established under a
36 settlement agreement under RCW 70A.305.040(5); and

37 (C) The director has found the funding will achieve a
38 substantially more expeditious or enhanced cleanup than would
39 otherwise occur, provide a public benefit in addition to cleanup

1 commensurate with the scope of the public funding; and meet any
2 additional criteria established in rule by the department; and

3 (vii) To expedite multiparty clean-up efforts, purchase of
4 remedial action cost-cap insurance;

5 (b) Grants, or loans, or contracts to local governments for solid
6 waste plans and programs under chapters 70A.205, 70A.214, 70A.224,
7 70A.222, 70A.230, and 70A.300 RCW. Funds must be allocated consistent
8 with priorities and matching requirements in the respective chapters;

9 (c) Toxic air pollutant reduction programs, including grants or
10 loans to local governments for woodstoves and diesel;

11 (d) Grants, loans, or contracts to local governments for
12 hazardous waste plans and programs under chapters 70A.405 and 70A.300
13 RCW, including chemical action plan implementation. Funds must be
14 allocated consistent with priorities and matching requirements in the
15 respective chapters; and

16 (e) Petroleum-based plastic or expanded polystyrene foam debris
17 clean-up activities in fresh or marine waters.

18 (5) The department may establish and administer a program to
19 provide grants and loans to local governments for remedial actions,
20 including planning for adaptive reuse of contaminated properties. To
21 expedite cleanups throughout the state, the department may use the
22 following strategies when providing grants to local governments under
23 this subsection:

24 (a) Enter into an extended grant agreement with a local
25 government conducting remedial actions at a facility where those
26 actions extend over multiple biennia and the total eligible cost of
27 those actions exceeds \$20,000,000. The agreement is subject to the
28 following limitations:

29 (i) The initial duration of such an agreement may not exceed 10
30 years. The department may extend the duration of such an agreement
31 upon finding substantial progress has been made on remedial actions
32 at the facility;

33 (ii) Extended grant agreements may not exceed 50 percent of the
34 total eligible remedial action costs at the facility; and

35 (iii) The department may not allocate future funding to an
36 extended grant agreement unless the local government has demonstrated
37 to the department that funds awarded under the agreement during the
38 previous biennium have been substantially expended or contracts have
39 been entered into to substantially expend the funds;

1 (b) Enter into a grant agreement with a local government
2 conducting a remedial action that provides for periodic reimbursement
3 of remedial action costs as they are incurred as established in the
4 agreement;

5 (c) Enter into a grant agreement with a local government prior to
6 it acquiring a property or obtaining necessary access to conduct
7 remedial actions, provided the agreement is conditioned upon the
8 local government acquiring the property or obtaining the access in
9 accordance with a schedule specified in the agreement;

10 (d) Provide integrated planning grants to local governments to
11 fund studies necessary to facilitate remedial actions at brownfield
12 properties and adaptive reuse of properties following remediation.
13 Eligible activities include, but are not limited to: Environmental
14 site assessments; remedial investigations; health assessments;
15 feasibility studies; site planning; community involvement; land use
16 and regulatory analyses; building and infrastructure assessments;
17 economic and fiscal analyses; and any environmental analyses under
18 chapter 43.21C RCW;

19 (e) Provide grants to local governments for remedial actions
20 related to area-wide groundwater contamination. To receive the
21 funding, the local government does not need to be a potentially
22 liable person or be required to seek reimbursement of grant funds
23 from a potentially liable person;

24 (f) The director may alter grant matching requirements to create
25 incentives for local governments to expedite cleanups when one of the
26 following conditions exists:

27 (i) Funding would prevent or mitigate unfair economic hardship
28 imposed by the clean-up liability;

29 (ii) Funding would create new substantial economic development,
30 public recreational opportunities, or habitat restoration
31 opportunities that would not otherwise occur; or

32 (iii) Funding would create an opportunity for acquisition and
33 redevelopment of brownfield property under RCW 70A.305.040(5) that
34 would not otherwise occur; and

35 (g) When pending grant applications under subsection (4)(d) and
36 (e) of this section exceed the amount of funds available, designated
37 redevelopment opportunity zones must receive priority for
38 distribution of available funds.

1 (6) Except for unanticipated receipts under RCW 43.79.260 through
2 43.79.282, moneys in model toxics control capital account may be
3 spent only after appropriation by statute.

4 (7) The legislature finds that, in 2023, wildfires in Spokane and
5 Pend Oreille counties resulted in a loss of approximately 366 homes
6 as well as secondary buildings. The burning of these structures has
7 resulted in a large toxic debris field containing asbestos, heavy
8 metals, plastics, and fuel which are at risk of leaching into the
9 soil and groundwater. During the 2023-2025 and 2025-2027 fiscal
10 (~~biennium~~) biennia, moneys in the model toxics control capital
11 account may be used for financial assistance to local governments for
12 the testing of hazardous materials, removal of debris, and
13 remediation of soil necessary to support the rebuilding of
14 communities impacted by these wildfires.

15 **Sec. 8042.** RCW 79.24.720 and 2015 c 225 s 124 are each amended
16 to read as follows:

19 and historic facilities of the state capitol, subject to the policy
20 direction of the state capitol committee and the guidance of the

28 (3) Consult with the capitol furnishings preservation committee,
29 the state historic preservation officer, the state arts commission,
30 and the state facilities accessibility advisory committee in
31 fulfilling the responsibilities provided for in this section; and

32 (4) During the 2025-2027 fiscal biennium, cooperate with the
33 department of ecology in fulfilling its obligations under section
34 3029 of this act.

35 NEW SECTION. **Sec. 8043.** On July 1, 2025, the state treasurer
36 shall transfer \$21,307,000 of federal funding, or as much thereof as
37 is remaining, from the appropriation in section 7017, chapter 474,

1 Laws of 2023 to the federal broadband account created in RCW
2 43.330.400 (section 8040 of this act).

3 NEW SECTION. **Sec. 8044.** Section 8039 of this act takes effect
4 July 1, 2025, if Senate Bill No. 5804 is not enacted by June 30,
5 2025.

6 NEW SECTION. **Sec. 8045.** If any provision of this act or its
7 application to any person or circumstance is held invalid, the
8 remainder of the act or the application of the provision to other
9 persons or circumstances is not affected.

10 NEW SECTION. **Sec. 8046.** Except for section 8039 of this act,
11 this act is necessary for the immediate preservation of the public
12 peace, health, or safety, or support of the state government and its
13 existing public institutions, and takes effect immediately.
