**Sec. 201.** 1993 sp.s. c 24 s 201 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.** (1)  
~~((Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose))~~ The appropriations in sections 201 through 214 of chapter 24, Laws of 1993 sp. sess., as amended, shall be expended for the programs and in the amounts listed in those sections. However, after May 1, 1995, unless specifically prohibited by this act, the department may transfer moneys among programs and among amounts provided under conditions and limitations after approval by the director of financial management. Appropriations from the health services account shall not be transferred under this subsection. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing prior to approving any deviation from the appropriation levels and any deviation from conditions and limitations.

(2) The department of social and health services shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law, or unless the services were provided on March 1, 1993. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify

1 the legislative fiscal committees. As used in this subsection,  
2 "unrestricted federal moneys" includes block grants and other funds  
3 that federal law does not require to be spent on specifically defined  
4 projects or matched on a formula basis by state funds.

5 (3) The department shall identify social service programs  
6 administered by the department to be eliminated in fiscal year 1995.  
7 The funding for the identified programs will be used to establish a  
8 state social services block grant through which funds will be  
9 distributed state-wide on a formula basis to local consortiums, which  
10 may include public and private entities. By January 1, 1994, the  
11 department shall recommend the following to the appropriate legislative  
12 committees: (a) The list of identified programs; (b) a grant proposal  
13 process; (c) a method of distribution for the block grant funds  
14 including an allocation formula; and (d) a percentage of the block  
15 grant to be used for local administration. In developing the  
16 recommendations, the department shall consult with representatives of  
17 local governments and social service providers. The department's  
18 general fund--state appropriation has been reduced by \$1,000,000 to  
19 reflect savings which will result in fiscal year 1995 from the  
20 elimination of state administration of the identified programs. The  
21 department may transfer funds to the division of children and family  
22 services from other divisions to the extent that savings are realized  
23 in other divisions as a result of these reductions.

16       (a) \$4,618,000 of the general fund--state appropriation and  
17 \$5,409,000 of the general fund--federal appropriation are provided  
18 solely for additional children's mental health services required in  
19 accordance with the medicaid early and periodic screening, diagnosis,

13 baseline level forecast for their region shall receive bonus payments  
14 for their performance. The mental health division shall seek approval  
15 from the federal government to include federal matching funds in the

22 solely to assist western Washington regional support networks in  
23 reducing the average daily population of western state hospital.

28 be spread on a formula basis across all providers and regional support  
29 networks.

30 (g) The department shall submit to the house of representatives  
31 appropriations committee and the senate ways and means committee by  
32 November 15, 1994, a report outlining the following: The ratio of

1 types shall include at least residential programs, employment programs,  
2 and other service types that lead to normalizing activities.

23 (4) The appropriations in this section are subject to the following  
24 conditions and limitations:

25 (a) The population of the state residential habilitation centers  
26 shall be reduced by at least 123 persons by January 1995. This shall  
27 be accomplished by providing appropriate community services for those  
28 residents who are most ready to move, and by closing the building and  
29 administration at Interlake School. In implementing this redeployment  
30 of resources, the secretary of social and health services shall assure  
31 that:

32 (i) No individual shall be moved from an institutional to a

35 being, and continued growth and development on an ongoing basis;

36 (ii) The savings to general fund--state expenditures from the  
37 residential habilitation center consolidations shall exceed the

1 additional costs of new community services for persons moving from the  
2 residential habilitation centers by at least \$1,200,000;

3 (iii) A transition plan is developed and implemented for state  
4 employees dislocated by the redeployment. The plan shall be tailored  
5 to the situations of individual workers and shall include strategies  
6 such as individual employment counseling through the departments of  
7 personnel and employment security; retraining and placement into other

9 assistance establishing private community service programs; and

10 (iv) A report is submitted to appropriate committees of the  
11 legislature by October 1, 1993, and at the beginning of each biennial  
12 quarter thereafter, on specific plans for accomplishing the goals of  
13 this subsection (4)(a), and their outcomes.

14 (b)(i) The number of persons receiving community residential  
15 services shall not be reduced below the end of fiscal year 1993 level,  
16 and shall be increased by the number of persons moving from residential  
17 habilitation centers; and

18 (ii) The benchmark wage and benefits rate for contracted community  
19 residential providers shall not be reduced below the January 1993  
20 level.

21 (c) In addition to slots needed to accommodate persons moving from  
22 ICF/MR and nursing facilities, the secretary shall seek federal  
23 approval to expand by at least 750 the number of persons receiving  
24 services under federal medicaid home- and community-based services  
25 waivers. If the waiver request is not approved by the federal health  
26 care financing administration, the secretary is authorized to use up to  
27 \$18,000,000 of the general fund--state appropriation to develop  
28 intermediate care facilities for the mentally retarded, personal care,  
29 rehabilitative, and other services reimbursable under medicaid without

**Sec. 501.** 1994 sp.s. c 6 s 502 (uncodified) is amended to read as follows:

**FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR GENERAL APPORTIONMENT (BASIC EDUCATION)**

General Fund Appropriation . . . . . \$ ((~~6,007,518,000~~))  
5,986,385,000

The appropriation in this section is subject to the following conditions and limitations:

(1) The general fund appropriation includes such funds as are necessary for the remaining months of the 1992-93 school year.

(2) Allocations for certificated staff salaries for the 1993-94 and 1994-95 school years shall be determined using formula-generated staff units calculated pursuant to this subsection. Staff allocations for small school enrollments in grades K-6 shall be the greater of that generated under (a) of this subsection, or under (d) and (e) of this subsection. Certificated staffing allocations shall be as follows:

(a) On the basis of each 1,000 average annual full time equivalent enrollments, excluding full time equivalent enrollment otherwise recognized for certificated staff unit allocations under (c) through (f) of this subsection:

(i) Four certificated administrative staff units for grades K-12, excluding full time equivalent handicapped enrollment recognized for funding purposes under section 507 of this act;

(ii) 49 certificated instructional staff units, as required in RCW 28A.150.260(2)(b), for grades K-3, excluding full time equivalent handicapped students ages six through eight;

(iii) An additional 5.3 certificated instructional staff units for grades K-3;

(A) Funds provided under this subsection (2)(a)(iii) in excess of the amount required to maintain the statutory minimum ratio established under RCW 28A.150.260(2)(b) shall be allocated only if the district documents an actual ratio equal to or greater than 54.3 certificated instructional staff per thousand full time equivalent students in grades K-3. For any school district documenting a lower

1 certificated instructional staff ratio, the allocation shall be based  
2 on the district's actual grades K-3 certificated instructional staff  
3 ratio achieved in that school year, or the statutory minimum ratio  
4 established under RCW 28A.150.260(2)(b), if greater.

5 (B) Districts at or above 51.0 certificated instructional staff per  
6 one thousand full time equivalent students in grades K-3 may dedicate  
7 up to 1.3 of the 54.3 funding ratio to employ additional classified  
8 instructional assistants assigned to basic education classrooms in  
9 grades K-3. For purposes of documenting a district's staff ratio under  
10 this section, funds used by the district to employ additional  
11 classified instructional assistants shall be converted to a  
12 certificated staff equivalent and added to the district's actual  
13 certificated instructional staff ratio. Additional classified  
14 instructional assistants, for the purposes of this subsection, shall be  
15 determined using the 1989-90 school year as the base year.

16 (C) Any district maintaining a ratio equal to or greater than 54.3  
17 certificated instructional staff per thousand full time equivalent  
18 students in grades K-3 may use allocations generated under this  
19 subsection (2)(a)(iii) in excess of that required to maintain the  
20 minimum ratio established under RCW 28A.150.260(2)(b) to employ  
21 additional basic education certificated instructional staff or  
22 classified instructional assistants in grades 4-6. Funds allocated  
23 under this subsection (2)(a)(iii) shall only be expended to reduce  
24 class size in grades K-6. No more than 1.3 of the certificated  
25 instructional funding ratio amount may be expended for provision of  
26 classified instructional assistants; and

27 (iv) Forty-six certificated instructional staff units for grades 4-  
28 12, excluding full time equivalent handicapped students ages nine and  
29 above; and

30 (b) For school districts with a minimum enrollment of 250 full time  
31 equivalent students whose full time equivalent student enrollment count  
32 in a given month exceeds the first of the month full time equivalent  
33 enrollment count by 5 percent, an additional state allocation of 110  
34 percent of the share that such increased enrollment would have  
35 generated had such additional full time equivalent students been  
36 included in the normal enrollment count for that particular month;

37 (c) On the basis of full time equivalent enrollment in vocational  
38 education programs and skill center programs approved by the  
39 superintendent of public instruction, 0.92 certificated instructional

1 staff units and 0.08 certificated administrative staff units for each  
2 16.67 full time equivalent vocational students;

3 (d) For districts enrolling not more than twenty-five average  
4 annual full time equivalent students in grades K-8, and for small  
5 school plants within any school district which have been judged to be  
6 remote and necessary by the state board of education and enroll not  
7 more than twenty-five average annual full time equivalent students in  
8 grades K-8:

9 (i) For those enrolling no students in grades seven and eight, 1.76  
10 certificated instructional staff units and 0.24 certificated  
11 administrative staff units for enrollment of not more than five  
12 students, plus one-twentieth of a certificated instructional staff unit  
13 for each additional student enrolled; and

14 (ii) For those enrolling students in grades 7 or 8, 1.68  
15 certificated instructional staff units and 0.32 certificated  
16 administrative staff units for enrollment of not more than five  
17 students, plus one-tenth of a certificated instructional staff unit for  
18 each additional student enrolled.

19 (e) For specified enrollments in districts enrolling more than  
20 twenty-five but not more than one hundred average annual full time  
21 equivalent students in grades K-8, and for small school plants within  
22 any school district which enroll more than twenty-five average annual  
23 full time equivalent students in grades K-8 and have been judged to be  
24 remote and necessary by the state board of education:

25 (i) For enrollment of up to sixty annual average full time  
26 equivalent students in grades K-6, 2.76 certificated instructional  
27 staff units and 0.24 certificated administrative staff units; and

28 (ii) For enrollment of up to twenty annual average full time  
29 equivalent students in grades 7 and 8, 0.92 certificated instructional  
30 staff units and 0.08 certificated administrative staff units.

31 (f) For districts operating no more than two high schools with  
32 enrollments of less than three hundred average annual full time  
33 equivalent students, for enrollment in grades 9-12 in each such school,  
34 other than alternative schools:

35 (i) For remote and necessary schools enrolling students in any  
36 grades 9-12 but no more than twenty-five average annual full time  
37 equivalent students in grades K-12, four and one-half certificated  
38 instructional staff units and one-quarter of a certificated  
39 administrative staff unit;

1 (ii) For all other small high schools under this subsection, nine  
2 certificated instructional staff units and one-half of a certificated  
3 administrative staff unit for the first sixty average annual full time  
4 equivalent students, and additional staff units based on a ratio of  
5 0.8732 certificated instructional staff units and 0.1268 certificated  
6 administrative staff units per each additional forty-three and one-half  
7 average annual full time equivalent students.

8 Units calculated under (f)(ii) of this subsection shall be reduced  
9 by certificated staff units at the rate of forty-six certificated  
10 instructional staff units and four certificated administrative staff  
11 units per thousand vocational and handicapped full time equivalent  
12 students.

13 (g) For each nonhigh school district having an enrollment of more  
14 than seventy annual average full time equivalent students and less than  
15 one hundred eighty students, operating a grades K-8 program or a grades  
16 1-8 program, an additional one-half of a certificated instructional  
17 staff unit;

18 (h) For each nonhigh school district having an enrollment of more  
19 than fifty annual average full time equivalent students and less than  
20 one hundred eighty students, operating a grades K-6 program or a grades  
21 1-6 program, an additional one-half of a certificated instructional  
22 staff unit.

23 (3) Allocations for classified salaries for the 1993-94 and 1994-95  
24 school years shall be calculated using formula-generated classified  
25 staff units determined as follows:

26 (a) For enrollments generating certificated staff unit allocations  
27 under subsection (2) (d) through (h) of this section, one classified  
28 staff unit for each three certificated staff units allocated under such  
29 subsections.

30 (b) For all other enrollment in grades K-12, including vocational  
31 but excluding handicapped full time equivalent enrollments, one  
32 classified staff unit for each sixty average annual full time  
33 equivalent students.

34 (c) For each nonhigh school district with an enrollment of more  
35 than fifty annual average full time equivalent students and less than  
36 one hundred eighty students, an additional one-half of a classified  
37 staff unit.

38 (4) Fringe benefit allocations shall be calculated at a rate of  
39 21.29 percent in the 1993-94 school year and 21.29 percent in the 1994-

1 95 school year of certificated salary allocations provided under  
2 subsection (2) of this section, and a rate of 18.73 percent in the  
3 1993-94 school year and 18.73 percent in the 1994-95 school year of  
4 classified salary allocations provided under subsection (3) of this  
5 section.

6 (5) Insurance benefit allocations shall be calculated at the rates  
7 specified in section 504 of this act, based on:

8 (a) The number of certificated staff units determined in subsection  
9 (2) of this section; and

10 (b) The number of classified staff units determined in subsection  
11 (3) of this section multiplied by 1.152. This factor is intended to  
12 adjust allocations so that, for the purposes of distributing insurance  
13 benefits, full time equivalent classified employees may be calculated  
14 on the basis of 1440 hours of work per year, with no individual  
15 employee counted as more than one full time equivalent.

16 (6)(a) For nonemployee-related costs associated with each  
17 certificated staff unit allocated under subsection (2) (a), (b), and  
18 (d) through (h) of this section, there shall be provided a maximum of  
19 \$7,251 per certificated staff unit in the 1993-94 school year and a  
20 maximum of \$7,439 per certificated staff unit in the 1994-95 school  
21 year.

22 (b) For nonemployee-related costs associated with each certificated  
23 staff unit allocated under subsection (2)(c) of this section, there  
24 shall be provided a maximum of \$13,817 per certificated staff unit in  
25 the 1993-94 school year and a maximum of \$14,176 per certificated staff  
26 unit in the 1994-95 school year.

27 (7) Allocations for substitute costs for classroom teachers shall  
28 be distributed at a maximum rate of \$341 for the 1993-94 school year  
29 and \$341 per year for the 1994-95 school year for allocated classroom  
30 teachers. Solely for the purposes of this subsection, allocated  
31 classroom teachers shall be equal to the number of certificated  
32 instructional staff units allocated under subsection (2) of this  
33 section, multiplied by the ratio between the number of actual basic  
34 education certificated teachers and the number of actual basic  
35 education certificated instructional staff reported state-wide for the  
36 1992-93 school year.

37 (8) Any school district board of directors may petition the  
38 superintendent of public instruction by submission of a resolution  
39 adopted in a public meeting to reduce or delay any portion of its basic

1 education allocation for any school year. The superintendent of public  
2 instruction shall approve such reduction or delay if it does not impair  
3 the district's financial condition. Any delay shall not be for more  
4 than two school years. Any reduction or delay shall have no impact on  
5 levy authority pursuant to RCW 84.52.0531 and local effort assistance  
6 pursuant to chapter 28A.500 RCW.

7 (9) The superintendent may distribute a maximum of \$4,953,000  
8 outside the basic education formula during fiscal years 1994 and 1995  
9 as follows:

10 (a) For fire protection for school districts located in a fire  
11 protection district as now or hereafter established pursuant to chapter  
12 52.04 RCW, a maximum of \$409,000 may be expended in fiscal year 1994  
13 and a maximum of \$419,000 may be expended in fiscal year 1995.

14 (b) For summer vocational programs at skills centers, a maximum of  
15 \$1,905,000 may be expended in fiscal year 1994 and a maximum of  
16 \$1,924,000 may be expended in fiscal year 1995.

17 (c) A maximum of \$296,000 may be expended for school district  
18 emergencies.

19 (10) The superintendent shall distribute a maximum of \$18,750,000  
20 outside the basic education formula for the purchase of instructional  
21 materials and technology related investments to improve learning for  
22 all students. The superintendent shall allocate the funds at a maximum  
23 rate of \$20.61 per full time equivalent student, beginning September 1,  
24 1994, and ending June 30, 1995, except that each skill center shall be  
25 allocated \$40,000 instead of receiving a per student allocation from  
26 participating school districts. The expenditure of the funds shall be  
27 determined at each school site by the school building staff, parents,  
28 and the community where site-based decision-making has been adopted or,  
29 where not adopted, by the building staff including itinerant teachers.  
30 Expenditures on technology investments by a school site should, to the  
31 greatest extent possible, be consistent with the district's technology  
32 plan. School districts shall distribute all funds received without  
33 deduction for indirect costs. Funds provided by this subsection do not  
34 fall within the definition of basic education under Article IX of the  
35 state Constitution.

36 (11) For the purposes of RCW 84.52.0531, the increase per full time  
37 equivalent student in state basic education appropriations provided  
38 under this act, including appropriations for salary and benefits  
39 increases, is 1.0 percent from the 1992-93 school year to the 1993-94

1 school year, and 1.0 percent from the 1993-94 school year to the  
2 1994-95 school year.

3 (12) If two or more school districts consolidate and each district  
4 was receiving additional basic education formula staff units pursuant  
5 to subsection (2) (b) through (h) of this section, the following shall  
6 apply:

7 (a) For three school years following consolidation, the number of  
8 basic education formula staff units shall not be less than the number  
9 of basic education formula staff units received by the districts in the  
10 school year prior to the consolidation; and

11 (b) For the fourth through eighth school years following  
12 consolidation, the difference between the basic education formula staff  
13 units received by the districts for the school year prior to  
14 consolidation and the basic education formula staff units after  
15 consolidation pursuant to subsection (2) (a) through (h) of this  
16 section shall be reduced in increments of twenty percent per year.
